Train Goes Over Trestle.

Grand Forks, August 24—A lot of ore is dumped and 26 freight cars and an engine smashed up as a result of the air brakes not operating on an ore train on the Phoenix branch of the C. P. R. yesterday. The train, with its 26 carloads of ore was coming down "the hill" and three miles from the Emma mine the speed got a little faster than was pleasant and the engineer tried to put on the air, but the brakes refused to work, owing to some defect.

The engineer saw the train was going at a terrific speed and realized at the first curve there would be a derailment. In order to give warning to the train hands he blew a loud blast on the whistle, which had its effect, as all the train hands jumped from the train. Fortunately no one was injured during their hurried exit from the train that was then going at the rate of over a mile a minute. The train continued on its wild course and on reaching a high trestle jumped the track and fairly sprang into the air, falling to the bottom, 140 feet below. Cars and engine are not much better than a lot of scrap iron and splinters. The ore was scattered far and wide and it is very doubtful if it will pay to gather it together again.

Fatality On Phoenix Branch.

The second fatality since construction work was inauguated on the Phoenix branch occurred Wednesday at 8.30 o'clock at Andrews & McDonald's camp No. 1, near the old Rankin place, a mile west of Phoenix. Nels Nordeen, a station man, and his companion had drilled and prepared six holes ready to touch the match to them. Nordeen lighted all six, but only five went off. After waiting a moment he turned to his companion and said he had forgotten to light the sixth hole, and ran up to set it off. While in the act of touching the match to the fuse the blast went off, hurling him down the hillside and fracturing his skull, from which injury he died five minutes after the accident. Dr. Foster, of Greenwood, who is acting for Coroner Kingston, decided that an inquest would be unnecessary. The funeral was held Friday from Cooper's undertaking establishment. Beyond the fact that Nordeen was a native of Sweden, little could be learned concerning him.

Invading The Territories.

Vancouver, B. C., Aug. 21.—James J. Hill, it is reported, has three camps of surveyors at work between Lethbridge and Pincher creek, Alberta, making a preliminary survey for an extension of the Great Northern. This is in the line with Mr. Hill's accredited plans for a connected line through the Crow's Nest to southern Alberta.

It is said the Morrissey-Fernie line will not stop at the latter place, but will be extended to Michel without delay.

B. C. Fruit.

That British Columbia fruit will in two or three years be a very prominent feature of the Winnipeg market appears assured. R. M. Palmer, secretary of the B. C. Bureau of Information and Immigration, who was in charge of the British Columbia fruit exhibit at the Dominion Exhibition, expresses himself as well satisfied with the result of his work here. At present he states that the industry is pretty fully occupied supplying the market it already has—the territorial market. Although this market is growing larger every year, the development of fruit farming is so rapid that he expects shippers will be able to make a strong and successful bid for Manitoba trade very soon. At present efforts are being made to educate the public to the desirability of British Columbia fruit and to overcoming prejudices on the part of local jobbers, the result of previous unsatisfactory hipments. One essential is rapid and suitable transportation, which, Mr. Palmer believes, will be forthcoming when required. There is already a good express rate on small fruits. As for quality, it is claimed the fruit from the Pacific Province will be able to successfully compete in quality and price.—Commercial

Spokane Fair Notes.

The fifth Regiment Royal Artillery band of the British government will be in Spokane October 3 to 9 to furnish music for the Spokane interstate fair. J. M. Finn is manager. The band comes from Victoria, B. C. It is one of the finest in the British service. It is an old organization with 24 of the best musicians in the land. It has traveled in the various parts of the globe, but heretofore it seldom has left British soil. This year it secured permission to leave in order to go to the St. Louis fair, and the Spokane fair. The band is preparing specially for these two engagements by daily drills and most persistent practice. It also has had made in London new uniforms.

The band is strong on parade and open air music and also is strong with its solo players. Manager R. Cosgrove of the fair has arranged with this popular musical organization not only to play for parades and for the afternoon races, but it has arranged with it to give a two hour concert each morning. This will not be in the grandstand, but in some other part of the grounds, where seats will be placed for those who wish them.

Entries for some of the races at the Spokane interstate fair close August 27. It is surprising the number of entries which were made for the earlier closing races, and for this reason it is supposed there will be many entries for these other big races. On this date entries close for the Inland Empire handicap, purse $500, with $100 to second and $50 to the third. The Washington State Selling Race Stake is another in which entries close at the same time. A purse of $400 will be hung up in this race, $100 to go to the second and $50 to the third horse. But the biggest of all will be the Spokane derby, in which the first wins $650, the second $250 and the third $100. This is a handicap of three year olds and upwards.

The racing and the accompanying attractions will be popular in Spokane this year, for the management has provided for many races each day and has promised to cut out, as far as possible, the long waits between races and heats. Besides this arrangements are being made to put on some of the finest vaudeville between heats. These turns, several of which are already engaged, will be in front of the grandstand, where they can be seen to the best advantage.

A Model Companion.

The following advertisement appeared in an English paper: "A lady in delicate health wishes to meet a useful companion. She must be domesticated, musical, an early riser, amiable, of good appearance, and have experience in nursing. A total abstainer preferred. Comfortable home. No salary."

A few days afterward the advertiser received by express a basket labelled: This side up—with care—perishable." On opening it she found a tabby cat, with a letter on its tail. It read thus:

"Madam—In response to your advertisement I am happy to furnish you with a very useful companion, which you will find exactly suited to your requirements. She is domesticated, a good vocalist, an early riser, possesses an amiable disposition, and is considered handsome. She has great experience as nurse, having brought up a large family. I need scarcely add that she is a total abstainer.

"A salary is no object to her; she will serve you faithfully in return for a comfortable home."—London Express.

In the prize fight last night between Munro and Jeffries, at San Francisco, the latter won in the second round.

SATURDAY, August 27, 1904.

William Waldorf Astor's daughter is engaged to be married to an Englishmen who has no title. She must be in love with the fellow.

Some of the Atlantic coast fishermen are now trying to tell bigger whale stories than Jonah's. It's mean to take advantage of the deceased.

Canada is trying to entice immigrants from the United States. We wouldn't care if she'd give us the picking 'em out.—Turner County Herald.

A school teacher not over a thousand miles away found a lad in the geography class who was deeply interested in learning the points of the compass. The teacher said: "You have in front of you, the north; on your right the east; and on your left, the west. What have you behind you? After a few moments' reflection, Allen exclaimed, "A patch on my pants." To make the information more emphatic, Allen continued in a shame-faced manner, "I knew you'd see it. I told ma you would."

Providence in Litigation.

Developments of a kind that happily are not very common in British Columbia, have arisen in connection with the Providence Mining Company, which owns the Providence mine at Greenwood. Chicago capitalists, Messrs. Madden, Hyland and Heaney, who have recently spent some weeks between Nelson and the Boundary, invested in the Providence mine, as did other Chicago people. The three named visited the property this summer to see how operations were being conducted and generally to look over the mine and management. As a result of their investigations they are applying to the courts to have three of the directors removed for cause.

The local directors whose removal is asked deny all the allegations contained in the complaint and will resist the application for the order removing them.

W. A. Macdonald, K. C., of Nelson, is acting for the plaintiffs and will press for hearing of the motion at the next assizes to be held at Greenwood, which will be on October 16 th."—Nelson News

J. G. McMynn, the enterprising implement agent, of Rock Creek received another carload of farming machinery last week. Owing to the large amount of land that is now cultivated between here and Anarchist mountain there is a large demand for implements of all kinds, which will continue to increase as the country becomes more thickly populated.

In the matter of the Estate of John Sullivan late of Boundary District, Kettle River, near the Town of Midway, British Columbia, Deceased.

NOTICE is hereby given pursuant to the "Trustees and Executors Act" that all creditors and others having claims against the estate of the said John Sullivan who died on or about the 18th day of February A. D. 1902, are required on or before the 1st day of October A. D. 1904, to send by post prepaid or deliver to the undersigned their Christian and surnames, addresses and descriptions, the full particulars of their claims, duly verified, the statement of their accounts, and the nature of the securities (if any) held by them.

AND FURTHER TAKE NOTICE that after such last mentioned date the executor will proceed to distribute the assets of the said deceased amongst the parties entitled thereto, having regard only to the claims of which he shall then have notice and that the said executors will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated this 15th day of June A. D. 1904.

McPHILLIPS WOOTTON & BARNARD,
Of Bank of Montreal Chambers, Victoria B.C.,
Solicitors for the executor of the last will of the said deceased.

The Canadian Apple.

The finest fruit that grows is the Canadian apple. If anybody doubts this let him travel the world over, and he will come back convinced of it. He may visit the orange groves of the South, and on into the land of the banana, he may tour the grape countries, and pull figs and cocoanuts where he can find them; and if he but stay long enough at each point in his journeyings, he will tire of the native fruits, and come home fully persuaded that the apple is the leader of them all. We do not properly appreciate the Canadian apple.

Larger Sleeping Car Berths.

One of the railway companies that owns and operates the sleeping cars in service on it lines, is the Chicago, Milwaukee & St. Paul.

The sleeping cars on this line were formerly Pullman cars, operated by the Pullman Company, but for a dozen years past the railway company has owned and operated the sleeping car equipment. In building its sleeping cars, a departure from the old standard pattern of cars has been made to the extent of adding about six inches to the width and height of the sleepers. This permits of wider and higher berths. Length has also been added to berths, so that comfort is found in them which is lacking in ordinary sleeping cars.

These large cars are in service on practically all of the lines of the St. Paul Road, and are very popular with the traveling public.
