KETTLE RIVER MINING DIVISION.

Record of Mineral Locations for the Week Ending October 7, 1896.

1. Copper King, Deadwood camp, G. Lynch.
1. Magnetic (fractional), Deadwood camp, J P. Harlan.
1. Rossland, Kimberly camp, M. T. Robinson.
1. Colusa, Kimberly camp, M. Griffin.
1. Somerset, Pass creek, J. P. Shannon.
1. Sunshine of Promise, North Fork, J. W. Searle.
1. Black Diamond, Pass creek, H. D. Barnes and E. R. Shannon.
1. Ontario Girl (fractional), Grand Prairie, M. F. Folger.
1. Kroner, Providence camp, J. C. Olson.
1. Pilot Centre, Skylark camp, G. H. Inkster.
1. Iroquois, Providence camp, G. H. Inkster.
1. Belcher, James creek, F. H. Wollaston and C. H. Arundell.
2. Black Bear, Deadwood camp, E. Timm.
3. Grand Central, Kimberly camp, R. Murray and J. P. Kelly.
3. Alma, Brown's camp, E. H. Willett.
3. Monarch, Brown's camp, N. H. Greene.
3. Jasper, Brown's camp, F. Stonechest.
3. Winnie F., Skylark camp, J. Fisher
3. Barrow, Skylark camp, J. Fisher and J. Dufour.
3. Charity, Wellington camp, G. Colby.
3. Snow Bird (fractional), Long Lake camp, J. R. Hedger and A. A. McIntosh.
3. Bismarck, Long Lake camp, J. R. Hedger and A. A. McIntosh.
3. Persimmon, Kimberly camp, R. S. Collins.
3. Northumbrian, Kimberly camp, R. S. Collins and J. A. Crawford.
3. Lonsdale, Kimberly camp, R. S. Collins and J. A. Crawford.
5. Roy Candle, Brown's camp, J. Austad.
5. Royal Banner, Summit camp, J. H. Ashfield.
5. No. 4 (fractional), Eagle mountain, J. B. Anderson.
5. Moonstone, Kimberly camp, J. C. Olson.
5. Magna Charta, Skylark camp, G. H. Inkster.
5. Juanitta, Skylark camp, J. C. Olson.
6. Excelsior, Nicholson creek, J. Atwood and J. Douglas.
6. Oro Grande, Nicholson creek, J. Atwood and J. Douglas.
6. Peerless, Kimberley camp, A. Hanson.
6. Glade, Copper camp, R. Intram.
6. Caledonian, North Fork, S. Reed.
6. Carson (fractional), Grand Prairie, A. Hall.
6. Lulu, Pass creek, C. Willarson.
6. Mystery, Pass creek, C. Willarson.
6. Evelyn, Pass creek, P. Johnson.
5. Agnes, Eholt creek, A. Hamilton and J. F. Cunningham.
6. Heckla, McRae creek, P. Johnson.
6. Silver Star, Myer's creek, E. McMynn.

CERTIFICATES OF WORK.

30. Trilby, J. Munroe and C. Harrington.
1. River Elbow, John Holm, H. D. Barnes, J. P. Shannon and I. Hanley.
3. Iron Mountain, C. Schmidt and G. Belor.
5. Lake, W. A. Corbett.
5. Oro, J. Douglas.
6. Webfoot, C. Bennett, C. K. Brigman, H. L. Jones and E. E. Burr.
6. Galena, E, Sullivan, T. Milligan and A. Waddell.
6. Coin, E, Sullivan, T. Milligan and A. Waddell.

TRANSFERS.

30. War Eagle, ¼ interest, J. Reece to T. S. Higginson.

5. Bald Eagle, ⅝ interest, T. Sands, Jr., to W. Parr.
5. Copper Crown, all interest, H. Rush to G. C. Rose.

OKANAGAN RIVER.

In the Dominion supplementary estimates, a sum of $500 is set apart for improvements to the Okanagan river, between Okanagan and Dog lakes. Considering the amount of improvement necessary at this point, this sum is insignificant and will go a very little way in carrying out effective work. To furnish a permanent connection between the two lakes, suitable for the transport of any size steamer, would require an expenditure of $15,000, and if the lower stretch of navigable water is ever to be of any service this amount of money will have to be spent. A canal could easily be constructed, as there is only a difference of 13 feet between the levels of the two bodies of water and one lock only would be necessary. As it is probable railway construction might obviate the necessity of constructing this canal, no doubt the government will be tardy in making the necessary appropriations, but will wait and closely watch developments likely to take place during the next six months.

RICH ORE.

For some time past Mr. W. Corbett has been working on the Lake claim in Skylark camp, and as everything around the claim looked promising, he determined a few days ago to select a fair sample of the ore and have it assayed. The result, to say the least, is extremely gratifying, as the returns show a value in silver and gold of $120 to the ton. Being a silver proposition, the principal value was in silver, and yet the ore carries a good gold value.

The Lake adjoins the Last Chance, and the owner claims to have the ledge that runs through that claim now exposed.

The vein of ore is not a wide one, but being of so rich a value, in any other country but Boundary creek it would be possible to ship ore from it immediately. Sending it out of Boundary to Market, would mean that all the profit would be swallowed up by freight charges. This state of affairs will have an end, however, some day, and then Mr. Corbett will be able to realize something on the ore mined.

NEW YORK MINING EHCHANGE.

The much-talked-of new mining exchange in New York is at last an accomplished fact. It will be located in the Edison building, 38-40 New street, and will have quarters in every way suitable to the purposes in hand. Seventy-five names have been signed to the list of membership, and the price of seats has been advanced to $250, the membership being restricted to 200. It is expected that the exchange will be open and ready for business by the 15th of October. The importance of having a really representative and well-conducted mining exchange in New York is agreed upon by everyone who is in any way connected with mining, and if this new exchange is able to run on broad lines, and avoids the errors that wrecked its predecessor, it will be of value to the mining industry of the country, and will be heartily endorsed by all the mining papers of the west, especialy if its membership will do their share to make it evident to the people of the east that mining is really a legitimate business, and not, as too many of that section suppose, a gambling proposition.—Butte Mining World.

ROSSLAND HAS ANOTHER SHIPPER.

The Evening Star mine at Rossland is now shipping ore to the Trail smelter, and the smelter people claim it is the best ore they have yet received. From a sample test an assay was received of 8 ounces of gold to the ton. All the ore from the mine will be treated under contract at the Trail works.

When applying for crown grants for mineral claims, request that the same be advertised in THE ADVANCE, the officially recognized paper of the district.

EDITORIAL NOTES.

A PRIVATE letter was received at this office a few days ago from a gentleman in Montreal, making enquiries as to the standing of the Coolgardie Mining company, the prospectus of which appears on the fourth page of this issue. Being thoroughly conversant with every mine and prospect of importance in the southern portion of Yale district, we had no hesitation in stamping the company bogus at a glance, and yet noting the many reputed names attached to the prospectus, we were constrained to make a searching enquiry into the matter, to see if by some possible chance the claims of the prospectus had any foundation in fact. Turning to the records for the Kettle river mining division of Yale district, we soon ascertained that no claim bearing the name Coolgardie had ever been located or recorded in Copper camp, and therefore the first assertion of the prospectus was proven to be untrue. Did no other false statement exist in the prospectus, this in itself would be sufficient to condemn it, but upon reference, we find that the whole structure is built upon untruth, as in paragraph three it says the principal work has been done on the Mother Lode, thereby leading its readers to suppose that the Coolgardie company had some connection with the Mother Lode claim—which, by the by, is in Deadwood camp—and is under bond to the Boundary Mines company, a New York private syndicate of capitalists. The next and succeeding paragraphs are equally false, and in fact we have no hesitation in saying that no such company as the Coolgardie is or ever has been operat- in any of the Boundary Creek camps. The only claim bearing the name Coolgardie, recorded in the Kettle River Mining division, was located in Summit camp on the 17th July, 1895, and recorded on the 22nd July, 1895, and as nothing is on record to show that the claim ever passed out of the hands of the locators, it is hardly likely the prospectus could refer to it. Even if it did, it would not divest the prospectus of its glaring untruths or invest the company with an air of respectibility, as the records show that this claim located in Summit camp was allowed to lapse, owing to the fact that no assessment work was recorded within the specified time allowed by law and on this account the claim has been recently relocated, and under these circumstances could not by any chance now belong to the Coolgardie Mining company.

THE above shows a sad state of affairs, and one that should be discountenanced by everyone having the mining interests of the province at heart, for if many companies are formed, having so little claim to public patronage as the Coolgardie, it will not be long before an inestimable amount of harm will be done to British Columbia's chief industry

MR. BOSTOCK'S remarks before the Dominion house the other day touching this same question were far more timely than many are given to believe, and the attention of the government having been drawn to the matter, it is to be hoped legislation will be effected which will make those amenable to the law who are guilty of lending themselves to schemes having for their sole object the extortion of money from an over-confident and ever-ready-to-be-gulled public.

BOUNDARY MOUNTAIN ROAD.

Thanks to the energy of the Greenwood City townsite management, the new road furnishing an alternate route over Boundary mountain, is now completed and open for traffic. The road, the building of which was started last fall, branches off from the government road at Anaconda, and following up Boundary creek passes through the town of Greenwood City, and in its course over the mountain penetrates Greenwood and Wellington camps, and joins the government road again just south east of Wellington camp, on the Grand Prairie side of the mountain. That the new road will be a great convenience to the traveling public is already made manifest, as the different stage lines are now utilizing it, and all the freight coming in by way of Marcus consigned to Greenwood City is being hauled over it. The road has many advantages, as besides being a more direct route, the grades are much easier, and therefore commend themselves to heavy freighting, and passing as it does through two of the principal camps of the country lends itself to the convenience of not only the different firms trading in the district, but to mining men generally. With this road in existence it is possible to haul into Greenwood or Wellington camps the heaviest kinds of mining machinery, and as the mines in these camps are rapidly being developed, no doubt in the near future the road will be utilized for this purpose. This new improvement cannot have cost the Greenwood townsite management much less (and perhaps more) than $4,000, a small proportion of which, about an eighth, was contributed by the government. As it is however clearly the duty of the government to build the main trunk roads, in every mining district of importance, they may yet see their way clear to defray the cost of the very important to this district improvement just completed.

VERNON NOTES.

From Our Own Correspondent.

Mr. Henry Schultz is away on his usual autumnal business trip to the coast.

Hop picking at the Coldstream ranch was completed on Saturday last, and the dusky savage is busy distributing the chickamen among the stores in town.

Mr. Samuel Morrow has successfully coped with the grim monster, and is now making rapid strides towards convalescence.

The strike among the operators of the C. P. R. has caused much inconvenience in town, no freight or express matter having arrived for over a week. A delegation from each branch of train employees waited on Mr. Van Horne on Monday last, and it is confidently hoped a speedy settlement of the difficulty will be arrived at.

Mr. Alwood, blacksmith, at present working for Mr. H. Schuetz, on visiting his pre-emption in White valley on Sunday last, found his cabin broken open and burglarized, several articles of jewelry, some wearing apparel and a winter's supply of vegetables having been taken. The robbery is in the hands of the police, and it is to be hoped the long arm of the law will overtake the delinquents, and give them a practical illustration of the truism, "The way of the transgressor is hard" (labor).

Mr. A. Postill, the energetic secretary of the agricultural society, is in town and will be a permanency until after the fair. Mr. Postill is now devoting the whole of his time to ensure the fair of '96 an unprecedented success, and judging from his endeavors, and the hearty co-operation of the farmers and others in the district (not forgetting the ladies), there is no doubt this happy consummation will be arrived at. The mineral exhibit promises to be an interesting and important one. Visitors at the fair will undoubtedly be surprised at the rock found in the vicinity of Vernon.

There is to be a debate at the reading room on Saturday evening next, on the Chinese question, which will be, I opine, fraught with interest and probably excitement. The trouble is, nearly all our local Demosthenes desire to be on the affirmative, "The Chinese Must Go" side, and negatives are hard to find. The management will probably secure our worthy mayor to lead the oppositition.

[We consider our correspondent a little astray in his assumption as expressed in the last paragraph. He, with many others, does not seem able to differentiate between the Chinese and Japanese question of emigration. We believe Mayor Meyer does not favor the unrestricted emigration of Chinese into the country, whatever his views may be with respect to the Japanese.—ED.]

A New Drug Store

We beg to inform the public that we have opened our new Drug Store and solicit a share of their patronage.

Buying drugs is entirely a matter of confidence, as in no other business is sophistication easier; nor does any other avenue afford so ready a means of disposing of worthless articles.

You can buy a pair of shoes for $1 or for $10. It is entirely a matter of quality. There is as much difference in the quality of drugs as there is in shoes, except in purchasing one you can use your own judgment, and in buying the other you are entirely dependent upon the integrity and judgment of the druggist. In one case it is only a matter of comfort and appearance, and in the other frequently of life or death.

If you want the purest and best drugs obtainable, we solicit your patronage; if you want the cheapest, we cannot accommodate you.

If you need medicine, you need the best and purest obtainable, compounded by a skilled and experienced prescriptionist, with the most scrupulous care and fidelity.

Human life may be in the balance and dependent on the prompt action of the remedy prescribed; and if the latter be not of standard strength and purity the physician's skill is of no avail, and the patient fails of improvement.

We carry a full line of patent medicines, invalids' specialties, toilet requisites, etc. in great variety.

Mail orders receive prompt and careful attention, and anything not in stock will be procured at once without extra charges.

Certificate of Improvements.

NOTICE.

THE DUNDEE MINERAL CLAIM.

Situate in Providence Camp, Kettle River Mining Division of Yale District.

TAKE NOTICE that I, James Sutherland, free miner's certificate No. 89,344, and Robert Wood, free miner's certificate No 41965, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

Dated this 10th day of August, 1896. 25

MINER AL ACT.

Certificate of Improvements.

NOTICE.

THE ORO DENORO MINERAL CLAIM.

Situate in the ettle River Mining Division of Yale District.

TAKE NOTICE that I, W. A. Corbett, free miner's certificate No. 57985, intend, sixty days from the date hereof, to apply to the Gold Commissioner for a certificate of improvements for the purpose of obtaining a crown grant to the above claim.

And further take notice, that adverse claims must be sent to the Gold Commissioner and action commenced before the issuance of said certificate of improvements.

Dated this 1st day of July, 1896. 25

ARMSTRONG B. C.

LOCAL AND DISTRICT.

Mrs. Dowding of Rock Creek moved to Midway on Friday last, and will in future take up her residence here.

A new hotel by the name of the Lancashire house will be opened here in a few days, and the management has determined to dispense a thoroughly up to date entertainment.

Mr. Randolph Stuart left Midway on Sunday last for his home in England. Just as he was leaving on the stage he received a telegram bearing the sad news of his mother's death. What might otherwise have been a plesant trip is now turned into a sad, sad journey.

Mr. D. Wilson, one of the provincial school inspectors, was a visitor to the district the past week. This is the first time a school inspector has ventured so far inland, and gives promise that either they as a class are becoming more venturesome, or we as a people are becoming more civilized.

To Vernon and Spokane residents of Boundary creek are wending their way, intent upon business and pleasure. Some no doubt will return sadder and others wiser men, but all will have had the opportuniay of beholding one or other of the two best fruit exhibitions held in the west.

Mr. Kerby is now engaged surveying an addition to the Midway townsite, which will add a large number of desirable and valuable lots to those already platted. The lots being surveyed have 25, 50, 75 and 100 feet frontage, according to location, and acre blocks for building purposes are also on the plan.

The little pamphlet issued by Mr. Haas, in which a descriptive outline of the general features of the Boundary creek mining district is given, and which will be distributed to visitors at the Spokane fruit fair, will no doubt have the effect of drawing attention to the Boundary camps, especially when coupled with the indisputable evidence of the mineral wealth of the country, as shown by the samples of ore on exhibition there.

By a recent arrangement the stage interests of the country have been amalgamated, Mr. Snodgrass having come to an agreement with the proprietors of the Grand Forks stage line, whereby they will carry the mail from Grand Forks to Greenwood, to be taken thence to Penticton as formerly by Mr. Snodgrass. This will shorten the run for Mr. Snodgrass' stages, which will in future have a terminus at Greenwood City instead of at Grand Forks. A ratification of this agreement by the postal department is expected.

Mr. Nelson Bennett, formerly mayor of Tacoma, and a man of great influence among the railway contracting world, paid the Boundary creek section a flying visit last week. Mr. Bennett was spying out the land with a view to future railway operations. He is at present engaged upon the construction of the terminals for the Northern Pacific at Spokane. Not having had an opportunity of verifying the statement made as to the resources, mineral and otherwise, of the district, Mr. Bennett was conservative in his expression of opinion. He, however, seemed extremely well pleased with what had come under his notice up to the time of reaching Midway. Before returning to Spokane he intended inspecting some of the principal camps on Boundary creek.

KNOB HILL GROUP BONDED.

A few days ago a good deal was put through on a group of claims in the Eureka camp, on Granite creek, Colville reservation, not many miles from Midway. The consideration of the bond was $40,000, payable as follows: $300 cash, 10 per cent. on the 28th October, 25 per cent. 28th January, and the balance 28th June. The claims are owned by C. Hermann, W. Kells, R. Stokesberry, W. M. Shufeldt, B. F. Hendrich and A. J. Decatur. A Mr. T. H. Bartlett of Portland, Oregon, is the party securing the bond. It is understood that one of the stipulations to the bond is that work must be commenced before the end of October. The ore found in the claims is of a free milling character, running from $7 to $50 per ton, and the claims included in the deal are said to be the Knob Hill, Gold Dollar, Mammoth and Little Core.

THE CARMI AND BUTCHER BOY.

The recent strike on the west fork of Kettle river, which the discoverer, Mr. Dale, named the Carmi and Butcher Boy, is turning out well under development. The claims are located about 60 miles from Midway, and yet so peculiarly are they situated that Midway forms the base of operations for the prospector and will continue so until such time as a trail is cut over the divide to Penticton, a distance of 35 miles from the mines, The vein upon which the claims are located is a true fissure in a formation of lime and schist, and can be traced distinctly for over 2,000 feet upon the surface, and is of an average width of about 5 feet. To give an idea of how the ore is improving as development is carried on, it is only necessary to say that the samples taken from the surface when the claims were located gave an assay value in gold and silver of about $18, while a few days ago an average sample taken from a fifty-pound average sample of ore brought down, showed a value of $52 in gold and 23.3 ounces of silver to the ton. The general formation of the surrounding country is a soft diorite granite, a formation which seems to commend itself to the old time prospector, for invariably they say mineral locations are made wherever this formation is found in this country, at least that is their experience. So well satisfied are the owners of the Carmi and Butcher Boy, Messrs. J. C. Dale and Jas. Kerr, that it is more than likely development work will be carried on during the entire winter, and if such is done it is the opinion of all who have seen the claims that a rich property will be developed. So impressed were some of Midway's residents with the assays from the Carmi that several have journeyed to the West Fork to see if other bonanzas are not lying around loose. That part of the district having received very little attention at the hands of prospectors, no doubt those who have gone out will be rewarded.

MINING NOTES.

Mr. James Sutherland is busy at work developing the Glenwood claim, near Greenwood City, and the work done shows up a fine body of ore.

Mr. C. S. Galloway has a force of men sinking on the San Bernard, and the shaft is now down a depth of 53 feet. The shaft is being sunk on the ore body, which is improving both in quality, appearance and size as depth is attained.

The Boundary Mines company are pushing work on the Mother Lode in Deadwood camp, and are now in about 30 feet with the tunnel. The tunnel is being run into the hill to tap the vein, and no doubt when the ore body is reached it will be continued on through it, so that an idea may be obtained as to the width of the ledge or ledges, as by surface showings there must be more than one vein of ore within striding distance of the tunnel. At the rate at which the work is being carried on it may be possible very soon to chronicle the fact that the ore body has been reached.

Mr. J. L. Wiseman of Frand Forks has a force of men at work on the Texas on Boundary creek, just above Providence camp. There are two leads upon the claim, each of which will receive attention. Some splendid assays have been gotten from the ore as a result of recent work done, and the management are greatly encouraged thereby. Assays of $40 and as high as $60 and $70 per ton have been obtained. It is understood Mr. Wiseman has bonded the claim, and one stipulation of the agreement is that $500 per month must be spent on development.

The shaft on the Stemwinder claim in Greenwood camp is now down about 100 feet, and the past few days has seen better ore taken from the mine than ever before. Three shifts of men are at work under Mr. W. T. Smith's management, and it is expected work will be carried on continuously during the winter. Unlike some of the other mine owners, Messrs. Farrell and Midgeon desire to know the true extent of their property, and no doubt by the time railway facilities are furnished the country they will have a well developed mine, and will be in a position to either ship the ore out of the country or treat it economically on the spot.

NOTICE.

NOTICE is hereby given that, sixty days from date, I intend applying to the Chief Commissioner of Lands and Works for permission to purchase the following tract of land, situated in the Osoyoos division of Yale district, and more particularly described as follows, viz.: The north half of section 27 and the south half of section 34, township 53, consisting of 640 acres. W. H. NORRIS.
Midway, Sept 1, 1896. 27

THE NATIONAL
MATTE SMELTER.

A PRACTICAL AND SIMPLE METHOD of matting sulphide ores, such as nickel, copper, gold and silver ores. In localities where lead ores and fuels are scarce and almost unattainable, our pyritic, water jacketed Matte Smelter has been recognized with highly satisfactory results, and has been thoroughly tested on various pyritic, sulphide and arsenide ores, in capacity of 2 to 80 tons of ore per day. It is the most practical, cheapest, and simplest method of gold and silver ore matting and concentrating that is known to-day.

It requires no extraordinary skill, no lead ores, no fluxing material, and no fuel of any kind for the smelter after it is started. The sulphur in the ore is its natural fuel only, and its cost has no comparison with any other process of concentrating.

We are prepared to furnish any size or capacity plant complete to substantial mining people, set it up and furnish our men to run it for them on easy payments. Prices and specifications furnished with references and testimonials on application.

AFTER ANACONDA SHARES.

Private cable dispatches say Hamilton Smith, agent of the Exploration company of London, which has within eighteen months paid $16,500,000 for 500,000 shares of the Anaconda Copper Mining company, whose properties are in Butte, is on the way to this country again. Smith's mission is said to be to close a deal whereby the Exploration company (really Rothschilds) is to acquire the remaining stock, 500,000 shares, of the Anaconda company, upon which there was given an option for the net sum of $18,000,000.—Butte Mining World.

DEPEW WILL MARRY AN HEIRESS.

The engagement of Miss Edith Collins and Chauncey M. Depew is now practically acknowledged by their friends. The wedding may be looked for in November. Miss Collins is a *beautiful young woman, has a fortune* of $2,000,000 and is a grand-daughter of Commodore Vanderbilt.

A STRANGE QUESTION.

So great is the scarcity of children in France that a year ago an organization was formed, called "The National Alliance for the Relief of the French population." This title may have a vague ring to it, but the purpose of the society is to induce the French people to have more children.

A hundred years ago the great countries of Europe contained 98,000,000 inhabitants, of whom 26,000,000, or 27 per cent., were residents of France. Today these same countries contain 300,000,000 inhabitants, of whom 38,000,000, or 12 per cent., live in France. These figures speak for themselves, and the obvious conclusion is, that if the births continue to decrease at the same ominous rate, France, which was once one of the most powerful countries in Europe, will soon be one of the weakest.

The system of reform to be followed by the organization is to work a change in the tax laws of France. As the matter now stands the parents must pay a tax in proportion to the number of their children. Thus a poor man who has four children pays double the amount that his neighbor does who only has two.

The reformers hope to remedy the evil by having all burdensome taxes removed from the fruitful families and to make up the treasury deficiency by taxing those families who have few or no children. By this system a childless couple would have to pay a heavy tax, those with one child a moderate tax, those with two children a light tax, and those with three children no tax at all. Some of the reformers want to go further and arrange the laws so that premiums will be given to families who have a certain large number of children, the premiums increasing in proportion to the number of children.

IS IT A FRAUD?

A gentleman writing from Montreal says:

To the Editor of the ADVANCE.

DEAR SIR.—I wish to subscribe for your valuable paper, and write to ask you to send me a copy, from which to ascertain what sum to remit. Among others, I have acquired considerable interest in "The Coolgardie," which mine is at Copper camp, Boundary creek. Should you have at hand any information regarding this company that you can give me, it would be greatly appreciated.

Enclosed I beg to forward prospectus of said company:

PROSPECTUS

COOLGARDIE MINING COMPANY,

INCORPORATED.

CAPITAL, $700,000.

SEVEN HUNDRED THOUSAND SHARES FULLY PAID AND NON-ASSESSABLE.

W. W. D. Turner President, James L. McCulloch Vice-President, L. F. Williams Secretary.

General Office, Spokane, Wash.

Mines, Copper Camp, Boundary, B. C.

TRUSTEES—W. W. D. Turner, president Le Roi Mining company; L. F. Williams, treasurer Le Roi Mining company; Hon. George Turner, general manager Le Roi Mining company; A. L. Davis, director Traders' National bank; G. Schultz, capitalist; J. Leven McCulloch, M. E.; A. Brown, director Salem National bank, Oregon; C. F. Bailey, mine owner.

The Coolgardie mine is located in Copper camp, British Columbia, and was acquired by the present company by purchase.

The general formation of the district is porphyry, and is cut at right angles by two great ledges of iron and copper pyrites, which have a northerly dip of 60 to 90 degrees.

The principal work done has been done on what is called the Mother Lode. The mine is opened up with a shaft 50 feet deep, and numerous open cuts along the line of the ledge or reef.

We have now over a thousand tons of ore on the dump ready for treatment that gives an average sample assay of over $27 per ton in gold, silver and copper. The average width of the vein is twenty-five feet.

The company has now let a contract to run a tunnel in on the vein, which will give us a depth from apex of vein of about six hundred feet. The general character of the ore is pyritic copper and iron, carrying gold and silver; and there is one thing that can be said in regard to this particular character of ore, wherever they have found it they have always found permanent mines. We can refer to the great success made at Butte City, Montana, and in our own country, to the many great mines opening up at Rossland, Trail district, and the large amount of wealth they are producing every month. Of course it must be admitted that the Coolgardie is away from transportation at the present time, and we will have to wait a little while for a return on our investment. At the last session of the British Columbia parliament there was a charter granted to a company to build a railroad from Rossland to Penticton, where it will connect with the Canadian Pacific railroad. It must be built inside of two years, and they are now working on it.

This is a case the same as the famous Le Roi mine at Rossland. When the present owners of the Le Roi took possession of that property, it was a long way from a railroad, and now that they have one they are getting their reward. The same men are doing the same with the Coolgardie mine. They will push development work and open up their mine, and get it into shape to be handled with large profits. The work done shows it to be a more valuable property than the Le Roi was at the same stage of development, and with the advent of the railroad it will be a regular dividend-payer. The mine is in charge of a practical mining man, who has had over thirty years' experience at mining.

At a meeting of the shareholders of the company, held at the office of the company in the Hyde block, Spokane, Washington, there were 200,000 shares of stock donated to the company to be put into the treasury, to be sold to raise funds for development and to buy machinery to put on the mine. It was also resolved that all stock be pooled for a year, so there is no other stock for sale unless treasury stock, so that investors are protected from a depreciation in value. Two years ago Le Roi shares were selling at twenty cents. You cannot get a share now for five dollars. This is a rare chance for a good, safe investment.

Treasury shares, fully paid up and non-assessable, par value one dollar, are offered at twenty cents per share. Application for shares should be made to

DONEEN & FAIR, Selling agents,
Temple Building, Montreal,

Who will issue scrip and have same registered in the company's books.
