Anyox Basketball Games On Friday And Monday

In their contests last Friday and Monday Beach Ladies gave an excellent account of themselves coming within touch of victory often on both occasions. In last Friday's game with the Mine the score stood 10-9 at half time rising 16-10 at the end. Fortunately for the Mine only a few minutes of play remained after Julia Calderoni was banished and Annie Scott was ruled off shortly after.

The teams were: Mine: M. Rowland; A. McLachlan; M. Marriot, 2; J. Calderoni, 5; H. Calderoni, 9; V. Watson. Total—16.

Beach: P. O'Neill, 6; V. Eve; M. O'Neill; T. O'Neill; A. Scott, 2; T. Gordon; D. Greenwood, 5. Total—13.

Referee—Redman.

High School Win From Beach Ladies

Against the students on Monday the Beach Ladies waged a rough battle resulting in numerous casulties and a lot of referee baiting. The fans will have to restrain their remarks at the expense of the officials and players or very soon there will be no officials, no players, and no occasion for raucous comment. The accidents of Monday's game favored the school girls who, although setting the pace throughout faced an 8 all score with two minutes to go. Miss Greenwood, however, was now crippled and Miss Pat O'Neill was slowed up after a crash for which L. Dresser obtained a free throw which was the only one of twelve which counted. The students added another basket in the dying moments of the game making it 11-8.

The teams were: School: L. Dresser, 5; F. Cameron, 2; M. Cloke; J. McDonald; W. Cameron; K. Eve; F. Dodsworth; M. Dresser 4. Total—11.

Beach: Mrs. McRostie, 2; M. O'Neill; D. Greenwood; P. O'Neill, 6; T. Gordon; A. Scott. Total—8.

Referee—Redman.

Anyox Badminton Club To Hold Tournament

The badminton club will hold a tournament on Sunday, January 27 in order to choose four teams to meet the Prince Rupert players who are expected soon. Nine couples will take part in the elimations. The local players hope to visit Prince Rupert later.

New Company Formed To Operate North Star

The North Star Ore & Smelting Co. was recently incorporated at Victoria for the purpose of developing the North Star mine. Capitalization is $100,000.

The above company makes still another that will operate in the Alice Arm district during the present year.

The North Star joins the Dolly Varden and has been developed for over a year in a small way. Capital has been supplied by Chicago interests.

Ore Body Cut In No. 3 Tunnel at Tiger

Development work at the Tiger is still being concentrated in No. 3 tunnel. The ore body which we reported encountered a few weeks ago has been cut through and has a width of nearly nine feet. The ore is of a good milling grade.

The encountering of this ore ledge was unexpected; surface indications not showing its existence. Its extent can not be determined until drifts have been made on it.

Work is being pushed as rapidly as possible in No. 3 tunnel in order to encounter the 14 ft. ore ledge crosscut by the No. 2 tunnel. The tunnel is now in 300 ft.

Drifting on Homeguard Ledge Proceeding

Angus McLeod, who recently examined the Homeguard property on behalf of the Dalhouse Mining Co. of Victoria, was well pleased with the extent of the ore showings and the favorable location of the property. He spent nearly a week at the mine.

Development work by the Dalhousie Co. is being carried on. Work is being pushed on the drift being driven on the silver ledge at present. A recent sample from this drift gave returns of .80 gold, 21 ozs. silver and .60 copper per ton. A total value of $28.18 per ton.

A surface sample taken from another ledge gave returns of $16.78 in gold. A shot was put in from the surface of this ledge. The ore was found to be richer at depth and samples were taken south by Mr. McLeod for assaying.

Anyox Intermediates Again Going Strong

Once again there is an Intermediate Basketball Section with three teams, High School, Rinky Dinks and Concentrator. The first two teams staged an interesting exhibition on Monday, the students winning 32-18.

The teams were: High School: H. Deeth, 2; S. Barclay, 14; C. Hill, 2; J. Gillies, 12; Brown, 2; Kent. Total—32.

Rinky Dinks: Dresser, 6; Macdonald, 6; Armstrong, 6; Flye; Dunwoodie. Total—18.

Referee—A. MacDougall.

Anyox Coming Events

The monthly meeting of the Anyox P. T. A. will be held on Monday next.

The United Church Concert will be held in the Recreation Hall, on Friday, January 25th.

The Basketball Dance will be held at the Gymnasium on Friday, February 1st. Proceeds will be devoted to expenses of players when visiting Prince Rupert.

The Anyox Catholic Ladies' Club will hold a Sale of Home Cooking on Thursday afternoon, January 24, in the Catholic Hall. Games of bridge, whist and five hundred will be played at 2.30 p.m. Afternoon tea will also be served.

Anyox I. O. D. E. Hold Annual Meeting

The Kincolith Chapter I. O. D. E. held their annual meeting on Tuesday last, when nominations for officers for the ensuing year were received. Mrs. Lang was re-elected by acclamation.

Balloting for the other offices will take place at the next meeting. Mrs. C. Cundill and Mrs. A. Cameron served tea.

ALICE ARM NOTES

Angus McLeod left on Monday for Victoria after making an examination of the Homeguard on behalf of the Dalhousie Mining Co.

N. Sutilovich, who spent the week-end here, returned to Anyox on Monday.

Chas. Lee, who is in charge of underground operations at the Tiger, spent a few days in town during the week.

A card party will be held at the School this evening, commencing at 8.30 p.m. sharp. Everyone welcome. A good time promised. Gentlemen 50c.

Well Known Alice Arm Prospector Passes Away

Angus McLeod, well known prospector and pioneer of Alice Arm passed away at Prince Rupert Hospital on Thursday January 10th. He was buried at Prince Rupert last Sunday.

The news of his death was not received in Alice Arm until Monday and it came as a shock to his many friends.

No particulars of his death were given. It is understood that he was to undergo an operation for appendicitus, and it is believed that he never survived the operation.

Deceased was a native of Scotland and was numbered among the pioneer prospectors of Alice Arm. He held an interest in a number of mining claims in the district.

He was of a retiring nature. A believer in doing things rather than talking. He had the respect of the whole community, who were sorry to hear of his untimely death.

Kincolith Basketballers Suffer Defeat

Anyox turned back Kincolith's best on Wednesday in two games. In both games the Indians opened the scoring and set the pace in the early stages but banishments slowed down their offensive and the locals drove ahead to victory.

In the first game which ended 22-13 the Anyox players were: Steele, 10; Lazorek, 3; T. Cloke, 2; Deane, 2; Peters, 5. Total—22.

In the second game Anyox sent in Meager, 4; McDougall, 19; McLachlan, 9; Evans, 2; Deane; McCallum, 1; and downed the tribe 35-31.

Further entertainment was provided by the Mine Club who sent Ritchie, Kerr, the Anderson brothers and L. Brown to tackle the Rinky Dinks who turned them back 12-9. Gate receipts were $36.80, at 25c. a head, half going to the visitors.

BIRTH AT ANYOX

Born to Mr. and Mrs. J. L. Stewart at Anyox Hospital on Monday, January 7th. a daughter, Patricia Jacquiline.

Leaves To Attend Legislature

H. F. Kergin M. L. A. left on Monday for Victoria where he will attend the Legislative session which opens on Tuesday next.

Terms of Option Toric Mine Are Made Public

Terms of the option made between the Britannia Mining & Smelting Co. Ltd. and the Toric Mines Co. Ltd. whereby the former takes over the Toric mine have been made public.

The Western Canada Mining News in its question and answer column states:

"Toric Mines Company Limited has a capitalization of 200,000 shares, par value $5, with 134,234 shares issued."

"Its only indebtedness is current about $37,000, which includes the amount for winter's food supplies for twenty men, powder, etc."

"The terms of the deal which are only now available, are that the Britannia assumes current debts to the amount of $30,000, this amount however, to become a first mortgage on the property. If, by the end of March next, Britannia exercises its option to purchase, it will immediately incorporate a new company with a capitalization of 3,000,000 shares, either of $1 par value or no par value. Toric will be paid 750,000 of these shares for its property, but Britannia will have the option to purchase them back, as follows: 100,000 shares within 18 months at 95 cents; 150,000 shares within 2½ years at 95 cents; 200,000 shares within 3½ years at $1, and 300,000 shares within 5 years at $1.37½. In the meantime these shares shall be held in escrow. If any option for shares is not exercised, then all other options shall be null and void. The Toric company shall accept for any shares in lieu of cash, debentures of the new company. Another important point is that if Britannia shall not exercise the option, all monies paid by it on the said property and in operation thereof shall be repaid to Britannia by March 31, 1930, with 6 per cent interest, the total amount not to exceed $35,000. These are briefly the salient points of the deal."

The Family Herald and Weekly Star of Montreal holds a record for subscribers renewing voluntarily and continuously year after year. After all it is not surprising when one considers the quantity and quality feast the readers are given each week and at a price ridiculously low—$1 a year or three years for $2.

E. MOSS, Editor and Publisher.

The past year was the most prosperous in every way the Dominion of Canada has ever enjoyed. Every industry made substantial strides and our foreign trade figures soared to new high levels. While the past year was a record for general prosperity, the present bids to surpass it. Already plans have been made public for large undertakings that will increase the prosperity of the Dominion. Chief of these are $50,000,000 to be spent by the Canadian Pacific Railway in building new lines in western Canada. The Canadian National will also increase their mileage. This work means the developing of that inland empire, the Peace River Country by providing transportation, and ultimately a railroad will be built through to the Pacific. Stewart has been named, among others, by the president of C. P. R. as a terminal railroad point, and this is probably where the western end of the road will see the Pacific. British Columbia participated last year in the Dominion's prosperity. Statistics recently released show that this province is the richest per capita in the Dominion. The province has advanced in every line of industry and the momentum attained last year will unquestionably increase during 1929. Plans for the expenditure of huge sums of money on new enterprises have been made, and the mining industry is the cause of the expenditure of a large portion of the money to be spent. The general prosperity should gladden the heart of the most pessimistic. It should make us proud to be able to call ourselves Canadians. We should rejoice that we are living in a country that is expanding at such a rapid rate, and that we are able to take a part in building up this great Dominion in which we and future generations can live in peace and plenty.

"In 1928 no less than 3,238,000 acres of new land have been added to the producing area of Canada.

"Beyond all question 1928 has been the banner year in the mineral production of Canada, yet it seems altogether probable that in another decade Canadians will look back to the present time as to the day of small things in our mining industry.

"Since the 1927 figure (construction) was itself the highest in recent years, it is particularly to note that in 1928 it has been surpassed by nearly $31,000,000, or 17.7 per cent.

"The total external trade of Canada in the 12 months ended November, 1928, reached the enormous aggregate of $2,584,000,000, the highest for any 12 months period in the history of the country.

"In the first eight months of the current fiscal year, the period from April to November, the total ordinary revenue of the Dominion has reached the high aggregate of $308,784,000, as compared with $289,282,000 in the same period of the preceding year---an increase of $21,500,000 in spite of the substantial reductions of taxation included in the budget of February last, estimated at the time to amount to some $19,000,000."

Kimberley Mill Will Handle 6000 Tons

Arrangements for increasing the capacity of the Kimberly concentrator from 4,000 to 6,000 tons daily are now being rapidly effected. The purpose of this increase in milling capacity is essentially to augment the ore reserves of the Sullivan mine, in that by providing facilities for the treatment of a larger tonnage, it will be economically possible to include material of a lower grade than heretofore sent to the mill. On the other hand, it is not expected, of course, that the metallic output will be proportionately greater.

The value of the output of the Consolidated Mining & Smelting Co. Ltd. on the basis of rough averages of the quoted prices during last year is estimated to have been $31,174,100.

Start On Sheritt-Gordon Concentrator

Sherritt Gordon engineers have started work on the plans for the first unit of the new concentrator. It will be designed for a production of 1500 tons daily, according to the Northern Miner.

With the rise in the price of copper, indicated per ton profits at Sherritt Gordon have been increased in two directions. Estimates made a year ago on 13 cent copper and on the then grade of ore gave Sherritt Gordon indicated profits of $4 per ton, before depreciation and taxes.

"What kind of a watch have you got?"

"A wonderful watch! Never heard of that before."

"Well, its like this. Every time I look at it I wonder what time it is.

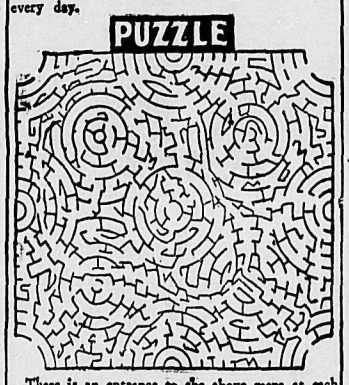
LOOK $200.00 GIVEN AWAY IN CASH

FIRST PRIZE $50.00
SECOND PRIZE $40.00
THIRD PRIZE $30.00
FOURTH PRIZE $20.00
FIFTH PRIZE $10.00
TEN PRIZES OF .....$5.00 each

Below will be found a Puzzle that may appear to be simple, but is not so simple as it looks. Try it, and if you solve it correctly, and will sell for us 8 boxes of HOME SALVE at 25 cents per box you have an excellent opportunity to win a CASH PRIZE, ranging in value from $5.00 to $50.00.

HOME SALVE is a Household Emergency Remedy that is easily sold. Housekeepers need it, and use it. It is becoming more popular every day.

PUZZLE



There is an entrance to the above maze at each corner. One of these entrances leads you into and around the maze, (but not through the centre) then out again at the corner at which you started. Find this path and trace it with a soft pencil and you will have the outline of a popular fruit.

Cut out the Puzzle and write your name and address plainly on a sheet of paper, together with the words "I have solved the Puzzle and find the fruit to be a . . . . . (state the fruit that you find it to be). We will then notify you immediately if you are correct, and if so, will send you, at our risk and expense 8 boxes of HOME SALVE to be sold at 25 cents per box.

The First Prize is $50.00 in Cash, the Second Prize $40.00 in Cash and so on down the list until all the Prizes are exhausted.

WE HAVE GIVEN AWAY THOUSANDS OF DOLLARS IN CASH PRIZES TO PERSONS WHO CORRECTLY SOLVED OUR PUZZLES AND SOLD HOME SALVE.

We see no reason whatever why you should not be a Cash Prize Winner. Is it not worth your while to try? Send you answer to-day. Don't fail to write the words we mention neatly, and state what the fruit you found is, as in the event of ties, writing and neatness will be considered factors.

Anaconda Co. Seeking New Copper Mines

Marked improvement in the copper market has started the large companies on the hunt for copper properties, and British Columbia is a field for investigation. For some time past several companies have been seeking properties in this province, and during the last couple of weeks Anaconda Copper Company has had representatives at Victoria making a careful check of government reports with a view to ascertaining the worth of groups that have been reported on. This is one of the best indications of the importance of copper to British Columbia, following as it does activities on the part of the Consolidated, Britannia and Granby companies.

Small Bachelors Not Shining Lights In World Affairs

What chance has a bachelor to become president of a large corporation? Or an only child? Or a man of small physique? It may surprise you, writes Dirk P. De Young in Forbes Magazine, but the chance is very slim of any of these types becoming president of the United States Steel Corporation or General Motors, or any other of the large commercial, industrial, or banking organizations of the country. Says Mr. De Young further:

"Most of the men holding the big executive positions in the United States are married men, of large physique, and with few exceptions, come from large families."

Here and There

(213)

Ojibway Indians of the Nipigon district will not touch bear meat because they are mostly members of the Bear Clan, says Ozark Ripley, the well known sporting writer. They are averse to killing the bear and one hunting party relates having to forego eating bear steak and having to bury a bear's carcass because their cook refused to touch the meat.

A trout weighing eight pounds was a catch reported last summer by William Mitcheltree in the neighbourhood of Banff, Alberta. "My record for the season is 396 fish," he writes, "all caught on rod and line within easy reach of Banff. Recently at Wapta I caught two six pound rainbows and several cutthroat weighing from two to three and a half pounds."

A record was hung up beside the Christmas stockings of the employees of the Canadian Pacific Express Company on Christmas Day when, from coast to coast, every Christmas package was delivered to its destination, except where there was no one to receive them. According to T. E. McDonnell, president of the company, express traffic was unusually heavy this season and was well handled.

Many enquiries for Reward wheat, one of the early ripening varieties evolved by the Canadian Government Central Experimental Farm, Ottawa, are being received by the Dominion Cerealist. The farm will have 10,000 bushels of this new wheat for distribution, and the 350 growers who were allowed to grow Reward in 1928 will have a surplus of 2,000 bushels making available 12,000 bushels for seed in 1929.

Production of agricultural implements and machinery in Canada amounted to $42,996,288 in 1927, according to the Bureau of Statistics, as compared with $38,269,214 for the previous year and $24,770,-216 for 1925. Of the 65 firms reporting, 43 were in Ontario, 12 in Quebec, 4 in Manitoba, 4 in Alberta, one in Saskatchewan and one in Prince Edward Island.

Having successfully completed for her trials off Scotland the new Canadian Pacific British Columbia coastal steamship "Princess Norah" will arrive shortly at Victoria, Vancouver Island. The new ship is the seventeenth "Princess" of the company's fleet and is equipped with bow rudders to facilitate navigation in the narrow channels of the west coast.

Canadian seed wheat is in considerable demand in South America according to officials of the agricultural department of the Canadian Pacific Railway at Winnipeg. A ton of seed wheat was recently shipped from Brandon to Peruvian wheat ranchers, and it is expected that further orders will come from the South American republic.

Less than a minute was required to launch each boat when the life saving equipment of the Canadian Pacific liner "Duchess of Bedford" received its regular test at New York recently before embarking its Christmas cruise of the West Indies. "The finest and most efficient boat lowering apparatus I have ever seen," was the comment made by John J. Grady, head of the United States steamship inspection service, who was present at the test. The "Duchess of Bedford" is one of four sister ships of the new "Duchess" class all of whom are speedy oil burners and equipped with the same efficient life saving apparatus for use in an emergency.

The true measure of a man's success is not the size of the fortune he amasses, but the degree of his service to his fellow men.

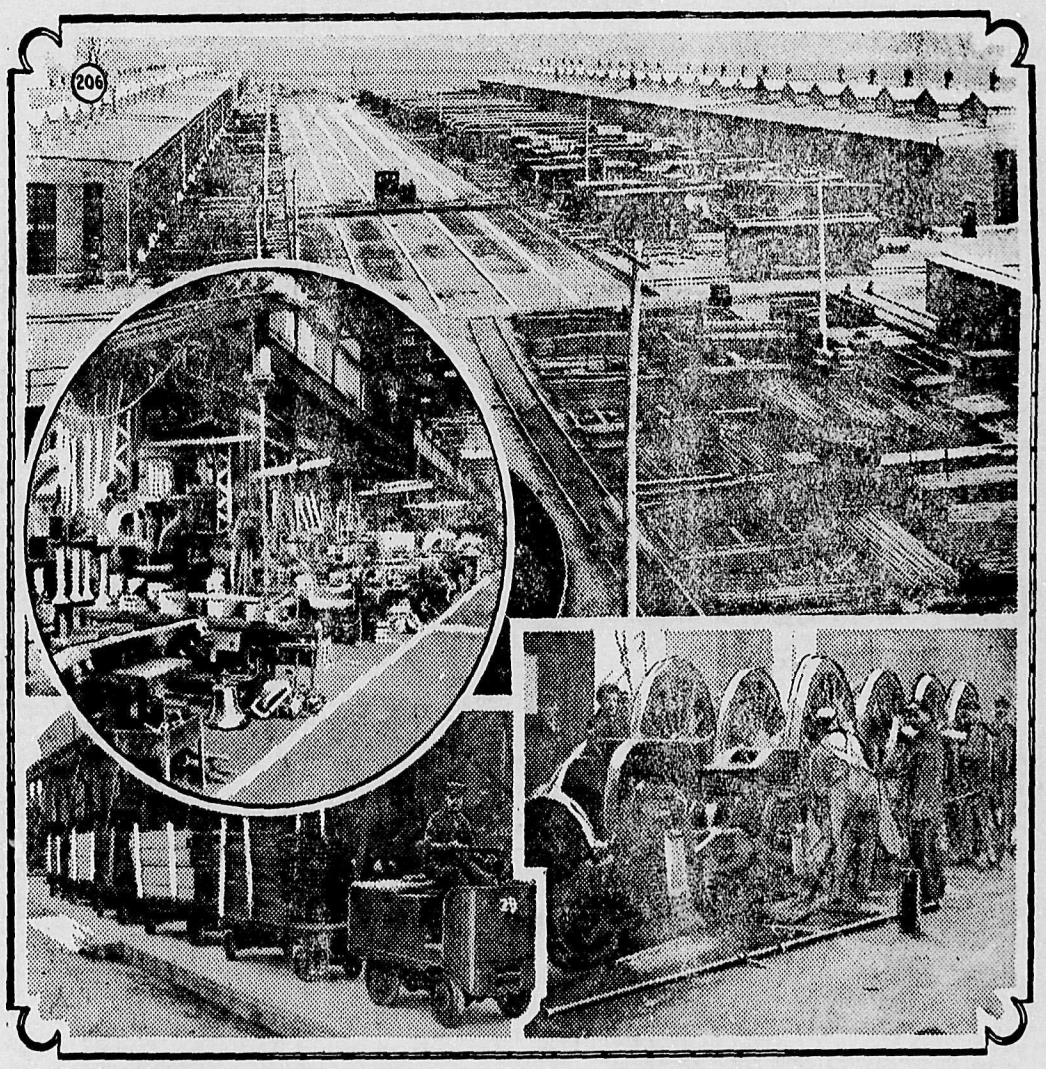
HIGH PRODUCTION AT ANGUS



Here is shown one small corner of the Angus Shops. Inset, a section of the great machine shop. Lower left, transportation within the Shop and right, setting the wheels for a new 3100 locomotive.

Canada's increasing agricultural, industrial and commercial prosperity is making more and greater demands upon transportation and the country's railways must always be a long way ahead of the times in order to keep up with them. That, in a town within a city, sixty-five hundred men with a monthly pay-roll little short of a million dollars will be engaged all winter building, equipping and repairing rolling stock for one Canadian Company reflects not only the immediate benefits of a record crop year, but the encouraging and inspiring confidence of its directors in the continued prosperity of the country. This is particularly true when one realizes that the Angus Shops of the Canadian Pacific which employ these sixty-five-hundred men and through them support, say, a community of at least twenty-thousand within the city of Montreal, is not engaged in the actual construction of its freight cars and locomotives, that the frames for the passenger equipment are purchased outside and that these shops alone do not handle the whole of the repair work of the system, there being other shops in the west.

The present volume of work and the probability of further increases are due to the orders for rolling stock that have been placed with various Canadian steel car construction companies. The steel frames are built at Hamilton and other points in Canada and are taken to Angus where the finishing is carried out. One hundred and six passenger cars, including sleepers, diners, first class coaches and other equipment will have to be handled shortly by the Angus shops, while at present the construction of 40 cabooses, 7 snow ploughs and 2 rail hoists is going on. At present, also, eleven repaired passenger cars and 120 freight cars are being turned out daily, and every five-hours and forty-five minutes shop time, an overhauled and repaired locomotive is returned to service.

The Angus shops of the Canadian Pacific Railway, situated on the eastern outskirts of Montreal, are the largest diversified railway shops maintained by any railway on the continent. They cover 300 acres of ground and handle each year upwards of 29,000 railroad cars of various sorts and descriptions. The first two of the 3,100 type of locomotive, the largest in the British Empire, were built at Angus by the company's own employees and from its own design.

ANYOX NOTES

Miss Ella Steen arrived from the south on Thursday.

J. Harvey and R. D. Noble, auditors, arrived from Vancouver on Thursday.

D. Cavalier arrived back from a trip to Prince Rupert on Thursday.

The El Doro cigar is manufactured from specially selected leaf, and made by expert Canadian workmen.

Mr. and Mrs. J. Turnbull arrived from the south on Thursday.

F. Austin arrived from the south on Thursday.

Tony Casp left on Thursday for the south.

Miss Bernice Clay left on Thursday for Prince Rupert, after spending a vacation with her parents.

Mrs. Chenoski and daughter were southbound passengers on Thursday.

Geo. Pearson left on Thursday on a short visit to Prince Rupert.

J. A. Anderson, district road superintendent, was a south-bound passenger on Thursday.

W. Brennan left on Thursday for the south.

Thos. F. Mitchell of the electrical department returned on Monday from a three weeks' sojourn in Vancouver where he was called by the illness of his wife's parents.

Mrs. J. Pottinger, who was visiting her mother, Mrs. M. Eld, left Monday for Prince Rupert.

A. Keil arrived in town on Monday from the south.

U. S. Makes Big Profit Panama Canal

Publication by Uncle Sam of the statistics of Panama Canal revenues for the year ending June 30, 1928, discloses an item of great importance to every man who grows wheat on these western prairies and to every district that can be tapped by the Hudson's Bay Railway.

During the year 1927-28 there passed through the Panama Canal 6456 vessels, which provided a revenue of nearly $27,000,000. This makes a daily average of 17.5 ships, each of which pays on an average of $4,337.50 in tolls for the privilege of passing through the Canal.

This means that every shipload of Canadian grain passing through the Panama Canal from the Pacific Coast to Great Britain, contributes $4,337.50 to the coffers of the United States. When the Hudson's Bay Railway is in operation, Saskatchewan and Manitoba wheat will be able to travel by the short rail route to Fort Churchill, and thence by the short ocean route from Fort Churchill to Great Britain. It will save the $4,337.50 toll which Uncle Sam at present levies on every shipload of Canadian grain passing through his Canal.

Construction Material Moves To Flin Flon

Montreal, Jan. 12:—Heavy shipments of construction material are moving from Winnipeg over the Canadian National Railways to the Flin Flon mines. In addition to machinery and material for the mine buildings there is also a great deal of heavy material being forwarded for construction of the dam at Island Falls.

Dr. J. D. MacLean, the newly appointed farm loan commissioner, has started preliminary work at Ottawa in organizing the rural credits system. His salary will be $8,000 yearly.

"Now," said the interviewer, "what book has helped you most in your career?"

"The volume of business," said the merchant prince.
