SERIOUS FIRE AT ANYOX

On Wednesday last, at 5.40 p.m. when most of us were sitting down to our evening meal, we were startled by the sound of the fire whistle, and on going to the door and looking out, one saw the roof over the ore bins, at the Smelter blazing from end to end.

It looked as though it might have serious consequences, because if the bins and mill were to burn down, the plant would probably be closed down; but we are pleased to say that through the efforts of a host of willing workers, the devouring element was confined to the upper part of the building, and within two hours the fire was put out and all danger was passed. Fortunately there was only a slight breeze, and that was toward the hillside where there are no buildings; but had the wind been in the other direction, the machine shop and smelter store undoubtedly would have caught fire.

After the fire was put out, examination of the damage done, proved that only the roof and the superstructure over the bins and the upper part of the sampling mill, including the main conveyor belt had been destroyed. The sample mill will therefore be out of operation for a short period, but the other part of the works can operate as usual.

The cause of the fire can not be ascertained, as there was no sign of fire ten minutes previously, when the men on shift were unloading ore into the bins.

TRAPSHOOTING

One of the most successful shoots of the year was held last Wednesday evening at the Anyox traps, and a large field was present. The local nimrods were very fortunate in having the opportunity of watching the work of Mr. Richorson, one of the best trapshooters in Vancouver, and profiting by his expert advice. Mr. Richorson shot two strings of 25 targets each, and broke 22 birds each time. Of the local shooters, Mr. Munroe was high gun.

Following are the scores made by each contestant:

Richorson	22
Munroe	20
Wetmore	19
Beckett	19
Champion	18
Round	13
Wing	13
Mrs. Munroe	12
Ballion	11
Roscoe	11
Hilbert, A. E.	10
Hilbert, D.	5

Dolly Varden Mine Shipping Ore

The shriek of the locomotive whistle is once again heard in the valley of the Kitsault River, and it is the sweetest sound we have heard for a long time, The Dolly Varden Mine commenced shipping ore on Thursday. There is about 3000 tons lying at the mine, to come down. Some men went up on Friday morning to work at the mine; but no word has been received here regarding any development work in the mine, although it is expected that development work will be started before the summer is over.

SALMON CATCHING CONTEST AT ANYOX

The Prize offered by the General Store for the biggest salmon caught this spring, has been won by that wonderful fish charmer, Mr. Jack Cloke. He not only caught the biggest fish, but he also landed 23 more. Making a total of 24 altogether.

Mr. Ed. Hannan won the booby prize, with a monster of the deep, weighing one and a half pounds. Ed. probably thinks the little one's are sweeter.

The contest has been full of excitement since the fishing season began early in the year. It is a fine sport, requiring lots of patience and skill, and it has afforded lots of amusement and friendly rivalry for those engaged.

Following is a list of the biggest fish caught by each one of the contestants:

NAME	weight in lbs.
Jack Cloke	54 1-2
Beckett & Almos	52 1-2
Mrs. H. S. Munroe	48
Bert Bowles	43
J. Trumbull	40 1-2
Lauranu & Lowry	37
W. Hoffman	30
Mrs. Wing and Mrs. Parsons	25
Congdon & Moreran	17
J. J. Ellis	33
C. H. Clay	22
J. McDonald	16
D. Lavery	25
Chas. Wing	23
H. R. King	27
Al. Kobloth	25
Selfe & Shelton	24
S. Herrin	25
R. C. McKnight	22
S. Saurey	23
Ed. Hannan	1 1-2
J. Roberts	20
Boyd & Moffat	28
C. Parmitter	35
J. McLaughlin	30
T. Kastoff	10
L. Thain	20
P. Clark	6
M. Synotock	26
H. N. Heidman	30
King & Watson	16
E. DeRedda	25
P. McCartney	15
L. Morrison	25

BELLEVUE MINE IS SHOWING UP GOOD

Mr. W. B. Leavens, of Vancouver one of the directors, and the leading stockholder in the Alice Arm Holdings Co., has been at the Bellevue Mine, on the Illiance River for the past week, making a thorough inspection of the mine. He is very pleased with the general outlook at the mine, which was much better than he had expected, and he is very optimistic as to its future. They have ran through 60 feet of low grade ore in tunnel, ore was encountered in the crosscut, and a good grade of ore has recently been struck in one of the drifts. Mr. Crossland, a prominent geologist of Vancouver, is now at the Bellevue Mine, and will make a thorough survey of the mine and surrounding district, and if his report is satisfactory, 15 men will be employed all through the summer doing development work.

No work is now being done underground, stripping the leads and open cutting on the surface being undertaken instead.

It has been the policy of the company to go slow until they find out what kind of a mine they have, and also to put the money subscribed into the ground, instead of spending it on luxurious office equipment in Vancouver, like so many Stock Mining Companies are wont to do.

It would be a lot better for the mining industry if other mining companies followed the policy of the Alice Arm Holdings Co., and spent their money on development work, instead of spending it on Granville and Hastings streets. It would eliminate a lot of failures, and encourage others to take up the game.

ALICE ARM NOTES

Mr. & Mrs. E. E. Erich, of San Francisco, came down from the upper Kitsault on Monday evening. Mr. Erich and Mr. Evindson spent a very busy time up the river, and also an enjoyable one. They inspected the Dolly Varden, Wolf, Vanguard, Moose, and Homestake Mines, the Homestake is situated at the Kitsault Glacier, and Mrs. Erich accompanied them, being one of the few women to tread upon the glacier, it was a novel experience to her and she enjoyed it thoroughly, the day being perfect Mr. Erich was greatly impressed with the mineral wealth of the Kitsault River Valley, and hopes it will be his good luck to pay another visit here this summer.

Power was turned on at the hydro-electric plant, constructed by the Taylor Engineering Co. last summer, at the Wolf Mine, while they were there, it is in first-class shape and was very satisfactory.

Mr. and Mrs. Erich left on Tuesday morning, for Anyox, where Mr. Erich will inspect the big Hidden Creek Mine, until the boat leaves on Thursday.

Mr. Evindson left on Thursday and will meet Mr. and Mrs. Erich in Anyox.

See Al. Falconer for Freight and Pack Horses.

Mr. Ole Pearson left on Thursday for Vancouver. He is going home to Sweden, and will stop over at Chicago and other places, to visit friends. He was up to the Dolly Varden Mine, despite his sickness, and was immensely pleased to see the mine again he staked years ago.

Constable D. S. Cameron left again on Monday's boat for the Naas River. He expects to be away two weeks this time.

Mr. Bert Kergin, M. L. A., arrived home from Prince Rupert on Thursday, after spending a few days in the northern metropolis.

Mrs. G. Rowley of the Wolf Mine arrived home on Thursday's boat.

The Anyox citizens already camping at Alice Arm, are Mrs. Duffy and family, Mr. & Mrs. Pat Barr and family, Mr. & Mrs. Walter Corbett and family, and Mrs. Ballantine and family, Those at Silver City, are Mr. & Mrs. Eric Anderson, and Mrs. W. Bromley.

Mr. W. B. Leavens, of the Alice Arm Holdings Co. left on Thursday for Vancouver.

Mrs. T. W. Falconer and family, left on Thursday, for Vancouver, on holidays.

Mr. and Mrs. R. Manning, of Camp 8, arrived on Thursday's boat from Vancouver, with their new baby.

Mr. E. North, brother to Major C. B. North, Supt. of the Dolly Varden Mine, arrived in town on Thursday.

Jimmy Anderson, manager of the Alice Arm Hotel, arrived home on Thursday, from his trip to Hyder.

The many friends of Mrs. J. McAleenan will be pleased to hear she is slowly recovering from her attack of near-pnemoniá, at the Anyox Hospital.

The Rev. Gibson, of Anyox arrived in Alice Arm on Friday evening at 9 o'clock with the boy scouts They are here camping for a few weeks.

See Al Falconer for Wood or Coal.

ANYOX NOTES

For Rent at Alice Arm, 2 Rooms with double beds. Apply Box 33, Alice Arm.

Mr. Geo. Leslie has returned from a week's holiday trip, during which he went with the Anyox baseball team to Hyder, afterwards visiting Stewart and Prince Rupert.

Dr. Simmons has returned to Anyox from his holidays in Vancouver. He has brought with him a new stock of Dental supplies, and is again hard at work.

Miss Winnie Fitzpatrick of Vancouver, is spending a holiday here as the guest of Mrs. J. McDonald.

There will be lots of blueberry pie next winter. Several boat loads of Anyoxites came in on Sunday evening with a goodly supply of the luscious fruit, which is now in perfect condition for picking.

Mr. and Mrs. Landers, (nee Miss Crowe) who was on the hospital staff here, have returned to town, and taken up their residence.

Mrs. Heidman was over from the Golkeish Mine recently, spending a few days with Mrs. N. Fraser.

Miss Thain, of Vancouver is visiting her sister, Mrs. Geo. Warwick.

The Anglican Church held a picnic at Perry Bay, on Tuesday. The weather was fine and everyone spent an enjoyable time.

Among the arrivals on Thursday's boat were Mr. Frank Haverty Archie Campbell, Ed. Menzies, J. Wright, Floyd Hatt, J. Moneur, and Geo. Conover.

Among the Departures on Thursday, were Mrs. Maxwell, for Vancouver, Mr. H. W. Gregory, Mr. Fitzpatrick, and Mr. Chas. Howe.

Mr. Fred Brown, the genial secretary of the Anyox Community League, has been deluged by requests for a copy of his photograph taken in the swimming hole. He wishes Mr. Editor to enlighten the Anyox readers, that they are getting Anyox and Alice Arm news mixed up. Fred only takes his bath where he can control the hot water.

Mr. Bill McClare, who resided at Alice Arm last year, and worked for the last six months at the Coke Plant in Anyox, left here a week ago for Hazelton, en route to the Babine district. Buddy Bodwell received a wire from Bill the other day, stating that he had joined the ranks of the benedicts, the ceremony taking place in Prince Pupert.

For Rent at Alice Arm, Two Tents, with Stoves and Beds. $7.00 a week or $25.00 a month for the two. Apply the Herald.

If another plebiscite could be taken to test public sentiment in respect of the open sale of beer and the lighter variety of wines, it is probable that there would be a majority in favor of such a plan. Many people who are not the slightest bit interested in the use of alcoholic stimulants are of the opinion that a comparatively unrestricted distribution of the less potent kind of intoxicating liquid would reduce the use of stronger beverages. All this may be quite true. But the fact remains that the Liquor Control Act definitely provides that intoxicating liquor shall be sold only by the official vendor at a Government Store. Very naturally this has no relation whatever to liquor purchased outside the province and imported under Dominion privilege. Section twenty-six of the new law reads as follows:

"Except as provided by this Act, no person shall, within the Province, by himself, his clerk, servant, or agent, expose or keep for sale, or directly or indirectly or upon any pretence, or upon any device, sell or offer to sell, or in consideration of the purchase or transfer of any property, or for any other consideration, or at the time of the transfer of any property, give to any other person any liquor."

While the foregoing section is self explanatory it is further provided that neither a vendor nor a person acting in any capacity for him shall sell liquor in any other place or at any other time or otherwise than as authorized by the Act and the regulations affecting it. In other words a restaurant, a grocery establishment, a club, a stationety store, or other form of vending agency must not expose any kind of liquor for sale. In view of this precise and definite provision, and more especially in the light of the decisive verdict of the Legislature in session, how can it be argued that either the Liquor Control Board or the Government has one ounce of authority to change the statute without first having obtained the permission of the elected representatives of the people.?

There is nothing in the Act which may lead to speculation upon whether any particular grocery store, or any particular ice cream establishment, or any particular kind of club, might prevail upon the authorities to train the blind eye upon infraction of Section twenty-six, and if it is necessary to particularize upon the interpretation of the prohibition and what it includes Section forty-six is as definite as could be and reads as follows:

"No person other than a government vendor shall sell or deal in any liquid known or described as beer or near-beer or by any name whatever commonly used to describe malt or brewed liquor."

It is easy to understand that a number of the ex-Service clubs would prefer to retain the privileges which were theirs under the Prohibition Act. So would the jitney bars, and so would the various type of "soft drink" establishments. But the law does not permit. If the clubs prefer to test the strength of the Act in a friendly manner so well and so good. It can be said at the outset, however, that neither of the Veterans' organizations in this city is desirous of doing anything except the right thing. Their case has plenty of support; but it looks as if it could not succeed until the Act is changed.---*Victoria Daily Times.*

Mr. W. A. Williams is now in Nevada

British Columbia friends of Mr. W. A. Williams, formerly assistant general manager of the Granby Consolidated Mining, Smelting & Power Co., Ltd. will be interested to learn that he is again engaged in a big mining project.

After leaving the province, Mr. Williams went to Los Angeles, where he became associated with a large syndicate which will develop a gold and copper property at Goldfields, Nevada. Half a million dollars will be expended on initial development work. One shoot runs $20 a ton in gold and the vein is 100 feet wide.

Mr. Williams was with the Granby Co. for 18 years. He built the smelters at Grand Forks and at Anyox. His family is still residing in Vancouver.

Alice Arm has taken on a new lease of life, according to one of the big Prince Rupert Daily Papers, Well! Well! we did'nt yet notice anyone getting excited over the Homestake Mine commencing operations. Wait a little while Prince Rupert and we may give you something real big to publish.

Father of a Well-known Anyox Resident Passes Away

The many friends of Mr. J. Esplin, of Anyox, will be sorry to hear that his Father passed away on June 30th., at his home in Edmonton, where he was in the employ of the Hudson Bay Co. He leaves a wife and two sons in Edmonton, and a married daughter who is living in Detroit, Mich. Mr. J. Esplin, son of the deceased, who is living in Anyox, is well known throughout the north, having been in Stewart during the boom years of 1910-13, where he was engaged in the mercantile business. He later resided at Alice Arm, and from there he moved to Anyox.

WATER NOTICE.

TAKE NOTICE that David Jeremierson, whose address is 1205, Dominion Building, Vancouver, B. C., will apply for a licence to take and use 500 cubic feet per second of water out of Falls Creek, which flows easterly and drains into the Kitsault River, about one half mile from its mouth. The water will be diverted from the stream at a point about 1500 feet from the point where the stream crosses the Dolly Varden Railroad, and will be used for Power purposes upon the mine described as the Esperanza Mine. This notice was posted on the ground on the 27th. day of June, 1921. A copy of this notice and an application pursuant thereto and to the "Water Act," 1914, will be filed in the office of the Water Recorder, at Prince Rupert, B. C.

Objections to the application, may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within fifty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice, is July 2nd., 1921.

David Jeremierson, Applicant.

Prohibitionists are on The War Trail

Bert Kergin's enthusiastic declaration in the legislature when the moderation Bill was under debate, that his constituents wished "whiskey to flow like water," sounded well and evoked cheers at the time. Unfortunately the phrase acted like a number of carpet tacks placed by a merry naughty boy points upward on the chairs of the prohibitionists. It made them sit up and take notice. They have brooded over it ever since. At last they have hatched out an idea—a plan of vengeance. They have discovered that under the Canada Temperance Act any town or district can declare for local option. So after a few weeks of the operation of the Moderation Act to restore the parched taste of the Atlinites for "the real old stuff," the Prohibitionists are to invoke this law, thus taking a holy revenge upon all the electorate of the Atlin district who applauded Bert's remark, and also upon those who didn't.—Recourses Monthly.

In commenting on the above if the worst comes to the worst, and the prohibitionists cut off our stimulants, as they say they will, our only salvation is to proclaim a republic and make our own laws, including the "free as water" one. Ed.

ANYOX FOOTBALL

The game between the Elk's and Mine teams, on Friday, July 8th., was one of the best games of the season, and resulted in a win for the velvet horns, by 4 goals to 1. The Elk's are now in the same position as the smelter, with 10 points each.

The star players in Friday's game for the mine were Ritchie. McDonald, and Wroe for the mine, and Farre, Nixon, Beaton, and Cy. and Dick Greenwell for the smelter. The latter made a most spectacular single-handed run through all opposition, for the full length of the field, and finished by landing the pigskin in the net.

Bears are now Holding 'em up on the Beach

Mr. and Mrs. A. Crone, and Mr and Mrs. Bardwell, of Anyox, were out on a motor launch excursion, a few days ago, and having trouble with their engine, not far from home, Paddy got ashore and started to beat it for town to procure a tow. In the meantime someone came to the rescue of the derelict, and started the engine, and it was just as well they did, for Paddy on his errand of mercy along the beach had encountered two black bears, and not seeming very sociable or inclined to make room for Paddy to pass, he wisely re-traced his steps, and like the story book, everything ended very happily.

ANYOX BASEBALL

The Mine and Smelter teams opened the second half of the baseball league on Monday, in the presence of a large number of fans. The game was interesting from start to finish. For several innings the scores stood even, both sides using every effort to get ahead of their opponents.

The smelter took the lead in the fifth innings, the score being 8 to 4, which looked to many like the way the game would finish; but the the mine team who play a grand up-hill game, took the wind out of the smelter sails, by bagging five more runs, thereby finishing victors with the score 9 to 8.

The declaration made by our local member of the legislature, Bert Kergin, that his constituents "wished the whisky to flow as free as water down the creeks" looks like becoming famous. The disciples of the milk bottle for miners will never forgive our popular member for speaking his mind and also the wishes of a big majority of his constituents.

In a recent film one of the characters is skinned alive. The realism is rather marred by not representing him as a taxpayer.

The Herald will cost you just two dollars and fifty cents a year.

Dominion Day Sports At Anyox

Much to our regret, we were unable to give a detailed report of the July 1st. celebration at Anyox, in last week's issue. That it was a glorious day for Anyox, is admitted by everyone. Everything passed off without a hitch, the full programme was carried out with the exception of the speed boat race, and everyone spent an enjoyable day.

The Indian Concert Band, consisting of 24 instruments was one of the great attractions, as it is seldom the citizens of the smelter town have a chance to listen to a brass band. They played throughout the day at various places in the town.

The sports started at 9 a.m. with a marathon race from the hotel to the mine and return. The water sports then followed, and were witnessed by a large and enthusiastic crowd. The harbor was alive with boats gaily decked out in bunting. The tennis match Anyox vs. Prince Rupert, and a football match between two teams concluded the morning sports.

The afternoon sports commenced with a baseball game between Prince Rupert and Anyox, and resulted in a win for Anyox by 11 runs to 6. The field sports then took up the rest of the afternoon.

The evening sports consisted of boxing bouts, which were staged in the open air at the ball park, some good preliminaries were pulled off by local talent, and then the main bout was staged between Farrell of Prince Rupert and Gibson of Anyox. Farrell was the aggressor from the start, and out-boxed Gibson all through, finally knocking him out in the 3rd. round.

Over 800 persons witnessed the boxing bouts, and the Greenville band rendered musical selections.

The Billiard match between Prince Rupert and Anyox. which was played in the evening, resulted in a win for Anyox, some very close finishes were witnessed, but the result was never in doubt and the Anyox team won by a comfortable margin.

Following are the names of the teams, and the scores:

Prince Rupert; G. McIlmoyle, J. Sedan, F. Aldridge, D. Greenwell.

Anyox; J. Ellis, M. W. Barbour, Geo. Round, W. Jones.

Anyox total points, 963.
Prince Rupert " 903.
Majority for Anyox, 60 points.

The Prince Rupert team expressed themselves delighted with their visit and treatment, and extended an invitation to the Anyox team to play a return match at their annual fair in September.

The day finished with a grand ball, held in the Recreation Hall. All the devotees of the art were there to tread a few steps, and the dance was carried well on into the next day. The hall was beautifully decorated, and the music was furnished by the excellent A. C. L. orchestra. Everyone went home with the satisfaction of knowing that they had spent a very enjoyable day.

Great credit is due to the Anyox Community League, in carrying out such a big programme without a hitch, and special mention should be made of Mr. F. F. Brown, the live secretary of the League, and also that "prince of sport," Mr. J. Sherman, for the hard work they put in that day to make the celebration a success.

Following is a list of the prize winners:

MARATHON RACES

Marathon Race, 1st. Joe Fitzpatrick; 2nd. O. Hutchings; 3rd. J, Sherman.

Marathon Race, boys under 16 years. 1st. W. Rashleigh; 2nd. D. Deane.

WATER SPORTS

Boat Races, 2 1-2 H. P. engines, 1st. A. LaFortune; P. Armour.

Six H. P. engines, 1st. S. Herrin; 2nd. McTaggart.

Men's Single Sculls, 1st. McVicar; 2nd. Armour.

Men's Double Sculls, 1st. Eeland & Lee; 2nd. McVicar & S. Jack.

Ladie's Single Sculls, 1st. Miss Russ; 2nd. Miss Swanson.

The Wayward Girl finished the speed boat race, and covered the 12 mile course in 38 minutes.

FIELD SPORTS.

50 yards race for children, 1st. B. Cooper.

Boys under 8 years of age, 50 yards, 1st. Angus Morrison.

Girls under 8 years of age, 50 yards, 1st. Alice Kergin.

Boys under 11 years of age, 50 yards, E. Clay and C. Anderson, a tie.

Girls under 11 years of age, 50 yards, 1st. Ella Baxter.

Boys under 13 years of age, 75 yards, Ed. Baxter.

Girls under 13 years of age, 75 yards, 1st. V. Deane.

Boys under 16 years of age, 100 yards, 1st. W. Rashleigh.

Girls under 16 years of age, 75 yards, 1st. V. Deane.

Men's Race, open, 100 yards, 1st. H. Down.

Ladie's Race, open, 50 yards, 1st. V. Deane.

Sack Race, men, 50 yards, 1st. J. Sherman.

Three-legged race, boys under 16, 50 yards, 1st. Deane & Rashleigh.

Ladies Nail Driving Contest, 1st. Mrs. Stanley, 2nd. Mrs. Bruggy.

Ladies Egg and Spoon Race, 1st. Miss J. M, McVicar.

Needle and Thread Race, Lady and Gent, 1st. Miss Gerrard and Mr. McTaggart, 2nd. Miss Rashleigh and Mr. Owen.

Fatigue Race, open, 50 yards and return, 1st. Collins and LaFortune.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $75,944,203; Lode Gold, $102,753,823; Silver, $53,668,284; Lead, $46,637,221; Copper, $161,513,864; Zinc, $19,896,466; Coal and Coke, $212,573,492; Building Stone, Brick, Cement, etc., $32,168,217; Miscellaneous Minerals, $1,037,408; making its mineral production to the end of 1920 show an

Aggregate Value of $706,192,978

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241 for five years, 1896-1900, $57,605,967; for five years, 1901-1905, $96-509,968; for five years, 1906-1910; $125,534,474; for five years, 1911-1915, $142,072,603; for the five years, 1916-1920, $189,922,725.

Production During last ten years, $331,995,328

Lode-mining has only been in progress for about 25 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Prominent Geologist To Survey the Bellevue Mine

Mr. J. F. Crossland of Vancouver, a British Columbia Consulting Engineer and geologist of prominence, arrived in Alice Arm, on Monday, for the purpose of making a thorough survey of the Bellevue Mine, which is situated on the Illiance River. He will also look into the Economic Geology of the surrounding district. If, through the results of his investigations he is able to present a favorable report there will be no difficulty in securing the necessary capital to equip the mine, to bring it to a successful productive stage.

Mr. Crossland is considered very conservative, and his judgement is highly valued, having developed several mines from the prospective to the profitable productive stage, and he has acted in a consulting capacity to several of the prominent mining concerns, both in Great Britain and on this continent.

Mr. Crossland has had world-wide experience. After his graduation, he was employed on geological work for the government of Rhodesia, South Africa. Later he was associated with the Rayfield Consolidated Mines, served through the South African war, and coming to Canada in 1903, became connected with the mining operations in various fields of the province of Ontario. Mr. Crossland's professional experience on this continent has been varied. For a number of years he has practised in this province, with headquarters in Vancouver.

He was retained by the government of British Columbia last year to carry out a thorough inspection of the hematite and limonite ore deposits of the Clinton Mining Division, situated in the Whitewater River region.

This is his first visit to Alice Arm, and he hopes if time permits to be able to make a trip in to the upper Kitsault River district.
