WORLD CRUISES

FASHIONABLE

Travelling to Europe on the Empress of Britain you enjoy those EXTRA luxuries planned for World Cruise passengers. You also enjoy those outstanding qualities for which this great Atlantic and World Cruise liner is famous on the Seven Seas.

She has speed, this regal Empress . . . she holds the record for the fastest land-to-land crossing of the Atlantic. She has also size . . . length 758 feet, breadth 97.5 feet, 42,500 tons gross register, 63,750 tons displacement. But her crowning luxury is SPACE . . . more and more space per individual passenger.

It is this characteristic spaciousness which has made the Empress of Britain the travel sensation of the world. . . this spaciousness plus her flashing exterior and interior beauty. Great artists designed her. . . connoisseurs have appreciated her until her sailing lists resemble nothing so much as pages from an international "Who's Who".

Her Lounge Deck comprises a series of supremely beautiful Public Rooms . . . the EMPRESS ROOM designed by Sir John Lavery; MAYFAIR LOUNGE by Sir Charles Allom; the SALLE JACQUES CARTIER, creation of Frank Brangwyn; the CATHAY LOUNGE, an innovation in Smoking Rooms, combining Oriental color with Occidental comfort and designed by Edmund Dulac, illustrator of the Arabian Nights; THE MALL; the KNICKERBOCKER BAR where the evolution of the Cocktail is depicted with Heath Robinson's exaggerated, whimsical fancy.

In addition there are a Sun Deck, Sports Deck with full sized tennis court, regulation squash racquets court and an Olympian Pool with beachside café and Turkish baths adjoining.

This same spaciousness characterizes your private "apartments", some of which are 28 feet long and the majority of which have private bath. It is this spaciousness which you will enjoy on your way to Europe by the size-speed-SPACE marvel, Empress of Britain.
