Monthly Meeting of Anyox Parent-Teacher Association

The regular monthly meeting of the Anyox P. T. A. was held in the New School, on Monday, Oct. 8th., with a good attendance of both old and prospective members. After the singing of "O Canada." reports of officers were given and business matters discussed. Mr. Southam, convenor of programme committee, presented an attractive plan for the year's work, having made arrangements whereby various prominent men of Anyox, Prince Rupert and outside points will address the Association. Among those mentioned were: Bishop Du Vernet and principal Brady of Prince Rupert, Mr. Charlesworth of Victoria and Dr. Harper, Mr. Hafner and Mr. Eve of Anyox; of whom the last mentioned expect to arrange for a radio night when the members will have the privilege of hearing something worth while from afar.

Mr. Robertson, who has carefully studied the merits of various models was intrusted with the purchase of a picture machine, to be used in school as well as in Association meetings. Many up-to-date schools and Colleges have found these machines of inestimable value in their work and Anyox through the efforts of her school board and P. T. A. is showing herself as progressive as more favored centres in the provision of school equipment.

Miss Tassie, who spares neither time nor strength where the children of Anyox are concerned briefly addressed the gathering on matters relating to the health of the pupils.

Mr. Manzer, Principal of the high school, read an interesting and helpful paper on what the school expect of the teacher, This was originally delivered by Miss Anderson of south Vancouver at a Parent Teacher Federation meeting. It revealed a keenly sympathetic understanding of children on their needs. Parents were counselled to keep their little one's, boys and girls, longer, by a return to simplicity of life. It is not fitting to let a child experience so much of the world that we can no longer think of him, at the age of twenty-one, as on the threshold of a treasure-house of new and wondrous things. The overwhelming importance of the Physical was stressed; Children require REST. In fact a "get to bed early campaign" would not be without point. Attention should be paid, too, to manners; old fashioned courtesy is desirable, and children at home should be taught to respect the right things.

Several parents endorsed the ideas expeessed. Mr. McAllister, in lighter vein, was glad to find that the teacher asked for co-operation and sympathy merely, and did not expect friend parent at home to teach all lessons to be recited next day to a pedagogue leading a life of glorious idleness.

Afterwards Mr. Morand delighted the audience with solos, and the pleasant evening came to a close with the serving of refreshments. The date of the next meeting has been changed to Oct. 26th. in order that the Association may have the privilege of an address by Bishop Du Vernet of Prince Rupert.

Homestake Tunnel Cuts Through Twenty-Three Feet of Ore

Work at the Homestake Mine is proceeding satisfactorily, both underground and outside. The camp buildings are now completed. The buildings were constructed by contract by J. Fiva, and comprise bunk-house, dining room and kitchen, blacksmith shop and a building for the compressor plant. The buildings are constructed of logs and will provide good winter quarters for the men.

The mine is looking good under development work. The No. 1 tunnel has been driven a distance of 190 feet and has cut through an ore ledge 23 feet wide. The whole 23 feet is good looking ore, but the precise value can not be determined until samples have been assayed. The samples have already been sent out for assaying. The depth of the tunnel where ore was encountered is 160 feet from the surface. Work on the No. 3 tunnel, has commenced, and will strike the ore at a much greater depth than was the case of the No. 1. Work on this tunnel is being done by contract by J. Fiva and the brothers Johnson.

The Alice Arm Freighting Co. have twenty tons of supplies at Trout Creek including the compressor plant. This will go forward to the mine as soon as the trail is put into shape for the hauling of go-devils. The compressor will be installed directly on arrival and this will greatly expediate dovelopment work at the mine.

Working on Alice Arm Wing Dam

Work of extending the wing dam above the town is well under way. Eleven men are employed under the supervision of Mr. J. Wells and the work will take about two months to complete. The present dam will not be raised, but work will be concentrated on extending the present structure so as to afford protection for the pier of the bridge on the west bank of the Kitsault river.

This work will also stop the river from cutting through the unprotected space now existing between the present dam and the main stream of the Kitsault river. a protection that was greatly needed.

Up to the time of going to press no word has been received as to when the construction of the bridge will be commenced, but it is probable that work will be started as soon as the dam is completed and perhaps before.

Successful Dance Given By Anyox Moose

The Recreation Hall was packed to capacity on Monday last, when the local "Moose" gave their opening dance. It was undoubtedly a huge success in every way and great credit should be given to all concerned especially as this was their initial effort. The hall was decorated in an extremely artistic manner, and the supper served reflects great credit on the catering manager, Mr. F. W. Clayton. The Women's Legion of Moose contributed in no small manner to the success of the evening. The Lodge express their thanks to the Legion, especially to Mrs. Rice, Mrs. Cross, Mrs. Stanley, Mrs. Grinaldi, Mrs. R. Gill, Mrs. Green, Mrs. J. Hart, and Mrs. Foxley. The M. C. was Mr. Jack Sherman, supported by the Dance Committee, consisting of Messrs. Foxley, Clayton, Cross, Hart, Stanley, R. Gill, A. Beaton, F. Rice, J. Varnes, J. McGuire. and the Lodge Secretary. The orchestra consisted of Messrs. Haesler, piano; Waterman, drums; Varner, horn; Griffen, saxophone; Liddell, violin; Armstrong, banjo.

The Lodge intends to hold a series of entertainments throughout the winter for the benefit of their members and friends. Full particulars of which will appear at a later date in these columns,

Big Boom of Logs Ready For Shipment

A big boom of logs comprising 26 sections is now ready at F. Miller's logging camp, for shipment to the Big Bay Lumber Co. at Georgetown and a tug boat is expected at any time to tow out the boom.

Logging operations at the camp are still proceeding and work on making another boom will be undertaken as soon as the present one leaves.

Sixteen men are now working at the camp. The high lead system of hauling the logs from the woods is being used, and equipment consists of one yarder and one loading engine. Work of falling timber is also being carried on across the bay opposite the camp, this work being done by contract.

Another Ore Shipment From Esperanza

The Alice Arm Freighting Co. commenced this week to haul over thirty tons of high grade ore from the Esperanza mine. As soon as the ore is landed at the wharf, it will be shipped south.

Work of mining ore is steadily proceeding. The ore being mined at the present time is from a shoot nearly three feet wide, in the tunnel above the Baldy tunnel. A fine specimen of ore was brought to town this week showing chunks of native silver in a white quartz.

Winter Entertainment For Alice Arm

The officers of the Alice Arm Social League held a meeting last Monday evening at the School House when several matters were discussed. It was decided to hold a dance at the Alice Arm Hotel, on Saturday October 20th. and to hold a debate at the Anglican Church, on Tuesday, October 30th.

Mrs. R. F. McGinnis, vice-president, promised that the ladies would provide an evening's entertainment on Tuesday, November 13th. It was also decided to hold debates as often as possible, during the winter, and also provide other forms of entertainment that may be possible. Dances will be held at least once a month.

Loyal Order of Moose Initiate Alice Arm Members

Nineteen residents of Alice Arm were initiated into the mysteries of the Loyal Order of Moose, on Sunday last at the Welcome Pool Room Twelve members of Anyox Lodge No. 1412 came over on the Awake on Sunday morning, included in the party were a number of officers for the purpose of conducting the ceremony, which was held in the afternoon and the party left at 4 p. m. for the return trip. For some it was their first visit to Alice Arm, and they were surprised at the wealth of wonderful scenery and the prosperous aspect of the town.

It was the opinion of the visitors that a lodge will be instituted in Alice Arm in the near future. A good start having been already made towards that end, meantime Alice Arm members will belong to the Anyox Lodge.

ANYOX NOTES

Mr. Alex C. McKenzie left town on the Cardena, on Monday. He will reside in Vancouver.

Mrs. M. Gerard returned on Monday from a visit to the south.

Among the southbound passengers on Monday, were: Mr. W. F. Higgens, Mr. E. H. Mortimer, and Mr. J. H. Edgett.

For bagains in men's suits see General Store advertisement on page four.

Mr. Jimmy Robertson left on Saturday last, to join his wife In Tacoma, where he will reside.

Mr. A. Sinclair, who returned to Anyox from Prince Rupert, has still to undergo further treatment at the Anyox Hospital. We wish him a speedy recovery.

Mr. T. Rogers was a southbound passenger to Vancouver, on Monday.

Rev. Father Allard was a visitor to Anyox, on Monday last, and proceeded to Stewart.

Mr. McMaster arrived on Thursday, from the south.

Our sample books of Christmas cards will shortly be ready for circulation. All cards are this year's styles, with a wide range to select from.

Mr. Dave Rowley, who recently returned from Copper Mountain, left on Monday, for Maple Bay.

Mr. J. Tuttle, of the Mine, left on Monday last, after being about nine years in the employ of the Granby Co.

Capt. S. Herrin, of the "Edrona" was the host on Wednesday last. when he took a party of enthusiasts out duck shooting. The bag was a phenominal one, owing no doubt to the fact, that two of the party were ex-service men, and crack shots. We hear that the "Unknown's" skipper will reinforce the party on Sunday, so we can confidently look forward to another good bag.

Mrs. Hackett arrived in town on Monday, from Vanconver.

Among the passengers arriving on Monday by the Cardena, were: Miss E. Ross, Miss Miller. Mr. F. LePine, and Mrs. Ray.

Organizer W. F. H. Thompson, who succeeded in establishing a big Moose Lodge, in Anyox and Alice Arm, left for Ocean Falls, on Thursday, where he will endeavour to complete his success.

Mrs. W. G. Valpy, of the Mine, arrived home on Thursday. from a visit to the south.

Mr. J. D. Wilson, of the Mechanical Department, returned on Thursday, from Vancouver.

Mrs. V. Bengston, returned on Thursday, from Washington, accompanied by her mother, who will reside with her at the Mine.

Mr. and Mrs. H. S. Munroe, returned from a visit south, on Thursday.

Mr. J. Kerr, arrived in town on Thursday, from the south.

Mrs. D. T. Evans was an incoming passenger, on Thursday's boat.

Patronize your local printer. Buy your Christmas Cards from The Herald. Satisfaction guaranteed, and all cards delivered promptly,

ALICE ARM NOTES

Alice Arm is growing fast,
No one can hold her down,
Right here we have the makings
Of a good and lively town.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Mr. Harry Owen, arrived on Monday, from a trip to Vancouver. He is greatly improved in health, and expects to remain here throughout the winter.

Mrs. J. Johnson and three children arrived on Monday, from Greenwood, and will reside here. Mr. Johnson is contracting at the Homestake mine.

See Al. Falconer for Wood or Coal

Mr. Jimmy Duff arrived home on Thursday, from a visit to Prince Rupert.

Morley Shier, representing the Giant Powder Co., was a visitor in town, on Sunday.

Northern Polytechnic Classes

It is indeed, disappointing, that the classes of the Northern Polytechnic Institute, scheduled to commence in Alice Arm, on October 8th. has, so far, failed to start. Failure of procuring suitable instructors and failure of the public to make an effort to support the classes, are the chief causes why the classes have not commenced. It is possible, however, that some classes may yet be arranged, but valuable time is being lost, and it is possible. that should the scheme prove to be a fizzle this year, that the management will in future, not bother to go to the trouble of trying to organize classes in Alice Arm, and the people of the larger centres will be in a position to improve their education, an advantage that the dwellers of the small town will not possess,

Alice Arm Social League

Now that the Alice Arm Social League has been formed, it is for everyone to help along the good work, and this can be done in various ways, namely, by taking an active part in the different entertainments; by giving your time willingly when necessity arises for a few minutes work, and by being a booster at all times. If we don't want classes for our education, then let us spend some of our evenings in healthy recreation. The officers of the League will do their best to provide entertainment, and with the support of the people of the town, failure is impossible.

Operation of the Dolly Varden

The reported option on the Dolly Varden, by New York capitalists published by us last week. was gratifying news. It shows that the operation of the Dolly Varden is a live issue, and sooner or later, the property will be put into commission. It also shows that the owners do not intend to let the plant go to ruin. and so lose one of their most valuable assets. The plant as it stands today is in fairly good shape, and whoever operates the mine will not be required to spend large sums of money on transportation, power and buildings. Those who know the Dolly Varden and Wolf and the properties adjacent, are not worrying over the chances of their ever being developed, The truth is, that there is too much ore in sight in the upper Kitsault country for it to lie idle indefinitely. Almost every mining camp starts with a hetic boom. Then comes the reaction, with a period of idleness. After that comes the re-birth, and a start is again made, in which the operators profit by the mistakes of their predecessors. Owners of prospects "come back to earth". in regard to price, and are ready tn talk business, and if the camp is a good one, the foundation of a permanent industry is laid, and those who stayed with the camp through thick and thin are the one's who win.

O. K. Mine Srtikes Free Gold

Free gold has been struck in the O. K. mine at Rossland, by Harry Gamble and associates, after working less than a month. The gold is visible to the naked eye and is improving in volume. The O. K. was one of the first free gold discoveries of the early days of Rossland, and gave up considerable wealth in the initial operations.

The I. X. L. is still in rich ore and preparations are under way to make another shipment to the smelter.

Guggenheim Interests Are Bonding Properties

The Federal Mining Co. a subsidary company of the Guggenheim interests, have taken over the Diamond Belle and Silver Queen properties in addition to several other properties controlled by them on Hudson Bay and Dome mountains, near Smithers. The Silver Queen was staked in 1912 by Roy Ridsdale.

of all sad words the worst without fail are those of the judge, "Six months in jail."

School Text Books To Be Revised

An announcement made by Hon. J. D. McLean, provincial secretary, is to the effect that following the conference of Deputy ministers of Education of the four western provinces, the curricula of the public schools will be revized. Other important changes calculated to improve the public schools system, including longer training periods for teachers, also are expected to result from the conference.

The text books of geography, grammer, arithmetic, and spelling will be revised and it is expected that each province may manufacture its own text-books.

Taken all in all the revisions in the schools system are the result of a long period of investigation and a material improvement in general educational methods is anticipated.

The people of British Columbia through the government have sent the stricken citizens of Japan a gift of $45,000 worth of shingles and lumber. A special warrant for this amount was passed.

BRITISH COLUMBIA
The Mineral Province of Western Canada
Has produced minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814,266; Lead, $51,810,891; Copper, $170,723,242; Zinc, $24,625,853; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous Minerals, $1,358,839; making its mineral production to the end of 1922 show
An Aggregate Value of $769,418,462
The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1922, $35,158,843.
Production During last ten years, $339,280,940
Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.
The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.
Mineral locations are granted to discoverers for nominal fees.
Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre: second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest, and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

The Rhyme of the Tenderfoot

There has been some discussion recently in Anyox regarding the advantages of outdoor life, and following is the opinion of some who have tried it

You can rave, you Isaac Waltons, of the glories of the stream,
Of the sunshine of existence you afford me not a gleam;
The romance of the brooklet I can never seem to get,
To me it's merely water which is develish cold and wet,
If the poetry of motion lies in casting out a line,
I'll have prosaic movement in the portion that is mine,
For when gently on the water I essay the fly to cast,
It lodges in my panties and remains there hard and fast.
And when from hide and clothing I at last have cut it free,
And cast again, it always snags a rock or bush or tree.

You embryo Kit Carsons, with your trophies of the chase,
I envy not your prowess, and I covet not your place,
This plunging into snowdrifts, and hiking up a hill,
Is not an occupation that affords me any thrill;
I'm tired of shooting shotguns with a sixteen ton recoil,
And applying to my bruises Doc Whelan's linament and oil,
I'd rather let the mallard duck remain at large and free,
Than have a cockeyed shot gun make a total wreck of mé.
I'd rather let the grizzly bear forever snort and sniff,
Than break my neck through falling down some coast range mountain cliff.

Stand up, you gas boat tourists, and wave your arms and shout,
And tell about the rapture of a life of camping out.
My memory reminds me of the sleepless nights I've spent,
Congealing in the rain-drops trickling through a leaky tent.
No longing for the great outdoors with great insistent tugs,
Instead I see mosquitoes and a million other bugs,
I see dirt and leaves and gravel in the greasy frying pans,
And mixed up in the grub box is pickles, hams and jams,
The camp-fire which contributes so much burning, blistering heat,
With its smoke which chokes and strangles when you attempt to eat.

You take the open spaces, and give me a house instead,
You sleep ot boughs and boulders, but give me a standard bed.
Go plunge into the mountain stream, and give your skin a thrill,
But for me turn on the faucets in the bathtub, if you will.
Go eat your beans and bacon in the rain and snow and muck,
If I can reach a table I will feel that I'm in luck.
You are welcome to the victuals that are interspersed with ants,
With wifey's kitchen products I will gladly take a chance.
You hunters and you anglers, here's to you as you may roam,
The more I see of camp-life the more I think of home.

The Copper Market

Burdick, Logan & Company, Limited
737, Granville Street,
Vancouver, B. C.
Special to the Herald

Foreign sales around 2,000,000 pounds and domestic price 13 1-2 cents delivered. Refineries almost swamped.

Foreign and domestic buying of copper is slightly less active, Prices remain firm except that aside ship, price is about 1-8 cent a pound easier, being back again to 13 1-2 cents.

Foreign sales during the last 24 hours, aside ship and c. i. f., have been around 2,000,000 pounds for export association and independents despite decline in London Metal exchange quotation.

Both in the domestic and the foreign market the tendency is appearing for consumers to await clearer indication of what is to result in Germany from abandonment of passive resistance as well as to see what is to be the French attitude. Continuance of the high rate of recent foreign buying can not be expected and a temporary lull should be looked for.

In fact foreign demand has been so strong for wire bars during the last two months that it is necessary to wait to fill orders upon 135-pound wire bars, which are the standard weights of wire bars for foreign shipment. This is the first time that this has occurred in ten years, and indicates that with stocks of refined exhausted, which were in hands of Copper Export Association the large increase in foreign demand of the last two months coming on top of record breaking domestic shipments has practically swamped the refineries so that with normal forces of men they can not keep up with orders.

Price of electrolytic copper for domestic shipment is 13 1-2 cents a pound delivered to end of year. Price aside ship is 13 1-2 cents New York. Prices for European destinations are at levels corresponding with 13 3-4 cents c. i. f. Hamburg, Havre and London.

British Empire Steel

Toronto—British Empire Steel corporation declared regular quarterly dividend of 1 3-4 per cent. on its first preferred stock, payable November 1 to stock of record October 13.

Company plans to put into operation its battery of coke ovens installed by Koppers Corporation two years ago, with a view to supplying coke for the upper Canadian market. This will increase batteries in operation from 120 to 200 ovens.

TAKE NOTICE that I, A. C. H. Gerhardi, F. M. C. No. 76927-C, acting agent for Arne Davedson, F. M. C. No. 47461-C, Arthur F. Smith, F. M. C. No. 73743-C, Gustaf Pearson, F. M. C. No. 72515-C, and Harry M. Mann, Free Miner's Certificate No. 67886-C, intend sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claims,

And further take notice that action, under section 85 must be commenced before the issuance of such Certificate of Improvements.

Dated this 6th, day of August, A. D. 1923.

Alice Arm Notes

Continued from page 1.

Mr. J. A. Stephen and Mr. Geo. Young, arrived on Thursday, from Stewart, where they have been during the past few weeks, in connection with government road work. They expect to return to Stewart on Monday.

Mr. A. C. H. Gerhardi, left on Thursday, on a business trip to Vancouver.

Constable Martin, of the provincial police, arrived on Monday, from Prince Rupert, and will spend a week in town, proceeding to Stewart, on Monday. Mr. Martin expects that a constable will be stationed here permanently in the near future.

Mr. D. A. Hoffman, representing the Sullivan Machinery Co., manufacturers of mining drills, was a visitor during the week.

See Al. Falconer for Freight and Pack Horses.

The hills are crowned with pure white snow,
And soon the winter winds will blow.
Soon, with rubbers on our feet,
We'll wade through mud and snow and sleet.
But we'll live it out you bet,
We never died a winter yet.

The ladies of the town held a meeting yesterday alternoon, at the Anglican Church for the purpose of forming committees to handle the arrangements for the children's Christmas Tree. It was decided that the best way of raising the necessary funds would be by placing collection boxes in the various stores with a notice calling the attention of the public to the fund being raised. The boxes will be placed in stores throughout the town on Monday next and will be collected on November 12th.

The ladies elected to serve on the committees were: Entertainment: Mr. Drennan, Miss Virginia Riel. Refreshments: Mrs. Bruggy, Mrs. G. Anderson, Miss Crawford. Christmas Tree: Mrs. A. Falconer, Mrs. H. F. Kergin, Mrs. R. F. McGinnis.

A dance will be held at the Alice Arm Hotel, this evening. Dancing will commence at 8.30 p.m. sharp. Ladies please bring refreshments. A good time for all, and all for a good time.

Stewart News in Brief

Work on the Bear river bridge is now well under way, under the supervision of Paul McMaster.

Mr. J. Killas, of Prince Rupert has opened a Pool Room at the Premier Mine having obtained a concession from the Premier Mining Co.

A diamond drill contract has been let on the M. C. property by Mr. C. A. McKenzie, to Boyle Bros. A stone house has been erected. Twenty-six men are employed on the M. C. and Prince John.

Grant Mahood, one of the successful operators of the camp, has left for the east on business after starting operations on the Fish Creek for the American Mining and Milling Co., and checking up the work done this summer on the Georgia river property, which he recently acquired under bond, and from which some high gold values have been obtained.

Why do they say a bride is "led" to the altar? Did you ever see a bride pulling back?

LEGAL NOTICE

In the Matter of the MINERAL ACT and FORFEITURE of INTEREST of Co-Owners who have failed to Contribute.

To W. J. VanHouten of Hollywood, in the state of California, U. S. A. and W. G. H. Campbell of Port Haney, in the Province of British Columbia.

WHERAS you the said W. J. VanHouten and W. G. H. Campbell are each a holder of an undivided one-quarter interest in the "Big Strike" Mineral Claim situated in the Portland Canal District, Alice Arm, B. C. located the 8th day of June 1919 and recorded at Anyox, B.C. upon the 19th. day of June 1919.

AND WHEREAS Douglas R. Shewan and Robert T. Colquhoun are each a holder of an undivided one-quarter interest in the said Mineral Claim.

NOW you the said W. J. VanHouten and W. G. H. Campbell are hereby given notice that the said Douglas R. Shewan and Robert T. Colquhoun have made the whole expenditure upon the said Mineral Claim for the year ending the 19th day of June 1923 as required by Sections 48 and 51 of the Mineral Act.

AND that if you the said W. J. VanHouten and W. G. H. Campbell shall fail or refuse to contribute your proportion of the said expenditure required by the said Sections 48 and 51 of the Mineral Act together with all costs of advertising on or before the tenth day of December 1923 your respective interests in the said Mineral Claim shall become vested in your Co-owners to wit; Douglas R. Shewan and Robert T. Colquhoun (who have made the required expenditure, pro rata) on filing with the Mining Recorder of the Division in which the said claim is situated, this Notice in full and on fulfilment of the requirements of Sections 28 of the Mineral Act: and do you the said W. J. VanHouten and W. G. H. Campbell govern yourselves accordingly.

FRANK C. SAUNDERS, Solicitor for Douglas R. Shewan and Robert T. Colquhoun, whose address for service and place of business is 402, Dominion Building, Vancouver, B. C.
