Weekly Meeting of Anyox Community League Council

The regular weekly meeting of the Community League Council was held in the Recreation Hall, Wednesday January 17th. Present: Secy-Treas. Lowry, Councillors Noel, Rowley, McTaggart and Seidelman.

On the reading of the minutes of the previous meeting, it was moved by Mr. Rowley and seconded by Mr. Seidelman that they be adopted as read.

The Secretary's report stated that Mr. Cheshire had accepted the position as caretaker of the New Gymnasium, and commenced his duties as an employee of the League Tuesday morning, Jsnuary 16th., at a salary of $135.00 per month. The moving picture operator, Mr. Parker, not being satisfied with the decision of the Council in the matter of operator's licence, exhibited two slides on Saturday evening, January 13th. containing matter which was uncalled for under the circumstances, and as a result of which it had been decided that he could no longer remain in the employ of the League. He was given notice that his services would be no longer required, and Mr. McMillan, who held an operator's licence had been placed in charge. The gymnasium would be ready for general purposes by Sunday, Jan. 21st. The lines for basket-ball, badminton and tennis had all been painted, and the whole floor would be coated with oil and dry by Saturday night. A communication had been received from the Mine Club stating that a committee had been appointed by that organization to discuss matters in general effecting both organizations. Miss Zeigler, of the Mine, had applied some time ago for the pianist at the Mine Picture show. Mr. Selfe had made arrangements with Mr. Haeslar to do this work, but as Mr. Haeslar is going to move to the Beach at the end of the present month, it will suit him if Miss Zeigler is given the position there. Temporary arrangements have been made to place Miss Zeigler at the Mine Hall as pianist, pending the endorsement of the Council.

Under the head of correspondence, a letter was read from Frank Walden, applying for the position of operator at the Mine Hall. The matter was left to the Secretary to get further information. Harry Henford, Industrial Engineer for the Department of Labor, Ottawa, wrote for information concerning the "Granby News." He wanted to know something of its history and whether the Granby Co. or the League published it. Another letter was received from Mr. Lytle, sporting editor of the Vancouver

Continued on page 4.

Hockey Games at Alice Arm

Good skating at the local rink has been obtainable through the week, the weather being just cold enough to keep the ice from thawing. On Saturday last the ladies played their usual weekly game and a good game was the result.

On Sunday the Cougers and Bears, played a very exciting and fast game. The Bears put up a good fight—as they always do if anyone gets fresh with them—but the Cougers proved their superority by piling on 8 goals while the Bears could only place the puck three times between the posts.

The Bears, however, on Thursday mixed it with the Wildcats, and came out winners with a score of 3—2. The game was fast and both sides went the limit, and was the most evenly contested game yet played this year.

While the game on Thursday was as good as any game played on the local rink this season, the game yesterday was even more thrilling and exciting, when the Bears tamed the Cougars, and stopped their winning streak. The game throughout was a ding dong battle. Both teams were scoring heavily, and at the finish of the third period the score stood 6-6. In an overtime play of two minutes the Bears banged the puck into the net, and the Cougars met defeat for the first time this season.

Following is the standing of the teams:

Team	Played	Won	Lost
Cougars	3	2	1
Bears	3	2	1
Wildcats	2	0	2

Concentrating Mill for Anyox

It has been decided by the Granby Co. that the construction of the new concentrating plant will be commenced early in the spring. The erection of a concentrating mill has been proposed for some time, in order to take care of the large bodies of low grade ore at the mine that cannot be profitably treated at the smelter. The mill will cost in the neighbourhood of $500,000, and is expected to be in operation early next year. It will be built on the railway between the mine and smelter.

BIRTHS AT ANYOX

Born to Mr. and Mrs. Geo. Matheson, of Alice Arm, at the Anyox Hospital, on Sunday, January 14th, a daughter.

Born to Mr. and Mrs. Oswald Hutchings, at the Anyox Hospital, on Sunday, January 14th, a son.

Anyox Brass Band Give Good Concert

The Anyox Brass Band, under the conductorship of bandmaster J. J. Varnes, gave a delightful concert, on Sunday evening at the Recreation Hall, which was free to the public. The band played a number of selections, and solos were rendered by Mrs. O. M. Watson and Mr. W. F. Eve.

These band concerts will take place on the second Sunday in every month, and there will be no charge for admission.

The band is making wonderful progress and deserves great credit for their enthusiasm and diligence, in attending practice two nights a week, Monday and Thursday. There is room for a few more instruments in the band, and anyone interested, who would like to get free tuition on a band instrument should uot miss the opportnnity.

There is now a subscription list going around, for the purpose of raising funds for the band, and it is meeting with generous support. It is the best way we have of showing our appreciation of Mr. Varnes and his colleagues.

ALICE ARM NOTES

See Al. Falconer for Freight and Pack Horses.

Art. Smith who spent a few days in town during the week left on Thursday for Victoria.

Constable A. Dryden of Anyox was a visitor in town during the week on official business.

W. Hutchison and Chas. Brown arrived on Saturday from Stewart. They have taken a lease on one of the high grade showings at the Esperanza, and expect to spend a profitable winter at the mine.

Mr. and Mrs. Wm. Bunting left on Saturday, for their home at Hyder, Alaska.

Mr. and Mrs. A. Baudin, arrived from Anyox, on Tuesday, and will reside here permaneutly.

J. B. Robertson, who was in business here in the early days, and holds an interest in the firm of Robertson & Dumas, arrived on Monday, and will spend a few weeks in town.

J. M. Morrison left on Thursday, on a short trip to Prince Rupert.

A very pleasant dance was held at the Alice Arm Hotel, on Friday evening, January 12th. A large number of people were present, and a very enjoyable time was spent in dancing, until the wee hours. A dainty and appetizing supper was served by Mrs. E. M. McCoy, of the Hotel.

See Al Falconer for Wood or Coal

ANYOX NOTES

D. S. Evans, of the Mine, left on Thursday, on a month's visit to Vancouver and southern points.

Arthur Smith arrived last week from Britannia mine. He worked in Anyox 18 months ago.

Union Church Services, Sunday, January 21. Sunday School 11 a.m. Evening Worship, 7.45 p.m. We extend a welcome to you.

Mr. and Mrs. H. S. Munro and family returned on Thursday, from a visit to the United States.

On Thursday, January 11th, the steamships Marmion and Griffco, left for Stewart, and returned on Sunday the 14th. The Griffco loaded 400 tons of copper and left for the south with the barge Louisiana, loaded with flue dust. The Marmion and a scow arrived from Prince Rupert loaded with coal.

L. F. Champion, manager of the General Store, left on Thursday for Vancouver, on a business trip.

We looked into the new A. C. L. Gymnasium the other day, and found the painters putting the finishing touches to the floor marking for the different games that will be played. There will be basket-ball, badmington and tennis.

Some of the boys who know something about these things declare that the floor is just right. It is cxpected that the hall will be ready to operate full swing by next Monday.

Dr. J. H. Carson, resident physician at the Premier mine, was a visitor to Anyox last week.

Ralph Roberts returned last week from holidays in the south.

Jack Sherman is spending holidays in the south.

Harry Selfe, manager of the Recreation Hall, is spending a few weeks in Vancouver.

Don't forget Bobby Burns' nicht, at the Recreation Hall, on January 24th.

E. E. Harper, teacher of piano, arrived in town last week to reside in our midst. This is welcome news to many parents whose children have been deprived of the opportunity to acquire the accomplishment of a musical education.

Young lady wishes position in Anyox. Best of references. For further particulars, apply P. O. Box 199, Anyox.

History of the Dolly Varden Mine

Giving Discovery of Dolly Varden and Wolf, Development Work, Value of Ore Shipped, Transportation, Engineers Reports, Etc.

The taking over of the Dolly Varden, and Wolf mines, railroad, and all equipment, marks another stage in the checkered career of these properties, which were in the limelight some three years ago, when the phenominal rich ores of the Dolly Varden proved to the world that the northern coast district of the province possessed high grade ore, as well as large bodies of low grade, and it was the commencement of the mining boom that is now under way, throughout the north.

Since 1913, when the Dolly Varden was bonded by R. B. McGinnis for Chicago interests, the property has been idle through litigation nearly half the time, but it now seems probable that operations will now be stablized and that once the properties are in operation they will continue so.

The Dolly Varden was located in 1910, by Ole Evindson, Ole Pearson, Chas. Swanson, K. L. Eik, and E. Carlson. They left Prince Rupert in the spring of that year on a prospecting trip. They visited Stewart. which was then enjoying its first boom, and finding most of the ground staked, directed a course for Alice Arm. They prospected the Kitsault valley and found outcroppings of silver ore, on the Dolly Varden Hill. They staked three claims, and also staked the Red Point, which is a copper property. They did assessment work on the Red Point, but failed to do it on the Dolly Varden as the property did not seem to warrant it, and the property was vacant until 1912, when they restaked it.

R. B. McGinnis, who was on the look-out for mining properties, on behalf of Chicago interests, examined the Red Point and Dolly Varden in 1912. He advised the owners to concentrate work on the Dolly Varden, although the highest assays obtained from surface samples gave only $2.50 per ton. Work under his direction was commenced at a point a short distance above the present camp, and rich ore was struck. He bonded the property in 1913, for $50,000 Five more claims were staked later and the property now consists of eight claims, covering an area of 212 acres.

Development work, consisting of tunnels and diamond drilling was carried on until 1918, and the work done proved conclusively that

History of the Dolly Varden

Continued from page 1.

the Dolly Varden was without doubt a mine that would pay large profits to the owners.

In the meantime, Mr. McGinnis, who had been examining various properties in the vicinity, took a bond on the Wolf property in September, 1915. This property was owned by Don Cameron, who staked it in June of the same year, and consisted of four claims, situated about two miles from the Dolly Varden on the opposite side of the Kitsault River. A tunnel 89 feet in length was driven on the property during the winter of 1915-16, and during the years 1916, and 1917 a large amount of diamond drilling and open cutting was done, which proved that the Wolf is a property that can be developed into a mine.

While development work was proceeding on the Dolly Varden and Wolf, it was evident to the Dolly Varden Mines Company, that transportation had to be provided, as the properties were situated 18 and 20 miles respectively from tide water, aud the only means of communication was a rough pack trail which extended to within four miles of the Dolly Varden.

The work of building a graded trail was commenend in the spring of 1916, by Sol Cameron, of Victoria, who built a trail from the wharf to the mine. It was the intention of the Dolly Varden Company to improve this trail at a later date and to use tractors as a means of transportation.

These plans were, however, changed, and arrangements were made the following year with the Taylor Engineering Company, of Vancouver for the construction of a railway. The Taylor Engineering Co., Ltd. accepted a contract on a cost plus ten per cent. basis. A written agreement that the work would not cost more than $175,000 was given by the Taylor Co. According to the evidence of Mr. A. J. T. Taylor, when the dispute was before the legislature, this agreement was supplemented by a verbal agreement whereby President Hubbard, of the Dolly Varden Mines Co. agreed to see that any excess above this figure, up to an extra $100,000 would be paid. The Taylor Company spent $275,000 during 1917 without the road being nearly completed.

Construction work was carried on in 1918, on the credit and capital of the Taylor Engineering Co., and a dispute arose between the Taylor Co. and the Dolly Varden Co., in which the Dolly Varden Co. alleged that the costs were excessive. When the Taylor Co. ceased work on October 22nd, 1918, they had owing to them an unpaid balance of $462,628, and the wage claims against them amounted to $150,000.

The dispute was finally settled by the provincial legislature, who decided in favor of the Taylor Engineering Co., and who took possession of the property in June, 1919. In taking over the property, they assumed the obligation of the mortgage of Mr. George Wingfield, Reno, Nevada, who had loaned the Dolly Varden Co. $150,000 for development work in 1916. This money the Taylor Co. never paid, and that is why the property is now in possession of Mr. Wingfield.

Owing to lack of space we are unable to complete this article, it will therefore be continued next work, and will deal with the operations of the Taylor Co. and reports on the properties by various mining engineers.

Financial and Market News

Financial and Market News gathered by private direct wires from the world's market centres by
Burdick, Logan & Company, Limited

Vancouver, B. C.

January 15, 1923

Copper

Boston—Copper demand and sales, here and abroad, are good and growing better. No weakening in price is seen, contrary every charge is a fraction higher. A large tonnage was recently sold around 15 cents and a further advance is looked for. Copper production has not kept pace with domestic and export consumption, and demands has for some time been met out of surplus stocks, which are running alarmingly low. Exporters say they have large orders on books and a good supply of money coming for the next few months to take care of these orders. One of the best posted copper men in the country, at the head of one of the largest electrolyte refining plants, stated today, that the country was going to waken up to the fact there was not enough copper to go around, and that there would be a wild scramble for it, and a sharp advance in price.

New York Flash

Japan, after being out of market for nearly a year, has bought several million pounds of copper for shipment via Pacific Coast Ports.

Lead & Zinc

Market very strong at around 7 1-2 cents for both metals. The copper and zinc lead properties of British Columbia should show great activity in 1923. Boston and New York advices tell of great activity in United States mining areas. This activity authorities consulted speak hopefully of the prospects for copper, lead and zinc.

Steel & Iron

Pittsburg—Steel industry operating at about 80 per cent of capacity. It is pointed out that this would amount to 100 per cent. of capacity in pre-war times. It is not likely that the present steel capacity is much in excess of what might be called a natural growth had not the war crowded this growth into a short period of time.

Rubber

Akron, Ohio—Smoked sheet rubber is now quoted at 26 1-4 cents a pound, having registered an advance of 2 cents per pound over last week. This price is approximately 100 per cent above the low of the year, and is the highest since 1920. Leading companies advanced tires and rubes 12 1-2 per cent. today.

Oil

New York—Production in the United States during October reached an average of 1,524,355 barrels daily. This is the highest record average. Production for 1922 nearly 600,000,000 barrels.

Montreal—All Canadian newsprint mills are making much better showings the later part of 1922 than same period in 1921. Brompton Pulp & Paper Co. which owns two mills in New Hampshire, at Groveton and Claremont, is expected to show about $1,000,000 net earnings after depreciation. Last year net earnings were $1,097,000 but out of this had to be taken 9444,000 for pulp-wood losses practically wiping out net earnings.

Financial and Market News

Continued from page 2.

Philadelphia—Baldwin Locomotive Works built 704 engines during 1922 Total sales for year $55,000,000. The Company enters 1923 with $40,000,000 of unfilled orders.

Chicago—Wm. Wrigley Jr. Co. Chewing Gum Manufacturers, show a record year; earnings greatest in history of the Company. Monthly dividends of 2 per cent. or 24 per cent. annum have been paid since 1919. Company was established in 1891 with a capital of $5000; is now the largest manufacturer of chewing gum in the world, output being 115,000,000 boxes of 100 sticks annually.

Wrigley Building in Chicago costing $4,500,000 built two years ago, out of current profits, stock is selling around $116. par value $25.

Stocks

National Lead reports all its plants put on day and night schedule. This means increased earnings.

North American Company continues to pile up its surplus. The year 1922 best in its history. Earnings $24.05 a share.

Studebaker Motor Company's earnings reach new high levels. Except Ford, no other Motor Company reveals as consistent growth in earnings. Net profits in 1922 is $18,000,000, being $30 a share on the common stock which closed today at around $115 per share par value $100. Officials are optimistic and predict that Studebaker will easily sell every car it can make next year, regardless of conditions in the industry as a whole. Under the circumstances the probable production of 150,000 cars in 1923 might result in net profits approaching $30,000,000, or $40 a share on the $75,000,000. which will be outstanding when the stock dividend is paid. Studebaker pays $10 a share dividend at present, and should have no trouble increasing the rate.

Bonds

Market very strong for all classes of bonds. Victory bonds scarce, and Municipal bonds yielding six per cent almost a thing of the past.

Vancouver Bond Market

War Loan 5 per cent.

1925	$100.60
1931	100.60
1937	102.00

Victory Bonds 5 1-2 per cent.

1923	$101.25
1924	101.25
1927	102.50
1933	105.10
1934	102.40
1937	107.10
1932	102.10
1927 (Nov.)	102.10

Note:—Victory Bonds due December 1st, 1927 are non-taxable. Those due November 1st, 1927 are taxable.

Bonds should be mailed by registered post, and Burdick. Logan & Company will forward cheque per return.

Bonds are being received by ordinary post, but this is not safe. Burdick, Logan and Co. Ltd. request the Herald to bring to the attention of its readers the necessity of mailing their bonds by registered post only.

By special arrangement, Burdick, Logan & Co., Ltd. will gladly supply complete information on any stock, bond, or company to subscribers of the Herald.

Bright—Very smart looking car you have, Green.

Green (gloomily)—But not nearly as smart as the dealer who sold it to me.

Another good thing about telling the truth is you don't have to remember what to say.

Home is a place where the modern sons and daughters sleep when everything is closed.

SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class land reduced to $5 an acre: second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres, before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim

Records without permanent residence may be issued, provided applicant makes improvements to extent of $360 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown Grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under the Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the great war. This privilege is also made retrocative.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfillment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged, priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

Anyox Community League Meeting

Continued from page 1.

Daily Province. This was in answer to a request for information in connection with the organization, if possible, of a branch of the British Columbia Amateur Athletic Union, in Anyox. Both these letters were left to the discretion of the Secretary. A wire from W. Benyon, Port Simpson, was read. It asked for basketball dates with Anyox next week, and mentioned guarantees for expenses. As the basketball season had not started as yet, it was thought inadvisable to arrange games at present, but Mr. Benyon would be notified towards the end of the season these games might be arranged for.

In the Intermediate Basket-ball League, which was formed during the present week, and which originally comprised five teams, another team was entered by Mr. Seidelman. This team will be known as the General Office Team. The other contestents in this League, will be Coke Plant, Smelter, General Stores, Tuxis, and High School.

The Ways and Means Committee will meet the committee appointed by the Mine Club, on a date to be arranged. Miss Zeigler was given the position of pianist at the Mine, on a motion by Mr. Rowley, which was seconded by Mr. Noel. A music rack for the orchestra was ordered. Mr. Noel thought it was time the Council did something in connection with the footlights, and asked the Council to do something before the concert billed for January 29th. took place. This matter will be attended to.

A deputation from the Catholic Club Basketball Team, headed by Cy. Greenwell, wanted to know if the Gym. would be available for basket-ball practice. They were informed by the Chairman that the hall would very likely be open on Monday next and to apply to the caretaker for time.

New Store for Alice Arm

Art. Beudin, has commenced construction on a building on the corner of Telegraph Street and First Avenue. The building will be a 2-storey structure, witn a frontage of 24 feet on Telegraph Street and 44 feet on First Avenue. The ground floor will be used for stores and the upstairs for living quarters. The down town business section is being rapidly built up, and at the present rate of construction it will be only a short time before the whole section is built solid.

"Sir, your daughter has promised to became my wife."

"Well, don't come to me for sympathy; you might know something would happen to you hanging around here five nights a week.

"Daughter, doesn't that young man know how to say "good night?"

"Oh, daddy! I'll say he does!"

HERALD OFFICE

ALICE ARM

MINERAL ACT.
FORM F.

CERTIFICATE OF IMPROVEMENTS

NOTICE

"Bonanza Fraction" Mineral Claim, situate in the Naas River Mining Division of Cassiar District. Where located: East side, Kitsault River, Alice Arm.

TAKE NOTICE, that I, W. E. Williams, Free Miner's Certificate No. 56728-C acting as agent for J. D. Meenach, F. M. C. No. 47380-C, R. D. Brown, F. M. C. No. 47381-C, John Holmgren F. M. C. No. 47382-C, and Chas. Z. Frey Free Miner's Certificate No. 47383-C intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim.

And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements.

Dated this 19th. day of December A.D. 1922.

W. E. WILLIAMS

MINERAL ACT

NOTICE

Whereas I, Walter Jones, co-owner and agent, with power of attorney for the co-owners of the Alice group of mineral claims, situated in the Portland Canal District of Alice Arm, B. C.

And whereas the said J. McIsaac has failed to contribute his proportion of expenditure required by Sections 48 and 51 of the Mineral Act, and his co-owners have made the expenditure:

NOW THIS IS TO GIVE NOTICE to said J. McIsaac, that if, at the expiration of ninety days from the first publication of this notice in the "Herald" a newspaper published and circulating in the Mining Division in which said claim is situated, the said J. McIsaac shall fail or refuse to contribute the sum of $80.00, his proportion of the expenditure required by said sections 48 and 51, together with all costs of advertising, his interest in the claim shall become vested in his said co-owners pro-rata, on complying with and in accordance with the provisions of Section 28 of the Mineral Act.

Dated this 2nd. day of December, 1922.

BRITISH COLUMBIA

The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,177,403; Lode Gold, $105,557,977; Silver, $55,259,485; Lead, $48,330,575; Copper, $166,393,488; Zinc, $21,884,531; Coal and Coke, $225,409,505; Building Stone, Brick, Cement, $34,072,016; Miscellaneous Minerals, $1,210,639; making its mineral production to the end of 1921 show

An Aggregate Value of $734,259,619

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906-1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641.

Production During last ten years, $336,562,897

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia
