
NOTE.—The line laid down for the Canadian Pacific Railway on this Map is only assumed, in order to permit of the regulations of the 9th of July, 1879, being put in force. It may happen that the Railway, when located, will vary from the route shown hereon; and it is to be distinctly understood, that in case of any entries having been obtained, the conditions of which, as respects price of pre-emptions or Railway Lands, may be affected by the alteration in the route from the line as above, they must be accepted by the persons obtaining the same, subject to such change in the route, and shall not be held to give such person any claim against the Government in consequence thereof; but the Government will apply the excess of any moneys paid on account of such lands, in case the change in the route of the Railway should throw the lands entered into a lower priced class, in favor of the person so entering, on account of his purchase.

LINDSAY RUSSELL, *Surveyor-General of Dominion Lands.*
