VOL. 1, NO. 43 — ALICE ARM, B. C., SATURDAY, APRIL 15, 1922 — 5 cents each.

Anyox Dam will be Big Structure

Height of Dam will be 138 feet and it will be 640 feet in length

Construction work will soon commence on the erection of the large storage dam on Falls Creek. It will be known as Dam No. 2 and will be used for the purpose of storing about 25,000 acre-feet of water for the use of the hydraulic power plant during the water scarcity of the winter months, and will eliminate the need for the auxiliary steam plant, except in extreme emergencies. A construction railroad from the present railroad line to the dam site is well along toward completion, and will be ready for use by the time the snow has disappeared.

The dam is of reinforced concrete construction, of the multiple-arched type, designed by Mr. J. S. Eastwood, of Oakland, California. The height of the dam will be 138 feet above the bed of the stream, and the extreme width along the crest will be 640 feet. The arches are of 24 feet span and are supported by buttresses, extending along the bed of the stream for a maximum distance of 160 feet at the centre of the dam. The spillways are of the syphon type, enabling the dam to be filled to the crest, thus utilizing the maximum storage capacity. For the purpose of discharging floating debris, trash, etc., a Taintor Gate will be installed. The flow of water required for the power house will be controlled by three valves, each 30in. diameter, placed near the bottom of the dam, and operated from an interior passageway.

About 15,000 cubic yards of concrete and about 200 tons of reinforcing steel will be utilized in the work. The sand and gravel necessary for the concrete will be obtained from the bed of the stream a short distance above the site of the structure. Approximately 150 men will be employed in the construction work, which it is hoped to complete this summer.

April Meeting of the Anyox Parents and Teachers Association

There was a good turnout at the April meeting of the Anyox Parents and Teachers Association, held in the New School on last Friday evening.

The programme was provided by the parents and proved both highly instructive and entertaining. Mrs J. Haslett of the mine, read and elucidated most ably a paper on a current subject of great interest; "the Junior High School —its place in the educational scheme."

It was pointed out that owing to certain imperfections in the public school system; to the too great gap between elementary and high school subjects; to faulty examination, and also to deficiencies in mental calibre of available secondary school material, that in many larger as well as smaller centres, in our own province particularly, the junior high school aids the entrance pupils to adjust themselves to new scholastic environment. To some who would not ordinarily spend three full years in present High School work, this intermediate school offers facilities for backward pupils and stimulus to students who incline toward commercial or technical subjects. It would appear to some that the Junior High School is a necessary innovation until such a time as certain curricula defects in elementary schools are remedied, and a saner standardization of teaching is adopted.

Musicial items contributed by Mrs. Herrin, Miss Leitch, Mr. McColl, and Mr. Thomson greatly enhanced the enjoyment of a pleasant and profitable evening. The refreshment committee made provision for those present in their usual delectable manner.

The programme for May will be in charge of the schools' teaching staff, which is making a bid to keep up to the standard set by the parents.

Bachelor's Dance Held at Alice Arm

All those who attended the Bachelor's Dance held at the Alice Arm Hotel, on Friday evening, April 7, are enthusiastic in their praise of the good time extended to the residents of the Camp on the occasion of this annual event. The Bachelors excelled themselves in providing an excellent programme of dances and music, and every minute of the evening was brimful of pep and action. The repast furnished by the lonesome cooks was indeed sumptuons and without doubt a surprise to many of the good housewives of the town. Cakes, salad, beans, sandwiches and ice cream were there to tempt and tickle the palate, and from the manner in which they disappeared we are firm in our conviction that the proof of the pudding is in the eating.

Those present were:

Mr. & Mrs. G. Young, Mr. & Mrs. G. Anderson, Mr. & Mrs. G. Bruggy, Mr. & Mrs. W. Cummings, Mr. & Mrs. A. Falconer, Mr. & Mrs. T. W. Falconer, Mr. & Mrs. O. Gray, Mrs. H. Nucich, Mrs. R. F. McGinnis, Misses H. Boa, N. Hogberg, H. Nucich, B. Crawford, M. Wilson, M. Stanley; Messrs. M. D. Ross, H. Fowler, S. Dumas, B. Gray, A. D. Yorke, L. Reynolds, M. Peterson, F. Miller, N. Forbes, E. R. Oatman, O. Flint, J. Fiva, G. Webber, W. Burke, H. Carney, junr., G. W. Nelson, L. Paulcer.

ALICE ARM NOTES

Mrs. H. Carney is now agent for the Amateur Finishing Co., of Vancouver for Developing, Printing and Enlarging all kinds of Photographs. Prices on Application.

EASTER CONCERT

At Alice Arm Coliseum, Thursday, April 20th, at 8 o'clock sharp. Drills, Dialogues, Dances, Songs, Choruses, Recitations. Admission 50c. Everybody Come.

Owing to the fact that so many children will participate in the drills and choruses, it is the intention to start the programme AT 8 O'CLOCK SHARP

A. D. Hallett was a passenger out on Monday. He plans to take a trip into the interior from Bella Coola.

Geo. Young, district road superintendent, left on Monday on a business trip to Prince Rupert and Stewart.

H. F. Kergin, M. L. A. spent a few days in Prince Rupert this week on government business.

Mr. & Mrs. F. Brown, of Prince Rupert, spent a few days in town this week.

Chas. Gordon, one of the old-timers of the camp arrived in town on Monday, enroute to his ranch in the Naas Valley. He has been spending several weeks in Victoria and Vancouver.

The sum of $20.75 was realized last Sunday at the sale of ice cream, by Leo Paulcer. This money was forwarded to Anyox on Tuesday, and the committee of the "Save the Children Fund" wish to express to Mr. Paulcer and the people of Alice Arm their appreciation for the generous assistance.

See Al. Falconer for Freight and Pack Horses.

Louis Reynolds left on Thursday for the Miller logging camp at Way Point, where he has taken the position of cook.

Niel Forbes left on Thursday for Anyox, and will help to rush the Dam Railway to completion.

Art Beudin also left on Thursday to engage in similar work.

Lee Intermali brought in a nice bunch of skins this week, among which was an otter that measured over five feet in length.

Mrs. T. W. Falconer took her little daughter, Juanita, to the Anyox Hospital on Thursday, the little girl had been sick for several days, but is now coming along nicely.

Mrs. W. Cummings celebrated her natal day on Monday, by entertaining a number of friends in the evening. A very pleasant evening was spent in games and cards. Mrs. Al. Falconer carried off the first prize at cards and Mrs. R. F. McGinnis won the booby prize.

A surprise party was given at the home of Mrs. H. Nucich, on Wednesday evening. Dancing, games and stories were the order of the evening, and the merry party dispersed at 1.30 after spending a delightful and enjoyable evening.

The ladies of the town have organized a physical culture class with Mrs. R. F. McGinnis as instructor. This is the second organization promoted by the women. What's the matter with the men, anyway.?

Now that Anyox has adopted daylight saving, Alice Arm should follow suit. If not, why not.?

O. M. Walker appeared before Judge Young at Prince Rupert, on Monday last, charged with being in possession of a stolen watch. Walker pleaded guilty and was released on suspended sentence.

See Al Falconer for Wood or Coal

Now that the snow has almost disappeared from the town and the winter's accumulation of garbage and ashes is exposed to view, steps should be taken by the citizens to clean up around their homes. Dirt and filth breed flies. Flies carry decease. Prevent decease attacking YOUR home by cleaning up. An inspection of all back yards, etc. will be made within the next few days by the Sanitary Inspector.

ANYOX SERVICE ASSOCIATION

Weekly Meeting Held of The Anyox Community League

At the meeting of the Anyox Community League, held at the Mine Hall, on Wednesday, April 12, Councillor Buzzelle reported that the dance held at the Reading Room, on Friday, April 7, was a remarkable success.

It was decided that an organization meeting for baseball and football be held on Friday evening, April 14.

It was also decided that the swings & other pamphernalia which have been unused since last summer be again placed in the children's playgrounds and rest seats along the mine road.

The question of responsibility for the ball equipment which recently arrived, was discussed and action deferred until a later meeting.

The meeting was informed by Mr. A. Roberts, representative of the Recreation Department that a building should be constructed at the ball grounds for the convenience of players who might not have time to dress elsewhere, and the initial equipment could be kept there.

The matter of radio telephoning was brought up and the Council was informed that no action could be taken in connection with the matter until such time as Mr. MacDonald has demonstrated the feasibility of operating successfully a feature of this nature.

It was decided that the committee in charge of entertainments arrange with the Elk's committee for a schedule of dances and other entertainments that would not conflict.

The question of catalogueing the books at the library was introduced by Councillor Armour and after some discussion it was left over to be dealt with at a future meeting.

The committee for the "Save the Children Fund" of the Russian famine, in the person of the Rev. J. Herdman, asked the Council to augment the fund raised here on Tag Day, making it $500.00. The sum asked for was $44.55: this was granted by the Council and this action has enabled the committee to supply one kitchen complete.

There was considerable discussion over the poll recently taken in connection with daylight saving. As the poll taken was merely for the expression of opinion as to the advisability of bringing in daylight saving for certain months, the Council had not provided scrutineers, etc. It is now very probable that a regular election will take place shortly, that is, if the Granby Co. are satisfied that such a course will be in the best interests of everyone.

The present government, like all previous governments of the province who have been in office for a few years are getting a considerable amount of criticism. Every district is crying for money to be spent in that particular part of the province and the government are at their wits end to satisfy all the demands. If a sum of money is spent for improvements in one part of the province, a yell goes up from everyone else for a similar sum to be spent in their particular town or district, and so the merry game goes on. The government is no doubt trying to do the best it can for the province as a whole, but no government in British Columbia ever satisfied the entire population in regard to spending money on public works. It is as well to remember that the government finds it hard to collect money at the present time, just as an individual does, due to the scarcity of the elusive dollar. There is one thing the people of Alice Arm can be proud of, and that is they have never clamoured for public money to be spent in this district when it could be spent to greater advantage in some neighbouring district. The time has come, however, when the attention of the government should be called to the pressing needs of Alice Arm and also the Naas Valley. The Kitsault River Valley which is without doubt one of the richest mineral belts in British Columbia is without transportation of any kind, except pack horses. The government should be able to find some solution of the difficulty and make it possible to utilize the right-of-way of the Dolly Varden Railway either as a railway or as a wagon road. As the road now stands it is useless to everyone. Trail connections at least, should be made between Alice Arm and the Naas Valley this summer, in order to open up that rich agricultural valley and provide communication with the interior, and the trail could later be converted into a wagon road. To obtain value for money spent the government could not do better than carry out these two projects and there is no doubt that both these matters will soon be given consideration.

Mamie Property will Work this Summer

Considerable development work will be undertaken this year on the Mamie property, which is situated on Hudson Bay mountain near Smithers. A compressor plant capable of operating two Turbo drills will be installed and three shifts will be worked to speed up development. Supplies are being hauled in as quickly as possible and a new camp will be built. Before work can be started at the mine it will be necessary to do considerable road and trail work, but it is expected that work will commence underground about June 1st, and twenty-five men will be employed.

Development Work on Drum Lummon

The directors of the Drum Lummon Mines have accepted the proposition of New York investment bankers to furnish $275,000 of new capital for development of the mine.

As soon as the snow goes off this spring a new camp will be built, also dock, railway, and new compressor plant and ore bins. Development will be conducted to open the veins at great depth.

This property is situated on Douglas Channel, forty miles back from Surf Inlet mine and has developed some of the highest grade copper-gold ore found in Canada.

Rebuilding Concentrator at Britannia Beach

The "benching off" work for the foundation of the new concentrator at Britannia Beach is well advanced and the concrete work is under way. Plans for this new plant call for fireproof construction to elimate the possibility of another fire, and the plant will cost $800,000.

The new concentrating plant will be capable of handling 2500 tons of ore per day and it is expected that the mine and concentrator will be running full blast this fall.

The rebuilding of the town which was swept away by flood on October 29 last will be carried out this year, and it is estimated that 75 houses will be built by the company for their employees. Crews of men are working daily clearing away the debris caused by the flood.

The total shipments of ore and concentrates from the Premier mine, since the first of the year is approximately 17,200 tons.

A table recently submitted by the Vancouver Chief of Police showed that 2328 men and 196 women and girls had been arrested for selling, distributing or being in possession of cocaine, morphine or opium; that 211 men and ten women had been charged with keeping opium joints, and that 1404 men and 23 women had been found frequenting these places.

The Rossland-Cascade link of the transprovincial highway will be completed this year, according to Hon. W. H. Sutherland, Minister of Public Works. This section measures nineteen miles and the total cost will be about $250,000. Fifteen miles of the link from Cascade was built last year and six miles from Rossland the year before.

RE
SPECIAL TIMBER LICENCES

The attention of Timber Licence holders who are taking advantage of the provisions of the 1921 Amendment to the Forest Act, whereby arrears of licence fees accrued prior to 31st. December, 1920 have been funded and made payable in annual instalments, is specially directed to the fact that any renewal fee which became due in 1921 is not included in the instalments above mentioned, and such 1921 and all subsequent renewal fees must be paid within one year after the date of expiry of the licence in order to maintain the right of the holder to obtain a renewal of the Licence.

Anyox Votes in Favor of Daylight Saving

The vote on daylight saving taken on Saturday last, gave a substantial majority for the extra hour of daylight in the evening. Although the Mine went 95 to 24 against the idea the Beach voted in favor of the measure with a vote of 388 to 124. If those who voted for the change turn out at the ball games they will be a strong factor in the encouragement of athletics. We know a good many who voted against it will turn out, so we can look for a great season of sport in Anyox.

The results of the ballot at the different booths were:

	For	Against
Mine	24	95
Beach Mess	334	113
Library	54	11
	412	219

Majority in favor 193

Mints in the United States are coining silver dollars at the rate of about 400,000 a day. The coins are of the new "peace" design. Coinage last year was at the rate of 800,000 coins daily.

"Who was Nero, Bill?" asked one man of another. "Wasn't he the chap who was always cold?"

"No," said his wise friend. "That was Zero, another guy altogether.

THE PRINTER

I used to think a printer's life way one of peaceful joy, he had no cares to blight his day, nor money to decoy. I thought that all he had to do, to make the shekels roll —was printing half-sheet auction bills or ballots for the poll; that advertisers flocked in gangs to fill his paper up, with sales of hardware, ham and beans, and oft a brindle pup: that when the toil of day was o'er, a peaceful pipe he'd smoke, and smile because a wad of kale was in the bank to soak. But I have changed my views somewhat since I now run a sheet; my time is spent in hustling hard in making both ends meet. At times I feel like pulling stakes to make another go at some old job I don't care what, where I can make some dough. The printing trade is gone to pot, the price is on the blink—the competition I have got will soon drive me to drink. But Jones who runs a butcher shop, and Brown who peddles beans, tell me they've got to quit, by Heck, and drift to other scenes, where they can get some other work—and not too much of that—the kind of work they're in just now, has fallen rather flat. And so, when I contrast my job of peddling out the news, and selling jobwork to the folk who pay me all my dues, I find my life is made of things, that happen on the spot—that make a man forget his cares; his job is just to sell his wares, contented with his lot—Special contribution to Canadaink.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

ANYOX NOTES

Special Easter Services at the Union Church, on Sunday night, Quartette, Easter music, etc.

Mr. and Mrs. Paul Armour and their daughter June were southbound passengers on Monday's boat. Paul is operating the halibut boat, Speculator, which is owned by an Anyox syndicate. Prince Rupert is his base of operations and they will reside there, which will be much better for all concerned.

"?"

Granby Stores

Commencing on Easter Sunday, which is tomorrow, the Union Church Sunday School will inaugurate their summer schedule. The Sunday School will meet at 11 a.m. throughout the summer.

Mr. and Mrs. Heighway left town on Thursday. Mr. Heigh- has taken a position in Seattle. Both were enthusiastic tennis players and will be greatly missed by the club.

The subject of the Easter Sunday sermon at the Union Church, will be, "The Fact of Inmortality."

Mr. F. H. Parsons, superintendent of the smelter, returned from a trip in the south, during which, he visited Trail and Anaconda smelters.

Mrs. T, Ranson returned from her holidays on Thursday. While in Seattle see underwent an operation on her tonsils, which has much improved her health.

What is the meaning of the black and white window at the Grocery Dept.? We are curious, and will watch that window. It is irrisistible!!

Holy Communion at Christ Church on Easter Sunday, 8 a.m. Children's Service in the afternoon at 2.30. Evening Service 7.45. Special Music; anthem "The Radient Morn," by the choir. Solo, "We Shall Abide," by Mr. J. Pinder-Moss.

$434.75 Collected on Tag Day in Anyox last Tuesday

At the Tag Day held in Anyox, on Tuesday last, for the purpose of raising funds for the "Save the Children Fund" of the Russian Famine, the sum of $434.75 was collected. A contribution of $20.75 was received from Alice Arm, and the Anyox Community League donated $44.50 thus bringing the total up to an even $500.00 There were no expenses whatever, the tags being donated by the Granby Co. Anyox can well be proud of the excellent showing made last Tuesday, and it shows what concerted action is capable of. The sum of $500 will provide for the establishment of a kitchen and will feed 100 children until next harvest. The committee wish to thank everyone who helped make the Tag Day such a success, especially the ladies who sold the tags.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $75,944,203; Lode Gold, $102,753,823; Silver, $53,668,284; Lead, $46,637,221; Copper, $161,513,864; Zinc, $19,896,466; Coal and Coke, $212,573,492; Building Stone, Brick, Cement, etc., $32,168,217; Miscellaneous Minerals, $1,037,408; making its mineral production to the end of 1920 show an

Aggregate Value of $706,192,978

The substantial progress of the Mining Industry of this Province is strikingly exhibited in the following figures which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241 for five years, 1896-1900, $57,605,967; for five years, 1901-1905, $96-509,968; for five years, 1906-1910; $125,534,474; for five years, 1911-1915, $142,072,603; for the five years, 1916-1920, $189,922,725.

Production During last ten years, $331,995,328

Lode-mining has only been in progress for about 25 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, the security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia
