Sunset Group is Bonded

Mr. O. Gray, arrived back in Alice Arm on Thursday from an extended visit to Seattle. Mr. Gray was successful in forming the Keystone Mining Company while in Seattle. This company is composed of influential business men, and they have taken a bond on the Sunset Group owned by G. W. Morley and partners. The bonding price has not been divulged but is stated to be a considerable sum. The Keystone Company is incorporated in B. C. Mr. Gray will leave Alice Arm at the beginning of next week, for the purpose of improving the camp and preparing for underground work.

Mr. Thorley, mining engineer, who visited the property last fall is expected here next month, and on his arrival plans will be made for the driving of a tunnel in order to the surface showings at a considerable depth. The Sunset group consists of nine claims, and is situated on Roundy Creek a short distance down the inlet. The property is only 1½ miles from tide water and has an elevation of 2300 feet.

Mr. Geo. Clothier, in his Report to the Minister of Mines last year says:

"The showings apparently lie in gneissoid granite, a belt about 50 feet wide lying between the Coast Range granodiorite on the south side and argillite on the north side, striking N. 45 degrees W. (mag.) This belt shows a schistose structure on both walls, but is apparently more irregular and broken up in the central portion. Within this width are lenses of mineralized quartz and quartz and feldspar, and further development is showing quartz veins cutting diagonally across from wall to wall or from argillite to granite. Some very promising seams and lenses, well mineralized with galena, zinc-blend, and pyrite, assaying up to over 100 oz. in silver to the ton have been exposed."

New System for Anyox Schools

It has been decided that at the commencement of the coming school term, that the High School and Public Schools shall be operated seperately. This scheme was recommended by the school inspector and endorsed by the school trustees and everyone concerned. Mr. R. H. Manzer will have charge of the High School, and Mr. Wm. Robertson will be in charge of the Public School.

For Sale and Rent

Furniture for Sale, including New Phonograph, Kitchen Stove, Bureau, Kitchen Cabinet; also 4-roomed House for rent.—Apply Mrs. P. Nordi, Alice Arm.

Larger Operations at Alice Arm Logging Camp

Logging operations at the camp of the Abbotsford Logging Co. will be considerably speeded up in the near future. A five-drum yarding engine is now on the way from Ocean Falls, and the high lead system of hauling the logs from the woods will be instituted about the 25th. of the month.

When the new engine is in operation, one will be used for pulling the logs to the landing stage on the railway track, and the other will pull logs to the Illiance River. These logs will be dumped into the river and driven to the booming grounds on the flats at the high water periods in the fall. An independent engine will be used for loading logs on the railway cars. Mr. Eric Carlson, who arrived last Monday will shortly take over all logging operations on a contract basis, he is a practical man having taken logging contracts from Mr. J. O. Trethewey at Abbotsford prior to coming north.

Fifty men are now employed at the camp, and this force will be increased as soon as the new engine, etc. arrives.

H. F. Kergin Back From Northern Visit

Mr. H. F. Kergin M. L. A. returned on Monday from a trip through a part of the northern portion of his constituency. During the trip he went as far as Porter's Landing at the head of Dease Lake, and visited every settlement between the mouth of the Stikine River and Porter's Landing. Mr. Kergin states that placer mining is active in the district, but large operations are handicapped through lack of transportation. The Telegraph Creek country possess large tracts of agricultural land, which will undoubtedly be developed as soon as transportation is provided.

Mr. Kergin states that a wagon road is now being built between Telegraph Creek and Dease Lake, and it is expected that the road will be ready for motor traffic next year, to the head of Dease Lake, a distance of 75 miles.

Elks Win Ball Game from Mine, Tuesday

In a highly exciting game on Tuesday evening, the Elks Baseball team defeated the Mine ball tossers by the score of 10 to 7 and climbed to within half a game of the top of the ladder.

Both pitchers were given poor support by their team mates, although considerable heavy hitting took place. Jimmy Ferguson did the hurling for the Mine, and was touched for seven hits, all of them singles. The Mine gathered ten hits off Fitzpatrick's slants, including a triple by G. Greenwell, and a double by Earl Anderson.

Olsen the umpire was also freely hit, receiving no less than five hits on different parts of his anatomy.

Following is the score:

	Runs	Hits	Errors
Elks	10	7	5
Mine	7	10	1I

Batteries: Elks: Fitzpatrick & Down. Mine: J. Ferguson and Greenwell.

Anyox Waterfront Jottings

The glorious weather conditions were taken full advantage of during the past week end by the skippers of the Anyox Fleet which is growing more numerous that ever.

Capt. Eve on his popular yacht "The Effee" was an absentee from his mooring bound for an unknown destination or one at least he will not indulge to others.

The Bonaza Edrona, Capt. Harry Self's well known cutter were all away and the Float presented a deserted appearance.

We notice that Mr. Lewis the manager of the Bank here has joined the ranks of the boating fraternity, his new acquisition a Turner built I5-footer is a trim little craft and he should spend many pleasant hours with it away from the cares of finance.

Capt. "Tiny" Yuill is a prominent nautical personage with his new ocean going "cruiser", but we often wonder why he does not go farther afield, say for preference, Alice Arm?

Labor Conditions Improving

Victoria, July 3rd.—Officials of the department of labor in their annual report, show that in 1922 there were only a dozen disputes involving a stoppage in work and that comparatively little time was lost during the year through strikes. The government labor bureau are working overtime endeavoring to supply the needs of employers and a better feeling is now existing. A slight upward tendency in wages is anticipated this year.

Mr. A. E. Scott accompanied by his eldest son, and Mr. George Leslie left Anyox on Monday last for Silver City en route for Bowman's Lake where they intend to camp for a time.

Mr. J. L. Lowry of the Machine Shop Office left by Monday's boat for an extended vacation which will be spent partly in Vancouver finishing up with a tour in California.

Mr. G. Michell was a south-bound passenger on Monday last.

Messrs. Andrea Schelbiski and Paul Nicolas of the Smelter left Anyox on Monday for a three months vacation which will be spent on a ranch in Northern Alberta.

Miss Julia Whelan arrived last week from Wisconsin, on a visit to Dr. and Mrs. P. Whelan.

Mrs. J. Butcher was a passenger on Monday's boat, bound for Prince Rupert where she will stay for a short period.

Capt. McKay of the local branch of the Salvation Army has been transferred to Juneau. and her fellow worker Lieut. Leighton left for Vancouver. Capt J. Chalk and Lieut. L. Rinas arrived in Anyox from Winnipeg to take their place.

Mr. C. M. Short inspector for the Canadian Bank of Commerce arrived in Anyox on Monday last and after an inspection of the local branch of the Bank will leave for the South.

Mr. C. McKeown, catcher for the Smelter ball team, left on Thursday for a month's holiday in California.

Mr. C. Youngman, who was relieving Fred Brown, at the Liquor Store, left on Thursday for Prince Rupert,

Mr. T, Oxley, of the Mine, left for the south on Thursday, Mr. Oxley is leaving the employ of the Granby Co.

Miss G. Farnell, of the Mine Mess staff was a passenger south on Thursday, for Vancouver. She will spend holidays at the home of her fiancee, Billy Legg. Upon her return, she will assume the position of post-mistress, a position formerly held by her some three years ago.

Mr. Wm. Legg, was a passenger south-bound on Thursday, for a visit to his parents in Vancouver.

Mrs. S. A. Down arrived on Thursday, on a visit to her husband and son Harry.

Mr. S. Stewart, brother of Bob Stewart at the Mine, arrived on Thursday.

Chris. Olsen, of the Mine ball team has injured his finger and will be out of the game for a few weeks.

Cy. Greenwell bought a new baseball bat at Ketchikan, but evidently he needs more than a new bat. He went hitless in Tuesday's game. Perhaps Harry Selfe could fix him up.

It is rumoured that "Dougie' Brown, who was employed at the Smelter Warehouse a few years ago is returning to Anyox and will work at the Mine Store.

Manager Berry of the Smelter ball team, has a dark horse in tow these days and intends to give the fans a treat on Friday. Come on "Spark Plug."

Great interest was evinced during the week by a party of American Tourists on the "Prince Rupert," in the English bob-tailed sheep dog, "Prince," so well known in Anyox. This animal which is owned by Mr. Macintyre, is a great favorite with the children and is a fine specimen of the genuine sheep dog and shows all the sagaciousness of the breed. These tourists were very anxious to acquire "Prince" and were quite peeved when informed the dog was not for sale.

Swat the Fly.

Now is the time to swat the fly. However, there is more than one way of doing it. The use of the swatter is one; fly paper is another; and fly traps still another. But the best way to swat the fly is to eliminate the sources of the trouble to get rid of the fly's breeding places.

To kill the fly with the swatter is work well done; but to stop the breeding of millions is a service to the community. If Mrs. Fly can't find her favorite open garbage pail in which to lay her eggs, her posterity is doomed.

Keep your garbage cans clean and keep them covered, and see that all refuse either goes into the stove or into the garbage cans, where the flies can not touch it. It has been proved that flies are the carriers of numerous diseases, including tuberculosis. To eliminate the deadly fly, destroy their favorite breeding grounds.

Propaganda Galore.

About three-fourths of the newspaper man's mail has grown to be propaganda of various sorts. The Herald this week received enough material in the free publicity to entirely fill the paper, without the use of any provincial, local, social news, humor or editorial material. It would be a soft snap for the reportorial and editiorial forces to utilize off this free material, and a unique paper could be produced--but one that would hardly meet the warm approval of any of the Herald readers except the propagandists themselves.

Lots of folks are experts at dodging automobiles, but the fellow who can sidestep his taxes is an expert indeed.

Keep your eye on the unemployed boy. He needs something to work off that surplus energy and if he gets into devilment somebody is not doing their duty by him.

Copper Market Quiet and Small Shipments Being Made

Financial and Market News gathered by private direct wires from the world's market centres by
Burdick, Logan & Company, Limited
737, Granville Street,
Vancouver, B. C.

Special to the Herald

Big Chilean Copper Shipment

Shipment of copper bars from the Antofagasta district of Chile in 1922, amounted to 73,532 metric tons, and is thought to be the largest in history of the industry. Stocks carried over from 1921 were materially reduced, the bulk of the shipments going to the United States, although large quantities also went to Germany and other European countries. Exports of copper ores amonnted to 33,363 metric tons in 1922, compared with 30,031 tons in 1921. This ore was exported principally to the west coast of the United States for smelting. Largest producer of refined copper, an American company, worked regularly during 1922, and has recently increased production to full capacity, but the small smelters have remained idle during the past year.

Copper Market Quiet

Copper sales, foreign and domestic, are quiet. Producers' prices are firm, with moderate amount of second-hand copper coming on the market at slightly under producers' prices. Aside ship demand is small, owing to meagerness of foreign demand which is awaiting greater assurance as to trend of prices in the American market, and greater assurance that stocks of refined copper are still decreasing.

Foreign sales last week while small for different days added up to a fair total, with Copper Association' s sale of 4,000,000 pounds to a foreign government the largest export sale made either by independents or Export Association.

A Feller Ought to Fish

I just stay here a-working,
And dreaming every day,
Of the sunshine that's a-gleaming
On the Kitsault up the Bay.

And I kinder fall to wishing
I was where the waters swish;
For if the Lord made fishing,
Why—a feller ought to fish.

While in ledgers I an writing
In Anyox smoky town,
I can feel the fish a-biting—
See the fly a-going down.

So I nod and fall to wishing,
I was where the waters swish;
For if the Lord made fishing
Why—a feller ought to fish.

Bounty on Wolf Cubs

An amendant to the Game Act provides that a bounty of fifteen dollars will be paid on wolf cubs over seven days old, as well as all older animals. This provision is an incentive to the hunter to snuff out the young of predatory animals wherever they may be found.

Single Ladies Again Win Anyox Baseball Game

On Friday last at the Ball grounds there was a return match between the "Single Girls and the married Ladies, On the last occasion the Single Girls gained the victory but on this occasion the Married Ladies expressed their conviction prior to the game that the tables wonld be turned on their opponents. The weather was ideal and the attendance decidedly good. The game however was one-sided the Single Girls showing a marked superiority and winning by 15 to 8.

Every Citizen a Fire Warden

So far this year the losses from forest fires have not been heavy, states the minister of lands, Hon. T. D. Pattullo, but he has issued a fresh warning to forest rangers and the general public. The dangerous season has arrived and after the heavy rains of the spring and early summer, it is only natural to expect a dry spell, which in many districts will probably last for months. From now on, he claims, every citizen should consider himself a fire warden and join in the fight to protect the magnificent forests of British Columbia.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre: second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Income Tax Increase

Income tax for this year have increased twenty per cent. over last year, announced the minister of Finance this week. He claims that business throughout the province in a flourishing condition, speaking generally.

Second International Tennis Game Played at Anyox

The second test match took place on Sunday evening, and created quite a lot of interest in tennis circles.

Messrs. Cole and Lee again represented America, whilst Messrs. Ballion and Townshend wielded the rackets on England's behalf.

The weather conditions were glorious and there was a good attendance of spectators.

Contrary to expectations the Americans more than held their own. England won the first set, Score 6-2. America gained the honours in the 2nd. set Score, 6-3.

The 3rd. Final Set was played in dead earnest amid intense enthusiasm with the score 6 all. The Americans by brilliant play out-generalled their opponents and won with the score of 8-6 thus winning the second test.

The third final game of this most novel and interesting Tournament is eagerly looked forward to.

To a belle of the Southern sea,
A good missionary said, said he,
"A calico skirt
Is as cheap as dirt!"
"But is it as cool?" said she.

Magistrate—Are you married?
Prisioner—No, I got this black eye from a friend.

The secret of good beer lies in purity---

That's why Cascade Beer has for 35 years been British Columbia's favorite health beverage. No expense has been spared to ensure purity. It has cost a million dollars to build a plant to accomplish this. But after testing Cascade Beer, you agree that it has been worth it.

Insist Upon CASCADE

It Is Yours

Five-sixths of the timbered area in B. C. belongs to the People

Each year, it is increasing in value as the more accessible timber is cut.

In 1922 there was received from the sale of such timber the sum of $620,000.

This helped to keep your taxes down, and to build up the Province.

Green Timber is British Columbia's assurance of Perpetual Prosperity.
