Hydro-Electric Co. Are Waiting To Commence Operations

Wolf Claim Will Use Power For Development Purposes

The Alice Arm Hydro-Electric Co. are prepared to start construction of their plant, just as soon as the legal points have been complied with. Construction work can not commence until the staking of the water rights have been advertised, and any objections that may be made have been considered.

Mr. J. Stark, who owns the Wolf property, through which Falls Creek runs, has given the company a lease extending over a period of fifty years.

In an interview with the Herald, Mr. Stark said that he expected to develop the Wolf proporty from the company's plant as soon as it was in operation. With a power plant on the ground it would be an easy matter for any company to develop the ore deposits of the Wolf, which are similar to those found on the Esperanza.

It is expected that other properties in the vicinity will also be developed when the plant is operating.

It is understood that the company are not experiencing any trouble whatever in obtaining the necessary money for the purchase and installation of the plant. Everyone realizing that after the initial outlay the cost of upkeep will be small and that a demand for light and power will always exist, both for Alice Arm and the mining properties adjacent to the power plant.

ANYOX NOTES

Mr. H. R. Plommer, of the General Office staff arrived home on Monday, from a month's visit to smelter centres in the south. He also paid a visit to Princeton, where he resided before coming to Anyox.

Mr. F. C. Graham, who is in charge of the first-aid station at the smelter, returned on Thursday, from a vacation spent in Vancouver.

Mr. Joe Bent arrived in town on Thursday from Prince Rupert, with a collection of women's clothes.

Mr. C. M. Adams was an arrival in town on Thursday from Prince Rupert.

Mr. Smith, of the electrical department, left on Thursday for the south. He has severed his connection with the Granby Co.

Wednesday's Basketball Games at Anyox

Rovers and High School Are Winning Teams

Two basketball fixtures were decided at the local Gymnasium on Wednesday evening. The first game brought together the Rovers and Coke Plant of the Intermediate league. The former team won by the close score of 15 to 13. Both teams showed considerable improvement over their first appearance. The Rovers felt keenly the absence of B. E. Crawford from their line-up, who left our fair city on Monday, for Vancouver. Frank Gordon and Buntain played well for the winners, and Gow and Thomson for the Coke Plant. Barney Fitzpatrick refereed and handled the game very satisfactory.

The High School defeated the Pioneers in the second contest, 15 to 2. The High School girls had all the best of the play throughout the game. The Pioneers passed up many opportunities of scoring through inability to locate the basket. Miss M. O'Niel scored the only counter for the Pioneers. Miss Champion and Jean Moffatt were the pick of the winners.

Bert Hogben handled the whislte.

Good Progress Being Made On Toric Tunnel

The crosscut tunnel, which is being driven by the Homestake Mining Co., on the Toric property, was in 210 feet on Wednesday. Mr. A. C. H. Gerhardi. general manager of the company, who came down from the property during the week stated that excellent progress is being made with the tunnel, and that it is expected ore will be encountered any day.

Mr. Gerhardi left on Thursday for Vancouver and J. Fiva is now in charge of operations at the mine.

The compressor plant is giving every satisfaction, and it is the intention of the company to push development work as much as possible.

Contractor Looks Over Ground

Mr. Chris Johnson, the well known contractor of Anyox spent a few days in Alice Arm during the week looking over the site of the construction work of the Alice Arm Hydro-Electric Ltd. Mr. Johnson was contractnig on the new Dam and Power House at Anyox and has just completed a stripping contract at the Hidden Creek mine.

ALICE ARM NOTES

See Al. Falconer for Freight and Pack Horses.

If you require any private greeting cards for Christmas, call and look over our stock, at the Herald

Mr. J. Murdoch, an old resident of the camp, arrived in town yesterday from Stewart, where he has spent the past summer.

Mr. Barney Turbitt, the well known jitney man left on Monday for Hyder, Alaska.

Mr. Geo. Clothier, district mining engineer, arrived in town on Monday. He made an examination of the Esperanza mine the same day, and on Tuesday left for Anyox where he will inspect the plant of the Granby Co.

He will also inspect the Golkeish mine before leaving Anyox.

See Al. Falconer for Wood, Coal and Lumber.

Mr. A. C. H. Gerhardi, general manager of the Homestake Mining Co. left on Thursday for Vancouver. He expects to return sometime in January.

Dr. E A. Hyde, customs officer at Anyox, and Provincial Constable R. H. Beavan arrived in town yesterday on business.

Baths for ladies and gentlemen. First-class Service. J. Laidlaw, Alice Arm Electric Laundry.

Miss Virginia Riel, arrived home, from Anyox yesterday, and will spend some time with her parents on account of ill health.

The total amount collected for the Christmas Tree is $202.65.

Mrs. T. W, Falconer and her daughter Juanita, arrived home on Monday from a month's vacation spent in Vancouver and New Westminster.

FOR Rent. One-roomed comfortable cabin. Size 14ft. by 16ft. Ideal location.—Apply Herald Office.

Mr. John Stark spent a few days in Anyox during the week, on business in connection with the Alice Arm Hydro-Electric Ltd.

Mr. J. Strombeck is building a road from the Dolly Varden railway to his new residence on the hill.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

What this town needs worse than a power plant, a road to the Naas Valley, or a policeman, or a new Church is a bunch of good live boosters who, will get together and work for the good of the town all the time. It is as well to remember that when a town is once dead, the chances are good that it will be dead for ever as far we are concerned.

Basketball Season Opens In Anyox October 28th. With Good Games

Lots of Teams Join Leagues And Sport Promises To Be Popular

On Friday evening last week the opening basketball games were played at the gymnasium, when a capacity crowd was present to root for their favorite teams.

The Rovers and High School Intermediates provided the curtain raiser. The latter winning 16-11. The game was closely fought throughout. Poor shooting was the cause of the Rover's defeat.

Buntain and Crawford were the pick of the losers, while McDonald and McLachlan starred for the winners.

The second game of the evening was between the High School and Bluebirds of the Ladies' League. The Students put up a game fight against their heavier and more experienced opponents and managed to hold their own down to a 19 to 9 score. Mrs. L. McQuarrie shone for the winners, while Mary O'Niel and Jean Moffat played well for the High School.

Bluebirds: Mesdames Smith, Crone, Dwyer, McTaggart and McQuarrie.

High School: Misses Morley, O'Niel, Champion, Moffat and Deith.

Mr. B. E. Crawford was the referee.

The Coke Plant, last year's Intermediate champions made their Senior debut against the Smelter squad and managed to ship over a 20 to 18 victory. The Coke Makers were far superior in the first half and fairly ran the Gas Eaters off their feet. The second half however was different, the Smelters came within an ace of winning the contest. Yorke and Thompson were the pick of the winners.

The teams were:

Coke Plant: Yorke, Campbell, Staines. Hogben and G. Thompson.

Smelter: Elliot, Craggs, Moffat, Brown and Fitzpatrick.

J Mitchell refereed to the satisfaction of players and fans alike.

Mine Start Ball Bouncing On Monday

Basketball got under way at the Mine on Monday evening. Three games were played, the first brought together the Mine and Coke Plant Intermediates. The former winning by a 47 to 8 score. The Muckers completely outclassed their opponents and certainly look like the class of the Intermediate League. D. Dean was high scorer with nineteen points. M. Gow scored six of the loser's points.

The teams lined up as follows:

Mine: Dean, Swanson, V. Moore, Peter and L. Moore.

Coke Plant: Bealeau, B. Fitzpatrick, D. Wilson, C. Thompson, M. Gow and Mackie,

L. Lane was referee.

The second match of the evening was that between the Mine and Pioneers of the Ladies' League. The Mine girls were easy winners, the final score being 26 to 7. Helen Calderoni was top scorer with 19 points to her credit. Miss Dupuis notched two baskets for the losers. Miss Flo Eld also shone for the losers.

The teams were:

Mine: Misses H. Calderone, V. Dean, G. Rashleigh, J. Calderone, Mrs. H. B. Chapman and Mae Cane.

Pioneers: Misses M. Dupuis, F. Eld, R. O'Niel, A. Scott, M. Stevens and M. O'Niel.

The final game of the evening was a Senior League fixture between the Coke Plant and Mine. The Coke Makers turned in their second straight win by a 38 to 14 score. Closely checked by their opponents and inability to locate the basket was the cause of the Mine's defeat. Thompson was high score, having eleven points to his credit.

The teams were:

Mine: Halverson, 4, McNichol, 4, V. Moore, 1, J, Mitchell, 1, E. Swanson, 4 and L. Lane.

Coke Plant: Staines, 6, Gordon, 4, Yorke, 8, Thompson, 10 and Hogben, 8.

B. Fitzpatrick was the referee.

Ore Vein At Esperanza Widens To Eight Feet

The ore vein which is being worked at the Esperanza, and which was originally three feet wide, has widened out to eight feet was the welcome news given out by the management during the week.

Hauling of ore from the mine to wharf has been carried on by Mr. Al. Falconer during the week.

Stewart Looks Good To Local Man

Mr. Elmer Ness spent a few days in Stewart during the week, leaving on Monday and returning on Thursday.

Mr. Ness states that the town of Stewart is prosperous, due to the mining activity of the district. From information he gained regarding the Dunwell he is confident that it is destined to become a big mine. The greatest excitement, however, in Stewart at the present time is being caused by the phenominal showings of ore on the Gold Cliff property. This property lies close to the town of Stewart, and was lately bonded by Mr. Trites, who has decided on an extensive programme of development work.

Stewart Leads The Way

In the matter of giving widespread publicity to their natural resources the people of Stewart are undoubtedly foremost in the province. Like the live merchant who has something to sell they believe in extensive advertising, not spasmodic, but persistent. Stewart has a Citizens' Association who are always on the job. Individuals, and especially those possessing mining properties leave no stone unturned in order to induce capital to develop their latent resources. They are confident that the majority of those who invest will receive rich rewards, and they go to the men with money instead of leaving for other camps or sitting idly at home waiting for someone else to start something. The success attained by the people of Stewart proves that an aggressive policy pays. They are now commencing to reap the fruits of their years of labor, and now that they are on the down stretch, prosperity will increase as time passes. What Stewart has done, others towns can do, providing they adopt the motto, "All for one, and one for all"

Demand For Molybdenite

The fact that molybdenite is selling around 75 cents per pound is welcome news for the mining property owners of Alice Arm who have this ore on their properties. There are considerable deposits of this ore within a few miles of the town. With the ore selling at the present price and all indications pointing to a stabilization of this price, it should not be very difficult to find capital to develop the local deposits. They are situated close to tide-water and the cost of shipping wonld be a small percentage of the total cost of mining and shipping to a reduction plant.

Do Your Shopping Early

It is now less than three weeks until Christmas is here. Now is the time to do your Christmas shopping. In selecting your Christmas goods now you have a larger stock to choose from. The store clerk can give you more attention, and you will avoid a lot of worry and disappointment. Shop early and make yourself happy and also the store clerks.

The town you live in is just what you make it. If you don't like the town, you will probably find that the town doesn't like you. But if you have the right attitude, then you will find the community friendly. It is a mirror in which you will find a reflection of your own disposition,

B. C. Will Always Have Plenty Timber

Sweden with an area less than two thirds the size of British Columbia, has a population close upon six million people yet after all these centuries the timber industry is still its largest industry.

In British Columbia. therefore, we need not despair in spite of jeremiards that appear from time to time. With the exercise of reasonable intelligence and common sense the timber resources of this Province will serve, not only the present generation, but generations for all time.

Extract from a recent speech by Hon. T. D. Pattullo, minister of lands.

Increase In Canadian Immigration

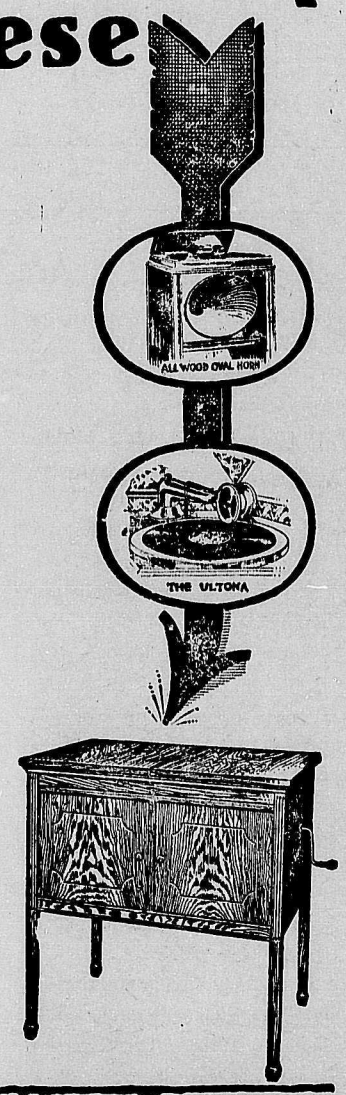
During the past 12 months 134,189 immigrants entered Canada, an increase of six per cent. over the previous twelve-month period when 126,744 arrived. During the seven months ended October 31, 1924, 30,966 Canadians returned to this country from the United States, acccording to reports issued at Ottawa by the American department.

Prince Rupert's Fish Catch For October

During the month of October this year 2,903,100 pounds of fish were landed at Prince Rupert by the fishing fleet of that port, according to information received by the colonization and development department of the Canadian National Railways. Included in the catch were 2,210,700 pounds of halibut, 569,450 pounds of salmon, 700 pounds of crabs and 300 pounds of shrimps.

Frettin' never wins a fight
And fumin' never pays;
There ain't no use in broodin'
In these pessimistic ways;
Smile just kinda cheerfully gone,
And bristle up and grit your teeth
And keep on a keepin' on.

Only Brunswick gives you these



two exclusive features—the All-Wood Oval Horn and the Ultona.

They are the Key principles of the noted Brunswick Method of Reproduction.

The All-Wood Oval Horn—built entirely of wood—amplifies the tones of any record in full harmony with the laws of acoustics. No nasal twang. No metallic harshness. The true, rich, natural tone of instrument and voice.

And the Ultona gives you unrestricted choice of records without fussy attachments or adjustments. A twist of the wrist gives you the exact point, position and weight for any type of record. In the Brunswick you have a phonograph that plays every make of record perfectly and whose beauty of design, workmanship and finish is a real credit to your home.

ALICE ARM

BRITISH COLUMBIA
The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,132,661; Copper, $179,046,508; Zinc, $27,904'756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous Minerals, $1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of $810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906 1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1923, $41,304,320.

Production During last ten years, $350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES, VICTORIA, British Columbia

Standing of Political Parties At Ottawa

The recent Federal by-election in West Hastings, Ontario, in which the liberal candidate won over the conservative leaves the party standing slightly changed. In the House of Commons the parties now stand (excluding the speaker): Liberals. 116; Progressives, 62; Conservatives, 51; Labor, 2; Independents, 2; vacant, 1. Total. 234.

The single vacancy was caused by the death of L. Gauvreau, member for Temiscouata, in Quebec. The constituency has been Liberal ever since 1896 and should it again return a Liberal, the government would have a representation equal to the total representation on the opposition side of the House.

The Temiscouata seat was won in 1921 in a three-cornered contest by a majority of 792,

Mill at Engineer Mine Ready

Word from the North is that the mill at the Engineer mine will soon be grinding ore, the plant having been practically completed a month ago. Construction work on the power house is expected to be completed soon. It was planned to start work on the leases during the fall, but the season was too far advanced before operations got under way and winter supplies were sent in. Serious operation of this great mine will begin for the first time in the spring. While it has been a considerable producer in past years, operations have never gone much beyond the "gopher" stage.

First Business Man—"Calvin, there are a couple of creditors close on my heels."

Second Ditto—"Quick, run into the savings bank over there. Nobody will think of looking for you there,"—Foolscap.

Mining In British Columbia

By E. A. Haggen

Premier May Have New Mill

Between milling and crude ore the Premier mine has been producing around 300 tons a day, and there are persistent rumors that a new 500-ton mill will be constructed at the portal of No 6 tunnel. During the summer Mr. Dale Pitt, the manager, visited the American metallurgical plants to obtain the latest ideas on the treatment of ores similar to those of the Premier mine. The rise in the stock on the New York market is interpreted to mean a probable increase in the dividend rate from 8 per cent. to 10 per cent. per quarter.

Indian Closed

It is stated that the Indian mine is to be permanently closed, recent development having failed to disclose ore bodies of sufficient magnitude and value to promise a profitable mining operation.

Surf Inlet To Be Abandoned

Bad news comes from Surf Inlet. The pillars are being drawn, and it is stated the mine will be shut down and abandoned for good within a year. The management is looking for another propery in Northern British Columbia on to which to transfer the mining and electrical machinery. It is from the mining of the pillars that the higher values recently reported have been obtained.

It has been suggested that a museum be formed in Prince Rupert, and meetings, relative to that purpose are being held.

Nature is wonderful. Clay beautifies the ladies and mud conceals the age of the jitney.

Diner (angrily to waiter).—"You've spilled that soup all over my coat."

Waiter—"It's all right, sir. I know the soup here; it never stains after 6 o'clock.

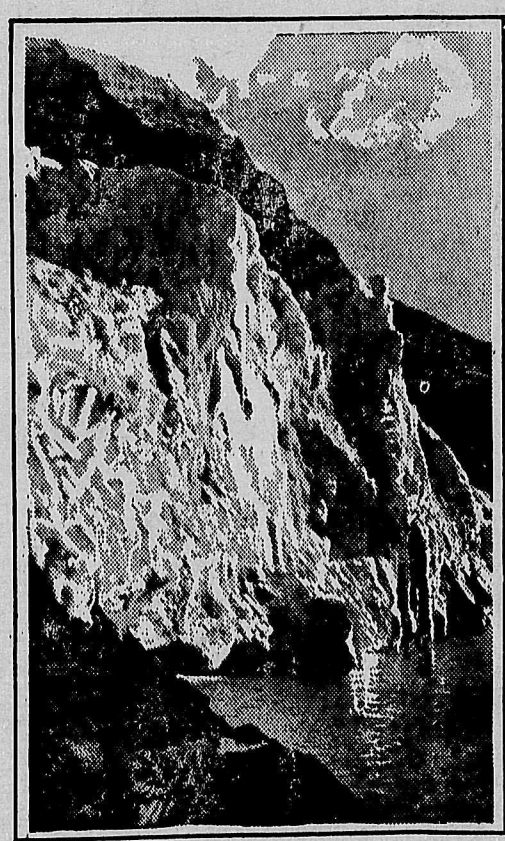
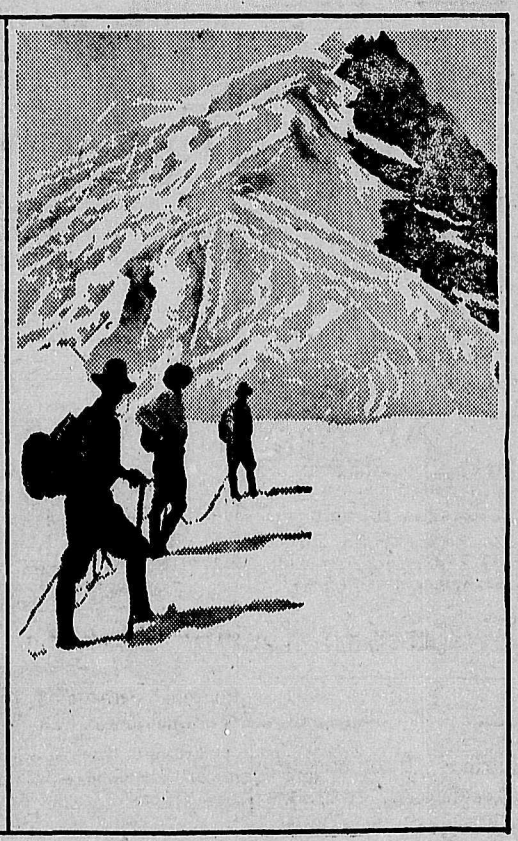
CLIMBING THE MONARCH OF THE ROCKIES





MOUNT ROBSON, 13,068 feet high and the queen of the Canadian Rockies, was scaled several times during the annual camp of the Alpine Club at Berg Lake. The Tumbling Glacier (left) on the north side of Mt. Robson, is the only true tumbling glacier known to exist in the Canadian Rockies. On the right is seen a party of climbers making their way over the ice-field on their way to Robson's towering summit.—C.N.R. Photos.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Hon. Wm. Sloan Will Visit Stewart District

Hon. William Sloan, minister of mines, accompanied by Hon. Dr. Sutherland, minister of public works, will make a trip to Portland Canal district as soon as the snow is off the ground in the spring, to acquaint themselves with the real conditions in the district. This promise was made as a result of a plea for greater activity on the part of the government in opening up trails and roads in that section of the country, by delegation headed by H. W. Rolston, publisher of the Portland Canal News.

After hearing the delegation the minister promised to go north to investigate conditions.

Hockey Pictorial Is a Masterpiece

The editor has received a copy of the Hockey Pictorial which has just been published, and which is at once the handsomest and most complete publication ever produced in the world for any single sport. It is a marvel of good taste in artistry and industry of achievment. It is impossible to speak too highly of it.

The book represents years of efforts, typographically and pictorially, it is a "masterpiece." From cover to cover it is embellished with group pictures of championship teams from 1888 to 1924, in fact, the history of Canada's Great National Winter Sport is told in pictures.

Old-timers will be interested in the handsome halftones of the teams who were prominent a generation ago, while the younger enthusiasts will enjoy the reproductions of the more recent winners.

The book is not only lavishly illustrated, but is literally crammed with much interesting information regarding individuals, clubs and leagues throughout the country.

Local hockey fans will find a very interesting group picture of the Canadian Olympic Hockey Champions of 1924 on the front cover and also a complete history of the players and records right to the finish.

The book sells for $2.00, and can be secured by writing to the Hockey Pictorial, 84 Victoria St., Toronto.

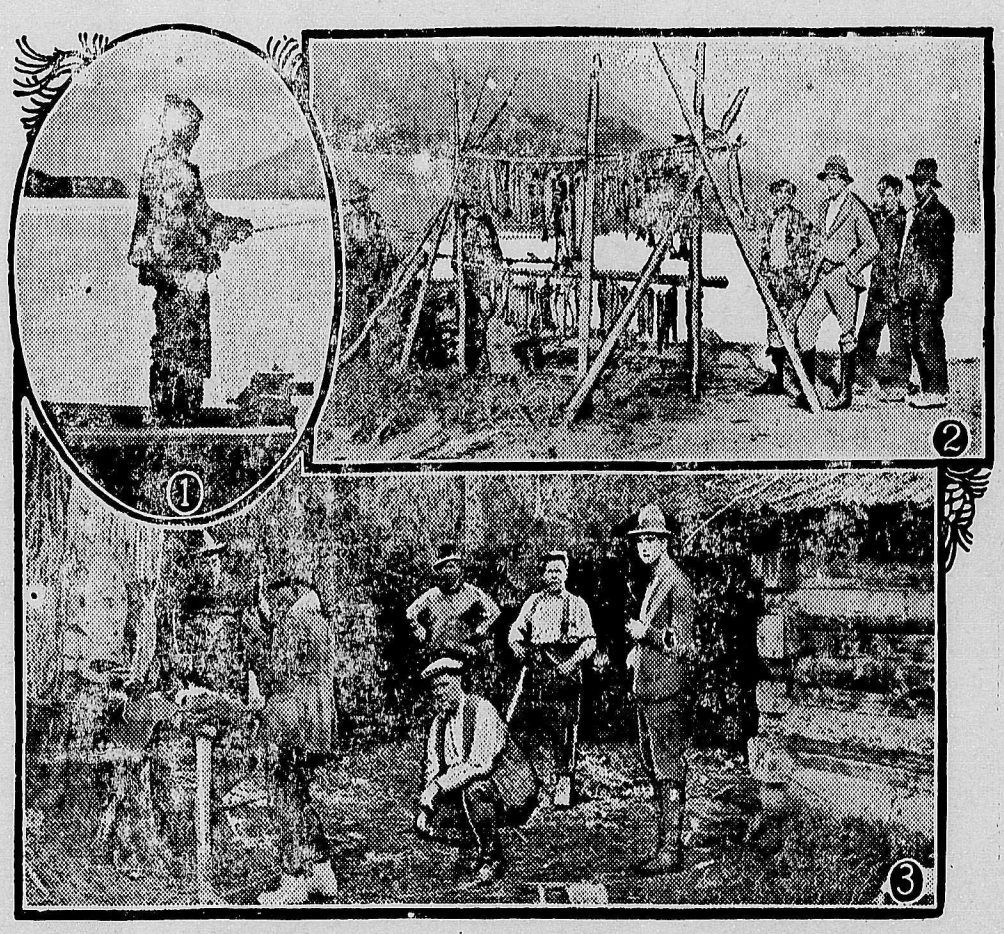
Cariboo and Caribou



1. Casting on Quesnel Lake; 2. A fair morning's catch; 3. Cleaning the gun for the hunt.

WHAT is one of the finest big game and fishing sections of North America and one of the last great stands for big game, lies within easy reach of the Canadian Pacific Railway in the Cariboo district of British Columbia. Here, as nowhere else on the continent, are found in abundance the bear, grizzley, brown and black; the moose and caribou, and the wary mountain goat and sheep. The cougar is often seen and heard and the smaller fur bearing animals make a trappers paradise of this vast virgin territory. As will be seen from the picture above, the fishing is superlatively good; it is the fishing country of the west.

"Who is the man with soul so dead and bent on irksome chores, who hath not sometime to him said, 'I'll seek the Great Outdoors' ?" Each year an increasing number of hunters and fishermen are absorbed by the district, but so vast and extensive is it, that there are yet parts of it that have never been visited by the hunter, and streams that have never had a line thrown-over-them. To reach the Cariboo district one usually leaves the railway at Ashcroft from which place, arrangements having previously been made, one starts out by automobile over the famous Cariboo road to Quesnel Lake, Harpers Camp, Horsefly Lake or one other of the numerous camping sites. The road, which winds among the foothills for hundreds of miles, climbs to an elevation of 5,000 feet and drops gradually to below the 2,300 foot level by the lakes, was made famous by the horde of gold seekers who passed over it in the days of '49. The old road houses built in those days are still there, and while many of them are used as headquarters for the large ranches in the district they afford simple but comfortable accommodation on the trip.

From the camps one can just paddle along the still, black, green bordered streams and lakes over which the snow capped ranges tower, or one can sit at ease by the camp fire and watch the sun sink behind the hills set ablaze with its glory, listening the while to the soft rustle of the wind in the tree tops and the gentle plashing of the water on the crags. If one is of a more agressive nature one can, accompanied by a careful and well tried guide, strike through the wilderness in search of its natural denizens, or, armed with rod, fly and other bait, angle to the hearts content. One may spend weeks, making short trips by boat, canoe, or saddle horse, fishing in the lakes and streams near by, and getting back to camp each night, or travel with the necessaries for bivouac and commune with the wilds for days or weeks at a time.

The Cariboo hunting and fishing grounds are located in the Great Interior Plateau, lying between the Rockies and the Cascades, east of the Fraser River. Ashcroft, the jumping off place, is on the main line of the Canadian Pacific 203 miles east of Vancouver. Equipment for trips can be purchased there or at one of the various hunting centres in the district close by. Guide and Outfitting companies cater to every necessity and the "Cariboo" and other lodges adequately care for the wants of the business or professional man who does not care for an extended hunting or fishing trip but desires to get away from something or everything for a while.

Molybdenite Again Brings High Price

Eastern and Southern Mines Resume Operations

Molybdenite has been occupying considerable attention recently from the colonization and development department of the Canadian National Railways, and their investigations are of interest to the owners of a number of properties in Central and Northern British Columbia carrying bodies and values in this mineral.

In answer to enquiries regarding the market value of molybdenite and the prospective demand for this mineral received by the colonization and development department of the Canadian National Railways, Winnipeg, an official of that department states that New York quotations during the last two months have been nominal at 65 to 80 cents per pound or molybdenite contained in an eighty-five per cent MoS_2 concentrate, the latest being from 70 to 75 cents. From this must be deducted the duty, amounting to 18 cents per pound on the above grade of ore concentrate. British quotations are 50 shillings ($12.50) to 55 shillings ($13.50) per unit of 22.4 pounds contained in an eighty-five per cent concentrate C.I.F. These prices are low compared to the war price of $1.10 per pound f.o.b. Ottawa.

About six months ago the situation was considered encouraging enough for the owners of the property at Quyon, Quebec, to reopen their mine, and they have been mining and milling ever since, and have, it is understood, sold all their concentrates in the United States market at the prevailing price. Two or three owners of Canadian molybdenite properties are contemplating operations in the near future. The Climax Molybdenite Company, who own the largest molybdenite mine in the world at Climax, Colorado, recently resumed operations.

The C. N. R. officials in question state that there is every reason to be optimistic with regard to the future of molybdenite, and feel that it rests mainly with the producer of the raw material to prove to the somewhat sceptical consumer that there is an adequate supply of the material, which the producer will undertake to deliver and live up to his contract.

Appointed Director Canadian Pacific

Ross Huntington McMaster

The recent election of Mr. Ross Huntington McMaster to be a director of the Canadian Pacific, filling the vacancy created on the board by the death of the late Lord Shaughnessy, is a recognition on the Company's part of his long-proved ability. Mr. McMaster is already vice-president and director of the Steel Company of Canada and director of the Northern Electric Company, as well as the Canadian Explosives Company. Born in Montreal in 1880, he has lived practically all his life in that city. He was educated at the Montreal High School and Collegiate Institute. His business career began with the Sherwin Williams Co., of which he became assistant to the vice-president and general manager in 1897, a post he held until 1903. In the latter year he was made assistant to the vice-president and general manager of the Montreal Rolling Mills Company. On the formation of the Steel Company of Canada he was appointed manager at Montreal.

Herald Office

THE EVENING PRAYER

The patter of tiny feet was heard on the stairs and Mrs. Blank raised her hand for stillness among the members of her bridge club.

"The babies are going to give me their midnight message," she whispered. "Listen, it always gives me a feeling of reverence."

The silence was intense as the women listened. "Mamma," came the shrill whisper, "Willie found a bedbug!"

A small boy came hurriedly down the street and halted breathlessly in front of a stranger who was walking in the same direction.

"Have you lost half a dollar?" he asked.

"Yes, yes, I believe I have!" said the stranger feeling in his pockets. "Have you found one?"

"Oh, no," said the boy "I just want to find out how many have been lost today. Yours makes fifty- five."

If a man is wise, one angry word does not lead to another.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE, that the Alice Arm Hydro-Electric, Ltd., whose head office address is Alice Arm, B. C., will apply for a license to take and use five (5) cubic feet of water per second, out of Falls Creek, which flows easterly and drains into the Kitsault River about one quarter of a mile from tide water.

The water will be diverted from the stream at a point fifteen hundred feet from foot of mountain, and will be used for power purposes upon the mine described as the Wolf Mineral Claim (Power House Site.)

It is desired to sell power within a radius of five miles from the Power House site.

This notice was posted on the ground on the 4th. day of December, 1924.

A copy of this notice and an application pursuant thereto and to the Water Act of 1914, will be filed in the office of the Water Recorder at Prince Rupert, B. C.

The petition for approval of the undertaking of the company, as per section 72 of the Act will be heard in the office of the Board of Investigation at a date to be fixed by the Comptroller, and any person may file objection thereto in the office of the Comptroller or of the said Water Recorder.

Objections to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. within thirty days after the first appearance of this notice in a local newspaper.

Alice Arm Notes

Continued from Page 1

Mr. Jack Dillon, superintendent of the smelter, left on Thursday, for Los Angeles, where he will join Mrs. Dillon and family. He will return the latter part of January, and stay here until May, when he will leave the employ of the Granby Co.

Mr. B. E. Crawford, who has been on the staff of the Bank of Commerce for the past two years, has been transferred to one of the banks at Vancouver. He left on Monday, and a large number of friends were sorry to see him go.

On Wednesday evening, December 10th., the Anglican Church will give an entertainment at the Recreation Hall, Songs, Dances, Comedy Stunts and Vaudeville Sketches will be the order of the evening.

Mr. Cecil Parmiter of the Mechanical staff, left last Monday on the Cardena for the south, where he will spend Christmas.

Inquisitive Passenger: "I see you have your arm in a sling. broken, isn't it?"

Meek Passenger: "Yes sir."

"Meet with an accident?"

"No, broke it while trying to pat myself on the back."

"Great Scott! What for?"

"For minding my own business."

"I heard your son was an undertaker. I thought you said he was a physician."

"Not at all. I just said he followed the medical profession."
