Scene Of Activity At Logging Camps Near Illiance River

Despite the somewhat depressed condition of the lumber market, the logging camp of Eric Carlson, who is operating near the Illiance river, is still a scene of activity, and day by day the logs are coming out of the woods to swell the booms in the water.

Mr. J. O. Trethewey is also operating a small camp composed of sixteen men, near the Illiance river. He has built two dams, one of which is a marvel of ingenunity, in order to bring the logs to tidewater. The first dam, which is about 350 feet in length has been built to divert the river to an old channel, and by some additional work, water was brought down to a spot where a number of logs were piled at a spar tree. Lower down a horse-shoe shaped dam has been built, in which is constructed a gate, and when the water has been impounded the gate is opened and the logs complete their journey to the booms.

Since the last tug boat was here from Ocean Falls, about two and a half months ago, Eric Carlson has placed 5,000,000 feet of logs b.m. in the water. He is at present operating one yarder and loader, and has a crew of twenty-eight men.

He will continue to operate until the heavy snow makes profitable logging impossible, and it is hoped that these conditions will not obtain until Christmas.

Now that the new government road is completed, and hiking through the woods is a pleasure instead of a hardship, a visit to the camp is well worth the time spent. Among the attractions for the visitor is a place at the table in the Dining Room if you happen to be there when the gong rings, for the hospitality and the excellent dishes, of "Mine Host" the cook, is something not quickly forgotten.

Mine Club Gives First Dance of Season

On Monday night the Mine Club gave their first 9 to 2 dance of the season. The dance was a great success in every way and the new officers and committee are to be congratulated on the splendid success of the evening.

The dance committee introduced a novelty in the way of having every ticket numbered and the party who possessed the lucky number won a prize of $5.00. This was won by a lady, Mrs Dumond being the lucky person.

Refreshments were served at 12 o'clock after which the numerous couples continued to dance until 2 o'clock.

Messrs. Armstrong, Jack, Harris and Cameron furnished the music and were heartily encored.

Elks Give Another Of Their Popular Dances

Last Friday evening was the occasion of a very enjoyable evening, it being that of a dance given by the Elks in their own Hall. Although the evening was stormy a good average of Anyox population braved the elements, and from 9 o'clock until 2 the five-piece orchestra supplied the music of a superior order and contributed greatly to the success of the evening. At 11.30 refreshments were served in the Dugout and after a short intermission dancing was continued until 2 o'clock.

The orchestra cousisted of Messrs. Steele, Stivenard, Austin, Waterman and Armstrong, their efforts being greatly applauded. Messrs. St. Clair, Nickerson, Gow, Cruikshank, Davis and Goerteen were in charge of the dance and Jimmie Thompson capably superintended the refreshments.

Anyox Waterfront News

Recently the Granby Co. have been receiving small shipments of high grade ore from mines east of Prince Rupert. The last shipment, about thirty tons, arrived on the Prince John yesterday from Usk.

The Granby Co. recently loaded the Louisiana with pyrites, destined for Barnet, and cottonwood logs from Alice Arm for New Westminster. She left in tow of the Amur. There remains a boom of cottonwood logs in the harbor, which will be shipped to New Westminster on the scow Griffiths.

The launch Azurite returned from Maple Bay, Wednesday night with the pile driver and Chaqualla in tow. The Chaqualla will undergo a complete overhaul at Anyox, during which time the Coulite will take her place at Maple Bay.

Improvements Being Made To Concentrator

The Granby Co. have about completed the new concentrator tailings launder, which will direct the flow of tailings into Falls Creek beside No 2 power house.

This should prove a very satisfactory means of disposing of the tails which will be washed down and away by the force of the stream, instead of the present method which has proved costly and otherwise unsatisfactory.

Slowly Recovering From Stroke Of Paralysis

Friends of Mr. J. T. Watson, who, while working at the logging camp of Eric Carlson, was seized by a stroke of paralysis some time ago, will be pleased to hear that he is progressing favorable at the Anyox Hospital. The doctors at the hospital, however, expect that a year will elapse before he will be able to again follow his occupation as a logger.

The benefit fund which was recently collected on his behalf amounted to $295.00.

Anyox P. T. A. Hold Monthly Meeting

Weighty Questions Are Discussed

The regular monthly meeting of the Anyox Parent-Teacher Association, was held in the new school, on Tuesday. Mrs. L. McAlister presiding.

After the usual routine business was disposed of, the President called on Mr. H. M. Mann for a violin solo. This was efficiently rendered and brought forth a demand for an encore to which Mr. Mann responded. The accompaniment was played by Mr. H. Southam.

The resolutions submitted by the Provincial Association for discussion and action were then considered.

The first: "That our determination to create public opinion against war be placed on record," was ably sponsored by Mr. Hutchinson, seconded by Miss McFarlane.

Mr. R. H. Manzer and Mr. H. D. Southam supported the motion.

It was felt that as this was such an important subject, it would be better to leave further discussion over for another month, so that opportunity for further study of the question might be given, and some suggestions of a practical nature offered as to how this could best be brought about.

The second resolution: "That we endorse the movement of the World Educational Congress held at San Francisco, July 1923, to promote a 'Goodwill Day' to be set for May 18th. each year," was introduced by Rev. J. Herdman. Those taking part in the discussion, being R. Armour, R. H. Manzer, W. Robertson, J. Brown, E. J. Conway, and Rev. J. B. Gibson.

All were agreed that the object of a "Goodwill Day" was a worthy one, whereby a particular day is set apart for special instruction on the principle of goodwill among men should be given in all our schools.

In view of the fact that May 24th. is a recognized holiday, and a day for bringing before our children the responsibilities of the Empire, it was felt that a more suitable day than May 18th. might be found. One member suggested March 17th. or July 12th.—he must have come from that little isle of perennial strife—while another suggested St. George's Day as most appropriate, but as these did not find favor among the other members, it was decided to endorse the resolution as it stood.

Resolution No. 3: "That the Provincial Government, through the Department of Education, make it compulsory for School Boards to establish Technical and Vocational Schools for girls throughout B. C., and further, that everything possible be done towards the establishment of a House Economics Department in the University of B. C.

Moved by Mr. W. Robertson, seconded by Mr. H. D. Southam and supported by Mrs. W. F. Eve and Mr. R. Armour.

The purpose of this was to make it compulsory, instead of optional as at present. That an opportunity be given all girls of B. C., who under the present system are denied the privilege of vocational training, and who, were compelled through no fault of their own to forgo the advantages of higher education, and who, through force of circumstances had to accept positions of unelevating character.

This was carried unanimously.

Refreshments were served by Mrs. Scott and the meeting concluded by the singing of the Nationol Anthem.

Owing to lack of space the remaining portion of the meeting's report will be published next week.

ALICE ARM NOTES

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Mr. E. Sullivan, who has been engineer on the Awake for the past few months, left on Monday for his home at Quatsino Sound, Vancouver Island.

Mr. F. H. Worlock, superintendent of the Victoria-Phoenix Brewing Co., Victoria, was in town on business during the early part of the week.

Mr. W. Scrimgour was an arrival from Prince Rupert on Monday.

See Al. Falconer for Freight and Pack Horses.

Mrs. Vail and her daughter Miss Clothilde LaFrance left on Monday for Seattle, where they will spend the winter. They were accompanied south by Mr. J. Beaudin, brother of Mrs. Vail, who has spent the past week here.

A Farewell Dance will be given Mr. and Mrs. Y. Johnson tomorrow night, at the Alice Arm Hotel. Dancing 9 to 12. Refreshments provided.

Masters William and James Ness arrived home again on Monday, being unable to cross into the United States, with their grandmother, Mrs. Livesly.

Mr. C. Warner, of the Royal Bank staff, left on Monday for Chilliwack, where he will spend three week's holiday with his parents.

Shower Baths for ladies and gentlemen. First-class Service. J. Laidlaw, Alice Arm Electric Laundry.

Mr. J. Taylor arrived on Monday from Vancouver to look over logging ground here. He will also inspect timber land in the Skeena River valley.

Mr. Sid Davis, who has been doing the medical first-aid work at the logging camps and around town during the summer, left last week-end for Anyox, where he has taken a position at the General Hospital.

The launch, "Billy Mac" owned by Roy McKinley, and which suffered serious damage some time ago by fire has been repaired, and is now a much better boat than formerly. She will be again ready for business as soon as an engine part arrives from the south.

Mr. William McFarlane left during the week for Stewart, where he will spend the winter.

See Al. Falconer for Wood, Coal and Lumber.

Mr. J. A. Stephen, district government engineer, arrived in town last week-end from the Nass Valley.

Mr. Rod Campbell has been developing the Summit property at East Creek for the past two months. He has commenced driving a tunnel to crosscut the ore ledge, and expects that another thirty feet will be necessary. Owing to the bad weather he has discontinued work for this year, and returned to Anyox today, where he expects to spend the coming winter.

Alice Arm To Celebrate Armistice Day

Banquet For Returned Men and Dance for Everybody

A meeting of returned soldiers was held at the Royal Bank, on Wednesday evening, for the purpose of making arrangements for a fitting celebration on Armistice Day, November 11th.

J. Trinder conducted the meeting. After various suggestions had been made it was decided to hold a banquet for returned men at the Coliseum, on Novemer 11th at 6.30 p.m. sharp. The banquet will be open to all returned men, and a fee of $5.00 will be charged.

At the conclusion of the banquet, which will terminate at 9.30, a dance will be held at the Coliseum, which will be open to everyone, and will be carried on until 1 a.m. Admission to the dance will be free and refreshments will be provided.

Messrs. S. F. D. Roe and Geo. A. Young were appointed a committee to make necessary arrangements for the banquet and dance.

Tickets for the banquet can be purchased by any returned man at the Royal Bank, Casino Grill, or Mr. G. A. Young. In order that proper arrangements can be made, tickets must be purchased before October 30th.

Miners Passed Through Alice Arm During Early Cassiar Gold Rush

It is not generally known that Alice Arm possesses a landmark—or rather, a tree mark—of the days of the Cassiar gold rush in the early 70's.

On Mud Creek hill, close to the old pack trail to the Dolly Varden mine, stands a balsam tree, blazed, and inscribed on it is "AUG. 1874." In the tree, and also another, a short distance from it, notches are cut, which held a pole for a canvas covering—a prospector's camp. It is near a small creek and a few years ago was easily discernable, although the lettering was almost falling off through decay.

It is known that gold seekers used these northern inlets in an endeavour to get through to the diggings, prospecting as they went. Who this hardy pioneer of exactly fifty years ago was, whether he got through and made a fortune, or turned back, or was murdered by Indians, no one will ever know.

Esperanza Mine Makes Ore Shipment

A shipment of 357 sacks of high grade ore was made by the Esperanza Mine last week-end. The ore was taken on a scow to Anyox, where it will be treated.

Cassiar Gold Strike

The news item we published last week regarding the new gold strike in the Cassiar was reliable news, given us by one who was on the ground, practically when the strike was made. We printed this news as it was given us, and refrained from the sensationalism that is used by some newspapers. It is a fact that gold has been found, but whether large quantities of the yellow metal are hidden in Gold Pan and the adjacent creeks, remains yet to be proven. The fact that gold has been discovered will alone produce a stampede in the spring. Here is an opportunity for the adventurous spirits who roam the west, to test their strength against the wilds. Here is a chance of making a fortune in a few short months. A gamblers' chance, no doubt, but it is a chance which hundreds are willing to risk. No man, however, should go into the country unless he has ample means at his disposal to take him there and also for the return trip. It is an expensive country in which to live, and will be more so if a stampede results next spring.

Develop The Empire

The coming election in great Britain may have far reaching results to Canada. The chief issue of the campaign is whether the British people should loan the Russians some millions of dollars. The conservatives' battle cry is: "spend the money to develop the British Empire," which seems to us to be a good argument. Great Britain would obtain far better results by spending one hundred million dollars in the Empire than by loaning it to Russia, from whom she cannot have any guarantee that the money will be repaid. The same amount of money spent in Canada would repay dividends for countless generations. It would make the Empire independent of a host of commodities that we are dependent on foreign countries at the present time. Canada possesses vast deposits of minerals, including copper, gold, silver, lead, zinc, asbestos, nickel, etc. Its agricultural land when fully cultivated is capable of feeding the whole white race of the Empire. Another advantage which would accrue through spending the money in the Empire is that homes could be found for millons of Britishers, under their on flag. If the mother country honestly wishes the Empire to be self supporting, it should not make a loan of millions of dollars to any foreign country for development purposes, when all parts of the Empire---especially Canada---are struggling along such a hard rough road.

Good Dividends By Sandon Property

The sum of $25,000 will be distributed in Spokane, British Columbia and elsewhere on October 10 by the Silversmith mines in payment of a quarterly dividend declared by the board in the Spokane office recently.

The forthcoming disbursement will increase the total payments to $400,000. After a long discussion, the board decided to hold the remainder of the earnings and increase the surplus.

In August the company shipped 400 tons of crude and concentrated lead-silver ore and 500 tons of concentrated zinc ore from its mine at Sandon, B. C., to the Consolidated smelter at Trail B. C. Stoping is is being done at intervals on the 1,100, 1,000, 800, 900, and 500 foot levels of the new mine and on the 1,000-foot level of the Slocan Star, the older mine. The appearance of the stopes is good, according to an official.

What's your boy worth? Deep down in your heart you feel that he is that finest sample of boyhood in this big, round world. There is nothing too good for him—no sacrifice too great to be made for him, plan for him, live for him. Always he's first in your thoughts; nothing else matters so much. Is the manhood into which you wish him to grow worth the half hour or so that yon might give him every night in the home—advising, sympathizing, correcting, stimulating, urging to better things? Give it a trial!

BRITISH COLUMBIA
The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,132,661; Copper, $179,046,508; Zinc, $27,904,756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous Minerals, $1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of $810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906 1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1923, $41,304,320.

Production During last ten years, $350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

500 Feet Of Tunnel For Gold Cliff

Portland Canal News

A new discovery on the Bear river, immediately across the ridge from the big Premier mine, and about opposite the Dunwell, has been bonded by A. B. Trites, of Vancouver.

The property contains a wide fissure vein of high-grade silver-lead ore assaying $267.40 per ton, that has been traced on the surface over 1200 feet in one direction from the discovery. Indications are that the vein is very wide, and apart from the persistant clean ore, carries a substantial body of good-grade concentrating ore.

Before leaving Stewart Mr. Trites let a contract for 500 feet of crosscut tunnel to tap the vein at some 700 feet below the Apex, and in addition has put a crew of men to work to build a trail, camp and open up another level that will follow in on the ore body below the water-fall, where the showing is most promising.

The property was first carefully examined by Mr. A. St. Clair Brindle, Mining Engineer, of Vancouver, who brought Mr. Trites in from the city, and with him spent several days on the ground. Later, after returning from the property, Mr. Trites declared that it is the most promising prospect he has seen in Northern B. C., and aside from the Premier, affords indications of becoming one of the greatest mines in the Portland Canal District.

Consisting of 18 claims, in two groups, situated on the west side of Bear river, about 2½ miles from Stewart, the property extends from the river bank to an elevation of some 4000 feet at the International boundary. The main showing, a fissure vein, runs from an elevation of 2200 to about 3600 feet, and is traceable on the surface for more than 1200 feet.

The vendors in the deal are Mr. and Mrs. Wm. Dann, Mrs. Dann having herself staked some of the ground, Jim Douville and Frank Riva.

Mr. R. W. Wood, President of the Premier Gold Mining Company, Portland Canal District announces the declaration of a dividend of 8 cents per share payable on October 3rd, totalling $400,000. This makes the third quarterly dividend for the year. Total dividends declared by this Company since the initial dividend, which was paid on December 31st, 1921, will on payment of this dividend total $6,800,000.

Up to the end of 1923 the mine had produced 265,903 tons of ore which gave 290,000 ounces of gold and 8,379,519 ounces of silver, of total value of $10,198,087.

Your Message

to the public is not complete, unless you advertise it in the Herald. If you have anything to sell, rent or hire. If you are giving a dance entertainment, or holding a meeting, the surest way to reach the public is through the columns of the Herald.

The Herald finds its way into the home of every wideawake person in Anyox and Alice Arm, and is read thoroughly.

Skeena River Mines To Be Consolidated

An amalgamation of the operations of the New Hazelton Gold Cobalt Mines Limited, the Roche Du Boule and Delta Mines on Roche Du Boule Mountain near New Hazelton is being planned states Nichol Thompson of Vancouver. These three properties have rich ore, including gold, cobalt and arsenic, but it has now become apparent that their operations can be most profitable and practically carried out by an amalgamation. A great deal would be saved especially as regards transportation. Mr. Thompson indicated that it is the intention of the company consisting of Vancouver businessmen who control the Gold Cobalt Mine to continue development work thereon.

Six hundred and eighty seven deep sea vessels sailed out of Vancouver during the first eight months of the present year.

Lecturer: "Now, when a person is deaf his sight is more acute, for the law of compensation will work itself out."

Student (thoughtfully): "I've often noticed it myself that when a man has a short leg the other leg is somewhat longer."

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.
