DOMINION PARLIAMENT OPENED

Eleventh parliament of Canada Was Opened Thursday

OTTAWA, Jan. 21. The formal opening of the first session of the eleventh parliament of Canada took place at 3 o'clock this afternoon with the usual brilliant ceremonies.

C. H. McIntyre, M.P., of South Perth is the new deputy speaker of the commons.

The first day's order paper on the commons contains 78 notices of motion, of which 33 stand in the name of Hon. G. E. Foster. One of these asserts that Canada should no longer delay in assuming her proper share of responsibility and financial burden in the protection of her extended coast and great seaports.

The speech from the throne, after referring to the visit of the Prince of Wales at the Quebec Tercentenary, said:

"I have much pleasure in announcing that a treaty relating to the great lakes and other international waterways has been agreed upon between his majesty's government and the government of the United States of America, and now awaiting ratification. Both countries are to be congratulated upon having arrived at an amicable settlement, which I trust will remove during the lifetime of the treaty many questions in the field of controversy. The treaty and papers relating to this matter will be laid before you in due course. A little more than a year ago the whole civilized world entered into a period of commercial depression which may not yet have completely spent its force. Signs there are, however, that it is gradually passing away. Whilst it is purely disputable that owing to the abundance and elasticity of her resources Canada has suffered less than other natiods, this depression has seriously affected our trade, producing an appreciable shrinkage in the public revenue and calling for exceptional caution in the administration of national affairs. The rapid settlement of the new provinces calls for new lines of transportation. The construction of the transcontinental railway has been vigorously pressed forward during the last year. The line was open for the carrying of the crops from Winnipeg to the Battle river, a distance of 675 miles.

"Exploratory surveys for a railway from the western wheat fields to Hudson Bay are being pushed forward. Parties have been at work since August last. Upon their report it will be possible to reach a decision as to both the route to be followed and the approximate cost. The provision of the dominion land act of last session for the sale of pre-emptions and purchased homesteads has created a new source of revenue that will be sufficient to bear the cost of the railway to Hudson Bay without burdening the ordinary revenue. From September 1, when the act came into force, until January 1, sales of pre-emptions and purchased homesteads have amounted to over two million acres, all subject to homestead settlement conditions.

"The total volume of immigration has not reached the high figure of previous years, but the number of those seeking homes on our unoccupied lands has been fully maintained during the last season, and owing to the ever closer supervision of the immigration branch of the public service, and the character of these new inhabitants of Canada seem to be of the highest, and promises no small addition to the wealth of the country."

The sending of a representative from Canada to the opium conference at Shanghai, the participation by Canada in the orginzation of the international institute of agriculture at Rome, and the disaster in southern Italy being touched upon, the speech continued:

"In pursuance of an announcement made during the concluding session of last parliament, a commission was appointed to examine the various lines of railway connected with the Intercolonial railway and which might become valuable feeders thereto. The report of this commission has been received, and will be placed before you.

"The commissioner appointed for investigation into the conduct of officers in the department of marine and fisheries has concluded his labor, but has not reported. His report, however, is expected at an early date and when received will be placed in your hands. A measure will be submitted to you, based upon similar legislation enacted in 1906 by the parliament of the United Kingdom, aiming a depression of the payment of secret commissions and gratuities on both public and private business. You will be asked to consider measures relative to insurance, the civil service, immigration, naturalisation and other sucjects.

Moving a Town.

The novel sight of a town being moved bodily to a new site will be witnessed when the C.P.R. begins putting into effect its regrade scheme on the Crow line next spring, making important changes on the line between Frank and Macleod. Cowley will in the spring be moved two miles south of its present location. The C.P.R. has promised to pay all expenses of moving the

PROVINCIAL LEGISLATURE.

Opened Thursday.—H. G. Parson, M. P. P., Moved the Address in Reply to the Speech From the Throne

Victoria, Jan. 26.—The provincial house opened Thursday afternoon with the usual ceremonies. All members were present except Hon. Mr. Carter Cotton and Mr. Garden on the government side and Messrs. Henderson and Eagleson on the opposition. The socialists were in the corridor, but not in their seats.

Hon. Mr. Taylor and Mr. Hawthornwaite will be introduced formally when the debate on the lieutenant-governor's speech will begin. Mr. Parson, of Golden, moved the address in reply and Mr. Davey, of Victoria, seconded it.

Hon. Mr. Bowser has introduced a bill to amend the Magistrates act compelling magistrates to send returns to his department.

Mr. Bowser has sent to the minister of justice a recommendation for the pardon of James Mullen, sentenced to two years' imprisonment by Magistrate Alexander of Vancouver for stealing a boat.

Many delegates are here for the convention of provincial conservatives which was held Friday.

Beyond forecasting enactment of legislation governing the distribution of water for irrigation purposes, and the enactment of various pension clauses in connection with the civil service act, the speech from the throne contains little news. The speech refers to the prosperity of the province, the success of the negotiations of the government with the G. T. P., and the bountiful harvests of fruit and other products.

The Three Valley Victims

A funeral over the remains of Engineer William Coughlin, who met a tragic death while at the post of duty at Three Valley on Thursday the 14th inst., took place at Revelstoke on Sunday afternoon. A short service was held at the family residence by Rev. W.C. Calder, which was attended by a large number of the deceased's friends. The deceased engineer was a prominent member of the B. of L. E., I.O.O.F. and the I.O.F., and the remains were followed by a large number of these orders, as well as by the Ladies' Auxiliary, to the depot, the body being shipped to Vancouver for interment, which took place Thursday.

The body of Fireman Hawkins, the other victim, was shipped to Murray Harbor, Prince Edward Island. The order of Locomotive Fireman and Engineers took charge of the funeral arrangements.

Transfer of Esquimalt.

Major-general Sir Percy Lake, military adviser of the Canadian government, was seen in regard to the transfer of Esquimalt to Canada. His answer was that there must be some confusion of ideas in London as to the matter. Esquimalt was transferred to Canada three years ago, and he had not heard of any proposal to make any further change since. It may be, he said, that there has been some hitch over the transfer of the naval yards, but as to that Sir Percy has not had any information.

How the Vote Stood

With the single exception of the Yukon the figures of the votes cast at the general elections are now all in.

Owing to the number of independent candidates in the field an absolutely accurate classification of the vote is difficult to get at. The following table however, indicates the trend of the voting pretty fairly:

Ont.	223,501	235,509	2,730
Que.	150,844	126,424	10,759
N. S.	56,588	54,500	.....
N. B.	40,716	34,945	.....
P. E. I.	14,496	14286	.....
Man.	30,915	35,071	2,078
B. C.	13,412	17,503	6,453
Alta.	23,777	19,746	2,439
Sask.	33,415	25,563	4,334
Totals	587,664	563,547	28,798

The independent column includes Alphonse Verville, labor, Maisonneuve and Joe Martin, Vancouver, as well as all the socialist candidates in British Columbia and the independents, laborites and socialists elsewhere.

We are in receipt from the Hon. Wm. Templeman, minister of mines, of the report on the mining and metallurgical industries of Canada. This is a volume of nearly one thousand pages with about 150 illustrations and six large maps, and covers the whole subject of mining and quarrying from the Atlantic to the Pacific. Mr. Templeman, the minister of mines, Mr. Low, the deputy minister and Mr. Haanel, the director of the department, are all to be congrotulated on the splendid report they have gotten out. As a book of reference it is invaluable to anyone interested in the development of the Dominion. This work may be procured from the Government Printing Bureou, Ottawa. The price is only one one dollar—less than the cost of the

FARMERS REPRESENTED AT OTTAWA

The farmers of Canada are to have a representative in the House of Commons during this session. The Family Herald and Weekty Star, of Montreal has engaged a practical farmer to attend the session and write a weekly letter to that paper, telling the farmers of Canada how Parliament is conducted, as he sees it. The man engaged is not only a practical farmer, but is well able to write such a letter. He is said to be a man absolutely fsee from political prejudice, and no doubt his weekly letter will be of great interest to Canadian farmers.

The Family Herald and Weekly Star costs only one dollar a year, or will be sent on trial to new subscribers for the Session (about six months) for only 25 cents.

SYNOPSIS OF CANADIAN HOMESTEAD REGULATIONS.

Any available Dominion Lands within the Railway Belt in British Columbia, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

Entry must be made personally at the local land office for the district in which the land is situate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisned by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2,570 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

To Improve the Crow.

WINNIPEG, Man., Jan. 26.—The C. P.R. is laying plans for the reconstruction of that section of the Crow's Nest Pass line between Macleod and the summit of the Rockies, short distance east of Crows Nest station, the work covering seventy miles. It is expected that the task will be undertaken during the present year and tenders called during February. The aim of the reconstruction is to better many points where the grades are adverse to eastbound traffic. This is rendered necessary by the development of the general eastbound traffic on the line and the growth of the Soo-Spokane business which, it is expected, will be shortly pushed through to the coast, Another factor is the development of the Hosmer coal fields as, it is expected, the prairies will be a great market for the product of these mines.

It is also stated that during February or March a contract will be let for the construction of thirty miles on the line of the Kootenay Central railway from some point on the Crow's Nest line between Cranbrook and Fernie to a point north as the initial step in the construction of this road to the main line at Golden.

It is probable that on Vanconver Island the work of the company for the year will consist of laying steel for the extension from Nanaimo to Alberni, grading on which was started last year.
