Anyox Moose Hold First Anniversary Banquet

Fine Musical Programme and Interesting Address Given by Supreme Dictator

The Anyox Lodge No. 1412, Loyal Order of Moose, celebrated their first anniversary, on Saturday, September 27th, with a banquet, which was held in the Elks' Dugout. A large number of members were present to celebrate the first anniversary of the institution of the local Lodge, and a most enjoyable evening was spent.

While the banquet was in progress, and the delicious vivands under which the tables groaned, were disappearing with great rapidity, a highly successful musical programme was carried out. The programme consisted of selections by the Moose orchestra, vocal selections and recitations; Moose choruses were also sang by everyone.

All those fortunate enough to be present voted the evening an entire success, and the only regret voiced was that the Anniversary Banquet could only be held once a year.

During the course of the evening District Deputy Supreme Dictator Bro. Sigurd Wallstedt, gave a very interesting and instructive address, on the advantages and high ideals of the Loyal Order of Moose, and its phenominal growth during the past few years. His address was greatly appreciated.

For the splendid success of the evening, great credit is due to the Banquet Committee, who consisted of Bro. D. Cleal, chairman; Bros. J. Hart. L. Dodds, M. McLeod, O. J. Hutchings, J. Tierney, J. Wilson.

During the evening, a presentation was made to the retiring secretary, Stanley Spragg, who is leaving Anyox for the winter. Dictator Ellis, in presenting the secretary with a gold watch on behalf of the Lodge, thanked him for the able manner in which he had carried out his duties since the inception of the Lodge.

Bro. Spragg responded in a few words and thanked the officers and members for the hearty cooperation they had given him during the past year.

Following is the musical programme:

Overture, The Moose Orchestra.

Toast, "The King," proposed by Dictator J. G. Ellis, P.D.

Selection, The Moose Orchestra.

Song, J. Murdoch.

The Nine o'Clock Ceremony

Toast, "Mooseheart," proposed by Prelate J. Herdman.

Chorus, "Mooseheart the Happiest."

Selection, Moose Orchestra

Recitation, D. Bartholomew.

Toast, Anyox Lodge No. 1412. Proposed by Vice-Dictator, J. Kirkwood.

Selection, Moose Orchestra.

Song, J. Varnes.

Recitation, O. J. Hutchings.

Toast, Officers of Anyox Lodge. Proposed by Bert Kergin.

Selection, Moose Orchestra.

Response to Officers Toast, J. G. Ellis.

Choruses: The Closing Ode, "Auld Lang Syne." "God Save The King."

High Values From Montana at Stewart

Local Merchant Interested In Property

Mr. G. W. Bruggy, of Alice Arm, received some pleasant news during the week, when assay returns from the Montana property, at Stewart, in which he is interested was received.

While in Stewart recently, Mr Bruggy obtained some ore samples from one of the owners, which he sent out for assaying, the returns of which are as follows: Sample No. 1, 376.8 ozs. silver and 23 per cent lead per ton, Sample No. 2, 109 ozs. silver and 15 per cent lead.

The Montana is one of the best known mining properties in the Stewart district. It is located in the Marmot river section, near the Porter-Idaho, and Fraser properties, both of which are busily engaged in shipping ore.

It was the first property staked during the boom days of 1910. Messrs A. McLoed and G. W. Bruggy obtained a lease on it in 1914, and shipped considerable ore, which gave smelter returns of $296.00 per ton in gold, silver and lead.

Since then several new ore ledges have been discovered, the last one being made on the Peach claim, and known as the Lead showing.

The owners, Messrs. A. McLeod of Stewart, G. W. Bruggy of Alice Arm and H. C. McGee of Vancouver, are confident that in the Montana they have a property second to none in the Stewart district, with the exception of the Premier. It is possible that in order to more extensively develop it and place it on a more permanent shipping basis, that they will form a stock company. and the public will have an opportunity of getting in on the ground floor of one of Stewart's most promising mining properties.

Mine Club Elect Officers For Year

At a well attended meeting in the Mine Hall on Tuesday evening. the Mine Club held their annual election of officers. Those elected to the various offices were: President, E. Pierce; Vice President, J. Tolhurst; Sec.-Treas. J. A. McMaster; Sports Committee, Les Lane; Dance, L. Lipsky; Social, P. Harris.

The officers and the various committees will get together at an early date to formulate plans for the coming season.

NOTICE

Owing to the change in the schedule of the Grand Trunk Pacific boats, which necessitates the launch Awake leaving Alice Arm at 2 p.m. on Friday instead of Saturday morning, the Herald will be published on Friday instead of Saturday. In order to avoid disappointment please forward your news items as early as possible or we will be forced to carry them in the following issue if there is a congestion of news at the end of the week.

New Tunnel For Sunrise Property

Considerable Work Done on Promising Showings

Messrs G. W. Morley and Al Clary have been devoting most of their time this summer in developing the Sunrise property on McGrath Mountain.

Mr. Morley, who was in Alice Arm during the week states that the property is looking better than ever. During the summer, the trail to the property, which connects with the Illiance trail has been repaired from end to end.

A number of surface cuts have been driven on the most promising showings, and two more veins of high grade galena ore have been discovered.

There are seven parallel ore veins on the property, the smallest of which is 15 feet and the largest 60 feet wide.

The work of facing up for a tunnel which will be driven on one of these veins is now ready and drifting on the ore will be immediately undertaken,

The ore veins on the Sunrise carry high value in lead, zinc, silver and gold. Samples sent out for assaying this year have given returns as follows: No 1 sample $48.00 in silver, lead and gold, No 2 sample $68.40 in silver, lead and gold, No 3 sample $4.80 in gold and silver, the latter sample was composed of iron ore.

The owners have done a lot of work on the property, and are ready to do a lot more, and are confident they will have no trouble in disposing of the property, one great advantage being its close proximity to tidewater.

Anyox Elks Hold Successful Dance

On Friday evening last, the Elks staged their second dance of the season. A good crowd attended and tripped the light fantastic from 9 p,m. until 2 a.m. Supper was served in the Dugout at 11 o'clock. The music was excellent and was supplied by the Elks' Orchestra, composed of Messrs. J. Austin, piano; S. Armstrong, violin; P. Stivenard, cornet; S. Steele trombone, and E. J. Waterman, traps.

Progress Being Made on Toric Tunnel

The Homestake Mining Co. since taking over the Toric property some few weeks ago, have made excellent progress with their development programme.

The camp buildings have been completed and a compressor plant is on the ground ready for operation.

The first tnnnel to be driven and which was started in a rock slide, encountered solid rock yesterday. The tunnel was driven through the slide for a distance of about fifty feet. Now that solid rock has been encountered, progress will be more rapid.

Eleven men are employed at the Toric and work will be carried on throughout the coming winter.

Mining Engineer Inpects Alice Arm Property

Mr. W. J. Elmendorf mining engineer, arrived on Monday from Seattle, to make an examination of the Sunset property, on Roundy Creek, for the Keystone Mining Co. During the boom days of Stewart, Mr. Elmendorf was general manager of the Portland Canal Mine, and while here met several friends of former days.

Mr. Elmendorf returned from the Sunset yesterday, and was well pleased with what he saw there. He was accompanied by Mr. Atkins, mining surveyor, who has spent the past week there.

Anyox Mine Club Hold Concert And Dance

A highly successful concert and dance was staged by the Mine Club. on Monday evening, in the Mine Hall. Several talented local artists contributed to the programme, and met with much applause from the large crowd assembled for the entertainment.

Immediately after the musical programme was brought to a close dancing was indulged in until 2 a.m., and a very pleasant evening was brought to a close.

Anyox Ladies Form Hospital Auxiliary

At a recent meeting held at the Anyox Hospital by a number of ladies of the town, it was decided to form an auxiliary for the purpose of aiding Miss Swanson, matron of the hospital, in providing comforts for the patients. The organization is composed of a number of active workers, whose chief aim is to cheer and comfort those unfortunate enough to be confined to a sick bed.

The officers elected, were: Hon. President, Mrs. P. Whelan; Hon. Vice-President, Mrs. D. R. Learoyd President, Mrs. F. M. Kelley; Vice-President, Mrs. Cook; Secretary, Mrs. Cooper.

Government Has Done Considerable Road Work

Road Completed From Dock To Near Illiance

With the completion of the Shore Road this week the government programme of work for this summer for bridges, roads and trails will have been completed, except perhaps a little work that may be done on the wing dam.

The first work to be done this year was the construction of the big suspension bridge across the Kitsault river. A piece of work which was greatly needed. The wing dam was also considerably lengthened to protect the west pier of the bridge and also to protect the town from a devastating flood.

The Alice Arm Shore Road was also extended one mile, commencing at the School and terminating at the logging camps of the Abottsford Logging Co. A bridge across the Illiance river was also partially constructed, and with the completion of this bridge next year, the road will probably be extended to connect with the Illiance River trail.

The Dolly Varden railway was repaired to Camp 8, and it is now possible for speeders and horse cars to be operated over the tracks, which is of great advantage to small mining companies and prospectors.

In the upper Kitsault country a new trail was built from mile 22 to the Copper Cliff property and the old trails were repaired.

A bribge was built at mile 14, near Miner's Creek to replace the old worn ont cable ferry. A bridge was also built at mile 22, replacing the bridge destroyed last fall. A cable ferry was also built across the Kitsault river at 11 mile. The Illiance river trail was repaired during the year as far as 11 mile.

Alice Arm Mailing Hours Change

Owing to the change of schedule of the G. T. P. steamships, outside mail which formely left on Thursday morning will not leave until Friday. Mail closes at 12.30 p.m. on Friday. The Awake leaving at 2 p.m. Mail from outside will arrive on Thursday evening as usual. Saturday mail from Anyox will arrive on Saturday at noon instead of Saturday evening. Monday mail for outside as usual. Tuesday and Thursday mail to and from Anyox as usual.

Another New Residence For Alice Arm

Another new building for Alice Arm is being planned and part of the lumber is already on the ground, Mr. J. Wells will commence construction of a commodious residence on the site of his prsent residence, on Valley Road, near the Skating Rink.

Mr. Geo Young is raising the roof of his residence on First Street, with a view of adding an additional story. He will also build an addition on the rear.

Immigration

A section of the Federal Government and Provincial Government, also the Canadian Pacific Railway and the Canadian National Railways are in favor of bringing into Canada unlimited numbers of immigrants. This is a fine scheme, if we could only hold them, but history shows that we can't. It would be much better to make plans to provide employment for those who are already here. As soon as conditions are favorable for the absorbing of large numbers of immigrants a stream will flow in just a naturally as water runs down the hill side. Capital is what Canada needs to increase her prosperity. With new mills, mines and factories being opened, the immigration problem will solve itself.

Happy Anyox

Anyox is one of the few of those happy little towns, where work continues the year round, and the same activity prevails during the January storms as during the sunny days of July. We hear of big construction works, logging camps and other mining camps closing down, especially each fall, but year in and year out the big Hidden Creek mine, smelter, concentrator, coke plant, etc., operate without a pause of any kind. True, the moisture is a trifle heavy in the fall, and the snow likewise during the winter. The smelter smoke is sometimes a nuisance; but we shall probably never find an ideal spot in which to dwell until we enter the pearly gates.

Sidewalks Needed

Alice Arn is a fine town. A live town. Full of live people, and a good town to live in. It is surrounded by some of the finest scenery to be found out-of-doors. The townsite is excellent. There is, however, one handicap that works a hardship on its further beautification and that is the absence of a townsite with surveyed streets. It is to be hoped that in the near future, plans will be matured whereby we shall have all our streets nicely laid out, with sidewalks on each side so that we will not be forced to hop from one round boulder to another when promenading our principal street. It would be a good plan if we could build that sidewalk at once, and not wait for the townsite to be laid out. It certainly would give visitors a much better impression ot our town, and save its inhabitants a lot of cuss words these dark nights.

If you don't believe in newspaper space and printers' ink as business getters, then you had better take lessons in how to succeed from the man that failed.

Mining to Resume On Dunwell And Glacier Mines

Portland Canal News

Mining operations will resume on the Dunwell and Glacier Creek properties on Sunday, or at the latest Monday, when the water will be turned into the new flume which will be completed Saturday evening. A complete new section 150 feet long snd 80 feet high, containing 14,000 feet of timber, has been built across the Glacier Creek canyon and will insure a far more satisfactory water supply for power purposes than has heretofore been the case.

The entire plant supplying power has been thoroughly overhauled; a switch has been laid in Dunwell No. 4 tunnel and enough one-ton cars placed on the track to carry away the muck from the two heavy Ingersoll Rand drifter drills, and there will be used two shifts in the face of the tunnel, rushing the work and making up for lost time.

Canada's Big Railroad Mileage

Canada has one mile of railway to every 220 people, a large mileage in proportion to population than any other country, with the total mileage of nearly 40,000. The Government owns or controls a mileage of 22,663—the Canadian National Railways—making it the largest public-owned system in the world.

BRITISH COLUMBIA
The Mineral Province of Western Canada

Has produced minerals valued as follows: Placer Gold, $76,962,203; Lode Gold, $113,352,655; Silver, $63,532,655; Lead, $58,132,661; Copper, $179,046,508; Zinc, $27,904'756; Coal and Coke, $250,968,113; Building Stone, Brick, Cement, $39,415,234; Miscellaneous Minerals, $1,408,257; making its mineral production to the end of 1923 show

An Aggregate Value of $810,722,782

The substantial progress of the Mining Industry in this Province is strikingly exhibited in the following figures, which show the value of production for successive five-year periods: For all years to 1895, inclusive, $94,547,241; for five years, 1896-1900, $57,607,967; for five years, 1901-1905, $96,507,968; for five years, 1906 1910, $125,534,474; for five years, 1911-1915, $142,072,603; for five years, 1916-1920, $189,922,725; for the year 1921, $28,066,641, and for the year 1923, $41,304,320.

Production During last ten years, $350,288,892

Lode-mining has only been in progress for about 33 years, and not 20 per cent of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing land are open for prospecting.

The Mining Laws of this Province are more liberal and the fees lower than those of any other Province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees.

Absolute Titles are obtained by developing such properties, security of which is guaranteed by Crown Grants.

Full information, together with Mining Reports and Maps, may be obtained gratis by addressing

THE HON. THE MINISTER OF MINES,
VICTORIA, British Columbia

Northern Ontario Has World's Richest Mine

Income from Hollinger For First Half of Year is Sixty Million Dollars

The reported strike at the big Hollinger mine of another rich seam of ore, eight feet in width and said to assay $800 to the ton, is causing considerable excitement among mining men who state that this latest strike unquestionable places the Hollinger in the front rank as the world's richest gold mine.

The Hollinger Consolidated closed the first half of the year with an income of well over $60,000,000, bringing the aggregate income up to $81,000,000, and it is believed that the total production for the year will be the greatest of any mining production anywhere.

An important feature is that this income has been derived from mining operations largely confined to a depth of 800 feet, whereas estimated ore reserves, known to be sufficient to last for many years, lie chiefly at and above the 800 foot level.

Development operations have been carried to nearly 2000 feet in depth without indicating any change in the geological structure and the extent of mineralization.

Smelter To Be Built 7 Miles From Oroville

Construction work on a smelter to be situated on the north bank of the Similkameen river about seven miles west of Oroville will be started within the next three weeks by the Washington Smelter Corporation, according to H. H. Underhill, secretary of the company.

Unit electric furnaces will be installed of different capacities of types suited to the various kinds of ore in the district. The electric smelter will be of the latest type and largely consume its fumes. A concentrator will also be installed.

Five acres of land has been aquired by the company for a smelter site and 41 acres nearby for a camp site. Mr Underhill opened an office for the company Monday in the Covert building, formerly occupied by the customs office.

The Washington Smelter Corporation is being financed by Minnesota capitalists. F. Avery Tews, a banker of Stewartville, Minnesota, who recently visited Oroville, is president of the company.

Early Morning Blaze At Stewart

On Wednesday, the 17th at 5 a.m. the town of Stewart was the scene of a disastrous fire which destroyed the power house and residence, and also a 50,000 gallon water tank which was built on posts ninety feet high. The total loss is estimated at $10,000. Mr Stratford was in charge of the plant at the time and the cause of the fire is unknown. Reconstruction of the plant by the Stewart Public Utilities has not yet been definitely decided upon, it depending entirely whether or not the International Electric Co. can supply light and power to the town.

Provincial Ore Display For Sacramento

When mining men of the continent assemble at Sacramento for the American Mining Congress, September 29th to October 4th, it is probable that one of the most striking features of the gathering will be the display of British Columbia ores sent there by the B. C. chamber of mines.

Several B. C. mining men, including, possibly, Hon. William Sloan, Minister of Mines, and either Dr. W. L. Uglow or Dr. S. J. Schofield of the University of B. C., will be present. Ald. Frank Woodside, president, and Henry Browning, secretary of the chamber, have definitely arranged to go.

On several occasion in which the Chamber of Mines has taken samples of B. C. mines to American cities for mining assemblages the display has attracted wide attention. At Spokane recently highest credit was awarded B. C. for ore displays.

New Unit For Kimberly Concentrator

The Cranbrook Herald says that the Consolidated Mining and Smelting Company of Canada, Ltd. are adding another unit to the huge concentrater at Kimberley.

The Sullivan mine is at present working at full blast, an average of four hundred tons of zinc concentrates are being shipped daily to Belgium.

Wool Industry Growing

It has been estimated that southern Alberta's sheep and wool industry this year will bring sheepmen and farmers of south new wealth to the extent of $1,500,000.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to value of $10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land."

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is $5 per acre, and second-class (grazing) land $2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, permits are available for settlers, campers and travellers, up to ten head.

Copper Clad Wire For Government Telegraphs

For the past six weeks a Government line crew have been at work clearing a right of way and stringing wire north of Anyox on the government telegraph line.

The Granby Co. furnished eight miles of number 4 Copper Clad Steel wire which will be strung to a point one or two miles past the summit. With the connection of the new wire, together with certain changes in apparatus and connections at Anyox, it is hoped that there will be very little trouble with the telegraph and telephone service to the northern points during the winter.

Mr. and Mrs. R. E. Benson arrived on Monday, from Prince Rupert. Mr. Benson is a photographer, and will remain here two weeks.
