Granby Co. Will Operate Copper Mountain Property

It is the intention of the Granby Co. to commence work at once on Copper Mountain property, stated Mr. H. S. Munroe to the Herald, during the week, but added that between 60 and 90 days would elapse before the first load of concentrates would be shipped to Trail smelter. Considerable overhaul work will have to be done to the plant before operations are commenced, and the short railway connecting the property with the Kelley Valley Railway will have to be repaired. The property will be operated under the name of the Allenby Copper Co, with Mr. L. R. Clapp, formerly assistant general manager at Anyox in charge, and about 400 men will be needed to operate the plant. It is estimated that between 17,000,000 and 18,000,000 pounds of copper will be handled each year, this with a partnership with Anyox of nearly 32,000,000 pounds, will bring the total output of the Granby Co. to close on 50,000,000 pounds of copper each year. Complete housing facilities for employees were prepared by the Canada Copper Corporation, and are all thoroughly up-to-date. A short history of the property is given on page two.

Road, Trail and Bridge Work at Alice Arm

The work of repairing the Dolly Varden Railway from Alice Arm to Camp 8 was completed yesterday. The work consisted of clearing fallen timber from the track, and repairing washouts with trestle work. The track is now in better shape than it was last summer states Mr. J. Wells who has been in charge of the work, and hand cars can now be operated through to Camp 8.

Now that the railway is open for traffic a start will be made on the upper Kitsault River bridge. This work was commenced last summer but owing to the early snowfall could not be completed. Considerable rock work still remains to be done, and the entire work will occupy 10 men about a month. Twelve thousand feet of lumber and wire cable etc. will be hauled up over the Dolly Varden Railway tracks, as soon as possible. The bridge is of the wire cable suspension type. The cable will be anchored to the solid rock on each side of the river, and will be capable of supporting any load put upon it. A foot bridge across the Kitsault will also be built at the foot of the Dolly Varden hill for the convenience of prospectors, and a small amount of trail work will be done higher up the river.

The work of blasting out the log jam in the Kitsault River opposite the wing dam was completed on Thursday and the river is now free of all obstructions at that point.

Monthly Meeting of Alice Arm Citizens' Association

The Annual General Meeting of the Alice Arm Citizens' Association was held in the Anglican Church, on Saturday evening last. Vice-President A. Falconer presided.

The minutes of the preceding meeting were adopted as read on motion of Mr. J. Morrison seconded by Mr. G. Bruggy.

The statement for the past year was read by the Secretary, and on a motion by Mr. M. Petersen seconded by Mr. H. Fowler it was accepted. Correspondence was then read by the Secretary.

Owing to the small attendence of members it was thought advisable to call another meeting for the election of officers for the coming year, and a motion was made by Mr. M. Peterson, seconded by Mr. G. Bruggy that the meeting be held on Wednesday evening June 6th. The meeting then adjourned.

Death at Anyox

The death occurred at the Anyox Hospital, on Tuesday, May 29th, of Mr. Sidney Forbes, aged 24 years. The cause of death being appendicitis. Deceased had only worked ten days at the Mine when he was taken to the Hospital on May 14th. He came to Anyox from Vancouver.

Mr. Forbes was a member of the 1st. British Life Guards when only 15 years and 9 months of age and served in the Middlesex Regt. and artillery during the Great War.

He leaves to mourn his loss, his mother, Mrs. Floyd, who resides at Cheraton, Kent, England. Interment took place, at the Anyox Cemetery, on Wednesday. Rev. J. B. Gibson, of the Anglican Church officiating.

Anyox Teams who Play at Stewart May 24th.

The baseball team who journeyed to Stewart from Anyox and beat the local team with a score of 10-0, were:

Curly McKewan, pitcher
Chas. McKewan, catcher
Sinclair 1st. B.
Steve McKewan, 2nd. B.
Brown S.S.
Matheson 3rd. B.
Roberton R. F.
Sherman C. F.
Anderson L. F.

The football team which lost by the score of 2-0 to the agile athletes at the head of the Canal, were:

McDougall
Mair Ross
Rowan Scott Sherman
O'Connell Main McKenzie
Brown Fitzpatrick

All the boys had a real good time and are loud in their praise of the hospitality shown them by the people of Stewart.

Anyox Elks Win 1st. Baseball Game

The Elks baseball team won their first game of the season when they defeated the Smelter by the score of 3-1, in the presence of a large crowd.

The Smelter tried out a new pitcher by the name of Lee, and the Elks' batters had no trouble in hitting him, netting two runs in the first and one in the second innings, giving them a lead which they held all the way, although it looked as if they were to lose out in the last frame, when the Smelter used Curly McKewan and E. Loseke as pinch hitters. Both hit as expected, McKewan making the complete circle, tallying one for the Elks. Loseke was caught stealing third, thereby finishing the game.

The batting on both sides was about even, but the Elks were a little more accurate at throwing to base. The Smelter lost the game by overthrowing.

The teams were:

Elks		Smelter
Fitzpatrick	P.	Lee
Cody	C.	McKewan
Thorley	1st. B.	Sinclair
Whittaker	2nd. B.	McKewan
Greenwell	S. S.	Brown
McKenna	3rd. B.	Matheson
O'Connell	R. F.	Sheen
Campbell	C. F.	Cole
Armstrong	R. F.	Roberton

Umpires: Olsen Brothers

Northern Polytechnic Continually Growing

Mr. J. Pinder-Moss, in a letter to the Herald from Prince George, says that the Northern Polytechnic Institute is rapidly developing into a real Northern British Columbia Institute of learning, among the latest towns to join up, are Terrace, Hazelton, New Hazelton, Telkwa, Smithers and Prince George. Throughout the country Mr. Pindes-Moss finds a great interest being taken in the study of geology are mineralogy.

Dan McVicar writes from Scotland that he is on his way back to Anyox.

Liquor Store for Alice Arm

Col. Winsby of the Government Liquor Board arrived in Alice Arm on Thursday morning in order to look over the town and select suitable quarters for a liquor store. While it has not been definitely decided that a liquor store will be opened in Alice Arm, it is very probable that such will be the case.

ALICE ARM NOTES

See Al. Falconer for Wood or Coal

Miss Nancy O'Niell of Anyox is visiting Mrs. Phippen and famiiy, who are staying here for a month's holiday.

C. P. Riel left last Sunday for his logging camp near Perry Bay, taking with him a donkey engine and a crew of six men.

Mr. C. H. Walker has moved his shoe repairing business to the Alice Arm Hotel, and will remain there until such time as the Hotel is opened up. Shoes etc. for repair can be left at Bruggy's or T. W. Falconer's stores.

Messrs J. Graham and Geo. Casey left on Sunday for the Second Thought property, which is situated near Clearwater Creek, in order to do development work.

Mr. H. F. Kergin, M. L. A. left on Thursday for a tour of the Stewart district, and also Telegraph Creek district, and expects to be away some weeks.

Hand Laundry Work. Moderate Prices—Miss B. Crawford, Alice Arm.

Ralph Ingraham arrived on Thursday from Anyox, and will spend the summer working on his various mining properties. Ralph has nearly recovered from his recent sickness.

Messrs. Wm. Bunting and Elmer Ness came down from the Horseshoe property during the week. Too much snow covers the surface showings at present to make an examination of the property, but this is fast disappearing.

Dr. P. Whelan and Mr. Lamborn of Anyox arrived on Saturday last and left the following morning on a bear hunting expedition in the upper Kitsault country. They returned yesterday evening and left for Anyox this morning.

Steve Dumas has moved his business into the commodious Kitsault House. During the past winter the building has been lined with v-joint and painted throughout. The top floor has been divided up into rooms, for the guests, and the whole building presents a very up-to-date and smart appearance.

Mr. J. E. Gill, mining engineer for the Granby Company, arrived on Monday and will spend several weeks in the district examining mining properties. Mr. Gill left Anyox last fall and spent the winter in the eastern States, arriving back in Anyox last week.

See Al. Falconer for Freight and Pack Horses.

Wm McLean, who has been doing considerable work on the David Copperfield, was down for a few days at the beginning of the week. The work done consists of surface cuts. The David Copperfield joins the Dolly Varden on the south.

Cleaning and Pressing—Mrs. P. Nordi.

LOST! A bunch of keys. Finder please return to the Herald Office.

Mr. A. J. Taylor, logging contractor of Ocean Falls, arrived on Monday. He has taken a contract from the Abbotsford Logging Co. for bucking logs, and will probably secure a contract for booming the logs for shipment to Ocean Falls.

The Annual General Meeting of the Alice Arm Citizens' Association will be held on Wednesday evening June 6th. at the Anglican Church, at 8 p. m. Officers for the year will be elected. All members please attend.

Steve Morrison left on Tuesday in charge of two horses for the Alice Arm Freighting Co. The horses will go to the Outsider property at Maple Bay, and will be used for packing supplies from the Beach to the Mine

Mr. Jim Hutchings of Anyox, was a visitor in town for a few days. He will return today with Mrs. Hutchings and family to spend a month or two at Silver City.

Two Federal Government engineers paid a flying visit to the waterfront on Thursday, on board a government launch. They stated that the new float at the government wharf would be built this summer, the float at Silver City would also be repaired and a new set of dolphins driven.

Weekly Meeting of Anyox Community League Council

The regular weekly meeting of the Community League Council was held in the Recreation Hall, Wednesday evening, May 30th. Present: President Lewis, Vice-President Callanan, Councillors Mrs. Dwyer, Mrs. Cloke and Messrs. Jones, Harper, Noel and Simpson. On motion of Dr. Harper, Mr. Callanan seconding, the minutes of the preceding meeting were approved as read.

The Secretary's report stated that the Secretary of the Tennis Club had turned in $314.00, dues collected from the members. That the Finance Committee had authorized the purchase and installation of a fan for the Recreation Hall, which will be sent for immediately. Another matter authorized by the

Annual Report of Granby Co.

Year's Results Show High Degree of Activities

Heavy Development Program

Following are the principal items taken from the Annual Report of the Granby Co.

The annual report of the Granby Consolidated Mining, Smelting, and Power Company Limited, for the year ending December 31st, 1922, has recently come to hand. The year's operations are reported on by Mr. H. S. Munroe, General Manager, and the comment of the Board of directors on this report to the shareholders is presented by Mr. J. T. Crabbs, executive Vice-president, whose comment on Mr. Mnnroe's statement is in part as follows:—

"They reflect a substantial improvement in operating conditions, compared with the three years preceding. While no material advance occurred in the copper market during the year, the results of co-operative efforts are apparent in earnings, and the lowered production cost, which latter compares favorably with many of the so-called "low cost" producers, and is materially lower than prevails at other well-known properties.

"Favorable progress was made with the construction programme, reported upon as desirable in the last annual report. The storage dam was finished sufficiently to permit part operation of the hydro-electric plant through the fall and winter, and the completion of this project by mid-summer will effectively solve the problem of cheap power. Conclusions have been reached on the design and flow sheet for the Concentrator Mill, and construction is now under way, with assurance of completion early in the year 1924.

"In February, 1923, the shareholders at a special meeting called for that purpose, approved an increase in the capital stock of the company, for the purpose of acquiring the properties of the Canada Copper Corporation Ltd., upon its reorganization. It is hoped the completion of this transaction will not be long delayed.

The outstanding feature of the year's operation, is the improved financial condition of your company occasioned in part by the issue of Treasury Stock for cash, and in part by earnings.

"Your properties are in good physical condition, the Company organization is functioning with manifest efficiency and the outlook for the future is increasingly promising."

Production for 1922:
Copper 29,532,244 lbs.; Silver 405,471 ozs.; Gold 6,996.; Copper sold (lbs.) 26,-634,440; Average price obtained (cts. per lb.) 13.30; Average production cost, f. o. b. smelter 9.15 cts. per. lb.

In addition to above production at Anyox, flue dust treated at Tacoma returned 2,431,331 lbs. of copper and 37,033 ozs. of silver, making the total production for the year 31,963,565 lbs. of copper, 422,504 ozs. of silver and 6,996 ozs. of gold.

Hidden Creek Group: The following dry tonnages were produced by the various mining operations:

	tons
Hidden Creek Mine	854,666
Swamp Point Lime Quarry	19,129
Rambler Quartz Mine	18,176
Total	891,971

Diamond drilling totalling 14,435 feet was done on the Hidden Creek Group.

Reserve: During the year ore reserves were re-estimated on the basis of the more conservative area-per cent method instead of the foot-per cent basis, heretofore employed. At the same time there was incorporated knowledge gained from mining operations and a survey of diamond drill holes, reserves being recorded as of December 21st. 1922, at 8,990 tons of 2.00 percent ore. It is anticipated that further diamond drilling will restore a considerable part of the tonnage excluded from the re-estimate.

In the next Annual Report there will be included in ore reserves, a substantial tonnage of lower grade not heretofore considered as ore by the present management. This will be concentrated and produce copper at a cost which will yield a material profit at the present market.

Diamond Drilling: While diamond drilling for the year has not been productive of any great increase in ore, two interesting geological conditions have been disclosed, either one of which might be productive of a new ore body. Owing to the distance of both of these places from present openings, there will be no definite knowledge concerning them for several months.

The following dry tonnages were handled in furnaces and converters during the year:

Domestic Ore Furnaces, 836,080 Converters 10,999, Total 847,079 tons. Custom Ore Furnaces, 1,416, Converters 28,108, Total 29,524 tons.

The History of Copper Mountain

Some Early History of the Granby Co.s Latest Acquisition

The deal whereby the Granby Consolidated Mining, Smelting & Power Co. Ltd. acquires the Canada Copper Corporation's holdings at Copper Mountain is one of the most important in recent mining history of southern British Columbia, involving as it does transfer of large low grade copper holdings, together with equipment and rights of considerable value. Some interesting facts regarding the property were recently given by P. B. Freeland in a lecture at Vancouver, under auspices of the British Columbia Chamber of Mines. Following are extracts from Mr. Freeland's lecture:

The finding of the surface croppings takes us back over 28 years and is not particularly interesting. The unfortunate prospector who staked the first claim, got little or nothing out of it, the claims being jumped by some of his "would be" friends when he was absent.

"The Canada Copper Corporation, then the B. C. Copper Co. first worked on Copper Mountain in 1905, did some development, and then allowed the bond to lapse. In 1911 the same company

Continued on page 3.

The Copper Market

Financial and Market News gathered by private direct wires from the world's market centres by
Burdick, Logan & Company, Limited
737, Granville Street,
Vancouver, B. C.

Domestic buying of copper is small with independent producers offering round tonnages at 15 3-4 cents, delivered, for second and third quarter shipment. Large producers are holding at 16 cents a pound, and one large agency reports sale of fair tonnage at 16 cents, but it is believed that this was to western point with rather high freight rate. Fabricators are inclined to hold out the market, due to demoralization of a London market, where standard sold at equivalent of 13.85 cents and electrolite copper at 15 3-4 c. i. f. recovering in both instances about 0.05 cent a pound on curb after Metal Exchange closed. It is believed that this great slump in Standard is due to over extension that has forced some speculators to unload, breaking the standard market during the last few days as the spread between standard and electrolytic is unusually large. This spread between standard and electrolytic quotations in London has had considerableinfluence upon domestic prices as it invites sale of electrolytic in this market against standard in London. It is believed that pessimism has been unduly great considering low stocks of copper in producers' hands and fair bookings shown by fabricators for third-quarter shipment upon which most of the copper as yet remains uncovered. General feelings is that large producers have committed tactical blunder by following down too close upon heels of independents before buying had begun in earnest by large fabricators, as this gives indication of forcing independents somewhat lower to get actual business.

When in doubt whether to kiss the young lady good night, give yourself the benefit of the doubt.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,542,203; Lode Gold, $109,647,661; Silver, $59,814,266; Lead, $51,810,891; Copper, $170,723,242; Zinc, $24,625,853; Coal and Coke, $238,289,565; Building Stone, Brick, Cement, $36,605,942; Miscellaneous Minerals, $1,358,839; making its mineral production to the end of 1922 show

An Aggregate Value of $769,418,462

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1922, $35,158,843.

Production During last ten years, $339,280,940

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre: second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect; remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

History of Copper Mountain

Continued from page 2.

took options on Voight's claim, adjoining the Copper Mountain group on the north. The company and Mr. Voight failed to come to an agreement and options lapsed. Exploratory work on this group uncouvered some large copper ore bodies.

"In 1912 the B. C. Copper Co. again took options on several Copper Mountain claims and did extensive diamond drilling and surface trenching. In the years following development consisted mainly of tunneling totaling about 13,000 feet, 6,400 feet of upraises, 936 feet of sinking, 118,000 feet of diamond drilling and 32,000 feet of trenching. The company's holdings on the mountain are 3,192,97 acres.

Chalcopyrite and bornite are the primary copper minerals, associated with hematite, magnetite and iron pyrites. Some secondary action has taken place on the Helen Gardner claim, distributing chalcocite, native copper, malchite, azurite and cuprite. The main ore bodies are primary.

The highly siliceous alumia content is detrimental to direct smelting, and in consequence a 20000-ton concentration plant has been built at Allenby to treat the ores. A recent review of diamond drill and development records and an examination of the workings concede 5,625,980 tons of 1.83 per cent. copper ore, instead of 10,000,000 tons of 1.74 per cent copper. The cutting of the estimated ore reserves from 10,000,000 to 5,635,980 tons is not as serious at it may at first appear. In other words the probabilities for finding more ore in a deposit of this type are just as good as the reverse. The property in spite of all the diamond drilling, has not been thoroughly prospected as it might have been and when developments progress it is more than likely that additional tonnage will be found and mined.

The ore bodies developed lie between an elevation of 3,236 and 4,220 feet, a distance of 984 feet. Some of these drill holes stopped in ore at the 3,236-ft. level. The main haulage level is the 3,170-ft. or 66 feet below the lowest hole. So the probabilities for finding more ore at depth appear to be good.

Council meets every Wednesday Evening, at 7.30 p.m. Every second Wednesday of month at Mine Hall; every first, third and fourth Wednesday at Recreation Hall.

If you can suggest anything to better conditions, tell it to us at the meetings.

Atlin Electoral District

NOTICE IS HEREBY GIVEN that I shall, on MONDAY the 18th. day of June, 1923, at the hour of ten o'clock in the forenoon, at the Government Office, Anyox B. C. hold a Court of Revision for the purpose of revising the voters' list of the above named electoral district, and of hearing and determining any and all objections to the retention of any name or names on the register of voters for the said district.

Dated at Anyox, B. C. this 7th. day of May, 1923.

JOHN CONWAY.
Registrar of Voters,
Atlin Electoral District.

Anyox Community League Meeting

Continued from page 1.

Finance Committee was the addition of further seating capacity at the ball grounds. The International Service Club at Stewart had guaranteed two hundred dollars for the baseball and football teams to play at Stewart on the 24th of May. Because the Granby Company had transported the boys free of charge charging only board expenses there was a little balance left, and this would be set aside as was money for the same source last year for a celebration at the end of the season. It was suggested that the people of Stewart be thanked for their hospitality on the occasion of the visit to their own town. The matter of thanking the managers of the baseball and football teams for their interest was mentioned, and with this was also included those who did so much to make the field day for the kiddies a success. The matter of the summer camp was referred to and progress reported.

Dr. Harper moved and Mr. Jones seconded a motion that a letter of thanks be sent to the Stewart people who were so good to the players that the managers of the teams be commended on the manner in which their duties had been carried out, and that those who helped with the Empire Day celebration locally should be included.

Mrs. Dwyer told of the great pleasure the children had derived from the field sports on Empire Day. A great many people had also commented on the fine time the children had had. There had been no lack of refreshments, and every child had a full share.

Thr chairman introduced a matter of considerable importance to the Community League and the Mine Club in particular. He pointed out that the members of that organizaiion found it was impossible for the Mine Club to function successfully unless the Club could get control of the commercial facilities at the Mine. The Chairman then asked the Secretary to explain the situation, being more familiar with it. The Secretary briefly outlined this and stated that when the Mine Club was formed there was a tentative understanding that if the Club could organize practically one hundred per cent on the hill the League would have no objections to turning over the activities there as covered by the Pool Room and soft drink stand. This had not been done becanse the Mine Club had not been able to bring about the unity desired. Now, under new officials, the Mine Club felt that if the control of the Pool Room and stand was turned over to their organization, all difficulties in the way would be smoothod out. After some discussion the Council agreed to offer a proposition to the Mine Club, which offers the control of the Pool Room and stand to the Mine Club, provided it was successful in amalgamating all interests at the Mine, and the Secretary was instructed to notify the Mine Club officially to this effect.

Mrs. Dwyer introduced the matter of a kindergarten institute for Anyox, and pointed out the number of children between the ages of four and six who were not taken care of in any scheme of things. Mrs. Cloke spoke on the same lines and would like to see something done along the lines suggested by Mrs. Dwyer. After considerable discussion, it was recommended that the Secretary get all available information possible as to cost, etc. and the Chairman on the suggestion of Mr. Callanan that a committee be appointed, named Mrs. Dwyer, Mrs. Cloke and Mr. Noel to assist the Secretary.

ANYOX NOTES

Union Church Services, Sunday, June 3. Sunday School 11 a.m. Evening Worship, 7.45 p.m. We extend a welcome to you.

Mr. and Mrs. A. Dryden, left for the south on Monday, on a visit to Vancouver.

The secret of good beer lies in purity---

That's why Cascade Beer has for 35 years been British Columbia's favorite health beverage. No expense has been spared to ensure purity. It has cost a million dollars to build a plant to accomplish this. But after testing Cascade Beer, you agree that it has been worth it.

Insist Upon CASCADE
