Keep Our Money And Raw Material At Home Says Bennett

Conservative Leader Gives Stirring Speech at Anyox

For almost one and a half hours Hon. R. B. Bennett, leader of the opposition in the House of Commons, expounded the gospel of Canadianism to a large audience at the Recreation Hall Anyox, Friday evening.

Mr. Bennett proved to be a forcible speaker. He is a fast talker and touched upon almost every topic that is of interest to Canadians. His speech was chiefly in connection with the tariff laws, and he drove home point after point in order to convince his audience that future prosperity lies in keeping the Canadian dollar at home instead of sending it abroad.

Although the hall was well filled, many more would have been present but for the late arrival of the speakers. The delay was due to a breakdown of the launch upon which they were travelling and they did not arrive until 9 p.m. Miss Bennett, Sir George Perley and Lady Perley, and General A. D. McRae stayed in Prince Rupert owing to the break-down. Mr. Bennett was accompanied by J. C. Brady, M. P. for Skeena,

Dr. D. R. Learoyd was chairman of the meeting. In a few well chosen remarks he introduced the speakers and welcomed them to Anyox,

The first speaker was J. C. Brady. In his usual breezy Irish manner he gave an outline of his leader, R. B. Bennett, and convinced his audience that the affairs of the Conservative party of Canada could not be handled by a more experienced and efficient man than the Honorable R. B. Bennett.

Mr. Brady made a plea for a spirit of greater Canadianism. He stated that Canada is not receiving the full benefits of her natural resources. Our raw products are being shipped abroad, he said, for the benefit of foreign countries. He said that Canada exceeded the United States in size by 60,000 square miles. We also exceed in forests, mineral and other wealth. Why then, he said, do we see stagnation in many parts, and why do our boys and girls continually cross the boundary to make their home in the United States. There is something wrong with the policy of the government of the past seven years or such things would not happen with our unlimited resources.

Hon. R. B. Bennett was the next speaker. On rising he stated that this was his first visit to the north coast. He had no excuses to make for his late arrival. He did not waste any time in handing out bouquets as to the intelligence of his audience etc., but plunged immediately into matters of a political nature. The friendly spirit between capital and labor, such as existed in Anyox, he said, was to a large extent, responsible for Canada's prosperity. A happy combination that is necessary.

Indian Reserve At Alice Arm To Be Sold

All persons occupying land on Government Subdivision of lot 931, formerly an Indian Reserve, received a letter on Saturday last from the Department of Lands notifying them that the lots would be offered for sale by public auction on Thursday, Sept. 5th. Terms of sale to be announced at commencement of auction.

All those who do not become purchasers of lots upon which their improvements stand will be given sixty days' notice from date of sale to remove or otherwise dispose of same.

Ore Ledge On Tiger Is Ten Feet Wide

The ore ledge at the Tiger, which we stated in a previous issue had been encountered in No. 3 tunnel has been crosscut and is shown to have a width of 10 feet. High grade ore, comprising native and ruby silver was found on the hanging wall, at the completion of the crosscut tunnel.

ALICE ARM NOTES

Mr. and Mrs. R. Bredenburg arrived from Anyox on Tuesday, and will spend a vacation here. Mr. Bredenburg was a former resident of the camp.

N. Fraser, manager at the Esperanza mine left on Monday for Prince Rupert on a business trip.

J. Calvin arrived from the south on Monday, and while here will do development work on his mineral claims near the La Rose mine.

Mrs. Peterson arrived on Monday from Prince Rupert on a visit to her sister, Mrs. G. Anderson.

Another enjoyable dance was held at T. W. Falconer's hall on Saturday evening. A large number of Anyox visitors were present, and a pleasant evening was spent.

Mr. and Mrs. F. D. Rice arrived on Monday from Prince Rupert Mr. Rice will survey some mineral claims during his stay here.

Sam Moran, an old resident of Alice Arm and Anyox arrived in Anyox from Prince Rupert on Friday and left the following day for the Saddle property at Hastings Arm.

Continued on Page 3

Silver Crest Co. Shipping Ore From Saddle

Construction of the aerial tramway at the Saddle property on Hastings Arm is almost completed. The Silver Crest Mining Co. who are developing the mine are striving to have all outside work completed before the snow settles on the hills.

One cable of the tramway is already strung to the mine. Material for the mine and ore sheds etc. is being transferred over it. A crew of men are now busy sacking ore at the mine, and this trial shipment is also being taken to the beach over the tramway.

A contract has been let for 300 ft. of drifting. The main drift will be extended this distance, and will be of sufficient length to strike the rich ore at depth that has been developed by sinking a shaft on the surface. It is expected that development work will be continued underground throughout the winter, and that by next spring a large tonnage of rich ore will be available for shipment.

Public Meeting Discuss Land Sale Problems

A public meeting was held at the school on Tuesday evening for the purpose of discussing any problems that may arise in connection with the sale of lots by the government of the former Indian Reserve at Alice Arm.

After some discussion it was decided by the meeting that a telegram be sent to the Minister of Lands, requesting him to forward information as to whether those occupying land on the Reserve would be given any preference when sale was held. Also whether owners of houses would be recompensed for their improvements if the lot they occupied was purchased by another. Plans of the townsite were also requested.

Provincial Secretary Canadian Legion, Anyox Tonight

Mr. Robt. Macnicol, the Provincial secretary of the Canadian Legion, British Empire Service League will spend three hours in Anyox this evening while the C. N. Steamship is in port. It is expected that a meeting will be held during his stay here. It is regretted that a longer visit can not be made, but owing to boat schedules, it is impossible.

Provincial President Lieut-Col. W. W. Foster D. S. O. and Hon. Treasurer Lieut-Col. W. S. Buell, C. B. E. are unable to accompany Mr. Macnicol on the northern tour of coast towns.

An El. Doro cigar is the product of the finest tobacco leaf and the most expert workmanship. An unbeatable combination.

ANYOX NOTES

Miss Todd left on Monday for Vancouver.

Among those leaving for Vancouver on Monday, were: Miss P. Morgan, M. McFadden, Peter Nigro, R. Sylvertson, Mike Swad, Miss Orr, J. K. Russell.

Mr. and Mrs. Henderson and son left yesterday for Alice Arm, where they will spend a vacation.

Miss R. Dunwoodie left on Monday for eastern Canadian cities, where she will visit relatives.

Mrs. D. McLeod left on Monday for Terrace, where she will spend a vacation.

D. L. Macintominy was a passenger to Prince Rupert on Monday

Mr. and Mrs. W. Stone left on Monday for Prince Rupert.

Among the departures on Monday to Prince Rupert, were: Geo. McKenzie, Wm. McKenzie, Mary Chilak, Miss Stevens, M. E. Irwin.

Mrs. Dunwoodie arrived home on Monday from a vacation spent in Vancouver and other coast cities

J. McMillan and A. C. McMillan were arrivals on Monday from Vancouver.

Mrs. Intermelia arrived in town on Monday from Prince Rupert.

P. E. Peterson left on Friday for Stewart, where he will examine the progress of work at the Silver Crest property, which is situated near the Big Missouri.

Miss O'Neill was a passenger to Vancouver on Monday's boat.

Chris Cane left yesterday for Alice Arm. where he will spend holidays for the next few weeks.

Arrivals on Monday from Vancouver included: A. D. Bailey, J. McKenzie, A. Kardoff, N. Busen, K. Ahola.

Mrs. Deeth was an arrival on Friday from holidays spent in Terrace.

Mr. and Mrs. S. Peters arrived on Friday from Terrace where Syd. has been relieving in the liquor store.

Mr. and Mrs. J. Shields and family arrived home on Friday from holidays spent in Vancouver and other southern points.

Leslie Murdoch was among the arrivals on Friday from holidays in the south.

Continued on Page 4

The Prince Charles was held over until 12 midnight, when the Rupert Herd said good-bye to Anyox with regret, vowing however that the visit would be repeated, being high in their praise of the hospitality and the good time Anyox Lodge No. 47 and the people of Anyox had shown them during their short stay.

Prince Rupert Elks Are Entertained By Anyox Brothers

The Prince Rupert Elks' officers, patrol and baseball team arrived in town on the Catala Monday. The party was about thirty strong. The patrol in their uniforms of purple and white gave several cheers as the boat pulled into the dock. They were met by a party of local Elks and paraded to the Club Rooms. The afternoon was spent in showing the visitors around the Smelter and Concentrator. In the evening the visitors defeated the local nine in a nicely played ball game 4 runs to 1. The Anyox team was a bit shaky for the first two innings but settled down after that. Immediate after the ball game, a Lodge meeting was held, the visiting officers and drill team putting on the degree work. After the meeting a very enjoyable smoker was held in the dugout. The visitors having lots of musical talent with them, which proved very entertaining to the local herd. Much was done towards cementing the bonds of fellowship between the two towns. The Anyox Elks hope to return the visit some time in the near future.

Tuesday afternoon the visitors were taken for a trip through the Mine.

The second game of baseball played between the Anyox and Prince Rupert Elks' teams proved to be one of the best games seen here for a number of years. Both teams played errorless ball behind superb pitching. The score was 2 to 1 in favor of the local nine.

Three hits, all in the first inning, was the best Anyox could do with Haveland's shots. The visitors nicked Lazorek four times, all of them being for two bags. The Anyox boys scored one in the first frame, Allen singled down the third base line and went to third on Oatman's two bagger. Whitehouse fanned for the first out, Swanson sent a slow roller to third, Allen being thrown out at the plate, Oatman scored on Somerville's single. Swanson was nipped at the plate for the third out on a beautiful throw by Lambie from centre. They scored again in the second, McDougall, first man up, was hit by a pitched ball, was sacrificed to second by McColl and to third by Hardy and came home on a wild pitch.

The visitor's lone tally came in the fifth, Alex Mitchell doubled to centre and scored on Gurvich's double to right. McColl played a stellar game at third for Anyox, as also did Harold third sacker for the Rupert team.

In the evening a very enjoyable dance was held in the Elks' Hall. It was a huge success, a good crowd being present, and the music supplied by the Victor orchestra was excellent.

The present government is fully alive to the necessity of building roads in order to open up for development our vast northern undeveloped territory. They are making an earnest effort to locate a route from Prince Rupert to Terrace. They are building a road from Prince George north into the Igenika country, and they are contemplating building a road from Stewart north to Atlin. A road from Hazelton north to Atlin Alaska and the Yukon is also contemplated. Alice Arm may also possibly be linked up with this interior road system within the next few years. The map of British Columbia is being unrolled northward. Within the next decade if the good work is carried on, we shall be able to point with pride to the north, not as a land of open spaces, but as a populous country, filled with a hardy, industrious people.

Power Rate Dispute of Granby and West Kootenay Settled

The long-standing power rate dispute between the West Kootenay Power and Light Company and the Granby Consolidated Mining and Smelting Company, which convulsed the interior last year and led to the passage of public utility legislation at the last session of the legislature, has been finally settled.

This may foreshadow the return of Allenby's copper concentrates to Trail, absent since the dispute between Granby and Consolidated reached an open break.

According to official information received from the West Kootenay Company, it has agreed to an entirely new toll for the Granby operations at Allenby and Copper Mountain. In place of the former scale of charges, which was governed by the fluctuating price of copper and ranged from 65 hundredths of a cent per kilowatt hour to 105 hundredths; a new flat rate of 58 hundredths has been established.

This rate was officially filed by the power company with the water board this week, and on submission to the Gramby company was not protested.

It is expected a similar settlement will be reached in the dispute between the West Kootenay company and the city of Grand Forks, which launched the first protest against the company's rates. The water board thus will have no occasion for the present to use its new powers.—The Financial News

Practically all of the mica produced in Canada is of the amber variety (phlogopite). Mines in the Ottawa region, both in Ontario and Quebec, are the principal producers.

Third Mining Engineer Appointed In North

The growing importance of the mining industry in northern British Columbia is so well appreciated by the Hon. W. A. McKenzie, minister of mines, that the appointment of another highly qualified mining engineer for field work was announced. F. P. Caddy, a graduate of the Red Ruth School of Mines, England, who has had twenty-eight years active experience in Egypt, South Africa, South America, Siberia and the United States, has been selected to assist Dr. J. T. Mandy and Douglas Lay, the permanent engineers, whose head-quarters are at Prince Rupert and Hazelton, respectively. Mr. Caddy left recently for the north. He will immediately place himself at the disposal of Dr. Mandy to assist for a month or six weeks in inspection work which has been accumulating and which must be taken care of in the space of a comparatively short season. Thereafter it is the minister's plan that Mr. Caddy will report to Mr. Lay in order that he may be able to undertake the survey of promising mineral-bearing sections north of the Canadian National Railway, which Mr Lay, as a result of the accumulation of work. has been unable to visit personally up to the present.

Letter To The Editor

The Editor,
Alice Arm and Anyox Herald.

Dear Sir:

I noticed in your last week's issue an editorial citing the happy fact that we have escaped the usual fire menace this year. But I wish, through the medium of your paper, to call the attention of the proper authorities to the fact there exists a more serious menace in this fair town of ours than any fire menace ever could be.

I refer to the shameful condition of the creek which flows through the town. Many residents are using well water for drinking purposes here. The whole seepage underlying the town drains from the creek to the sea.

There has been a heavier run than usual of salmon in the creek this year and I have observed children young men and adults pelting these fish with rocks. The consequence is that the creek is one mass of dead salmon in every state of putrefication. People drink water from wells and pumps below this shameful cesspool. Children in warm weather bath and swim in this creek, which has become a breeding place for blow flies. I leave it to you, Mr Editor, if such an unsanitary condition of what should be a beautiful creek should be maintained, when a little labor and expense might make this stream of water a safe and pleasant place for the children to play, instead of a disgusting sight and a stink to high heaven.

Yours truly,
C. M. SMITH.

Of course, most of the great industrials who are busy trying to find a means of giving their workers a five-day week, became great industrials by working much more than five days a week.

Duthie Will Not Sell Stewart Property

J. F. Duthie is reported to have turned down an offer from a British Columbia operating company for purchase of control of Rufus Argenta. The report states that Mr. Duthie is not interested in disposing of any part of his holdings at this time.

Keep Our Money And Raw Material At Home Says Bennett

Conservative Leader Gives Stirring Speech at Anyox

Continued from Page 1

As a responsible Canadian citizen, I am here to discuss with you Canadian responsibilities he said. Some perhaps may question my inferences, but not the facts and figures that I shall present.

The speaker stressed the benefits to be derived by Canada by holding her raw materials at home, and manufacturing them into the finished article. There is $30,000,000 worth of raw copper shipped out of Canada, mostly to the United States, and we buy it back when it has been manufactured into the finished article. Why mine our minerals and cut our forests he said for the benefit of other countries. We export each year $1,300,000,000. The bulk of this could be kept at home if we manufactured our raw materials and prohibited foodstuffs from abroad that could be grown at home.

The importation of vegetables and fruit is ruining the truck gardeners and fruit growers in the southern part of the province. When they are permanently out of business the price of foreign products will be boosted he stated, and we will have to pay the price.

There is no reason for us to import 28,000,000 pounds of butter from New Zealand Mr. Bennett claimed. It is not fair to our farmers. New Zealand farmers have no snow or long winters to contend with.

The United States does not impose a duty on news print from Canada, because they must have it. But try and ship in bond papers or other finished paper goods. We can't blame the United States for protecting their own market, but why does not Canada do the same in regard to finished products he demanded.

Mr. Bennett went into details regarding the exodus of Canadians to the United States. Canada, he said was a big portion of the biggest empire in the world, and the empire could be self-supporting if the empire trade was fostered. We are becoming a dependent people, he stated with emphasis, and your history will show you that a dependent people is a conquered people. The meeting concluded with the audience singing "God Save the King."

Schoolboy Stuff

A monastry is a place of monsters.

False doctrine is when a doctor gives wrong stuff to a man.

In 1658 the Pilgrims crossed the ocean, and this was known as Pilgrims' Progress.

An appendix is a portion of a book which nobody yet has discovered of any use.

An Ibex is where you look at the back part of a book to find out anything you want.

Here and There

(354)

The ancient art of goat-getting is in full swing at Banff with 25 wild Rocky Mountain goats trapped in June and nearly the same number in July. They are enticed into traps by salt licks of which they are inordinately fond. Some are to add to the wild life of California; others are for exhibition purposes and for zoos.

Concrete work on the new Saint John elevator has commenced and will require about 25,000 cubic yards of concrete. Grain business through Maritime Provinces ports is growing largely every year.

Statistics gathered by the New Brunswick Government Bureau of Information and Tourist Travel show an increase of 25 per cent. in the number of motor tourists from the United States entering Canada at border points of this Province for vacations.

Word has been received by J. M. Gibbon, general publicity agent, Canadian Pacific Railway, that His Excellency the Governor-General of Canada will extend his patronage to the Canadian Pacific series of six concert tours of British and Canadian music to be given across Canada, commencing in the fall of this year and continuing until the spring of 1930.

Products of the fisheries of Canada in 1928 had a total value of $54,971,319, an increase of $5,474,281 compared with 1927. These figures comprise the value as marketed, whether sold for consumption fresh or canned, cured or otherwise prepared. The salmon fishery is the most important, with a total value in 1928 of $17,867,053.

The Canadian Women's Press Club, consisting of 100 delegates came by Dominion Atlantic Railway special to Digby recently, stopping at Annapolis Royal and Grand Pre en route. A number of outstanding writers were in the party and all expressed their admiration of the Evangeline Country and the Annapolis Valley.

A notable beauty spot is being recalled to public notice this summer by the Alpine Club of Canada which is holding its annual camp from July 15 to July 31 on the site of the old railway village of Rogers Pass near Glacier, B.C., at the western opening of the Connaught Tunnel on the main line of the Canadian Pacific Railway. The camp commands a magnificent view embracing Mount Sir Donald, Mounts Macdonald and Tupper, the Illecillewaet Glacier and many other fine ranges and valleys.

On the first anniversary of their wedding, Mr. and Mrs. Cornelius Vanderbilt, Jr., recently left the Banff Springs Hotel in the Canadian Rockies for a motor trip through western Canada. He was most enthusiastic about the roads, scenery and accommodation in the Rockies.

NOW BEING DEVELOPED

Mine Baseballers Clinch League Honors

By virtue of two consecutive wins over the Elks, the Mine have clinched the league honors. On August 2nd. they took the contest 7-2, and in the following game the score was 4-3.

Both games were rather loose at times, but were productive of some good ball. McColl on the mound for the Elks in the first game, pitched a nice game; allowing only two hits, but his wildness in the sixth, coupled with a flock of errors proved his downfall and ruined a good game of ball.

Orr did the twirling for the miners. He was nicked for six scattered hits, and was invincible in the pinches.

The teams will start the post-season series for the Granby cup this week, after the Prince Rupert Anyox games.

Anyox Notes

Continued from Page 1

Mrs. F. Dresser arrived on Friday after spending a two month's vacation in the south.

Mrs. F. Watson and daughter arrived home on Friday from holidays spent in Vancouver.

Mr. and Mrs. E. Armstrong and daughter, Betty, were arrivals on Friday's boat from holidays in the south.

Among the arrivals on Friday, were: H. Shenton, Joe Peel, Mr. Mitchell, Mr. McGilligan, Mr. Joyce, Mr. Houlson, Mr. Williams, Mr. Blundell, Mr. Code.

Mrs. Loftus and family left yesterday for Alice Arm where they will spend a vacation.

The Anyox Boy Scouts, under the leadership of Scoutmaster Roland Gale, left yesterday for Silver City. They will camp at Lime Creek, which will be their headquarters for the next two weeks.

Owen Loftus, arrived from the south last week-end after being absent from the camp for over a year.

Mr. and Mrs. Storey arrived from the south on Friday.

Mrs. Johnston arrived in town on Friday's boat.

Gunnar Anderson left on Friday for Burns Lake.

Among the departures on Friday, were: Mr. Lindy, J. E. Beatty, Mr. Swanson, F. Hill, G. Higgins, J. Cody.

Miss F. Dresser left on Friday for holidays in Vancouver and Victoria.

Mrs. R. McMillan and daughter, June, left on Friday for their home in Vancouver.

Mr. and Mrs. Robertson are spending summer holidays at Alice Arm.

A large number of passengers arrived on Monday from Prince Rupert. Among them were the Prince Rupert Elks who were visiting their Anyox brothers. The passenger list is as follows: A. Mitchell, Dido Gurvich, A. Easson, Bert Morgan, Herman Loblick, G. E. Gulick, Mrs. Gulick, M. Williams, E. C. Dunning, C. Smith, J. R. Gosse, Fred H. Stephens, Howie Keefer, W. Williscroft, Harvey Fraser, Art Kerr, W. L. Lambie, George Mitchell, J. Currie, G. Harold, Mike Budenich, William Murray, A. Gordon, D. Zarelli, C. E. Bletsowe, A. Donald, J. Armstrong.

Sherritt-Gordon Will Refine Copper In Canada

A statement issued by the directors of Sherritt-Gordon Mines, Ltd.; indicates that the entire processes of smelting and refining of the ores from the big copper-zinc-gold-silver property in Northern Manitoba will be carried out in Canada. The Smelter being erected at Flin Flon, Manitoba, will treat the copper concentrates and the blister copper produced there is to be refined at Sudbury, while zinc concentrates will be treated at the new electrolytic zinc plant to be erected by Ventures, Ltd., and the Consolidated Mining and Smelting Company in Eastern Canada.

Boy (reading)—And she sailed down the river.

GRANBY STORES

The old guide knows that careless hunters cause many forest fires resulting in the destruction of excellent hunting grounds as well as valuable timber. The good hunter is careful with fire in the woods.

HELP SAVE YOUR FORESTS

Issued by authority of
Honourable Charles Stewart,
Minister of the Interior.
