SCIENTIFIC MISCELLANY.

The London Zoological Society has a membership of 3076. At the close of last year its annals numbered 2290, of which 1121 had been added during the year.

In experiments continued for four years, M. F. Larroque has found that, after eight or nine months, copper wires under the action of electric currents show signs of deterioration.

A Mexican plant, called by natives the "herb of prophecy," is reported to induce a sleep seemingly indentical with the hypnotic state. The patient is completely insensible, but answers questions put to him, and obeys any commands given.

An official report states that in England and Wales 546 persons were killed by lightning during the 29 years from 1852 to 1880. The inhabitants of rural districts are found to suffer more from lightning than those of towns, while vicinity to the west and south coasts reduces the chances of injury by lightning, and distance from the coast and high land seem to increase them.

THE LARGEST METEORIC IRON.—The heaviest purely metallic meteorite known is the "thunderbolt" of the Arab Sheik Kalaph Ben Assab. It fell in Central Arabia, and is one of the ten known meteorites that have been seen when falling. It was bought by English authorities, who have since caused it to be chemically analyzed. It contains 91.04 per cent of iron, 7.40 nickel, 0.66 cobalt, traces of copper, phosphorus, and 0.39 of amorphous carbon. Its weight is 120 pounds. Much larger stony meteorites are known, including one of 25 tons.

THE AMERICAN CEREAL. — Of maize or Indian corn in the United States, Mr. J. H. Patton says: "A brief comparison may give a partial view of the immense value of this crop, which next to rice supplies food directly or indirectly to the largest number of the human race. In 1880 the corn-crop was 1,754,861,535 bushels. This was more than two and a half times the next greatest crop—the wheat. It had 767,647,119 bushels more than all our other crops of grain combined—the wheat, the rye, the barley, the oats, and the buckwheat. It is quite probable that this ratio of production, or nearly so, will continue."

THE CONGRESSES. — Affairs of human interest are likely to be pretty thoroughly discussed at the international congresses to be held in connection with the Paris Exhibition. A few of these meetings, which will continue for periods ranging from four to sixteen days, are the following: Opening in July—technical education, bibliography of the exact sciences, chemistry, ballooning, pigeons; in August—hygiene, higher education, physiological psychology, geography, photography, criminal anthropology, primary education, horticulture, prehistoric man and remains, electricity; in September—chronometry, mines and metallurgy, applied mechanics, meteorology, river utilization, commerce and industry, hydrology and climatology.

DIVING IN A SAND-BANK.—A Dutch engineer, W. H. Ter Meulen, has put in operation a novel plan for the recovery from beneath a submarine sand-deposit of gold and silver amounting to several million dollars. The war-ship Lutine, sunk in Dutch waters in 1799, carried this treasure of which about half a million dollars has been recovered at different times. The new apparatus for penetrating the sand covering the ship consists of a very strong hose seven inches in diameter, from the lower end of which is suspended a heavy cast iron tube five feet long, with a copper rose, through which the water, injected into a hose with a pressure up to 125 pounds to the square inch, radiates against the bed of sand. The bank is rapidly disintegrated so that a well may be made to the Lutine through 26 feet of sand in nine minutes. The divers may then descend, and work several hours, the upward current preventing the refilling of the well.

A ZOOLOGICAL LINK. — The Natural History Museum of Paris has received specimens of the African Mud Fish. (*Protopherus annectens Ow.*), which have excited the interest of naturalists on account of being fishes with a double-breathing apparatus and double heart chambers, or a veritable link between the fishes and the amphibia. This peculiar animal lives in the rivers of Central Africa, another species of the genius being found in the tributaries of the Amazon, and still another in the swamps of South Australia. The African species is from fifteen to twenty inches long, and is most abundant in flooded swamps, feeding chiefly on water-insects. It propels its eel-like body through the water by its tail, but as the swamp becomes dry it ceases to breathe with its gills and makes use of its lungs, becoming a dry land animal. Late discoveries show that the creature makes the change by burrowing in the mud, when it becomes covered with a slimy secretion, which soon hardens into a shell or cocoon. Thus sealed, it may remain in a dry place four or five months, to reappear on return of water.

Job printing of all kinds neatly done at the COLUMBIAN office. Prices will be found as low as at any other office in the province —Adv.

TERRIBLE FLOODS

In Pennsylvania in which Hundreds Lose their Lives and Thousands are Rendered Homeless.

Harrowing Accounts of the Suffering by Flood and Fire. Details of the Awful Catastrope.

Another Alaskan Pic-Nic to Start in June. The United States Consul in Kingston Gets Funny.

TERRIBLE FLOODS.

WILLIAMSPORT, Pa., May 31.—The biggest flood since the memorable one of 1865 is now on its way down the west branch of the Susquehanna River. Advices from the north of here indicate that much damage has been done by high water and what may follow no one cares to predict. A great volume of water has fallen in this part of the country in the past few days and all the streams are bank full. Telegraphic, telephone and railway communications are very seriously interfered with and numerous land slides are reported all along the Pennsylvania road, north of here. At Clinefield the water is rising at the rate of 1½ feet per hour. Half a dozen bridges were swept away and streets of the town overflowed. People are rowing about in boats. Booms at Caledonia and Conwensville have broken and it is feared that Lockhaven boom will break before morning. Lumbermen here fear that in the latter event the Williamsport will not stand the strain and that 225,000,000 feet of logs will be carried away in the flood. The river is rising rapidly here and by morning it will probably be 20 feet above low water mark. Beech Creek railroads have already sustained losses that will aggregate $25,000.

Pennsylvania railroad officials in Pittsburg state that they have advices that over 200 dead bodies have been counted floating down stream at Johnstown alone, while all along the line many additional lives have been lost. Johnstown is described as wholly submerged, only two houses being entirely above water line. A special train has left Pittsburg with Pennsylvania railroad officials, newspaper men and telegraph operators on board. Telegraph offices will be opened at the nearest available point to Johnstown.

A Greensburg, Pa., special to Pittsburg says reports from Johnstown are to the effect that hundreds of lives have been lost and houses carried away bodily. People fortunate enough to escape are fleeing to the mountains. Eighty-five persons were seen floating past a point near New Florence clinging too drift-wood. All buildings along the Covemaugh between New Florence and Johnstown have been carried away. Railroad towers have been abandoned by telegraph operators. Covetown and New Florence bridges have been destroyed. It is stated that the roofs of only two houses in Johnstown are visible above water.

THE PENNSYLVANIA FLOODS.

PITTSBURG, May 31.—A telegraph operator in the Pennsylvania Railway signal tower at Shanghollow, 12 miles below Johnstown, says that about 75 dead bodies have floated past him down the river from Johnstown. It is stated that the reservoir above Johnstown broke about 5 p. m. and deluged the town, sweeping away houses by scores and drowning probably hundreds of people. Wires are down and no communication can be had with Johnstown to-night. No trains are running east of Blairsville, 25 miles west of Johnstown, and there will be none through to the east before to-morrow.

LAUGHED AT WARNINGS.

NEW FLORENCE, Pa., June 1.—Jno. McCartney, who lives in Johnstown, reached here this morning. He left Johnstown yesterday at 4:30 and says the scene was indescribable. The people had been warned early in the morning to move to the high lands, but did not heed the warning, although repeated a number of times, up to 1 o'clock, when the water poured into the streets several feet deep. Then the houses began rocking to and fro, and finally the force of the current carried buildings across the streets into vacant lots, and dashed them against each other, breaking them into fragments. These buildings were freighted with poor wretches who so shortly laughed at the cry of danger. McCartney says in some cases he counted 15 persons clinging to buildings. It was impossible to get to Johnstown proper, to-day, in any manner except by boat, and the only hope is to get within about three miles of Johnstown by special train or by hand car. The banks on both sides of the river are crowded with anxious watchers, and with horrifying frequency their vigils are rewarded by the discovery of a dead body.

TERRIBLE FLOODS IN PENSLYVANIA.

JOHNSTON, June 1.—The waters which overflowed this town yesterday, carrying death to hundreds and misery to thousands, are subsiding rapidly, but as yet it is impossible to obtain anything like exact information concerning the extent of the distress. It is no exaggeration to say there are mourners in every family. Thousands are missing. It is certain that hundreds have been lost, while many of those who are now missing and mourned as dead have doubtless been saved from final death.

ROASTED IN THE FLOOD.

The report has just reached here that at least 100 people were consumed in the flames at Johnstown last night. Ruins of houses, outbuildings and other structures were swept against the railroad bridge at Johnstown, and from an overturned stove or some such cause the upper part of the wreckage caught fire. There were crowds of men, women and children on the wreck, and their screams soon added to the awful chorus of horrors. They were literally roasted in the flood. It is impossible to describe briefly the suddenness with which the disaster came. A warning sound was heard at Covemaugh a few minutes before the rush of waters came, but it was attributed to some meteorological disturbance; as the low rumbling noise increased in volume, however, and came nearer, suspicion of danger began to force itself even upon the bravest, which was increased to certainty a few minutes later, when, with a rush, the mighty stream spread out in width and then there was no time to do anything to save themselves. Many of the unfortunates were whirled into the midst of the stream before they could turn around. At Johnstown similar scenes were enacted, only on a much larger scale.

ANOTHER ALASKAN PIC-NIC.

NEW YORK, June 1.—Judge John M. Thurston, of Nebraska, has been invited to become a member of General Alger's party, to start for Alaska on the 20th of June. He has concluded to accept. The party will consist of General and Mrs. Alger, Mr. and Mrs. Thomas, C. Platt and Judge and Mrs. Thurston.

WHEAT.

LIVERPOOL, June 1.—Wheat dull; Cala., 6s. 6½d.

SAN FRANCISCO, June 1.—Wheat quiet; buyer '89, 130¾.

NEW YORK, June 1.—Wheat steady; June, 80⅝; July, 81¾; Aug. 81⅛.

CHICAGO, June 1.—Wheat steady; June; 76½; July, 75½; Aug. 73⅞.

WIFE MURDERER GRANTED A NEW TRIAL.

FRISCO, June 1.—The supreme court this morning reversed the judgment of the superior court in the case of J. Milton Bowers, and granted him a new trial. Bowers, who is a physician, was convicted of the murder of his third wife, by poisoning, and sentenced to be hanged. The court decided that Mrs. Bowers died from the operation performed by herself and that no testimony had been adduced showing that there was any phosphorus in Dr. Bowers' possession.

SHIPPING.

SAN FRANCISCO, June 1.—Arrived: steamer Queen of the Pacific, from Victoria, and Wellington, from Departure Bay.

DETERMINED B. C. SEALERS.

NEW YORK, June 1.—The *Herald* has a special from Ottawa this morning which says: "The people interested in the sealing industry in British Columbia, have decided to prosecute their sealing at all hazards, and if they are interfered with they will treat the intermeddler as a pirate."

EXECUTION OF A NOTORIOUS BANDIT.

HAVANA, June 1.—Victor Machlin, the notorious bandit, guilty of a numbers of murders, who was recently captured after a long pursuit, was executed this morning. He was resigned to his fate.

FACETIOUS COLONEL TWITCHELL.

KINGSTON, June 1.—Colonel Twitchell, United States consul, was at the lecture delivered by Rev. Dr. Pierson, of Philadelphia, and, in seconding the vote of thanks, he said: "I am gratified to have the doctor visit Canada. We have so many visitors from the U. S. who neglect or forget to go home again, that I sometimes fear that the good citizens of Canada may have an incorrect idea of the character of the American people. Consequently it is with pleasure that I listen to a representative from the better class of our people, a man who did not leave for his country's good and is not afraid to return."

A DISASTROUS FIRE.

BISSEVAIN, Man., June 1.—A destructive fire broke out in this town about 1:30, starting in one of the blacksmith shops, and destroyed the following properties: T. O. Stripp, restaurant; W. H. Woodrow, butcher; W. C. Cottingham, saddlery; Queen's Hotel; A. J. Gillies' general store; Cowan & Co., private bankers; Hettle & Gage, implement dealers; Commercial Hotel, run by Mrs. Underwood; Ogilvie's elevator.

HEAVY RAINS.

MONTREAL, June 1.—Water has fallen to such an extent that unless it ceases speedily great damage will be done to the growing crops.

DESTITUTE SAILORS.

MONTREAL, June 1.—The sailors of the wrecked steamship Cynthia have been detained here to give evidence regarding the collision. They are destitute and have had to accept temporary shelter at St. Andrew's home. Much indignation is expressed in shipping circles at such treatment. The local Masons are looking after the Masons among the crew of the Cynthia.

THE BANK OF MONTREAL.

MONTREAL, June 1.—The list of shareholders of the Bank of Montreal just issued, shows that Duncan McIntyre is now holder of 1,000 shares. Hon. G. A. Drummond's holdings has increased to 600 shares, and the Canada Life Insurance Company has increased to 700 shares.

BODY RECOVERED.

MONTREAL, June 1.—The body of Nichol, one of the sailors drowned from the "Cynthia" has been recovered and an inquest will be held.

AN ACTION FOR $100,000.

MONTREAL, June 1.—An action for damages for $100,000 has been taken against Andy Maloney and Harry Philips, by P. W. Ellis, of Toronto, in connection with the jewelry case.

SHIPPING BACKWARD.

QUEBEC, June 1.—The shipping season is very backward; only twenty vessels have so far arrived, while last year at this time there were double that number in port. A fleet of over forty sailing vessels is now overdue here.

ALTOGETHER WRONG.

LONDON, June 1.—When the American woman, Mrs. Maybrick, was arrested in Liverpool, on suspicion of having poisoned her husband, a report went abroad that she was a niece of Jefferson Davis. This statement was altogether wrong. The only foundation for it being that Mrs. Maybrick had told somebody that her father, Mr. Chandler, of Mobile, Ala., had been a friend and admirer of the president of the confederacy.

OTTAWA NOTES.

OTTAWA, May 31.—Nearly all the Canadian papers rejoice over the proposal of the Canadian sealers to go to Behring Sea, and predict no backdown on the part of England.

Mr. Chisholm continues to improve.

Mr. Anderson, London Eng., arrived to-day to conclude arrangements for establishing a fast Atlantic service. He expects the new steamers to be built within sixteen months.

HIPPOLYTE WINS.

PARIS, May 31.—Hippolyte telegraphs from Hayti that he has defeated Legitime and captured Port au Prince and that he has proclaimed himself provisional president.

ANOTHER SYNDICATE.

LONDON, May 31.—Yet another Canadian company has been formed here, viz., the Dominion Brewery Co., limited. The share capital consists of £80,000, in 8 per cent. cumulative preferences and the same amount in ordinary shares at £5 each. £80,000 6 per cent. first mortgage debentures, will also be issued, all at par. The object is to acquire and develop the brewery of Robert Davies, Toronto, who acts as manager, with Chas. Ritchie and John Taylor as the other members of the Canadian council board. Seton Carr, a member of parliament, is among the directors. £190,000 was paid for the brewery.

PARNELL COMMISSION.

LONDON, May 31.—At the sitting of the Parnell commission to-day Mr. Reid, of the Parnell counsel, stated that an enquiry had resulted in the finding of thirty books belonging to the national league and which would be produced in court. Mr. Lockwood, one of the Parnellite counsel, produced a pass book, apparently belonging to Mr. Justin McCarthy, which dated from November, 1880, to May 1887, which contained an entry of a check for £100 to Frank Byrne, the dynamiter. Mr. McCarthy informed the court that the pass book did not belong to him, that it never was in his possession and that he did know that the book existed. Mr. George Lewis, the solicitor for the Parnellites, testified before the Parnell commission to-day. He was questioned about the missing books of the land league but disclaimed all knowledge of any league books except those of the English branch which had been produced in court. He had applied for a return of the cancelled cheques or bank pass books. He had not inquired what became of the league's letters nor taken any steps to trace the payments that were made by the league. Mr. Judge Hannen stated that it was not permissible for either to select books to be put in evidence. All of the books must be produced or none at all.

A POOR KING.

SAN FRANCISCO, May 30.—The latest advices from Honolulu announced that King Kalakua was contemplating a trip to Europe for the purpose of visiting the Paris Exposition. It is, however, learned from good authority that His Majesty lacks the necessary funds to carry out his intentions. An agent is now in the city negotiating a loan of $10,000.

SNOW IN THE STATES.

CHICAGO, May 30.—It is reported from northern Michigan to-night that a heavy snow storm prevailed in that region to-day. At Howard City the snow fell heavily for an hour or more and at other points along the line of the road there was an inch of snow on the ground. At Grand Rapids a heavy rain fall changed to snow during the afternoon. At Tuesola, Ill., where it had been extremely cold for three days, snow fell this morning and ice formed later in the day. Heavy rains have fallen for 50 hours in Central Illinois. At Galena there was a damaging frost last night, blighting the fields of corn and blasting the fruit trees. At Baraboo, Wis., a hard frost prevailed this morning, entirely ruining the corn and grape crops. Vegetables were cut down. Ice formed one eighth of an inch in thickness at Winnimay, Ind., and a snow storm prevailed all the afternoon. There will be much damage done by the floods.

STARTED BY SOCIALIST.

BERLIN, May 29.—Evidence is accumulating to fix the responsibility upon socialist agitators for the strikes among the Westphalia miners. The police at Dortmund to-day made a raid upon the houses of the leaders of the striking workmen and seized, together with a considerable sum of money, many letters and papers emanating from socialist sources and clearly establishing the close connections between the strikers and the socialistic propaganda. They also arrested the editor of the *Westphalia People's Gazette*, a socialist organ, who is charged with having instigated the strikes.

Surrey Council.

The council met pursuant to adjournment, all the members present. Minutes of previous meeting read and approved. Communications were received from Messrs. Clark & King, the Toronto Exhibition Association of B. C., Jones, Johnston and others. Accounts were received from *Mainland Guardian* and Zed S. Hall. Several councillors submitted reports, re progress of works in their respective wards. Several contracts were awarded, for works in ward 1, as follows: Clover Valley road north of Yale, E. Hicks, $3.50 per chain; Clover Valley road north, J. M. Gillis, at $1.45 per rod; Latimer road, C. W. McCallum, one mile, at $1.60 per chain. Reeve and Coun. Armstrong to be paid $25 each for service rendered. A number of settlers presented a petition requesting the council to undertake the Surrey dyking scheme as a public work, and have it carried out as soon as possible. After thoroughly discussing the question, the clerk was instructed to apply to the government at Ottawa for permission to construct the flood gates at the mouth of the Serpentine river, and to have the necessary by-laws drawn for providing for the necessary cost of construction. A protest was presented against the pound by-law, and on motion it was laid over. Mr. Punch was granted permission to lay water pipes from the spring on Brownshill to Brownsville. Specifications to be prepared for certain works, between wards 3 and 4; Councillors McCallum and Douglas were elected members of the Surrey license board. 100 was appropriated to assist the Agricultural Association. 10 was voted towards sending exhibit to Toronto. Coun. Armstrong gave notice of a dyking by-law, Coun. McCallum gave notice of a by-law, to provide for the sale of lands on which delinquent taxes are due for two years and upwards. Council adjourned until Saturday, June 8th at 1 o'clock p. m.

Mailed, 6 months	1.25

Daily British Columbian

Saturday Evening, June 1, 1889.

The U. S. senate committee on trade relations with Canada held a session at Seattle on Wednesday last. Among other things which the venerable inquisitors ascertained, was that the Seattleites looked upon the C.P.R. as their only salvation from the oppressive rates and general disobligement of the Northern Pacific. Before the Canadian road was finished the merchants of the queen city of the Sound had, in the significant words of the president of the Seattle board of trade, "to beg for accommodation in addition to paying for it." We are not much better off here with respect to the C.P.R., which now threatens to kill our fresh fish export trade by prohibitive express rates, not only to the serious damage of those engaged in the business, but to the loss and deprivation of the eastern consumer as well, who will be obliged to smack his lips in vain for the delicious fish of the Pacific province. If Seattle looks upon the C.P.R. as a benefactor, no less will we hail the advent of a competing American road to check the extortionate tendencies of the C.P.R. at home, which is not so amiable and accommodating with us as with our cousins. The C.P.R. is neither better nor worse than any other road so far as taking advantage of the carrying monopoly which it possesses. Competition is the only salvation for any community from the oppressive propensities of railway monopolies.

We are glad that the provincial secretary and the government have recognized the importance of the Scott road and connecting roads through Surrey to the boundary, and have decided to put these roads in a thorough state of repair this season, and commence the work without delay. As our readers are aware, we have repeatedly called attention to the importance of the Scott road and connecting roads—constituting the stage and mail route through the districts south of the river to the boundary—and to the crying necessity of placing and maintaining this much travelled thoroughfare in a passable condition. In consequence of Southern Railway operations, the increase of settlers, and the general development which the country between this city and the international boundary is experiencing, travel by stage and otherwise over the route in question is constantly and rapidly increasing, and the inconvenience and hardship would be great if these roads were to be allowed to remain in their present and deteriorating condition. Formerly it has appeared to be nobody's business, between the government and the municipalities, to keep this very important line of travel in proper repair, and we must commend the provincial secretary and the government, if they have been a little tardy, for recognizing the urgency and the importance of the matter and deciding to put the thoroughfare in question in a perfect state of repair without more delay.

For about two weeks now the Mud Bay postoffice has been abolished, only temporarily, it is hoped. Mr. Woodward, who has been postmastmaster for years, has relinquished the position, and no one has yet been appointed to take his place. In the meantime the Mud Bay mail is conveyed to Elgin, where, considerably to their inconvenience, those who have been heretofore served by the Mud Bay postoffice have to repair for their mails. From what we can learn, it would appear to be difficult to get anyone conveniently located to the mail route to act as postmaster since the resignation of Mr. Woodward, and the mail carrier is not paid for carrying the mail off of the main road. Thus we have an unfavorable combination of circumstances by which the public interests seem likely to suffer. It is earnestly hoped, however, that the postal authorities will see to it that the Mud Bay postoffice does not go by the board altogether owing to the slight difficulties which appear to threaten its continuance. This postoffice, is, we believe, the oldest established of any in the Surrey municipality, and serious inconvenience, we are told, would result from its abolishment. As a new and semi-weekly service is being inaugurated this month for the mail route which has formerly served Mud Bay and Elgin with a weekly mail, the present would be a good time for making such arrangements as will insure Mud Bay the regular seme-weekly service to which that important settlement will now be entitled. We hope that the postal authorities will make this their business. It would be preposterous, on almost any consideration, to allow the Mud Bay postoffice to lapse, and we cannot believe there is any intention of doing so.

Children Cry for Pitcher's Castoria

The subject of corporal punishment for criminals was discussed at some length recently in the British house of commons on a motion for the second reading of a bill relating thereto. Mr. Milvain, the mover, stated that he proposed by his bill to consolidate the law with regard to flogging and also to amend it. The measure did away with the flogging of incorrigible rogues, and provided that juvenile offenders under the age of sixteen years might, in certain cases, be whipped, but only with birch rods. The most important provisions, however, were those under which corporal punishment could be inflicted upon burglars who had made use of or been found armed with dangerous and offensive weapons, and upon prisoners convicted of revolting crimes. The necessity for this latter extension of the law especially, Mr. Milvain said, had become very apparent to him during his experience upon the north eastern circuit in the last three years. In that time the average yearly number of charges of brutal offences against children alone in the district mentioned had been ninety, and about two-thirds of these had resulted in convictions. Violent assaults upon women, too, had become alarmingly frequent, and many grand juries throughout the country had brought in presentments in favor of flogging as a punishment for offences of this class. After a good deal of discussion the second reading was carried by a vote of 194 to 126. The opponents of the bill were led by Mr. Bradlaugh, who took the ground that it was a step backward in the direction of brutalizing punishment. Other speakers on the same side maintained that flogging does not act as a deterrent, while some of them actually argued that it tends to encourage the perpetration of the various classes of offences for which it is prescribed as a punishment. It is possible that there may be something in Mr. Bradlaugh's argument, so far as punishment by flogging for burglars who arm themselves with deadly weapons is concerned. Such men, however, are ruffians of the worst type, and it is difficult to see how they could be made more brutal than they are. In the case of those who commit revolting offences upon women and children there appears to be no room for argument at all. It is idle to talk of degrading by corporal punishment men of this stamp. The London *Times*, which thinks flogging not only justifiable but necessary in both classes of cases, says: "When men are already sunk to or rather below the level of the brute, flogging is about the only humanizing agency we have at command. It is the most mischievous and ridiculous cant to talk about the risk of brutalizing a ruffian who enters our houses at dead of night with a jemmy in one hand and a revolver in the other; or the wretch who perpetrates the abominable attacks upon defenceless women and children, which considerations of decency exclude from the law report. Flogging is a highly appropriate and elevating punishment for persons of that appalling depravity. It is idle to appeal to sentiments which have no existence, or to apprehend a degradation which is already accomplished in all its fulness. They have to be taught in the first place that the way of transgressors is hard, and nothing brings that lesson home so directly and forcibly as the lash. When the brute has learnt that lesson the moral teacher has something to work upon, but not before." It is not uncommon to have aggravated and brutal offences on the criminal calendars of our supreme courts, but one seldom or never hears of flogging being added to the sentence of imprisonment. A change in this respect might be attended with wholesome results.

This Fine Townsite, at the Fresh-Water Junction of the

Southern Railw'y

WITH THE

FRASER RIVER

12 Miles Above Westminster,

Has just been Surveyed, and the Lots are for sale by

WOODS, TURNER & GAMBLE

AND

ALBERT J. HILL & COMPANY

OF NEW WESTMINSTER, B. C.

The advantages and prospects of this Plot for a future thriving Town are many.

The Land in the vicinity is good.

There are inexhaustible IRON ORE DEPOSITS, of a superior quality, immediately adjacent, as well as vast strata of the finest BUILDING SAND and POTTERY CLAY.

On the Townsite are a number of valuable MINERAL SPRINGS.

Communication by land and water is unequalled, by reason of the location of the Townsite on the Fraser River and the Southern Railway, while the natural elevation and lay of the land can not be excelled as a situation for a fine town.

The ground is open and clear of heavy timber.

The site has been selected as one of the most important stations on the Southern Railway, and with the completion of the road, in the near future, must, with all its other advantages, spring into prominence at once.

Those who apply early will have the pick of the Lots.

A clear title given with every purchase.

Parties wishing Lots can apply as well, on the premises, to

MIND AND DISEASE.

Two Interesting Reminiscences Related by an Indianapolis Physician.

A *Journal* reporter and one of the leading physicians of Indianapolis were recently talking about the mind as a factor in disease, when the latter said: "It is a powerful factor. No good physician neglects to note the mental condition of his patient in his diagnosis. If he did he would be overlooking one of the most important things in the case.

"Let me tell you one or two incidents that have come under my observation to illustrate the effect of the mind over the body. One of these was very sad, the other exceedingly ludicrous. Some time ago there was a lady and gentleman spending the winter here in the city. Just previous to their coming here they had lost their only children—a grown son and a grown daughter—in a skating disaster at St. Louis, the ice in the river having broken and the couple having been drowned before assistance could reach them. Well, of course, this was a great blow to the fond parents. They were almost overcome with grief at the sad event, and the result of it was—as it is in every case of the kind—they clung to each other with a love and affection they had never known before. These people came to Indianapolis to spend the winter after this trouble, and while here the husband was taken with typhoid fever, and in spite of all that could be done for him he died. Several days before his death it was known that he could not recover, and he and his wife talked over the future with the same composure that other persons would talk over a brief separation. She hardly shed a tear, seeming utterly resigned to what was coming. As I said, the man died his funeral was held, and his wife sat by his coffin without the slightest show of grief. Spectators were astonished. Under the circumstances they looked for her to be completely prostrated. After the funeral she said to me that she would soon follow, that it was only a temporary separation. Well, sir, that woman lost her appetite, refused to eat, grew weaker, and in one week from her husband's funeral hers was held in the same room."

"How do you account for this; was there no ailment of any kind?"

"None at all. Her whole mind and soul were centered on the one thing until the thought absolutely withdrew from all power from the body to discharge its functions and the result was she died—a real case of what has been poetically described as death from a broken heart."

"What of the other case?"

"It was very different from this, yet it illustrates the power of the mind over the body no less forcibly. Some time ago a very intellectual and highly-accomplished young lady here in the city holding a pin in her mouth, swallowed it, or, as she thought, swallowed it. The thought of what she had done, the very idea of that pin being in her stomach, threw her instantly into the most violent spasms and convulsions. I was summoned to see her, and found her in a very critical condition, cold sweat all over her body, convulsion following convulsion, and altogether in an alarming situation to her friends. Here's the funny circumstances: The young lady wore false teeth, and in one of her convulsions threw them out on the floor, and the pin, which had all the time been sticking up behind the plate, fell down with them. Every body, of course, roared with laughter, and the young lady was well as quickly as she had been taken ill."

UNSUBSTANTIAL SOLES.

Cobbling That Was Good Enough for a Corpse, But Not for a Live Drummer.

Two traveling men recently stopped at the Tifft House, says the Buffalo *Courier*. One of them had on a pair of boots very much worn through the soles, and he thought he would get them mended here, for he was going to Tonawanda the next day to call on a merchant and he wished to be well dressed. He had only the one pair of boots and his friend agreed to take them to a cobbler while he remained in his room until they were patched. The friend found a cobbler and told him he must have the boots that evening. The cobbler said he could not mend them so soon. "Oh, but this is a case of necessity, the man is dead and we want to put a decent pair of boots on him. We've got to take the body out of town." The cobbler finally promised to have the boots done, and had them ready when the drummer called in the evening. His friend slept peacefully and the next morning put on the mended boots feeling that he could look the whole world in the face. It was quite a walk from the railway station at Tonawanda to the office of the merchant he sought, and he had not gone half the distance when to his astonishment and wrath one of the new soles came loose and flopped about in a most dilapidated manner. The gentleman sat down by the roadside and found that the rascally cobbler had just pegged a strip of leather over the old sole. He hammered it on with a stone as best he could and shuffled slowly on. He transacted his business with the merchant and had to walk all through the works with him, during which the other sole came loose, but he managed to conceal the trouble until he got away, when he hammered the boots together again as best he could and returned to Buffalo. He showed the boots to his friend and asked if that was the way in which the Buffalo cobblers usually did their work. His friend was as indignant as he was, and, taking the boots, rushed round to the luckless cobbler, shook the articles in his face, and asked what he meant by palming off such work on people. "Why," said the disciple of St. Crispin. "I told you I couldn't mend the boots in so short a time as you gave me, and besides, you said the boots were for a dead man, and I thought that a bound sole was unnecessary. What sort of a dead man was it?" he asked, in a grieved manner, "that would wear out a pair of boots walking around in them? He must be awfully lively for a dead man. If he'd laid still, as any respectable dead man should, the boots would have never broken," and with this explanation the traveling man had to be content.

SNAKES IN PIECES.

A Serpent That Joined Itself Together *After Being Cut in Two.*

Persons who never saw a joint snake are naturally incredulous as to the fact of their existence. The observation of the writer and the killing of four or five of the "critters" in his life has removed all doubts, so far as he is concerned, says the Corinth (Miss.) *Herald*. The only open question remaining is: Do the disjointed snakes unite the pieces and live again? This is by many persons asserted, and yet by as many disputed. The uniting is just as reasonable as the disjointing. It is the tail, which constitutes about two-thirds of the animal, and not the body proper that disjoints. An old darkey whom we interviewed said:

"I knows they gets together again, for I killed the tail of one, left in little short pieces; the head got away, and when I got back to the place the head had gathered all the pieces together and gone off." John Patterson, a very intelligent colored man, testified more directly to the point. He said: "I know they get together again. I have watched them; the head and body just back up to the pieces and hitches them on like coupling cars." Being closely cross-question, he said: "The snake searched about in the grass till it found the pieces, then turned its tail end to the piece and bent its head back and hitched the piece on; then gathered up the other pieces the same way."

The skin of these reptiles is somewhat of the nature of scales running around in rings. The joints are on the dove-tail order, the flesh appearing to be spongy and bloodless with a small bone running through the middle. When molested the snake throws off its tail into several pieces, and while the attention is directed to the floundering pieces, the head and main body slips off and hides. This much we know, and we don't doubt its ability to "put itself together again" if left alone to the task.

A Clear Case of Excision.

Sixteen years after her burial the coffin of a Winnipeg woman was opened and the body found petrified. She had her mouth open, however, which goes to show that she was game even when it came to turning into stone.

Streets and Park Debenture By-Law.

A By-Law to raise by Loan the sum of $85,000 for Street and Park Improvements.

WHEREAS IT IS EXPEDIENT that the council of the city of New Westminster should provide for the improvement of certain streets in said city, and of Queen's Park.

AND WHEREAS it will be necessary, in order to effect said improvements, to issue debentures of the said city for a sum of money not exceeding $85,000.

AND WHEREAS for the payment of interest and creating a sinking fund for payment of said debentures it will be necessary to raise the sum of $5,950 annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city, according to the last revised assessment roll, is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the said city is $155,500, irrespective of the sum of $200,000 proposed to be borrowed under authority of the Water Works Debenture By-Law, which by-law is to be submitted to a vote of the electors of the city concurrently with this by-law.

AND WHEREAS, for the purpose of raising the said yearly sum of $5,950 an annual special rate of 2 2-5th mills in the dollar will be required.

THEREFORE, the Mayor and Aldermen of the city of New Westminster, in council assembled, enact as follows:

1. It shall be lawful for the mayor of the said city to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned a sum of money not exceeding in the whole the sum of $85,000.

2. It shall be lawful for the said mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than $100 each, such debentures to be sealed with the seal of the corporation, signed by the mayor and countersigned by the treasurer of the said city.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect either in sterling money of Great Britain or in currency of this province or the country where the same may respectively be made payable, which may be in any place or places authorized by law as may be agreed upon between the purchaser or purchasers thereof and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half-yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 2 and 2-5th mills in the dollar shall be levied and collected, in addition to all other rates, in each year upon all the rateable property in the said city during the currency of the said debentures or any of them.

6. All moneys arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as they respectively become due, without prejudice to any of the powers conferred upon the said council by the act of incorporation.

7. The proceeds of the debentures issued and sold under authority of this by-law shall be applied to improvements on Queen's Park and the streets hereinafter mentioned, and, as nearly in the proportion following as may to the said council seem expedient, that is to say: Queen's Park, $15,000; Columbia street, $1,000; Provost, Dallas and Carnarvon streets, $2,500; Agnes street, $2,500; Royal avenue, $3,000; Queen's avenue, $3,000; Pelham street, $3,500; Montreal street, $3,000; Melbourne street, $2,500; Leopold Place, $500; Park Lane, $1,500; Clinton street, $2,000; St. Patrick street, $1,000; Clement street, $3,000; St. George street, $1,000; Mary street, $1,000; St. John street, $1,000; Douglas street, $5,000; Halifax street, $750; St. Andrew's and Ellice streets, $3,000; Fortescue street $2,700; Edinburgh street, $2,500; London street, $1,000; Blackie street, $500; Merivale street, $500; Blackwood street, $500; McKenzie street, extending and making, $7,500; streets in St. Andrew's square, $1,500; St. George's square, $500; St. Patrick's square, $1,000; sidewalks and general street repairs, $5,950; provided that out of the said sum of $15,000 set apart for the improvement of Queen's Park there shall be paid into the city treasury to the credit of the general account the sum of $3,000, being the amount already expended out of the general revenue for Park improvements; provided also that if the requirements of any of the streets above mentioned should be found to be less or greater than the sum apportioned to said street, the said sum may be increased or diminished as in the circumstances may seem to the council expedient, and the surplus, if any, remaining out of the appropriations above set out, after said streets have been completed, may be applied to other works of permanent improvement not specified herein, at the discretion of the council.

8. This by-law shall take effect and come into force on the 17th day of June, A.D., 1889.

9. This by-law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

10. This by-law may be cited as the Street and Park Improvement Debenture By-Law, 1889.

By-law read a first time on the 6th day of May, 1889.

By-law read a second time on the 6th day of May, 1889.

Water Works Debenture By-Law.

A By-Law to provide for the issue of Water Works Debentures.

WHEREAS BY THE "NEW Westminster Act, 1888," an act of the legislature of British Columbia, passed in the fifty-first year of the reign of Her Majesty, Queen Victoria, and chaptered forty-two relating to the corporation of the City of New Westminster, it is among other things provided that the council of the corporation of the said city may, subject to the provisions of the said act, pass by-laws for constructing water works, and providing for the expenditure thereof.

AND WHEREAS it is expedient that the council should provide for the construction of water works for the supplying of water to the inhabitants of the said city.

AND WHEREAS, in order to carry into effect the said proposed construction, it will be necessary to issue debentures of the said corporation for a sum of money not exceeding two hundred thousand dollars.

AND WHEREAS, for the payment of the said debentures, sinking fund and interest, it will require the sum of $14,000 to be raised annually by special rate in each year.

AND WHEREAS the amount of the whole rateable property of the said city according to the last revised assessment roll is the sum of $2,540,245.

AND WHEREAS the total amount of the existing debt of the city is the sum of $155,500, irrespective of the sum of $85,000 proposed to be borrowed under authority of the Streets and Park Improvement Debenture By-law, which by-law is to be submitted to a vote of the electors of the city concurrently with this by-law.

THEREFORE, the corporation of the City of New Westminster enacts as follows:—

1. It shall be lawful for the mayor to raise by way of loan from any person or persons, body or bodies corporate, who may be willing to advance the same upon the credit of the debentures hereinafter mentioned, a sum of money not exceeding in the whole the sum of two hundred thousand dollars.

2. It shall be lawful for the mayor to cause any number of debentures to be made for such sums of money as may be required, but not for less than one hundred dollars each, such debentures to be sealed with the seal of the corporation, and signed by the mayor and counter-signed by the treasurer thereof.

3. The said debentures shall be made payable in fifty years at furthest from the day on which this by-law takes effect, either in sterling money of Great Britain, or in the currency of this province, or the country where the same may respectively be made payable, which may be in any place or places authorized by the said act as may be agreed upon between the purchaser or purchasers thereof, and the mayor, and the said debentures shall have attached to them coupons for the payment of interest.

4. The said debentures shall bear interest at the rate of five per centum per annum from the date thereof, which interest shall be payable half yearly on the first days of January and July in each and every year.

5. For the purpose of forming a sinking fund for the payment of the said debentures and the interest thereon an equal annual special rate of 5½ mills in the dollar shall be levied and collected in addition to all other rates in each year upon all the rateable property in the said city during the currency of the said debentures or any of them.

6. All monies arising from the said rate beyond the amount required for the payment of interest upon the said debentures may be invested in each year as the council of the said corporation may direct, for the purpose of creating a sinking fund for the redemption of the said debentures as they respectively become due, without prejudice to any of the powers conferred upon the said council by the said act.

7. This bylaw shall take effect on the 17th day of June in the year of Our Lord one thousand eight hundred and eighty-nine.

8. This by-law, before the final passing thereof, shall receive the assent of the electors of the city in the manner provided by the New Westminster Act, 1888, and amending acts.

9. This by-law may be cited as the Water Works Debenture By-Law, 1889.

By-law read a first time on the 11th day of March, 1889.

By-law read a second time on the 11th day of March, 1889.

NOTICE.

TAKE NOTICE THAT THE ABOVE is a true copy of the proposed By-law which will be taken into consideration by the Municipal Council of the City of New Westminster after one month from the first publication thereof in the BRITISH COLUMBIAN newspaper, which first publication took place on the 15th day of May, 1889, and that a vote of the Electors of the City will be taken on said proposed By-law at the New City Hall, Market Square, in said city, on the **13th day of June, 1889,** between the hours of 9 o'clock a.m. and 5 o'clock p.m.

WHEREAS THE LIEUTENANT-Governor in Council is empowered, under the "Public School Act," to create School Districts, in addition to those already existing, and to define the boundaries thereof, and from time to time to alter the boundaries of existing Districts; it is hereby notified that His Honor has been pleased to create the tract of land enclosed within the under-mentioned boundaries a School District, under the title of the "Bigger Prairie School District," viz:—

Commencing at the south-west corner of Section 6, Township 16, New Westminster District; thence east along the International Boundary Line to the south-west corner of Section 3; thence due north to the north-east corner of Section 21; thence due west to the north-west corner of Section 19; thence in a direct line south to the point of commencement.

Also, that His Honor has been pleased to create the following tract of land to be a School District, under the title of the "Aschroft School District," viz:—

All that tract of land embraced between the circumference of a circle whose centre shall be the centre of the plot of land on which the Government Building now stands, and whose radius shall be a distance of four miles from such centre.

200 lots on the Thorne road, from $65 upwards at $10 per month.—W. Reidt, Front street. *

Just arrived, conch shells for decorations, game of pigs in clover, new books.—Miss Peebles. *

The str. Rithet left for Victoria this morning with 40 passengers and a large load of farm produce.

North Arm Road Lots, from $100; Sapperton, $150; and Brownsville Acre Lots at $100, on easy terms, at W. J. Walker & Co's. *

Messrs. Woods, Turner & Gamble have removed to the office in the Bank of B. C. building, lately occupied by Mr. H. V. Edmonds. *

The upper works are being built on Capt. Holman's new steamer which is to run on Harrison Lake in connection with the St. Alice Hotel.

Look out for the great sale of lots in the town of Seattle, at the Mission Bridge, on June 15th next. For particulars, apply to Wm. Reidt. *

Don't forget the strawberry festival and concert to be given in the Oddfellows' Hall next Wednesday evening by the ladies of St. Paul's, R. E. church.

Mr. S. H. Webb gives notice that he leaves for Europe next week and will be pleased to attend to any commissions entrusted to him. Mr. Webb will be absent about 10 weeks.

Mr. C. E. Heard will address the meeting at the Y. M. C. A. to-morrow afternoon at 4 o'clock. Mr. Heard is a young man and deeply interested in young men. He should be heard.

The str. Irving left for Chilliwack this morning with 20 tons of freight and 25 passengers. Among the passengers were a number of land hunters who intend settling in the district.

Canadian Pacific Railway earnings for the week ending May 21st were $232,000. For the same week last year, $192,000. The above does not include earnings on the Southwestern Railway.

At the Baptist church to-morrow morning Rev. Mr. Baldwin, the pastor, will preach a sermon especially to the children, and in the evening the subject of his discourse will be: "Events *in the Other World.*"

The Grand Orange Lodge, which has been sitting at Goderich, was in session all Wednesday night discussing the Jesuits' Estates question. The Lodge in the matter of censuring the Protestant members in Parliament in the condemnatory resolution, divided. It carried, however. The session closed yesterday afternoon. Grand Master N. Clark Wallace, Woodbridge, and Deputy-Grand Master G. F. Clarke, Toronto, were re-elected. The following were elected deputy-grand lecturers: Manitoba, J. Marrow; Northwest Territories, J. Niblock; Alberta, James M. Mill, Calgary; British Columbia, Wm. Johnston, New Westminster.

New Lumber Rates.

The new schedule of rates on the C. P. R. for lumber and shingles in carload lots from British Columbia coast points to Manitoba and the territories is as follows:—

TO	NEW	OLD
Calgary	35c	40c per 100lbs.
Dunmore	40c	45c "
Maple Creek	42½c	45c "
Regina	47c	55c "
Winnipeg	50c	60c "

American and Canadian Sealers.

The Seattle *Post Intelligencer* says editorially: "The British Columbia sealers are preparing to go to Behring's Sea in spite of President Harrison's proclamation. They evidently expect to be treated with the same consideration that they received last season—that is to say, they expect to be permitted to kill seals to their hearts content while American sealing vessels are kept tied to their wharves in idleness. They will soon be undeceived, however. The men who are at the head of the American government to-day are not those who were at it as head a year ago. There will be no secret hints given to the British minister this year."

PERSONAL.

Major and Mrs. Peters are guests at the Colonial.

Capt. Jones, district paymaster, is staying at the Colonial.

Children Cry for Pitcher's Castoria

Lots of Game.

Our gallant bear hunters should pay a visit to the Scott road, for not a day passes but several big black bears are seen regaling themselves on salmon berries at the side of the highway. *Yesterday five deer were seen together* on the Scott road, and so tame were they that our informant approached *within a few yards of them before they* took to the bush. Grouse are also reported to be very plentiful, but some rascals are at work killing them out of pure wantoness. A man was seen to kill one and pass by, leaving it where it fell. The same bullet that killed the grouse passed within a few inches of a traveller's head. It is a pity a few game inspectors are not scattered over the country to bring such gentry to punishment.

A Pleasant Surprise.

On Thursday evening, after prayer meeting, Rev. Mr. Baldwin, of Olivet Baptist church, on returning to his home was surprised to find about a hundred of his congregation assembled there. Thursday was Mr. Baldwin's birthday, but he little expected his *charge would take advantage of the* event to show their high appreciation of his services. A deputation of the *congregation stepped forward*, and, after conveying their expressions of kind regard, presented the pastor with a handsome purse of money. Completely surprised by this unexpected evidence of his popularity, Mr. Baldwin, for once, was at a loss to reply, but he soon recovered and responded fittingly to the presentation. Hearty hand shakes followed, and a pleasant "good night" terminated this pleasing surprise.

Much He Knows About It.

The senate committee on relations with Canada, while in session at Seattle on Wednesday, among others questioned Mr. Muir Picken, a mining engineer, on the relative value of the Vancouver Island and Washington Territory coal fields, and the competi*tion of the B. C. coal. In reply to a* question by Senator Hoar, Picken, who professed to be well informed on the subject, told the senators that "The Nanaimo mines have never been conducted at a profit, and that the Wellington mines, which were good ones while they lasted, are located in a basin which is now about worked out." For the information of Mr. Picken, it may be stated that the supply of coal at the Wellington mines is practically inexhaustable, and there is sufficient in sight to last the next hundred years at the rate it is now mined. —*Colonist.*

The Clara Port Sunk.

The steamer Clara Port met with an accident in Boundary Bay, yesterday, by which she now lies beneath the surface of those placid waters. She was employed in towing a boom of logs from Boundary Bay to the Fraser River. The tide commenced to fall before a start was made from the bay, and only *a short distance had been made when* the steamer ran full tilt against a sand bank, where she stuck fast, and all efforts to back her off proved unavailing. As the tide receded further the Clara Port careened over until she lay on her side with her hold full of water. Mr. Gilley hastened to Westminster and procured the services of the tug Clara Young, and with her left for the scene of the accident. As the hull has suffered no damage it is thought that little trouble will be observed in floating the steamer again, and it is probable she will be towed into port tonight safe and sound. This is the second accident of the kind the Clara *Port has met with.*

Good News From Ottawa.

Mr. Alex. Ewen arrived home from *Ottawa yesterday, after a very pleas*ant trip which was greatly enjoyed. Mr. Ewen has little to say as to the real object of his visit east, but it is conjectured that the results were not unsatisfactory. Mr. Ewen brings the good news that our member, Mr. Chisholm, is rapidly gaining his health again, and has so far recovered as to be able to attack business almost with his old time vigor. The doctors have ordered Mr. Chisholm, as soon as he is in condition to travel, to go to the mountains and spend the summer, where the light air of the higher altitudes is expected to prove very bene*ficial. It is probable Mr. Chisholm* will first go to Calgary and from there to Banff. Just when he may be expected home to Westminster is not known yet, but the general wish is expressed that before the summer months are gone he will be back again perfectly restored in health. Miss Chisholm, who has been a most careful and loving nurse through Mr. Chisholm's long illness, has been called to Nova Scotia to attend her mother's funeral, and on her return to Ottawa both will leave for the west.

Sad Suicide.

A melancholy case of suicide was reported this morning which has cast a *gloom over the entire community.* The suicide was accidental, but even the knowledge of this fact does not allay the general feeling of sorrow. The facts of the accident are as follows: Mr. Uren, the photographer, had a very fine dog, even tempered, intelligent and thoroughly subservient to its master's will. This dog was kept for convenience sake on the second story verandah of Mr. Uren's establishment, where it was usually chained to one of the posts to prevent it from finding an exit to the streets through one of the numerous open windows. At a late hour last night the dog concluded to have a run down town anyway, and either forgetting that a strong chain was attached to the collar, or trusting to its *superior strength* to break the attachment, it jumped boldly from the gallery into space. *The chain and collar proved very* strong, too strong for the poor animal to break nothwithstanding its superior canine efforts, and the result was that the dog was strangled. No one was near when the accident happened and the cries of the animal were unheard and it died in great agony. No inquest was considered necessary.

TO DISPEL COLDS,

Headaches and Fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the liver and kidneys to a healthy activity, without irritating or weakening them, use Syrup of Figs.

Children Cry for Pitcher's Castoria

OUR DEFENDERS

Are Inspected this Afternoon by Major Peters of "C" Battery. A Fine Turnout.

The inspection of No. 1 battery B. C. B. G. A. and the Westminster Rifles took place on the cricket grounds this afternoon. For some months both corps have been steadily preparing for this event, but the non-arrival *of the new uniforms for the rifles un*til a few weeks ago, told heavily against that corps, as it was impossible *to get the men to turn out in plain* clothes. There is not much enchantment about military parade when not accompanied by the handsome uniforms. Both corps mustered at the drill shed at 1 o'clock, and shortly before two, headed by the fine band of the rifles, marched to the inspection ground where a number of movements were gone through while awaiting the arrival of the inspecting officer. The day was very warm, but, fortunately a fine cool breeze was blowing, which tempered to a considerable degree the heat of the sun. The attendance of the general public was very large, and the ladies, in particular, turned out *unusually well. Notwithstanding the* heat and other discomforts they watched the proceedings throughout with great interest. A few minutes before 3 o'clock the troops were drawn up in line at open order ready to salute. The artillery, under the command of Lieutenant Mowat, turned out 35 men, while the rifles, under Captain Scoullar, Lieutenant Glover and Lieutenant Cotton, mustered 38 men. Standing in line the men looked every inch like soldiers, a credit to the service and an honor to the city. The dark blue tunics, white belts and bearskins of the artillery gave them a veteran-like appearance, and they looked fit for any*thing. The rifles in their dark green* uniform, busbies and leggings, presented a smart appearance. The excellent physique of both corps was particularly noticeable, and favorably commented upon by the spectators.

Sharp at 3 o'clock Major Peters, accompanied by Capt. Jones, arrived, and was received with a general salute. The inspecting officer then passed down the ranks and inspected the arms and accoutrements. The march past, in column and quarter column, followed, which was performed in *good style. The companies were then* put through various movements, after which the artillery were marched down *to the Crescent battery. The rifles gave* an exhibition in skirmishing and this closed the cricket field part of the programme. The artillery were hammering away at the Brownsville shore as we go to press.

FROM VICTORIA.

The Chinese Murderer Sentenced to Hang. The Nanaimo "Free Press" Being Sued for Libel.

Special to the Columbian.

VICTORIA, June 1.—Chan Ah Heung was found guilty last night of murdering Yow Kuan, the young Chinese woman, and is sentenced to be hanged on July 10th. He received the sentence with the utmost stoicism.

A game of cricket, Victoria vs. Navy, "C" *Battery and Militia* was played this afternoon.

The barristers on the the West side of Langley street will play those on the East side a game of baseball to-day. A picked team from the Victoria club will play the winners.

The Nanaimo *Free Press* is being sued for five thousand libel by Dr. Praeger.

Dr. Ormiston, the celebrated New York divine, is in the city.

Capt. Robertson's libel suit against the *Colonist* newspaper is on in the supreme court before Judge Crease today.

Crofter Immigration.

Mr. R. M. Brereton, commissioner of the Duke of Sutherland, who spent a few days in Victoria last year, and who visited Alaska, has been in the city *some days past. He is at present* at the Driard, but as soon as arrangements can be made will take up his residence here with his family who have accompanied him. To a *Colonist* representative, Mr. Brereton stated that he still believed that this province afforded the best inducements to Crofter immigrants. Those who had located on the plains east of the mountains were succeeding, but the nature of the country was altogether different from that to which they had been accustomed. Queen Charlotte islands, *he thought, was the most desirable* place for them to locate, for they would then have the advantage of the *great fishing banks in the waters ad*jacent. He also believed the west coast of Vancouver island was suitable for Crofter settlement. From what he could learn the fishing fields of the Pacific were equal to, if not superior, to those of the Atlantic, and when the value of this Pacific coast country was understood in Great Britain, there could be no doubt that a large immigration to its shores would result. At present British Columbia was little known in the old world, and in fact, the residents of the province were but *slightly acquainted with it outside of* the settlements. Mr. Brereton further said that there would be no Crofter immigration this year, but in 1890 a number of Crofters would be located in British Columbia, and if they prospered, a large contingent would follow later.—*Colonist.*

B. C. Jockey Club.

The British Columbia Jockey Club held a meeting last night. The attendance was good and considerable business was transacted. The object of the meeting was to consider the rules and *regulations which have been prepared* by the committee appointed for that purpose. W. H. Ladner, M. P. P., acted as chairman, and W. Seitz as secretary. The secretary's report relating to the formation of the society having been read and adopted, and a slight discussion having taken place on the rules, it was moved and seconded that the regulations as submitted be adopted, subject to completion amendment by the committee to be appointed later on. Some little discussion then took place anent the appointment *of the president* of the club. Mr. Orr, M. P. P., desired to see Lieut.-Governor Nelson in that honorary position. The *secretary pointed out* that ex-Lieutenant Governor Cornwall had been appointed president. Other members of the club who were present thought a working member would fill the president's chair most suitably. Eventually an amendment introduced by Ald. Brighouse was carried and ex-Lieut.-Governor Cornwall was appointed president; first vice-president, W. H. Ladner, M.P.P.; second vice-president, Lieut.-Col. Holmes. An executive committee, consisting of the following nine members, was then appointed: Jas. Orr, M.P.P., J. Rankin, J. C. Henderson, *Chilliwack*; Geo. Black, Hastings; J. A. Fullerton, C. F. Green, Ladner's; Capt. Thompson, Burton's Prairie; Mayor Grant, Victoria, and W. Cargill, Vancouver. A committee contising of Messrs. Jas. Orr, W. G. Alcock, Geo. Black and W. Cargill, was appointed to co-operate with a committee appointed by the city council and report regarding the selection of a suitable site for a race course. There being no further important business, the meeting adjourned.—*World.*

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
