On Wednesday, Nov. 16th, at 7 p. m., will be sold at Russell, McDonald & Co.'s salesrooms, Vancouver, about 6,000 acres farming lands, the property of Mr. H. Mathers. Russell, McDonald & Co., auctioneers. See adv.

Daily British Columbian

Wednesday Evening, Nov. 16, 1887.

General Christian Conference.

PHILADELPHIA, Nov. 8.—At a meeting here yesterday of the clergymen and laymen of the various religious denominations to name representatives to attend the general Christian conference under the aupices of the Evangelical Alliance for the United States, to be held in Washington the first week in December, an explanation was made of the purpose of the Washington conference by Rev. Josiah Strong, President of the Alliance. He said: "Thoughtful men are convinced that the closing years of the nineteenth century constitute a momentous crisis in the history of the nation. The necessity of planting christian institutions in the formative west and of strengthening them in the older States, the duty of overtaking the rapid growth of our cities with adequate church provisions, the importance of closing the widening chasm between the church and the multitude, and of bringing the regenerative power of of the Gospel to bear upon every character and life, demand the instant attention of the christian church and the full exercise of all its energies. The three things needed in order that the masses shall be reached are, first, the desire to do that work; second, a knowledge of conditions and needs, and, third, personal efforts and contact with people."

Gladstone's Advice.

LONDON, Nov. 14.—Gladstone, replying to the secretary of a London radical club, writes as follows to-day: I think you will expect me to meet your request by an explicit answer, expressing the best judgment which while adsent from the spot, I am able to form on the deplorable disturbance of yesterday. As I understand the matter the home secretary states yesterday for the information of the public that he intended to prevent yesterday's meeting in Trafalgar square, and he believed prevention to be within his legal power. The question is one of great moment to the inhabitants of London, particularly to those at present unemployed and in circumstances of distress. It will be felt that the state of the law in regard to this matter ought to be promptly tested and ascertained. Until such a decision can be had it is the duty of every citizen to refrain from all resistance to the determination of the executive branch of the grovernment which is clearly entitled to administer the laws to what it may be advised is their true construction. Such an abstinence is, I think, due to the high character of the people of London for the maintenance of public order and respect to the law and mode in which it is applied through the medium of the admirable police of the metropolis. But I must add that an appeal to parliament and the nation of the grave and solemn issues now raised by the proceedings of the government in Ireland would suffer a disastrous prejudice were the appeal to be associated in any manner by those who make it with the metropolition disturbance.' It is the general opinion that Gladstone's advice not to make a party issue out of the action of the authorities will be followed. In reference to yesterday's disturbance at Trafalgar square the *Telegraph* says: The history of the metropolis has presented few sadder pictures than that which yesterday's riot presented. The rioters must be speedily checked or anarchy will spread. The *Chronicle* praises the forbearance of the police and the good work they did, but censures the authorities for provoking a conflict with the people by the invasion of a long cherished public right. The *Times* hopes that the rioters who were arrested yesterday and are held in custody, especially the ring-leaders will receive exemplary treatment and be dealt with sternly. "Behind these," it says, "stand greater criminals, who by means of the press and in other ways labor to convert the English Sunday into a carnival of blood, for which the despicable brood ought to be shot summarily." Seventy-five charges were entered to-day at the Bow street police court against the Trafalgar square rioters of yesterday. Most of the prisoners escaped with a fine, but some were sentenced to four to six months' imprisonment at hard labor.

If people troubled with colds, will take Ayer's Cherry Pectoral before going to church, they will avoid coughing. The Pectoral soothes and heals the irritated tissues, and controls all disposition to cough.

BY TELEGRAPH.

An Engineer's Fiendish Deed.--Fatal Dynamite Explosion.--Rank Suspended in Toronto.--Steamer Burnt in China.

A Terrific Prize Fight.--Gladstone on the Riots.--The Canadian-Australian Cable.

LAST NIGHT'S DESPATCHES.

THE POPE'S DISAPPROVAL.

LONDON, Nov. 15.—The *Times* says: "It is reported in Rome that the pope has expressed his entire disapproval of the lawlessness and political fanaticism in the riots, and has sent instructions to the Irish clergy with regard to the relations between the landlords and tenants."

THE PRESS ON SUNDAY'S RIOT.

LONDON, Nov. 15.—In reference to yesterday's disturbance at Trafalgar Square, the *Telegraph* says this: "The history of the metropolis has presented few sadder pictures than that which yesterday's riot presented. The rioters must be speedily checked or anarchy will spread." The *Chronicle praises* the forbearance of the police and the good work they did, but censures the authorities for provoking a conflict with the people by the invasion of a long cherished public right. The *Times* hopes that the rioters who were arrested yesterday and are held in custody, especially the ringleaders, will receive exemplary treatment and be dealt with sternly. "Behind these," it says, "stand the greater criminals who by means of the press, and in other ways, labor to convert the English Sunday into a carnival of blood, for which the despicable brood ought to be shot summarily."

Seventy five charges were entered to-day at the Bow st. polic court against the Trafalgar square rioters of yesterday. Most of the prisoners escaped with a fine, but some were sentenced to four and six months imprisonment at hard labor.

MR. GLADSTONE CRITICISED.

LONDON, Nov. 15—Conservatives generally regard Mr. Gladstone's view of the Trafalgar Square riot, as expressed in his letter, as altogether paradoxical, in that he encourages the wish of the people to resist the the action of the government, and praying English conservatives to submit to such restrictions as may be offered. He does not, of course, say this in plain language, but they maintain that he does so by implication. From the first to the last line of his communication they maintain there is justification for such inferences though it is not apparent to others.

Mr. Bradlaugh has suddenly become peaceful, and is out in a public statement declaring the story that he had announced his intention to lead an attempt to hold a meeting in the square on Sunday to be wholly unfounded, and pronouncing the published account of his remarks as a garbled report of what he really did say. Mrs. Besant, too, claims to have been incorrectly reported, and rushes into print with a letter explaining certain of her alleged utterances, and repudiating others.

The defiant leaders of the mob are cooling off rapidly, and it certainly is hourly becoming more apparent that there will be no parade in or near Trafalgar square next Sunday, nor for a long time to come.

THIS MORNING'S DESPATCHES.

A FIENDISH TRICK.

COLUMBIA, S. C., Nov. 16.—Word has just reached here that Stephen Bailey, an old man, and engineer of the steam mill near Duckpond, killed his wife with an axe on Saturday, and threw her body into the furnace. Next morning his wife's bloody garments were discovered in the engine room, and the charred remains of the woman in the furnace. Bailey was arrested and made a confession. Last night he cut his throat with a knife, but is still living.

KILLED BY DYNAMITE.

NASHVILLE, Tenn., Nov. 16.—Five negro laborers were killed by a dynamite explosion in a cut on the extension of the Nashville & Florence railroad on Friday. The bodies were buried under the debris of the wreck, and have only just been recovered. The calamity occurred near Wayland Springs, and was the result of a misunderstanding. The foreman had sent his hands away to a place of safety, with orders not to return until he sent for them. He, with one or two hands, remained to charge the holes in the rocks and fire fuses. Five of the hands came back in the cut, just below and facing where the blasting was to be done, and in an instant tons of boulders and earth were hurled on them.

DELAYS ARE FATAL.

CHICAGO, Nov. 16.—Miss Ella Bauer, cashier of the grocery house of Jevne & Co., was crushed to death by the firm's elevator last night. The unfortunate lady had intended to go to San Francisco last Saturday to be married, but concluded to wait till Christmas.

A BANK IN TOUBLE.

CHICAGO, Ill., Nov. 16.—State's-attorney Grinnell to-day filed, in the superior court, an information in the nature of quo warranto against the Peninsular Loan and Trust and Savings bank, and D. H. Tolman, president, and several stockholders. The object of the information is to oust the bank from its privileges as a monetary institution. The information was filed at the instance of Abraham Bernstein, a depositor in the bank, who alleges it is illegally operated; that it has no constitution whatever, and is loaning money at usurious interest, often charging as high as 25 per cent.

INDIAN RAIDS.

EL PASO, Nov. 16.—Two more raids are reported to have been made by a band of Indians, supposed to be Apaches, who raided 2 or 3 ranches in the Sabinal mining district in Mexico in October. Three weeks ago they attacked 3 Mexicans, killing 2 of them. Last Thursday they attacked a mining camp, two men were in camp at the time, a German named Schneidel and a negro, and both escaped. Schneidel is familiar with the Apaches, having been the signal officer of Gen. Crook in the campaign against Geronimo. Schneidel says the band of savages was composed of five bucks and two kloetchmen.

BANK SUSPENDED.

TOPONTO, Nov. 16. The Central Bank of Canada has suspended payment. The following notice was posted on the doors of the bank this morning. "In consequence of the present stringency of the money market, the Central bank has not been able to realize on its assets promptly enough for immediate demands upon it. It has, therefore, for the present, suspended payment." The bank has a capital of $1,000,000, half of which is paid up.

TWO CHAMPIONS.

BOSTON, Nov. 16.—The fight between Jack McAuliffe, of Brooklyn, and Jem Carney, of England, for the lightweight championship of the world and $5,000, came to an end long after daylight this morning. Seventy-four rounds had been fought, and neither appearing to have the best of the struggle, the referee declared it a draw. Instantly there were howls of indignation which resulted in a general fight.

Both men were badly punished when the referee declared it a draw, but were able to continue and would have done so had not the excitement been too much for the spectators, and caused them to engage in a general row. In the first round McAuliffe planted a blow under Carney's chin, which sent the Englishman to the floor. Up to the end of the ninth round the battle seemed to be going all in McAuliffe's favor. He fairly rained blows upon Carney's eyes, jaws and ribs, and the Briton seemed to have become very angry, but recovering himself, used more cautious tactics. At this point odds of two to one were offered on McAuliffe, who had, so far, shown himself to be in as prime a condition as his antagonist, notwithstanding his recent illness. Carney becoming desperate when the twelth round opened made a savage rush at McAuliffe, who met it with a hard blow on the right eye and followed with a terrific right-hander on the bridge of Carney's nose which caused blood to fly. The claim of first blood for McAuliffe was then allowed. The fighting after this was heavy and both men were badly punished. At the end of the twenty-fifth round McAuliffe appeared somewhat winded and Carney's friends claimed the fight, which was not allowed. From the twenty-fifth to the forty-second round Carney had something the best of it. In the sixty-second round McAuliffe's left ear was cut open. The sixty-eighth round was marked by terrific exchanges of blows and both fought like demons and stood their punishment like men of iron. In the sixty-ninth round Carney butted McAuliffe in the breast with his head and forced him to the floor. McAuliffe's friends became greatly excited and repeatedly cried "foul," many of them breaking into the ring. Quiet was restored and the fight went on, but the next round round McAuliffe's friends claimed that Carney had kicked his antagonist in the abdomen and again claimed a foul. Great excitement followed and the claim was not allowed, but the same frightful slugging that had so far characterized most of the struggle. In the seventy-fourth and last round, after some heavy exchanges the men clinched and both fell to the floor with Carney on top. The friends of both parties rushed into the ring claiming the fight for either man and everybody claiming foul. When the referee could be heard he declared that as this was a fight to finish and neither man had been knocked out he could not do otherwise than postpone the fight to another time.

THIS AFTERNOON'S DESPATCHES.

FATAL EXPLOSION.

HANCOCK, Mich., Nov. 16.—The packing house of Hancock's chemical works was blown up this morning and six men killed.

CHINESE STEAMER BURNT.

CANTON, Nov. 16.—The str. Wah Yueng has been destroyed by fire in Canton River. About 400 passengers are supposed to have been lost.

COMMISSIONER RESIGNED.

WASHINGTON, Nov. 16.—The president has accepted the resignation of Commissioner Sparks, to take effect to-day.

A GOOD PROSPECT FOR THE CABLE.

SAN FRANCISCO, Nov. 16.—J. C. Brown, a member of the New Zealand parliament from the St. Lawrence district, arrived last night from British Columbia. He is accompanied by J. Brown, a wealthy citizen of Toronto, who is here on a tour of pleasure. He came via New York and over the Canadian Pacific railway, and sails for home on Friday on the Zealandia. All our people and all through Canada are talking about the Pacific cable, said he last night, and we are going to have one to connect with British Columbia. There is no doubt about that. We will get it sooner or later. I think the whole of Australia and Tasmania will vote subsidies for it.

Henry Cunningham & Co. have just received from the east, two more carload of heating and cooking stoves. Have now the largest and best assorted stock of stoves in the province. Call and examine before purchasing.
dno15-t3

Daily British Columbian

Wednesday Evening, Nov. 16, 1887.

To-morrow the people of Canada, from the Atlantic to the Pacific, are asked to unite in a service of thanksgiving for the mercies of the year. This thanksgiving day has come to be recognized as an established holiday, and is observed as such very generally throughout the Dominion. It is quite proper that we, as a Christian nation, should publicly acknowledge our allegiance to the Creator of the universe, and our dependence upon Him for all good things. The year now drawing to a close has been one of progress and development throughout the Dominion. Crops in the east have not been abundant, but there has been no widespread failure, and the wealth of the country has increased. In Manitoba and the Northwest the harvest has been exceedingly plentiful, and the food-producing powers of that region have been clearly demonstrated. The people of British Columbia know very little experimentally of poverty. This is a province singularly rich in resources, and it yields a competency to any person who is willing to expend an ordinary amount of energy. The passing year has been one of extraordinary development in British Columbia. It is the first year of railway operations, and a large part of the province has felt directly the stimulating influence. In the interior, along the railway line, new towns have sprung up, and the two terminal cities, on the Fraser and the inlet, have made wonderful strides forward. For this progress we ought to be thankful, and we ought not to neglect to recognize the source from which prosperity comes. It has been a year of peace and plenty, a year of building up and strengthening. While war and turmoil and famine and pestilence have been abroad in the world, Canada has been saved from any of these scourges. Since the government has set aside a day upon which the people shall be free to give appropiate thanks for the blessings of the year, we hope it may be observed by all as a glad day, when the thoughts will go out to a review of the situation, and we shall give expression to our gratitude in a practical way by ministering to the wants of those upon whom fortune has been less profuse in her smiles. "He that giveth to the poor lendeth unto the Lord," and we have every assurance that the loan will be repaid with interest.

The San Francisco *Bulletin* thinks it quite possible that the Panama canal may be finished after all within the time specified by DeLesseps—the year 1890. In this event a great many wise people will find it necessary to take back statements they have made with a great deal of certainty. The impossibility of completing this great waterway, on the plan projected by DeLesseps, has been over and over again declared by engineers and men of undoubted standing, but as soon as the public begin to believe these predictions, DeLesseps jumps up serenely and repeats his promise that there is no serious obstacle in the way, and that it will certainly be opened upon a certain date. The *Bulletin* thinks that perhaps the opinion of an engineer who has successfully completed one canal, and has carried another well towards completion, may be worth a good deal more than the opinion of a bushel of engineers who never built a canal at all. If the work should really prove successful, it will be the crowning triumph of one of the greatest engineers the world ever produced. When the Suez canal was in process of construction, it was hampered by the same distrust which now assails the Panama. But, as everybody knows, the Suez canal has proved a splendid success, and is one of the best investments of modern times. It has lately been asserted that DeLesseps was by no means the original projector of this canal. Away back when ancient history was being written, the work of connecting the Red Sea and the Mediterranean was not only seriously considered, but is believed to have been actually undertaken and partially executed. It is said to have been abandoned on account of the belief that if the waters of the Mediterranean were once admitted to that region, the difference of level would create such a rush as to do serious damage. There is, practically, nothing impossible to modern engineering. The only weak point in projects of this kind is the lack of funds. Give an engineer unlimited resources, and he can accomplish almost anything. The shareholders in the Panama canal have certainly had many opportunities for exercising their faith in the genius and resources of DeLesseps, and they have passed through these crises with unshaken confidence. Without doubt the canal will cost a sum vastly larger than the original estimate; but after the expenditure of so much money, it is scarcely possible to suppose that the scheme will be absolutely abandoned. That would mean ruin to hundreds of thousands. If the sinews of war are furnished, it is probable the canal will be ultimately completed.

Pimples, Boils

And Carbuncles result from a debilitated, impoverished, or impure condition of the blood. Ayer's Sarsaparilla prevents and cures these eruptions and painful tumors, by removing their cause; the only effectual way of treating them.

Ayer's Sarsaparilla has prevented the usual course of Boils, which have pained and distressed me every season for several years.—G. Scales, Plainville, Mich.

I was badly troubled with Pimples on the face; also with a discoloration of the skin, which showed itself in ugly dark patches. No external treatment did more than temporary good. Ayer's Sarsaparilla effected

A Perfect Cure,

and I have not been troubled since.—T. W. Boddy, River st., Lowell, Mass.

I was troubled with Boils, and my health was much impaired. I began using Ayer's Sarsaparilla, and, in due time, the eruptions all disappeared, and my health was completely restored.—*John R. Elkins, Editor Stanley Observer*, Albemarle, N. C.

I was troubled, for a long time, with a humor which appeared on my face in ugly Pimples and Blotches. Ayer's Sarsaparilla cured me. I consider it the best blood purifier in the world.—Charles H. Smith, North Craftsbury, Vt.

Ayer's Sarsaparilla

Is sold by all druggists. Ask for Ayer's Sarsaparilla, and do not be persuaded to take any other. ††

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Price $1; six bottles, $5.

FOR SALE:

Valuable Property at Spence's Bridge,

BELONGING TO THE UNDERSIGNED, consisting of two Lots.

LOT 1

Contains Sixty-four acres of land, forty of which is under cultivation. There is a large Store, 25x80; a two-story Hotel, 60x40; a large Stable and stalls for 20 horses; *three Dwelling Houses*, with cellars, and a number of other buildings. Two Gardens, one of them about one acre and a half, and one of the best in British Columbia, in which is growing to perfection *Apples, Pears, Cherries, Plums, Grapes*, Gooseberries, Strawberries, Currants, Raspberries, &c., &c. There is also a Green House, heated by hot water pipes, and containing a splendid collection of *choice Plants. There is also a Water* Ditch with this lot that carries over 100 inches of water.

LOT 2

Contains about 250 acres of land, one-third of which is fit for cultivation. On this lot there are about 150 Fruit Trees, 300 Grape Vines, 400 Gooseberry and Currant Bushes, and one of the best Water Ditches in the country, which cost two seasons ago $3000.

For any one wishing to go into the Seed and Fruit business, this is a splendid chance. The climate is unsurpassed and the situation is the best in British Columbia for a market along the line of the C.P. Railway. There is already an established business for seeds, plants, fruits, &c., amounting to over $1500 a year, and to one who could manage and look after it himself a fortune.

For particulars as to price and terms of sale, apply to the office of this paper or to the proprietor, JOHN MURRAY,
dwse12m1 Spence's Bridge.

PIANOS

—AND—

ORGANS

THE UNDERSIGNED has just received a large consignment of

IMPORTANT AND PEREMPTORY

Auction Sale

—OF—

FARMING LANDS.

We will sell by Auction at our Sales-Rooms,

Cordova St., Vancouver, B. C.,

—ON—

WEDNESDAY, NOV. 16TH,

AT 7 P. M.,

By order of HENRY MATHERS, Esq., of New Westminster, nearly

6000 ACRES

CHOICE FARMING LANDS

In Township 14, on the South of the Fraser River, District of New Westminster.

The Property consists of 640 acres in Section 8, 640 acres in Section 9, 640 acres in Sec. 16, 640 acres in Sec. 17, 309 acres in Sec. 18, 620 acres in Sec. 19, 560 acres in Sec. 20, 640 acres in Sec. 21, 285 acres in Sec. 27, 640 acres in Sec. 28, and 240 acres in Sec. 29.

Owing to a combination of circumstances the property has to be realized upon this season, and this is a rare opportunity to obtain valuable land either to settle upon or for speculation. Township 14 is situated between Langley and Matsqui, two of the most flourishing settlements in the Province, and the soil is the richest of prairie and alder bottom, than which there is no better farming land on the continent. Some of the land is situated on the banks of the river and at the present time a road is being built through the property from the river to the Yale wagon road. It will be sold in block or sub-divisions to suit purchasers. The terms are extremely liberal, viz.; one-fourth cash, the balance in five yearly instalments with interest at 7 per cent. Title is the Crown Grants.

In view of the steadily increasing value of land in this part of the Province, we would respectfully call the attention of farmers and speculators to this sale.

RUSSELL, McDONALD & CO.,
dwoc27td *Auctioneers.*

POSITION IN SLEEP.

How to Enjoy a good nights rest.

According to Dr. Granville the position affects sleep.

A constrained position generally prevents repose, while a comfortable one woos sleep.

He say's:

Lying flat on the back with the limbs relaxed, would seem to secure the greatest amount of rest for the muscular system.

This is the position assumed in the most exhausting diseases, and it is generally hailed as a token of revival when the patient voluntarily turns on the side; but there are several disadvantages in he supine posture which impair and embarrass sleep.

Thus, in weakly states of the heart and blood vessels, and certain morbid conditions of the brain, the blood seems to gravitate to the back of the head and to produce troublesome dreams.

In persons who habitually, in their work, stoop, there is probably some distress consequent on straightening the spine.

Those who have contracted chests, especially persons who have had pleurisy and retain adhesions of the lungs, do not sleep well on the back.

Nearly all who are inclined to snore do so in that position, because the soft palate and uvula hang on the tongue, and that organ falls back so as to close the top of the windpipe.

It is better, therefore, to lie on the side, and in the absence of special diseases rendering it desirable to lie on the weak side, so as to leave the healthy lung free to expand, it is well to use the right side, because when the body is thus placed the food gravitates more easily out of the stomach into the intestines, and the weight of the stomach does not compress the upper portion of the intestines.

A glance at any plate of the visceral anatomy will show how this must be.

Many persons are deaf in one ear and prefer to lie on that particular side; but, if possible, the right side should be chosen.

Again, sleeping with the arms thrown over the head is to be deprecated; but this position is often assumed during sleep, because circulation is then free in the extremities, and the head and neck and muscles of the chest are drawn up and fixed by the shoulders, and thus the expansion of the thorax is easy.

The chief objection to these positions are that they create a tendency to cramp and cold in the arms, and some times seem to cause headaches during sleep and dreams.

These small matters often make or mar comfort in sleeping.

The Dollar.

Our world dollar dates back to 1785, when a resolution was passed in Congress which provided that it should be the unit of money of the United States, Another resolution was passed in 1875, August 5th, providing that it should weigh 375.64 grains of pure silver.

The mint was established in 1792 and was then required to coin silver dollars containing 371.25 grains of pure silver. This was due to the influence of Alexander Hamilton. No dollars were coined until 1794, and then irregular. They are worth now $100 each. In 1794 the coinage of regular dollars began. Our coin was an adaptation of the Spanish milled dollar, a coin very popular wherever the Spaniards travelled. The coin was called "piastre," meaning a flat piece of metal; it is synonymous with piaster. It is supposed that the Spaniards took the German "thaler" and called it by the name of "piaster."

The word dollar is entered in Bailey's English Dictionary of 1745, and was used repeatedly by Shakspeare at the beginning of the Seventeenth Century, especially in Macbeth, ii, 2, 62: "Till she disbursed . . . $10,000 to our general use." (See also the Tempest ii, 1, 1.). The question where Shakespeare found the word dollar is answered by the fact that the Hanseatic towns maintained a great establishment called the Steel Yard in London. The Steel Yard merchants were mostly North Germans, who would call the German thaler as it was spelt, "dah-ler." The same merchants occasioned the word sterling, an abreviation of the word "esterling." As the Hanseatic trade was particularly brisk on the Baltic and in Russia the standard coins of the Hanse merchants were called esterlings, and sterling came to mean something genuine and desirable. The word dollar is the English for thaler, the first of which was coined about 1486, and corresponds quite closely to our present American silver dollars. The word thaler means "coming from a dale or valley," the first dollars having been coined in a Bohemian valley called Joachimsthal. It was under Charles V., the Emperor of Germany, King of Spain and Lord of Spanish America that the German thaler became the coin of the world.

Essaying the Knock Out Blow.

"The reason why so many pugilists are breaking their arms in fights," said a local boxer, "is found in their crazy recklessness to get in a knock out blow. This blow is aimed at the jugular vein, and the pugilist, in attempting to accomplish this feat, often strikes too high, driving his hand with terrific force against his opponent's skull and snapping the big bone in his wrist as though it were a pipe stem. It often happens, too, that the pugilist essaying the knock out blow drives his hand against his opponent's elbow, which has been thrown up as a guard. This proves almost as disastrous to the aggressor as the cranium hit. It is time that this swinging knock out blow was discarded. A straight punch from the shoulder was good enough for the old timers. It ought to be good enough now."

We are told to keep our eyes ever open, but it is often well to keep them shut. One of the chief causes of nervous disease is the straining of the eyes and the constant tension of the mind. When stretched out in the barber's chair do not try to read a newspaper, but close your eyelids under the soothing undulations of the lather brush or the dreamy sensation of the shampoo with the darky's big hands gliding over your pate. In a railway carriage, instead of staring out of your sockets at the landscape that is being torn into shreds before you, fold your arms, bow your head and listen to the whirr of the wheels that make an accompaniment to the wordless song crooning in your heart. Again, in the concert room, in place of surveying the audience critically or watching the beauty of the singer behind the footlights, shut your eyes once more and let the music sink into your soul, rocking it on waves of emotion and wafting it insensibly into the ideal world. In a still higher sense to keep our eyes and mouth shut is one of the wisest lessons of life.

TERMS OF CREDIT.

The Time Allowed by the Various Countries of the World.

The following data regarding the terms of credit allowed in various countries are derived from reports of United States consuls published by the Government.

It appears that in Germany the credit system is very widespread, and that the time allowed purchasers to settle their accounts is generally much longer than in France and England. Nearly every commercial and manufacturing branch of business has its own particular terms of credit, and there is no uniformity in this respect.

In England, a payment of the price of the goods delivered is required at the end of three months, dating from the day of shipment.

In France, a four-month's acceptance is required to be sent in settlement of the invoice.

In Italy, but little credit business is done and none without good security being given.

In Spain, four-fifths of the transactions are done on a cash basis, while in Portugal great liberality is shown, and quite a long credit is usually allowed.

In Austria, it is scarcely possible to do business without allowing a very long credit, which is nearly always one of six months.

In Turkey, even objects of prime necessity are sold on credit, and in this country, as well as in Russia, the time allowed is in most cases twelve months.

In Canada, settlements are made at the end of thirty days, with a discount of five per cent. Sometimes a credit of from three to six months is allowed but in this case there is no discount granted upon payment of the account.

In Mexico the large commercial houses willingly give credit of from six to eight months, and in the retail trade long terms are given customers in which to settle their accounts. In Costa Rica a credit of from six to twelve months is given in case of merchandise imported from Europe, in order that the goods may be easily and quickly disposed of. But since this system of credit has often led to losses it is now being given up.

In Cuba the time fixed for payment is generally from four to five months after delivery of the goods.

The consul general of the United States at Rio states that one of the greatest drawbacks to commercial intercourse with Brazil resides in the necessity of allowing too long a credit. At Rio Janeiro, as in Buenos Ayres, the minimum credit is six months and often more.

In the Bermudas, accounts are settled but once a year. The 30th of June is the day usually fixed for the payments.

In Asia Minor, a credit of but two or three weeks is in most cases all that is allowed.

In China, it is not customary to give credit. Money is obtained from lenders, who exact an interest of from 8 to 12 per cent. Business is nearly always conducted upon a cash basis.

In Australia, a credit of six months is generally allowed.

The Street Car Conductor Talks.

The callow conductor poked his head into the car and said in a loud, distinct tone, "Fourteenth street station."

"When that young fellow knows his business he'll say, 'Fourteenth street,'" commented the veteran of the road, who had just informed the passengers that the street they had reached was "Tenth."

"Know any funny stories? See that gentleman in the second seat there? He's a broker, and a great covey for practical jokes. He's getting fat now, and will die of apoplexy one of these days laughing over his own fakes. When he goes from his house or office to take a train, he will walk very leisurely until he is within a few yards of the station, when he will suddenly break into a run and rush up the stairs. If there's one thing more than another that a man hates to miss it is an elevated train, and when the fellows behind him see the broker begin to run, every Tom, Dick and Harry of them within five blocks rushes pellmell to the station. The broker appears to enjoy it. I've heard say that running was good exercise; but it seems to make some men sweat a great deal. Haven't they got onto it by this time? Young man, when you have lived as many years in the world as I have, you will find out that nothing that appeals to the gullibility of human nature ever becomes a chestnut.

"Yes, I'm somewhat of a philosopher, but it was the profession that made me so. You will notice that a woman never gets out of this end of a car. It doesn't matter even if she is in the rear seat, when she wants to get out she will push her way right through the car, though it is packed like a sardine box. It is superstition or fashion? Well, that's hard to say. In a horse car she will always walk out the other way, but perhaps in that case she is afraid of the horses."

The Divers in Torres Strait.

No white diver ever tried pearl fishing in Torres strait who could begin to fill the place of the amphibious natives. They work for hours at a time, at depths of 90 to 100 feet under water. They are more venturesome, too, than the white divers, and think nothing of sticking their hands into all the holes in the coral, although the marine monsters they find at these depths are not always pleasant acquaintances to stir up.

The white divers were found to be useless as soon as the shallow waters around the island were worked out. When the fishers had to go out to sea for shell, the black fellows proved that they could stay under longer and go deeper than the whites. The result was that they drove their white competitors out of the business. The supply of divers for the purposes of the first class pearl shell trade is not abundant even among the natives, and the rivalry for their services is so great that they command enormous wages. Many of them get $100 a month and a good percentage of the pearls they find. Black fellows who can stay below many hours in ninety feet of water often earn from $2,000 to $2,500 a year, though in any other business they could not command $1 a week. After eight or nine months' hard fishing they usually strike work, whether the bosses like it or not, and off they post in parties of five or six to Sydney, where they lead riotous lives for a month or six weeks until all their money is spent. Agents of the white employers always go along to induce them to spend their cash as fast as possible and get back to work again.

France's annual consumption of ardent spirits per capita is 1.32 gallon; Germany's, 1.14 gallon; Great Britain and Ireland's, 1.01; and America's about 1.24. France consumes 38.88 gallons of wine per capita, against less than half a gallon per capita for the other nations.

Constipation

Is a universal and most troublesome disorder. It causes Headache, Mental Depression, impairs the Sight and Hearing, destroys the Appetite, and, when long continued, causes Enlargement of the Liver, Inflammation of the Bowels, and Piles. Constipation is speedily cured by Ayer's Pills.

For a number of months I was troubled with Costiveness, in consequence of which I suffered from Loss of Appetite, Dyspepsia, and a disordered liver. My eyes also troubled me. I was compelled to wear a shade over them, and, at times, was unable to bear exposure to the light. I was entirely

CURED BY USING

three boxes of Ayer's Pills. I have no hesitation in pronouncing this medicine to be the best cathartic ever made.—James Eccles, Poland, Ohio.

I suffered from Constipation, and, consequently, from Headache, Indigestion, and Piles, for years. Ayer's Pills, which I took at the suggestion of a friend, have given me effectual relief. I commenced taking this remedy two months ago, and am now free from Constipation, the removal of which has caused my other troubles to disappear, and greatly improved my general health.—W. Keeler, Amherst, Mass.

I suffered from Constipation, which assumed such an obstinate form that I feared a stoppage of the bowels. Two boxes of Ayer's Pills cured me, completely.—D. Burke, Saco, Me. tt

Ayer's Pills,

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists and Dealers in Medicine.

Business Directory.

The following Business Directory relates only to persons whose advertisements appear in the BRITISH COLUMBIAN. It has been found true, as a rule, that persons who advertise liberally are liberal in their dealings, and many persons make it a rule to give preference in their dealings to those establishments which advertise freely. The following list is arranged alphabetically:

WHAT PHYSICIANS SAY ABOUT THE

STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

The Starr Kidney Pad, manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To all to whom these Presents shall come.—GREETING.

A PROCLAMATION.

P. Æ. IRVING, *Deputy Attorney-General.* } WHEREAS it is provided by Secton 3, of an Act passed by the Legislature of British Columbia, in the fiftieth year of Our reign, intituled "An Act to repeal (in part) the 'Sumas Dyking Act, 1878,'" that the said Act shall not come into force until a day to be named in a Proclamation by the Lieutenant-Governor and published in the *British Columbia Gazette.* And whereas our said Lieutenant-Governor, by and with the advice of his Executive Council, has been pleased to name the Thirty-first day of January, one thousand eight hundred and eighty-eight, as the day on which the said Act shall come into force.

NOW KNOW YE therefore that in pursuance thereof, We do hereby proclaim the said Thirty-first day of January, one thousand eight hundred and eighty-eight, as the day on which the said "Act to repeal (in part) the 'Sumas Dyking Act, 1878,'" shall come into force.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of the said Province to be hereunto affixed; WITNESS, the Honourable HUGH NELSON, Lieutenant-Governor of Our said Province of British Columbia, in Our City of Victoria, in Our said Province, this twenty-sixth day of October, in the year of Our Lord One thousand eight hundred and eighty-seven, and in the fifty-first year of Our Reign.

By Command.

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada.

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

Liberal Conditions as to Residence and Travel.

D. ROBSON, Manager.

Daily British Columbian

Wednesday Evening, Nov. 16, 1887.

Seven carloads of freight arrived this morning from the east.

Don't eat too much turkey to-morrow and remember the poor.

Traffic to Vancouver by the stage lines is picking up considerable.

A severe frost last night covered everything with crystals this morning.

Don't forget the bazaar and entertainment in the Drill Shed to-morrow.

Dr. I. M. Maclean has had a telephone put in his residence, Agnes st.

Temperature to-day: Max. 48 deg. Min. 32 deg. Bar. 30.45. Calm and clear.

To-morrow being Thanksgiving Day, there will be no issue of the COLUMBIAN.

The steamer Yosemite left for Victoria this morning with a large freight and 20 passengers.

The work of cementing the front of the Masonic block has commenced. It is going to be very handsome when finished.

The str. Dunsmuir cleared for Nanaimo this morning with a full load of freight, ex-C.P.R., and a number of passengers.

Although it was windy on the river river yesterday Capt. Rudlin reports that the water on the gulf was not running very high.

Capt. Savary has returned to Vancouver and reports that the Pearl has disappeared. It is supposed she broke from her anchors and either drifted away or sunk.

Thanksgiving services will be held in the Methodist and Presbyterian churches at 11 o'clock to-morrow morning, and in the Baptist church at 7:30 o'clock in the evening.

The steamer Irving left for Hope this morning taking 30 tons of freight for up-river ports, and a few passengers. On her down trip she will bring a band of Similkameen cattle.

The rifles parade to-night in the Drill Shed at 8 o'clock sharp. It is to be hoped the men will turn out in better numbers than they have been in the habit of doing for some drills back.

Mr. E. E. Rand (Rand Bros.), has been interviewed at Toronto by a *Globe* reporter and gives nearly two columns of British Columbia. Mr. Rand appears to be booming Vancouver in the east.

Freight arrivals have fallen off considerable during the past few days, owing to the block on the line. As the blockade has now been raised, the freight department in this city will soon be enjoying the pleasures of double work.

The str. Rainbow arrived at 5 o'clock last night from Victoria with 30 tons of freight and a number of passengers. She cleared on the return trip this morning with 65 bales hay, 1000 cases salmon and 100 sacks of oats; the two latter items were taken on at Ladners.

A Chinaman appeared befort the police magistrate this morning, charged with a contravention of the fire by-law in not having his chimney built in accordance with the requirements of the law. A small fine was inflicted, which, it is to be hoped, will serve as a warning to others.

We have the American edition of the *Illustrated London News* for the 5th inst., with its splendid illustrations. This edition, although only $4 a year, is quite equal to the English edition which costs $10. Published by the Illustrated London News Co., Potter Building, New York.

The fish market is furnished with almost ever conceivable kind of fish, caught on these waters, except fresh salmon. A new feature on the market is the sardine which connoissieurs say equal in quality and flavor the best French sardine. Black cod are on the market but are not plentiful yet.

Messrs. Ackerman Bros. are just finishing a very successful season's work, and with which they are well pleased. During the past summer they have built by contract 12 houses, chiefly dwellings, all of which are completed but three and they are so far advanced that the weather, be it good or bad, will not interfere with the work.

Fine Apples.

Mr. Joseph Burr, who resides on Cunningham street, sends us a russet apple from his orchard, which measures eleven inches in circumference and weighs nine and one-quarter ounces. This is exactly the weight of Mr. Burr's russets last year. These apples are beauties, and would make the mouth of a Winnipegger water.

To-morrow's Shooting Matches.

The shooting matches to-morrow, under the auspices of the New Westminster Rifle association, promises to be very successful. If the meeting is favored with fine weather, the probabilities are that the matches will be keenly contested, as from all we can learn, the attendance will be large and a few crack shots will be among the number.

A Needed Explanation.

Our cotemporary of the *News* this morning explains that in his remarks on the proposed advertising folder for this city and district he "strongly approved of the scheme." Well, if he had said so at first people might have been saved from fruitless conjectures. No one reading his article of Sunday would suppose that he "strongly approved of the scheme."

K. of L. Concert and Ball.

The Knights of Labor concert and ball last night was a great success. The concert programme was well chosen and carried out nicely in every detail. The comic selections were especially well rendered and kept the audience in roars of laughter while they lasted. After the concert was over the floor was cleared and dancing commenced which was kept up with much spirit until this morning.

Monte Carlo Mine.

Mr. Frank Allingham arrived in Kamloops this week, bringing with him some fine specimens of quartz taken from his mine up the North Thompson River above Clearwater, about 100 miles from here. Mr. Allingham, while prospecting last year, made the discovery and staked out the claim, but did not record it till September last. Some of the ore sent to Ottawa for assay was found to contain a little over 4¼ oz. of gold, 21½ oz. of silver to the ton. He will commence work on his mine in the spring.—*Sentinel.*

A Large Nugget.

Rev. Father Lejune returned from a missionary trip to the Granite Creek country on Tuesday. He brought with him several fine specimens of gold nuggets, amongst which was one weighing four ounces, worth about $80, an extremely fine specimen. This nugget was picked up at Boulder Creek, about 12 miles north of Granite Creek. Father Lejune says that quite a number of miners are working at Granite Creek and are making from $3 to $8 a day. The Gladstone tunnel is being worked with good success, and experts say that there is plenty of gold in the vicinity of the creek. A company is now mining quartz at Toulameen, and is doing well.—*Sentinel.*

Our Climate.

The Victoria *Times* publishes it Tuesdays issue, a comparision of the rainfall between Victoria and Westminster, which comparision it takes much care and trouble to prove is altogether in favor of Victoria. The article also points out, particularly to people outside of the province, that the precipitation is fifty per cent less in Victoria than "on the most favored section of the Mainland." Nobody for one moment denies that the rainfall in Westminster is greater than in Victoria, but had Victoria our rainfall Beacon Hill and other localities would not bear such a parched appearance and possibly the Island crops would compare favorably with those of Westminster district. The argument used by the *Times* against our district is a very poor one and goes to show how eager our island cotemporaries are to decry the mainland to their own advantage. By the way, 2.65 inches of rain fell in 24 hours at Victoria last week; during the same time 2.13 inches fell in Westminster.

A Mean Trick.

While the police were on the lookout for a Chinese chicken thief the other day they met with a piece of knavery which we can safely say has never been resorted to by the almon-eyed celestial in this city before. One of the Chinamen, who is charged with having a stolen one-eyed hen in his possession, in order to clear himself offered to pilot the police to the abode of the true thief. The searching party reached the alleged thieves residence, but to their great grief found it untenanted except by a negro with straight hair. As the difference between a negro and a Chinaman is so great the detectives passed him by without a second glance and proceeded to another rendevous equally notorious for the doubtful character of its inmates. Nothing however was found in this place and the searchers returned to the bad Chinaman's house in hopes that he had returned, and here a surprise awaited them. The supposed negro turned out to be no other individual than the missing celestial, but alas, he had taken flight, leaving nothing but a blanket behind as a souvenir to his pursuers.

Ayer's Sarsaparilla acts directly and promptly, purifying and enriching the blood, improving the appetite, strengthening the nerves, and invigorating the system. It is, in the truest sense, an alterative medicine. Every invalid should give it a trial.

"No, darling," said a Burlington mother to a sick child, "the doctor says I mustn't read to you." "Then, mamma," begged the little one, "won't you please read to yourself out loud?" *Burlington Free Press.*

Hard and soft corns cannot withstand Holloway's Corn Cure; it is effectual every time. Get a bottle at once and be happy.

The Duluth and Manitoba Road running Trains to the Boundary.

Passenger trains began running yesterday on the Duluth and Manitoba, the Northern Pacific extension to the boundary. The trains leave East Grand Folks at 7.50 p. m. The distance is 92 miles. The line strikes northwestly from Grand Folks, then swings to the northwest, crossing the Manitoba at Grafton, running between that and the river to the boundary. Another line has been surveyed northwesterly which, it is supposed will eventually tap the boundary at a point further west. The Northern Pacific people have little to say about the Red River Valley road, which the Province of Manitoba is trying to build to meet the Duluth and Manitoba, but have apparently given up getting to Winnipeg this season.—*St. Paul Pioneer-Press.*

Personal.

Wm. Sutherby, of Ladners, was in the city to-day.

Miss Black returned yesterday from a visit to the capital city.

J. B. Thornton, of Vancouver, was in town yesterday and returned home to-day.

Mrs. James Cunningham returned home to-day from Vancouver where she has been for the past week.

Mrs. E. B. Keith who has been visiting at Vancouver for some days, returned home to-day.

James Wilson, supt. C.P.R. Telegraph Co., returned from Victoria to-day. Mr. Wilson leaves to-morrow on a trip to Toronto, and will be absent several weeks.

Guests at the Colonial: A. Ferguson, E. M. Fort, Simon Lieser, Mr. Booth, Victoria; Wm. Sutherby, Ladners; J. B. Thornton, Fred. Rogers, Mr. and Mrs. Hartney, Vancouver, H. Langelier, Thos. Nixon, jr., Montreal; D. McGillivray, Sumas.

From Chilliwhack.

(Correspondence of the Columbian.)

CHILLIWHACK, Nov. 14.—Mrs. Isaac Kipp, Mrs. J. Reece, and Mrs. A. Cawley arrived here to-day from Ontario, where they have been on a visit for the past three months. They enjoyed themselves very much while away, and look well after their trip. Mrs. Kipp's father Mr. Nelnes, accompanied them; he is over four score years, and is yet hale and hearty.

The work on the new methodist personage at Centreville, is progressing rapidly. The contractors, Bailey & Whillie, with their assistants are improving every hour of fine weather, and will no doubt complete their contract by the specified time. When completed it will be a substantial and attactive addition to our growing village. Rev. W. Hall and his family expect to take possession before the New Year.

Rev, Mr. Allen, English church minister, from England, has with his wife arrived at Centreville, and already taken possession of the Vicarage.

Mr. Innes has the contract for the gravelling of the trunk road, from Mrs Evans' to the Chilliwhack bridge, and is at present working with six horses. It seems a pity that the work was not done when the road was dry. As it is at present the pure soil of this valley on the road bed is worked into pure mortar and is more fit for daubing stables.

There is an abundance of geese and ducks on the Sumas prairie, and some of the descendants of "nimrod" have been trying to make their number, but from reports there was a good deal of ammunition expended for naught.

Mr. T. C. Berchard, public school teacher, Norland, writes: "During the fall of 1881 I was much troubled with Biliousness and Dyspepsia, and part of the time was unable to attend to the duties of my profession. Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure was recommended to me, and I have much pleasure in stating that I was entirely cured by using one bottle. I have not had an attack of my old complaint since, and have gained fifteen pounds in weight."

Latest Manitoba News.

WINNIPEG, Nov. 11.—There are a good many rumors in reference to the local political situation in circulation. The *Free Press* charges that Contractor Holt gave the government $40,000 to induce them to hand over the provincial bonds for the Hudson's Bay Railroad contract. Lariviere is reported to have resigned, and defections have arisen among Norquay's supporters, making the present situation decidedly complicated. It has been well established that the local government instigated the statements last fall about the Hudson's Bay Railroad contract solely as an electioneering card. There appears to be little doubt that the disaffections in the local government ranks will make an early dissolution a necessity.

John Taylor, of Headingly, will be the opposition candidate for Assiniboia

WINNIPEG, Nov. 13.—The *Call* states that Royal will be made Lieut.-Governor of the Northwest and that Bain will receive the Manitoba judgeship.

No doubt the political situation is troubled at present. Leacock and Prendergast, two of the supporters of the government, have soured and Norquay says unless they give him cast iron pledges of support he will dissolve the legislature.

Justice Killam this morning gave his decision against the province in the Dominion injunction against the Red River road. His decision, however, touches only upon the position as it stands had the road been built under the general railway acts, instead of under the provincial public works act.

WINNIPEG, Nov. 14.—A movement is on foot for the construction of the new threatre and hotel combined, in Winnipeg, at a cost of two hundred thousand.

Rev. Mr. Gordon preached his farewell sermon to the Ninetieth Battalion yesterday morning, and to his congregation in the evening.

Worms derange the whole system. Mother Graves' Worm Exterminator deranges worms, and gives rest to the sufferer. It only costs twenty-five cents to try it and be convinced.

Late Telegraphic News.

THE PANAMA CANAL.

PARIS, Nov. 15.—M. DeLesseps has written M. Rouvier asking the authority of the government for the issuance of a loan of lottery bonds on the Panama Canal. M. DeLesseps states that his negotiations with the famous Engineer Meiffet, contemplate the insuring of a passage across the isthmus of a traffic to aggregate 7,500,000 tons at the outset, reserving the full completion of the canal for the future, as in the case of the Suez Canal.

THE EMPEROR STILL HAS HOPES.

LONDON, Nov. 15.—The Emperor of Germany still cherishes hopes of the Crown Prince's recovery, and devotes some hours of each day questioning his doctors and others as to their opinion. It was at the personal request of the Emperor that Dr. Braham, Professor Bergman's chief assistant, undertook the journey to San Remo, and it is understood that his purpose in going there is not to perform the operation of tracheotomy, but to study the case of the Crown Prince as closely as possible, and report to the Emperor the slightest change in his condition. The *Post* prints extracts from the notes of Mackenzie and Professor Bramann relating to the case of the Prince and says that despite the assertions of the German physicians, that the condition of the patient is due to mistaken treat- on the part of Dr. Mackenzie, that the specialist is still in high favor at the German court.

He has also the full confidence of the suffering Prince.

Gilbert Laird, St. Margaret's Hope, Orkney, Scotland, writes: "I am requested by several friends to order another parcel of Dr. Thomas' Eclectric Oil. The last lot I got from you having been tested in several cases of rheumatism, has given relief when doctors' medicines have failed to have any effect. The excellent qualities of this medicine should be made known, that the millions of sufferers throughout the world may benefit by its providential discovery."

FIRST RELIEF, ULTIMATELY A CURE. These are the successive effects of one of the most deservedly popular remedies in the Dominion, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which reforms an irregular condition of the bowels and liver, invigorates the stomach, renews digestion, and changes the current of the blood from a sluggish and turbid into a pure, rapid, and fertilizing stream.

ST. PAUL'S CHURCH. Services every Sunday at 11 A. M. and 7 P. M. in the Church, St. John street, below Royal avenue. Seats free, all are cordially invited. Sunday School at 2.30 P. M. (fe28tc)

PETER GRANT,
fe23-tc Secretary.

C. C. Jacobs, Buffalo, N. Y., says:—"Dr. Thomas' Eclectric Oil cured him of a bad case of piles of 8 years' standing, having tried almost every known remedy, 'besides two Buffalo Physicians,' without relief; but the Oil cured him; he thinks it cannot be recommended too highly. There being imitations on the market of Dr. Thomas' Eclectric Oil customers will see that they get the genuine.

NOTICE.

To Claimants of Land in New Westminster District which was formerly reserved under the provisions of the "Sumas Dyking Act, 1878."

ANY PERSON CLAIMING TO BE entitled to pre-empt or purchase lands within the area embraced by the "Sumas Dyking Act, 1878," must, before the 1st day of February, 1888, make, and file with the Assistant Commissioner of Lands and Works for the District, a declaration in duplicate signed by himself and two residents in the locality of such lands, stating the Township and particular quarter-section claimed, the date of locating and particulars as to occupation, and fully describing the nature and value of the improvement made. Blank forms for declaration can be obtained from Mr. Chas. Warwick, Government Agent, New Westminster.
