Anglo Belgian Co. Will Develop Devlin Zinc

The Devlin Zinc property, situated on the North-east fork of the Kitsault river will be operated this year. The Anglo-Belgian Mines Ltd. having been formed for this purpose.

Vancouver and San Francisco capital are behind the company, and the following strong directorate have been elected:

Russell Whitelaw, president, National Canners, Ltd. Vancouver; Chas. Reid. purchasing agent Vancouver Harbor Board, Vancouver; John J. Murphy, Vancouver; Jas. W. Doherty, realtor, San Francisco; Herbert Blumenthal, assistant vice president Anglo California Trust Co., San Francisco; George H. Pecht, realtor, San Francisco: Robert H. O. Bohr, merchant, San Francisco.

A tunnel was commenced on the property last year, but owing to the death of John Devlin work was discontinued. The property contains some fine showings of zinc ore and should develop into a heavy shipper.

Option Taken on Saddle Property by Duke Harris

An option has been taken on the Saddle property situated at Hastings Arm, by W. S. Harris, who is better known as Duke Harris, among his acquaintances.

The Saddle is owned by Chas. Clay and the deal was put through by A. McGuire of Alice Arm.

One hundred dollars per month will be paid to the owner until such time as an examination of the property can be made. If then satisfactory, a cash payment of $2,000 will be made. The total sum of $50,000 will finally be paid on a Royalty basis, viz. 25 per cent of all smelter returns will be paid to owner, until the $50,000 mark is reached.

The Saddle property is located near the head of Hastings Arm, on the west side, at an elevation of 4400 feet. It consists of one claim and has been held by Chas. Clay for a number of years.

The ore body is 5ft. 4in. wide and is composed of almost pure metal, Samples of ore taken from a width of 3½ ft. have given value of $160.07 in lead and silver. In addition to these values, the ore carries $12.00 gold per ton and also considerable copper.

Duke Harris, who has taken the option, is one of the best known live wire mining men of the north. He is heavily interested in the Hazelton district, and will visit Alice Arm this coming year to inspect different properties.

FOR SALE. Snug, semi-furnished four-room bungalow in Alice Arm. Centrally located. Excellent water supply. Price $375. L. McAlister, Anyox.

Championship Basketball Games Played This Week

High School Defeat Concentrator Team

In the first game at the Beach gymnasium on Friday evening, the High School annexed the championship of the second half of the Intermediate League schedule when they defeated the Concentrator by a 37 to 30 count. The game was close throughout, the first half ending 24-20 in favor of the winners. The contest was also exceptionally clean. Six personals were all that was meted out during the performance, five against the losers and one against the High School. Asimus was the high point getter for the winners netting 19 points, Swanson also did some high-class work on the defence as well as contributing 11 points to his side's total. Pollard was easily the pick of the Concentrator and was also high scorer with 9.

Concentrator: Pollard-9, McConachie-5, Moffatt-4, Thompson-6, McTaggart, McDonald-6, McColl.

High School: McLachlan-5, Swanson-11, Lazorek-5, Asimus-16, Lindgren, Clay.

Gophers Prove Victorious over Elks

In the second encounter of the evening the Elks and Gophers battled in the first play-off game for the championship of the first half of the senior league schedule, the latter team winning a close and hard fought game by the narrow margin of one basket. The losers led at half time, 16-13, but upon resumption of play, the Gophers forged ahead after the first five minutes and were never headed. Staines was the leading point getter for the Gophers with 14. Buntain was high for the losers with 10.

Two old timers made their initial appearance of the season for the Brother Bills, namely Bill Robertson and George Lee, both of whom turned in a neat performance.

Gophers: Dupuis-2, Hill-2, Stewart-3, Bell-2, Staines-14, Helpley-4.

Elks: Peters, Sheen-6, Buntain-10, Down-2, Lee-4, Robertson, Mitchell-2, Hogben-2.

Don McLeod was the arbiter for both games.

Mine Down Elks 26-14

As a preliminary to the inter-city match, the Mine and Elks senior squads met in the second round of play-off for the first half of the schedule, the former team winning decisively by the score of 26-14. The Antlered Herd were considerably off form, while the winners played a bang-up-game, especially Halverson and Lane. The former scoring 8 markers and the latter 6. Buntain was the high scorer for the losers with six.

Mine: Lane-6, Halverson-8, Deane-2, Brown-5, Gordon, Moore-6, Beaulieu.

Elks: Down, Sheen-1, Buntain-6, Mitchell-5, Lee-3, Peters, Hogben.

Popular Anyox Couple Married on Thursday

A very pretty wedding was solemnized at the home of Mr. and Mrs. J. Grigg, on Thursday evening, when their eldest daughter, Alma, was given in marriage to Mr. Donald McDonald Cleal. The ceremony being performed by Rev. C. D. Clarke.

The bride looked beautiful gowned in a very pretty frock of pink georgette with ecru lace, and carried a shower bouquet of carnations and freesias.

Mrs. Russell Jones, sister of the bride, was the bridesmaid, and was attired in a very pretty flowered georgette dress, with picture hat to match, and carrying a bouquet of Ophelia roses. Mr. Russell Jones supported the groom.

The bride's gift to the groom was a gold signet ring, and the groom's gift to the bride a leather hand bag.

Immediately following the ceremony a wedding supper was served the tables being very prettily decorated and trimmed with silver flowers.

After spending a few days with the bride's parents Mr. and Mrs. D. Cleal will leave for Jarvile Alberta, where they will make their home.

Those present included Mr. and Mrs. W. F. Eve, Mr. and Mrs. D. Evans, Mr. and Mrs. H. Armstrong, Mr. and Mrs. H. Patrick, Mr. and Mrs. A. Morton, Miss McLeod, Miss Dora Grigg, Mr. and Mrs. G. Thompson, Mr. and Mrs. D. Campbell, Mr. Wm. Wells, Mr. R. Bredenberg.

Both the bride and groom are well known in Anyox having resided here for a number of years, and their many friends wish them the best of luck in their future life.

Ladies' Aid Hold Sale of Work

On Wednesday afternoon, March 24th, the Ladies' Aid of the United Church held a very successful Sale of Work in the Church Hall.

The tea tables were ably served by Mrs. Barclay and Mrs. A. Crone.

The Home Cooking booths were in care of Mrs. J. Dunn and Mrs. H. Kirk. Plain sewing and fancy work by Mrs. Russell and Mrs. Clay. Candy by Mrs. C. McMillan and Mrs. W. Robertson.

Mrs. W. Jones gave a splendid demonstration of paper flower making roses and sweet peas, and many of the ladies availed themselves of the opportunity of learning this art.

The following ladies also helped to make the occasion a success, Mrs. J. Cloke, Mrs. H. Armstrong, Miss A. Lawn, Miss R. Duncan, Mrs. A. Roberts, Mrs. Asimus and Mrs. Clark.

The Ladies' Aid is to be congratulated on having such a splendid and successful sale.

Prince Rupert Maple Leafs Win Northern Championship

The Prince Rupert Maple Leafs' have a strangle hold on the championship of northern B. C. by virtue of a 22-12 victory over the Anyox Mine squad on Monday evening. The local team put up a game fight but were unable to fathom the stiff defence of the visitors. Miss Lowe was the individual, star for the winners, netting 12 of her side's total. Annie Scott and H. Calderone played well for the losers each scoring 4 points. Don McLeod handled the whistle and kept the game fairly clean throughout.

Rupert: Misses. Graham, C. Harvey-5, M. Harvey-5, Lowe-12, Grant, Stevens, Thompson.

Anyox: Deane-3, J. Calderone-1, H. Calderone-4, P. McMillan, O'Neill, Scott-4, Morley.

The Maple Leafs' won both games at Prince Rupert with scores of; 12-2 and 28-1.

Eagle Property Development Commences

A. McGuire left yesterday with a train of pack horses, for the Eagle property which is situated on Haystack mountain, near the LaRose mine. The Eagle was recently acquired by W. G. McMorris of Vancouver and will be developed this year. The first work to be done will be the construction of a log building to provide living quarters.

Examines Property and Leaves for South

E. A. Haggen was a passenger to Vancouver on Monday, after making an examination of the Mayflower property down the inlet. Mr. Haggen was unfortunate regarding the weather, during his brief visit, snow, rain and wind being much in evidence, in fact he experienced some of the worst weather of the whole winter season.

Mr. Haggen is leaving shortly for Geneva, Switzerland, in connection with mining business.

A. Davidson Arrives Home From Extended Visit

A. Davidson arrived in town on Monday, after spending several months in the south. He spent the major portion of his holiday in Seattle, but also visited relatives in Montana. During his trip he met numerous influential mining men, whom he expects to become interested in the camp.

The "Brother Bills" will put on a dance on Monday April 5th. Dancing from 9 p.m. until 2 a.m. $1.00 per couple. To be held in the Elks' Hall. Snappy Music, Easter Novelties, and refreshments. Be sure and keep this date open and you will have no regrets.

Development of Dolly Varden says E. A. Haggen

Although Col. Victor Spencer and associates, who have a lease on the Dolly Varden mine, have not yet made any public statement nor have those in charge of the plant at Alice Arm received word that work will be done this year, it seems probable that development work will be undertaken. This view is taken chiefly because Col. Spencer has not denied any reports published in regard to development work this year.

Mr. E. A. Haggen, the well known mining editor and consulting engineer of Vancouver, while in Prince Rupert this week, stated that "An energetic campaign of development work in the way of diamond drilling and tunnelling will be started in May on the Dolly Varden mine by Col. Victor Spencer and associates and, if the result of that work is satisfactory, a mill will be installed and the property put on a producing basis, again.

"Col. Spencer and his associates who were formerly interested in the Dolly Varden, have again acquired the property under lease and it is their intention to prove once and for all if further development of the famous mine is warranted. Last year, on their behalf, the property was examined by J. F. Tener, a consulting engineer, and it is understood work now to be undertaken is a result of his recommendations."

Mr. Haggen also stated that the Dolly Varden railway would probably be operated by the government in the future, but we do not believe that such will be the case. The repair work now being done on the railway is to put it in condition for light traffic, for the use of small mining companies and prospectors. It is the only means of communication up the Kitsault Valley.

ANYOX NOTES

F. F. Brown, who accompanied the Mine Basketball team to Prince Rupert returned home on Monday.

Among the arrivals on Monday, were: G. W. Walters, A. Smith, A. W. White, Miss Farmold, H. Hunter, R. Smith, Mr. Murchie.

J. Weir was an arrival from Prince Rupert on Monday.

Miss Tannock was an arrival from Prince Rupert on Monday's boat.

D. Sherk, S. C. Thompson A. Browdoidge and J. Lillico arrived on Monday from Prince Rupert.

Why the big smile Mike? Oh! I am smoking an El Dora cigar.

Among the arrivals from the south on Thursday, were: S. Komesky, T. Mason, J. E. Miller, W. Lang, T. Munday, W. Loving, D. C. Scott, T. Rochy,

J. A. Lang was an arrival from Ocean Falls on Thursday.

E. MOSS, Editor and Publisher.

The Portland Canal News in their issue of March 12th. published the following article in their editorial columns. It emphasizes strongly what we have advocated for the past five years, viz. that the immediate development of the camp depends solely upon the inhabitants,

"The residents of Alice Arm are to be congratulated upon the very satisfactory mining progress which their district has made during the past year. Certainly this advancement is necessarily slow, and has been attended with a certain measure of dissappointment, with which true and lasting progress seems, whether with an individual, district or a nation, to be always associated; for disappointments have a steadying effect that make for sound and solid growth, much to be desired in the long run. However, in spite of their set-backs, ever since the ever-to-be--regretted Dolly Varden fiasco, the people of Alice Arm have, with the true spirit of the pioneer, stuck to their job, and year after year done their utmost to locate new ore bodies, and further develop those already known, until now, still combatting innumerable obstacles, the bright future for which they have so long looked forward is dawning on their horizon.

"The Alice Arm district, like that of the Portland Canal and many yet-to-be-prospected districts along this great mineral belt, and in the Interior, has the goods of which the whole world is so badly in need—gold, silver lead, zinc, copper and other metals, awaiting in many cases discovery, and in others capital for their development.

"The people of Alice Arm have the goods, the faith and the perseverence, and taking a leaf from the book of Stewart they have given up waiting for the big operating companies to come in and develop their properties. They have formed very successfully several local companies which they are backing with their own money, and as a result are meeting with success that is attracting the much-to-be-desired attention of the bigger capital.

"Alice Arm has to fight for her development money, just as Stewart did, and still is doing, and to the degree that this is done, will the time be hastened when that district will become an important factor in the production of metals.

"Just as the hand that created the hills surrounding Stewart filled them with untold wealth, so are the hills surrounding Alice Arm. The wealth, and all that it means, is there for the digging, and the digging into the ground, as well as for the money with which to do it, is up to the people of each individual district; one is as necessary as the other, and therefore both have to be tackled with an equal degree of determination."

Predicts Maritimes Will Separate from Canada

The present generation will see separation of the three maritime provinces from the rest of Canada, Major Daniels Owen, K. C. of Annapolis, N. S. member of the Canadian air service, declared recently.

It is said that next year will see "the beginning of an organized effort which will crystalize the secession sentiment so long rampant

Taxes May Curtail P. G. E. Operations

The operation of the Pacific Great Eastern Railway from Vancouver to Whitecliff will be abandoned if North Vancouver municipality insists on its claim for taxes this year General Manager Kilpatrick announces. He claims that the road loses $17,000 annually mainly due to automobile and bus competition.

Information Given Regarding Prince Rupert Elevator

The Prince Rupert Elevator was the subject of inquiry in the House of Commons at Ottawa at the beginning of the week. The summary of the information given in regard to it by the Government was that up to January 31st. it had cost $1,028,242, and that it was completed on January 29th, and that no grain had yet passed through it.

It has been discovered that Canadians spend $100,000 annually to use the word "please" in their telegrams. Well, isn't it cheap at that price?—Ottawa Journal.

Importance of Copper in Industrial Field Reviewed

Mining is an important industry and had been the foundation of the world's wealth from the beginning of time. The governments which have been rich in minerals have been the richest and strongest governments on earth. A country of great mines always becomes a country of great wealth, influence and power.

Mining is also probably our safest business. Forty-one percent more fail in manufacturing than in mining, thirty-two percent more fail in farming than in mining, twenty-nine percent more in mercantile business than in mining, and seventeen percent more fail as bankers than are recorded as failures in mining.

These figures, compiled by Cecil Rhodes, are significant

Copper is the most widely used of all our metals, and its importance in the mining industry is exceeded only by the gold and silver. Its use is constantly becoming more diversified and more extensive.

The great hydro-electric development which this nation is experiencing is dependent directly upon copper. The use of thousands upon thousands of tons of copper wire in transmission lines and distributing systems, to say nothing of its use in the manufacture of machinery placing the rein of electric power in the hands of man, is making demands beyond the capacity of the developed copper mines in this country today to supply.

This, however, is not its sole use.

It is an important constituent of bronze and brass, used in the arts, and in some form is found in every household throughont the land. No home today would be complete without the furnishings and the adorment which are manufactured from copper.

It may well be that our very national existence depends on copper.

It has been said that three things won the war—copper, cotton and rubber.

Germany's exhaustion was due as much to her inability to get copper as to any other one thing. She took the cornices from her homes and the candlesticks from her altars to provide herself with the precious metal.

No nation can win a great war without an abundance of copper at her disposal. The varied uses of copper in the manufacture of guns, amunitions, war machinery and equipment of every nature and description is a story by itself, I can only mention them that you may realize the significence of this metal from the standpoint of national defence, and how important it is in the preservation of our nations honor.

Yet in the fact of the importance of copper, I am told that the supply of manufactured copper on hand today is only sufficient to last for a period of thirty days and that at the present rate of production all present known developed ore bodies will be exhausted in a period of twenty years.—A. Smith, in Spokane Mining Truth.

C. P. R. irrigation dam at Bassano, Alta., is the largest individual project of its kind on the Continent.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

N.B.—Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B. C. Reports of the Geological Survey of Canada, Pacific Building, Vancouver, are recommended as valuable sources of information.

Interesting Notes on Ye Badminton Game

Owing to the shortage of badminton pucks in British Columbia, the Anyox Badminton Club was unable to play last Sunday, and the game is at a standstill until a new shipment arrives, which have been on order for some time through the Granby Stores.

A telegram was sent to Mr. F. Brown while he was in Prince Rupert, requesting him to bring back a good supply, but after scouring the town he found Prince Rupert was suffering from the same shortage as Anyox.

This is proving a great disappointment to club members, especially as the season is drawing to a close for the game to be played indoors. The ladies, however, seem determined to keep the game going during the summer months. and are already talking of getting a court in shape near the saw mill, where they will endeavour to train their husbands in the noble art.

To wind up the successful winter schedule, the Club is making arrangements to play a tournament on Sunday, April 11th, and all members wishing to take part are kindly requested to hand in their names to Mrs. E. J. Conway at an early date. A charge of 50 cents will be made to each member wishing to enter this contest.

Only two ladder games were played on Saturday evening, the results of which were as follows:

Mrs. W. Robertson and Mr Thorsteinsson lost to Mrs. E. J. Conway and Mr. E. G. Brown 15-13.

Mrs. H. Selfe and Mr. J. Wilson lost to Mrs. E. J. Conway and Mr. E. G. Brown 15-10.

Visitors Entertained

A dance was put on by the Mine Club on Tuesday, March 23rd. in honor of the basketball visitors from Prince Rupert, The young set had a wonderful time, and the elders entered into the spirit of the evening. The music was put on by the Mine Club Orchestra, which more than came up to everybody's expectations.

Refreshments were provided, which were up to the usual high standard, the dancing was from 9 p.m. until 2 a.m.

Past Winter Mildest on Record

The past winter will go down in history as the warmest and most congenial ever experienced, unless the unexpected again occurs, which is most unlikely. The past winter has been practically a snowless one for Anyox and Alice Arm, which is a phenomonen. During every past winter an abundance of snow has been our lot, in fact more snow than was needful or conducive to comfort.

Although the mild weather has been a boon to many in various ways. it has proven a hardship on the Alice Arm butchers, restaurant and hotel keepers, for their usual ice harvest has proven a failure, and this commodity, necessary for the hot weather period, will necessarily have to be imported at considerably expense.

The hockey players are also bemoaning their hard luck, but the householders who don't need ice or play hockey. are jubilant when they check up their fuel bills and make comparisons with previous years, and last but not least, no frozen water pipes were in evidence on cold and frosty mornings to take the joy out of life, or no snow tunnels to dig from the front door to the main thoroughfare.
