The Liberal Convention,

The first Provincial Liberal Convention to assemble in B. C., was called to order at New Westminster on the 8th inst. with Mr. Auley Morrison, M. P., acting as chairman and Mr. J. H. Kerr of Vancouver acting as Secretary. There were 115 delegates present, representing the whole of the Dominion electorial districts of the province.

After the roll call of delegates, the convention proceeded to business, and and at once commenced the formation of the B. C. Liberal Association with the following officers: President, secretary, treasurer, one vice-president for each Dominion electorial district, and an executive committee of three from each Dominion electorial district; the president, vice-president, secretary, and treasurer to be ex-officio members of the executive committee.

The nomination of officers was then proceeded with, when Mr. E. P. Davis, Q. C., and Mr. Wm. Templeman, were nominated, but Mr. Templeman did not seek the office and asked to withdraw. However, a vote was taken which resulted as follows: Mr. Davis, 45; Mr. Templeman 55. The nomination of Mr. Templeman was made unanimous.

The nominations for secretary were Mr. J. H. Kerr and D. C. McGregor. Mr. Kerr received 50 votes and Mr. McGregor, 41; the nomination was made unanimous.

Dr. McKechnie, of Nanaimo, was unanimously elected treasurer.

The election of vice-presidents and committee men was then gone on with and resulted as follows:

Victoria City:—Vice-president, Mr. Geo. Riley; committeemen, Mr. E. V Bodwell, Col. Gregory, R. L. Drury.

Burrard District—Vice-president, Mr E. P. Davis; committeemen, Mr. J. H. Senkler, Ald. McQueen, Mr. Wm. McCraney.

New Westminster district—Vice-president, Mr. Alex. Henderson; committeemen, Mr. J. B. Kennedy, M.P.P. Mr. A. S. Vedder, M. P. P., Mr. John Oliver.

Vancouver Island—Vice-president, Mr. John Slugget; committeemen, Mr. Ralph Smith, Mr. J. Evans, Mr. Stevens.

Yale-Cariboo—Vice-president, Mr. Wm. Bailie; committeemen, Mr. J. Martin, Mr. D. O'Hara, Mr. R. G. Macpherson.

It was now 6 o'clock and adjournment was in order.

At this juncture, Mr. Wm. Templeman suggested that this the first Provincial Liberal convention should send a congratulatory address to Sir Wilfrid Laurier on his elevation of knighthood, and on his great success in Great Britain recently.

Mr. Jas. McQueen seconded the motion, which was carried unanimously. A committee, consisting of Messrs. A. H. Scaife, E. P. Davis, H. Bostock, M. P., Auley Morrison, M. J., and Dr. McKechnie were appointed to draft the address.

An adjournment was then taken.

Quarantine Regulations, etc.

As many are ignorant upon the subject of the quarantine and other regulations now in force with regard to the importation of stock into any part of the Dominion we quote for the guidance of our readers the following government rules covering the same.

Sec. 21. All cattle to be admitted for breeding purposes shall be accompanied:—

(a.) A declaration made by the importer that they are actually for breeding and no other purposes.

(b.) A certificate signed by a Government Veterinarian that they have been subjected to the tuberculin test and found free from tuberculosis. Such certificates must show the date of testing and chart of reaction, with a description of the animal, giving age and markings. The importer may be required to swear that the certificate refers to the animal represented.

(c.) A certificate of inspection, signed by a Government Veterinarian, show that the animals are free from contagious disease, and that no contagious disease of cattle (excepting tuberculosis and antinomycosis) exists in the district whence they came.

(d.) When not accompanied by such certificates the animal or animals must be detained in quarantine one week and subject to the tuberculin test.

(e.) Should they be found tuberculous they must be returned to the country from which shipped, or slaughtered without compensation.

Fat cattle and cattle for feeding, including range cattle for stocking ranges.

Section 22. This class of animals shall be accompanied by a certificate of inspection, signed by an official Veterinarian, showing that the animals are free from contagious disease, and that no contagious disease of cattle (excepting tuberculosis or actinomycosis) exists in the district whence they came.

Settlers' cattle.

Sec. 23. Settlers' cattle, when accompanied by certificates of health, to be admitted without detention; unaccompanied, they must be inspected. Inspectors may subject any cattle showing symptoms of tuberculosis to the tuberculin test before allowing them to enter.

Sec. 24. Any cattle found tuberculous to be returned to the United States or killed without indemnity.

Sec. 25. Swine may be admitted for breeding purposes, subject to a quarantine of fifteen days.

Sec. 26. Swine may be admitted when forming part of settlers effects, when accompanied by a certificate that the swine plague or hog cholera has not existed in the district whence they came for six months preceeding the date of shipment; when not accompanied by such certificate they must be subject to inspection at port of entry.

If found diseased to be slaughtered without compensation.

Swine for slaughter in bond.

Sec. 27. Swine may be imported into Canada without inspection for the purpose of being slaughtered; the importer shall enter the same for warehouse upon the usual form of such entries, stating upon its face the number, live weight and value of the herd, and the rate and the amount of duty prescribed by the tariff in force at the time of making such entry. Such importer shall then execute a bond to the Queen, with two sufficient securities to the satisfaction of the Collector of Customs at the port where such carcases are imported or warehoused, in double the amount of such duty; the condition of such bond shall be that upon due exportation within one year of the products of the swine so imported slaughtered and cured in the form of pork, bacon, hams, shoulders, lard, and payment of duty secured by the said bond, then the said bond shall become null and void, otherwise shall remain in full force and virtue.

Sec. 28. After the reception of the swine into the bonding warehouse or slaughter house, it shall not be lawful to remove any of them alive therefrom under any pretence or for any reason whatever.

Sec. 29. The product of such swine, after having been slaughtered, shall not be removed for any purpose from the bonding place without a permit from the collector or proper Officer of Customs, as in the case of all other bonded goods.

Sec. 37. Swine may be imported at any customs warehouse port of entry in Canada, in bond, subject in all respects to the provisions in relation thereto contained in "this Order."

EDITORIAL NOTES.

IT is rumored that the Cariboo company of Camp McKinney intend shortly to install two or three new boilers at the mine, and also increase the capacity of their battery by an addition of 20 more stamps. It would not be at all surprising should this rumor be founded on fact, as it is well known the company are taking out more ore at the present time than they can handle with their 10 stamp mill, and since the introduction of the Burley drills the work of development is progressing so rapidly, they will soon have large reserves of ore blocked out, in fact there is sufficient in sight at present to keep a large plant running for a very considerable length of time. Without doubt the Cariboo ranks first among the free milling gold propositions of B. C. and well does she deserve that distinction.

AT the opening ceremony of the sixth annual exhibition of the Okanagan and Spallumcheen Agricultural Society, the member elect for this riding Mr. Donald Graham had the honor of presiding. His remarks we are told were tinged with politics, he having taken occasion during his speech to refer to the railway question, as affecting his hearers, the people of this district, and the province as a whole. He is reported to have said that, he held that the road from Penticton to Rossland should be constructed as a government work. From this it can be clearly gathered that not to Mr. Graham's door at anyrate should be laid the blame for any delay in the providing railway communication to this district (as a section of the provincial press is at the present time claiming,) and the more thoroughly are we convinced of such, as we remember how strenously he fought over the clause relating to the enforcement of the early construction of the C. & W. or any other railway, that might take advantage of the cash subsidy of $4,000 a mile voted for the building of 100 miles of road between Penticton and Boundary Creek.

A PETITION has been circulating in the district recently which has received the signature of a large number of residents, who are interested in the development of the west Kettle river section. The petitioners pray that a means be afforded them and others, by which they can in the early spring find their way up the main Kettle river. The great obstruction to their progress is the west fork of the stream which at a point a few miles above Rock Creek has to be crossed. This is made a necesssity as the claims, many in number, which have been taken up this summer, lie enclosed within the territory made by the forking of the river. Also to explore the enormous territory stretching out towards the north and along the main course of the stream, the west fork has to be crossed, so it will be seen that a great necessity exists for the Government to take steps in the early spring to provide a means of crossing this stream. This could be attained by the construction of a bridge which we are given to understand could be built by the expenditure of a moderate sum of money, and as a great number of prospectors will be obliged to enter this terrinory next summer, they now feel justified in calling upon the government to make such an expenditure.

A FEW days ago a large number of delegates assembled at New Westminster with the object of forming a Provincial Liberal Association. In this they were particularly successful, as the work of organization and election of officers was carried out under the most auspicious conditions, nothing occurring to mar the even tenor of the proceedings. That such an association is in existance is a matter of much congratulation, and the more so as its members by the adoption of the following resolution;—"That the members of this convention declare that they are emphatically opposed to the policy of the present British Columbia government, as shown by the legislation promoted by the government, and by the action of the executive, and they are of the opinion that their continuance in office is detrimental to the general welfare of the Province," have pleged themselves to lend their support to the Opposition party, at the next general election. Up to this point therefore, we are in perfect accord with the aims and aspirations of the newly formed association. That it was decided however to go further and lay down a platform in provincial affairs, we are sorry, as we feel that that was a matter which should have been left to the Opposition, but as we are not in receipt of the platform as furnished by the Liberal Association we will refrain from further commenting upon the subject.

Work on the Le Roi Smelter.

The Le Roi smelter is making rapid progress. The two iron stacks over the boiler house were raised on the 11th. The brick chimney from the furnaces is up 50 feet. A number of teams are hauling in cordwood for the roasters. Construction of the long flume for the water supply from Deep creek is being pushed and the smelter will be ready to operate in about 60 days.

Snowshoe Bonded.

A few days ago it became known that a deal had been put through between Messrs Denzler, Gibbs and McDonnell the owners and Mr. P. Clark of Butte on the Snowshoe claim. and as a consequence the residents of Boudary Creek were much elated. The claim is one well known in and outside of the district, as it is one of Greenwood camp's big propositions, which recently has drawn an enhanced amount of attention owing to the fact that development has shown up enormous bodies of very good grade ore, which has placed the property in a position to demand the recognition of capital. Without going greatly into detail it may be said that the bonding stipulations are understood to call for a remuneration of $50,000 to the owners, the life of the bond which is a working one, extending over a period of 12 months. Men will be put to work at once and in fact have already started.

NOTICE.

IN THE COUNTY COURT OF YALE HOLDEN AT VERNON.

Volunteers May Go Abroad.

The St. Jame's Gazette says that the British war office has elaborated a plan by which the Volunteers of Great Britain will be liable for service abroad in case of war. Hitherto it has been impossible to call on them for duty abroad, except for the defence of the colonies and in exceptional cases.

By Rail to Rossland.

Amid the strains of the Northport band and the tooting of whistles, the big bridge over the Columbia river carrying the Red Mountain tracks to Rossland was tested and opened for traffic on the 12th instant. The bridge is a composite structure of wood and iron, six spans in length, and the total distance across is about 2000 feet. The San Francisco Bridge company were the contractors.

That Settled It.

A story was recently told of how a preacher tested the effect of the hard times upon his congregation. At the conclusion of one of his sermons, he said; "Let everybody in the house who pays his debts stand up." Instantly every man, woman and child, with one exception, rose to their feet. He seated the crowd and then said: "Let every man who is not paying his debts stand up." The exception noted, a care-worn, hungry individual, clothed in his last summer suit, slowly assumed a perpendicular position and leaned on the back of the seat in front of him. "How is it, my friend," inquired the minister, "that you are the only man in this large congregation who is unable to meet his obligations?" "I publish a newspaper," he meekly replied, "and my brethern here, who have just stood up are all my subscribers, and—" "Let us pray!" exclaimed the minister.

The V. V. & E. R. & N. Co,

Messrs. W. McKenzie and D. D. Mann the big railway contractors, have affiliated themselves with the promoters of the above company, and as a result a re-construction of the organization will take place, and another attempt made to capture the Provincial and Dominion subsidies for the building of a road between the Columbia river and Penticton and probably the coast. Although no authoritative statement has been made, the general presumtion is that this deal presages an active policy on the part of the C. P. R. in railway matters affecting the Boundary Creek district, as many profess to preceive the hand of the C. P. R. moving in connection with this deal. If such a surmise is not a correct one, then another presumption may be entertained, namely, that the future may see a unity of interests established between the V. V. & E. R. & N. Co.. and F. August Heinzie, which latter will certainly again be seen flitting around the Dominion capital this coming winter, seeking the charter and subsidy he failed to secure during the last session of the Dominion parliament.

A Boundary Banquet.

Boundary Creek mining division is well represented at the fruit fair, and a number of the gentlemen from that booming section decided that the proper thing would be a banquet. Accordingly a committe was formed to take the matter in hand and provide a feast for the visitors and their friends. The committee consisted of Henry White, of White's camp, chairman; J. C. Haas, the well known mining engineer, secretary; W. T. Smith, a mining man of Boundary Creek; A. S. Black, barrister of Greenwood; James McNicol, merchant, Midway, and Alderman L. A. Manley of Grand Forks.

The Spokane hotel was the scene of the festivities, which began at 9 o'clock and lasted until the small hours of the morning. The spread was excellent, the company congeniel and everything passed most pleasantly. The following toasts were drunk: "The Fruit Fair," proposed by Chairman White and responded to by James Monaghan; "Mining Industry," proposed by J. C. Hass, response by L. K. Armstrong; "Our Invited Guests," proposed by A. S. Black, response by F. C. Innes; "Kettle River Mining District," proposed by W. T. Smith, response by J. P. Graves; "The Ladies," proposed by J. C. Haas, response by D. D. McLaren.

Besides the committee, the following were present; Mrs. J. Palmer, Mrs. L. A. Manley, Mrs. J. McNicol, Mrs. J. Sutherland, Mrs. M. J. Phelan, Mr. and Mrs. E. Spraggett, Mr. and Mrs. L. K. Armstrong, Misses Belle and Elsie McLaren, Messrs. D. McLaren, John Stevens, D. McIntosh, Thomas McDonnell, Thomas Walsh, Henry Shellenberger, James Walker, Jay P. Graves, H. Rosenhaupt, James Monaghan, E. Dunphy and F. C. Innes.—Spokesman Review.

England Declines.

The St. James Gazette, of recent date referring to the formal announcement of Great Britain's decination to take part in the Bering sea conference, to which Russia and Japan might be parties says:—

"There will be a feeling of relief that Great Britain in behalf of Canada, has finally declined to walk into the trap which was being arranged at Washington. America has never paid the indemnities for the alleged seizure of Canadian sealing vessels, and has exhausted every diplomatic artifice to avoid the award, finally demanding a fresh conference. The Marquis of Salisbury consented, whereupon America proposed that Russia and Japan should have seats at the conference with the obvious intention of outvoting England and upsetting by a side wind the Paris award"

ANOTHER VIEW.

The Spokane Chronicle commenting upon the above subject looks at the matter in a very fair light when it says that "There is no doubt that the refusal of Great Britain to enter into conference with the United States, Russia and Japan upon the sealing question, is due to the insistence of Canada, caused by the fear that the delegates of the three last named countries would unite against and out-vote the British representatives on all important points.

"Such a fear is not unreasonably founded. Canada has every reason to regard with suspicion the intentions of the United States towards her interests, and we have already several instances in which she has effected and threatened retaliatory measures.

* * * * * * * *

"The whole policy of the present adminstration towards our northern neighbor is sowing the seed, already sprung to an early harvest, of distrust, antipathy and strife. The Dingley tariff repels Canadians from our commercial sphere, where they properly belong; the immigration laws are aimed against them in manifest injustice, while our naval militia is a constant suggsstion to their minds of territorial aggression. It is all a mistaken notion of the relations of this country and Canada. It is foolishness, not statesmanship."

License Authorizing an Extra-Provincial Company to carry on Business.

COMPANIES ACT, 1897.

THIS IS TO CERTIFY that "The Adams British Columbia Company Limited" is authorized and licensed to carry on business within the Province of British Columbia.

The head office of the company is situate at No 28 Gracechurch Street, London, England.

The amount of the capital of the company is £100,000 divided into 100,000 shares of £1 each.

The head office of the company in this Province is situated on Fifth Street in the Town of Midway, and Robert Chanblett Adams, whose address is Midway, is the Attorney for the company.

The objects for which the company has been established and so licenced are:—

(a) To enter into and carry into effect, with such modifications (if any) as may be agreed upon, the agreement with Mr. Wilberforce Bryant and Mr. Wallace Charles Houstoun *mentioned in clause 3 of the company's Articles* of Association.

(b) To carry on all kinds of exploration business and in particular to search for, prospect, peg out, locate, examine and explore mines and grounds supposed to contain minerals or precious stones and to search for and obtain information in regard to mines, mining claims, mining districts and localities.

(c) To carry on all kinds of mining business.

(d) To purchase, take on lease, or otherwise acquire, and to sell, dispose of and deal with mines and mining rights and property supposed to contain minerals or precious stones of all kinds, and undertakings connected therewith, and to explore, work, exercise, develop and turn to account mines and mining rights, and *any undertakings connected therewith, and to* buy, sell and deal in minerals of all kinds.

(e) To crush, win, get, quarry, smelt, calcine, refine, dress, amalgamate, manipulate and prepare for market ore, metal and mineral substances of all kinds, and to carry on any other metallurgica operations which may seem conducive to any of the company's objects.

(f) To carry on the business of saw-mill proprietors, timber merchants, and timber growers and to buy, sell, grow, prepare for market, manipulate and deal in, timber and wood of all kinds.

(g) To carry on the business of smelters.

(h) To carry on the businesses of merchants, builders, and contractors, decorators, engineers, metallurgists, farmers, graziers, slaters, factors, planters, brickmakers, contractors for construction of works, both public and private, importers and exporters, bankers, ship-owners, brokers, hotel-keepers, store-keepers, warehousemen, and other business, manufacturing or otherwise, which may seem to the company capable of being conveniently carried on in connection with any of the above businesses or objects or calculated directly or indirectly to enhance the value of or render profitable any of the company's property or rights for the time being, and to buy and sell and deal in every commodity, substance and product obtained from or necessary for or capable of being used in connection with the business or any of the businesses of the company as aforesaid.

(i) To allow or cause the legal estate and interest in any mines, lands, or property acquired by the company to remain or be vested or registered in any colonial or other corporation or in any individuals and either upon trust for or as agents or nominees of this company or upon any other terms or conditions which the Board of Directors may consider for the benefit of this company, and to manage the affairs or take over or carry on the business of any colonial or other corporation in which any property of this company may be vested either by acquiring the whole or part of the shares or stock or debentures or other securities thereof or otherwise, howsoever, and to exercise all or any of the powers, of any such corporation, or of holders of shares or stock or debentures or securities thereof, and to receive and distribute as profitst the dividends and interest on such shares, stock debentures or securities.

(j) To purchase or otherwise aquire any interests in any patents, licenses, concessions and the like, conferring an exclusive or non-exclusive or limited right to use, or any secret or other information as to any invention which may seem to the company capable of being profitably dealt with and to use, exercise, develop grant licenses in respect of or otherwise turn to account any such patents, licenses concessions and the like and information aforsaid.

(k) To construct, maintain, improve, or aid in or subscribe towards construction maintenance and improvement of roads, tramways, railways, railway docks, piers, quays, wharves, *viaducts, aqueducts, waterworks, canals,* flumes, ditches, crushing and other mills buildings and works which may be necessary or convenient for the purposes of the company.

(l) To purchase, take on lease or exchange, hire or otherwise acquire any real or personal property, rights or privileges which the company may think suitable or convenient for any purposes of its business, and to erect, construct and furnish buildings and works of all kinds, and to advance money for the purpose of erecting, sonstructing and furnishing any such buildings or works, or aid in and subscribe towards such funds to colonise and assist in the colonisation, settlement and immigration of miners, farmers and others to any such property of the company and to advance pay for or contribut to the expenses of or otherwise assist any persons or companies prospecting acquiring settling or otherwise developing any such property if the company is desirous of so doing.

(m) To acquire and carry on all or any part of the business or property and to undertake any liabilities of any person, firm, association or company possessed of property suitable for any of the purposes of this company or carrying on any business which this company is authorized to carry on, or which can be conveniently carried on in connection with the same or may seem to the company calculated directly or indirectly to benefit this company and as the consideration for the same to pay cash or to issue any shares, stocks or obligations of this company.

(n) To furnish and provide deposits and guarantee funds required in relation to any tender or application for any contract, concession, decree, enactment property or privilege or in relation to the carrying out of any contract concession decree or enactment.

(o) To purchase subscribe for or otherwise acquire and to hold sell dispose of and deal in the shares stocks, or obligations of any company, and upon a distribution of assets or division of profits, to distribute any such shares stocks or obligations amongst the members of this company in specie.

(p) To borrow or raise or secure the payment of money and for those purposes to mortgage or charge the undertaking and all or any part of the property and rights of the company present or after acquired including uncalled capital and to create issue make draw accept and negotiate perpetual or redeemable debentures or debenture stocks bonds or other obligations, bills of exchange, promnissory notes, or other negotiable instruments.

(q) To sell, let, develop, dispose of or otherwise deal with the undertaking or all or any part of the properiy of the company upon any terms with power to accept as the consideration any shares, stocks or obligations of any other company.

(r) To promote any company or companies for the purpose of acquiring all or any of the property and liabilities of this company or for any other purpose which may seem directly or indirectly calculated to benefit this company.

(s) To carry on and undertake any business transaction or operation commonly carried on or undertaken by promoters of companies, financiers, and concessionaires.

(t) To pay out of the funds of the company all expenses of or incident to the formation, registration and advertising of or raising money for the company and the issue of the capital of this or any other company, including brokerage and commissions for obtaining applications for or placing shares and to apply at the cost of the company to Parliament for an extention of the company's powers, or for affecting any modification of the company's constitution, or for any other purpose which may seem expedient.

(u) To invest money at interest on the security of land of any tenure buildings stocks, shares securities, merchandise, minerals and any other property real or personal in the Province of British Columbia and generally to lend and advance money to any persons or companies with or without security and subject to such conditions and terms as may seem expedient.

(v) To make donations to such persons and in cases either of cash, land or other property as the Board of Directors may think conductive to any of the other objects of the company and to establish and support or aid in estabishing and supporting associations, funds and conveniences for the benefit of the Company's employes and to grant any such persons, dependents or connections pensions and allowances and to make payments towards insurance thereof respectively and generally to subscribe or guarantee money for charitable or benevolent objects or to or for any exhibition or any public general or useful objects.

(w) To procure the Company to be registered or recognized in the Province of British Columbia.

(y) To do all such other things as are incidental or conductive to the attainment of the above objects.

(x) To carry out all or any of the foregoing objects as principles or agents or in partnership or conjunction with any other person, firm, association or company.

Given under my hand and seal of office at Victoria, Province of British Columbia, this 26th day of August, one thousand eight hundred and ninety seven.

HENRY S. MASON,
Acting Registrar of Joint Stock Companies.

FOR SALE. PRICE $3.00.

C. E. PITTENDRIGH, ROCK CREEK.

LOCAL AND DISTRICT.

Mr. J. L. McGregor P. L. S. of Rossland is spending a few days in the district.

Mr. Duncan Ross, of the Boundary Creek Times passed through to Greenwood on his way back from the coast, on Saturday.

Mr. O. B. Nelson, of Nelson Wash., passed through town on Saturday, on his way home, after having taken a trip to some of the towns to the west and north.

Mr. Angus Cameron, of Cascade City, has been appointed postmaster, therefore the near future will see an office established there. The people of the district tributary to Cascade City will be greatly pleased at this.

Loads of brick are being taken from here to Camp McKinney just now. These will be used by the Cariboo company to brick in the new boilers which are being installed in connection with the air compressor and hoisting plants.

The Lieutenat Governor has been pleased to appoint Henry Nicholson, Esq., of Camp McKinney a Justice of the Peace for the Yale district. Notice of Mr. Nicholson's appointment appears in the last issue of the B. C. Gazette.

Although the appointment has not been as yet gazetted, it is understood J. P. should now be affixed to the name of G. C. Rose, Esquire of Cascade City, who it is said is also likely to receive a customs appointment at the same place.

Dr. J. W. Powell of Victoria who is a representative of a strong English Mining syndicate passed through Midway on Tuesday last, bound for the Kootenay country, there to look after some mining interests. Mr. Cuppage, Road Superintendent for this district accompanied Dr. Powell as far as Anaconda.

Mr. J. Anderson one of the officials of the Bank of British North America at Rossland, paid a visit to Midway the past week, and after looking over the place proceeded to Camp McKinney and Fairview. Mr. Anderson is spying out the land, and the result may be a branch of the bank established in some one of the mining towns of this district in the near future.

A fine animal belonging to Mr. C. L. Thomet, succumbed to the epidemic which is playing sad havoc among horses, on one day of the past week. Although it is said the epidemic is not glanders, yet it would seem to be just about as bad, as the strongest of stock withstand its ravages for only about a week. The first symptoms of the disease are those of a bad cold, but gradually the kidneys become affected, and then it soon becomes fatal. The matter should be strictly looked into.

During the past week the town was honored by a visit from Mr. Walter Adams, who holds the responsible position of mining expert to the Adams British Columbia company, a strong syndicate formed in England for the purpose of exploiting Kootenay and Yale properties, which formerly were owned by his father Captain Adams. Not to view the scenery of Midway however was Mr. Adrms' visit to the district made, but to make a thorough examination of the Sunset claim in Deadwood camp, for eastern parties, who are interested in the properity. This he did before leaving.

Wednesday's stage brought to the district Mr. A. S. Craven, of Vernon, a mining man and expert, of vast experience, and who represents one of the strongest of English mining syndicates. The object of Mr. Craven's visit was to take a look at the Mother Lode claim in Deadwood camp, which is now owned and is being rapidly developed by the Boundary Mines company. Mr. Craven's appearance in the district no doubt presages the consummation of a big mining deal, and it is safe to predict that it is the outcome of a recent visit to London of Mr. John Weir, a gentleman intimately conneted with the above named company.

FAIRVIEW NOTES.

(From our own Correspondent.)

Dr. Powell has a crew at work on the Occidental group.

P. J. Mead, of Tacoma, has returned and will immediately sent a gang to work on his mines at Vesuvius creek.

Messrs [illegible] have started an office for civil engineering also notary public work. We think they have opened a good line as our present member of the latter office is not always in good health.

The building boom is going on remarkably. Tillman's sawmill is running a night and day shift. Among the new houses going up are one each for Messrs Dalrymple, Crinkshank, Furniss, Shurson, Arnott, Bartlett and Somerville.

The Tin Horn mill is almost completed and will be running in a few dasy. We expect great things from this mill as we have heard such remarkable stories about the mine that we are anxiously awaiting development of a large bullion product.

The whole face of the tunnel of the Smuggler is now literally covered with gold. This strike was made Tuesday night and the ore body is larger. This increases the value of the mine wonderfully as there was always doubt in the minds of a good many of our friends that this mine would go down.

Dismissed.

The charge of murder preferred against Mrs. Rabbit of Granite Creek, who recently killed a man by the name of Hamilton who committed an asasult upon her, was not sustained upon her trial at the Vernon Assizes, which opened on the 14 inst., the jury after a few minutes consultation bringing in a verdict of not guilty. Mrs. Rabbit was therefore discharged. The verdict seems to meet with public approval.

A Soooting Affray.

Eureka camp, Wash., was the scene of a shooting affray a few days ago. It would seem that a man by the name of J. Hennesy had some words with a man by the name of J. Martin, and thereupon the former left the house and went and procured a rifle, and returning to the building shot through the window, the ball striking the latter in the front of the leg and ranging up through the hip. Upon the wounded man being taken to Grand Forks it was found that the hip bone was badly shattered and the patient is not expected to live.

Deal in Camp McKinney.

It is reported that the Cariboo Mining and Smelting company have purchased a two thirds interest in the Okanagan claim, in Camp McKinney from Messrs S. Mangott and D. McEcheran of Fairview. It is said the price paid was $10,000. The Okanagan lies to the east of the famous Cariboo claim, the Amelia and a small portion of a fractional claim called the Saw Tooth lying between them, but which properties are also owned by the company. The other one third interest in the Okanagan is owned by the well known old timer in Camp McKinney Mr. J. Moran who was the original locator of the property.

MINING NOTES.

Mr. James Atwood with a force of men is engaged in development work on the Wake claim in Summit camp. The Wake is an extension of or lies near the Cordick, and latest advices are to the effect that a good body of ore is being uncovered.

It is stated that the Jubilee claim on Ingram Mountain has changed hands. Mr. J. McNicol and partners having disposed of it to Mr. S. M. Johnson of Anaconda. The Jubilee is a recent location, that lies to the south of the Bruce and between that claim and the Magnetite and from its position and surface showings should be a desirable property.

The Robin Hood and the Assayer, two claims on the west fork of Kettle river, have changed hands, the owner Mr. W. E. Guttredge, having disposed of them to a Mr. B. Leather who is a representative of an English company. It is asserted that the company acquiring the property will soon put men to work and will continue development during the course of the winter and in fact indefinately.

The Bruce claim on Ingram mountain is attracting a good deal of attention at the present time, quite a number of mining experts having recently examined the property. It is said arrangements are being entered into by the owner Mr. J. C. Haas with a syndicate who will develop the Bruce under a working bond for an interest in the claim. It is quite likely therefore, the near future will see men to work on this mountain.

Mr. H. Strauss returned from the region of the west Kettle river a few days ago and brought down with him some nice looking samples of ore taken from claims recently located by him, which are four in number, viz., the Boston; the Kingston; the Belle, and the Greenwood. The ore is principally quartz, carrying arsenical iron and a little copper pyrites, its principal value being however in gold, which has given values by assay from $5 to $20 to the ton. As with similar ore found in the same region this arsenical iron ore seems to carry a much higher percentage of gold than do similar ores found in other sections of this district, and therefore development may disclose some valuable properties. The ledges in the claims located by prospector Struss run from 5 to 20 feet in width, and are found in a dirite and quartzite formation, in close proximity to granite.

BOUNDARY CREEK MINING AND MILLING COMPANY, LTD. LY.

Incorporated October 21st, 1896.

HEAD OFFICE, GREENWOOD CITY, B. C.

Capitalization $1,500,000, in $1 Shares, Treasury Stock 700,000 Shares.

COMPANY'S PROPERTIES.

The Company'smining properties nowconsist of fourteenclaims, viz., the D. A., G. A. R., Big Lgede, O. B., S. H. B., Fred D., S. F., J. A. C., P. H., C. S. & H., E. C. B., Prospective, Spokane and Granite Falls,

SIX OF THESE HAVING BEEN ACQUIRED SINCE INCORPORATION.

OFFICERS OF COMPANY:

G. ARTHUR RENDELL - - - - PRESIDENT
D. A. HOLBROOK - - - - - - MANAGER
E. JACOBS - - - - SECRETARY-TREASURER

BANKERS:

BANK OF MONTREAL - - VERNON, B. C.

DESCRIPTION.

On the "D. A." is a vein about 20 inches wide, with a pay-streak of 4 to 12 inches; from this 8,653 lbs. of ore was shipped to the smelter, giving $103.15 gold per ton, silver 74 7-10 ozs., and 2 per cent. lead. A tunnel is being driven on this vein from which ore is being taken. On the same property is a larger vein (quartz) carrying galena and pyrites.

The "G. A. R." has a 30-foot shaft sunk on a 2-foot vein, heavily mineralized with an intimate mixture of iron and copper pyrites, galena, blende and silverglance. The finest pieces of wire silver found on Boundary Creek were taken from this shaft. Average assays from different places across the vein gave $8.00 gold, 50 ozs. silver; also $8.00 gold and 150 ozs. silver and one, the latest return—$15.05 gold and 196 4-5 ozs. silver per ton.

On the "Big Ledge" is a 10 foot quartz vein, mineralized with iron pyrites. This vein has been opened up by cross-cuts on the surface for 500 feet. A narrower vein has been opened up, being one foot wide, carrying considerable copper pyrites, and runs into the main ledge as a spur, on which a tunnel of 40 feet has been driven. Average assays gave $33 gold and 11-10 ozs. silver, and $49.35 gold, 17½ ozs. silver, 2 per cent. copper.

The "S. F." lies betweed the G. A. R. and D. A., in the direction of the strike on the G. A. R. vein. This location has been made on a vein of pyrrhotite.

The "O. B." has two distinct veins; one 25 feet wide which, from its strike and general character would seem to be the same vein as that on the Big Ledge, although sufficient has not been done to make this conclusive. The second vein has at present a width of nearly three feet. Assays have shown values in gold from $4.00 to $170.53, while a conservative sampling by Mr. S. S. Fowler, M. E. gave $20.00 in gold.

On the "S. H. B." are two converging veins of copper and iron pyrites, on which work is now being done. An average assay gave, gold $1.50, silver 16¾ ozs., copper 11.96 per cent., or $40.44 for all values.

The "Fred D." was located in December, 1895, more as ground for a basis for mining operations for the other claims than for its present value, although there is little doubt that the large vein on the O. B. runs through it. There is a small vein of galena on this claim.

The "J. A. C." has a large iron-capping running through it from the Anaconda, at a depth of a few feet. The ore carries a considerable percentage of of copper and $10 in gold.

The remaining six claims are all good prospects, but as yet very little development work has been done on them.

This company is registered under the Companies Act, 1890, and amending acts, in the office of the Registrar in Victoria, B. C., for 1,500,000 shares at $1.00, non- assessable, of which a portion of the Treasury stock is now offered at 10 cents a share on application to the company.

NOW IS THE TIME

To get in on the ground floor. The company having recently purchased the McDonnell ranch of about 560 acres, adjoining its mineral claims, now possesses unusual facilities for carrying on mining operations on a large scale. This purchase has secured to the Company excellent mill and smelter sites; abundant water power for mining, electric light, domestic and other purposes, and other desirable advantages.

Forty acres of this land, very conveniently and centrally situated at the junction of Eholt Creek and Boundary Creek, have been surveyed into town lots, and the new townsite has been named.

BOUNDARY CREEK CITY.

ITS situation is a most favorable one, being at the meeting place of two much used routes of travel—to Long Lake, Pass Creek and Summit camps, and to Kimberly camp, and the main Kettle River respectively. It is also the only known practicable railway pass from the east, so will be nigh on the line of the new railway from the Columbia River to Penticton.

Building has already commenced on the new townsite, which offers particular inducement for both business and residence purposes. There are now good openings for several kinds of businesses and the company will give exery encouragement to business men establishing themselves at this point. Prices of lots are within the reach of all, and buyers building on them will be liberally dealt with. Full particulars of both mineral claims and town lots will be given upon application to the
