HEAVY FALL OF SNOW IN THE SIERRAS.

SAN FRANCISCO, Feb. 26.—Dispatches received to day report a heavy fall of snow in the Sierras. For the 24 hours ending 7 a.m. to-day six inches of snow fell at Colfax, 12 inches at Goldrun, 12 inches at Alta, 14 inches at Blue Canon, 12 inches at Emigrant Gap, 18 inches at Cisco, 18 inches at Summit, 24 inches at Truckee, 9 inches at Prosser Creek, and 15 inches at Boca. Intense cold also prevailed in this region. Thermometer is 36 deg. below freezing point at Truckee, 24 below at Prosser Creek, 7 below at Renoa, and 26 below at Boca. Weather is now clear.

THE WEATHER MODERATING.

HELENA, Mon., Feb. 26.—The weather is moderating and the stock men are confident that in a few days the ranges will be comparatively free from snow.

SMALL-POX IN FRISCO.

SAN FRANCISCO, Feb. 26.—The first case of small-pox imported into the city from the south has been discovered. The victim is a male resident of Texas, who started with his wife for a trip to California and stopped at El paso and arrived here Saturday last, when the gentleman was taken suddenly ill. Health-officer Mears pronounced it a case of small-pox.

KNIGHTS OF LABOR VS. CAPITAL.

NEW YORK, Feb. 26, 6 p. m.—There are now more than 5,000 silk operatives out of work at Paterson, N. J. The trouble started with 1800 dyers, because their employers would not agree to schedule wages and conditions. The first of the conditions was to the effect that none should be employed but Knights of Labor and members of the union, and that all employers should deduct from the wages of the hands their union dues and assessment. The employers said they could not do this. It was a question of control of their business, and if it had to be settled it was best to settle it now, as the spring and summer stock had been manufactured and they could afford to shut down several months. December may be said to begin the work of silk manufacture. No more warps will be given out, and as soon as the looms are empty weavers will be laid off. After that the spinners and workmen in the other departments will be laid off. The number out is about one-third of all in the business in the city. If the strike be kept up two weeks longer the remaining 10,000 workers will be idle in one way or another. It is a loss of hundreds of thousands of dollars to the city's commercial business.

SHAKEN BY THE EARTHQUAKE.

NICE, Feb. 26.—Montfort Chateau at Colle, is leaning like the far-famed tower of Pisa. The queen of Wurtemberg has given £900 for the relief of the distressed sufferers, and the king and government of Italy have subscribed £10,000.

AN IMMENSE FALL OF SNOW.

ST. PAUL, Feb. 26.—Last night snow commenced falling throughout the state, accompanied by a high wind which caused it to drift badly. This morning all the roads are blockaded and the storm still is raging, with no prospect of abating. In some places drifts many feet deep are causing more trouble and delay than any previous blockade this winter.

RUMORS IN PARIS.

PARIS, Feb. 26.—The bourse presented a healthier tone to-day at the close, on account of rumors that the Goblet cabinet would be replaced by one headed by De Freycinet.

## The Chinese Outrage.

Details respecting the outrage committed upon the Chinese at Vancouver last week leave no doubt that it was a heartless and brutal affair. The Chinamen were driven from their camp roughly, and we are told that three or four big strong men were seen kicking one poor, helpless Chinaman who was afraid to offer the slightest resistance. Several of them were driven into the water and kept standing there with the thermometer near the point of freezing. The law should deal firmly with the men who were guilty of this inhuman conduct. These Chinamen were committing no wrong in coming to Vancouver in search of employment, and they were just as much entitled to protection as if they had been white men. It is not the Chinese who are to blame, but those who bring them into the place and give them employment. It is not necessary for us to repeat that we regard the presence of large numbers of Chinamen in this country as a great evil, and that every fair and legitimate means should be employed to get rid of them. But so long as they are here and behave themselves, they must have the protection of British law. What would these cruel and thoughtless people who abused the Chinese at Vancouver think if they were in China and received such treatment at the hands of the people of that country! It is a poor rule that does not work both ways. If we refuse protection to Chinamen in British Columbia, we need not be surprised to learn that in China all protection is withdrawn from British subjects, and they are forced to suffer insult and indignity. We must expect to receive the same kind of treatment we give.

## The Herald Again.

Last week we devoted considerable space to a discussion of the Vancouver *Herald's* remarks on the present political contest in this district, and pointed out how wholly our cotemporary misapprehended some of the matters which he attempted to discuss, and how cunningly he misrepresented others. In his issue of Friday our cotemporary returns to the subject and projects some new ideas quite in keeping with his former observations. As these ideas, or some of them, are being industriously circulated by Mr. Chisholm and his followers with the object of making capital against Mr. Trapp, we hope our readers will pardon us if we refer again to the *Herald's* criticism. Our cotemporary says that temperance is not the main question in this election, and lays it down as a principle that "a man's life ought to be a better guarantee of character than a promise." It may be true that temperance is not the main issue in this contest, but it is an issue nevertheless of very great importance. Would our cotemporary be good enough to tell us what the "main" issue is? There is only question, we believe, mentioned in Mr. Chisholm's address with which Mr. Trapp has not declared himself in sympathy. In Mr. Trapp's address there are only two subjects mentioned which Mr. Chisholm cannot endorse—one is the temperance question and the other is the question of Chinese labor. Now, what is the "main" question? Our cotemporary's principle—"a man's life ought to be a better guarantee of character than a promise"—we are disposed to accept in this instance without qualification. Let us see how the application of it will affect the standing of the two candidates. Against Mr. Trapp as a citizen, or against his business, no charge has been made even by the *Herald*. He stands before the public, so far as we know, blameless; so that his life ought to be a very good guarantee of character. Against Mr. Chisholm the serious accusation is made that for a number of years past he has been engaged in a business which has done more than anything else to degrade and curse and blast the lives of his fellow men. He has carried on this pernicious business not because it was patriotic or in the public interest, but because it brought money into his strong box out of the pockets of its miserable victims, of whom its tendency was to make fools and idiots and paupers and criminals. The *Herald* says "a man's life ought to be a better guarantee of character than a promise." Judged by his own principle, how can our cotemporary find a guarantee of character in the candidate he supports? He cannot successfully deny the above propositions. He cannot say, rather, that it is impossible for a man to be better than his business, because he is personally responsible for his business and the effects of it. So long, therefore, as our cotemporary supports Mr. Chisholm, so long must we question his professed anxiety for temperance reform, and the same remark applies with equal force to every professed friend of temperance who proposes to support Mr. Chisholm. Our cotemporary further says: "The proper power of temperance organizations is work by persuasion, to convince, not to coerce." Without stopping to dispute this, we may ask if the election of such a man as Mr. Chisholm is likely in any way to promote temperance by conviction! In conclusion the *Herald* declares, as it has before declared, that Mr. Trapp is merely a tool in the hands of Senator McInnes. We presume our cotemporary has received this piece of information from Mr. Chisholm, who is industriously circulating it about the district. But in this, as in other things, our cotemporary is very likely to be mistaken, and we ask him now to prove his assertion by credible evidence, or take it back!

ELECTORS
—OF—
New Westminster District.

GENTLEMEN:—I have already announced myself as a candidate for the seat made vacant by the death of our late representative, and as no election has taken place to fill that vacancy, I now offer myself at this, the General Election.

As it is my intention to visit and hold public meetings in every settlement of the district before election day, I will merely in this address refer to the different subjects that are vital to our interests as a district and province, which will be discussed at length on the public platform, *when I hope all aspirants for the honor* of representing you in the Commons will be present and take part in the discussion, of which due notice will be given

The following are some of the most important questions that will have my serious consideration:

**The Improvement of the Navigation of Fraser River.**—The New Westminster *Board of Trade* have, *with the assistance* of our late representative, been successful in obtaining a small appropriation for this purpose, which has been expended the past fall, and it will be the duty of your representative to secure such annual grants as will suffice to complete this important work, which will enable ships of the heaviest draught to navigate the Fraser river at all stages of the tide, and all seasons of the year.

**Squatters' Claims.**—With reference to this matter there has been gross neglect on the part of the Dominion Government, and I am of the opinion that those settlers who located their land under instructions from what is known as Mr. Trutch's pamphlet, should secure the title thereto free of charge—and the fact that settlers have been unable to secure their titles has acted very detrimentally to the interests of the province generally, and (if elected) I will be unceasing in my efforts to secure the adjustment of every claim in the district.

**Railway South.**—Another very important *matter in connection* with our district is railway connection with our neighbors south of the line. Several charters to connect this city and district with the American system of railways have been granted by our local legislature, but were unfortunately disallowed by the Dominion Government (doubtless through the influence of the C. P. R.) The position hitherto held by the Dominion House is now untenable, and the monopoly clause of the C. P. R. will have to be done away with. Should this be done there is no reason why railway construction should not commence in the near future, as our American cousins are ready and willing to commence work as soon as the way is open. I need only say that I shall use my best endeavors to obtain said railway connection and the abolition of the monopoly clause.

**Railway Grievances.**—The C. P. R. have maintained excessive rates for local traffic in this province and to points as far east as Winnipeg. This is not as it should be, and is one of the reasons why that great corporation should be taught that it is not the only power in the land, but that it must be made subservient to the interests of the people.

**Telegraphs and Railways.**—I am of the opinion that all telegraphs and railways should be owned and operated by the government in the interests of the people, as is partially the case in England, Ger*many and elsewhere, and shall (if elected)* do all I can to bring about this very desirable state of things.

**The Mails.**—I shall use my best efforts to have all settlements on the south side of the river supplied regularly with their mails from Ladner's Landing by way of the Grand Trunk road to Chilliwhack and any other places not already supplied with mail accommodation.

**The Temperance Question.**—Upon this question I feel very warmly and sympathize most heartily with all those who are anxious to do away with the evils caused by the liquor traffic and shall (if elected) give my hearty support to any measures that may be introduced to advance this very desirable object.

**The Chinese Question.**—With regard to this question, I consider it an unmixed evil, yet at the same time one of the hard-problems that this nation has to deal with. I deem it of vital importance that our Legislatures, both Federal and Provincial, should do their utmost to discourage this traffic, and at the same time use all legal means in their power to get rid of those Chinamen who are already amongst us.

The last question that I wish to bring before you is that of Independence. I again reiterate the statement made by myself in the papers—

**"In Politics, I am and will be thoroughly Independent."**

Several of the B. C. papers have taken up this statement and have said a great many uncomplimentary things concerning me, such as "being on the fence," "a Grit in disguise," and so forth. I therefore deem it necessary to explain what I mean by being thoroughly independent. I consider any member sent to Ottawa from this *Province pledged to support any particular* party has allowed himself to be fettered. The greatest evils which threaten the usefulness of the governments of the United States and Canada spring from party politics, and in the United States at the last presidential election a number of the best men of both parties voted independently, and for what they considered the *best interests of the country regardless of* party.

As an independent I shall endeavor to vote and act (if elected), first, in the interests of my constituents; secondly, in the interests of the province, and lastly for the general good of the Dominion, pledging myself neither to Grit nor Tory, but claiming the right as a free born British Subject to use my influence and vote on the side where I consider your interests and the interests of the nation lie.

I take this opportunity of soliciting the vote and influence of all, and while I shall feel very much honored if you elect me as your representative, I trust that time will prove that your confidence has not been misplaced.

I remain, Gentlemen,
Yours respectfully,
dwfe12tc T. J. TRAPP.

To the Electors of the Electoral District of New Westminster.

GENTLEMEN:—Shortly after the lamented death of our late Representative, Mr. Homer, I was solicited by a number of my friends, to allow myself to be nom*inated as a Candidate for the Representa*tion of the District of New Westminster in the House of Commons of Canada. The personal solicitation of friends, was shortly followed by requisitions so numerously signed, by prominent and influential Electors of the City and District, that I felt it to be my duty to place my services at their disposal. It is not therefore, Gentlemen, as a self-nominated candidate, that I ask for your support, but I do so in response to the request of over four hundred of your number.

To many of you, Gentlemen, who have known me for a long time, it is unnecessary for me to say, that I am perfectly familiar with the great and varied resources of this Province. My knowledge of its Mining, Fishing, Agricultural and Commercial advantages has been derived from actual experience, and will (if elected) enable me to place prominently before Parliament, the great resources of this Province, and the means necessary to be employed to aid in their further development.

It is impossible, Gentlemen, in an address such as this to do more than allude to some of the questions of interest and importance to you, which as your representative, I would consider it to be my duty to bring to the notice of Parliament. I will, however, enumerate a few matters of great importance to us all, in regard to which it will be my earnest endeavour to obtain beneficial legislation.

I will endeavour to have removed from the mouth of our noble River, every impediment to its free navigation, and have necessary lighthouses erected.

I will endeavor to secure to settlers and squatters an immediate title to their lands. This I consider to be a matter not only of justice, but also of expediency. *Heretofore great injustice has been done* to a valuable and deserving class of our population, to whom, had justice been done and facilities afforded for acquiring homesteads, the results of their industry would, ere this, have done much to develop the agricultural capabilities of this fine district.

I am aware, Gentlemen, that the num*ber of representatives to which each province* of the Dominion is entitled is based upon population, yet I believe that, owing to exceptional circumstances, such as the fact that this province contributes to the revenue of the Dominion a much larger percentage, according to population, than any of the other provinces; and also to the fact that large centres of population are rapidly being formed in this district—that it is entitled to a larger representation in the parliament of the Dominion, and which as a matter of justice I will endeavor to obtain.

I will also endeavour to obtain for the residents of this District better postal facilities, to which they are justly entitled.

I will use my best efforts to secure equitable rates on all railway and telegraph lines, and to have the same fixed by law.

The interests of British Columbia demand that every impediment in the way of constructing railways to our Southern boundary and other portions of this district be removed to aid in the development of our resources. I will endeavor to have this accomplished, and also to obtain aid for the construction of canals and the improvement of navigable streams.

I will also consider it my duty to render all possible aid to any legislation which seeks to simplify and render less costly the administration of justice, especially as between individuals and corporations.

*My political platform is, in the first* place, the interest of British Columbia, which I believe can be best served by my giving an independent support to the present government, which has not in the past been unmindful of the interests of British Columbia, and to whom we are indebted for the early completion of the railway, which has brought us into communication with the Eastern Provinces and Europe, and through the agency of which, we will in the near future, be placed in direct communication with Australia, China, Japan, and the Great Eastern Empire, which must prove to be of incalculable value to this province, and to this district in particular.

In conclusion, gentlemen, I have only to say, that I am prompted by a sincere desire to benefit this district and to aid in promoting its varied interests, and I ask your support only upon these grounds. It is my intention to see as many of you previous to the election as time and circumstances will admit of in the meantime.

I remain, Gentlemen,
Yours very truly,
dwfe8td DONALD CHISHOLM.

A young woman employed in a millinery establishment had a painful fall a few days ago. The speech by Erastus Wiman at the Toronto Board of Trade banquet has had a wide distribution throughout the United States, especially in the west. The New York *Sun* is very complimentary in its remarks, and says that it was a clever and effective speech and that there are few public men in Canada who can equal, much less surpass, Mr. Wiman in force or breadth of view or in the general equipment of a statesman.

A St. Petersburg correspondent describes the condition of Russia as in the highest degree anomalous. Notwithstanding the terrible depression in business, the reduction in value of Russian roubles, which are at a lower point than during the Turkish war, and the daily growing financial weakness of the government, all classes desire war as a relief from present stagnation. It is vainly urged that this will lead to some reconstruction and improvement of affairs.

Mrs. Hetty Green, the richest woman in America, her fortune being estimated at $25,000,000, recently paid a visit to Chicago to look after her property interests there, she being the owner of buildings valued at $1,000,000. While wandering through one of the structures to which she holds title, the janitor began asking questions, and not receiving satisfactory replies, asked her to withdraw. Mrs. Green admired the mans' vigilance so much that she increased his wages a dollar a week.

The excavations in Rome are now being conducted by the national government, the municipal government and private citizens. Hundreds of statutes and busts have been found, some of marble, others of costly bronze, many in perfect preservation. The government has spent within the last twelve years not far from $1,000,000, but it has been a remarkable business investment, for the value of the finds is placed at $4,000,000. So rapidly is the work going on that it is almost impossible to store properly from day to day the results of excavation.

## THEIR SIN FOLLOWED THEM.

**A Romantic Story of Wrong and Shame.**

Many years ago the president of one of the New York railroads had a very clever private secretary, who also, in his turn, became a railroad president. He had a wife and three children.

His patron and employer had a wife, who is a sister to one of the richest men in America and in the world. The secretary met her and the twain were as flax and flame. They cast all honor and duty aside for one another, and away they went together.

She being immensely wealthy, and he being what may be called rich, they doubtless thought that they could defy the conventionalities. They wandered to Japan, Egypt, Greece, Russia, seeking, in the excitement of change, relief from self-reproach. The woman, thinking that time had wiped out memory, returned.

She had beauty, a great name, immense wealth; society should receive her. She dropped the role of penitent, ceased to leave cards where she dreaded they would not be returned, and commenced the formation of a new social circle. She had a box at the opera, costly turnouts, gorgeous entertainments.

But before the season was half over she had to admit that something besides money is needed to obtain a sure footing in New York society.

Her plan had proven a failure. She determined to make another. She did; she made two or three in as many of our leading cities, always with the same result.

Then she determined to go to Paris. She furnished a handsome apartment, paid her respects at the American legation, returned the call of the minister's wife, attended church assiduously.

They were erecting a new church for the American colony. She went to Dr. Morgan, presented many letters, told him her desire to obtain a proper presentation in the society of the colony, and offered him a donation to his church of 100,000 francs if he would assist her.

The worthy doctor personally presented her to several ladies of his flock. One of these returned her call. The Sunday following the magdalen made a return call. After her departure an old friend of the hostess whispered:

"Is it possible you receive Mrs. So-and-so here? Don't you know," etc., etc.

In less than a week the whole society of the American colony was closed to her, and the church lost a donation.

Still she remained in Paris—where else could she go?—and her gay and withered lover, accompanied by his two daughters, came to share her apartments and her solitude.

A few months ago he left her for a business trip to this country. He died a few days back on his return voyage, at a small town on the South coast of England, with not a friend near him. More lonely than a widow she has been for years; what is she now?—[Exchange.

**"All Quiet Along the Potomac."**

While visiting the beautiful little town of Buena Vista, some time ago, I tumbled on some reminiscences of the brilliant genius who wrote, "All Quiet Along the Potomac To-Night."

Poor Thad. Oliver! Bright, fascinating, brilliant and dissipated. He could make the finest speech of any man at the bar. He was better half drunk than his brethren were in their coolest moments. His puns, his epigrams and jokes, to say nothing of his sweet little poems, were quoted by a large circle of enthusiastic friends. But he lived out his days before he had time to fulfil the promise of his youth.

I can well imagine how that sensitive soul was moved to formulate that grand poem as he stood picket at some lonely post beside the dark Potomac River, while—

The stars up above with their glittering eyes
Keep guard, for the army is sleeping.

He had no accurate notion of the value of his work, and the scrawl was passed from one to another of his comrades, and around the camp fire they read and commented upon it. They were true critics. One of his comrades told me that he had been moved to tears by the lines:

There is only the sound of the lone sentry's tread,
As he tramps from the rock to the fountain,
And he thinks of the two on the low trundle bed,
In the cot far away on the mountain.

And when the battle was over, when poor Thad. had been roughly saluted by the grim messenger, and lay in an unknown grave on a battle-scarred slope among the Virginia hills, then the literati read and wondered.

First one and then another of the sweet singers of the earth were credited with this masterpiece of poetry. And there lay the author, unheeding the wrangling and the conflicting criticisms of those who wisely sat themselves in the seat of judgment.

Hark! Was it the night wind that rushed
through the trees?
Was't the moonbeams so wondrously flashing?
It looked like a musket. "Ha! Mary, good-by!"
And the lifeblood was ebbing and splashing,
All quiet along the Potomac to-night;
No sound save the rush of the river;
While soft falls the dew on the face of the dead,
The picket's off duty forever!

—[Atlanta Constitution.

**What the Wallet Really Was.**

Bagley (confidentially to pickpocket on the back platform): "My good fellow, I wish you wouldn't try that."

Pickpocket (in great trepidation): "I, sir? Why, I—"

Bagley (soothingly): "There, there; don't apologize. You've been trying to pick my pocket, and I think it my duty to tell you that the wallet you're fingering is filled with bills which I've been trying to collect for six months, and I don't believe you can do any better."—[Philadelphia Call.

**Horrid De Jones.**

De Jones: "How did you like that blonde I introduced you to the other night?"

Silly Side: "Too tall. If I ever get married it will be to a girl who is petite."

De Jones: "Well, you're right. Of two evils, I have been told, choose the least."—[Chicago Rambler.

A number of young ladies have determined to giricott the dudes who drink.

WHAT PHYSICIANS SAY ABOUT THE

## STARR KIDNEY PAD.

"Treatment by Absorption has for some time been recognized by Medical Men to be the most simple and effectual means of conveying to Diseased Organs, "Curatives," but in cases of Kidney Disease and Complaints attendant thereon, successful treatment was practicably impossible until the introduction of the Starr Kidney Pad. It costs less than a single prescription and is immeasurably *more decisive and effective than any quantity of internal Medicinal dosing.* Worn immediately over the seat of Disease, its curative properties become absorbed by the diseased and enfeebled Organs, continuously and directly, as required to insure in return their healthy action and original vigour. It is comfortable to the patient and pleasant in its effects, and cures when nothing else can. The Starr Kidney Pad accomplishes positive, decisive results. A more valuable discovery as a true remedy for Kidney Diseases was never made.—*Medical Gazette*

**The Starr Kidney Pad,** manufactured in Toronto, is a permanent sure cure for diseases, disorders and ailments of the Kidneys, Bladder and urinary secretive system, or attendant complaints, causing pain in the small of the back, sides, etc., producing urinary disorders, such as too frequent, scanty, difficult, painful or copious micturition, inability of retention and sedimentary urine, dropsical symptoms, etc., denoting the presence in the system of diseases common to the urinary secretive organs—known as gravel, catarrh of the bladder and passages, Bright's disease, diabetes, dropsy, piles, nervous debility, etc. Send for pamphlet to LANGLEY & CO., Wholesale Agents, Victoria. ## TESTIMONIAL!

*Vancouver, 23rd June, 1886.*

MR. G. ROBERTSON,
Vancouver:

Representing Goldie & McCulloch,
Galt, Ont.

SIR.—We the undersigned having witnessed the terrible fire which wiped out of existence the young city of Vancouver, on the 13th inst., have, after the fire, examined the safes sold by you, some of which were put to the most severe test, having been surrounded by large quantities of lard and bacon, and we are pleased to testify to the remarkable manner in which every Safe sold by you preserved its contents, not only books and papers, but also thousands of dollars in paper money were taken out in perfect condition. We can, therefore, with the greatest confidence, recommend them as thoroughly fire proof:

## THE BRITISH COLUMBIAN Printing Company

(LIMITED.)

ON THE 10TH OF JANUARY, 1887, the COLUMBIAN Newspaper and Printing Concern was purchased by a joint stock company composed of citizens of New Westminster, to be known as the "British Columbian Printing Co., Limited." The concern has been for nearly a year owned and controlled by the British Columbia Stationery and Printing Company, of New Westminster, Victoria and Vancouver. The object of the new company is to continue the publication of the BRITISH COLUMBIAN newspaper and carry on a general printing and publishing concern, controlled entirely by those whose individual interest it will be to promote the development, especially of the Mainland. There will be no slackening of the energy hitherto displayed in the management of the establishment, and its patrons may rely upon receiving full value for their money. The COLUMBIAN will continue to be entirely independent in both Dominion and provincial politics, and will devote itself to the advancement of such schemes as may be considered in the public interest. The concern is now entirely separate from any other business, the book and stationery establishment in this city having been taken over by Mr. T. R. Pearson, who will continue to carry it on in his own name and for his own benefit. It is desirable that a daily newspaper should be maintained in this city, and the new company asks for public patronage on the ground that it is engaged in an enterprise calculated to promote the public welfare. It asks that the COLUMBIAN be judged on its own merits and supported only so long as its policy is consistent with its professions. In consequence of this business change all accounts due the concern must be settled without delay so that the books of the former company may be adjusted and closed. Address all communications and remittances to

HEAD OFFICE, TORONTO, CANADA

A HOME COMPANY.

This Association merits the confidence the Public is reposing in it from the following FACTS:—

The Security offered to policy holders is unsurpassed by any Company doing business in Canada,

It has no schemes of insurance, but the well-established lines, hence the policy holders cannot be misled as to their contracts.

Its statements to the public can be readily understood, its cash statement showing every item of income and how expended.

Its position is ascertained annually from a detailed valuation in which every item of liability is included.

Its progress has been unexampled in the history of insurance in Canada.

Its policies are indisputable after three years, and non-forfeitable after two years' existence.

Its profits are distributed upon an equitable basis. The profits to one class of policy holders are not lessened to give larger profits to any other class, which method affords superior advantages over the uniform bonus plan of distribution.

**Liberal Conditions as to Residence and Travel.**

Bradstreet's report a total of 209 failures throughout the United States during the past week.

Forty commercial travellers are on their way west from Winnipeg to invade British Columbia.

The *Colonist* refers to the recent attack on the Chinese at Vancouver as a "cowardly course to pursue."

The London *Free Press* says British Columbia is coming into greater prominence as a desirable field for settlement.

Evangelist Sankey has composed a new and taking hymn, and is interspersed with stanzas from some of his older works.

The Methodist Sunday school anniversary entertainment will be held on Monday, the 14th March. See advertisement.

No eastern mail arrived yesterday. Slides in the mountains are the cause of the delay. To-day's mail is expected at 6 o'clock this evening.

The Victoria papers have a political fit. The *Colonist* and *Star* are the most conspicuous in this line. Too much electioneering we guess!

Chas. Bloomfield, chief of police for Victoria, has been charged with neglecting his duties and a committee has been appointed to enquire into the matter.

The str. Idaho arrived from Alaskan ports at Victoria on Friday morning having on board $60,000 worth of bullion from the Treadwell mine on the Yukon river.

The tug Iris came down from the Brunette Mills this morning with a scow for Vancouver. On account of float ice in the river, however, it was decided to postpone the trip until to-morrow.

Gaspard Pacaud, now a member of the Canadian house of commons, used to be a clerk in a Detroit dry goods store. He is only 27 years of age and is said to be the handsomest man in parliament.

Robert Nimmo, a native of Peterboro, Ont., died in Juneau City, Alaska, on the 16th inst., aged 52 years. He is referred to by the Alaska *Free Press* as having been a pioneer and an energetic and upright citizen.

We have been requested to say that the meeting proposed to be held this week, for the purpose of forming a building society, has been postponed until some future day. Politics this week, and other things afterwards.

Frank Granville, a Tacoma swindler, escaped from custody Saturday and was taking for Victoria on the Sound steamer when he was captured at Port Townsend. On his person was found a certificate of deposit for $4000 on the bank of B.C.

Our Church-st. cotemporary finds fault again with the telegrams published in the DAILY COLUMBIAN, and says they must be received from a "very polluted source." They are received from the press association, and are the very best that can be obtained. Our cotemporary himself has had [illegible] experience in the way of t[illegible] we are inclined to think he found his "source" a good deal worse than ours has been.

The str. Yosemite made her appearance in the river about a mile and a half below the city yesterday afternoon, but was obliged to put back to Ewen's cannery wharf on account of the float ice in the river. She returned this morning in company with the Dunsmuir but the ice still prevented her from landing her passengers although her mails were brought ashore in a small boat. Both steamers were obliged to go down the river again before they could do so. It is supposed they are lying alongside of Ewen's wharf.

LAND SLIDE.—A large piece of the bank in front of the asylum slid across the railway track this morning. A force of Chinamen had cleared it all away, however, by noon.

Y. M. C. A. RECEPTION.—The W. C. T. U. reception to the Y. M. C. A. will take place in the Skating Rink to-morrow evening at 7:30. Each member of the association is entitled to bring a friend.

THE CHINESE EXIT.—Jno. Frauley, Thos. Greer and Olu Charlton have been arrested at Vancouver in connection with the late expulsion of the Chinese at that city. They are to appear for hearing on Wednesday.

COMMONS ELECTION. We are authorized to state that Mr. Donald Chisholm is in the field as a candidate for the seat in the House of Commons rendered vacant by the death of our late lamented representative, Mr. Homer. dwoc25tc

VANCOUVER IRON WORKS.—The Victoria *Times* publishes a statement that recently appeared in the Hamilton *Spectator*, that large iron works to be erected at Vancouver B. C. for the C. P. R. had been let to a Belgian firm.

SETTLED.—The four Chinamen recently arrested on a charge of assault were arraigned to-day at the p. c. The counsel for the defendants, however, gave notice that a settlement had been arrived at, and the magistrate accordingly dismissed the case.

FLOODS.—The heavy rains yesterday and last night melted the snow and caused considerable havoc among the streets. Drains became choked and the floods rushed over the roadways gouging out new water courses for themselves. Some of the gas lamps narrowly escaped.

FREIGHT CHARGES.—Three small boxes of shoes were received here yesterday via the Canadian Pacific railroad from Boston, consigned to Klein & Krauss. The charges were $6.80 over that line. Had they come over the Northern Pacific route the charges would have been $3.70.—*Tacoma Ledger.*

CUSTOMS RETURNS—For the month of February, ending to-day, the customs collections at the port of New Westminster have been as follows: Customs, $2980,39; other revenues, $25.56; total, $3005.95. For the same month last year she receipts were $1769.64, showing an increase in favor of 1887 of $1236.31.

SALE OF CITY LOTS.—The following city lots were sold Saturday evening: Lot 36, Block D, sold to W. W. Dickinson for $105; Lot 17, Block D, sold to R. Dickinson for $105; Lot 16, Block D, sold to J. A. Calbick for $105; Lot 18, Block K, sold to R. C. P. Mills Co. for $105; Lot 23, Block H, sold to D. McMillan for $255.

CHINESE.—Chinese laborers on the Northern Pacific railroad extension have become suspicious since so many of their companions were killed by falling trees during the fearful wind storm of a few weeks ago, and are leaving for other parts. Here is a simple solution of the vexed Chinese question for the Vancouver people.—*Vic. Times.*

NEW LICENSE BILL.—To-day the provincial secretary introduces his new bill to regulate the liquor traffic in this province. It is to be hoped the bill is sufficiently comprehensive to meet the demands of enlightened public opinion. In the matter of the regulation of the liquor traffic this province is nearly 50 years behind all the other provinces of the Dominion. During the past few years public sentiment in this respect has undergone considerable changd, however, and the regulations should keep fully up to the requirements of public opinion.

FROM NEW WESTMINSTER TO NEW YORK.—"I've heard all the stories of long telegraph circuits;" said a postal telegraph operator at Buffalo, "and in my time I've worked some pretty long ones myself, but I've never heard of anything that equalled one that we had this afternoon. Our people are building a line from the terminus of the Canadian Pacific to Frisco, and I heard Vice President Rosener talking with President Chandler in his office in New York city. Mr. Rosener was in New Westminster, which is on the Pacific coast, just opposite Vancouver Island, so they were talking across the continent. By that route it is about 3,000 miles, for the wire is made up via Buffalo, Toronto and the Canadian Pacific. Every few minutes I could hear Medicine Hat chip in, and all along the circuit the operators were 'on.' It was a wonder to anybody, and the instruments were working clear as a bell on that long copper wire."

Thos. Sabin, of Eglington, says: "I have removed ten corns from my feet with Holloway's Corn Cure." Reader, go thou and do likewise.

## Eating Straw.

The steamer Empire arrived in San Francisco recently from Departure Bay. Her captain reports picking up the little steamer Dawn, which was wrecked near Coos Bay. The crew were in a state of starvation. They looked ravenous and wild in their eyes from hunger. They had after their little stock of food was exhausted cut open their mattresses and eaten the straw.

GREAT RESULTS ARE SPEEDILY ACCOMPLISHED by the leading alternative, Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Indigestion ceases, biliousness disappears, constipation gives place to regularity of the bowels in consequence of taken it. Ladies suffering from complaints peculiar their sex experience long wished for relief from it, and impurities in the circulation no longer trouble those who sought its aid. Give it a trial and you will not regret it.

## Personal.

Alex. Begg, of Calgary, an old journalist, passed through Vancouver recently on his way to Frisco.

At the Colonial: W. W. Lundbom, Port Moody; R. C. Ferguson, Vancouver; W. A. Steves, Ladner's.

Rev. R. Jamieson, of this city, occupied the pulpit of the first Presbyterian church at Victoria yesterday at both morning and evening services. He will probably remain in Victoria about a week.

Wm. Davis, of Maple Ridge, is in the city for the purpose of taking his sister, Miss Eva Davis, the "brave little traveller from Florida," home with him. Mr. Davis reports that he found the officials of the Northern Pacific R.R. very kind to his sister on her journey her. It was the officials of this road who sent for the little girl to Florida at Mr. Davis' request.

What Toronto's well-known Good Samaritan says: I have been troubled with Dyspepsia and Liver Complaint for over 20 years, and have tried many remedies, but never found an article that has done me as much good as Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure." CLARA E. PORTER.

## Floating Ice

### DOES CONSIDERABLE DAMAGE.

Yesterday and to-day large quantities of ice, loosened by the recent rains, have been floating up and down the river at the will of the tide, raking the wharves along the river front and doing them considerable damage. The wharves of Mr. Laidlaw and the Brunette Saw Mill Co. at Sapperton were considerably injured, the former having the front row of its piles completely carried away, Millard's and Law's wharves in the city were each struck by a large cake yesterday afternoon and some of their corner supports broken. Mr. Ewan's wharf was split open and one corner badly crushed. Millard's wharf is also almost demolished. The str. Alice, which has been lying at the C. P. R. wharf since the cold spell, was jammed against the wharf, and now lies half under water. Large cakes of ice are still floating in the river, and it is feared more damage will be done before the river is entirely clear.

Mr. G. W. Macully, Pavilion Mountain, B. C., writes: "Dr. Thomas' Eclectric Oil is the best medicine I ever used for Rheumatism. Nearly every winter I am laid up with Rheumatism, and having tried nearly every kind of medicine without getting any benefit, until I used Dr. Thomas' Eclectric Oil. It has worked wonders for me, and I want another supply for my friends, &c."

Canada has a young Indian poetess in the person of Pauline Johnson, residing at Brantford, who is described as a slender, graceful brunette, a little above middle height, with abundant dark hair, frank hazel eyes, oval face, red, flexible lips, and ringing, musical voice.

Joseph Rusan, Percy, writes: "I was induced to try Dr. Thomas' Eclectric Oil for a lameness which troubled me for three or four years, and I found it the best article I ever used. It has been a great blessing to me. Frauds may imitate Dr. Thomas' Eclectric Oil in appearance and name, but in everything else they are dead failures.

The estimates of the cost of the Nicaragua canal vary from 75,000,000 to $100,000,000. It is 800 miles north of the Panama canal and 172 miles long, 119 being through lakes and rivers.
