Anyox Daughters Of Empire Have Done Valuable Work

With a membership of fifty Collison of Kincolith Chapter, I. O. D. E., has succeeded during the year in making a valuable contribution to the welfare work of the country. Funds were raised by two theatre nights and a Dominion Day Dance, and by the sale of roses on Alexandra day. The chapter also assisted the Canadian Legion in raising funds through the Vimy Day Dance and the sale of Poppies Armistice Day.

Donations made by the chapter in 1928 were: Mary R. Gooderham fund for veterans' dependents $5; Duchess of Connaught Hostel for travelling students, $10; Copper Mountain Relief Fund, $10; League of Nations Society, $10; Navy League of Canada, $2; Prince Rupert Cenotaph, $5; Alexandra Solarium, Vancouver Island, $50; Crippled Children's Hospital, Vancouver, $50; Province Fresh Air Fund, $14; Solarium Christmas Treat, $10; Province Santa Claus Fund, $10.

The chapter also sold $55 worth of seals for the Tranquille Anti-Tuberculosis society. Besides these bequests the chapter has set aside $100 for the Preventorium which is projected.

Riot of Color and Fun At Masquerade

The big Annual Masquerade Dance given by the Anyox Mine Club at the Mine Hall on Monday evening was one of the most brilliant and colorful scenes ever witnessed on the hill.

The hall was thronged with dancers, including quite a number from the Beach. Every conceivable form of costume was in evidence and almost every nationality represented. The whole presenting a riot of color and animation.

Stirring music kept everyone dancing, and a plentiful and appetising supper renewed the efforts of the dancers, who were ready to still carry on when the Home Waltz reminded them of bed and the 8 o'clock whistle which would shortly send forth its summoning call to be on the job.

Intermediate League May Blow Up

Basketball reached its peak just before the Rupert Invasion. Since then the Intermediate League has received a knock-out and it is rumoured that the Store-Office team will not be seen in action again this season.

Alice Arm Card Party Greatly Enjoyed

Another of those popular card parties, which have featured the social activities of Alice Arm during the winter months, was held at the School on Saturday night. The Alice Arm Junior Sports' Club were the hosts, and under the supervision of Mr. Everett Greenaway they gave their guests a very enjoyable evening's entertainment.

Bridge was played during the early part of the evening. The winners being: Ladies' first prize, Mrs. O. Evindson; consolation, Mrs. J. Studdy. Gentlemen's first prize, Mr. J. Trinder; consolation, Mr. L. O'Connor.

Following an appetising supper, dancing was indulged in, which brought to a close another well spent social evening.

Will Ask To Amend Constitution

The adjourned meeting of the Community League to be held on the 20th. will be asked to vote on the following amendment to the constitution. The proposer is Mr. Joseph McGilligan. "That the office of Welfare Agent of the Granby Consolidated Mining, Smelting and Power Co. Ltd., and secretary of the Anyox Community League be severed and that the secretary shall be a full time servant of the Anyox Community League only." How this will, if passed, affect the constitution of the league will doubtless be a matter of searching debate.

I. O. D. E. Will Hold Card Party

The regular meeting of the local chapter of the I. O. D. E. was held on Tuesday in the basement of the United Church. Plans were made for holding a card party at the Mine Club early in April. Mrs. Warwick and Mrs. McIntyre were welcomed as new members. Mrs. McKay entertained with musical selections while tea hostesses for the occasion were Mrs. Eve and Mrs. Fricker.

Winners of Basketball Trophy In Doubt

The winners of the trophies awarded by the P. T. A. for inter-school basketball are as yet undecided. To date the high school has won four games by a narrow margin and last Saturday's contest ended in a tie at 18 all. Three games are yet to be played. As the total of points scored is what counts, the primary school has still a chance.

Balance Sheet of League Shows Substantial Increase

The Annual Report and Balance Sheet of the Anyox Community League for the past year shows the organization to be in a very prosperous and sound condition.

The total profits from all sources combined is much greater than the previous year, which shows that the affairs of the League have been capably handled.

Following is a portion of balance sheet recently published, showing the sources of income and expenditure.

INCOME	
COMMERCIAL ACTIVITIES	
Beach Counter	$1,049.80
Beach Pool	512.24
Mine Counter	1,728.90
Mine Pool	391.79

TOTAL	2,132.89
NET PROFIT TO SURPLUS	2,371.41

For 1927 the net profit was $1,344.09 as compared with the above of $2,371.41 for 1928, an increase of $1,027.32.

Light Snowfall Makes Easy Travelling

The light snowfall this winter has made travelling comparatively easy for the operators of mining properties in the district. During the week several were down from the camps, among whom were A. Knox of the Tiger, A. McGuire of the Sunrise, W. McFarlane of the Homeguard, Gus Pearson and M. Santel of the North Star, A. Davidson of the Wildcat. The majority were down for more supplies before the disappearance of snow in the higher altitudes makes sleighing impossible.

Falling Rock Causes Death At Bonanza

A fatal accident occurred at the Bonanza mine on Wednesday when Laurence Watt met his death while loosening rock with a bar.

It appears that deceased was prying loose some rock when a big piece came down unexpectedly and crushed him, He was taken to the Hospital and expired at two p.m. shortly after admission.

Deceased is a native of the Shetland Islands, and leaves to mourn his loss a brother of Walls, Shetland Islands. He was 50 years of age.

The funeral will be held tomorrow at 3.30 p. m. at the cemetery.

Change In C. N. R. Steamship Schedule

Effective with the sailing of the Steamship "Prince George" from Vancouver Monday, March 25th., the Spring Schedule of the C. N. R. Steamships will be inaugurated and two boats will call at Anyox, arriving here at 11 p.m. each Wednesday and Saturday, sailing at midnight for Prince Rupert and Vancouver, via Stewart. The first boat on this schedule will be the Steamship "Prince George" arriving at Anyox Wednesday, March 27th. followed by the Steamship "Prince Rupert" Saturday, March 30th. This double weekly schedule will continue in effect until Saturday, June 8th., which will be the last sailing from Anyox. After that date, the Summer Schedule, which will be almost identical with that of last year, will be inaugurated.

Badminton Club Will Hold Another Tournament

The Badminton Club will hold another tournament on Tuesday, March 19. It will be on the same plan as the last Those desiring to play are asked to inform the President or Secretary as soon as possible Through the generosity of anonymous donors cups are available for singles play. Ladies and gentlemen who wish to compete for these are asked to make their intention known early. The club will provide trophies for doubles in both cases.

Big St. Patrick's Dance On Friday

The celebration of the anniversary of the birth of St. Patrick will be held on Friday evening at the Gymnasium. As in former years the memory of Ireland's patron saint will be honored by a dance. It is being sponsored by the ladies of the Catholic Church. Irish music, wit and the devil-may-care spirit of the Emerald Isle will prevail. A dance you can't afford to miss.

Anyox Basketball Games For Past Week Prove Interesting

Mechanics have been out of luck lately. On Friday against the Concentrator they were leading 10-8 at half time, and were going strong. But in the second spasm Evans sprained an ankle and the surviving quintette lost out at 24-15. Musser was in the limelight with ten points. The Mine Club dance played hob with the game on Monday. The Store-Office scratched up five players, some unregistered, and took on the Mechanics who were without Deane and Evans. It was an every man for himself affair. The Beach, however, with one player summarily banished and another refusing to continue ran up the surprising score of 36 to the Mechanics 14 of which Lazorek supplied 13. It was a difficult game to handle and the handling was formally protested by the Beach.

Players: Beach: McCallum, 8; C. Dresser, 9; McLachlan, 11; J. O'Neill, 2; S. Peters; McDonald, 4; H. Deeth, 2. Total—36.

Mechanics: Lindgren, 1; Steele; Lazorek, 13; Cloke; Dodd. Total —14.

Referee—Fordyce Clark.

The Beach Girls are now leading the second half by virtue of two successful victories. On Friday they nosed out the High School 9-7 after coming from behind a half-time score of 5-2. On Monday they wrestled evenly with the Mine during the first half to 8-7. In the third quarter the Mine pulled up to 13 and stopped there while the Beach girls drove their score up to the point where a basket by Doris Greenwood in the last minute made it 14-13 and sewed up the game.

Large Audience Enjoys Musical Programme

The musical entertainment given last Sunday evening by the Anyox Concert Orchestra under the direction of Stewart Steele was attended by a large number. The programme was carried out with great skill by this well-trained group of musicians, and every number was thoroughly enjoyed.

Rev. B. Jennings of the Anglican Mission boat Northern Cross, will visit Alice Arm during the week-end of March 23rd. He will hold Divine Service in the Anglican Church on Sunday, March 24th. which is the Sunday before Easter. Mr. Jennings has been in charge of the Anglican Church at Stewart during the winter.

E. MOSS, Editor and Publisher.

The training of our children is something that should receive every encouragement. It has been often said that "The children of today are the citizens of tomorrow." What our future citizens are is due to a large extent to their training as youths. The home is the primary place for training, and then the school. But children cannot always be kept at home or school. It is the leisure hours when often a large part of the training is undone. In order to look after the boys and girls during a part of their leisure hours the Scout movement came into existence about twenty-five years ago, and later the Girl Guides. Both of these organizations are in a flourishing condition in Anyox. The boys, under Scout-master Gale hold their meetings, and learn many things that will be helpful in later life, chief of which is ability to take care of ones self when an emergency arises, friendliness to everyone, and last but not least, courtesy. The Girl Guides, under Miss Hoadley are trained along similar lines. If the children of Anyox fail to become good citizens of the future the fault will not be lack of opportunities for proper training.

The price of copper has been rising, is still rising, and is likely to continue to rise still further according to latest advices. Consequently everyone of the 2200 people of Anyox are feeling much better, thank you. The employee's wages are increased from time to time, with no additional burdens, except that of packing a heavier roll. The Granby Company are making a bigger profit without any extra effort, so why, indeed should'nt everyone be happy. The high price of copper means the distribution of more wealth. It also means bringing lots of copper properties to the producing stage. These new mining towns will mean new markets for the farmers, the manufacturers, the wholesalers and retailers, shipping and railroad companies and many others. Yes, the rise in price of copper is enough to make everyone feel happy, whether or not they are directly concerned with the industry.

Saddle Will Be Shipping Ore This Year

Silver Crest Mining Co. Ltd., controlling the Saddle Mine at Hastings Arm and the Silver Crest group in the Salmon River Valley, last year devoted its entire attention to the developing of the Saddle where it is hoped to make a profitable highgrade shipper. This year, it is stated, some diamond drilling will be done on the original Silver Crest property which lies in close relation to Big Missouri.

On the Saddle, as soon as weather permits, the tram which was nearly completed last season, will be finished and the adit tunnel being driven to come under the main shaft on the property will be continued to its objective, with the object of opening a body of ore for early shipment. The tunnel is about 200 feet vertically below the outcropping and is stated to have about 900 feet to go.

Silver Crest owns a 70 per cent interest in Saddle. P. E. Peterson, engineer for the company, has recommended probing below the capping that covers part of the Silver Crest group to determine whether or not a theory that the ore-forming rock of Big Missouri ground extend into Silver Crest.

The company, with head office in Vancouver, was incorporated in December, 1919, with an authorized capital of $500,000 divided into 2,000,000 shares with par value of 25 cents of which 1,904,333 shares are outstanding.

Directors are: A. S. Thompson, president; G Armitage; V. J. E. Fitzgerald, secretary; C. O. Wickenden; P. Mallet; G. A. DeHaseth.

Your employer knows how good you are without your telling him. Say it with work.

After all, others can do very little for you. You must do your own fighting and vanquishing, starting with self.

Triple Funeral, Stewart

Stewart News

A triple funeral, the first ever occurring in Stewart, was held last Saturday afternoon when John Stahlberg and Frank Norman, miners who were killed at the Big Missouri, and Samuel Lingham, a Premier employee who died in the Stewart hospital, last Wednesday were laid to rest in the Stewart cemetery. The services were conducted by the Rev. W. B. Jennings of St. Mark's Church.

There was a large gathering of friends of the deceased, who came principally from the mines to pay their last respects to good friends and respected citizens.

Northern Mine Being Developed

Of interest to British Columbia, inasmuch as it is seen as the northern extension of a belt in the northwestern corner of British Columbia which may prove a valuable mineral area, is the coming development of the Yukon Gold Mining Company's property at Windy Arm on Tagish Lake, close to the B. C. Yukon boundary.

The property, formerly known as the Dail & Fleming group, is located in the mineralized belt formed along the Coast Range Batholith contact with the granodiorite.

Practically all British Columbia Mineral Properties upon which development work has been done are described in some one of the Annual Reports of the Minister of Mines. Those interested in mining should refer to such reports. They are available without charge upon application to the DEPARTMENT OF MINES, VICTORIA, B. C. Reports of the Geological Survey of Canada, Winch Building, Vancouver, also are recommended as valuable sources of information.

Ontario's New Mining Act Will Be Watched By Government

Introduction of a blue sky law in British Columbia with the particular object of controlling mining companies as well as other concerns, was fore-shadowed by Attorney-General Pooley in the legislature.

Ontario, he said, had recently enacted a new law along these lines and its legality had not been questioned yet. The British Columbia Government, he said, intended to watch the operation of the Ontario law for a year to see whether it could withstand legal attack "with a view to adopting it here".

The desirability of penalizing mining engineers who make false reports about mining properties to aid the sale of stock was emphasized by George Walkem, Conservative of Vancouver. Hon. W. A. MacKenzie, minister of minister of mines, said this was a matter which could be handled best by the Professional Engineers' Association.

Will Increase Resident Mining Engineer Staff

In view of the development of mining in British Columbia, it is intended to add to the staff of district engineers, it was explained in the Legislature by Hon. W. A. McKenzie, minister of mines. With this end in view, the districts will be made more elastic.

Further provision to encourage the discovery of minerals will take the form of winter classes to prospectors in basic geology, the minister said. For this purpose a sum of $5000 would be included in the estimates.

The C. N. R. and the C. P. R. have ironed out their differences in respect to branch lines to such extent they now clash in only one area between Aberbeen and Melfort, Sask., Minister of Railways Hon. Charles Dunning informed the house of commons when the branch line program of the C. N. R. was being discussed.

Here and There

245

In 1921 the Canadian Pacific paid out $2,000,000 from freight revenue in loss and damage claims. In 1927 it paid $700,000, a decrease o $1,300,000, although in the same period the gross freight revenue had increased by $15,000,000. Better freight handling did it.

The stonework and most of the partioning of the Royal York Hotel have been completed, and there appears every likelyhood that the great building will be open to the travelling public by June 1. This hotel is the largest and tallest in the British Empire.

Some idea of the world-wide area over which the Canadian Pacific operates may be gathered from the fact that in making out its monthly balance it is necessary to turn fifty-nine different foreign currencies into dollars in order to get an accurate result in Canadian money.

Wireless is now being used to aid in the protection of forests against fire. The Ontario Provincial government planes are equipped with the latest apparatus with a radius of 400 miles, so that the headquarters may be readily communicated with and immediate steps taken upon the discovery of an outbreak.

"The principle of rapid freezing has such qualifications that there seems to be little room for doubt that it is going to revolutionize the fishing industry," stated W. A. Found, deputy minister of fisheries. "We intend to make thee xperimental station at Halifax of the utmost value to the whole industry."

W. J. C. Madden of Calgary, is making arrangements with the Canadian Pacific Express Company for the transportation of whitefish caught in Great Slave Lake from Edmonton to Chicago. It is intended that the distance from the fishing ground to rail head will be covered in winter by five-ton trucks operating upon the thick ice of the Slave and Athabaska Rivers, traversing country that would otherwise be difficult to cross.

A new and strange form of wildfowl is being imported into Alberta by the Calgary Fish and Game Association, which has arranged to secure 2,000 Mongolian and Chinese ring-necked pheasants. The birds are to be liberated this summer throughout the southern part of the province, where 1800 were placed last season as part of the Game Association's plan for re-stocking Alberta's game bird supply. With all these Oriental birds loose the ancient Yellow Peril seems more imminent.

Clipping as much as an hour and a half off her schedule eastbound, and half an hour westbound, the Trans Canada Limited, crack flyer of the Canadian Pacific Railway running between Montreal, Toronto, and Vancouver, will be further remarkable this summer by reason of a "solarium" car, containing baths and a special sun-room, that will be included in her luxurious equipment. The Mountaineer, another speedy summer train, running between Vancouver and Chicago will also have "solarium" cars, and run on faster time. The Trans Canada makes its first run on May 12, and The Mountaineer on June 10. The former train makes 140 trips during the summer season covering a distance equal to about fifteen and a half times around the world.

Nelson's Unlucky Love Adventure.

Writing in the London "Evening News," Max Pemberton, well-known English writer, says:—

I read in an American journal a discussion as to which is the most beautiful city in the world; and I am not surprised that a writer names Quebec, and names it with emphasis.

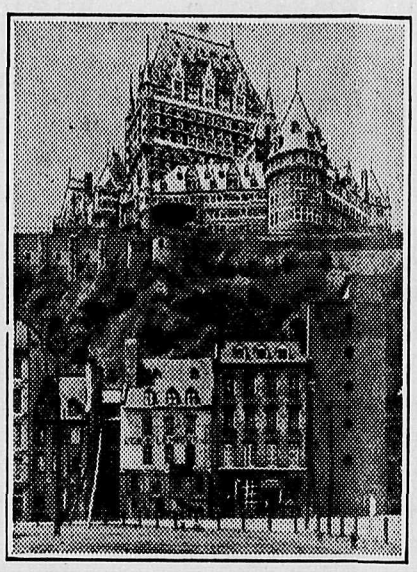
We cannot wonder at the literary enthusiasm Quebec has provoked.

"The majestic appearance of Cape Diamond," says one writer . . . the fortifications the cupolas, and minarets, like those of an Eastern city, blazing and sparkling in the sun, the noble basin like a sheet of purest silver, in which might ride with safety the navies of the world, the graceful meanderings of the River St. Lawrence, the fertile valley dotted with picturesque habitant houses, the distant falls of Montmorency . . . the grim purple mountains, the barriers to the North, form a picture which it is no exaggeration to say is unsurpassed in any part of the world."

It is easy to applaud such chauvinism when one has set foot in Quebec and been received with that courtly hospitality for which its people are famous.

Naturally, romance is never far away from such a picture. There is a story told of the Lord Nelson and of one Miles Prentice, who served under Wolfe and subsequently served beer. This fellow opened an inn to which the soldiers and sailors resorted . . . and among them in the year 1782 came the Captain Nelson, then commanding H.M.S. Albemarle, of 26 guns.

"Miles Prentice," says a writer, "had a niece, Miss Simpson, daughter of Sandy Simpson, whose charms so captivated the embryo Admiral that when his vessel had sailed from port he clandestinely returned for the purpose of wedding 'the maid of the inn,' which purpose was defeated by Mr. Alexander Davidson, then a Quebec merchant, who, with the assistance of his boat's crew, forcibly carried the amorous captain on board his vessel,"



This seems somewhat drastic treatment, hardly likely to be popular in our time, when captains ashore to marry maids are usually welcome and other people hasten to buy confetti. But Quebec ever was and ever will be a city of the strictest proprieties.

I would add that my first visit to this incomparable height was made during the first considerable snowfall of the year. I believe some five feet of snow were down in relatively a few hours, and anything more bewitching than the whitened domes and pinnacles and the fairy-like scenes beyond the walls it is difficult to imagine.

But Quebec is the home of superb spectacles, and in the Chateau Frontenac possesses one of the most dominating hotels in the world. Here is a great hostelry like to no other one can name—majestic in the fashion of a mediaeval fortress, yet as up-to-date as any hotel in America and more comfortable than most. From its terrace a glorious panorama of river and villages and blue hills beyond is unfolded . . . and it is no surprise to hear that many thousands of Americans seek this palatial height every year and succumb to its enchantment.

"See Naples and then die!"

Rather, see Quebec and find a new inspiration to live.

Expresses Thanks

The Anyox Concert Orchestra wish to thank the audience of their last concert for the generous way in which they responded to Mr. McPherson's S. O. S. The collection amounted to $32.50 which covers our debts. From now on a large audience will be better to us than a large collection.

STEWART STEELE

Will Build Boat For Rupert Trade

At the meeting of the Board of Trade recently a letter was read from B. C. Keeley of Vancouver stating that a sum would be placed in the estimates this year at Ottawa to provide for the building of a steamer to ply out of Prince Rupert for local business.

The letter was ordered suitably acknowledged and the president expressed thanks to George Nickerson for his work in connection with securing this.

The effective per capita purchasing power in British Columbia is $814, the highest in Canada.
