FIRST VICTORIA DIRECTORY.

PREFATORY REMARKS.

It has been thought by the author of the following work that the present being an age of advancement, the period has fully arrived when our fair town of Victoria is of sufficient importance to deserve that index of commercial progress, a Directory.

A Directory, in the full sense of the word, is a guide to the *streets*, (to the stranger), the *houses* in the streets, and the *occupants* of those houses, whether private individuals or engaged in business pursuits. The trades then follow, in categorical, we should say *alphabetical*, order. Then, to offer additional facilities, is given an alphabetical list of all persons in the good town contained, irrespective of callings, of occupations, and if any or none. In a place of the largest resort, the work might be amplified by adding to this a *Law Directory*, a *Postal Directory*, an *Official Directory*, a *Court Directory*, etc. But it will be understood, at a moment's reflection, that Victoria is very far from reaching this point of importance; and so our views with regard to it must be much more moderate. We must only hope that it will ere long require increased attention in this particular; when the author, assisted by public patronage, will be most happy to do justice to its political and commercial merits.

It will be necessary, then, to remind but very few that Victoria is the largest settlement on this Island of Vancouver.

At a period of less than two years ago, the population of

Victoria numbered but some few hundreds. The inhabitants of the Island consisted of but some twelve to thirty settlers, independently of the Hudson's Bay Company. (*Vide* Mr. James Cooper's testimony in the Blue Book.) A fortunate accident, the discovery of a certain quantity of gold—or shall we say, the fact of gold having been discovered in the country and its surroundings—first called the attention of the world to the small matter of the existence of Vancouver Island.

This discovery took large dimensions. It was bruited abroad that the glories of California and Australia were to be repeated; not only repeated, but "pale their ineffectual fires" before those of the "better land"; that as it had been found in the former country that the yield of gold increased towards the head or upper part of California mountain ranges, so it was fairly presumed that the boundless source of the precious metal was to be found on British ground.

The influence of the "leading journal" mightily propagated the news.

In the home country, men began earnestly to inquire for the shortest route to this new world of wealth; and diligently did they, for the nonce, refer to their maps and geographies, and promptly was the information of the fact of Vancouver *being*, confirmed by business chart sellers and "geographers to the Queen." Then were peaceable inhabitants of Great Britain further surprised by the intelligence that England had made herself another colony—two colonies—Vancouver Island and British Columbia.

We learned that New Caledonia was thenceforth stripped of a portion of its area, in extent about seven hundred miles; namely, all west of the Rocky Mountains, in that hitherto *terra incognita*, British North America, as far as the Pacific Ocean, and running from the boundary of the United States on the South, to Simpson's River and Peace River on the North; that Queen Charlotte's Island was to be part of it. We learned that the Hudson's Bay Company's charter, then shortly to expire, was not to be renewed in the two colonies—in fact, in British Columbia—was to cease, and did cease immediatety on the reading of the Queen's proclamation constituting the colony. This proclamation was read by His Excellency, the

newly appointed Governor, James Douglas, on or about the 23d November of last year.

We had been already informed, in reliable intelligence, that above 35,000 immigrants, from California and elewhere had already arrived, and had produced a most marvelous *state of transition* in the two countries.

On arriving here, *we* found, to our surprise, a *town* of already some little pretensions. Houses had been *built* where before only *intended;* streets were formed, stores filled and goods sold; wharves built for the convenience of landing passengers and goods. The former had sometimes arrived in numbers of 1,800 and 2,000 at a time.

"The Fort" began to be surrounded, and strangers had already to ask their way to it. Victoria, in short, had something the appearance of a reality, small though it was. As time grew on, we were further convinced of the earnestness of its intended career of vitality, by the remarkable pains, whether in charity or not is perhaps a moot question, taken to kill it, and deny its existence and that of the gold country, by patriotic news authors, in whose eyes its progress was undesirable.

It may be thought stepping considerably out of one's path, not as a chronicler of Victoria's history, but simply refreshers of its memory, to enlarge on the thrilling steps necessary to, and taken by, the adventurer, possessed by the "*auri sacra fames.*" The last quotation might lessen our pity; or pity we should, and sympathize with we must, those bold spirits who from far and near, rushed to the social (? solitary) strife, and braved distance, danger, an unknown topography, a treacherous navigation, a subtle and often cruel foe in Indian shape; and all quite as much in search of the wonderful, the unknown, the terrible, as of mere utilitarian *gold;* for it must have been known to the large mass of adventurers that success would not be their guerdon. Then began fatally to tell the ignorance in which the country, by great accident or fortuitous circumstances, had hitherto been shrouded. Who knew that "the Sound was perilous to cross?" Who knew that "a thousand islands" in dread archipelago, surrounded by and playing with a thou-

sand perverse counter-currents, were to be met and passed. That, though spiteful for its size, and rich in wreck *debris*, and gluttonous of human bodies, as was the fell "gulf," there was a "deeper still;" that subtle Fraser river ran swiftly to embrace in death the inexperienced *mariner* (?). That after concealing its entrance to the sea by low, undignified, sedgy borders, as if ashamed of past misdeeds, and doing its all if not to repel the uninitiated, at least to mislead before destroying; (and many and fairy-like are the tales to be told by those who deal in "toils and dangers past," of most abstruse communings with the fickle element in intricate search after the gates of that new gold paradise, and of cruel robberies by unsympathizing Chinooks in the golden dream.) It was still news to the lucky adventurer, who happened to enter this sometime forbidden portal to the happy land, that, before hopeing to tread thereon, he might be overtaken by the unannounced approach of dread winter, which could, on an emergency, alter in a few hours, by draping in snow, the leading features of the scenery; it was news and bitter to the feelings to pursue one's "even tenor" and camp under snow.

Rain, ice, frost, and snow, and river currents of Fraser "rolling rapidly" (when in its glory, untold-of miles per hour), all fraternally combined to receive, in benumbing welcome, the sturdy pioneer. Full well was their sinister work done. Will the roll ever be published of the unnumbered deaths in that fatal stream, on those uninviting shores, threatened by those gloomy cañons?

Enough, we know how many of the hopeful arrivals left us in disgust, from various causes, and the gold fever abated. All this evil arose from a want of available communication by land or water. We know now that the first steps in all new countries are to establish communications, level the steeps, bridge the gaps, cut the forest trail, follow it with the bullock-waggon track; then the metalled road, and finally the railway, follow.

Are there indeed lands which the poor settler may turn to account and supply himself with daily bread? Do not arid rocks, useless trees, and savage animals, in turn, present the features of the country? Then, by all means, let roads be

opened. Are, perhaps, poor settlers daily arriving, anxious, eager to begin the early work? Engage them, then, in the useful toil, government providing tools, covering, wood, and water, and remunerative wages.

When these are satisfied with their meed of labor for the public and their own good, let them be succeeded by others; let the never-failing stream of immigration supply the labor for the ever-to-be-continued work. As each one performs and discontinues his share, let facilities (and for these *facilities* we say, to the *country* and their fellow-subjects at least, are rulers responsible) be afforded for permanent settlement to the willing crowd; let land, at first, be liberally *given away*, and beware of grants for speculative purposes. Land, wild, tenanted only by the bear, the wolf, and the deer, is valueless; but land obtained gratuitously by industrious men, and by them made to produce the "fruits of the earth," is valuable, because turned to its natural and intended use, and enhances the value (*gives* it then, in fact,) of the remainder. Let reserves be kept in all suitable places, and, as population increases, *then* ask—because *then* just—a moderate price for the land.

We say, then, that we await, with hopeful expectation, the forming of roads through the length and the breadth of these colonies. We wish for much of that liberal spirit to be shown which, exercised in profusion, would evince the greatest foresight—the granting gratuitously of land for settlement. Let, at once, information be wide-spread as to the resources of these fertile lands, liberal in their great agricultural resources, not *treeless*, and so inviting lazy toilers (if the expression be allowable), but rich in promise of fertility; lands of many and navigable waters, where drought will ever be unheard-of, available for numerous *Red River* and *Saskewatchan* settlements; resources in fisheries—cod and salmon (to which the Tweed *must*, and Columbia river *does*, yield the palm) in thronging schools; venison here half the price of butchers' meat. Coal, copper, and iron, doubtless, and other minerals abound. Resources in some of the finest timber, of which treeless neighbors are glad to avail themselves. All this without even mentioning the gold, which, without dispute, it contains. Let this knowledge

be widely circulated, let it be known to the scarcely-noticed, hard-struggling workers at home that England possesses, AND EASY OF ACCESS, not "the gem of the Antilles," but in Vancouver Island, the gem of the Pacific; a second self in its position, commercially, for East and West, and geographically in view of the proposed North American Railroad from Canada. In climate, superior to England; no *easterly winds*, and but few *fogs* here, while it is well known that the Pacific side of the continent, in common with western Europe, is far superior to the east Atlantic slope. And, when this information is thus afforded, let these colonies, with unstinted hand, give free passages to the crowds there palpitating to come to us, on strict and independent condition of returning the amount at an early date to pay for others.

Let us now descend to facts. A number of wharves have been constructed this past season; a new timber bridge across the James Bay has been built, giving access to the newly-erected government offices for public lands and the Government House, all in brick and of an ornamental character; streets leading to the bridge have been new graded; several of the leading streets have been metalled over, and are passable at all times. A temporary want of funds alone prevents more being done in this way, as also the completion of two embankments (in lieu of bridges) in a ravine severing two of our streets. Wooden buildings have ceased to be the order of the day, thus diminishing the constant dread of fire. We note the establishment of an agency of an underwriters' association. We have been fortunate in hitherto escaping with but one single disaster in this shape. This latter had one beneficial effect. Some public-spirited citizens taking the lead, a hook and ladder company has been organized, and subscriptions, to a considerable amount, made to defray the necessary outlay of building, hook and ladder, engine, etc., and a sum set apart for the erection. Plans and specifications have been intrusted to an able architect and contracts have been made at this writing, so that we trust soon to number this useful public safeguard among our institutions. We have a police barracks (which important building holds also the Supreme Court and the Police Court), an extensive warehouse (a large bookstore and dwelling) of two

stories, at least two hotels of considerable dimensions, and several houses, all erected in brickwork with stone fronts and some pretensions. The Hudson's Bay Company are at this moment erecting a warehouse, of portentous dimensions, of stone, which they take the trouble to import from a distance not exceeding forty miles; and a new bank, the "Bank of British North America," still further emulous of fame, has also, in the same spirited style, built itself an architectural home of rubble-stone faced with squared granite masonry.

We speak within bounds when we assert that from twenty to thirty buildings (some of great pretensions) are in progress at this moment in the very heart of the town and its most valuable sites. An unprecedented quantity of lumber is being worked up, and the streets present a most animated appearance. Would we could speak so favorably of the state of the roads and ways and the prospects of the pedestrians.

Great demands are made for a public hall for meeting and the want of a theatre is felt. The town is by degrees assuming, in its buildings, a staid, substantial appearance. If there is no rapid advance there is no retrogression here. The last few months have seen an increase in our *legal* defenders, and the arrival of an Attorney-General for British Columbia. We were long ago thought of sufficient importance to be worthy of a Lieutenant-Governor for British Columbia and a corps of sappers and miners. We have one establishment supplying books of a varied and valuable character, news depots and reading-rooms. For the latter we are indebted to the Young Men's Christian Association.

We have seen, by an effort in the right direction, large tracts of land (20,000 acres) in the neighborhood of Victoria, put up for sale by public auction at the upset price of $1 per acre, and again at Nanaimo. It is with much pleasure that we can, in this reading, report one further fact. Through a slight relaxation, by His Excellency, of the usual conditions of occupying land in this colony, a number of settlers have been enabled to take up pre-emption claims of 200 acres each, on the lands of Chemainus and Salt Spring Island, about forty miles from Victoria. The number of settlers we believe to be fifty and about 100, respectively. This brings us to name the new Fran-

chise Bill, certainly a boon to the community; we mean a slight advance on previous matters, and perhaps deserves better than to be, as it were, dismissed in parenthesis. One of the clauses in the bill gives the privilege of one member in the New House of Assembly to represent the settlement just named.

From British Columbia we have to note large sales at successful amounts, in the township of New Langley and the future capital, New Westminster. In this latter town we have a Treasury and Custom House already erected; a considerable sum has been set apart for grading the streets. In the Colony in general several trails have been brought to a successful issue, and are now in progress (among the former one of twenty-five miles, from Fort Hope to Boston Bar)—which we accept as earnests of more in future.

British Columbia can now boast of several townships of promise—New Westminster, Forts Langley, Hope, Yale, and Douglas; Lytton City, at the extremity of a beautiful fresh water lake of an irregular shape, about forty miles long and an average width of four miles; soundings have been found at ten fathoms. All duties of a varying value, leviable in British Columbia, to be paid at New Westminster.

British Columbia has a Lieutenant-Governor, a Chief Justice, an Attorney-General, District Justices, etc. The Fraser River, as high as the capital—nineteen miles up—is navigable for ocean steamers, which will, no doubt, show themselves frequently when the "Sound" channel shall be properly buoyed out. The ordinary river steamers proceed as far as Hope, seventy miles from the mouth. Successful efforts have been made (but discontinued) to proceed as far as Yale, fifteen miles higher up.

The upset price of land in British Columbia is ten shillings, or two dollars and a half per acre. Some thousands of acres (if we have been correctly informed as to all the facts) in the immediate neighborhood of New Westminster, can now be purchased for $1 25 per acre.

Our gold exports present a flattering figure. In justice to the country, we are bound to say that, so far as the river diggings are concerned, the time for divesting them of their valuable deposits is very limited in extent. Like all rivers sub-

ject to freshets, and dependent for the great supply of its waters on the winter snows, Fraser River is, in the season of the greatest heats, subject to considerable periodical and at times sudden increase of its waters, by the melting of the snows on its mountain-tops. During all the growth (rise) of the river its banks are of course unworkable. The miners who find their pay, for the most part, on these banks, or on bars as they are termed (aggregations of boulders, sand, and gravel, situated in the bed and, for the most part, in the *bends* of the river), are of course driven off during this period. But from, say September till the frosts set in (perhaps November, as last year), a period of two months, and at intervals during the course of winter, the *claims* are workable; the river is then low, and keeps falling; all the snows for the season have contributed their waters, and these have run off.

Again, at the close of the severest weather, and before the snows have yet had inducements to melt, another short season offers for the persevering gold miner—say from February till the middle of April, *two months more.* Thus, so far as the *river diggings are concerned*, the avilable time for *working* is reduced to about *four months*, with the exception of *days* here and there (in two periods), *before and after the snow thaws*, and not *nine months* in the year, as originally set out by parties interested in trumpeting forth the gold yield! We speak from experience, and defy contradiction.

But, why should a great country, if depending at all on its gold yield, feel itself discouraged or brow-beaten by outsiders at the difficulty surrounding its river washings? These should, in a sound order of things, be considered as extras to the usual bountiful provision of Nature in such matters. What should be looked for, and what, it will be remembered, we spoke of at the outset, is "hill diggings," deep sinkings. With respect to these, it may be taken as something very much approaching *absolute truth*, from the great, in many instances (with the then means), *insuperable* obstacles in the former part enumerated—want of communications, want of transport for provisions, hence famine prices—*the country has not been hitherto properly explored* (*prospected*). It is not when provisions are from fifty cents to one dollar per pound that men can *stay in a spot suffi-*

ciently long (even if, with the formidable physical obstacles presented by the country, a sufficient number can reach it) to *report credibly on its resources.*

We here dismiss this subject, important as it is to outsiders, and proceed to the dry region of figures.

In trades and professions Victoria possesses seven butchers or meat salesmen, several fish and vegetable dealers, ten bakers, thirteen dry or fancy goods stores, six tailors, thirteen commission merchants, three chemists and druggists, three architects, one ambrotypist, eight or ten carpenters or contractors, twenty grocers and provision dealers, four hair-cutting saloons, three dress-makers, about twenty-five hotels, inns, saloons, and restaurants, six surveyors, three watchmakers, four lumber dealers, eight or nine medical practitioners of different classes, ten legal professors, of which four are barristers at law, two banks, four blacksmiths, machinists, and shipsmiths, three express offices, three newspapers (tri-weekly), seven auctioneers and estate agents, seven dealers in tin and hardware, three wholesale liquor dealers, six cigar and fruit dealers, two ship-brokers, one patent roofing dealer, four lodging-houses, one tanner, one underwriter, one crockery and glass dealer, one fur-dresser, two seed dealers, two breweries, five milk-sellers, two saddlers, eight wharves.

With regard to religion and education, we have one Episcopalian Church, one Roman Catholic Church, one Wesleyan Mission, one Congregational Mission, one Nunnery—Sisters of St. Ann—also school for females, one school under the auspices of the Roman Catholic Bishop, one Private Educational Institute, both sexes, E. Mallandaine, late J. Silversmith; one Young Ladies' Seminary.

We call attention to our Official Directory, of which the list has been furnished direct from the office of the Colonial Secretary.

We have an hospital, started originally by the Rev. E. Cridge, of Christ Church, and now sadly overburdened with debt, and several benevolent societies.

A Masonic Lodge is in course of formation; the charter had

already arrived but has been returned to England for correction. An Odd Fellows' Association has been in existence for one year.

We have a Ladies' Benevolent Society, under the presidency of Mrs. Col. Moody. A First Hebrew Victoria Benevolent Society has been in existence some six months.

The Philharmonic Society of Victoria, under the conduct of John Bayley, Esq., is among one of its oldest institutions, and numbers in its ranks many of its celebrities, and of British Columbia.

The ports of Victoria and Esquimault receive ten river and sea-going steamers to supply the requirements of their increasing trade. Of these six are the property of the Colony, three of the Hudson's Bay Company, and two built in Victoria by navigation companies; two ocean steamers (one British).

We carry on a lucrative trade in lumber, flour and fruits with the ports on the Sound, and have bi-monthly communication with the Atlantic States and the home government.

To finish, we have in Victoria a FREE PORT. This immense advantage, coupled with its commanding situation for an Eastern, an Indian, an Australian, and a California trade, with the best available harbor in this portion of the Pacific, backed by its unrivalled physical resources yet undeveloped, its position opposite the terminus of the North American and Pacific Railroad (which will shortly be an undoubted fact), placing it in the highway of travel for English wealth and enterprise, will, no doubt, ere long, place it in that prominent position we must all wish for it.

In conclusion, we have but to place our work, in its present state, in the hands of an indulgent public, appealing with confidence to their support, in return for which corresponding efforts will be made to place before them, at a future period, a work more worthy of them and our town.

It is in present contemplation to amend and republish this work twelve-monthly, or six-monthly if desirable. The wishes and patronage of the public will be our guide. The publishing of the present work, small as it is, has not been unattended

with expense, and for any *remuneration*, we are candid in stating, we look forward to a second issue, when other resources of mutual advantage to ourselves and the public (of which the latter, we trust, will not be slow to avail themselves) will no doubt compensate the author, who will take as a favor the being informed of any errors or omissions whatsoever in names, descriptions, or residences.

E. MALLANDAINE.

SELECT SCHOOL.

BROAD STREET, VICTORIA.

E. MALLANDAINE, ARCHITECT,

Of over three years' experience in tuition, son of the late Colonel John Mallandaine, H. E. I. C., takes the opportunity of informing Parents and Guardians and the general residents of Victoria, British Columbia and California, that he has purchased the interest of the above School of Mr. J. Silversmith. In assuming the sole direction, and while calling attention to the great advantage of his central situation, Mr. E. M. would state that it is his intention to receive, as usual, children of both sexes—and instruct in all the elementary branches of an English education ; the girls, in addition, being taught Plain Needle-Work, by a competent teacher whose attendance E. M. has secured.

More advanced pupils will be instructed in regular courses of Penmanship, Declamation, Arithmetic, French, English and French Composition and Grammar, in the Elements of Euclid, Natural Philosophy, Chemistry and Astronomy.

Private lessons in any of the above ; also in drawing, Mensuration, Elementary Algebra, and the principles of Architecture and Design. For terms and other particulars see Prospectus, which may be had on application to E. MALLANDAINE.

N. B.—Evening School also, from 4 till 7 P. M., and 8 1-2 till 10, for the convenience of adults, or children engaged during the day.

MM. les Français sont invités a faire un cours d'Anglais le soir, ou a envoyer a l'école leurs enfants, a qui l'on apprendra en outre, la Gramaire et l'Histoire Françaises.

PRE-EMPTION ACT

FOR THE COLONY OF BRITISH COLUMBIA.

PROCLAMATION.

I.—That after date hereof, British subjects and aliens who shall take the oath of allegiance, may acquire unoccupied, unreserved and unsurveyed Crown land in British Columbia, (not being the site of an existent or proposed town, or land available for mining purposes, or an Indian reserve or settlement,) in fee simple, under the following conditions:

II.—Prëemptor shall take possession of and record his claim, not exceeding 160 acres, with magistrate residing nearest thereto, paying therefor eight shillings. Claim shall be of rectangular form, and shortest side two thirds of longest side. Claimant to give best possible description to recording magistrate, together with a rough plan of claim, and to identify claim by placing at the corners four posts, and stating in said description any other landmarks he may consider noticeable.

III.—Whenever Government survey shall extend to land claimed, said claimant, or his heirs, or in case of grant of certificate hereinafter mentioned, the assignees of such claimant, shall, if he or they shall have been in continuous occupation of said claim from date of the record, be entitled to purchase said claim at rate then fixed by the Government, not exceeding ten shillings per acre.

IV.—No interest in any claim before payment of the purchase money, saleable, unless vendor shall have obtained cer-

tificate from nearest magistrate that he has made permanent improvements on said claim to the value of ten shillings per acre.

V.—Upon payment of purchase money, purchaser to receive a conveyance, in which precious metals will be reserved, with a right to enter and work the same, in favor of the Crown, its assigns and licenses.

VI.—Preëmptor, who shall first record his claim, to have priority of title.

VII.—Any person herein authorized to acquire land may purchase, in addition to land preëmpted, any number of acres not otherwise appropriated at Government rate, not exceeding ten shillings per acre: five shillings paid down, and rest at time of survey.

VIII.—If Crown, its assigns or licenses, enter under section five, and commit waste, a reasonable compensation to be paid therefor: if a dispute arise as to compensation, to be settled by six jurors summoned by nearest magistrate.

IX.—If a preëmptor permanently cease to occupy land claimed, nearest magistrate, on being satisfied of such permanent cessation, may cancel preëmptor's claim, and record claim of any other person satisfying the requisitions.

X.—Appeal from magistrate to the Supreme Court of Civil Justice of British Columbia.

XI.—Security to be given on such appeal according to rules and orders to be hereafter published.

XII.—The procedure before magistrate and said judge shall be according to rules and orders made by such judge.

XIII.—Wherever preëmptor, his heirs or assigns, shall have continued in permanent occupation of land preëmpted or purchased as aforesaid, he or they may bring ejectment, or trespass against any intruder upon the land so preëmpted, or purchased, to the same extent as if possessed of legal title.

XIV.—No claimant to exclude free miuers from mining.

XV.—Government entitled to take any preëmpted land for roads, etc.

XVI.—Water privileges, and the right of carrying water, granted to free miners on obtaining a certificate from Gold Commisioner, and paying a compensation for waste or damage to

the person whose land may be wasted, or damaged by such water privilege, or carriage of water.

XVII.—The nearest magistrate empowered to decide, in a summary way, disputes that may arise under this Act.

ISSUED under the Public Seal of the said Colony, at Victoria, Vancouver Island, this fourth day of January, 1860, in the Twenty-third year of Her Majesty's reign, by me,

JAMES DOUGLAS.

By Command of His Excellency.

WILLIAM A. C. YOUNG,
Acting Colonial Secretary.

GOD SAVE THE QUEEN.

PROCLAMATION

AS TO

BENCH DIGGINGS IN BRITISH COLUMBIA.

I.—Bench diggings excepted out of the class of dry diggings as defined in the Rules of 7th September, 1859.

II.—Claims in bench diggings shall be as follows: One hundred feet square, or else a strip of land 25 feet deep at the edge of the cliff next the river, and bounded by two straight lines carried as nearly as possible in each case perpendicular to the general direction of such cliff across the level bench up to, and not beyond the foot of the descent in the rear; and in such last mentioned case, the space included between two such boundary lines, when produced over the face of the cliff in front as far as the foot of such cliff—and no farther,—and all mines in the space so included, shall also form a part of such claim.

III.—Gold Commissioner shall have authority to mark claims so as to include an adequate claim, and decide upon cliffs which in his opinion form the natural boundaries of benches.

IV.—The Gold Commissioner may, in any mine of any denomination where the pay dirt is thin, or claims in small demand, or where he shall deem it reasonable, allow a free miner to register two claims in his own name, and allow such period as he may think proper for non-working either one of such claims. Not more than two claims of the legal size allowed. A discoverer's claim shall be reckoned as one ordinary claim.

V.—All claims shall be subject to the public rights of way and water. No mine shall be worked within 10 feet of any road, unless by the previous consent of the Gold Commissioner.

VI.—Rules to ascertain the quantity of water in any ditch or sluice. The water taken *into a* ditch shall be measured at the ditch head. No water shall be taken into a ditch except in a trough, whose top and floor shall be horizontal planes, and sides parallel, vertical planes,—such trough to be continued for six times its breadth, in a horizontal direction, from the point in which the water enters the trough. The top of the trough to be not more than 7 inches, and the bottom of the trough not more than 17 inches below the surface of the water in the res ervoir—all measurements being taken inside the trough, and in the low water, or dry season. The area of a vertical transverse section of the trough shall be considered as the measure of the quantity of water taken by the ditch.

The same mode of measurement to ascertain the quantity of water running in a trough or out of any ditch.

ISSUED under the Public Seal of the Colony of British Columbia, at Victoria, Vancouver Island, this sixth day of January, 1860, and in the Twenty-third year of Her Majesty's Reign, by me,

JAMES DOUGLAS.

By His Excellency's Command.

WILLIAM A. C. YOUNG,

Acting Colonial Secretary.

MR. PIERCE, recently of J. & O. S. Pierce, of San Francisco, now residing there, will give his attention to the filling of Special Orders for any style of Furniture, thereby saving time, trouble and expense to parties Here.

PULU! PULU!

Of this particular material for bedding, we always have an ample stock on hand, which we offer, either by the bale or in bedding, at steady prices. It is universally considered to be equal to eathers, and better than curled hair, for this climate, at half the price of either.

Our arrangements are such, for the sole importation of it, direct from the Sandwich Islands, that we are enabled to sell it lower than it can be had elsewhere.

Straw Mattresses Wholesale and Retail.
Curled Hair and Moss Mattresses made to order.

JOHN SCRANTON, AGENT.

ENCOURAGE HOME MANUFACTURE.

The undersigned beg leave to inform the public that we are

MANUFACTURING CIGARS

FROM THE FINEST

HAVANA TOBACCO,

WHICH WE IMPORT FROM FIRST HANDS.

☞ We intend these CIGARS to supply the place of the Imported article, and assure the public that they are as good; for it is the Tobacco which makes a Cigar good or bad, and not the place where it is manufactured.

Having increased our manfacturing facilities, and made such arrangements by which we receive a constant supply of the very BEST HAVANA TOBACCO, and as none but first class workmen are employed by us, we can safely assert that we are now prepared to furnish our patrons and the public generally with as good Cigars as the importers, and 50 per cent. cheaper!

☞ We were awarded Diplomas for 1857-8 from the Mechanics' Institute, San Francisco, and a Silver Medal from the State Fair at Marysville, and First Premium at the State Fair at Sacramento, 1859, for the best Manufactured Cigars from Havana Tobacco.

SHAEFFER & SUTLIFF,

PRACTICAL CIGAR MAKERS,

Also, BRANCH STORE—198 Kearny Street, SAN FRANCISCO.

☞ LEAF TOBACCO constantly on hand. Orders from the Country promptly atttended to.

TO MERCHANTS,

AND CONSUMERS OF

SAWS & FILES.

The Undersigned, having been appointed Sole Agent for the Pacific Coast, for the sale of R. HOE & CO'S Superior Cast Steel, Circular, Mill, Pit, Cross-cut, Web and other Saws, so well known throughout the United States, the equality and tenacity of temper which they possess, has given them that celebrity to which they are so justly entitled.

The undersigned will keep a stock in San Francisco to supply the demands of the market, **best Files of any description and quality.**

All orders will have prompt attention.

Orders received for any peculiar form or size will be forwarded to R. Hoe & Co. New York, for execution,

In connection we have a competent workman from R. Hoe & Co. to attend to all necessary repairs and alterations that may be required, which will be done at greatly reduced prices.

SAN FRANCISCO DEPARTMENT.

OUR COMMERCE WITH CALIFORNIA.

We need scarcely remark that a brisk trade connection between these colonies and California has been kept up since the last couple of years. Some of the first houses of San Francisco have branch establishments in Victoria. The steamers which *ply regularly every week* between San Francisco and Puget Sound are always well freighted, besides other lines of sailing crafts, carrying merchandise and produce of every known description. In the Preface to this work are enumerated the resources which this north-western continent furnishes as a return for goods and wares shipped. California is now, and ever will be, the only reliable mart from which these colonies can be supplied with the necessaries and commodities. Its extensive commercial connections with the Atlantic States and Europe, have placed San Francisco beyond competition on the Pacific coast. Already the spirit for home manufactures are being carried on, and where is there a city among the known civilized nations, that has built itself up within the remarkable short space of ten years—a State like California, or a City like San Francisco—and every art, science, and profession, liberally patronized?

Although the early Frazer river excitement threatened to engulf California, and strip it of its world-renowned gold glories; but happily the tide of commerce turned in its favor, and we are informed that, more or less, every business house has felt its beneficial effects.

We would say to the merchants of San Francisco, that these colonies are also on the march of progress, that business is being carried on with system and reliability.

The legal institutions of these colonies are such, that it leaves few chances for defrauding creditors. There is, and always has been, from the earliest moment of Frazer River excitements, more confidence, between business men, than has been the case with California. We have yet to record any heavy failures by which men have lost their all.

The business community of California must see that Victoria of Vancouver's Island, British Columbia, and Washington Territory, United States, are valuable trade acquisitions to California; their mineral, agricultural and other resources place them among the first colonies on this continent. Victoria is a pleasantly located city of several thousand inhabitants, on Victoria Harbor, and a FREE PORT; is the principal mart for all the Puget Sound towns and villages, of which there are quite a number, besides having a naval station at Esquimalt of five or six men-of-war. Several steamers leave almost daily for New Westminster, British Columbia, besides the steam and ship lines of California, England and Australia, which are by no means inconsiderable.

PACIFIC CLINICAL INFIRMARY—*Surgeon*, PROFESSOR COOPER.—We beg to call the attention of the public to the gentleman above mentioned, Doctor Cooper, of San Francisco, the celebrated Physician and Surgeon. We have had the pleasure of a most intimate acquaintance with this gentleman for a number of years, and therefore are enabled to speak from a personal knowledge of his professional merits.

A number of years ago, the Doctor laid the foundation of a Medical Institute, to be conducted on a thorough and systematic plan, to possess every requisite for the convenience and comfort of patients, and advice and prescriptions of the very highest order. The exertion was crowned with the most complete success, and from a humble origin, the "*Pacific Clinical Infirmary Institute*," of San Francisco, is at this time, widely as well as deservedly celebrated.

The cures which this gentleman has performed, are some of

the most difficult in the practice of medical surgery, and have been deemed almost miraculous.

If the testimony of hundreds, who have been signally benefitted at his hands were of any avail, we could publish several from persons of the highest position in society and of the most unimpeachable veracity, but our limits forbid. And when we mention that this gentleman, Dr. Cooper, is one of the principal members and directors of the Pacific Medical University, we feel assured that this fact alone, must convince the minds of the most prejudiced that what we have stated can be received with the most implicit confidence.

The Cooper Institute is pleasantly located on Mission Street, and should there be any who, through misfortune or otherwise should apply for medical advice and treatment in San Francisco, we cordially recommend them to Dr. Cooper, as a physician in whom they can place the utmost confidence.

We hereby append the REGULAR STEAMSHIP LINES of PACIFIC MAIL STEAMSHIP COMPANY, and CALIFORNIA STEAM NAVIGATION COMPANY. Both these lines have been established in the earliest infancy of California's existence, and require little comment from us as a recommendation.

PACIFIC MAIL STEAMSHIP COMPANY, FOR NEW YORK AND NEW ORLEANS DIRECT, via PANAMA RAILROAD—connecting with the Steamers of the United States Mail Steamship Company at Aspinwall.

Regular steam communication for GARDNER CITY, (Umpqua River,) EUREKA, (Humboldt Bay,) CRESCENT CITY, and PORT ORFORD, leaving immediately after the arrival of the Atlantic Mails.

Also, for PORTLAND, (Oregon,) PORT TOWNSEND, OLYMPIA, WHATCOM, W. T., and VICTORIA, V. I.

FORBES & BABCOCK, Agents, corner Sacramento and Leidesdorff Streets.

CALIFORNIA STEAM NAVIGATION COMPANY.—Organized March 1, 1854; Capital Stock, $2,500,000; Capt. James Whitney, Jr., President; Richard M. Jessup, Esq., Secretary. DEPARTURES FROM JACKSON STREET WHARF, CAR-

RYING THE UNITED STATES MAILS. Steamers, *New World*, *Antelope*, *Helen Hensley*, *J. Bragdon*, and *Cornelia*. One of which steamers leaves daily at four o'clock, P. M., (Sundays excepted,) for Sacramento and Stockton, connecting with light draft steamers for Marysville, Colusa, and Red Bluff.

NORTHERN AND SOUTHERN LINES.—Steamship *Brother Jonathan*, 1360 tons, Geo. W. Staples, Commander; Steamer *Pacific*, 1003 tons, C. P. Patterson, Commander; running to Crescent City, Portland, (Oregon,) and Victoria, (V. I.) Steamship *Senator*, Thos. W. Seeley, Commander, running regularly to San Luis Obispo, Santa Barbara, San Pedro, (Los Angeles,) and San Diego.

For particulars, apply at their office, corner Jackson and Front Streets, San Francisco. Capt. J. Whitney, Jr., President.

Messrs. B. T. CHASE & CO.'S STEAM SAW MILLS, corner of Market and Beale Street, San Francisco, California.

The author of this work, being desirous of recommending some extensive establishment where many branches of mechanism and industry are carried on, and which professions are not yet introduced into our Colonies, where orders and work are manufactured and promptly filled and at moderate prices, having had a cursory view of the following departments of these premises, we respectfully recommend the succeeding named occupants:

Messrs. March Bros. & Co. will attend to all orders of merchants and others who are shipping merchandise to these Colonies, of all kinds of Boxes, acccording to any given size or measure, at moderate prices and at the shortest notice.

Mr. S. Robb carries on a Steam Sawing and Turning establishment. Builders, contractors, architects, and others, can have their work executed with dispatch, in all its forms and shapes, at reduced prices.

Mr. H. C. Hudson manufactures a pure article of the celebrated California Mustard, too well known on this continent to require comments; put up in cases of all sizes, to suit purchasers, and at remarkably low prices.

Brewers, liquor and spirit dealers and others will find, at the above premises, Mr. F. Graciere, manufacturing Bungs of every description for casks, barrels, pipes, etc. We recommend his establishment to the public.

John Mallon & Co., Glass Cutters. This gentleman has recently introduced his branch of Glass Cutting, heretofore unknown on the Pacific coast. We have seen some of the most beautiful specimens of artistic embellishments on glass we ever beheld. Those building, or others requiring such work, will do well to direct their orders forthwith to him; he will execute them with dispatch and promptitude.

In all, these establishments are the most complete on this continent. All branches of manufactures are principally provided with steam and the most approved modern machinery, by which labor is reduced, hence the exceedingly low prices they demand for work or goods. This establishment cannot be superceded, in any of its appointments, on this coast.

MESSRS. EELLS & CO.—A most superb collection of Carriages, Buggies, Wagons, and Sulkies, is found in their immense warehouse, Front Street, corner of Pine, made of the best material and highly finished in the most modern patterns. Orders sent to them from these colonies will meet with prompt fulfillment.

☞ The commercial community of these colonies will be glad to perceive that Messrs. McLane & Fowler, agents for the principal Insurance Institutions of the U. S., will take risks and issue policies for Marine Insurance, at a moderate per centage. We recommend them.

MR. J. R. SIMS, Oregon Street, below Front, carries on an extensive establishment for the manufacture of Iron Shutters, Doors, Railings, Vaults, Safes, etc. He has furnished the most prominent new buildings of Victoria and elsewhere with his superior work. Builders, architects, and contractors will find in Mr. Sims and his establishment, just the one who will faithfully and at short notice execute any orders or commissions, and at moderate charges.

MR. J. J. LECOUNT, whose advertisement appears on the back cover of this work, has the largest and most complete stock of Books, Papers, Materials, Charts, Globes, Fancy Articles, etc., on the Pacific coast. He is favorably known for being a strict business man, and the most moderate in his terms. He solicits orders from the trade, and we heartily recommend him.

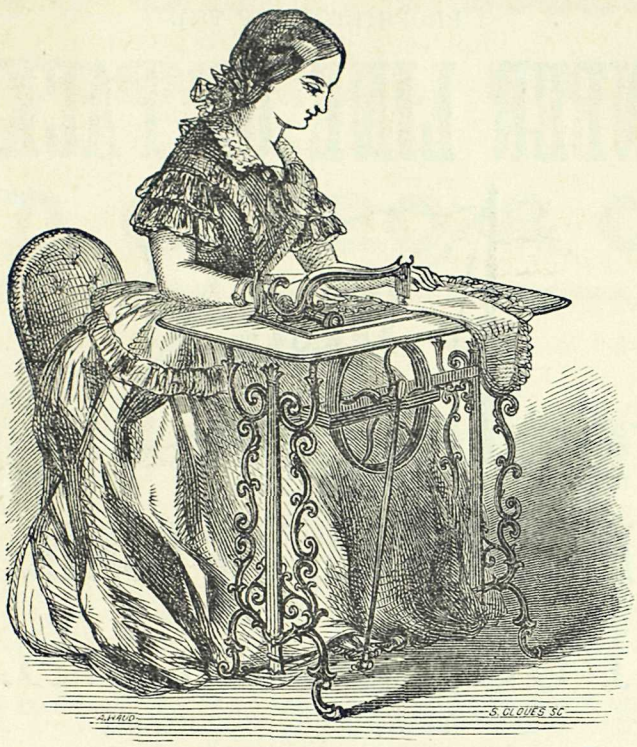
SILVERWARE MANUFACTORY.—We call attention to the advertisement elsewhere of Mr. W. K. Vanderslice. This gentleman has recently established himself on Washington Street, San Francisco, where he has exhibited to us, and manufactured by him of pure coin, some of the finest and most *recherché* specimens of mechanical art we ever beheld; pitchers, waiters, cups, spoons, knives and forks, and an endless number of other utensils. Jewelers and dealers generally, should bear this in mind that they need not send to New York for articles in his line, but should send their orders direct to him; his terms are very reasonable.

MESSRS. RASCHE & SON, Dealers in *Musical Instruments, Sheet Music, Strings, etc.* This house can fill any orders at the lowest market rates. We are under many obligations to Mr. Henry Rasche, the author of the newly written operetta, entitled the "*New Year among the Young Folk*," for an invitation to the first performance thereof. It is replete with beautiful choruses, ballads, duetts, etc., neatly arranged for piano and string instruments, and reflects great credit upon this most promising young author.

GROVER & BAKER'S SEWING MACHINES.—This world-renowned and pioneer Sewing Machine Establishment, have on hand machines which for speed, beauty, and compactness, cannot be superceded; over 35,000 are now in use. The many improvements which this firm have effected, place their machine far beyond all others. We are under obligation to Mrs. Rogers, who has kindly exhibited to us specimens of workmanship executed by these machines, also the "*modus operandi*" for working them. The simplicity, the great desideratum of labor, certainly entitle Messrs. Grover & Baker, to the greatest fame. No family should be without one.

GROVER & BAKER'S

Celebrated SEWING MACHINES



For Manufacturing and Family Use.

IMPROVED PATTERNS.

Prices from $75 to $150.

They Hem, Fell, Gather, and Embroider,

Sew from common spools of silk, cotton or thread—are extremely simple, make very little noise, run very fast, and will sew any fabric, from the finest muslin to heaviest cloth. A child can become an adept in their use in a short time, from the explicit directions accompanying each machine.

OVER 35,000 NOW IN USE!

The qualities of our manufacturing machines are too well-known to require comment. For Dress-Making, Cloak-Making, Bag-Making, Tailors, etc., they are unequalled.

TWENTY DIFFERENT PATTERNS.

Send for a circular of Styles, Prices, etc.

Orders by mail also promptly attended to. A liberal discount will be made to the trade. Particular attention given to the careful packing of Seeds for shipment. Your early orders are solicited, which shall have immediate and faithful attention.

S. W. MOORE,
Seed Warehouse, 110 California Street,

☞ Boxes of Seeds containing 100 papers for retailing, in such assortments as desired, will be furnished.

W. B. SMITH, Agent, Victoria.

BUSINESS NOTICES.

UNION IRON WORKS.—Mr. Peter Donahue, the proprietor, commenced operations in 1849. These works are the most extensive in the city, covering an area of seven full sized water lots. The buildings are of the most substantial kind, all of brick; consisting of foundry, 50 by 60 feet; one machine shop is 40 by 80 feet, and four stories high; one machine shop, blacksmiths' and boiler shop has just been completed, 46 by 160 feet. Within these buildings are the best tools to be found in the State, consisting of Wentworth's massive drilling and slotting machines, compound planers, one of Z. Coffin's superior lathes, which swings eight feet, and with the pit lathe can turn a pully 22 feet diameter; the length of the lathe is 30 feet. One of Nasmyth's steam hammers is situated in the center of the smith's shop. In addition to the tools enumerated above, are lathes, planers, drills and a large riveting machine. The first castings made in this State was at this foundry. The contract for the boilers and engines of the new side wheel steamer Saginaw was awarded by the Hon. Secretary of the Navy to Mr. Donahue, being the first contract for a government steamer on the Pacific coast.

MR. S. W. MOORE, whose advertisement will be found elsewhere, we are informed, has the largest and most complete assortment of every known Seed. Our agriculturists and others can send their orders direct to his agent at Victoria. This establishment is most popularly known in California for its promptitude, and in filling orders or commissions at the cheapest rates, and of the freshest and best qualities of Seeds.

NATHANIEL GRAY, Esq.—Bodies sent for interment to this gentleman, who carries on the oldest and most reliable establishment as Undertaker, will meet with the promptest execution. He is also part owner of "*Lone Mountain Cemetery.*" (For terms read his card.) He has such arrangements that he can ship bodies to the Atlantic States and Europe, for interment. His terms are the most reasonable.

MESSRS. COFFEY & RISDON.—We take this occasion to refer to their extensive Boiler Manufactory on Market Street. These gentlemen are celebrated on this coast, for making the best Boilers. Owners of steamers, or those running engines, will find it to their advantage to consult Messrs. C. & R. for a Boiler, which, for safety, fuel-saving and compactness, cannot be superceded; and at moderately cheap rates.

SAFE MANUFACTORY—MESSRS. AUBERLEN & CO. —We heartily recommend this extensive establishment to our citizens. They make the best improved Safes—burglar and fire-proof—on the Pacific. We refer to their advertisement in this work for particulars.

PIONEER LINE OF PACKETS—MESSRS. DEWAR & GEHRICKE.—The commercial community are no doubt aware that this line is the oldest and most extensive one, and whose Packets leave almost weekly, at reduced rates of Freight or Passage. Messrs. Dewar & Gehricke charter none but first-class vessels. Those shipping Goods and Merchandise will do well to send through them.

CALIFORNIA PIONEER BROOM MANUFACTORY. —Elsewhere will be found the advertisement of Messrs. C. W. & G. W. Armes, who have the most extensive Broom Manufactory on the Pacific coast. About one hundred thousand Brooms were manufactured by them during the past year, all of which were exported to the north-western coast, Mexico, Sandwich Islands, and principally California. We recommend this establishment to our merchants and traders in these Colonies. Send them your orders direct, and they will be promptly and faithfully executed.

MESSRS. CONRO & CO., formerly proprietors of the Golden Gate Mills, are the only and sole manufacturers of the well known brand of "*Fowler's Patent Self-Rising Flour.*" They keep constantly a full assortment of Gallego, Haxall, Eastern and Domestic Flour, at their immense storehouses, at current market rates. Send your orders direct to them, 86 Front Street.

M. E. HUGHES, Esq., is the agent for the world-renowned M. Phelan's Patent Model Billiard Table, 182 Montgomery Street, we need scarcely remark that those who wish to purchase Billiard Tables, will look in vain for a better, cheaper, or finer article than "*Phelan's Patent.*"

Messrs. SHAFTERS, PARK & HEYDENFELDT, Attorneys and Counselors at Law, offices 10, 11, 12 and 13, Montgomery Block, San Francisco. There are few legal firms on this coast which possess greater legal acquirements than the gentlemen who head this paragraph. Judge Heydenfeldt held for several years the position of Supreme Judge of California. They are also Proctors in Admiralty.

Mr. BERNHEIM, on Clay Street, keeps on hand, and manufactures Confectionery, Candies, Sugars, etc., at the cheapest rates, of the best quality, and at the shortest notice. He fills orders entrusted to him promptly.

Messrs. HAYES & PRITCHARD, keep on hand, and manufacture to order, Monuments, Grave Stones and Slabs, of every kind and shape. They are extremely moderate in their prices, fill orders promptly, and do their work in the most artistic manner.

Mr. BELL, Assayer, California Street, near Wells, Fargo & Co., renders returns of deposits of gold at the shortest notice. We need not comment on this establishment, but refer our readers to his references, elsewhere in this work, which we know to be the very best recommendation.

Messrs. PIOCHE & BAYERQUE, draw and issue Drafts in sums to suit the convenience of all, on the principal commercial and banking houses in Europe, Atlantic States and the Western Continent. They also effect Loans, buy and sell Real Estate, etc.

☞ Owners and Masters of vessels should send their orders for Sails and Tarpaulins to Messrs. Harding & Linekin, whose card appears in this work. We can recommend them for furnishing good work at cheap rates.

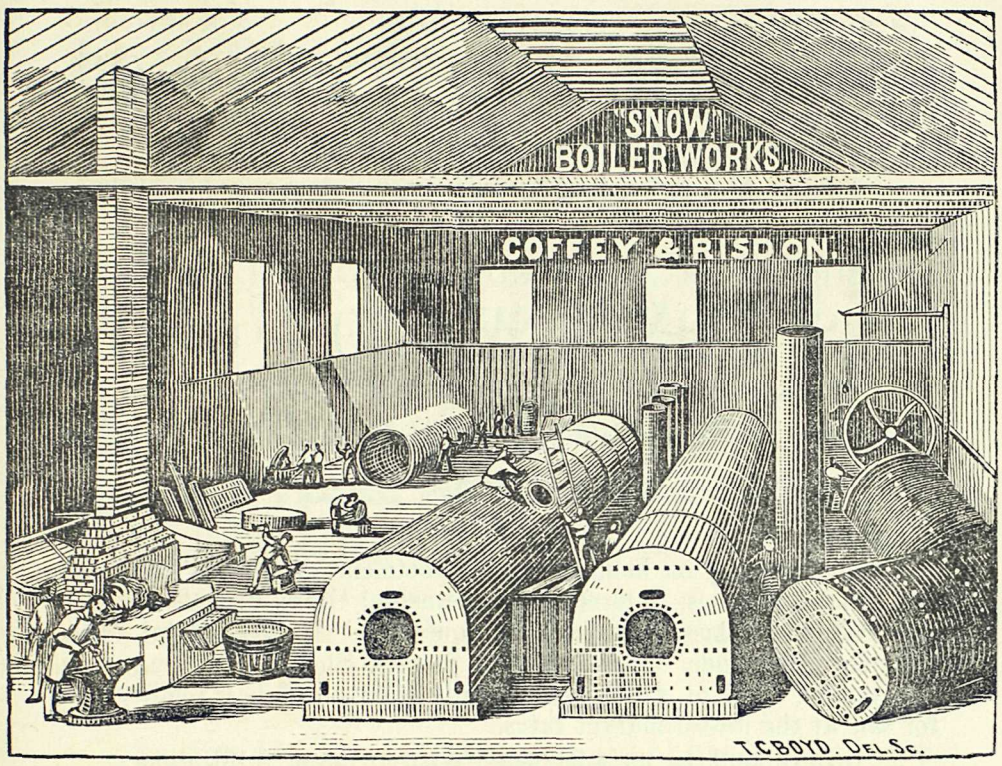
MESSRS. SAINSEVAIN BROS., are the recipients of a first premium from the State and Mechanics' Fairs, for their manufacture of the best article of Native California Wines, from the celebrated vineyard, El Aliso, Los Angeles. They manufacture, and have constantly on hand, Sparkling California Champagne, California White Wine, California Angelica, California Port Wine, California Red Wine, and California Brandy. Those in the trade, we are satisfied, cannot find a better house to send their orders to, than Messrs. S. Brothers. They will execute all commissions at shortest notice, and at reasonable established prices, for their best and most celebrated brands of enumerated wines. See Card.

MESSRS. MAIN & WINCHESTER have the most complete stock of Harnesses, Saddles, Bridles, Whips and other articles belonging to the Saddlery Department, on the Pacific coast. They have been long and favorably known here. They have also been the recipients of first premiums from the several Institutes and Fairs. They ask but a small profit over eastern prices, and solicit orders from the dealers of these Colonies, whom we recommend to send direct to them, for articles in their line.

PHILADELPHIA BREWERY.—This establishment furnishes, at this time, the best Beer on the Pacific coast. See their advertisement elsewhere.

CHAMPAGNE CIDER, PICKLE AND SALT WAREHOUSE.—Messrs. Oakley & Jackson, whose advertisement appears on another page, have been the recipients of several diplomas and silver medals from the different Fairs and Institutes, for their celebrated Champagne Cider. We recommend our dealers to send for this article; we know it to be good, medicinally pure, and falls not short of the best brands of Champagne.

LARGE BOOT AND SHOE WAREHOUSE.—Mr. F. Delger, whom we have known several years, keeps at this time one of the most complete stocks of Boots and Shoes on this coast. The trade will find him the most reasonable in his prices. They should send their orders direct to him.



LEWIS COFFEY & RISDON'S

FACULTY.

J. MORISON, M. D....Professor of Pathology, and of the Principles and Practice of Medicine
ISAAC ROWELL, M. D.....Professor of Chemistry
R. BEVERLY COLE, M. D.....Professor of Physiology and of Obstetrics and Diseases of Women and Children.
E. S. COOPER, M. D.....Professor of Anatomy and Surgery
B. R. CARMAN, M. D.....Professor of Materia Medica
Hon. GEORGE BARSTOW.....Professor of Medical Jurisprudence

ANNOUNCEMENT OF LECTURES, Session of 1860.

The next Regular Course of Lectures in this Institution will commence on the first Monday in May, 1860, and be continued eighteen weeks.

REQUIREMENTS AND REGULATIONS.—The examinations will be so arranged as to permit the commencement for conferring degrees, to be held early in September.

The candidate must be of good moral character, and at least twenty-one years of age.

He must have attended two full courses of lectures in some regular and recognized medical school, one of which shall have been in this college, and he must exhibit his tickets, or other sufficient evidence thereof, to the Dean of the Faculty. He must have studied medicine for not less than three years, and have attended at least one course of clinical instruction in an institution approved by the Faculty. He must present to the Dean of the Faculty a thesis or dissertation upon some medical subject, in his own handwriting, and of his own composition; and exhibit to the Faculty, at his examination, satisfactory evidence of his professional attainments.

If, after examination for a degree, the candidate, on ballot, shall be found to have received *three* negative votes, he shall be entitled to another examination—should he decline this, he may withdraw his thesis and graduation fee, and not be considered as rejected.

The degree will not be conferred upon any candidate who absents himself from the public commencement, without the special permission of the Faculty.

FEES:—The fee to each Professor is *twenty dollars*, payable in advance. The Matriculation fee is *five dollars—to be paid but once*. The graduation fee is *fifty dollars*.

SPRING, OR PRELIMINARY COURSE.—The Faculty, with a view of increasing the facilities for medical instruction without additional cost to the student, will deliver annually a gratuitous preliminary course of lectures upon subjects of importance, commencing on the first of April, and continuing till the commencement of the regular course.

☞ Letters must be addressed to R. BEVERY COLE, M. D., Dean of the Faculty, office No. 228 Washington Street, above Dupont, San Francisco, Cal.

SAN FRANCISCO.

HUCKS & LAMBERT'S

Celebrated Patent Anti-Friction

AXLE GREASE.

This extraordinary lubricating Compound is produced by a chemical combination of suitable oily substances, purified by distillation, and carefully freed from the resinous or pitchy matter, which attaches to all Oils more or less, in their unrefined or natural state.

In operation, the patent greese works free from comb or gum, keeping the heaviest bearings in a soft oily state to the last, and as its consistency is not altered by exposure to the hottest sun or coldest frost, (its liquifying point being 200 degrees,) it follows that on axles which have a tendency to become hot, from too heavy abrasion, &c., the Anti-friction will adhere to, and keep them cool, when other substances would run off and become dry, thus the evil known as

FIRING OF WHEELS

is, by its use, effectually prevented.

The proprietors will guarantee one application of their Patent Greese to carry the heaviest loaded teams from 300 to 500 miles, without requiring to be re-greased on the road.

HUCKS & LAMBERT,

INVENTORS AND SOLE MANUFACTURERS,

Natoma Street.....San Francisco.

Departure of the United States Mails from San Francisco,

To Sacramento daily, at 4 o'clock, P. M.
To Stockton daily, at 8 o'clock, A. M.
To San Jose daily, at 8 o'clock, A. M.
To Petaluma daily, at 1 o'clock, P. M.
To Atlantic States, 5th and 20th of each month.
To St. Louis and Memphis, Overland, every Monday and Friday, at 12 o'clock, noon.
To San Diego, on 3d and 18th of each month.
To Oregon and Washington Territory, and Vancouver's Island, immediately after the arrival of Atlantic mails.

RATES OF U. S. POSTAGE.

Letters ½ ounce in weight, to any part of the United States, within 3,000 miles, 3 cents; over 3,000 miles, 10 cents, and must be prepaid or they will not be sent. Letters dropped for delivery from the same office, 1 cent, and advertised letters 1 cent.

Letters to Canada, New Brunswick, Cape Breton, Prince Edwards Island, Nova Scotia, and New Foundland, 15 cents. To Great Britain and Ireland 29 cents, if not exceeding ½ ounce, prepayment optional.

Letters to Cuba, British West Indies, Chagres, and Panama, 20 cents; Mexico 10 cents; Spain, via Southampton, 78 cents; Portugal 68 cents. Postage must be prepaid.

Letters to Norway, 46 cents; Sweden, 42 cents; Denmark, 35 cents; Russia, 37 cents; Austria and Prussia, 30 cents; Italy, 35 cents; Switzerland and the German States, 30; France, 15 cents per ¼ ounce.

All letters to and from foreign countries, (France and the British North American Provinces excepted,) are to be charged with single rate of postage, if not exceeding ½ an ounce in weight; double rate if exceeding ½ an ounce, and not exceeding 1 ounce; quadruple rate if exceeding 1 ounce, but not exceeding 2 ounces, —and soon, charging two rates for every ounce or fractional part of an ounce over the first ounce.

Ship letters to Sandwich Islands, China, Australia, etc. etc., one cent each.

On either a letter, or packet, of any weight to foreign countries, the *whole* postage or *none at all* should be prepaid. If anything less than the whole is prepaid, no account is taken of it, and *it is entirely lost to the sender.*

Valuable letters will be registered at the office of mailing on the application of the person posting the same and the payment of a registration fee of five cents.

Newspapers, periodicals, unsealed circulars, or other article of printed matter (except books,) when sent to any part of the United States, and not weighing over 3 ounces, 1 cent, and for every additional ounce, or part thereof, 1 cent. If within the State and not weighing over 1½ ounce, half the above rates. Books, bound or unbound, not weighing over 4 pounds, for any distance under 3,000 miles, 1 cent per ounce; over 3,000, 2 cents per ounce. The above must be prepaid, or double these rates will be charged.

Newspapers sent to England and France 2 cents each; pamphlets and periodicals, to England, 2 cents each, if not weighing over 2 ounces, and 4 cents an ounce or fraction of an ounce, if they exceed 2 ounces. Pamphlets and periodicals to France 1 cent per ounce. Pre-payment required, this being the United States postage only. Newspapers, or pamphlets, etc., should not be inclosed in a wrapper, but simply a narrow band of paper, otherwise letter postage will be charged.

—

BUSINESS NOTICES.

THE WORLD RENOWNED STOVES.—MESSRS. KOHLER & BROS., we are happy to say, have exhibited to us their late improvements in Stoves, of their own manufacture, which surpass all others either in beauty, fuel-saving, or other advantages. We are compelled to recommend this establishment, since every article is made from the best material, and of the latest style and improvements. We understand, also, that their charges for the same are cheaper than those of other dealers. The trade should send their orders direct to them, as they will execute commissions promptly. *They can defy the world to produce a better Cooking or Parlor Stove.* See their card elsewhere.

METROPOLITAN HOTEL.—We call attention to the advertisement elsewhere, of the Metropolitan Hotel. The traveling community as well as permanent residents cannot be better accommodated than at this favorite resort. The rooms are spacious, airy, and neatly furnished, and the proprietors are well established in the reputation that they furnish their culinary department with the best the market affords. The Hotel is most eligibly situated near the principal business district.

WM. SCHMOLZ, ESQ.—Facing the title page of this work will be seen the card of this gentleman. We have known him long since, on this coast, for making and keeping the best Instruments for Surveyors and Engineers. He is the author of a very concise and useful work recently published by him. He has also invented many new Instruments for Surveying and Engineering. He does repairing at moderate prices, and warrants his work. Our Surveyors should bear this in mind, send to him direct for anything they may want, and we are satisfied they will not only be suited but pleased.

SAN FRANCISCO COLLEGE.—This celebrated Institute has been established since the year 1855, and is under the supervision of the Rev. J. Chittenden, late of Cambridge and London Universities. Parents and guardians will look in vain for a better School where children of all ages and sexes can receive a liberal education. The higher branches of Mathematics, Philosophy, Modern and Ancient Languages and Music, are successfully taught by eminent Professors. The terms, we find, are very reasonable. The Institute is most pleasantly situated on Bush street, near Taylor, and is provided with Gymnastics and Sport or Play grounds.

MESSRS. BALDWIN & JOSEPHI.—Jewelers and Watchmakers, and others in that trade, will find it greatly to their advantage to send their orders direct to this the oldest established House on the Pacific. The best and cheapest Home and Foreign Manufactured Jewelry, Diamonds, Watches, etc., can at all times be found here. We have been shown by the proprietors one of the costliest and most superb selections of American made Watches, for which this Firm are the Sole Agents on this Coast. Their Manufactory for making the best Jewelry is widely and favorably known, having a Lapidary and an Enameling Furnace attached thereto. We cannot recommend a better House.

☞ A most complete stock of Crockery and Glassware, Lamps, Plated and China Ware, will be found at Messrs. Haynes & Lawton, Sansome Street. We can recommend no house on the Pacific coast, where the trade could be better suited, or where orders could be executed at shorter notice, cheaper rates, or with better articles.

MR. SAM'L ADAMS keeps constantly on hand an excellent article of Santa Cruz Lime. Builders, architects and contractors should send their orders direct to him. See his advertisement elsewhere.

MESSRS. J. D. ARTHUR & SON, whose card appears elsewhere in this work, keep on hand the largest and most complete stock of Agricultural Implements on this coast, which they offer at reduced prices.

☞ We call especial attention to the advertisement elsewhere of Messrs. Cameron, Whittier & Co., who have the most complete stock of Paints, Oils, Glass, and Painter's utensils of the best, cheapest and most desirable quality on this coast. The trade should send their orders direct to them. They will fill orders promptly, and at the lowest market prices.

MESSRS. THURNAUER & ZINN, whose advertisement appears in this work, keep, at this time, and receive from Europe and the Atlantic States, one of the most select and superb stocks of Willow Ware we ever beheld.

☞ Those visiting California, who may be suffering from bad teeth, or wish dental operations performed, should by all means consult Dr. BURBANK. We know him personally to be one of the best and most skillful Surgical Dentists.

MESSRS. HUCKS & LAMBERT.—We are pleased to recommend this Firm for manufacturing an unsurpassed article of Axle Grease. We were shown the mysteries of the *modus operandi*, by Mr. Hucks, who, by the way, is an excellent chemist—from all we can learn this article stands without a rival. The firing of wheels need not be feared, while their Grease is used.

"COMMERCIAL STEAM PRINTING OFFICE."—We cannot more appropriately conclude our remarks on the various business enterprises of San Francisco, than by calling the attention of our readers to this extensive Printing Establishment, the largest and most complete in all its departments, on the Pacific Coast. To the gentlemanly proprietors, Messrs. VALENTINE & Co., we are indebted for many kind attentions shown us during the progress of this work through the press. The neat and artistic appearance of these pages is principally due to their taste and judgment. Those of our patrons in want of *anything in the printing line*, from an address card to a mammoth poster, cannot do better than to call at No. 129 Sansome Street, near Washington, where they will be sure of being suited, both as regards quality and price. Orders from the Interior, or from these Colonies, will receive prompt attention.

MR. A. KOHLER carries on three of the most extensive Musical Instruments, Toy and Fancy Goods Establishments on this Coast. He solicits orders from Dealers, which, we are satisfied, he can fill at very reasonable prices.

☞ We call attention to the advertisement of MESSRS. FISH & CO., who are the favorably known proprietors of the Black Hawk Livery and Sale Stables. Those wishing a good horse should not fail to call on them. We know of no better place where they can be suited.

MR. WIGMORE, on California cor. Leidesdorff Street, manuactures, at reasonable prices and of the best materials, Office Furniture, Show Cases, Desks, Bureaus, Law and Library Cases, etc. Those requiring articles of this kind should send their orders direct to his establishment.

MR. GEO. STEAD, who is now making extensive arrangements in England and elsewhere for procuring the best Saws, Files, etc., and who has the best stock now on hand on this Coast, respectfully calls attention to his advertisement in this book; page 82, (Victoria Department).

MESSRS. GRAY & HERWIG, Music Dealers, are at all times receiving the best Strings, and the latest Publications of Music. They have removed recently to Dr. Rabés Building. MR. GRAY is late of England.

Fine Qualities of Imported Wines, Liquors, Cordials, &c.

AT WHOLESALE.

SAMPLES, - - - 12 1-2.

Strangers visiting San Francisco, will find the Liquors at the "Sample Rooms," of the very best quality.

J. T. JONES, Agent.

MESSRS. SCHAEFFER & SUTLIFF.—We take pleasure in recommending this extensive Cigar Manufacturing and Tobacco Warehouse, to the trade and consumers. We have tried and tasted their home manufactured Cigars, and find them excellent; indeed, there is no difference between the best imported and their home made article, either in flavor or taste—and yet a saving of 50 per cent. is offered to purchasers. See their advertisement, page 81 Victoria Department.
