Champion Ladies' Team of Anyox Are Bluebirds

In the second game played at the Mine Gymnasium, the Mine girls had a decided edge on the evening's play. Hard luck in their shooting was the cause of their downfall. Their combination play was the feature of the game.

The first half ended with the Bluebirds in the lead 4 to 3. Soon after the resumption of play, the Mine forged ahead, but lost the lead again a few minutes later. Mrs. McQuarrie and Mrs. McTaggart scored for the winners with 4 and 5 respectively. Miss McMillan was high for the losers with 4 points. Two players were forced from the game via the four personal foul route, Mrs. Smith and Miss Rashleigh.

Teams were:

Bluebirds: Smith-1, Cody, Dwyer-2, McQuarrie-5, Crone, McTaggart-4.

Mine: Misses, Calderone-2, Rashleigh Dean-3, McMillan-4, Mrs. C. Chapman, Mrs. Wenistrom-3.

Geo. Lee refereed both games.

Four Players Survive in Coke Plant and Mine Game

As a preliminary to the ladies game, the Mine and Coke Plant senior squad, engaged in mortal combat. The game was of the wild and woolly variety, ending up with only two players of each team on the floor. Twenty seven personal fouls were handed out during the proceedings. Bob Stewart and Jimmie Mitchell were the survivers for the Mine. Hogben and Moffat for the Coke Plant. Teddy Swanson made his senior debut, and led the scorers for the Mine with 8 points. Archie Smith was high for the Coke Plant with 11.

Teams were: Coke Plant, Cody-3, Thompson. Hogben-6, Fitzpatrick-8, Smith-11, Moffat.

Mine: Peters-1, S. Stewart, R. Stewart-3, Mitchell-6, McNichol-5, Dean-2, Swanson-8 Halverson-4

The Bluebirds were crowned champions of the Anyox Ladies' Basketball League, on Thursday evening, when they defeated the Mine girls in a fast and close contest. Their win gave them the series, as they won the first game on Friday.

The Champions had things pretty much their own way in the first game which was played at the Beach Gymnasium. The score was 20 to 11. The girls from the the mine seemed unable to hit their stride, and who were never dangerous. Mrs. McQuarrie was the high scorer for the winners with 14 points. Helen Calderone with 6, was high for the losers.

Teams were: Mine: Misses Calderone-6, Rashleigh-2, Dean-3, McMillan, Mrs. Capman, Mrs. Wenistrom.

Continued on page 4

Big Tonnage at Toric Mine Exceeds Highest Expectations

Crosscut Tunnel Drills Through 97 Feet Of Ore. Values Are Persistent Throughout. Native Silver Is Predominent Ore, also carries Argentite and Galena. Biggest Ore Body Ever Encountered in District

News received from the Toric mine during the week indicates that a mine of immense possibilities is being developed. The No. 1. West crosscut tunnel, which was driven 50 feet west of No. 1 cross cut has cut the ore body, after drilling through 97 feet of ore. The tunnel was commenced on the foot wall, and after taking into consideration the dip of the ore body, it has been proven that the ledge is at least 40 feet in width, says Mr. T. Tavener, who, during the absence of Mr. A. C. H. Gerhardi, is in charge of operations.

Owing to the fact that the exact angle of the dip of the ore body has not yet been ascertained, 40 feet has been given as the minimum width. The ore body is expected, however, to be proved much wider as development work proceeds.

The whole ledge is impregnated with silver, values being evenly distributed. The ore is composed of native silver, argentite and galena, native silver being exceptionally prominent.

On reaching the hanging wall, it was found that the ore body widens on the hanging wall, and as it dips into the mountain, it is evident that the width of ore body increases with depth.

As soon as the hanging wall was encountered in the No. 1 West crosscut tunnel, the work of extending No. 1 crosscut was undertaken. This tunnel, at the middle of the week was in 96 feet, and although the hanging wall had not yet been reached, a few more rounds was expected to break through.

The highest grade ore yet found in the mine was encountered in this tunnel during the early part of the week, and samples brought to town, show native silver in abundance.

As is similar to all other ore ledges in the north, this ore ledge has faulted. As soon as the hanging wall of the latter tunnel is reached it will be followed to the fault, and it is anticipated that no difficulty will be encountered in picking up the ledge on the other side, as it is not expected that the fault is a very large one.

It is the opinion of all who have examined the property that it is a true fissure vein. The walls are clearly defined. The vein can be traced on the surface across the Kitsault River into the North Star, which property joins the Dolly Varden.

Since starting underground work, on October 15th. 1924, the Consolidated Homestake Mining and Development Co. have drilled over 500 feet of tunnelling, using one drill, one shift per day. Although they have established a record in regard to the amount of ore blocked out during that period, with such a small crew of men, they are not hysterically advertising the fact as numerous other companies are wont to do when ore is encountered. Their present policy is to do the work, and the amount of ore blocked out and the values will speak for themselves.

A big tonnage of ore has already been blocked out on the Toric at a small cost compared with numerous other properties. In fact, it is hard to find a similar case in the annals of northern mining history. The Toric possesses all the earmarks of developing into one of the big mines of the province, and the success being attained will be of immeasurable benefit to the mining industry of Alice Arm.

Anyox Mosquitos Ready To Go

The local mosquito fleet is coming along with a surprising burst of speed, and there are a number of boats ready for the water.

Sam Herrin has been working steadily on his boat, the "Eldrona" and he announces that he is now ready to compete with the best local yachts.

Asimus and Scott's boat, the "Chum," has been given a complete overhaul by its owners, and she also is "ready to go."

The "Bearcat" after undergoing a very careful overhaul by her skipper, Pete McKarracher, is ready to show her heels to her sisters of the mosquito fleet.

Barney Buck is working steadily on his boat, the "Wildcat" and will soon have her ready for the summer cruising.

Charlie Clay has taken his boat, the "Bernnie" and made a "real boat" out of her. The "Bernnie" as known in shipping circles last year, was a boat that set very low in the water and withal, not a nice appearing boat for rough seas. However, the "Bernnie" which will be known in local shipping circles this year, is an altogether different story. Skipper Clay says that his boat will now weather the roughest gale that will blow.

Esperanza May Change

It is understood that negotiations are being made by the syndicate owning the Esperanza, for a sale of that property.

It is reported that intending purchasers are composed of influential Vancouver men, and that should they acquire the property, an active programme of development work will be carried out.

Alice Arm Holds St. Patrick's Dance

The birthday anniversary of the patron saint of Old Ireland was fittingly celebrated at the Alice Arm Hotel on Tuesday evening, when a dance was held. A good number of people were present. Dancing commenced at 9 o'clock and continued until around 2 in the morning.

The Alice Arm orchestra was augumented by two new artists, and the splendid music added considerable enjoyment to the evening's pleasure. The six-piece orchestra was composed of: Mrs. T. W. Falconer, piano; Mrs. J. Laidlaw, saxophone; Mrs. G. A. Young, bells: Mr. Chas Hutchinson, clarinet; Master Lorne Falconer, violin; R. G. Gordon, saxophone.

Big Crowd Attend St. Patrick's Dance At Anyox

The annual St Patrick's Dance was held at the Recreation Hall last Monday evening.

The dance was held under the auspices of the ladies of the Catholic Church, and was a splendid success. The refreshments were good, the music good, and the large crowd thoroughly enjoyed themselves.

The dance commenced at 9 o'clock and continued until 2, with a short intermission at 11 o'clock for refreshments.

The committee in charge consisted of Mrs. E. Morning, Mrs. A. Morton, Mrs. J. Wier, Mrs. F. Person, Mrs. Young.

Mr. Paddy Ryan superintended the decorating, and also acted as floor manager. Jimmy Thomson very capably looked after the refreshment end in the kitchen.

The members of the orchestra were: Austin, piano; Armstrong, violin; Stivenard, cornet; McDougall, cornet; Steele, trombone; Waterman, drums.

During the evening, Miss Margaret O'Neil danced the Irish Jig to the pronounced appreciation of all present.

The Catholic ladies wish to extend their thanks to all who helped make the dance such a success.

New Community League Council Have Started Work

Chairmen of Committees are Elected

At the meeting of the Community League Council on March 4th, the following nominees for the Council were automatically elected, when out of those nominated all except nine declined to stand. Messrs. McLachlan, Southam, Fricker, Morkill, Dresser, Townshend, Hogben and Nickerson constitute the new Council.

The first meeting of the new Council was held at the Recreation Hall, March 11th, and officers for the ensuing year were elected.

Mr. Chas. McLachlan was elected to the President's chair. Mr. Fricker was elected Vice-President and Mr. A. B. Morkill is the new secretary-treasurer.

A special meeting was held at the home of the President, Mr. C. McLachlan, last Monday evening, in order to elect chairmen for the different committees. The Committees and chairmen for same are: House Committee, Mr. Townshend; Recreation, Mr. Hogben: Forum, Mr. Southam; Membership, Mr. Morkill; Entertainment, Mr. Nickerson; Choral and Dramatic, Mr. Dresser.

The Secretary of the League and the President of the Council, act on all of these committees along with the Chairman. The Finance Commitee consists of the President, Vice-President, Secretary-Treasurer, and Secretary of the League.

Dolly Varden May Be Operated

Persistent rumours come to hand regarding the taking over of the Dolly Varden and Wolf properties by the Belmont Surf Inlet Mines Ltd. This company has been operating at Surf Inlet since 1916. It is well known that their properties at Surf Inlet will shortly be closed on account of lack of ore. The company are anxious to obtain another property on the coast on which to instal their machinery, and it is possible that negotiations are under way for an option on the Dolly Varden and Wolf.

ANYOX NOTES

Mr. J. R. McLeod of Prince Rupert, arrived in town on the Prince George last Thursday.

C. Frederickson of Vancouver arrived in town on Thursday.

Mr. R. A. Creech arrived on Thursday from Prince Rupert.

Mr. A. Skelhorne of Vancouver was an arrival on Thursday.

The proposed organization for the promotion of the mining industry for the Alice Arm district, is a good move and a move in the right direction. Such an organization has been sorely needed for a considerable length of time, and if such an organization is formed, it will greately accelerate the development of the district, provided its energies are expended in the right direction, and that it has the undivided support of the whole community. Every city, town, and hamlet throughout the province has an organization working for its welfare, and Alice Arm, if it is going to prosper must do the same or take its place among the "has-beens." It is becoming plain to everyone now that the logging industry is drawing to a close, that mining is our sole dependence. At the present time the future looks exceptionally bright, and now that the industry shows signs of improvement it is for all of us to do our best to increase its prosperity. There is a lot of money being invested in mining every day throughout the province, as a perusual of the provincial press that arrives at the Herald office shows. If we do not get our share of this money, it is, to a great extent, our own fault. It is understood that the proposed organization contemplates a certain amount of publicity work. If a sane programme of publicity is carried out, it will to a large extent solve a lot of our present problems. It is evident that Alice Arm can not exist as a two-dozen-miner-camp. We have to expand the mining industry or lose our population. It is a good policy, that instead of "belly-aching" around, that all get together and discuss the best ways and means of increasing our prosperity. What others have done, we can do.

Famous Rossland Mine Ships Real High Grade

What is reputed to be the richest shipment yet made since thr reopening of the now famous old I. X. L. free gold property, was sent to the smelter of The Consolidated Mining and Smelting Co. of Canada, Ltd., at Tadanac.

In local mining circles it is understood that the latest shipment is the best ever sent out from the I. X. L., and this in the face of the fact that some of the ore mined during the summer ran as high as $1,000 per miner's ore bag.

That being the case the shipment, it is conservatively estimated by miners who should know, will total in the neighborhood of $80,000 to the lessees alone.

John I. Baker of Tacoma, is the owner of the I. X. L.

The lessees, all local men, are still at work on the I. X. L., the O. K. and Midnight, adjoining, also now being actively developed.

Big Moose Smoker Was Very Successful

Audience Treated To Large And Varied Programme

On Friday, March 3, the Anyox Lodge Loyal Order of Moose, held a smoking concert in their hall. The hall was filled to capacity, and the concert was a splendid success. The members on the programme were all exceptionally good, and the audience showed their appreciation by encores repeatedly.

Brother Kirkwood very capably acted as chairman, and the Moose Orchestra furnished the music, which was up to their usual good standard. It was very plainly demonstrated through the evening that Brother Reynolds is certainly bringing his pupils along in regard to the art of self defence. Brother Reynolds gave two exhibition bouts with his pupils, one with W. Ascot and the other with Master Russel MacMillan.

Brothers Dearlove and Peters furnished their audience with a thrill, with an exhibition of the fistic art. From start to finish this bout was a battle.

The supper was put up by the Bluebird Cafe, and all voted that the eats were in keeping with the splendid entertainment of the evening. The smokes for the evening were donated by Mr. Sid Elmer, of the El Dora Cigar Co., who gave El Dora cigars, and Mr. D. F. Davidson, of the Imperial Tobacco Co., who denoted Brunswick Invincible Cigars, Old Kentucky Cigarettes, and Ogdens Cut Plug Tobacco. These kind denotions are heartily appreciated by the L.O.O.M.

The programme of the evening was as the following: Selection, Moose Orchestra. Vocal duet, Messrs. Owen and Evans. Song, Brother D. MacCauley. Clog dance, Brother J. Tierney. Piano and violin duet, Messrs. Dresser and Armstrong. Boxing, W. Reynolds and Ascot, three two minute rounds. Zylophone solo, Brother J. Cameron. Selection, Moose Orchestra. Boxing, Brother Dearlove and Peters. Vocal solo, Brother Murdoch. Piano solo, Brother Dresser. Vocal solo, Ed. Craggs. Moose greeting to visitors. Selection, Moose Orchestra. Boxing, Brother Reynolds and Master MacMillan. Vocal solo, Mr. J. Mitchell. Pipes, Brother McLennan. Grand Final, Selection, Moose Orchestra.

The committee in charge consisted of Brothers A. Roberts, Rev. J. Herdman, W. Rowlandson, F. Spencer, J. McLennan, O. Hutchings and F. Cross.

The orchestra was made up of the following musicians: F. Dresser, piano; Sid. Armstrong, violin: .P Stivenard, cornet; H. Ward, clarinet: S. Varnes, trombone, and J. Cameron, drums.

Jim McAleenan was appointed manager and secretary-treasurer of the Stewart baseball team at an organization meeting.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Old Theory Exploded In Regard To Mining Investments

That mining is not the hazardous financial investment that is generally supposed is the effect of arguments and evidence advanced by the Financial Review of New York.

Gold and silver mine dividends exceed those of all banks, says the review, which adds:

"The conservative New York Tribune recently created considerable chagrin among the certain investment bankers by publishing the following statement relative to mining investments."

"One of the things that investment bankers have had to admit is that the gold and silver dividends of the United States during the past two years are greater than the combined dividends of all the banking institutions of this country, and on the head of that the government figures show that the average returns on capital invested by banking interests to be about 6¼ per cent., while the return on mining was 182 per cent. And Dunn and Bradstreet show that only 32 per cent. of mining investments fail, against 54 per cent failure in other lines of business."

"To this the editor of the Mineral Age of Denver comments as follows:

"And we might add to the above that farm loans and livestock loans have broken more banks in the Mountain States during the last two years than mining loans did in all the years since '59. With a few such facts as the above, creeping out is not surprising that the bankers are losing their strangle hold upon investment money, and that capital is again turning to the mining field."

Southern Mines Change Hands

A cablegram to Fred Starkey from London, announces the purchase of the Dundee Mine at Ymir from R. S. Lennie of Vancouver, and his associates, and of the Yankee Girl Mine at Ymir from the Texas Yankee Girl Mining Co. by a British, American, and foreign corporation, for around $750,000. This price includes the provisions of the mill and further power development.

Former Alice Arm Resident Expects Cleanup

Paddy Creigh left the first of the week for the Cariboo, where he has a placer claim on Cedar creek. He expects to make a big clean-up this spring, in which case he proposes returning to the Native Sod as the second St. Patrick, and drive all the Ulsterites into the sea.—Omineca Herald.

Higgs (at poker table at 10.00 o'clock)—Say, Briggs, call up my wife, pretend that you're me, and tell her you are still at the office, and won't be home for a couple of hours yet.

Briggs—Won't she recognize my voice?

Higgs—No, not at all. She'll be out, and it will only be the servant girl pretending that it's her.—Life.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,132,661; Copper, $179,046,508; Zinc, $27,904,756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous Minerals, $1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of $810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1923, $41,304,320.

Production During last ten years, $350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

You may lead a horse to water,
But you cannot make him drink;
You may send a boy to college,
But you cannot make him think.

You may preach some men a sermon,
But you'll never change their way;
They will go right on to-morrow
As they've started out today.

You may tell them to be banking,
But they'll never save a cent;
You may urge them to be building,
But they'll keep on paying rent.

You may write a lot of verses
That you'll never see in print;
You may tell a bore you're busy,
But he'll never take the hint.

You may lead some men to business,
But they'll never make a start;
You may show some men their duty
But they'll never do their part.

You may dress some folks in satin,
But you'll never change their looks;
You may give some folks a bookstore,
But they'll never read the books.

You may lead a horse to water
But you'll find this true I think,
That unless the horse is thirsty,
There's no way to make him drink.

Quiet Wedding Celebrated at Anyox

A very quiet wedding was solemnized at the home of Mr. and Mrs. S. A. Down last Saturday evening, when their son Harry S. Down was united in marriage to Miss Margaret Wilson.

The ceremony was performed by Rev. J. Herdman, at 8 p.m.

The young couple are both well known locally, and we join their many friends in wishing them all happiness. The bride, previous to her marriage held a position at the local Post Office. The groom, during the past six months has been a resident of Ketchikan, but previous to then was a resident of Anyox.

Mr. and Mrs. Down will leave for Ketchikan within the next few weeks, where they plan to make their future home.

Champion Ladies' Team Of Anyox Are Famous Bluebirds

Continued from page 1

Challenge Thrown Out

The Club House basketball team, champions of the Boarding House League, take this opportunity to challenge the Bluebird Benedicts to a contest, at any time or place, for money, marbles, or chalk. Come on you Bluebird husbands, get busy!

Dr. Simmons Donates Cup

Dr. Simmons has donated a Challange Cup for the winners of the Senior Basketball League. The Community League are to be the trustees. This is the first trophy of any kind ever put up for competition in Anyox, for basketball teams. Let us hope that Dr. Simmon's example will be followed by other donations, for the Intermediate and Ladies' divisions.

The Mine Club senior team will be the holders of Dr. Simmon's cup for the season of 1924-25.

ALICE ARM NOTES

See Al. Falconer for Freight and Pack Horses.

Mr. Geo. Young left on Monday for Prince Rupert, in connection with the departmental affairs of the Public Works Department.

Mr. John Stark arrived in town on Tuesday, from the Dolly Varden. He is spending a few days in Anyox before returning to the mine.

Mr. Frank Gallagher left on Thursday for Prince Rupert, where he will spend the summer. He recently returned from a trip to Montreal and eastern cities.

Hand Laundry Work. Moderate prices—Miss B. Crawford, Alice Arm.

A public meeting will be held at the Coliseum this evening at 8 p.m. The meeting is called for the purpose of forming an association for the welfare of the town and mining industry. Some important business will be discussed. Every live citizen is expected to be there.

See Al. Falconer for Wood, Coal and Lumber.

The Herald job printing department is always anxious to cater to your wishes. Our prices are right and our work is right.
