SKY CLEARING

Silver King Mine Will Resume Operations

SMELTER YET TO FOLLOW

ANOTHER OLD TIME PROPERTY IS TO RESTART BUSINESS ON AN EVEN LARGER SCALE—BRITISH CAPITAL AGAIN HAS BEEN INTERESTED.

A cablegram was received by Messrs. Lennie & Wragge from M. S. Davys in London yesterday to the effect that a long lease had been effected by Mr. Davys on the Silver King mine.

It has been known for some time past that Mr. Davys has been organizing a development syndicate in London for the opening up of the Silver King property. Mr. Davy's long ago arrived at the opinion that the main vein of the Silver King, which had been lost at depth, could be recovered. He had a lease upon the property, which he surrendered some time since. Under this lease certain discoveries were made which lent almost certainty to the belief that Mr. Davys' views were correct. But the carrying out of the work would mean the unwatering of the mine, which in turn meant capital and a long lease.

This Mr. Davys' has succeeded in arranging, according to the phrasing of the telegram. What this eventually means to the community will be realized when thought is taken of the number of men employed when the Silver King was thought to be the mainstay of this city. The Hall Mines smelter was built in the first instance to accommodate the ores of the Silver King copper. It was only afterwards, when the vein was supposed to have been lost and the deep workings allowed to fill up with water, that the smelter was made a custom plant and turned its attention to lead rather than to copper ore.

It is now certain that the mine will be worked, after the necessary preliminary work is accomplished, on a scale large enough to make its operations an appreciable percentage in the varied business of this city. Such work cannot be undertaken at once. At the present moment it is practically impossible to get supplies up to the mine to permit of any large operations being undertaken even if they were advisable at this stage of the work to be done. A few men will be sent up just as soon as mail advices arrive, the number being augmented from time to time as opportunity offers. Mr. Davys may be expected out later in the season as the operations are far too momentous to permit of his absence, in the view of his London supporters, although there are good men on the ground to whom the workings of the property have long been familiar.

There will be some local clearing up to be done which will prove of immediate benefit. The liens which existed on the property, it is understood, will be taken up at once and liquidated, as soon as further advices come in. There is also a settlement to be made by the bondholders, represented in this city by R. S. Day of Victoria. But the whole matter is now in process of being cleared up and the credit of the property which in the beginning was the occasion of the city, will be thoroughly cleared up.

Speculation as to the smelter is somewhat premature. As far as the Silver King is concerned the smelter's future denpends upon the future of the mine. As far as its being a custom plant for the reduction of lead ores is affected the lease of the Silver King enters very little into the case. That is another story.

NEW BRITISH CABINET

ENGLISH NEWSPAPER GIVES AN ESTIMATE

LIST OF THOSE WHO WILL BE HONORED

London, April 7.—Herbert H. Asquith, who has gone to Biarritz to see the king with reference to the formation of a new cabinet, will not return to London until next Saturday.

The Daily Chronicle, which may be regarded as good authority, gives the following forecast of the probable changes in the cabinet: H. H. Asquith, prime minister and first lord of the treasury; David Lloyd-George, chancellor of the exchequer; lord Tweedmouth, president of the council; earl of Crewe, secretary of state for the colonies; Reginald McKenna, first lord of the admiralty; Winston Spencer Churchill, president of the board of trade; Walter Runciman, president of the board of education.

HARROP NOTES

Residences oGing up in Plenty—Truthful Fishing reports

(Special to The Daily News)

Harrop, April 7—Favored with the best of weather, ranchers hereabouts are now actively engaged planting seeding and making all necessay preparatory arrangements for an unusually busy season. New settlers are coming in steadily and several residences are under construction.

Blakelock and Jessop have several men at work clearing the ten acre tract which they recently purchased. They are also erecting a residence on the property and will put in an orchard early this spring.

Fox Bros., who have been spending the winter at the coast, are expected to return here this week.

Residents of this settlement are high in their praise of W. A. Galliher, the member for Kootenay for his having secured for them a better mail service.

A. G. D. Miller and family have now taken up permanent residence on their recently acquired ranch.

It is stated here that the government wagon road will be extended from 18-Mile to Procter at an early date thus providing a splendid road for the use of all ranchers between the city at the outlet and this settlement.

While a little fishing has been done in this vicinity this week no catches of any unusual size can as yet be truthfully reported.

CROWNING VIRTUE

Republicans Applaud Roosevelt and Support Taft's Nomination

Huron, S.D., April 7—The republican state convention elected eight delegates to the national republican convention and instructed them to vote for W. H. Taft and use their influence for the nomination in his behalf.

The resolution which declares the Roosevelt policies to be the "crowning virtue of all the achievements of the republican party," favors revision of the tariff, favors laws providing that the power of granting temporary injunctions be regulated and urges the enactment of an employees' liability law.

McCRAW IS ACQUITTED

END OF SECOND MURDER TRIAL AT THREE RIVERS

LORD STRATHCONA'S HELP FOR THE ACCUSED

Three Rivers, April 7.—The trial of Wallace McCraw, accused of murdering Percy Slater in October, 1905, was concluded this afternoon by the jury returning a verdict of not guilty. Additional interest was taken in this trial by the fact that Mrs. Slater, who would have been one of the principal witnesses, left town shortly after her husband's death and could not be found to give evidence.

Mrs. Slater and Wallace McCraw were tried for the murder in November, 1906, when the woman was acquitted and the man found guilty.

McCraw appealed for a new trial on a technicality. This was granted, and today he was declared a free man.

Percy Slater was an Englishman of a roving disposition who settled in the solitudes of Grand Anse, Que., a district mostly peopled by halfbreeds. He opened a boarding house and married a pretty, half Scotch, half Indian girl, who bore him several children. McCraw became enamored of her and had illicit relations with her, according to the evidence brought out at the trails. Slater was murdered in his stable while chopping wood. Skeene, the father of Mrs. Slater, was a Hudson's Bay company employee, and had been acquainted with Donald A. Smith in old Hudson's Bay days. Mr. Smith, was none other than the present lord Strathcona, Canadian high commissioner in London, and he is credited with furnishing the funds for the defence of the unfortunate daughter of his old friend.

ELECTIONS IN QUEBEC

PREMIER GOUIN WILL APPEAL TO PEOPLE AT ONCE

WORK OF SESSION BEING RUSHED WITH ALL HASTE

Quebec, April 7.—Both public and private bills are this week being rushed through the legislature will all possible haste, and it is now said that premier Gouin has finally decided to hurry on the provincial elections at the earliest possible date.

The premier wants next Wednesday to see the end of the present session and an appeal to the electorate to take place just a month later.

Such a decison is said to be pleasing neither to the opposition nor the liberal government at Ottawa.

Premier Gouin denies that he intends to resign and take a seat on the bench.

STRUCK A MATCH

Brantford, April 7.—Windows were broken, floors torn up and walls forced out of place by an explosion of natural gas at an unoccupied house in Murray street this afternoon. A man who was installing electric wiring struck a match to light his torch and the explosion followed.

WEDNESDAY, APRIL 15

Owing to the Easter holiday his worship mayor Taylor has changed the date for cleaning up and Arbor day to this day week, Wednesday, April 15, which day will be a general half-holiday. All persons desirous of purchasing shade trees for planting at cost from the city, must advise the city clerk of the number of trees required, not later than noon on Saturday next. The The trees will be silver maples and will cost about 50 cents a piece here.

IS IMPERATIVE

Building of the Hudson's Bay Route

TORIES ENDORSE PROJECT

HOUSE PRACTICALLY UNANIMOUS ON THE OPENING OF ANOTHER ROUTE AS AN OUTLET FOR THE HARVESTS OF THE WESTERN COUNTRY.

(Special to The Daily News)

Ottawa, April 7.—In the house today the Hudson's Bay road was brought up by W. E. Knowles in a lengthy speech.

Dr. Schaffner followed in support.

M. S. McCarthy in a long speech reintroduced Knowles' resolution, calling for the early construction of the road. This resolution was dropped from the order sheet yesterday, subject to its being brought up on the motion to go into supply. The prairie members' field day followed, all the parties being in startling unanimity on the necessity of the road's immediate construction, the only point of difference being the means of raising the money, some members wishing a land grant to be set aside and the conservatives generally thinking it should be a dominion charge, but all were urgent for early construction. Drs. Cash and Roche were followed by T. A. Burrows and Lake (Qu'Appelle) was succeeded by Turriff.

Staples reverted to other matters, declaring that the money for the Tercentenary celebration and other matters, which he does not favor, could have been saved and applied to this railway.

John Crawford (Portage) and S. J. Jackson (Selkirk) also spoke, the latter sounding a note of warning.

Dr. McIntyre, neatly and briefly, summarized the arguments of all in favor. Some of the eastern members also spoke favorably.

Hon. Frank Oliver made the government's statement. In passing, he referred to Fowler's and McCarthy's arguments regarding land grants made to the Canadian Northern. It all depended, he pointed out, on the question whether the road was to take the shortest route to Hudson's Bay, or to serve the western country. The minister then recalled the premier's intimation of last session of the probability of a statement before that session closed. That statement had been impossible owing to the premier's absence. He was commissioned to say, however, that the matter was once more under consideration by the government. That nothing had been decided was not due to any lack of sympathy on the part of the government or of any intention not to deal with the question. He could again promise that a statement would likely be made before the session closed.

The opposition leader railed at the government on the want of progress made with so great a work, on which all seemed to be of one mind. The matter seemed in reality to stand just where it stood last session. He did not, however, suppose that that would interfere with Knowles' consistent support of the government or his satisfaction with their policy. In regard to the project itself, it was one of intense interest to the west and he presumed the government had information to justify a reasonable service for a reasonable season. He was glad to see the house unanimous on the matter, but he did not see that much had been accomplished after all.

The resolution was then carried without a division.

LISBON STILL FIGHTING

OFFICIAL COMPLETE RETURNS OF OF ELECTIONS

BANDS OF MEN RIOTING AND PLUNDERING

Lisbon, April 7.—The excitement caused by the election rioting in this city on Sunday morning, in which seven persons were killed and 100 wounded, has by no means subsided. There is considerable consternation in government circles and the most extreme precautions are being taken. The streets of Lisbon swarm with troops. The streets are patrolled by cavalry and mounted lancers are massed at some of the street corners.

The official complete returns of the elections of members to the new chamber of deputies, including the colonies, are as follows: monarchists 62, Progressives 59, independents 17, nationalists 2, republicans 5, four in Lisbon and one in the provinces; francoists 3 and dissident progressives 7.

Two battalions of infantry and two companies of light cavalry were hurriedly ordered into Lisbon this morning to reinforce the local garrison. The city was in a state of terror last night. Bands of men rioted and plundered through the poorer quarters. The troops were on the trail of the maruders and early this morning drove them into hiding.

NAVIGATION OPENED

Brockville, April 7—Navigation on the St. Lawrence opened today, when the government tug Scout passed westward en route from the maritime works at Prescott to Kingston. The channel is free of ice.

IMPROVING COAL PLANT

EXTENSIVE ADDITIONS AT C. N. P. COLLIERIES

WILL BE ABLE TO HANDLE LARGE INCREASED TONNAGE

(Special to The Daily News)

Fernie, April 7—The coal company has lately been making considerable improvement to their plants both at Coal Creek and Michel collieries having installed new compressors, haulage system and other necessary machinery and are now directing their attention towards the erection of the large new steel tipple at Michel. They are taking advantage of the temporary slack time to rush through many improvements so as to be in a position to take care of the largely increased tonnage that will be required when business resumes its normal condition.

They have also placed on the market a great deal of machinery that is being replaced by the new and are getting rid of a number of horse which are not not required now owing to the inauguration of the new haulage system. New passenger coaches have been added to the equipment of the mine tram besides a supply of slack cars and altogether it looks as if a prosperous season is anticipated.

GRAND FORKS PROTEST

LUMBER COMPANY IS ASKED TO REMOVE LOGS

RETURNED PROSPECTOR TELLS OF U. S. MINING CAMPS

(Special to The Daily News)

Grand Forks, April 7—Every year the big log jams of the Yale-Columbia Lumber company cause damage to bridges and property along the Kettle river at Grand Forks and this spring the property owners are up in arms at the manner in which the big lumber company has left the logs and drift wood in the river and a written protest against these conditions is being numerously signed. It is the intention to present this protest to the local government agent here with the view of having the government take some action to have the lumber company remove the obstructions from the river. It is the general impression that the late sping will make quite a freshet and that much damage will be done to property unless the lumber company's logs are removed from the river.

Messrs. Tweedle and Hill, who recently purchased 100 acres of the Newby fruit land from Messrs Neill McCallum and James McArdle of Grand Forks, which property adjoins the city limits on the west, started plowing yesterday. It is their intention to plant the 100 acres in young trees as soon as possible. This nursery will be forced ahead with all possible despatch and the most modern conveniences will be used and the work will be done by experienced men.

John Rogers, a pioneer mining man of the Boundary district and formerly superintendent of the Pathfinder mine, returned yesterday to Grand Forks after an absense of 18 months in the various mining camps of Nevada and California. He says that mining in the Goldfield and Bullfrog districts is now very quiet and that the prospector has to put up with hardships. Firewood is selling readily at $15 per cord and water at 2.50 per barrel, while other necessaries are in proportion.

TO ROB IMPERIAL BANK

Plucky Bank Clerk at St. Catherines Drives off Burglars

St. Catherines, April 7—A determined effort was made early this morning by three or four men to rob the Imperial bank of Canada at St. Davies, a village near here. Several strangers came to the village early last night and were seen around town for several hours. They stole a couple of horses at Doyle's hotel and breaking in a blacksmith shop, stole tools with which they pried open the front door of the bank. While two men with revolvers stood guard the other blew open the vault. A bank clerk named Hamilton, attracted by the noise came up to see what was the matter. He attacked the robbers with stones. They returned his charge with revolvers. The noise of the shooting awoke the whole village and everybody was astir. The robbers were determined, however, and held off the populace, who, being unarmed, stood under cover. When, however, the robbers failed to open the inner door of the vault they gave up in despair and drove off. It was found afterwards that the inner door of the vault was so badly wrecked that it could be pulled off with the hands. Behind it was $3000.

NEGRO CONVENTION

Philadelphia, April 7.—A convention of negroes from various sections of the country was held here tonight for the purpose of taking concerted action, to protest against the nomination of secretary W. H. Taft for the presidency, and to petition the senate to pass the Foraker bill, to restore the negro soldiers of the United States infantry who were dismissed from the service, following the "shooting up" of Brownsville. Twenty-seven states were represented by 200 delegates.

MOTOR CAR NIGHT

New York, April 7—This was "motor car" night in New York. Hundreds of thousands of interested spectators lined Broadway and Fifth avenue to witness an automobile race that was by far the biggest thing of the kind that America has yet seen. More than 10,000 cars, representing every kind known to the autoists from the days of the motor car's infancy to the present heydey of its popularity, was in line.

A SCHOOL BYLAW CARRIES

Paris, Ont., April 7.—The bylaw for a new $55,000 school was carried today by a majority of 65 votes.

ANTI SALOONS

Vote Taken in Illinois and in Wisconsin

RESULTS ARE INDECISIVE

HEAVY PERCENTAGE OF THE ELECTORATE IS IN FAVOR OF THE CLOSING DOWN OF ALL DRAM SHOPS—WISCONSIN NOT SO PRONOUNCED.

Chicago, April 7.—In the local option elections, held by 1200 townships in 84 counties of Illinois, outside of the city of Chicago, today 20 counties became absolutely anti-saloon territory and approximately 1500, of about one-half of the total number of saloons in that territory, were voted out of business. Most of the larger cities of the state, however, voted in favor of licensing saloons.

The following counties are now absolutely anti-saloon, so created by the voters, today, in addition to the six which voted last November to abolish the dram shops: Boone, Moultrie, Fayette, Hamilton, Edgar, Clark, Brown, Slaine, Galatin, Douglas, Macon, Cumberland, Coles, White, Wayne and Richland.

Milwaukee, April 7.—Returns received tonight show that license won over no-licenses in a majorty of the towns of Wisconsin in the election today were these issues were put to a vote of the people.

In Kenosha, Mathes J. Sholey, democratic agent for a brewing company, defeated E. S. Altman; at Madison, mayor Schulcot, democrat, won over W. J. McKay, who favored Sunday closing.

Davis Rose, democrat, was elected mayor of Milwaukee by a plurality of about 3000 votes over Emil Seidel, a social democrat.

Thomas J. Pringle, republican, ran over a thousand behind Seidel.

Rose's election makes him mayor of Milwaukee for the fifth time. He was defeated two years ago by mayor Becker, after being victorious for four times in succession.

The Roosevelt slogan in the campaign was "personal liberty."

Scattering returns received tonight throughout Wisconsin indicate that delegates-at-large favorable to the nomination of Robert M. Lafollette, at the republican national convention at Chicago, have been elected.

MORAN AND WOLGAST

Little English Fighter has the Best of a Six Round Bout

New York, April 7—Owen Moran, the little English fighter in whose appearance there was so much interest, after the showing he made in the match with Attell, had the best of the argument in a six round go with Kid Wolfast of Milwaukee before the National A.C. here tonight. Although there was no decision rendered, the advantage was plainly Moran's after the first round, when Wolgast got in his one solid, effective punch of the evening, a long loose swing flush to Moran's jaw. Moran edged off after this and was rather wary for the remainder of the round.

There was nothing sensational or very decisive about the bout and no knock downs were scored by either man. Moran, who outweighed his opponent by six pounds had Wolgast very tired in the last round but the Milwaukee fighter held on until the sound of the bell.

WILL BE RESTRICTED

KING'S MISSION TO LONDON HAS BEEN SUCCESSFUL

MEMBERS OF PARLIAMENT TO BE ASESSED ON INCOME

Ottawa, April 7—Mackenzie King's mission to London in connection with the enactment of measures to restrict Hindu immigration to Canada, is understood to have been a complete success and an announcement to this effect will probably be made in the commons in a few days. The movement of Hindus to Canada will be restricted probably in the same way as Japanese immigration.

Today is the 40th anniversary of the assassination of Hon. Darcy McGee in Ottawa for which Patrick Whalen was hanged. Many incidents of the event are being recalled around the capital.

The city council has decided that beginning next year, members of parliament and cabinet ministers resident in Ottawa, will be assessed on the income derived from their public office. It is expected that the city will derive $25,000 from this source.

Hon. W. S. Fielding says the government holds $33,571,937 in gold as security for dominion notes issued for circulation. The government has also £400,000 in imperial guaranteed bonds for the same security and also $6,100,204 in gold for savigs bank deposits.

UNABLE TO AGREE

Indianapolis, April 7—The Miners and operators of the central competitive mining field, consisting of Illinois, Indiana, Ohio, and Western Pennsylvania decided last night to hold an interstate wage conference between employers and employees at Toledo on April 14.

The miners and operators present at the informal meeting between the miners of the whole central field and the operators of Ohio, Indiana and western Pennsylvania were almost unanimously in favor of holding a general convention for the purpose of renewing contracts. A committee composed of ten miners and operators was appointed to report to the conference this morning when the session convened. The real work of this committee however is to agree on a date for the general resumption of business in the central competitive field, pending an interstate settlement. This date will probably be next Monday.

The conference adjourned at 11:15 a.m. today after a two hour session. No resumption of work in the mines of the states represented was ordered.

HOWARD VINCENT DEAD

Mentone, April 7—Sir Howard Vincent, member of parliament for Center Sheffield, and aide de camp to king Edward, died here today. He was born in 1849. Sir Howard Vincent visited America in September of 1906 to arrange for a rifle match at Creedmore between a team from the 7th New York regiment and a visiting team from the Queen's Westminster Rifles of which he yas honorary colonel.

FAMOUS MYSTIC

London, April 7—The body of Emmanuel Swedenborg, the famous mystic and writer, was exhumed in this city today and started on its journey to Sweden for final burial in Swedish soil. The remains were taken up this morning from the vault in Princess Square where they were deposited in 1772, 136 years ago. Services were held over the remains, after which they were placed on a train for Dartmouth, where they will be embarked on the Swedish cruiser Fylgia for transit to Sweden.

FOR FREE PULP MEASURE

MANY REPUBLICANS PLEDGED TO SUPPORT IT

NEWSPAPER PUBLISHES HOPEFUL OUTCOME

Washington, April 7—Herrman Ridder, of the New York Staats Zetung, who represents the newspaper publishers' association in their demand for free wood pulp so as to reduce the price of white paper, said today, after conferring with president Roosevelt, that congress would not adjourn without passing such a measure.

Ridder made the statement that he had written pledges of 68 republican members of the house, which added to the democratic vote, makes a large majority of the membership of that body favorable to it.

Mr. Ridder declared the ways and means committee of the house was responsible for not reporting the bill. Mr. Ridder said there would be no trouble about getting a free pulp measure through the senate.

LIBERAL ASSOCIATION

PROVINCIAL ORGANIZATION TO MEET APRIL 18

NATURALIZATION PAPERS ARE REFUSED

(Special to The Daily News)

Vancouver, April 7.—President John Oliver has called a meeting of the provincial liberal associations here for April 18. The present state of the party organization throughout the province and plans for strengthening the same will be discussed.

On examination, 12 Japanese applicants for naturalization, whose affidavits were recently protested, only three made such a showing before judge Grant today as to enable them to obtain papers.

WON'T BELIEVE IT

New York, April 7—Alexander Berkman, editor of the anarchist paper, Mother Earth when shown tonight's despatch from Winnipeg which stated that Emma Goldman had been put off a train at Noyes by the United States immigration officials, and not permitted to enter the country, said tonight he thought the newspaper had been misinformed. "Emma Goldman is a citizen of the United States," he said. "Her father spent several years here before she was of age and she has nothing to fear. By right of her father's citizenship she is entitled to admission to the country. I place little credence in the story."

OFFICIAL DEPORTATIONS

Toronto, April 7—Dr Bryce, inspector of immigration is making investigation of the statement contained in an Ottawa paper that of 326 insane patients committed in the Ottawa asylum last year, 136 were foreigner born and a majority of these, recent arrivals. Dr. Bryce makes the statement that one out of every 498 immigrants of British birth are deported for some reason, while only one Italian is deported in every 1600. Last year he says only 116 persons were deported out of the many thousands that came to Canada.

GLENGARRY LIBERALS

Alexandria, April 7—Glengarry liberals have nominated A. W. McDougald, for the legislature next election.

NEW OCEAN LINER

Liverpool, April 7.—Great interest has been aroused here by the report that the White Star Steamship company contemplates inaugurating a service from Liverpool to Montreal, for which it will place an order for four big 24-knot liners with the shipbuilding firm of Harland & Wolff. It is said the service will be conducted in conjunction with the Dominion line and the Grand Trunk railroad. The White Star officials here refuse to either confirm or deny the story.

FRUIT PACKING

Winnipeg Gets After Ontario Frauds

TELEPHONECONSTRUCTION

EMMA GOLDMAN IS RETURNED BY UNITED STATES OFFICIALS INTO CANADIAN TERRITORY—GENERAL NOTES OF MANITOBA NEWS.

Winnipeg, April 7—Chief William McRobie of the Winnipeg fire brigade and at one time captain of the Montreal fire brigade, is lying dangerously ill in the general hospital here. He had his right foot amputated yesterday and his condition is serious.

Three hundred and thirty cases of canned apples that were shipped from the Oshawa Canning company at Oshawa to Winnipeg were seized by the city health authorities yesterday and as the result, a request is to be made by local fruit importers for an investigation by the government into the regulations and methods of examining and shipping fruit in Ontaro for western consumption.

A cabinet council meeting will take place tomorrow at which the subject under discussion will be the government's policy of telephone construction during the present season. There are a large number of applications on hand from every part of the province, especially where the farmers want the long distance lines extended in order to connect them with the towns in their vicinity. Several municipalities are considering the proposition of building their own extension lines, which would connect with the government system. The matter has not yet been decided whether the government will build and own lines or the municipalities, but at any rate the government will retain the control of all such lines.

On Swan lake Indian reserve in southern Manitoba last Sunday three Indians, unable to procure whiskey, started to drink essence of lemon with fatal results. All three have since died.

Negotiations between the street railway company and its conductors and motormen are being continued and a meeting of the men of the men will be held after midnight tonight to receive the reply of the company to the demands presented yesterday. If these are not accepted the men will ask that a board of arbitration be appointed and if the company refuses to arbitrate the men will strike. The agreement under which the men are working expires tonight.

D. B. Hanna, vice-president of the Canadian Northern, left for the east tonight. He states that his company contemplates many improvements in their system this year, including the relaying of the main line from Winnipeg to Port Arthur, with 80 pound steel.

Emma Goldman, the anarchist queen, attempted to return to the United States last night but was stopped at the Manitoba boundary by American immigration officers and returned to Emerson, Man., the first station on this side of the line, where she registered at the Anglo-Saxon hotel under an assumed name. It is said she will not again be permitted to enter the United States.

She left Winnipeg hurriedly but was closely watched by United States inspector Carr who left on the same train for the south

HAD PLENTY OF NERVE

MONTREAL MURDERER IS FULLY IDENTIFIED

CONSULTED THE AUTHORITIES WHILST SHOOTING

Montreal, April 7.—Examination by the police of the papers of Joseph Smith, the man who yesterday held the police at bay for five hours, killing constable Shea and wounding chief detective Carpenter and constable Foault, and who was himself wounded by the police, show that is right name is John Dillon and that he is a native of Ireland. He served for several years in the Royal Irish constabulary and afterwards in the Cheshire, England, constabulary. While on the latter force he shot a burglar who was resisting arrest but was discharged by the court, which held that the shooting was justified.

Soon after Dillon crossed the Atlantic, and coming to New York in October, 1888, was soon declared a citizen of the United States. In New York he was employed as a book agent. Later he went to Boston and from that city appears to have come to Montreal and for some reason changed his name to Smith.

The two wounded officers and the prisoner will all recover.

One of the papers found in Dillon's room was in his own handwriting and contained a digest of the English criminal law, regarding the right to take life in self defense, taken from the charge delivered by Mr. justice Stephen, at Birkenhead, when Dillon was discharged after shooting the burglar mentioned. A notation on this documents shows that during the time Dillon was holding out against the police yesterday he got this document and consulted it.

BY ACCLAMATION

Fredericton, April 7 — Solicitor general Macleod was elected by acclamation this afternoon.

ASIATIC IMMIGRATION

If the report from Ottawa, that Mackenzie King's mission to London for the purpose of securing the restriction of Hindu immigration, prove to be correct, another and a final phase of the Asiatic immigration question will have been effectively disposed of by the Laurier administration.

The Chinese phase of the question was disposed of to the satisfaction of British Columbians some years ago. Then arose the Japanese issue. Satisfactory measures for dealing with this problem had been arrived at and were working well until certain greedy corporations undertook to circumvent the dominion regulations and import Japanese coolie laborers on a large scale. Immediately this state of affairs became known to the Laurier government, a minister of the crown, Hon. Rodolphe Lemieux, minister of labor, was sent to Japan to negotiate a friendly settlement that would effectually restrict the influx of Japanese laborers into British Columbia. Mr. Lemieux accomplished his mission in short order and returned to Canada armed with an agreement from the Japanese government to limit the number of passports issued to migrating Japanese and to prohibit entirely the migration of contract laborers save with the consent of the dominion government.

Thus the Japanese phase of the question was happily terminated. Concurrently with the Japanese influx came the Hindu influx that threatened the well-being of the white wage workers in the coast cities and for a time promised to prove a fruitful source of unrest in this province. But again sir Wilfrid Laurier was prompt to act. Recognizing that great imeprial interests were involved in this question of prohibiting the immigration of Britsih subjects from India, but also realizing that any large influx of these people into British Columbia could not but prove a menace to the resident white working population, he sent Mackenzie King, the deputy minister of labor, to London, to confer with the home authorities, and particularly, Rt. Hon. John Morley, secretary of state to India, as to the basis of an arrangement that might be mutally acceptable to the home, Indian and Canadian government, with respect to the restriction of Hindu immigration into Canada. This is the mission that Ottawa reports announce to have been successfully accomplished. There is every reason to anticipate that Mackenzie King will return to Canada with a satisfactory solution of this last phase of the Asiatic immigration question. It is well understood in London now that the British Columbia climate is not suitable for the Hindus and that the prospects of these people doing well in this country are extremely problematical consequently, in their own interests, it is advisable that the Indian government should cooperate with Canada in keeping them at home.

Sir Wilfrid Laurier has met and grappled with these various phases of the Asiatic immigration question boldly and yet dispassionately. He has not allowed sectional excitements to carry him away or urge him upon a course that might conflict with true imperial interests, but, none the less, he has been strong and steadfast in his determination to safeguard our province from the influx of hordes of Asiatics and he has taken this stand in face of the bitter hostility of the big corporation, whose only aim is to secure cheap labor.

EDITORIAL NOTES

The civil service report has evoked all kinds of criticisms and comment. On the whole, the tone of the press is distinctly favorable to the course pursued by the government. It is now freely recognized that the Laurier administration did a courageous thing in appointing a commission of enquiry into the civil service. No better evidence of the earnest of the government to administer the affairs of the country honestly and clearly could be desired. On all sides great good is expected to result from the findings of the commission and from the further investigation of Mr. justice Cassels. There is hope now of a radical reform in the civil service system and optimistic people foresee an early abolition of the patronage system. Some of the press comments are worth recording. For instance the Canadian Courier, a non-political weekly journal of comment, says: "When the historian comes to count up the good deeds of the Laurier government, he ought to put down not far from the top of the list the courageous appointment of the civil service commission. That was an invitation on the part of a householder to a health committee to come and look into his back yard. The health committee has found the back yard in a shocking condition; but it ought to remember that it gained its permission to investigate from the present tenant of the yard. And it ought also to remind itself that much of the disgusting mess it finds there was very likely left by a previous tenant. Naturally its eye is attracted by the fresh dirt; but the dessicated remains of the filth of other years and the old system which encourages the accumulation of debris, show that the present condition of the yard is no novelty. It was a plucky thing—may I say public-spirited thing—for the ministers to turn the searchlight into their own premises. This should be remembered in their favor when we are calling their attention to the need for some vigorous raking and a rousing bonfire."

And the Edmonton Saturday News, another non-political weekly journal, says: "To the Saturday News it seems that any criticism to which sir Wilfrid Laurier and his colleagues are open as a result of the report is more than counter-balanced by the credit which is due to them for having given gentlemen of the character of these commissioners the opportunity to investigate and present their conclusions to the country. Mr. J. M. Courtney, C. M. G., the chairman, was for 30 years deputy minister of finance. He is a deep student of political problems, absolutely unbiased, whose knowledge of the civil service is based upon long and intimate experience. He is a brother of Leonard Courtney, now lord Courtney, who was for so many years distinguished in British public life. The other commissioners were Mr. Thomas Fyshe, ex-general manager of the Merchants Bank of Canada, and Mr. P. J. Bazin, a prominent merchant of Quebec. Against none of the three could the suggestion be made that they would twist any fact for partizan purposes. When they were turned loose, the most important step in the history of the Canadian civil service reform movement was taken. The ministers must have known that when these commissioners brought down their report, they could not help supplying matter which would be put to party use. Therefore, their action was all the more praiseworthy."

FOR SALE

One of the best ranches in East Kootenay—250 acres bottom land, 100 tons hay cut every season, and this could be doubled with a little clearing; Mower, Rake, Wagon, etc. Small frame house and 12 head young stock, several fresh cows.

Price $20 per Acre

"ONE TOUCH OF NATURE MAKES THE WHOLE WORLD KIN."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly ailing may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by all druggists and dealers.

HOW HE MADE IT

New York Bomb Thrower Tells all the Details—Is Sinking Steadily

New York, April 7—The bomb thrown by Silverstein in Union Square park a week ago last Saturday following the dispersal by the police of a crowd of New York's unemployed, was made out of the brass top of a bedstead. This statement was made by Silverstein to an attendant at the hospital where the bomb thrower lies hovering between life and death.

"I made the bomb from the top of a bedstead. It was a round brass ball and hollow. I bought a quarter of a pound of nails, broke them in half and put them in the ball. I put nitro-glycerine on top of the nitro-glycerine I put some gun powder When I got to the park I saw a policeman who had beaten me. I put a fuse in the bomb and walked over to the fountain. I had a lighted cigarette in my hand and I tried to touch off the fuse but in my excitement I put the cigarette in the wrong hole, causing the explosion."

Silverstein said this bomb was the second one he had made but declined to tell when the first one was made or the use to which it was put. Silverstein is said to be much worse and he is suffering great pain.

WERE ALL ELECTED

St. John, N. B., April 7.—All the members of the new provincial cabinet, Messrs. Hasing, Morrisey, Landry, McLeod and Fleming, were elected today without opposition. The nominations attracted no attention.

The Kootenay Ice & Fuel Co. Office Phone 265 N.E. Cor. Baker and Ward

When You Buy Fruit Land

It is well to remember that what is important is NOT the first cost of your fruit farm, but the amount of profit which your farm will yield year by year.

DON'T be attracted by cheaper, inferior or inaccessible lands which exist in the Kootenay, as elsewhere—but get the best. Take advantage of a double selection.

1. Our selection was made with the utmost care at a time when we had the whole district to pick from.

2. Your selection—made from ours—thus you get the benefit of a double and cumulative selection.

FURTHERMORE, remember that to be successful the following five qualities are absolutely essential:

(1). Title; (2). Soil; (3). Water; (4). Accessibility; (5). Transportation.

WE SELL OUR OWN LANDS. We own over 20,000 acres, title perfect.

THE SOIL is deep loam with clay subsoil, free from stone.

THE WATER on these lands is pure and abundant both in running streams and numerous springs.

THE MARKET for your product is right at your door on existing lines of transportation.

BUT when you buy an orchard tract you want more than soil; more than pure water; more than transportation; you want A HOME—A place to live in—THAT IS WHAT WE HAVE FOR SALE.

Postoffice with daily mail service; express trains, stores; schools—A home every few steps. You get the comforts of civilization combined with the pleasure of a profitable, healthful and beautiful rural home.

Terms $10 cash and $10 per month for 10 acres, with liberal discount for larger payments.

Write or call for maps, photographs and all information.

FOR THE FRUIT GROWER

FERTILIZING APPLE TREES IN KOOTENAY

EXPERIMENTS IN THE STATES AND ELSEWHERE

At a recent meeting of the horticultural seminary of the Massachusetts Agricultural college, Prof. W. P. Brooks was the speaker, and his subject was "The Fertilization of Fruit Trees, Especially Apples." He began by stating a few general principles. In dealing with fruit trees very slow-acting fertilizers are to be chosen, as a rule. This is because the crop remains lond in the land, and because, as a rule, slow-acting fertilizers can be bought at a price which makes the unit of plant food in them much cheaper. There are, of course, some exceptions to this rule, especially in soils which are liable to leach. In such cases quicker-acting fertilizers are required. Again, it is not always true that the unit of plant food can be bought most cheaply in slower-acting chemicals. At the present time nitrate of soda offers practically the cheapest form of nitrogen, pound for pound; yet it is one of the most quickly available fertilizers known.

In applying potash and phosphoric acid to fruit trees, at least in soils which are fairly retentive, considerable quantities can be held in reserve—that is, the soil will carry a large stock of these fertilizers on which the tree can grow indefinitely as they need them. For various reasons, however, nitrogen cannot be stored up in the soil in the same way. It has to be supplied frequently, and therefore usually in smaller quantities.

It is to be noted further than in the use of nitrogen on fruit trees considerable care has to be exercised. Large quantities of nitrogen are not needed, and even moderate quantities are sometimes dangerous. In an apple orchard all the nitrogen may sometimes be secured from the use of leguminous cover crops, such as cowpeas, soy beans, clover or vetch. As nitrogen is the most expensive element to be secured, there is manifest economy in applying such a system of management as will provide this nitrogen on the ground without the addition of expensive nitrogenous fertilizers.

The principal part of Prof. Brooks' lecture, however, was devoted to a discussion of a very interesting experiment in the fertilization of apple trees carried on at the Hatch experiment station of the Massachusetts Agricultural college. A good piece of land, having been previously cultivated in grass and other common agricultural crops, was in the fall of 1887 plowed and dressed with one ton of wood ashes to the acre. In 1888 it was again plowed, and in 1889 the regular system of fertilizers was adopted as follows:

Plat 1 received annually at the rate often tons of barnyard manure per acre.

Plat 2 received at the rate of one ton of wood ashes per acre.

Plat 3 received nothing in the way of fertilizer, but was held as a check against which the other lots could be compared.

Plat 4 received annually bone meal 600 lbs., muriate of potash 200 lbs.

Plat 5 received annually 600 lbs of bone meal and 400 lbs. of low-grade magnesia potash saltpeter.

The trees were planted in 1890, and the land was plowed and cultivated until 1983 when it was seeded down to grass. The hay was cut and carrier away until 1902, after which the hay was cut and left on the ground. The trees have therefore been growing since 1890, and are now 15 years old. They have been bearing for several years, and while the results are not necessarily final, a very good judgment can be formed regarding the general results.

It may be said that the fertilizers in the different plats cost approximately as follows:

Plat 1—$20 per acre per year.
Plat 2—$12 an acre.
Plat 3—Nothing.
Plat 4—$10 an acre.
Plat 5—$11 an acre.

The amount of potash in plats 2, 4 and 5 was approximately equal, as was the phosphoric acid in plats 4 and 5.

Considerable difference is shown in the growth of the trees during the 15 years of this experiment. It would be naturally expected that the growth has been considerably less on plat 3, where no fertilizer was applied. Taking the average circumference of the trees in the different plats, the following figures are shown:

Plat 1—31.32 inches.
Plat 2—27.52 inches.
Plat 3—24.52 inches.
Plat 4—26.94 inches.
Plat 5—31.15 inches.

It should be said that this experiment included several different varieties of apples as follows: Baldwin, Gravenstein, Rhode Island Greening and Roxbury Russet. These varieties were affected very differently by the fertilizers. It was shown, for instance, that Roxbury Russet could rustle for itself much better than the other varieties. It made very nearly as good growth in plat 3, without fertilizer, as in plat 1, where it han an abundance. Baldwin, on the other hand, proved to be very sensitive to food supply. It made much less growth in plat 3 than in the fertilized sections. This, of course, is quite contrary to usual opinion, which rates Baldwin as the lazy man's apple par excellence.

We may compare the products of these various plats. The totals are as follows, and cover the time of the first bearing in 1898 up to and including the crop of 1905:

Plat 1—10,287 pounds.
Plat 2—5,463 pounds.
Plat 3—2,021 pounds.
Plat 4—7,111 pounds.
Plat 5—9,607 pounds.

It will be seen that the section fertilized with barnyard manure has given slightly the largest total crop. It must not be forgotten, however, that this is secured at a very greatly increased expense. The next largest crops were developed in plats 4 and 5, but the striking thing is that plat 5 greatly exceeds plat 4, although the quantities of fertilizers, chemically computed, are almost identical. The difference appears to be due to the different form in which potash is applied. The evidence is certainly strong that on this soil sulphate of magnesia potash is superior to the muriate. The plant fertilized with wood ashes gave the lowest yield of the fertilized plats, although at relatively high expense. The very low yield from the unfertilized plat is rather striking, especially when one remembers that this plat received considerably better than the ordinary care given on the common farm. The trees were always carefully pruned, sprayed, and otherwise well cared for.

In the matter of quality, there were also some striking differences among the various plats. The fruit showed its best color nearly always on plat 2, fertilized with wood ashes, while plat 5 showed second best color. Those on the unfertilized plat were firm, of good color and good flavor, but were altogether too small and a very large proportion of them were unfit for sale. The fruit on plat 1, fertilized with barnyard manure, was poorest of all, except in the point of size. It was soft, rather poor flavored, kept poorly, and was not well colored. Careful chemical tests failed to reveal any difference in the chemical nature in the different plats.—F. A. Waugh, in Country Gentleman.

AGE OF EGGS

United States consul general Richard Guenther, writing from Frankfort, Germany, tells of a simple method for testing eggs recently discovered in that country. He says:

"It is based upon the fact that the air chamber in the flat end of the egg increases with age. If the egg is placed in a saturated solution of common salt it will show an increasing inclination to float with the long axis vertical. A scale is attached to the vessel containing the salt solution so that the inclination of the floating egg toward the horizontal can be measured. In this way the age of the egg can be determined almost to a day. A fresh egg lies in a horizontal position at the bottom of the vessel; an egg from three to five days old shows an elevation on the flat end, so that its long axis forms an angle of 20 degrees. With an egg eight days old the angle increases to 45 degrees; with an an egg 14 days old to 60 degrees, while an egg a month old floats vertically upon the pointed end."

GAMBLERS ARE RAIDED

EDMONTON WILL BE FURNISHED WITH GAS

ALLEGED MURDERER IS BROUGHT DOWN FROM NORTH

Edmonton, April 7—The department of the attorney general is now working out the details of the Alberta Industrial school to be established shortly. A full report containing recommendations regarding the nature of the building and the method of conducting the school has been received from Mr. Chadwick, superintendent of the school. Action will probably be taken by the department immediately after the return of Hon. W. H. Cushing, minister of public works, when a decision will be made regarding the site of the school.

An outbreak of smallpox among the half breeds of the province is occupying the attention of the provincial health department at the present time. Two cases have been reported at St. Paul de Metis and Lac la Biche. In every case the patients and all those exposed have been promptly quarantined, an efficient medical man placed in charge and the disease has been checked. The cases are all of a mild type.

During the past week complaints have reached the police that gambling is still in progress in a number of the city cigar stores, despite the warning issued sometime ago. Saturday night chief Beale determined to make a tour and started out with detectives Griffith and Ware. Armed with a search warrant the three entered the rear of the Fan cigar store and caught a crowd together apparently almost in the act of dealing the pasteboards with a good sized jack-pot in the center. The names of the eight or ten present were taken and the entire proceeding will be ventilated in the police court in a day or two. The fine for taking part or looking on at a card game for money ranges from $20 to $100 fine, with two months' imprisonment.

Sergeant Anderson of the mounted police, Peace river, arrived in the city on Saturday evening with the body of George W. Coleman, charged with the murder of whom Fred Trumper was brought down from the north some time ago and is now in the Kamloops jail. Sergeant Anderson also brought down three witnesses in the case, H. E. Calkin, J.P. at Spirit River, H. Trembly, a packer at Pouce Coupe Prairie and G. Stanfield, who was a former companion of the dead man and the accused. They will proceed to Kamloops tomorrow where an inquest will be held. The trial was first set down for May 18, but will likely be called at an earlier date in order that the men may get back north as soon as possible.

By a good majority the bylaw granting a franchise to the Canadian American oil company of this city, was passed today. Work will be commenced immediately and at an early date the residents of Edmonton will be furnished with gas for heating and lighting purposes brought from the company's property at Morinville.

OUTLOOK FOR SEEDING

Brandon, Man., April 7.—The outlook for early seeding here is first class, though the farmers do not seem to be anxious to start work before April 10 to 15. The land is clear of snow, and with the continuation of fine weather seeding should commence at once. It is not likely, however, that the work will be general until about April 13. Farmers in this district agree that the outlook was never better, conditions generally being first class. There will be a largely increased acreage over last year.

FERTILIZERS FOR STRAWBERRIES

A large number of experiments with fertilizers for strawberries have been tried in New York state last season with remarkably favorable results on the whole. The fertilizers tried were the sulphate and muriate of potash, dissolved rock phosphate, ashes and nitrate of soda. These were used separately and also combined in varying amounts. These fertilizers were applied to young plantations in the spring before the plants blossomed and a year before the recorded crop. The materials were scattered alongside the rows a few inches from the plants and were cultivated in. In 55 experiments the fertilized plants yielded an average of 5197 quarts per acre, or about 2000 quarts above the average. The potash and phosphorus were much more effective than nitrogenous fertilizers, the fruit being firmer and and of better color and flavor. The nitrogenous fertilizers, especially heavy applications of manure, made the plants run too much to vines, and the fruit was soft and inferior. Particular success was secured with a top-dressing of nitrate of soda in the spring. The nitrate was ground fine and applied broadcast after the foliage was well started, but before any bossoms appeared and while the leaves were perfectly dry. The plants thus treated showed a deeper color, a stronger bloom, larger leaves, and a greater freedom from rust. The fruit yield also was increased from 18 to 31 per cent, largely due to the increased size of the berries; the ripening of the fruit was not delayed beyond the usual time, by the use of the nitrate.

OKLAHOMA'S INITIATION

FIRST DEATH PENALTY IMPOSED IN NEW STATE'S HISTORY

NEGRO BOY SENTENCED TO DEATH FOR ASSAULT ON WOMAN

Tecumseh, Okla., April 7—W. Johnson, a negro boy, who assaulted and killed Mrs. Mary Cuppy, an aged white woman, near Shawnee several weeks ago, was today sentenced to be hanged.

The court instructed the jury to bring in a verdict of guilty, and the jury added the death penalty. This is the first legal death sentenced to be assessed in Oklahoma since it became a state.

Johnson maintained his innocence until the state prosecutor made his statement, when he jumped to his feet and declared himself guilty.

OPPOSE ALDRICH BILL

New York, April 7—A circular letter to all members of the clearing houses of the American Bankers' association was sent out from here today by August Blum of Chicago, president of the clearing house section of the association, urging opposition to the Aldrich bill. Mr. Blum's letter declares it to be the concensus of opinion among bankers who have studied the bill and its amendments, that it will work serious injury to the business interests of the country.

IN THE TORY INTERESTS

Hamilton, April 7—The conservative club of this city has passed a resolution to the effect that it would be in the interests of the conservative party in the dominion to have premiers McBride, Whitney, Roblin, Hazen and Haultain and others to give addresses throughout Ontario and Quebec on federal issues.

The Place Where Your Dollars Bring Their Full Value

THIRTY-FIVE ACRES

Situate only ONE mile from the City of Nelson and overlooking it. This is the making of an ideal fruit ranch, owing to its location, as the owner does not have to worry about getting up extra early to catch a train or boat; or to care whether it is raining or fine. He is within twenty minutes walk of the business portion of the City. Good wagon road to it. There is a six-roomed house with water piped into same by iron pipe, 450 feet, the lower portion being plastered, the second storey not being finished. In front of the house about two acres are cleared, and ninety fruit trees planted, the soil being excellent. There are several hundred cords of wood that can be taken off this land which is worth from $4.00 to $4.50 per cord on the ground. Ample water supply for all purposes all the year round.

This property can be bought by paying only $500.00 down, the balance of purchase price can extend over a period of five years if desired with interest at five per cent.

Full information can be obtained from and the land shown to intending purchasers by

GOOD BLOOD MIXTURE

PRESCRIPTION TO CLEAN THE BLOOD OF IMPURITIES

STRENGTHENS THE KIDNEYS AND HELPS FILTER OUT POISONS

A leading health journal in answering the question, "What is the best prescription to clean and purify the blood," prints the following in a recent issue: Fluid Extract of Dandelion, one- half ounce; Compound of Kargon, one ounce; Compound Syrup of Sarsaparilla three ounces. Shake well and use in teaspoonful doses after each meal and at bed time.

A well known druggist, who is familiar with this prescription states that it is harmless, being composed of simple ingredients which can be obtained from any good prescription pharmacy.

It cleanses the blood of all impurities and nourishes the blood. In just a few days the skin begins to clean of sores, boils and pimples. It puts vigor and energy into run down, debilitated men and women. For many years sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Kargon and Extract of Dandelion works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

This prescription is better than the usual patent medicines which are in the most part alcoholic concoctions. The ingredients cost but little and can be mixed at home. Every man and woman here should make some up and try it if they feel their system requires a good blood medicine and tonic.

The Kargon to clean the kidneys and vitalize them so they can clean the blood and Dandelion to tone the stomach, clean the liver and make it active and relieve constipation is the way the prescription acts and so mildly and gently that one does not consider they are taking medicine.

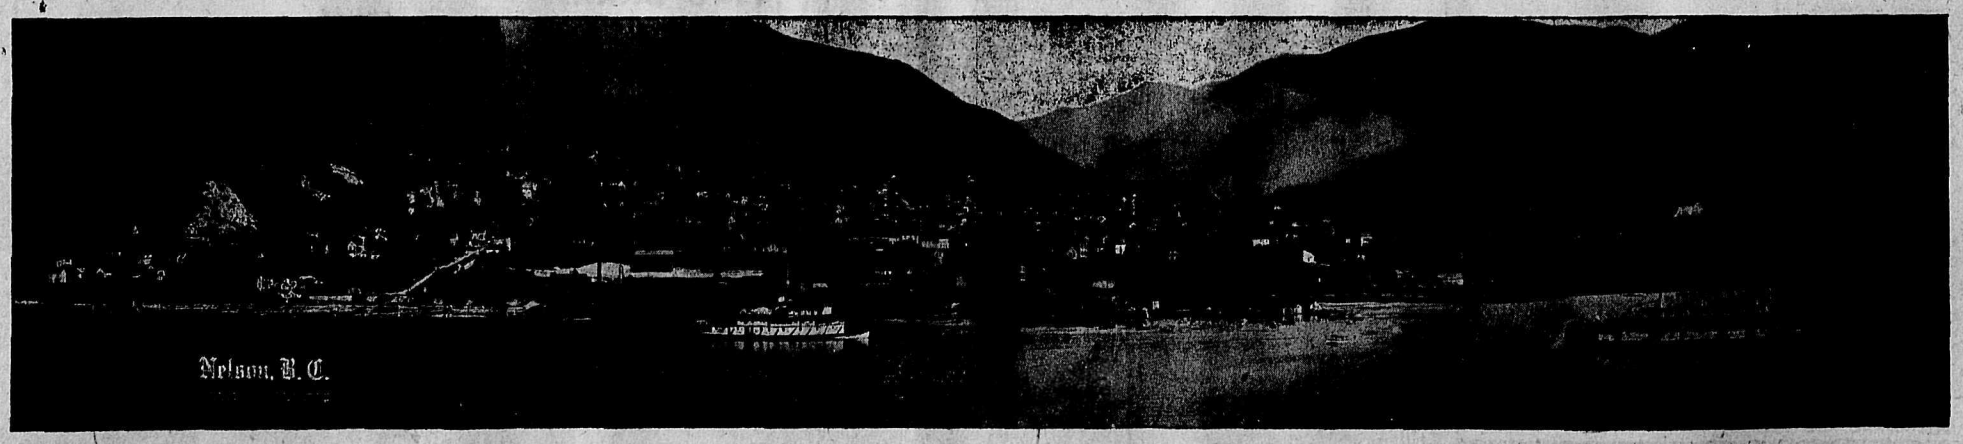
Fruit Ranch For Sale

125 acres, only two miles west of Nelson on Kootenay Lake and the Canadian Pacific Railway. 25 acres set out in apples, cherries, plums, peaches, pears and other small fruits. 40 acres more can be planted.

1000 trees now bearing and 1200 more will bear in one and two years; also 500 trees in nursery. This is the oldest fruit farm in the district and considered the best.

For price and terms, apply to owners, McCALLUM HILL & CO, Regina, Sask., or to W. R. HULBERT, at the ranch, Nelson, B. C.

THE HOME CITY OF THE DAILY NEWS



NICE PLACE, ISN'T IT? ALWAYS ROOM FOR MORE ENTERPRISING CITIZENS

SOME FACTS ABOUT NELSON, B. C.

NELSON, the capital city of the Kootenays, situated on the West Arm of Kootenay Lake, is the commercial and judicial center of Southeastern British Columbia, and is a clean, prosperous, healthy city with a population of between six and seven thousand people.

Nelson is the trading center of one of the finest fruit growing districts in British Columbia.

The mining and smelting industries of the Kootenays are equal to the best, and Nelson gets a large share of the business connected therewith.

Nelson is the most important manufacturing and industrial center in the Kootenays.

Nelson has lacrosse and hockey, tennis, cricket, football, baseball, rowing, launching and shooting clubs, and the citizens go in for all outdoor sports, while the fishing is superb, and second to none in British Columbia.

Nelson has six churches, a Salvation Army citadel; public and high schools, private schools and kindergartens.

Nelson is the wholesale center of Southeastern British Columbia.

Nelson has four chartered banks; and the best general stores between Calgary and Vancouver.

The postal revenue of the Nelson post office is over $21,000 annually, making Nelson rank as the third city in British Columbia.

Nelson has the best hotels in the interior of British Columbia.

Nelson owns and operates its own electric light and power plant, having, during the past year, completed at a cost of about $250,000 a hydro-electric plant on Kootenay river, nine miles below Nelson, and at present have installed one unit with a capacity of 1250 horse power, but have made provision for the developing 6000 h. p. when needed. Incidentally, Nelson is the best lighted city in British Columbia.

Nelson has leased and operates two decimal five miles of street railway.

Nelson owns and operates its waterworks system, and has fifteen miles of water mains.

Nelson has eighteen miles of sidewalks.

Nelson has ten miles of sewers and on account of the gradual slope the drainage is perfect.

Nelson has a paid fire department, with a central hall and three sub-stations, with the Gamewell fire alarm system installed.

And with these Nelson has scenic attractions which make it the best residential city in British Columbia today

The Daily News has a telegraph service equal, if not better, than any paper published in British Columbia. Maintains special correspondents at all important points in Canada and contains the announcements of representative city manufacturing firms, merchants and real estate firms of the city.

NELSON NEWS OF THE DAY

The thermometer yesterday varied between 53 and 25 degrees.

"No Mother to Guide Her" will be the attraction at the opera house tonight.

A much needed crossing on Silica street, upon Stanley, was put in yesterday by the city engineer.

The janitor of the old court house has not waited for Arbor day. He has already cleared up the ground back of the building, effecting a notable improvement.

Mr. and Mrs. J. D. Wightman beg to express their thanks for the kindness shown them by their many friends during the illness and death of their little daughter.

The sunset of last night was one of the finest that has been witnessed in Nelson for a long time past and there were quite a large number of citizens remarking upon the peculiar beauty of the western sky.

L. H. Moffatt of Rossland spent yesterday in the city looking after some mining business. Mr. Moffatt says that a great change has come over the Golden City for the better. The known satisfactory developments at the lower depths of the Le Roi and War Eagle and the discovery made at the Blue Bird on the south belt all tend to brighten up the situation considerably and a good summer is undoubtedly in store for Rossland.

G. Davis of Fruitvale was in the city yesterday. He says the settlement is making rapid progress. Asked as to what the settlers were doing for their first crop, Mr. Davis replied that the attention of Fruitvale would probably be paid chiefly to vegetables, especially potatoes which are being imported, fruit farmers, as a rule, paying too little attention to the needs of the market in this respect.

The hard working collecting committee of the publicity bureau were around again yesterday and did some good work for the institution. J. M. Lay declares the idea of continuing the advertising of the city was everywhere warmly endorsed.

A good attendance is particularly requested at the season's organization meeting of the Nelson United Football club which is to be held at the old court house at 8 o'clock this evening. All who are interested in football are invited to attend.

The first social event after Lent will be the Oddfellows' ball, to be given in the Roller rink the evening of the 20th inst. Easter Monday. All arrangements are now completed and the event promises to be a pleasant one.

Many fruit trees are being planted all over the city. Roy C. Brock, secretary of the Fruit Growers' association points out that there would be a distinct advantage to the real estate owners, especially to those who have lots or acreage in the outskirts of the city, if these were cleared and put out in fruit trees. The fact would not only bring attention to the city and so serve to sell the lots or acreage vacant, but would also bring in an income on property on which just now only taxes were being paid.

If you want any building or repair work, Phone A172 and estimates on contracts or jobbing will be cheerfully furnished by McDonald and Williams. Shop, 711 Vernon St., near Exhibition building. P. O. Box, 367. 271—t.f.

Will Buy a Piano

Foremost among pianos will be found the Mason & Risch. The Mason & Risch is preferred on account of its sweet and well-sustaining tone.

With singers it has more rapidly gained prestige than any other piano on the market.

THE MASON & RISCH WILL ALWAYS BE FOUND HOUSED IN HANDSOME CASES—ATTRACTIVE BECAUSE OF THEIR VERY SIMPLE ELEGANCE.

We have displayed on our floors a recent shipment from the Mason & Risch factory. Every instrument is a marvel of piano construction as well as a tribute to the craft of the cabinet maker.

The action of the Mason & Risch piano is easy and responsive and we invite you to compare it with that of any piano made.

Easy Payments

Our method of easy payments is an acceptable one. By it you may secure any piano in our store by making a small cash payment and then liquidating the balance in small monthly amounts, scarcely exceeding rental.

If you cannot call at our warerooms send for booklet.

Synopsis of Canadian Homestead Regulation

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any persons who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is ituate. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

1. At least six months' reidence upon and cultivation of the land in each year for three years.

2. If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

3. If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

COAL—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1 per acre. Not more than 2560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

NOTICE OF TRANSFER OF LICENSE

Notice is hereby given that I intend to apply to the Board of License Commissioners for the City of Nelson at their next meeting held thirty days after date hereof, for a transfer of the retail license now held by me for the Strathcona hotel, situate on Lots 8, 9, 10, 11, 12, in Block 13, Nelson, B.C., to the Strathcona Hotel Company.

J. C. BONNEAU,
Per Atty. Jerry Bonneau.
Dated this 11th day of March A.D., 1908.

An Improved Kootenay Fruit Farm

ONE OF THE OLDEST AND MOST HIGHLY IMPROVED TO BE FOUND IN THIS DISTRICT

We have just had placed under our control for immediate sale the well known "Manhart Farm," situated on Kootenay River at Riverview, 18 miles west of the city of Nelson. This farm consists of 73 1-3 acres, the larger percentage of which is fruit land of the finest quality, capable of producing fine, heavy crops of all kinds of fruits and vegetables. The farm has numerous natural advantages, which make it a very desirable property. It has one mile of stylish frontage on Kootenay River; and one mile of frontage on the C. P. R. right-of-way; the station and post office at Riverview are only 100 yards distant from the dwelling house. Daily mail, passenger and freight connection with Nelson and all other points. The river frontage on this place controls to a certain extent some of the best Rainbow trout pools to be found in Kootenay River.

Eighteen acres of land cleared and planted as follows: 300 nine-year-old apple trees comprising good standard varieties, and all bearing well now; 250 younger trees just beginning to bear and comrpising different standard varieties of plums' cherries, pears and apples. These younger trees ought to produce a good crop of fruit the coming season; 1 1-2 acres of strawberry plants; this is the second season for these plants and with proper attention their crop this summer should be a heavy one. Frame dwelling house, almost new, with lean-to-kitchen; new frame barn, built last fall; chicken-house and runs.

PRICE $6000.00. Terms $2000.00 cash, the balance arranged.

Our firm knows this farm thoroughly, having been over it on several occasion: we consider it excellent value at the price here quoted. It has long been considered one of the best farms in this district and its location is all that could be desired.

With its daily passenger, freight and mail service, its close proximity to the station, its owner can ship promptly to all outside markets any products at a minimum expense.

We consider the place is being offered for at least $2500.00 under its real value.

Thorough inspection given to all prospective purchasers. Any further information required will be promptly furnished.

FOR OLD AGE PENSIONS

REPORT OF SPECIAL COMMISSION IN NOVA SCOTIA

PROPOSE FORMATION OF A PERMANENT PENSION BOARD

The commission appointed under the provisions of the act passed by the Nova Scotia legislature in 1907, entitled "An Act respecting old age pensions and miners' relief societies," for the pupose of examining into and reporting upon the feasibility of adopting some scheme of provding old age pensions for workmen, and in particular for such workmen as have by themselves or in conjunction with their employers, established benefit and relief societies and of *examining and reporting upon the organization* and administraton of existing miners' relief societies, submitted its report under date of Feb. 7, 1908. The commission held meetings at various points throughout the province over a period of four months, beginning in September, 1907, and a considerable amount of information was obtained by means of correspondence.

The matters submitted to the commission fell under the following heads:

1. The feasibility of adopting some plan providing old age pensions for workmen.
2. And particularly for such workmen as have either by themselves or in conjunction with their employers established benefit and relief societies.
3. The organization and administration of relief societies formed under the provisions of Chapter 23, Revised Statutes.

The commission found that a general scheme for old age pensions was not now feasible in Nova Scotia, or likely to be so in the near future. The fact that the number of aged men per thousand is very high in Nova Scotia, higher indeed than in any other of the provinces of the dominion, and that the financial ability of the province is limited, were put forward as the basis of the commission's opinion in this connection.

The commssioners are unanimously of the opinion that were it not for the present relief societies and the local conditions, which have grown up around them, the ideal system *would be to organize one society of all* the colliery workers of Nova Scotia providing the benefits of the present societies and adding thereto total disability and old age pension features. There are however, many difficulties in the way, apart from *local conditions and the commission recommend*, if a total disability and pension scheme is adopted, that however its local administration is worked out, its funds be kept separate and distinct from the present relief funds. It considers that no extended argument is necessary to justify the adoption of some scheme in the province whereby men who have been totally disabled in the coal mines or have reached old age with *its consequent inability to earn a livelihood*, should share in the benefit of a fund to which they have been the main contributors The report adds that the government may well justify itself in making a contribution to this scheme based to some extent on the *portion paid by the men themselves*, the coal mines being the greatest provincial asset. With regard to the most practical means of establishing disability and pension fund the commission is of the opinion that Chapter 23 of the Revsed Statutes, should be recast and that a permanent board, to be called the Pension Board, should be formed which should have wide powers of framing regulations for the organization and administration of the scheme, the same to be subject to the approval of the governor in council.

The report of the commission sets forth the results of an extended examination into the organization and administration of existing relief societies. There are at *present in Nova Scotia 16 of these societies.* Several anomalies in administration are pointed out in the report. The chief weakness of the societies is stated to be their entire lack of cooperation. It is recommended in this connection that the colliery workers *of Nova Scotia, some 12,000 in number* should be organized in one large society with local branches and that the government take over the care and management of the funds of the several societies in excess of $1000. The creation of an emergency or disaster fund was also *recommended*. A draft bill is submitted to provide for the establishment of the Nova Scotia Colliery Workers' Provident society in accordance with the above findings.

SAFE BREAKERS CAUGHT

FORMER NELSON RESIDENTS ARE ROBBED

THE LIBERALS AND CONSERVATIVES UNITE FOR PURITY

Calgary, April 7—Last night at 11:15 detective Hardie of the Calgary police force, with the assistance of P. C. Campbell, arrested Jasper E. Curtis and Charles Mason in the rotunda of the Yale hotel as suspects in connection with the *safe cracking* in the Alberta steam laundry which occurred in the early hours of Monday morning.

The laundry is owned by J. W. Templeton and Dave Porter, formerly of Nelson, B.C., and when Mr. Templeton reached the office about 6 a.m. on Monday he found the safe lying in pieces all over the floor and a part of the office a wreck The police were notified and made a careful search. It did not take them long to decide that the perpetrators were experts at the job. They had filled every crack in the safe with soap and had drilled a small hole, put in the explosive and ignited it. Missing from the safe was $200 in cash and some small checks. When searched at the police station Curtis had $100 in his pocket, while $100 was found upon Mason. Curtis claims to come from Chicago, Mason claims he has only been in town one day and came from Winnipeg. So far the police have not discovered their baggage but when it is found and gone over there may be some developments in the case.

At a city council meeting last night a motion was passed accepting Andrew Car*negie's offer for the donation of* $50,000 for a library and the city will purchase the site for the same subject to a bylaw to be passed by the rate payers.

The purity league of the local conservatives and the liberal purity league, who are *endeavoring to arrive at a complete under*standing that a thoroughly pure fight shall be fought at the forthcoming elections here, met last night.

FAMOUS PROFESSOR

New York, April 7—Dr. Robert Koch, professor of the Berlin university, the eminent bacteriologist, who achieved world fame through the discovery of the tuberculosis germ, arrived here today on the steamer Kron Prinz Wilhelm. After more than 30 years of arduous and continuous scientific labor, he has decided to take a year's rest in visiting countries thus far not known to him. His coming to America has created much interest in the scientific circles of this country and many societies have elaborate plans for his entertainment. The first will be a banquet given by the German medical society next Saturday evening.

DEPUTY SHERIFF KILLED

Trinidad, Col., April 7—Deputy sheriff T. Selby was shot and instantly killed last night by an unknown man who sprang upon him as he was nearing his home, fired two shots at short range, jumped into a nearby rig and drove rapidly out of town. A posse was quickly formed and is now in pursuit.

PEKIN OPIUM BOARD

Pekin, April 7—The throne today issued an edict appropriating 90,000 tael for the erection of an opium board at Pekin. It shall be the duty of the board to examine all metropolitan officers in the matter of the use of the drug, to certify all men who do not smoke opium and to arraign all who do indulge in the practice.

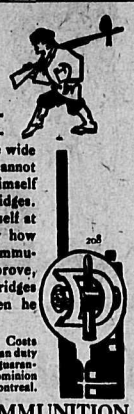
A quick shot



A man who prepares to go hunting expects to find the game wide awake and alert. He cannot afford to be asleep himself when selecting cartridges.

He can inform himself at the store and know how superior Dominion ammunition is. A trial will prove, too, that our cartridges are never asleep when he pulls the trigger.

For all makes of arms. Costs one-third to one-fifth less than duty paying ammunition. Our guarantee puts all risk on the Dominion Cartridge Co., Ltd., Montreal.

DOMINION AMMUNITION

BRITISH POINT OF VIEW

LONDON FINANCIER, REVIEWS CANADIAN BUDGET

PAST YEAR'S RECORD AN ENTIRELY SATISFACTORY ONE

The presentation of his annual budget statement afforded the Canadian minister of finance a convenient opportunity for taking a general survey of the financial and commercial progress of the dominion during the past year. The fiscal year which closes on the 31st inst. has been one of some difficulty, and it should, therefore, be a source of much gratification that Canada has surmounted so well the trials she was called upon to face in common with the rest of the world. Mr. Fielding can point with pride to the fact that no country has withstood the recent world-wide stringency better than Canada. That result was largely due, no doubt, to the stability of business enterprises in the dominion, but it was also attributable to a large extent to the confidence reposed by the people in the banking institutions of the county. The hoarding which took place in the United States was unknown in Canada. Everywhere was displayed what Mr. Fielding properly describes as justifiable confidence in the Canadian banking institutions. The curtailment of credit caused some embarrassments, but that anything in the nature of a serious crisis was avoided is proved by the results which attended the offer of government assistance. In order to help banks which might wish to handle business, the government offered to assist them with loans not exceeding in all $10,000,000. But the banks founds it necessary to use the money only to the extent of $5,250,000. All but $1,000,000 of the sums so borrowed have been repaid, and that is expected to come back very soon. In this connection is is interesting to note that prudent arrangements are being made in advance to afford assistance to the Canadian money market in the event of stringency recurring in the coming autumn. It is proposed to allow the Canadian banks, when the necessity arises, to increase their circulation by 15 per cent of their combined reserve and paid up capital. The latter now amount to £32,825,000 ,and the additional 15 per cent of circulation represents £4,923,750. This extra note issue will, of course, be temporary, and, in order to prevent a redundant circulation, the government will impose a tax of 5 per cent on the extra issue during its currency.

The past year's record is one with which the Canadian government has every reason to be satisfied. The gross revenue is expected to reach $95,500,000, while the ordinary expenditure chargeable to the consolidated fund is placed at $77,500,000. There is thus a surplus of $19,000,000 over ordinary expenditure. On the other hand, the capital charges of the year amounted to $33,000,000, of which $17,750,000 was for the Transcontinental railway. Allowing for the surplus on revenue account and other items, the net addition to the dominion's debt is only $12,000,000, a remarkably small increase having regard to the important public enterprises upon which the government is engaged. Though the total indebtedness of the country has been increased, the net debt per head of the population has been reduced by 7s 3d to £8 16s. In this respect Canada is very fortunate, her indebtedness being extremely light and her resources, both actual and potential, much greater than those of other colonies whose financial policy has been much less prudent and thrifty. At present the country is committed to comparatively heavy expenditure on the Transcontinental railway, but that is an enterprise which should yield a remunerative return and contribute largely to the general prosperity of the dominion. While the government proposes to lay aside for the moment new enterprises calling for large outlays, it is determined to push along vigorously with the construction of the Transcontinental railway. The expenditure on this project to the end of the present year is esimated to reach $26,000,000. The Grand Trunk Pacific company is performing its share of the work with equal vigor, and it is satisfactory to hear that, thanks to the settlement of the dispute with the British Columbia government regarding the townsite of Prince Rupert, tenders are to be called for immediately for the construction of an additional 200 miles of the mountain section, so that one-half of the Transcontinental line will be under contract this year. The completion of this enterprise has not been delayed in any way by recent events, and what is really a great national project will be providing at the earliest opportunity a powerful stimulus to Canadian development.

The fiscal outlook for the current year is on the whole full of promise. A falling off in revenue is anticipated in the earlier months, but this deficiency, Mr. Fielding think,s will be made up towards the end of the year. The great hope of the immediate future is an abundant harvest, which would do more to restore confidence and stimulate progress than anything else. The shortness of last year's crops throughout the world was largely, if not wholly, responsible for the reaction in trade which ensued. The prosperity of the world depends to a greater extent than most people realize on abundant crops, and there is no doubt whatever that bumper harvests next autumn would be the signal for a general revival in trade throughout the world. In Canada abundant crops are specially desirable, for the country's progress must depend chiefly on its agricultural prosperity, which is the root and source of all kinds of industrial development. The minister of finance is of opinion that good crops would completely restore confidence throughout the dominion. Business may have received a check through last year's partial failure of the harvest, but the general feeling of commercial men is still one of hopeful confidence, which only the prospects of a satisfactory harvest are needed to emphasize. Given good crops, there will be no difficulty in moving them, for not only have railway facilities been greatly extended, but prudent provision has been made in advance for meeting the monetary need of the situation. The people and the government alike can at least afford to face the future with hope and confidence, for the country's general business is established on sound foundations, and its financial institutions have withstood the test imposed upon them last year with conspicuous success. It is, in short, as the finance minister declared, a time for courage as well as caution.

ALDERMANIC ELECTIONS

Chicago, April 7—In the aldermanic elections today the republicans made a net gain of ten. The new council will stand 44 republicans and 26 democrats. The make up of the present council is 35 democrats, one independent democrat and 44 republicans.

The Secret of Secrets

In Store Advertising

One of the wisest men wrote:
"Suffer any person to tell us his story, morning and evening, for but a twelve-month, and he will become our master!"

In the above sentence we have, in a nutshell, the innermost secret of successful advertising—frequency, and persistency, and unvarying continuity in the telling of the store or enterprise. There are other things to be said of successful advertising, but in the above quotation is found the real philosophy, the real secret,—

The Heart of the Whole Matter

When you wish success in your advertising campaign use

The Daily News

the paper with the largest circulation, and the best telegraphic and news service in the Kootenays.

NELSON NEWS OF THE DAY

Born, at the Home hospital on April 7, to the wife of J. A. Stobo, Nakusp, a daughter

The general public is cordially invited to the football meeting this evening announced elsewhere in this issue.

The dance at the Alice rink last night was well attended and a good time was had by those present.

There were no record scores made at the bowling alley yesterday but Messrs. Starr, Brown and Swan each succeeded in scoring more than 200.

There will be a football match, strictly amateur, between the ranchers and the city of Nelson which will be played off next Saturday afternoon.

A good deal of favorable comment has been heard around the city about the likelihood of the resumption of work at the Silver King mine and the prospect of the paying off of the present liabilities.

Constable Wilson of Creston came in last night, bringing with him an old Cariboo miner named Atcheson, who was sick and destitute and who has bee taken to the Kootenay Lake general hospital for treatment.

The Y.P.S. of the Methodist church was treated to a deeply interesting and instructive address on William Pitt, earl of Chatham, last evening by C.P.R. superintendent D. C. Coleman. There was a large attendance and the chair was taken by Dr. G. A. B Hall, M.L.A.

More than one Nelson man is interested in the possibilities of 10-Mile creek on Slocan lake, as recently shown up by the extraordinary shipments of the Westmont mine. There are more than a few properties in this district several of which are owned in this city. Just as soon as the snow clears away men will be sent from the city to open up claims already located.

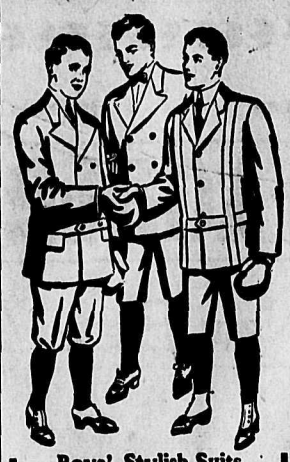
The old Macedonian cry "Come over and help us," has been sent up time and again from the K. of P. of ancient Ymir, to their bzrethren in this city. The local knights have decided to respond and on Monday night next at 6:30 a special train will take the visitors down the line. A good time is expected and the visitors will return here in the early morning on their own special.

Word reached the city yesterday from San Francisco of the death in that city last week, from pneumonia of Edward Whittet, formerly of this city. The deceased, who was a son of Mr. and Mrs. Whittet, Robson street, was about 24 years of age and at one time was employed on the C.P.R. boats here. He left Nelson about two years ago. In addition to his parents, three brothers and a sister, Mrs. George Neelands, survive the deceased.

From the preparations that are being made it is likely that the celebration of St. George's day, which is being undertaken this year for the third successive occasion by the Sons of England lodge, will be a record breaker. The dinner is to be held on April 23 at the Strathcona hotel. There has been an excellent program prepared and from the numbers who have already promised their adhesion to the movement there should be an extremely interesting evening.

As an instance of what is being done daily in The Daily News printing factory it may be mentioned that yesterday the respondent's supreme court of Canada factum in the famous extra-lateral rights case of Star v. White, was completed for S. S. Taylor, K.C., counsel for the Star M. and M company Mr. Taylor's factum consisted of a book of 206, 8 1-2 by 11 inch, pages, fifty copies of which were printed, bound and delivered within six days from the receipt of the first sheet of copy In addition to turning out an 8-page daily newspaper and printing Mr. Taylor's factum, The Daily News printing factory handled the largest amount of small commercial printing of any shop between Calgary and the coast. Incidentally it may be mentioned that the total payroll of The Daily News last year exceeded $20,000 and this year that amount will be increased considerably. That is a pretty good record for a home industry is it not? The moral is obvious. Support a home industry that itself supports all other home industries and invariably fights for their best interests.

The board of trade at its regular meeting tomorrow night will have to take up the question of the publicity bureau which, on the word of the president, has been turned over to the board of trade for their further guidance. There is little doubt but that the board of trade will as a body endorse the recommendation of Mr. Starkey, but the methods and the means of advertising will have to be gone into pretty thoroughly before any workable arrangement can be arrived at. There is a debt upon the old 20,000 club which will have to be cleared off. To this end a collecting committee is doing good work and by tomorrow night a good report will probably be made to the board in this respect. The question of advertising, the manner in which it should be done and the procuring of the means to pay for that advertising is really the question which will have to be considered by the board. To this with limited funds, now that the city has found itself unable to contribute, is the problem which the members of the board will have to face.



Boys' Stylish Suits
Lion Brand, double seats, knees and elbows. Also Progress Brand. Good assortment just arrived. Norfolk two-piece, Norfolk 4 in 1, or three-piece suits. Nice patterns, stylish at right prices.

J. H. WALLACE
MEN'S OUTFITTER

$1200—Eighteen acres at Slocan Junction; good soil; good settlement. Three trains each way. Easy clearing. Easy terms.

$75 per acre—40-acre blocks at Procter Narrows; lake frontage of 650 feet each; easy clearing.

$25 per acre—195 acres facing on Crawford bay; half a mile of water front; adjoining an old established orchard; good cordwood and tie timber on the upper branch; plenty of water. Easy terms.

$25 per acre—158 acres on Kootenay Lake close to the Blue Bell mine. The clearing on the west side is light and on the east is a valuable supply of cordwood and tie timber. The soil is good.

IT'S ONE THING TO
THINK
BUT ANOTHER THING TO
KNOW

Some people form impressions easily—too readily, sometimes, for their own good. This is often the case in estimating the value of an advertising medium—a very important matter for an advertiser to do.

Here Are Some Results:

A Nakusp man writes:
"In a recent issue of The Daily News, an ad. appeared re eggs for hatching ,the only address was a Phone No. Kindly place enclosed order with proper parties."

A Slocan man writes:
"Kindly cancel my advertisement as it has had the desired result."

The Daily News

CLASSIFIED ADVTS. ARE "SURE WINNERS." SPEND YOUR MONEY WHERE IT WILL BRING THE BEST RESULTS.

Easter Gifts

We are showing a most beautiful and varied stock of JEWELRY and NOVELTIES chosen expressly for the EASTER SEASON. Among them you will find BOOK MARKS, PRAYER BOOKS, BIRTHDAY BOOKS,

Why have poor hubby split wood every evening? Buy fine kindling wood in bundles ready for fire at Shingle mill; 70 bundles to load for $4.50 delivered. 296-4

Better reserve a seat for the Tennessee Jubilee Singers at the Methodist church on Thursday evening. There will be a crowd. Tickets at Rutherford's. 298-2

E. O. Windsor, the well known expert piano tuner is in town. Leave orders at the Canada Drug and Book store. 282-tf

Reserved seat tickets for the Tennessee Jubilee Singers concert at the Methodist church Thursday evening can be secured at Rutherfords. 298-2

BOWLING TOURNAMENT

The standing of the different captains in the bowling tournament at the Alice rink up to last night is as follows. The total number of games to be played by each is 33, therefore the team in the best standing is that captained by Thomas, the second being Boyer:

	Won	Lost
Wells	6	12
Moe	12	15
Sharp	10	17
Falconer	17	13
Ouimette	11	19
Boyer	19	11
Williamson	18	15
Brown	16	11
Thomas	22	8
Campbell	16	17
Patrick	11	13
Dangerfield	15	18

Remember the Tennessee Jubilee Singers at the Methodist church on Thursday evening. 298-2

CHAMBERLAIN'S HAS THE PREFERENCE

Mr. Fred C. Hanrahan, a prominent druggist of Portsmouth, Va., says: "For the past six years I have sold and recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is a great remedy and one of the greatest patent medicines on the market. I handle some others for the same purposes that pay me a larger profit, but this remedy is so sure to effect a cure, and my customers so certain to appreciate my recommending it, that I give it the preferences." For sale by all druggists and dealers.

TO RETAIN SALOONS

Lincoln, April 7—Lincoln today voted to retain saloons by a majority of about 300.

The concert to be given by the Tennessee Jubilee Singers at the Methodist church on Thursday evening will be a treat. The singers have a continental reputation as darky melodists. 298-2

Letters of Queen Victoria
In 3 Volumes $16.50

We have a few sets of this really great work still on hand. No more interesting and valuable collection of letters has ever been compiled. They are simply invaluable to the student of modern history. The work is essentially one for British citizens and British subjects and should find an honored place in the library of every lover of the great British Empire, over which Queen Victoria reigned so long and so worthily.

A complete set will be forwarded to any address, post free, on receipt of the price stated above, $16.50.
