Thoroughbred Minorca and Leghorn Cockerels
FOR SALE. PRICE $3.00.
C. E. PITTENDRIGH, ROCK CREEK.

A REGISTRAR AT NELSON.

Writs May Issue There Instead of at Victoria.

T. H. Giffin, district registrar under the supreme court at Nelson, will *henceforth rank as a deputy of the district* registrar of the supreme court for the Victoria judicial district. He will be furnished with seals of the supreme court, which he shall affix to writs or other processes to be issued out of the court, and any writ, order, decree or other process bearing such seal shall have the same force and effect as if sealed by the district registrar at Victoria. Appearances may be made returnable at Nelson instead of Victoria.

This will facilitate the transaction of legal business in Kootenay, and with the occasional sittings of the supreme court in Nelson and Rossland, the frequent and expensive journeyings of litigants and witnesses to Victoria will be obviated. Kootenay will not, however, be satisfied until it is made a supreme court district.—Rosslander.

GROUND SLUICING ON BOUNDARY CREEK.

Whilst the multitude are engaged in *quartz mining, here and there will occasionally* be found an individual who pins his faith to placer ground, and is willing to risk his fortune delving to bed-rock, searching for the yellow metal. Mr. S. Strong, an old time Cariboo and Rock creek miner, is one of the individuals described above, who, to show that he does not mind backing up his judgment with plenty of hard work, has set himself the task of finding an old channel on Boundary creek. *By building a ditch and fluming he* has been able to convey water into his claim a mile distant from the point of divergence, and he is now busily engaged ground sluicing at a point just behind Messrs. Kerr Bros. ranch.

A large amount of surface dirt has already been moved, and enough o the bottom strata has also been shifted to show that Mr. Strong has good grounds for his contention that an old channel does exist, as already rim rock *protrudes on each side of the ground* sluice, and bed rock has already been proven to be several feet below. The distance between rim rock and rim rock is about 60 feet, which shows a very narrow channel has to be dealt with. About fifteen yards of the bottom dirt was put through the sluice a few days ago and the result was a very nice product of gold, which gives an indication that when bed-rock is sluiced off good returns may be obtained.

Just where the gold came from that is found on Boundary creek, is a matter of grave speculation, as mining has been carried on for years, and has *always been confined to an area within* a comparatively short distance of its confluence with the Kettle river, as it has always been found that the run of gold ceases at a point below the falls, and very nearly in the neighborhood of the present working. The fact that *the present ground sluice is near the* head of the run of gold, may tend to show from what source the gold is derived, and whether it came into the creek from the mountains bounding the creek on its east or west side.

THE GOLD DROP ALL RIGHT.

From some comments in the Rossland *Miner it would seem that Mr.* George Turner really does give vent to his views occasionally, as the following will show:

"The diamond drill," said Mr. Turner, "is a grand thing for these wide ledges such as we have in Boundary. One of the ledges running through our property is 60 feet wide. My plan of operation is this: I put a drill in the middle of the ledge and make a series of borings each way towards both the *foot and hanging walls. I make the* pitch at 15, 25 and 45 degrees—just as I think will be the most effective. The result is that when I get the borings completed clear across, the ledge is thoroughly prospected and I know pretty well what I have. I have made *these borings to a depth of 180 feet,* and I can say to you I am well pleased. I have discovered a number of fine bodies of ore. The ore is much like what you have here in Rossland. I find it grows more silicious with depth but also richer. As soon as I get what machinery I want here I shall return and continue my prospecting work until I have thoroughly explored all our properties."

AFTER B. C. BUSINESS.

Notice is given in the last issue of the British Columbia Gazette that application will be made to incorporate *a company to build a railway from* Kaslo by Kootenay lake to Lardo, thence to Upper Kootenay lake, thence by the Duncan river to its headwaters, with a branch beginning near Lardo river to and by Trout lake and thence to Lardeau on Arrow lake, with power to operate steamboats, wharves, docks, telegraph and telephone lines. As J. J. Hill of the Great Northern is behind the Kaslo and Slocan railway, he is generally supposed to be the moving spirit in the proposed company. Revelstoke people think that there is a *chance of his steamer running up as* far as Big Bend.

HERE AND THERE.

An appropriation of $12,000 has been placed upon the Dominion supplementary estimates, for the purpose of opening up the Columbia river above Revelstoke, and for the protection of the river bank at that place. This grant has been obtained through Mr. Bostock's agency, *which shows he is alive* to the necessities of some portions of his constituency at any rate.

The Inland Sentinel calls the attention of the business men of Kamloops to the necessity of making a move in an endeavor to secure railway con*struction not only to the north, but as* well to the south of that place. A railway running to the north would tap the coal beds on the North Thompson river, and one to the south would have for its objective point Penticton, at the foot of Okanagan lake, which would bring the people of Kamloops in touch with the Boundary creek and Kootenay mining camps, and would also furnish the inland capital an alternate route from the coast, should the Van*couver and Fraser River road be built.*

The Tribune, referring to the ap*pointment of a supreme court judge,* says: "The action of the coast lawyers in protesting against the appointment of an eastern man to the vacancy on the supreme court bench should have *no weight whatever with the Laurier* government. The lawyers in this case, as in everything else, are looking out for themselves and nobody else. It would be in their interests that the appointment should be made from among their own set, but the interests *of the people of Kootenay demand that* a new man should be appointed. Those newspapers which supported Hewitt Bostock during the recent elections, should now urge him to stand out for *the appointment of a new man from* the east. There is too much power in the hands of one little set in this province, and Chief Justice Davie is at the head of this set. The administration of affairs in this province is sufficiently autocratic. Last month *Chief Justice Davie was practically* the czar of British Columbia. He was administrator of the province; he was the adviser and practically the maker of the laws, and he was chief justice as well. He has sufficient power already. The province requires a new judge, who is a stranger to this Victoria ring, who will reside in Kootenay, and whose conception of the province does not begin and end with Vancouver Island.

WHAT ROSSLAND NEEDS.

The Rossland Miner says: "Rossland needs a resident stipendiary magistrate and a gold commissioner and government agent. The government at Victoria will never get into touch with *the taxpayers of the Trail creek min*ing division until it has competent representatives here."

The government need give very little consideration to the appointment, for surely if there is one man more than another deserving promotion, it is he who has helped so much to make Rossland what it is today, and whose name has become known over one half of the American continent. We refer to Mr. Kirkup, and in doing so feel cer*tain that his appointment would be* hailed with delight by a large majority of the residents not only of Rossland, but the Trail Creek district.

GOOD ROCK.

There was a great deal of excitement at Rat Portage, Ontario, recently, over the results of a milling test of the first 100 tons of ore taken from the Mikado mine. Manager Ahn, of the *local reduction works, deposited in the* Imperial bank thirty-one and one-half pounds of gold, valued at $7,000. Sir Roderick Cameron, of New York, one of the owners, was present at the clean-up at the mill, and he expressed great surprise when he saw $70 per ton in free gold taken from the plates. The free gold, it is claimed, is only about 65 per cent. of the total value of the ore. The other 35 per cent. is contained in the concentrates, which, *when treated, will prove the ore worth* over $100. The Mikado proposition was bought about six weeks ago for $25,000 by a Transvaal mining company of English capitalists. After stripping along the surface of the lead for about 100 feet and sinking a test pit about twenty feet deep, about $5,000 worth of ore has been blasted out. The company will be capitalized at £1,000,000 in London, England.

MONDAY, SEPTEMBER 28, 1896.

WE will make a few plain statements and perhaps ask a few questions, and then allow others to draw their own deductions and answer the questions if they will. Four horse teams are constantly arriving in this district from the Lower Okanagan, laden with fruit, such as peaches, pears, apples, plums, grapes, tomatoes, etc., together with choice vegetables, butter, eggs and other farm produce, all raised on American soil.

In many instances the produce is hauled on teams a distance of one hundred and fifty miles.

The produce is subject to customs dues, and is not grown by the parties bringing the same into the country. It has a ready sale for cash, and the business must be a remunerative one or the freighters would not continue in the occupation. The retail price of the produce is not low, as apples fetch 8 cents per pound, and a proportionate price is charged for all other kinds of fruit, etc. The soil of the Lower Okanagan is not superior to that of the Upper Okanagan, and the country certainly has very little advantage in climate.

Produce could be shipped from points north by steamer to Penticton, and then a haulage of 75 miles would bring it to market.

Under these circumstances why is it that the Upper Okanagan farmer allows his American cousin to monopolize a market which peculiarly belongs to himself? Is it for want of energy, or business push and ability, or has the Upper Okanagan farmer such a good market at home, he can afford to treat with indifference the market in the mining camps of this section?

Surely there must be a solution of the problem, and if so, who will disclose it?

NEW TELEPHONE COMPANY.

Our readers will remember that last fall we published the fact that a company had been formed in Spokane, bearing the title of the Spokane and Columbia Telephone company. The object of the company as set forth was the construction of a telephone line between Spokane and Rossland which should also have a branch running from Marcus through to Boundary creek. We also stated that a company would be formed on this side of the line to work the Canadian end. Although little has been heard of the matter recently, yet have the promoters been quietly working since February last, and now we are informed by one of the members of the company, the bill granting powers of incorporation to the Columbia Telephone company has passed its second reading at Ottawa, and will no doubt become law within a very few days.

The object of the Columbia Telephone company is the construction and operation of lines between Trail on the Columbia and Penticton on Okanagan lake, and the power is being sought to cross the international boundary line between Trail and Northport or Rossland and Northport; also at Grand Forks, Carson, Midway and Osoyoos. Immediately upon receiving the charter the company will commence construction, so that the line will be complete and in working order as soon as possible.

The building of the line will prove a great factor in the development of the Boundary creek and other sections of country, as it will bring the many mining camps and centers of population more in touch one with the other, to the mutual benefit of all. The undertaking should be a profitable one to the promoters, as undoubtedly with the development of the mining industry a large amount of business will be assured.

MINERAL EXHIBIT.

The collection of ore now on its way to Spokane, may truly be said to be representative of what is to be found in the claims of the several Boundary creek mining camps, for if anything is worth doing it is worth doing well, and and it was upon this principle Mr. J.C. Haas based his labor in making the collection, in which the following camps and claims are represented:

GREENWOOD CAMP.—Stemwinder, Gold Drop, Rawhide, Snowshoe, Knob Hill, Brooklyn, Standard, Phœnix, Old Ironsides.

WELLINGTON CAMP.—Golden Crown, Winnipeg, Calumet and Buttercup.

SKYLARK CAMP.—Ruby, Skylark, Canadian, Crescent and Tip Top.

DEADWOOD CAMP.—Great Hopes, Hidden Treasure, Gold Bug, Ira Lenora, Morrison.

COPPER CAMP.—Big Copper.

WHITE'S CAMP.—City of Paris, Jack of Spades, Lincoln, Lexington, Excelsior and Mabel.

SMITH'S CAMP.—Boundary Falls, Non Such, Last Chance, Golconda, Republic and Great Hesper.

SUMMIT CAMP.—Emma and R. Bell.

LONG LAKE CAMP.—Jewel, Denaro Grande and North Star.

PROVIDENCE CAMP.—D. A. and Combination.

INGRAM MOUNTAIN.—Texas, Bruce.

JAMES CREEK.—Crown Point.

WEST FORK.—Head Light.

ROCK CREEK.—Sample of coal.

CAMP MCKINNY.—Cariboo.

From 20 to 100 pounds of ore have been taken from each claim, and the collective weight of the samples must be about 3,000 pounds.

VERNON NOTES.

From Our Own Correspondent.

Mr. Muir, our city druggist has leased Mr. McIlvanie's new house.

I am glad to say Mr. Price Ellison, who has been laid up for the past two weeks with the milder form of fever, is slowly recovering.

Mr. Robert Lambly arrived on Saturday last with his speedy little mare, Evergreen. Bob expects she will give a good account of herself at the coming races.

An important strike of galena was made last week about 15 miles northeast of Vernon. The ledge is 10 feet wide and should prove a bonanza. The fortunate locators are Messrs. O'Keefe, Fuller, McMullen and Hathaway.

Alderman Pound, chairman of the board of works, like the sons of Aaron, has been taking "too much unto himself," bringing upon his over-zealous head the censure of the council, and the majority of the citizens. The aforesaid alderman had received instructions from the council to take advantage of the government road scraper and grade Mara avenue, but Mr. Pound exceeded his instructions by grading Schubert and Tronson streets, and would probably have graded the town if he had not been stopped. Like the celebrated Budge and Toddy, he likes to see the wheels go round. I quite agree with Alderman Hankey, who affirms that not only was the work unnecessary, but positively injurious to the streets, without going on with the expensive other work of gravelling them. It seems an almost criminal act to waste the city funds, with such a terrible amount of sickness around, as every cent should be expended on obtaining better water and drainage. There is some talk around town that Alderman Pound will be mulct personally for this additional outlay, and surely if he will dance he ought to pay the piper.

It is with deep regret that I have this week to chronicle the death of Mr. Thomas Godwin. In my last week's notes I mentioned that he was getting better, as indeed all his friends believed, but on Wednesday last he had a relapse, and gradually sank until Thursday night, shortly after 10 o'clock, he peacefully passed away. A genuine sorrow pervades the town through this sad event, as Tom was an universal favorite, his genial, obliging, unobtrusive manners making him popular among all classes. The funeral took place on Saturday last, and every citizen that could possibly attend, showed their regard by accompanying him to his last resting place. The sad cortege formed into procession at 2 o'clock, headed by the City band, followed by the Knights of Pythias, of which order the deceased was a member, after which a long line of carriages and pedestrians marched with slow and solemn step to the cemetery. The Rev. Mr. Outerbridge officiated in a short service, after which the beautiful burial service of the Knights of Pythias was impressively read by Mr. W. T. Shatford, concluding with each knight casting in the grave a sprig of evergreen, emblematic of lasting memories, no mere empty form in this case. The pall bearers were Messrs. Sandy McCauley Teddy Mortimer, M. O'Brien, Dan McDonald, Wm. Neil and Walter Cochrane.

ARMSTRONG B. C.

LOCAL AND DISTRICT.

Mr. James Monaghan, president of the Cariboo Mining company, passed up to Camp McKinney on Friday.

Mr. George Rose of Kelowna is paying the district a visit and is at present a guest of Mr. Randolph Stuart.

Mr. McKenzie, recently sick with typhoid fever at Anaconda, is, we are glad to say, approaching a convalescent state.

Mr. A. K. Stuart left for Montreal on Friday, to consult the owners of the Midway townsite on matters of interest touching the future welfare of the place.

Colonel John Weir of New York arrived at Anaconda on Tuesday last. Mr. Weir is busily engaged overlooking the properties he has under bond and development.

Mr. J. J. White of the Boundary Falls hotel intends celebrating his birthday on the 1st of October, by giving a grand ball and supper, to which all friends are invited.

The people of Boundary creek have sustained their proverbially generous reputation by subscribing liberally toward the fund, providing for the conveyance and display of the Boundary creek collection of ore, gathered together by Mr. J. C. Haas for exhibition at the approaching Spokane Fruit Fair and Miners' convention.

Mr. J. McLaren returned home on Saturday last, after spending a few weeks at Kamloops in search of health. When he left home he was feeling anything but well, and therefore his many friends will be glad to know that his health has greatly improved as a result of the change. Mr. McLaren reports business in Kamloops good, and he felt rather astonished at the vast strides the city has taken since the days when he ran the first construction train through the townsite, when the railway was being built.

On Sunday last Mrs. Simmons, of Greenwood City, met with a very painful accident. During the afternoon she was out riding with a friend, Miss Castleman, and whilst they were descending the road leading from Greenwood camp to Greenwood City, Mrs. Simmons' horse tripped and falling turned a complete somersault. Mrs. Simmons was thrown a considerable distance, and alighting upon her shoulder, dislocated it. Dr. Jakes was called to the patient as soon as possible, and the shoulder having been properly attended to, the injured lady is gradually recovering.

MINING NOTES.

Boarding houses are to be erected between the Knob Hill and Old Ironsides claims in Greenwood camp. This looks as if a good deal of development will be done during the coming winter by the different owners of these properties.

Messrs. Winters & Leplante are engaged taking the water out of the Lincoln and City of Paris claims in White's camp, and it is expected parties will be in any day to take a look at the properties. It is hinted that Mr. Finch is the intending investor.

The west fork of Kettle river is attracting attention at the present time, and reports are to hand that several good locations have recently been made there. Since the discovery of the Crown point on James creek, prospectors are turning their attention to high grade silver ore.

Mr. Burns has completed his contract for the sinking of 50 feet on the Old Ironsides, and now it is stated the company intend sinking still another 50 feet, and will besides run drifts and crosscuts in the ore body. Should this be the case, it is more than likely work on the claim will be continued throughout the winter.

Upon the Mother Lode in Deadwood camp new tactics are being pursued. A few days ago a shaft was started which, after being sunk a few feet, ran through the ore, showing it was not on the ledge proper. The management has now decided to crosscut the ledge with a tunnel, so as to exactly locate the ore body, which is of immense size.

Messrs. Harry Morgan and O. D. Sanford have gone on a trip to the west fork of the west fork of the west fork of Kettle river. They intend remaining upon the ground prospecting for some time, and have therefore taken the precaution of having their animals brought home. If they are successful in making a good location they will remain up the river the balance of the winter to work on the claim.

The Butterfly claim in Skylark camp, Mr. E. A. Bielenberg's most recent location, is turning out to be a veritable butterfly indeed, as the development up to the present shows a fine body of well-mineralized ore, which at the point at which work has been done is some 10 or 12 feet wide. The ore body is a white quartz, seamed and heavily impregnated with copper pyrites, and carrying as well gold and silver. In conjunction with the others a very dark metal is found, the qualities of which up to the present have not been determined, as no assay has yet been made of the ore.

Camp McKinney No. 2 is situated to the south east of Wellington camp and close to the Fourth of July creek. Several claims have been located in the new camp, and among the many upon which work has been done is the Big Six, owned by Alex. Wallace and James T Bell, of Boundary Falls. Mr. Wallace located the Big Six in the early part of the summer, and to show how unerring is the true miner's instinct, it may be stated that the location was made upon the merest outcrop of mineral, the locator being convinced that a body of ore was somewhere in the neighborhood. His theory proved to be true, as, upon work being done the other day, a fine ledge was discovered after a shaft had been sunk 12 feet through wash and loose rock. As soon as the ledge was struck samples were taken from it, which upon assay gave the satisfactory returns of $17.50 per ton. The ore carried 7 per cent. copper beside gold and silver.

When applying for crown grants for mineral claims, request that the same be advertised in THE ADVANCE, the officially recognized paper of the district.

LIME! LIME!

If you want to point up a cabin, plaster a house or build a foundation, call for lime at

Geo. T. Wells' Lime Kiln

Office, Rendell & Co's Store,
Boundary Falls, B. C.

A New Drug Store

We beg to inform the public that we have opened our new Drug Store and solicit a share of their patronage.

Buying drugs is entirely a matter of confidence, as in no other business is sophistication easier; nor does any other avenue afford so ready a means of disposing of worthless articles.

You can buy a pair of shoes for $1 or for $10. It is entirely a matter of quality. There is as much difference in the quality of drugs as there is in shoes, except in purchasing one you can use your own judgment, and in buying the other you are entirely dependent upon the integrity and judgment of the druggist. In one case it is only a matter of comfort and appearance, and in the other frequently of life or death.

If you want the purest and best drugs obtainable, we solicit your patronage; if you want the cheapest, we cannot accommodate you.

If you need medicine, you need the best and purest obtainable, compounded by a skilled and experienced prescriptionist, with the most scrupulous care and fidelity.

Human life may be in the balance and dependent on the prompt action of the remedy prescribed; and if the latter be not of standard strength and purity the physician's skill is of no avail, and the patient fails of improvement.

We carry a full line of patent medicines, invalids' specialties, toilet requisites, etc. in great variety.

Mail orders receive prompt and careful attention, and anything not in stock will be procured at once without extra charges.

RECOVER THE RIGHT OF WAY.

An important suit has been filed in the United States court against the Great Northern Railroad company and the St. Paul, Minneapolis and Manitoba Railroad company, to secure certain lands or the value thereof, donated to the defendants by citizens of Spokane, in consideration of a promise to grant terminal freight rates to that city.

The plaintiffs in the action are: F. Lewis Clarke, H. N. Belt, D. M. Drumheller W. S. Norman, Holly, Mason, Marks & Co., Washington Water Power company, Inland Telephone and Telegraph company, Gordon & Co., Jones & Dillingham, Benham & Griffiths, D. Holzman & Co., Gray, Ewing & Co. and John W. Graham & Co.

The complaint covers thirty-six pages of typewritten matter and sets forth at length all the facts relating to the donation of the land to President Hill and the promises of terminal freight rates made by him at that time. The property involved is valued at $500,000, and includes the entire *right of way of the Great Northern* through the city.

The action is nominally brought by those who subscribed to the Great Northern fund in 1892, in reality the Shippers' association is back of it.

NOTICE.

NOTICE is hereby given that, sixty days from date, I intend applying to the Chief Commissioner of Lands and Works for permission to purchase the following tract of land, situated in the Osoyoos division of Yale district, and more particularly described as follows, viz.: The north half of section 27, and the south half of section 34, township 53, consisting of 640 acres. W. H. NORRIS.
Midway, Sept 1, 1896. 27

NOTICE.

NOTICE is hereby given that, sixty days after date hereof, I intend to apply to the Honorable the Chief Commissioner of Lands and Works for permission to purchase one hundred and sixty acres, more or less, of land, situate in the Osoyoos Division of Yale District, in the Province of British Columbia, viz.:

Commencing at the north west corner of the north west quarter of section nineteen, township sixty-eight, running thence north twenty *chains, thence east forty chains, thence south* sixty chains, more or less, to the north bank of Kettle river, thence sn a north-westerly direction, following meanderings of river to point of commencement. RICHARD J. DAVIES.
Dated this 12th day of September, 1896. 2

NOTICE.

In the Matter of Gus Hamlin, Deceased.

TENDERS will be received by the undersigned up to noon on the 15th day of November, 1896, for the purchase of the following minera claims, situate near Grand Forks, in Kettle River Mining Divition of the District of Yale, viz.:

The "Possum, "Grandmama's Bustle," "Little Belle Lump," and the "Coon."
