Football Teams Wind Up Season With Big Banquet

Good fellowship held complete sway at the banquet given for the footballers of Anyox by the Mine Club, on Saturday, September 20th. The affair was arranged and staged by the Mine Club, who are to be congratulated on their great interest in football and in sport generally. Most of the members of all three clubs were present, as well as a good sprinkling of officers and visitors. After partaking of the good things provided a lengthy program was carried out under the able direction of Mr. J. T. Kirkwood, who occupied the chair.

In welcoming the boys to the banquet, the chairman expressed his pleasure at seeing so many of the sporting fraternity present. He regretted, however, that in the gathering several officers prominent in sport circles were not present, and the function did not seem complete without them. The secretary of the League, owing to his duties at the Picture Theatre, was unable to attend, and had tendered his apologies and best wishes for the success of the affair. Mr. Bert Kent, the President of the Football League, referred to the splendid success of the game during the past season. A match between an all-star Anyox team and a Prince Rupert aggregation would have been greatly welcomed, but unfortunately arrangements for such a game could not be made. Mr. Kent predicted an even better season next year, and he urged the players to keep up their interest and be ready to make a flying start when the first whistle blew.

Congratulations were freely extended to the Celts Club on their success in winning both the League and the Cup. It was the unanimous opinion of everyone that all three clubs were pretty evenly matched in ability, but that the Mine and Smelter teams frequently left their rabbits' feet at home. This was especially true of the Mine Club as misfortune dogged them around to several of their fixtures. However, they were not in the least daunted, and like true sportsmen were spontaneous in joining with the Smelter Club in congratulating the victors.

Musical and vocal items were contributed by the following: Walter Stenton, Stan. McIntosh, Walter Ridley, Ed. Boyd and Jim Arscott. Stan. McIntosh contributed a novelty by executing in real native manner a New Zealand Maori War Dance, and Tom McIntosh gave a recitation on the merits of a well known word used throughout the world, but never found in dictionaries. Ray Roberts gave an excellent reading, and G. Owen presided at the piano.

That all footballers may unite in a social way, strengthen the bonds of friendship, and determine on an even better season next year, was the object of the banquet. Visitors have stated that the class of football seen in Anyox lately is far ahead of anything previously shown, and with the great interest aroused, there is no doubt that in the future the game will provide a great deal of recreation and diversion for the people of Anyox.

Drifting On 8 Feet Of Molybdenum Ore

As development work proceeds at the Tidewater Molybdenum the prospects of it becoming a producer of considerable proportions continues to improve.

The main drift is being pushed ahead, with a full face of ore. The ore body has been shown by crosscuts to be over 8 feet wide, and is one of a series that will be developed.

Mr. Angus McLeod, superintendent, who returned from Victoria on Monday was agreeably surprised with the persistency of the ore body in the drift.

The trail from the beach to the mine is now being improved and as soon as this has been accomplished, a compressor plant will be installed.

Anyox Badminton Club Elect Officers for Season

The Annual meeting of the Anyox Badminton Club was well attended, over 30 members being present.

The following officers were elected to conduct affairs of the Club for the coming season. S. Peters, president; A. H. Kirby, vice-president; Mrs. C. O. Fricker, secretary; Mrs. W. G. Johnstone, Mrs. Roy, Don Cleal, Capt. Johnstone, were elected on the executive committee.

The Badminton Club enjoyed a very successful season last winter, and it is expected that the game will be even more popular this year. It is a first-class indoor sport in which anyone can participate.

Death Caused by Injury At Bonanza

Louis Kazanegra passed away at the Anyox General Hospital on Saturday, September 20th. Injuries received while working at the Bonanza mine was the cause of death.

Deceased was 28 years of age and was a native of Jugo Slovakia. He was unmarried and a brother, who is employed at the Britannia Beach arrived on Monday morning.

The funeral was held on Tuesday, the body being interred at the local cemetery. The funeral service was held at the Anglican Church, and a large number of friends of deceased attended. Rev. J. S. Brayfield officiated.

Basketball Players Will Hold Meeting

A meeting will be held on Monday, September 29th. at the Recreation Hall at 7.30 p.m. for the purpose of electing an executive to arrange for basketball games for the coming season. All those interested in basketball, should, if possible attend. The coming season promises to be a busy one, and its success depends a great deal on a strong executive and an early start.

Birth at Anyox

Born to Mr. and Mrs. C. Gunderson, at the Anyox General Hospital, on Friday, September 19th, a daughter.

ANYOX NOTES

Amongst the arrivals on Monday morning, were: Mr. W. Harrison, J. M. Funk, Mr. F. Milkeli, Mr. Walter Adams, Mr. W. Barclay and Mr. F. Dresser.

Mr. T. J. Shelton, mine inspector arrived in Anyox on Monday morning.

Miss B. Frey returned to Anyox on Monday, after a vacation in the south.

Mr. Walker and Mr. Wm. Hanna were southbound passengers on Monday's boat.

N. Sutilovich arrived on Monday from a trip to Vancouver.

W. Adams, W. Barclay and F. Dresser who were summoned for jury duty at Prince Rupert, returned home on Monday.

J. C. Brady Receives Government Office

Friends of James C. Brady, former M. P. for Skeena will be pleased to hear that he has been appointed a census commissioner under the Dominion Bureau of Statistics. He will organize a census of institutions such as hospitals, asylums, penitentiaries, houses of refuge, etc., all over Canada, starting his work at once.

Mr. Brady is at present at Ottawa, having gone east a few weeks ago.

New Ore Discovery Made On Summit Group

A. Davidson, who has been developing the Summit Group in the upper Kitsault Country has located a new body of ore on that property. Open cuts have shown that it is at least 8 feet wide, and further work is expected to show an even greater width. The ore carries silver, lead, zinc. Mr. Davidson was in town during the week, and after a short stay left again in order to store his equipment for the winter.

Amateur Orchestra Prepares For Winter Season

The Anyox Amateur Orchestra, under the leadership of E. Ross Oatman, is already actively preparing for the coming season, which promises to be a busy one. Much new music has now been obtained, same being very carefully selected with a view to catering to everyone. Musicians who are ambitious to join the orchestra are cordially invited to get in touch with Mr. Oatman or Mr. S. Armstrong, Secretary.

Mr. L. Gillies Will Be Physical Instructor

Mr. Laughton Gillies arrived in Anyox recently, and will be physical instructor and Gymnasium attendant at the Gymnasium during the coming season. Mr. Gillies has been associated with the Y. M. C. A. in Vancouver.

The death occurred at Anyox on Monday afternoon of Kathleen Wenerstrom, who passed away at the early age of four years. The deepest sympathy of the whole district is extended to Mr. and Mrs. L. H. Wenerstrom in their sad bereavement.

Tonight's Picture Will Hold You Spell-Bound

The ability of talking pictures to bring the greatest plays of the stage to the screen for all the world to see and hear is strikingly demonstrated at the Anyox Theatre, where Richard Dix's first Radio starring film "Seven Keys to Baldpate," is being shown today.

As the stage play produced on Broadway by George M. Cohan, this fast-moving melodramatic farce was deservedly popular. After playing in New York for an entire season, it went on the road for another year, playing in the major cities of the country.

And now Radio Pictures, through the miracle of the talking screen, presents "Seven Keys To Baldpate" in a manner that makes it even greater entertainment than the stage play. The embellishments of the camera, the splendid performances of the star and his supporting cast, the entire resources of a great film studio in Hollywood, all combine to make it one of the most diverting mystery farces ever shown at the Anyox Theatre.

Richard Dix is ideally suited for the role of Magee, the novelist, whose visit to the deserted Baldpate Inn brings about the gripping series of adventures. His voice, trained on the stage and in several talking pictures is expertly recorded.

F. F. Brown Wins President's Golf Prize

An interesting golf tournament, the prize for which was a handsome golf bag, donated by W. R. Lindsay, president of the Anyox Golf Club, was held on September 14th.

A large number of members participated. The winner was Mr. F. F. Brown. Following are the leading scores:

F. F. Brown .....87-21—66
H. L. Patterson....95-27—68
H. Selfe.....96-27—69
J. Grigg.....96-27—69
C. O. Fricker .....87-18—69

Play for the Lovsted Cup during the month of August resulted in a tie between S. Peters and C. O. Fricker, W. R. Lindsay being third. On the play-off the cup was won by C. O. Fricker.

The mountain tops were covered by a heavy fall of snow during the week, down to an elevation of about 2500 feet.

Short days and colder weather is responsible for the termination of outdoor sport at Anyox. The past season was ideal for all kinds of outdoor activities. Dry weather prevailed during the last few months of summer, and almost everyone had an opportunity to enjoy the great outdoors, either on the athletic field or by boating or picnics. As the long evenings approach, thoughts again turn to indoor sports, as a means of employing leisure time. At the present time it seems very probable that indoor sports this coming winter will be very popular. The officers of the Anyox Community League are already making plans for a successful season. They are doing their best to give everyone in opportunity to indulge in some form of recreation. It is up to the members of the League to support them if sport is to flourish in Anyox.

Premier R. B. Bennett has not lost any time in carrying out his election promises. He has at least proved himself a man of action, with courage to carry out his convictions. The new tariff laws are expected to relieve unemployment in Canada by manufacturing goods here that were formerly made by foreign workmen. The success of the new tariff laws depends entirely upon Canadian manufacturers. If they do not manufacture an inferior article or raise prices, success will be attained. If however, they abuse their privileges and insist on big profits, their greed will cause a revision of tariff laws. They have at the present time a golden opportunity to demonstate the advantages of a high tariff, and it is hoped that they will take advantage of it.

Howe Sound Co. Make Good Profit

During the first half of this year the Howe Sound Company, the holding company for Britannia & Smelting Company and for two companies operating silver-lead-zinc mines in Mexico, produced 5,560 ounces of gold, 1,478,438 ounces of silver, 23,147,439 pounds of copper, 35,524,825 pounds of lead, and 20,296,415 pounds of zinc and made a net profit after providing for all expenses of operation, depreciation and freight and marketing costs of $1,182,290,08.

It is now asserted that man is 1,000,000 years old. And there are mornings when he feels like it.

No Dole System For B. C. Unemployed

Introduction of a dole system in British Columbia to cope with the unemployment situation is not favored by the provincial government, Premier Tolmie declared. When in Ottawa, the British Columbia Premier discussed with members of the federal cabinet the unemployment system in his province and told of extensive works which had been undertaken by the government as a measure of relief. He said that there were quite a number of unemployed in the province and suggested that to cope with the matter during the coming winter, it would be quite feasible to undertake road construction work, clearing right-of-ways, park development and harbor improvements.

Here and There

(609)

As a nerve tonic more effectual than anything conceived by medical skill, Canada's rocky highlands and placid lakes were given first place by Sir William Decourcy Wheeler, M.D., F.R.C.S., interviewed recently at Lake Louise where he rested after attending the arduous convention of members of the British Medical Association held last month at Winnipeg.

A note of confidence and sincere optimism in the soundness of Canada's economic position at the present time and faith in her future development was sounded by E. W. Beatty, chairman and president of the Canadian Pacific Railway, at the banquet given recently at Saint John by the Board of Trade of that city in celebration of the first sailing of the Princess Helene, new C.P.R. coastal steamer, on the Saint John-Digby route. Mr. Beatty said he hoped to see a second boat run alongside the Princess Helene in the not distant future

Determination of the Canadian Pacific Railway to maintain for Canada the pride of owning the largest, fastest and finest ocean liner on the Pacific and the company's foresight in providing for needs beyond those of the present in the realm of transportation were lauded at Vancouver recently, at a dinner held aboard the liner Empress of Japan, new 26,000-ton Pacific vessel. Hon. R. Randolph Bruce, Lt.-Governor of British Columbia, added his tribute to those of nine other speakers at the function.

Mrs. L. N. Calverley, wife of the famous British surgeon, was credited with taking the largest fish, other than salmon to be caught in British Columbia waters this season, when she landed an 18½-lb Rainbow trout from the sparkling waters of Shuswap Lake recently. She is a cousin of Lady Diana Duff Cooper who as Lady Diana Manners gained world-wide fame as the heroine of "The Miracle."

The Banff Highland Gathering of 1930 goes down not only as the greatest yet so far as events and entrants are concerned but also for attendances since more than 10,000 spectators were present. Eight events ran continuously and concurrently; atheletic events were confined to Alberta and British Columbia; dancing events added Manitoba to the list, while the piping contests brought in the whole of Canada, Scotland, China and the State of Washington.

Marking the earliest opening of the apple shipping season from Halifax to Europe, over a week in advance of last year, the first overseas shipment of the fruit went September 2 in a cargo estimated at about 4,000 barrels of Nova Scotia apples.

There is a record crop of potatoes in Canada this year. It will total 66,500,000 bushels or 46 per cent. more than in 1929, according to the latest official estimate. Potatoes are grown in commercial quantities in all the provinces of Canada.

According to a statistical report, if all the wealth in the Dominion of Canada were equally divided it would provide $2,996 for each person. This does not include the value of Canada's undeveloped natural resources. The national wealth is placed at $28,940,000,000, an increase of $1,272,000,000 over the previous year.

Galloway and O'Farrell Talk on Future of Silver

In all the silver producing countries of America, much consideration is being given to the price of that metal. In the states of Washinghton, Idaho, Oregon, Nevada and California conferences are being held by public men, who are discussing means to improve the situation. A sub-committee of the U. S. Senate is also making investigation.

Speaking before a gathering of mine operators, engineers, bankers, and other business men in Spokane, P. A. O'Farrell, known in mining districts of the Pacific Northwest for the past 35 years, declared that the demonetization of silver has resulted in wiping out 94 per cent of the purchasing power of the Orient, basing the figure not only on the parity of silver with gold but on the decreased purchasing power of gold as a result of the monetary famine. Only by making it possible again for Asia and Latin America to purchase foodstuffs and manufactured goods can prosperity be restored throughout the earth.

"Remonetize silver, bring back its Roman parity of 12 to 1," he said, "and you will see the hills and mountains of Western America covered with prospectors seeking new sources of gold and silver to be made into metallic money. Mines will reopen, steamships will be insufficient to handle the goods which America will sell to the Orient, and the disorders in India and China will cease."

John D. Galloway, provincial mineralogist of British Columbia, discussing the situation, says: "Silver is in an unfortunate position statistically, and world authorities see but little hope of price improvement. In the past, silver has had a value based on the idea that it was wealth, particularly in the Orient, as well as its use as a commodity. Now it is rapidly losing its prestige as wealth and in a few years may only be a commodity, subject to the law of supply and demand. Unless new uses for the metal are found, with selling prices for articles and alloys manufactured from it based in a reasonable way on the price of the metal (which is not the case at present), then silver may sink to much lower price levels."

Unique Christening at Banff

A ceremony unique in the history of the Canadian Rockies was witnessed recently at the Banff Springs Hotel when Hilda Banff Rocky Mountain Goat, 36-hour-old Stony Indian papoose (inset) was christened in the courtyard of the hotel in the presence of around 500 guests and with A. H. Devenish, manager of the hotel, and Mrs. Devenish, acting as Godfather and Godmother. Left to right the group shows: Noah Rocky Mountain Goat, father; Mrs. Devenish, holding papoose; Mrs. Noah Rocky Mountain Goat, mother; and A. H. Devenish.

ADVERTISE IN THE HERALD

"Princess Helene" is a Princess Indeed

The new "Princess Helene" which has just entered the service of the Canadian Pacific Railway Company running between Saint John, N.B., and Digby, N.S., is worthy of her title in every respect. She is the last word in speed and comfort, and her accommodation, as is shown by the above pictures, compares favorably with liner-class ships. 1. A bedroom combining luxury and accommodation. 2. The observation room, with comfortable chairs and specially constructed windows to aid passengers in "seeing the sea". 3. The graceful "Princess Helene" cutting down the time between ports. 4. The dining saloon; just as roomy and up-to-date as any restaurant ashore. 5. The smokeroom; real comfort.

Parliament Prorogued On Monday. Bennett To London

Following the passage of the government's tariff bill, Parliament prorogued a few minutes before 5 o'clock on Monday. The passage of the bill came following an agreement of all parties in the House to expediate the business of Parliament in order that Premier Bennett might leave for London to attend the Imperial Conference.

By a vote of 196 to 58, the House declined to make an order "for a return showing the number of cases in which dumping duty had been refunded after being collected during the past twelve months with particulars in each case." The motion was made by E. J. Young, Liberal member for Weyburn.

Hon. E. H. Ryckman, minister of national revenue, said that no such statistics were kept by the department and the gathering of the information would be a long and difficult task.

A clause will be inserted in the new tariff bill which will provide for non application of the new rates upon bona fide contracts entered into prior to September 16. The period in which imports under this clause may enter will expire December 1, Premier Bennett announced.

Angus McLeod, superintendent at the Tidewater Molybdenum arrived at Alice Arm on Monday from a trip to Victoria. Mrs. McLeod will spend the winter in the south.

No Change In Canadian Trade Ministers

Premier Bennett announced in the House of Commons last week, that he looked upon the Canadian ministers at Washinghton, Paris and Tokyo as permanent officials but the Canadian High Commissioner in London should represent the views of the administration in office in the Dominion.

Unemployment in Germany Increases

Cologne, Germany, September 20: (Special to the Herald.) The buying power of the masses is being greatly lessened in Germany as a result of labor conditions, and the number of receivers of unemployment doles in that country on July 1st, had increased by 100 per cent. over the number of receivers last year.

Asbestos production in Canada during 1929 set up a new high record, according to the finally revised figures of the Bureau of Statistics. Shipments in 1929 amounted to 306,055 tons, valued at $13,172,581, an increase of 12.1% in quantity and 17.2% in value as compared with the previous year. The average value received by the operators was $43.04 per ton, compared with $41.16 the previous year.

Nipigon trout, known all over the continent as the gamest of game fish, are coming into the spotlight again according to reports from the famous Ontario resort where the annual contest for the largest speckled trout is now in full swing and will continue until September 14. The best entry to date is a 5½-lb. fish, measuring 22 inches in length and 14 in girth taken with a single spinner with fly, on a 9½-foot rod, by Edmund Stalter, of Paterson, N. J., July 29.

East and West, Orient and Occident, will meet in the British Empire Piping competition, one of the most important of the new features to be introduced at this year's Highland Gathering and Scottish Music Festival to be held at Banff at the end of August. Pipe-Majors John Clark and E. L. Collins of the Royal Scots Regiment of Scotland, of which Princess Mary is Colonel-in-chief, will come from the British Isles, while Pipe-Major W. C. MacKie of the Scottish Company of volunteers is on his way to Banff from Hong-Kong.

Prospects for increased earnings during the fall months are good and directors of the Canadian Pacific Railway have no intention of reducing the dividend, said E. W. Beatty, chairman and president of the company, recently in reply to rumors that the dividend might be cut.

Nowadays the world moves on rubber and this does not apply to automobiles alone. According to a recent return of the Canadian Government the people of Nigeria in June bought 300 pairs of shoes with rubber soles from Canada. Barbadoes took 3,020 pairs and Trinidad 6,555 pairs. In June the export of Canadian automobile tires exceeded $1,000,000 in value.

Canadian farmers are now producing all the fine tobacco required by Canadian manufacturers, according to a statement just issued by the Dominion Department of Agriculture which also claims that the tobacco is of better quality than that usually imported. Canadian tobacco has also become a factor in the British tobacco market.
