Construction Programme of Granby Co. Nearly Finished

Efforts Will be Concentrated on Keeping Plant Running

In an interview with the Herald during the week, Mr. Haffner, assistant general manager of the Granby Co. stated that the construction programme of the company was rapidly drawing to a close.

The new storage Dam was giving every satisfaction. The new machinery to develop hydro-electric power, which had been installed in the No. 1. power house was working satisfactorily. The hydro electric plant was now supplying the entire power for the company, and the No. 2 power house with its costly oil, gas & tar burners was now only used for supplying heat, to a section of the camp, thus effecting a great saving in fuel as in former years No. 2 power house was working to capacity during the winter months.

Mr. Haffner expected that the big concentrating plant would commence operations some time in March, but that it would probably be a month from the time operations started until the mill was running efficiently, as experiments would have to be made.

In regard to the Outsider mine, at Maple Bay, it was expected that the aerial tramline would be completed in about two weeks, and at it's completion shipping of ore to Anyox would commence. The quantity of ore shipped will average around one hundred tons per day, and will be shipped in barges.

Mr. Haffner stated that the Granby Company were not contemplating any more construction work in the near future. The present policy of the company will be to endeavor to keep the big plant running during the present depression of copper prices. No new mining properties had lately been bonded by the company in the district.

Regarding the logging operations contemplated by the Granby Company at Alice Arm this year, Mr. Haffner could not say just when operations would commence, as it depends a great deal on weather conditions. Mr. Meehan, who will have charge of operations is expected to arrive from Vancouver next week, and will probably decide. One of the first things, however, would be the overhauling of the Larcum Island saw mill.

Contract Let for Union Church Manse

The contract for the new Union Church Manse at Anyox has been let to Messrs Greer, Beatty and Douglas of Prince Rupert, who built the new government buildings and also the Union Church. The Manse will be constructed near the residence of Mr. L. Champion, and will overlook the bay.

Ice Carnival Scheduled For To-night

A real honest-to-goodness Carnival is scheduled to be held this evening, Saturday January 12th. at the Alice Arm Skating Rink if the ice is in condition, and if the ice is unfit, the Carnival will be held at the earliest possible date.

The affair is being staged by the Men's Hockey Club, and will open with a Grand March led by Piper Norman McLeod. Skating races for men, women and children will be held, followed by a bean supper after which dancing on the ice will be carried on. It is expected that this will be only the first of a number of Carnivals to be held this year.

Anyox Moose Lodge Is Well Established

The Local Moose Lodge at its last Meeting presented its Members with their first financial Statement which viewed from every standpoint was most encouraging. From a financial outlook alone it is clearly evident that the Lodge is securely established and well able to meet any reasonable demands that may be made on its Exchequer.

The Members in good standing number 220 and with a big class of candidates going through this week it should not be long before the 250 mark is reached. The charter is now closed and the fee for membership is fixed at $20. Any person desiring to join this most excellent organization should communicate direct with the Secretary Box 89 Anyox, or apply to any Moose member. Meetings are held weekly at the Catholic Hall Anyox at 8 p.m. prompt.

The Big Snowstorm

Anyox, has during the past week experienced the most severe snowstorm of recent years, transportation has been extremely difficult and it speaks volumes for the efficiency of the heads of the department, that things have been carried through with so small delay. There are lots of people in Anyox, who fail to realize the difficulties of transportation, and it is to those who have to overcome all this obstacles, that these difficulties present themselves.

The Tractor System has certainly been the salvation of our roads which have been kept open,

"Daredevil Jack" on the "Anyox Caterpillar" performs weird stunts daily.

A large portion of a sidewalk at the "Mine" collapsed owing to weight of snow and men have been busy clearing the roofs of the houses at the "Mine."

On Saturday morning last the "Cabins" were almost snowed in, however everything now is going fine and things are rapidly becoming moral again.

ALICE ARM NOTES

Mr. Steve Morrison returned on Monday to Maple Bay, after spending holidays with his brother, Mr. J. Morrison.

Misses Helen and Christine Nucich left on Monday, for Prince Rupert, where they will resume their studies.

Mr. Fred Miller and his brother Al. left on Monday to spend holidays in Oregon.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Mr. C. Drennan returned on Monday, from spending holidays at his home in Victoria.

Mr. J. Strombeck arrived home yesterday from holidays spent in Vancouver and Seattle.

Mr. J. Vale arrived on Monday from Saskatchewan, to join his wife and daughter. Mr. and Mrs. Vale will make their home here.

Masters Lorne and Kirk Falconer returned on Monday, from holidays in Vancouver.

Mr. H. L. Burmeister, superintendent of the Homestake mine, returned on Monday from a trip to Prince Rupert.

Dressmaking and Plain sewing—Mrs. Myrtle Wilson, Alice Arm.

Mr. T. Surbich left last week end on a trip to Prince Rupert.

The heavy weight of snow on the roof of the skating rink caused the plates on the wall of the building to sag somewhat on Tuesday evening. New supporting posts were immediately put in place, and the following morning an army of volunteers cleared the entire roof of snow. Some more posts were put into position, and the structure is considered safe for this year, at least.

See Al. Falconer for Wood or Coal

Next Saturday evening, January 19th, the ladies of the town will be the hosts at a carnival, held on the Skating Rink. Comic and novelty races will constitute a large part of the programme, and everyone will have an opportunity to show their skill. Doughnuts and coffee will be provided for refreshments.

Alice Arm, similar to other towns of the north is experiencing a few weeks of quietness. But no one is worrying as all experienced a prosperous time in the year that has just passed, and all signs point to a still more prosperous time during the present year.

At the earliest approach of spring logging operations will be in full blast and on a much larger scale than last year. Mining it is expected, will receive a big boost this year through the operation of the Dolly Varden, and the coming year will find Alice Arm a hive of industry unsurpassed by any town on the coast.

See Al. Falconer for Freight and Pack Horses.

Anyox Basketball Teams All Ready to Go

Games Will Start Next Week

The various teams in the Anyox Basketball Leagues are undergoing vigorous training, preparatory to the start of the season, which will begin next week.

The Senior League will be comprised of three teams, namely: the Elks, Smelter and Mine. The Elks, which were last year's champions, will start the season with practically the same team as last year, with the addition of Cy. Greenwell, of the C. M. C.

The Smelter, although a little late in starting, are rapidly rounding into shape and will put up some good arguments against the opposition.

Little, as yet, is known of the Mine quintette, although they are rumoured as being in first-class condition, and have several dark horses on their roster, which are likely to prove a surprise to the players and fans alike.

The Ladies' League will be made up of three teams also, namely: The Pats, Bluebirds and High School.

The Pats, coached by Cy. Greenwell, are showing much of their last years form, and with the addition of three new players, "Sis" Dean, Miss Calderoni, and Miss McMillan, they look like repeating last year's triumphs.

The Bluebirds have the same team this year as last and already are showing much promise in their preliminary workouts.

The High School team are being coached by Fred Brown, and as the season progresses much can be expected from this team.

Four teams will comprise the Intermediate League: the Coke Plant, Office, Tuxis, and Rovers. The race for the championship in this division should be keenly contested as all teams are evenly matched.

Presentation Made to Mr. A. W. Jacob, at Anyox Mine

On New Year's Eve, the members of the Mine Club House gave a farewell supper in honor of Mr. A. W. Jacob, who was leaving the camp.

At the conclusion of supper, a pleasant ceremony took place, when Mr. T. W. Murphy, on behalf of the members of the Mine Club House, presented Mr. Jacob with a pipe, gold watch chain, and tie pin, In making the presentation, Mr. Murphy said how sorry they all were at the departure of Mr. Jacob, to which Mr. Jacob suitably replied.

Mr. J. Foxley, the well known chef of the Mine Cafe, supplied the eatables. Speeches were made by several of the members during the evening, and a pleasant time was spent by all.

Advertise in the Herald

Mr. J. C. Brady, of Prince Rupert, Address Parent-Teacher Association

At the Elks' Hall, on Thursday evening, Mr. J. C. Brady, principal of the Prince Rupert High School, received a very enthusiastic welcome, when he addressed the members of the Anyox Parent-Teacher Association and their friends, taking as his subject, "The Education of the Boy."

The role of Chairman was taken by the Principal of the Anyox High School, Mr. R. H. Manzer, M. A. vacated for the occasion by the president of the Association, Mrs. Jenkinson.

After a pianoforte selection by Miss Leitch, Mr, Brady took the floor.

He pointed out that the future of the child was of vital importance, not only to himself, but also to the community and nation at large. Human nature, ever selfish was always prone to put the blame of the failure of the child on the shoulders of someone else, in the school or on the community. We ourselves are to blame for many of the things that we talk about and condemn in our homes

Continued on page 4

Skating Rink Centre of Attraction

The Alice Arm Skating Rink has been the centre of attraction for the people of the town during the week, up until Wednesday, when the water on the ice failed to freeze.

On Sunday last a first-class hockey game was played by two local teams, and a good game resulted. The hockey team did some practice work throughout the week and now feel that they are ready to give Anyox a good game whenever they care to make the trip.

Two new players will be on the line-up of the team this year, namely: Mr. C. Drennan who plays forward, and Mr. S. Wickwire who will keep watch between the sticks.

Death at Anyox

We regret to announce the death of James Bryan aged 35 a native of Scotland at the General Hospital Anyox on Thursday Jan. 10th. Deceased who was employed at the Mine was crushed behind a line of cars and sustained severe injuries, his death was caused by a fractured pelvis.

Dolly Varden Reorganized

The Dolly Varden Mine, against which foreclosure proceedings were recently taken, is said to have been placed in satisfactory shape. After being turned over to the Northern Mining Properties, Limited, it has been reorganized as Dolly Varden Properties Limited.——Financial Times, Montreal.

E. MOSS, Editor and Publisher.

Slowly but surely the mineral wealth of northern British Columbia is being developed. American and British mining companies are now realizing that the country really contains large bodies of both high and low grade ore. The pioneer work done by the Granby Co., Dolly Varden Co., Premier Mining Co., also Mr. Duthie, of Seattle who developed properties near Smithers, is beginning to bear fruit. Not many years ago it was the general impression that the ore bodies on the northern coast did not attain any great depth, but the development work which has been done on various properties during the past few years has exploded this theory. The most encouraging fact regarding the mining industry of the north is that the big mining companies of the world are spending money in the development of likely looking properties. At the present time the Stewart and Smithers districts are receiving the largest amount of attention. Both these districts experienced somewhat of a boom twelve and fourteen years ago, and some work and lots of talk was done in both camps. The comeback of both camps is due to the tenacity of the old timers who stuck through thick and thin, and eventually, through hard work and perseverance, persuaded capital to come in and develop the mineral wealth that they were certain existed, and the results achieved have well rewarded their efforts. The Alice Arm camp lies in the centre of this rich mineral area, which has been described in an American Mining magazine as the richest undeveloped mineral area in the world. As has been the case of other mining camps in the north, Alice Arm has encountered obstacles. From all reports obtainable from mining engineers, geologists, etc. Alice Arm contains some of the finest surface showings that can be found anywhere. Underground development work has also proven that the ore carries its values at depth, and the phenominal richness of the Dolly Varden proved that rich ore very often lies under the ground which does not show on the surface. For the past three summers everyone has been expecting the Dolly Varden to recommence operations and again operate the railway, which is the only means of communication with the Kitsault Valley. But why wait? why not follow the example of our neighbors and bend our energies in attracting capital into the camp. If any mining company is willing to spend money in the development of mining properties in the Kitsault valley, and wish to use the railway, there is no doubt that the government would grant their wish. If the Dolly Varden mine is not going to be operated in the near future, the government should, in all fairness, provide means of transportation up the valley. and the least expensive way would be to make a wagon road of the railway grade, so that anyone could make use of it with wagons or motor trucks.

Many business men spend a lot of time killing time, waiting for the day to come when business will happen their way. Such men are blind to the eternal fact that business comes where it is invited and stays where it is well-treated. No true business man loses any time waiting for business to happen; he gets busy advertising and makes it happen.

Shifting Responsibilities

A merchant, unable to sleep, tossed fitfully on his couch and muttered untelligible words. The wife of his bosom sought the cause of his restlessness. In answer to her inquiries, he said, "You expect me to sleep when my note to Cohen in the bank comes due tomorrow for $5000 and thre's only $2000 in the bank to meet it."

"It is?" said the faithful wife, "Then I tell you what I should do, Ike. You should get up and go over to Cohen's house and tell him. and then come back and go to sleep and let Cohen stay awake."

It doesn't make much difference from whom you are descended. What counts most is your ability to ascend.

Principle

It is a fact worthy of our observation that for every right principle there is always a wrong one—truth and false, love and hate, justice and injustice. To sum these up, there is a right way and a wrong way of doing things. The right way leads to everything that is productive of good and harmony and happiness The wrong principle is always productive of discord, unhappiness and eventually destruction. Ever since the human race has inhabited this planet they have been working on principle, and so is every country, province and community down to each individual working today for either a wrong or right principle. We always know when anything in a community is not working for good, because there is always discord. When part of a community is out of harmony with the other that is always sufficient evidence that the wrong way has been taken of doing things, and our moral sense of conscience aught to guide us in a right principle.

Promote in every way the interest of your community for in that way you can best promote your own interests. And do not overlook the fact that the kind of a town you live in is the kind of a town you help make.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814,266; Lead, $51,810,891; Copper, $170,723,242; Zinc, $24,625,853; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous Minerals, $1,358,839; making its mineral production to the end of 1922 show

An Aggregate Value of $769,418,462

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906 1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1922, $35,158,843.

Production During last ten years, $339,280,940

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Mineral Production for Last Year Shows Large Increase

Over 40 per cent. increase in mineral production in British Columbia in two years, is the highly gratifying report of Hon. Wm. Sloan, minister of mines. Despite the big production of 1922, last year showed the big increase of 12 per cent. over 1922. The 1923 figures are all the more significant considering the fact that they exceeded the inflated production of war years.

The actual monetary value of last years production of minerals was $39,699,753, as compared with $35,158,843 in 1922, an increase of $4,540,915. The production of 1921 had a value of $28,066,641; so that in two years the industry has made an advance equal to $11,633,117, or 41 per cent.

Hon. Mr. Sloan states that the increased production of gold is most encouraging, as was the jump in copper. In 1923 there were 54,000,000 pounds of the latter metal produced, as against 32,359,000 pounds in 1922.

The increase in zinc production is pointed to as most remarkable. During the war years this metal was produced at the rate of between 40,000,000 and 50,000,000 pounds per annum, which was considered most striking. However in 1923 the production was 62,000,000 pounds, an increase of 5,000,000 pounds over 1922.

The minister of mines predicts that even greater strides will be made in mining during 1924. Confidence has been registered in British Columbia mining investments, the world has come to realize that in this province are mining properties of untold wealth. With the labor market stabilized and lumbering and agriculture on a sound basis, there is every reason to look forward to a record era of mining development and mineral production during the next few years.

Premier Mine Has Paid Up Capital in Full

When the Premier Gold Mining company disburses $400,000 in dividends on January 15th. it will have returned to its shareholders in dividends their entire investment of $5,000,000 it was stated recently.

It is said that the performance of the mine is unique in the annals of the mining industry. It paid it's first dividend on December 31st. 1921. The whole of its capital has been returned in two years.

While the high-grade ore in sight has been reduced to the point where the mine's days of spectacular production are thought to be past, officials say there is still a large quantity of low grade ore to be mined. A tunnel is being driven to tap the ore body at a lower level and it will be stoped down with a big tonnage production in the coming few years.

How doth the gentle laundress
Search out the weakest joints
And always tear the buttons off
At most strategic points.

Subscribe to Your Local Paper

The editor of a country paper recently reported that he had received a news item from one of his many paintaking correspondents. The item read to the effect that a bride in the neighborhood had excited considerable comment among neighbors by kneading bread with her gloves on.

The editor, seizing upon the opportunity presented, used the item in his paper, adding as an appendix, "The editor of this paper needs bread with his shoes on, he also needs it with his clothes on, but if some of the delinquent subscribers don't pay up pretty soon, he will need bread without a darn thing on."

Continued from page 1.

our streets and our clubs. The key to successful upbringing was not education alone, but education backed up by a high moral tone in the home.

The child is a sacred charge, when father and mother thinking only of their own pleasures, join the dance or the moving picture theatre leaving the children alone, until such things cease there will be no millenum such as that which poets have written of and wise men have prayed for. If home life today was what it ought to be, ninety per cent. of those who now leave the path of rectitude would have been saved or brought back Heaven intended that boys and girls should be guided, and heaven help the boy who could not go to his father or mother and find sympathy and understanding and guidance there.

Touching on the influence of environment. as well as heredity, the speaker further stated that parents would do well to remember the existence of such a thing as suppressed genius possible because of the absence of an understanding of home influence. If the parent of today were to gain for his child what he desired in his herrt, he could do so only by sacrifice, and by standing loyally by his child.

The danger also is that the leisure time of our boys and girls is not being made proper use of. The boy or girl who is not disciplined properly, who has not something productive or constructive to do in his leisure time is liable to go completely astray. Today in many cases the boy is selfish and we make him so. Further, continued the speaker the teacher of today had to understand, what he might call the biography of the child. The child was entitled to every consideration at school, as well as at home. Our education of today was not the best we could give our boys and girls, and we knew it too. Not every boy required the same treatment. Our education must be of such a nature as to give young minds the opportunity of following the best of inclinations.

The speaker, in conclusion, appealed for a better understanding between the Church, the home, the community and the school, thereby bringing the child at length into his own.

The lecture, which was at times, interspersed with appropriate anecdotes and touches of sparkling Hibernian humor, received the rapt attention of the audience.

A vote of thanks to the lecturer was proposed by Mr. Haslett, a member of the School Board, seconded by Mrs. Dwyer, vice-president of the Parent-Teacher Association.

After the lecture, Mr. Brady was entertained at the residence of Mr. R. H. Manzer, where he had an opportunity to renew many old acquainticeships, and meet some of the local people who are earnestly interested in all that pertains to scholastic matters.

Mr. Brady returned to Prince Rupert by the Grand Trunk boat, leaving at 11 p.m.

ANYOX NOTES

The new Union Church will be opened on Sunday, January 20th. Sunday School will be held at 11 a.m. At the evening Service, Dr. Oliver Darwin, new superintendent of the Methodist Home Missions in B. C, will officiate at the dedication of the Church. A full choir and orchestra will be present, and Miss Violet McKay will be soloist.

Keep Friday, January 25th. free for the Burns' Concert.

Mr. J. Dunn returned from Allenby on Thursday last and will be stationed at the Granby Store during the winter months.

Dr. Harper our musical genius who has lately become an aspirant to the "Poet Laureates Crown" was a homeward bound passenger on Thursday last.

The Rev. J. Herdman is looking much happier these days. His new Church is nearly completed and will be open for divine Services on Sunday next week. A full report of the new building will appear in our next issue.

Mr. MacDonald, Anyox's leading tailor, returned on Thursday from his Christmas vacation. He brings back the latest Broadway patterns.

Mrs. P. McTaggart arrived in town on Thursday, from Allenby.

Mr. A. W. Gigot returned to Anyox on Thursday, from Allenby.

Mr. J. Perry was a passenger on the Prince George on Thursday, bound for Edmonton, where he has some business interests. He was given a rousing send-off at the wharf by his many friends.

The Mine Club will hold a masquerade Dance, on Monday evening January 14th. at the Mine Hall. A special train will leave the dock at 8.30 p.m. for the convenience of those from the Beach who wish to attend.

Another Billiard Handicap is being formed at the Recreation Hall Pool Room. All those wishing to enter, please hand in their names at the counter.

EN PASSANT

Lo! in our midst there dwells Doc. Harper,
In writing poems none could be smarter.
His rise to fame could not be quicker
With a knowledge great of real good licker.

BIRTH AT ANYOX

Born to Mr. & Mrs. T. Leslie of the Mine, on Sunday January 4th. a son.

LEGAL NOTICE

In the Matter of the MINERAL ACT and FORFEITURE of INTEREST of Co-Owners who have failed to Contribute.

To W. J. VanHouten of Hollywood, in the state of California, U. S. A. and W. G. H. Campbell of Port Haney, in the Province of British Columbia.

WHERAS you the said W. J. VanHouten and W. G. H. Campbell are each a holder of an undivided one-quarter interest in the "Big Strike" Mineral Claim situated in the Portland Canal District, Alice Arm, B. C. located the 8th day of June 1919 and recorded at Anyox, B.C. upon the 19th. day of June 1919.

AND WHEREAS Douglas R. Shewan and Robert T. Colquhoun are each a holder of an undivided one-quarter interest in the said Mineral Claim.

NOW you the said W. J. VanHouten and W. G. H. Campbell are hereby given notice that the said Douglas R. Shewan and Robert T. Colquhoun have made the whole expenditure upon the said Mineral Claim for the year ending the 19th day of June 1923 as required by Sections 48 and 51 of the Mineral Act.

AND that if you the said W. J. VanHouten and W. G. H. Campbell shall fail or refuse to contribute your proportion of the said expenditure required by the said Sections 48 and 51 of the Mineral Act together with all costs of advertising on or before the first day of March 1924 your respective interests in the said Mineral Claim shall become vested in your Co-owners to wit; Douglas R. Shewan and Robert T. Colquhoun (who have made the required expenditure, pro rata) on filing with the Mining Recorder of the Division in which the said claim is situated, this Notice in full and on fulfilment of the requirements of Sections 28 of the Mineral Act: and do you the said W. J. VanHouten and W. G. H. Campbell govern yourselves accordingly.

FRANK C. SAUNDERS, Solicitor for Douglas R. Shewan and Robert T. Colquhoun, whose address for service and place of business is 402, Dominion Building, Vancouver, B. C.
