Winnie Mines Ltd. Will Develop Mohawk Property

The Winnie Mines Ltd. which was organized last winter by Mr. D. Thomson of Prince Rupert, commenced development of the Mohawk property this week. Miles Donald is in charge of operations until the arrival of Mr. Thomson, who is president of the company, on Monday next.

During the winter of 1911-12 a shaft was sunk to a depth of 50 feet' and a drift extending a distance of 135 feet driven to crosscut the ore. The first work undertaken this year will be the pumping out of the shaft and the extending of the drift. It is anticipated that only a very short extension of the tunnel is necessary before the ore vein is encountered.

The Mohawk is situated down the inlet in the Roundy Creek section at an elevation of about 2200 feet. The vein for which the present tunnel is being driven is two feet wide and is composed of extremely high grade galena ore, carrying high silver values, and also appreciable gold values.

There is an excellent prospect of developing a good tonnage of ore, and its close proximity to tide water will be a great advantage when shipping is undertaken.

No development work has been done since 1912, when the Mohawk Mining Co. composed of Geo. R. Naden and associates of Prince Rupert sunk the present shaft and commenced the tunnel. Mr. Thomson became interested in the property last year, and finally reached an agreement with the old shareholders whereby it is now possible to carry on further development work, and bring the property to a producing stage.

Saturday Night Dance Alice Arm Hotel

A very enjoyable dance was held at the Alice Arm Hotel on Saturday evening. A large number of Alice Arm people were present and also a large contingent of Anyox visitors, including a number who are spending summer holidays here and at Silver City.

The Alice Arm orchestra, with its lively fox trots and dreamy waltzs, kept everyone dancing, and the floor was taxed to capacity throughout the evening. An appetizing supper, supplied by the ladies was partaken of at midnight.

BIRTHS AT ANYOX

Born to Mr. and Mrs. M. J. Sheen at the Anyox General Hospital on Friday, July 12th. a daughter.

Born to Mr. and Mrs. E. G. Brown, at the Anyox Hospital, on Wednesday, July 17th. a daughter.

Alice Arm Baseballers Meet Defeat

On Sunday afternoon a baseball game was played between Alice Arm and the members of the Geological and Topographical survey parties that are camped near town.

It was an interesting game, full of thrills from start to finish. The map-makers swamped the locals by the score of 18-9, which wasn't so bad when one realizes the intensive training of our budding geologists, who, when scaling the high altitudes, have the advantage of taking a few lessons from the mountain goats regarding agility. Swatting an ordinary baseball after swatting around a thousand mosquitoes per day, and cantering around a base, after climbing about 3000 feet a few times each day certainly should give them some advantage.

The hill climbers piled up no less than nine runs in the fourth inning, which somewhat disheartened the locals. They strove to equalize but the grade was too stiff.

The teams were: Surveyors; Akenhead, pitcher; Carswell, catcher; Hanson; Anderson; Graham; Smith; Brock; Fairley.

Alice Arm: T. W. Falconer, pitcher; Bruggy, catcher; Oatman; Kergin; Al. Falconer; Smith; Lorne Falconer; Yorke; Bower; Edwards.

Elks' Ball Team Suffers Two Defeats

The Concentrator ball team defeated the Elks' nine on Friday last, five runs to one in a loosely played contest. Cook started on the mound for the losers, but retired in favor of Hopkinson in the fifth, after the opposition had got to him for four hits and four runs. One hit, coupled with a couple of errors, gave the Millmen their fifth run. Ballentyne replaced Hoppy in the sixth and held the opposition hitless for the remainder of the game.

The Elks had plenty of chances to score, but poor base running and inability to hit in the pinches was the cause of their downfall. Musser went the entire route for the winners.

On Monday evening the Miners handed the Elks an artistic trimming to the tune of nine to nil. Ten hits off Ballentine with a flock of errors thrown in by his team mates tells the story of the game. Two hits was the best the Antlered herd could do with Lazoreck. Allen at shortstop for the winners furnished the fielding features of the game, accepting seven chances without a miscue.

Toric Pays $39,000 To Creditors

Britannia and English Share-Holders Advance Funds

Business of the Toric Mines Co. Ltd. as mine operators is suspended and the company is awaiting the fufilment of the terms of the contract with the Britannia Mining & Smelting Company," states T. C. Carling, Toric president, in his annual report to the shareholders. Notices have been issued for the eighth annual meeting to be held at Room 225 Pacific Building, 744 West Hastings street, Thursday, July 4, at 2.30 p.m.

Mr. Carling's statement to shareholders follows:

"In submitting the annual statement the directors have thought it advisable to have the company's financial standing shown as on May 31, instead of December 31 which heretofore has been the annual practice.

"In accordance with the authority given to the directors at the extraordinary general meeting held on April 11, 1929, an arrangement was entered into between the Toric company and the Britannia Mining & Smelting Company, for the latter to develop the Toric property, and the Britannia company to form a new company to buy the property should the development work they have undertaken satisfactorily prove the mine. The terms of this agreement have already been before you and approved.

"The immediate benefit the company derived under this agreement was an advance of money by the Britannia company amounting to $21,500 which, with $17,500 advanced by the English shareholders, was used to pay the company's creditors. It may be stated here for your information, that the trade creditors assisted the directors out of the difficult situation in which the company found itself by agreeing to a reduction in the amounts owing them.

Continued on page 2

CARD OF THANKS

Mrs. Matt Bell wishes to convey her sincere thanks to her many friends for their kind expressions of sympathy and assistance during her recent sad bereavement.

The girls' baseball game arranged for Wednesday night has been postponed, due to sickness of some of the Mine girls. It is hoped that it will be possible to play the game at an early date, as many are anxious to see the girls in action.

The Anyox Choral Society has commenced practicing for the fall and winter term. Meetings are held in the United Church Hall on Tuesday evenings at 8 p.m. New members are always welcome.

Homer Clay of Anyox Married At Rupert

A pretty wedding was performed by Rev. James B. Gibson, rector of St. Andrew's Anglican Church in Prince Rupert, when Miss Thelma Smith, daughter of Mr. and Mrs. T. D. Smith, Prince Rupert, became the bride of Mr. Homer Clay, son of Mr. and Mrs. Charles H. Clay, Anyox. The ceremony took place at the home of the bride's parents, 311 Fifth Avenue East, Prince Rupert, under a white wedding bell in the living room, which was daintily decorated with seasonable flowers.

The bride wore an attractive grey and blue ensemble of gorgette, having for head-dress a rope of brilliants, and carried a bouquet of pink carnations and gypsophila. She was attended, as bridesmaid, by her sister who wore a frock of green flat crepe. Mr. Ralph Smith, brother of the bride was groomsman.

A delightful wedding supper was served after the ceremony and the evening spent in music and dancing.

Mr. and Mrs. H. Clay will reside on Fourth Avenue, Prince Rupert.

Resident Engineer Impressed With Camp

Dr. Mandy, resident mining engineer, left on Monday after a short visit of inspection to the Upper Kitsault country. He examined the Toric and Tiger mines. and was very much impressed with the possibilities of this section of the camp.

ALICE ARM NOTES

Norman McLeod, former resident of the camp and owner of mining properties arrived in town on Monday.

W. R. Lindsay, general superintendent at Anyox and Dr. H. T. James geologist for the Granby Co. spent two days in the district during the week.

L. H. Hinton, of the firm of Wright & Hinton, surveyors of Prince Rupert arrived on Tuesday from the Nass Valley on board his own launch. He will survey mineral claims in the upper Kitsault country.

M. R. Bernischke, field engineer for the Granby Co. left on Sunday for Alaska after spending considerable time in the Alice Arm district.

A. C. T. Sheppard, who is head of the Dominion Topographical Survey Department spent the week-end in town, inspecting topographical work being done here. He was accompanied by Mrs. Sheppard and his father N. B. Sheppard.

Continued on Page 4

Wealth of Illiance Valley Shown By Massive Specimens

Some magnificent samples of high grade galena ore were brought to town last week-end by Marshall Smith. They were taken from the Falcon Group which is situated near the source of the Illiance River. The samples prove conclusively that this section, which has been neglected of late years contains bodies of high grade ore that are worth investigating.

One of the samples which is of considerable size is on view in T. W. Falconer's store. It is composed of massive ore, and is among the best samples brought to town, and this district is second to none in regard to ore samples.

The vein from which the samples were taken has a width of 20 inches and lying immediately alongside is another vein also 20 inches wide, carrying copper, silver and gold values, but not of such a high grade. The vein has been traced a distance of 300 feet on the surface and several open cuts were made over this distance. A sample, similar to those brought down was sent out for assaying some time ago and the following satisfactory results were obtained: 260 ozs. silver, 60 per cent lead and $5.00 gold per ton.

On account of poor transportation facilities, which necessitates hardships in getting in supplies, development has been confined to surface work. Better transportation is badly needed in this section. The Falcon Group is owned by Marshall Smith and W. B. Bower of Alice Arm. It is situated on the Illiance-Nass divide, a distance of about 16 miles from Alice Arm.

Ore outcrops. similar to the Falcon exist for a distance of four miles in a southerly direction, and many of these properties could apparently be worked at a profit if the ore could be conveniently shipped.

It is probable that the Illiance River section will be provided with a wagon road in the near future. In fact, a commencement may be made next year, Should it materialize it would galvanize this neglected section into activity and several properties would undoubtedly be developed and brought to the producing stage.

Will Marry In Manitoba

Mrs. Jennie Bradley, Manitou, Manitoba, announces the engagement of her daughter, Lila Jean, to Mr. Frederick Whitehouse, Anyox, B. C. The wedding will take place about the end of July.

Mr. Whitehouse left on Monday for Prince Rupert and will continue his journey by train to Manitou, Manitoba. where the wedding will take place.

Toric Pays $39,000 To Creditors

Britannia and English Share-Holders Advance Funds

Continued from Page 1

"Debentures bearing interest at 8 per cent per annum have been issued against the various advances made to the company, and, except for a few details which will require attention, the company's business as mine operators is suspended, and we can now only await the fulfilment of the terms of the contract between the Toric and the Britannia Mining Company.

"The directors will notify you in due course of any important developments arising which affect your interests.

The balance sheet shows total assets of $741,627 of which $662,797 represents mining properties, plant, equipment and supplies, and $78,606 represents discount and commission on sale of shares. Minor items are cash on hand and in banks, $90.25; sundry debtors, $87.60; office furniture, $45.30.

Net expenditure on the Homestake and Tip-Top groups which have been abandoned amounted to $264,544. Total expenditures on the Toric group amounted to $330,259 of which $105,000 represented the cost of acquiring claims; $97,972 representing the cost of development less proceeds from sale of metals, and $127,286 represented buildings, plant equipment and supplies. Administrative, general and financing expenses from the inception of the company which have been capitalized as part of the cost of the properties total $67,993.

Of $60,000 8 per cent debentures authorized $56,300 have been issued the remainder being held as collateral security by Britannia under the terms of an option agreement. Of 200,000 shares of $5 par 137,034 have been subscribed and alloted, 70,734 for cash and 66,300 for consideration other than cash. Unpaid amounts on the shares allotted for cash total $1650.15. The total issued capital is $683,519.85.

Sundry creditors have claims amounting to $1807. There are no contingent liabilities.—The Financial News.

Freight and Passengers To Hudson Bay This Fall

While the official opening of the Hudson Bay Railway will not take place until next spring when the golden spike will be driven, it is expected that freight and passengers may be carried over the line this fall.

The fires in northern Manitoba this summer seriously delayed construction of the line. Just now 2000 men are employed on the ballasting, which has been proceeding steadily.

Consolidated Develops Properties Along C. N. R.

The Consolidated Mining and Smelting Co. are beginning work on the Richmond group on McDonald Island, Babine Lake. Work is also being started by the Consolidated Mining and Smelting Co. on the Seven Sisters group, near Cedarvale, and on the Lucky Jim near Usk.

Decrease Shown In Debt of Dominion

The net debt the Dominion of Canada decreased by $92,620,133 in twelve months ending June 30, finance department figures issued today stated. At the end of June the net debt stood at $2,244,142,450. During the first three months of present fiscal year ordinary revenue showed an increase of $13,529,152 over the corresponding period last year.

Huge Canadian Mining Merger Planned

Advices reaching Wall Street state that Canadian and British capitalists are reported to be involved in plans for a sixty million dollar mining merger, linking the Consolidated Mining and Smelting Company and the Noranda mines. Definite information is lacking.

The former company owns producing mines in British Columbia and other parts of Canada

Drum Lummon Mine Again Being Operated

Drum Lummon-Los Angeles-Vancouver Mines has resumed work at the Drum-lummon mine, at Douglas Channel Hartley Bay. The company is driving a crosscut tunnel to cut the vein at an additional depth of 160 feet. There is an excellent mining and transportation on the property, in fact, the previous owners erected a plant beyond what the development of the mine warranted.

TENDERS WANTED

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Wharf Repairs, Bella Coola, B. C.," will be received until **12 o'clock noon (daylight saving), Tuesday, July 23, 1929,** for the wharf repairs at Bella Coola, Skeena District, B. C.

Plans and form of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineer, Post Office Building, Victoria, B. C.; Victoria Builders Exchange, 2509 Prior Street, Victoria, B. C.; The Building and Construction Industries Exchange 615 West Hastings Street, Vancouver, B. C.; also at the Post Offices, Prince Rupert, B. C., and Bella Coola B. C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

NOTE—Blue prints can be obtained at this Department by depositing an accepted cheque for the sum of $10.00, payable to the order of the Minister of Public Works, which will be returned if the intending bidder submit a regular bid.

By order,
S. E. O'BRIEN
Secretary.

Government Will Sell Agricultural Land

British Columbia has almost half a million acres of good agricultural land to sell along the northern line of the Canadian National between Prince George and Smithers, Hon. William Atkinson stated recently. He said the Government would consider immediately systematic efforts to dispose of the land as rapidly as possible to settlers.

Mr. Atkinson explained that a great part of the land had reverted to the Crown for non-payment of taxes. Some of it was exceedingly choice from an agricultural standpoint.

It is expected that the areas will be offered at attractive prices.

Canadian Mineral Production Mounting

The Dominion Bureau of Statistics in a review of the mineral production of Canada for 1928 shows the aggregate value of the output of Canada's mines amouted to $273,400,000, representing an increase of more than 10 per cent over the total for the previous year

Though the records of 1928 portray a remarkable growth as compared with 1927, yet the great majority of the more important mines in the newly discovered areas are not yet on a production basis, and the actual trend of the present development will not be reflected in statistics of mineral production before 1930 or 1931.

Will Survey Peace River By Airplane

A Junkers plane took off from Winnipeg recently for Edmonton, where Pilot Calder will take charge and make a photographic survey of the Peace River district for the British Columbia Government, covering 5000 square miles north of Prince George.

Granby Engineer Enters Government Service

A. M. Richmond, recently associated with Granby company at Copper Mountain, has been appointed assistant district mining engineer of District No. 5, with headquarters at Nelson.

Britannia Milling 6000 Tons Ore Daily

The Britannia Mining and Smelting Company has further extended the capacity of its mill, and now is steadily operating it at 6,000 tons daily. The reduced cost of the extended operation allows the company profitably to work ore of lower grade, so the production of copper will not be increased proportionally.

Dispute Over Allenby Power Rates Settled

It is understood that the dispute between the Granby Company and the West Kootenay Power & Light Company and on the question of rates on power supplied to Allenby has been amicably adjusted,-which, when both parties to a dispute desire to play the game, is the only sensible way of settling it.—British Columbia Miner.

Britannia Considers 500 Prospects, Develops 3

Last year the Britannia Company considered some five hundred prospects, of which decidedly less than half the number were deemed worthy of field examination. Of these, only about seven justified development, and finally the seven dwindled to three of sufficient merit to warrant intensive exploration. But a ratio of three good prospects in five hundred is rather above the average.—British Columbia Miner

Consolidated Developing Alaskan Properties

An option on the Rush-Brown copper mine and the Saltchuck Palladium mine at the head of Kassan Bay, Prince of Wales Island, has been taken by the Consolidated Mining & Smelting Co. Ltd. of Canada. The properties are about 40 miles from Ketchikan.

Consolidated is now installing 7,000 feet of pipe line leading the Saltchuck mill to deliver compressed air for running the pump in dewatering the Rush-Brown mine.

NOW BEING DEVELOPED.

Utility Mines No. 1 Limited have taken over the Tiger and Kitsol Groups in the Upper Kitsault Valley, and an intensive program of development work has been inaugurated.

Alice Arm Notes

Continued from Page 1

The annual Sunday School picnic of the Alice Arm Anglican Church will be held next Saturday July 27th. Everyone is invited to attend and an enjoyable day is promised. The picnic will be held at Campers point, and the launch "Northern Cross" will make several trips from the wharf.

The open invitation includes Anyox visitors. Ladies please bring refreshments.

Among the week-end visitors at the Alice Arm Hotel were: Mr. and Mrs. Geo. Warwick, J. A. Swanson, J. McCallum, Miss Taylor and R. Gale.

C. Rhodes, representing the Sullivan Drill Co. was a visitor in town during the week.

ANYOX NOTES

Mrs. McColl, a former resident of the camp arrived on Monday and will spend a few days here with her son Jack.

Mr. and Mrs. Shepherd arrived on Friday from the south.

Mrs. C. Bruster and Vernon arrived on Friday to take up residence here.

Harvey Brooks arrived on Friday leaving again on Monday.

Rev. Father Sullivan arrived on Friday to take the place of Rev. Father Champagne who is leaving Anyox after several years residence here.

The El Doro cigar is the premier cigar of Canada. None better.

M. A. McKenzie is spending a two week's vacation at the Alice Arm Hotel.

H. McCartney arrived home on Friday from a trip south.

Mrs. Llewelleyn was an arrival on Friday to join her husband here.

K. Levensworth arrived on the Prince Rupert on Friday.

Dr. Gee arrived on Friday from the south.

Mr. and Mrs. Florindo were arrivals on the Prince Rupert on Friday.

Mrs. Lawn spent the week-end with her son and daughter at Silver City.

Mr. and Mrs. Charbott were among the arrivals on Friday's boat.

Among the arrivals on Friday were: Mr. Rhodes and Mr. J. Atkinson.

Mrs. Martin arrived in town on Friday.

Miss K. Whemmouth arrived on Friday to spend the holidays with her sister Mrs. Youngs.

Mr. and Mrs. MacIntyre and family left on Tuesday for the Queen Charlotte Islands, where they will spend the remainder of the summer.

Mr. G. Lee and daughters Barbara and Jean Carol, left on Tuesday for Terrace where the girls will spend a vacation.

Dr. Gee left on Tuesday after a short visit with his father and mother-in-law.

Mrs. S. Pamplin and daughter left on Tuesday for Prince Rupert

F. Larson arrived home on Tuesday from a visit south.

Mr. and Mrs. A. Johnson and family, and Mr. and Mrs. O. Olson and family of the Mine are spending a week's holiday at the Alice Arm Hotel.

Mrs. Lindsay and son, Jack left on Friday for holidays in the south.

Miss Shirley McRae left on Friday for holidays in the south.

P. E. Peterson of the Silver Crest Mine left on Friday for the Planet Mines, where he is consulting engineer.

Among the departures on Friday were: C. Kruzick, Mr. O'Hanley, Mr. Ancell, Mr. Baillie, Mr. La Moth.

Mrs. J. R. Carr and family left on Monday for Port Simpson.

Those leaving for Prince Rupert on Monday were: A. H. Brooks, A. D. Johnston, B. H. Smith.

Mr. and Mrs. Williams and family left on Monday for Vancouver.

Among those leaving for Vancouver on the Catala were: C. Hanell, and R. Robb.

Mr. and Mrs. Pierce left on Friday for Vancouver where they will spend a summer vacation.

Mrs. A. Cameron and family are spending summer holidays at Silver City.

Among the arrivals on Monday were: S. Coats, W. Robertson, K. Keron.

Mr. and Mrs. L. P. O'Brien arrived home on Monday after a holiday spent in the south.

Miss Edna Unger arrived on Monday from Prince Rupert.

Future Profits Granby Co. Will Probably Be Higher

Presenting a review of the current finances of the Granby Consolidated Mining, Smelting & Power Company, Barron's Weekly makes the prediction that operating earnings for the second quarter of this year should be the highest for any three months in the company's history.

Operating profits after taxes but before depreciation, which is inordinately high for Granby, so that operating earnings are more typical of what the company is really doing, should be around $2.75 a share on 450,000 shares outstanding. This will compare with $2.09 in first quarter on a similar basis. Operating profits for April and May already are more than $2 a share, exceeding the first three months of the year.

While operating earnings after taxes but before depreciation promise to be around $10 a share in 1929, against $6.60 in 1928, and Granby could increase the dividend rate at the next meeting, June 19, it is probable the rate will remain unchanged at $7 a share this year, and that the regular $1.75 will be declared at that time.

Granby is producing copper at both Anyox and Allenby properties at average cost of slightly under 10 cents a pound. This is after local taxes but before depreciation. It has been making considerable improvements charged directly to operating cost, especially the opening up and development of the Bonanza ore body at Anyox. Consequently operating cost is close to what cost of producing copper would be with normal depreciation charge included. Granby, owing to obsolescence of plant, changes in metallurgical practice, etc., has abnormally large bookeeping write-offs for depreciation and depletion. This is why it is declarings its dividends as capital disbursements without any charge for income tax.
