Annual Meeting Of The Alice Arm School Board

The annual meeting of the Alice Arm School Board was held at the School House on Saturday evening, and quite a number of taxpayers were present.

Mr. H. F. Kergin was elected chairman of the meeting. The financial statement for the past year was read by the secretary, Mr. O. Evindsen. It showed that a balance of $93.59 was on hand, at the beginning of the year, and at the close the balance was $21.88.

Mr. W. B. Bower was unanimously elected auditor for the coming year, replacing Mrs. L. O'Connor who has left the district. Nominations were called for a new trustee, to replace Mr. Al. Falconer, who resigned some time ago. Mr. Miles Donald was unanimously elected.

After some discussion, during which the secretary explained the financial situation of the School Board, it was decided that the local assessment for school taxes be fixed at $1,000, this being the same amount as last year. By practising strict economy, it was thought that this sum would be sufficient.

After some discussion relative to the reverting of the district from an organized district to an unorganized district, a motion was made by W. B. Bower, as follows: "That whereas the present depression has seriously affected the rate payers of the Alice Arm school district, who are depending upon the mining industry for their living. And whereas the mining industry has reached the vanishing point in this district. And whereas all the assessment values have decreased as well as the earning power of the rate payers, therefore it is resolved that the Department of Education be requested to replace this school district back in the original class it was in, namely, an assisted school district, whereby the Department of Education will assume the payment of the teacher's salary in full." The motion was carried unanimously.

At a meeting of the School Board held on Monday evening, E. Moss was elected chairman and O. Evindsen, secretary for the coming year.

It was deemed advisable to tar or paint the roof of the School House and nail down the shingles on one side at least. It is probable that this work will be done by voluntary labor. It was decided to call for tenders for supplying fuel for the coming year.

In connection with the strict economy programme, it was decided that no bills be recognized by the Board unless the purchase of goods has been authorized by the chairman. It was the unanimous opinion of the trustees that more frequent meetings be held during the coming year than in former years.

Nine Feet of Ore Drilled On Billy Mac

J. Peacock and T. Calfa returned last week-end from the Billy Mac property on McGrath mountain, where they have been doing development work.

During the present summer they have driven 60 feet of tunnel The last 9 feet of which was driven in ore carrying zinc, silver and gold values. The ore was encountered on the foot wall of an ore body running in an east and west direction and having a northerly dip. The hanging wall has not yet been reached by the tunnel. This tunnel is now in a distance of 98 feet from the portal. A big open cut was also driven on the surface this year.

Although this ore body is of considerable size it is not the main one. The main ore body has a north and south strike and connects with the ore body now being developed.

The chief values are zinc, but the ore also carries good silver and gold values. From 12 to 13 ozs. of silver per ton has been obtained from samples taken across 5 feet.

Pattullo Will Address Meeting At Anyox Tonight

T. D. Pattullo, M. L. A. will address a public meeting at the Recreation Hall, Anyox this evening, Friday. July 17th. on public questions, during the time the Canadian National steamship is in port. The meeting will commence directly after arrival of steamship.

Owing to the international celebration being held at Stewart on July 18, 19, and 20, the Union Steamer Catala, will call at Stewart first next week on her northern run. She will call at Alice Arm and Anyox on her way south, which means that she will not arrive at the latter ports until Monday evening.

Russian Choir Received World Praise

Anyox Lodge No. 47, B. P. O. Elks, who are sponsoring the concert to be given by the world famous Russian Choir next Wednesday and Thursday, are very elated over the world wide praise that has been given this wonderful choir. Following are a few of the headlines from the world's press:

New York—"Brilliant achievement. It sings like one. Saturated with the expression of the folk spirit of those native songs." New York Evening Journal.

Honolulu—"The record attendance that was accorded the Russian Choir throughout their local engagement was fully deserved. It was indeed the greatest singing that Honolulu has ever heard," Advertiser.

Madrid—"Most successful concert Madrid has ever seen was brought to a close by the presentation of the King's medal of the Order of Chivalry." Vanguardia.

Rome—"By special invitation of Prince Chigi, the Slavianski Choir sang before Pope Leo XIII. His Holiness expressed himself as charmed and personally complimented M. Slaviansky." Wanfulla.

Granby Co. 20 Years Ago

The Granby Consolidated Mining & Smelting Co., which recently paid $225,000 for 80% interest in property at Hidden Creek, Observatory Inlet, has just completed the purchase of the remaining 20 per cent. interest owned by Mr. M. K. Rogers of Spokane.—From the Daily Province column: "Twenty years ago."

ALICE ARM NOTES

Miss Margaret Beatty, who has been spending holidays with Miss Alice Kergin, returned to Prince Rupert on Tuesday.

Mrs. P. McDougall and family arrived on Tuesday from Anyox and will spend summer holidays here.

Miss Dingwell, formerly on the nursing staff at Anyox Hospital, returned on Monday to North Vancouver, after spending holidays with Mrs. J. Wheatley at Silver City.

Mrs. J. Tierney and family of Anyox are spending holidays here, arriving on Tuesday.

Mrs. Kydd arrived from Anyox on Tuesday and is spending holidays here.

J. M. Dunn arrived from Anyox on Tuesday to join Mrs. Dunn and family, who are spending holidays here.

Good Footage Made In Drilling Contest

With the idea of selecting a team to represent Anyox in the rock drilling contests at Stewart during the Alaska-British Columbia celebrations, a contest was held at the Hidden Creek Mine on Sunday the 12th. Twelve teams of two men each took part. The site chosen was a bluff at the side of the road near the Machine Shop. Each team was allotted ten minutes to set up the machine, connect the lines, and drill. The winners were Felix Lundstrom and James Boyd, who drilled a distance of 8 feet 6½ inches. They were closely followed by Gunnar Johnston and Leif Detsaa, who drilled 8 feet 6¼ inches.

The prizes, which were donated by the Mine Branch of the Community League, were $40 for the winners and $10 for the runners up. Lundstrom and Boyd will journey to Stewart and test their skill against some of the best miners of the Portland Canal District.

Ore Samples Needed For Vancouver Exhibition

Owners of mining properties in the Alice Arm district are reminded that the time is getting extremely short for the bringing in of ore samples for the Vancouver Exhibition.

In order to ensure delivery at the exhibition, samples must be brought in within the next three weeks. They will be taken care of by either M. Petersen or A. D. Yorke.

A considerable number of samples have been shipped to the Chamber of Mines, Vancouver in former years, but the big majority of these samples have been distributed throughout the world. It is two years since any samples were shipped to Vancouver, and it is hoped that it will be possible to ship a considerable quantity this year. Bring in your sample and help accelerate local mining prosperity.

Anyox Scouts Leave For Stewart

A party of fifteen Scouts and five Cubs left Anyox on Friday night by the steamship Prince George, en route to Stewart for their summer camp. Scoutmaster Roland Gale, who was accompanied by Mrs. Gale, is in charge of the boys.

Anyox Football Teams Playing Spectacular Fast Games

Without doubt one of the best games of the season was that between the Celts and the Mine on Thursday the 9th. The evening was fine, with very little wind, and the game was fast and open throughout. Playing down-hill first-half, the Celts seemed to smother the Mine crew like a blanket. They bombarded the goal frequently, but the Mine goalie has an eagle eye and seems to anticipate the ball every time. Horner got one through shortly after the start, and had many attempts thereafter. Freddy Williams also got one, which unfortunately escaped through a hole in the net and was lost.

On the resumption the play was gradually moved to the Celts' end, the Mine team combining well and making it dangerous for the Celts at times. Art. Dwyer, baptized into big league football as goalie for the Celts, acquitted himself like an old timer, saving several that appeared ticketed for goal. The Celts boys frequently broke away and raced to the other end, whereupon the Mine fans held their breath; for the Celts forwards were playing at top form. In one of these breaks MacConnachie booted in a beauty which gave the Mine tender no chance.

Two or three fans bought two tickets each just to show their appreciation, and even then got good value. Don't miss the next few games, as the final results hinge on them and they are sure to be good.

Fielding a first-class team and playing an aggressive, open game, the Smelter boys took the long end of the count in the tussle on Tuesday the 7th. This is the best game the Smelter has turned in so far, and on the play the score should really have been greater.

The Celts were a little weak in vital spots, but stood up well to their speedy opponents, and their forward line got in some pretty passing work at times. Stewart Steel, of basketball fame, was given the outside right position on the Celts team, and showed that he has the makings, being cool and passing nicely.

For the Smelter, it was a birthday celebration for Buchanan and

On Monday next, July 20th. British Columbia will celebrate the diamond jubilee of her entrance into the Dominion of Canada. British Columbia did not join the confederation of the provinces until four years after the others had joined hands. But on July 20th. 1871 the wise step was taken, and since that time British Columbia has increased in prestige and prosperity by leaps and bounds. Until the last spike was driven on the Canadian Pacific Railway, which historic event occurred on November 7th. 1885, British Columbia was a crown colony and was cut off from the rest of Canada by limitless prairies and the Rocky mountains. There was considerable opposition in those days in regard to joining the Dominion, and advocates of annexation to the United States pressed hard to break British Columbia from the Empire, but wiser councils prevailed, and luckily they did, otherwise Canada today would be shut off from the Pacific ocean, which would be a tragedy for the western provinces. One stipulation British Columbia obtained was that a railroad be built through to the coast linking up east and west. This was promptly carried out, and following its completion British Columbia has blossomed from a wilderness into a fair and prosperous province rich in minerals, timber, fish, agricultural lands, water powers, coal and scenery, plus a variety of climates unequalled by any province in the Dominion. As British Columbians we should be proud of the heritage that the pioneers of sixty years ago handed down to us. We should be proud of those men of vision who fought so hard to bring British Columbia into the Dominion and we should be proud that we are privileged to enjoy the fruits of their labor, and bend our efforts at all times to make British Columbia still more happy and prosperous. We often bemoan the present hard times, but if we compare our advantages with those of the hardy pioneers of 60 years ago who carved homesteads out the jungle, we are living in paradise. In those days there were no railroads, auto cars or trucks, very few wagon roads, practically no mail service and the many household luxuries of today were still in the realms of dreams. These study pioneers, however, were happy. They lived off the land. Markets for their produce did not exist. Yet they evidently prospered as is evidenced by their robust children, many thousands of whom still live in the province. In times of adversity we might do worse than take a page from the lives of these pioneers, whose noble achievements we honor on Monday next.

No Peace River Railway This Year

Premier R. B. Bennett's declaration of intention to settle both unemployment and crop shortage crisis by drastic means, including, possibly, invocation of the "national emergency" of the B. N. A. Act, led British Columbia members to infer that the Peace River railway project might be launched this year.

But the unanimous expression of opinion in the corridors among these closest to the government and the railway heads, is that the project has no chance, notwithstanding its obvious advantages in meeting the present situation.

President E. W. Beatty of the C. P. R. and Sir Henry Thornton, president of the C. N. R., are unquestionably against action this year. Mr. Beatty has great influence over the Prime Minister, and, although the latter would probably like to carry out his election promise, as was shown by his national emergency announcement, the pressure against the Peace River is too strong for him.

Further Peace River conferences are to be held, but Hon. R. J. Manion, minister or railways, holds out no hope of a solution this year.

New Railway Depots Peace River District

Pouce Coupe—The contractors of the Northern Alberta Railways are here to erect a new depot at Pouce Coupe and Dawson Creek and loading platforms on sidings east. A large amount of local labor is being employed.

Government Takes Share of Stock Brokers' Profits

Vancouver—Pleading guilty to a charge of bucketing in stock transactions, Solloway Mills & Co. Ltd. were ordered to pay a fine of $100,000 in the County Court by Judge J. N. Ellis today.

May Force Showing of British Films in Theatres

Victoria—It was officially indicated here that the British Columbia government is considering and will probably introduce a quota system by which all theatres in the province will have to show a certain percentage of British pictures.

Dobson: I say old chap, you're looking well this morning."

Jobson: Yes, I never looked better in my life. I'm looking for a man who owes me $10.

Production At Pioneer Mine Increasing

Production of Pioneer Gold Mines of B.C. Ltd. in June totalled $60,000, approximately one third more than in the month of May, reports A. E. Bull, vice president and secretary-treasurer. The substantial gain is attributed to the fact that the mill has been running at the full capacity of 100 tons a day and to the encountering of better ore. Production at present is averaging from $1800 to $2000 daily.

Work on the new vertical three-compartment shaft, the first step toward increasing milling capacity from 100 to 300 tons daily, is proceeding steadily. The work so far has consisted of raising from the 1000-foot level to the seventh level, a distance of 250 feet. Later this shaft will be carried to 2000 feet. Officials point out that if the vein continues as good as it has proved to the 1000-foot level, ore reserves will be trebled. Results are confirming the opinion of directors that production will be sufficient to continue dividends and cover the cost of expansion.

Vancouver—Wheat exported from Vancouver for the current crop year will exceed 70,000,000 bushels, according to estimates of the Vancouver Merchants' Exchange.

Yukon Shipping Much High Grade Ore

Advices from Mayo state that 6000 tons of high-grade ore and concentrates from the Treadwell Yukon mines on Keno Hill and Galena Hill, chiefly from the Lucky Queen mine and the Silver King mine, are on the river bank at Mayo, and will be shipped to the Bunker Hill smelter via Whitehorse this season. The steamer Keno will be on the Stewart river and will bring ore down the river to Stewart City, here it will be transferred to the main river boats for Whitehorse. Considering the low metal market, the shipments from Mayo this season are exceptionally large.

Low Copper Prices Give Boost To Sales

A further reduction of half a cent a pound in the price of export copper last Saturday at New York, brought the price to a parity with 8-cent. domestic copper and caused a spurt in buying.

Meanwhile already burdensome copper stocks showed a further increase, finished copper as of June 30 being 14,807 tons in excess of the total at the end of May.

Finished stocks at the refineries in North and South America, as of June 30, totalled 413,474 tons compared with 398,667 tons on May 31, and 316,762 tons at the end of June 1930, the American bureau of metal statistics reports.

Blister copper stocks on June 30 were 187,353 tons, against 190,578 tons May 31, and 193,876 tons April 30. Total stocks of refined and blister copper in North and South America June 30 were 600,-827 tons compared with 589,245 May 31, and 561,797 April 30.

United States mine output of copper in June was 44,647 short tons, against 45,580 tons in May, and 56,743 tons in June, 1930.

The half-cent reduction in export copper was the second this week and brought the foreign price to 8.275 cents a pound c.i.f. European base ports. As a result of the cut, buying for export, which has been practically at a standstill, jumped on Saturday to 2,200,000.
