Smelters.

The Rossland Miner of the 11th inst., touching upon the subject of the possibility of a smelter being erected at Grand Forks says:

"Grand Forks has commenced to experience the lot that falls to all towns of great promise. The subsidy fiend has invaded the community and is asking for all that there is in sight. The bonus desired in the present case is a valuable concession of ground for a smelter site and certain important water rights on Kettle river, near the town. The usual mysterious syndicate with untold millions to invest is behind the scheme.

"The future of Grand Forks is too secure to call for the sacrifice of valuable property for such purposes. Besides, it is time enough for Grand Forks to induce smelter men who mean business to establish works there when fuel and other necessary material for the treatment of ores can be economically obtained. In their deliberations of the matter of the erection of a smelter it would be well for the good people of Grand Forks to bear in mind this important fact: If the Canadian Pacific railway ever controls the carrying trade of the Boundary country, that road will do its utmost to prevent the operation of smelters there as it has already done in Kootenay. All the Big Corporation cares about is the longest haul possible on the ore, and the unfortunate mine owner has to pay for it."

Analyzed, the utterances of the Miner will be found to be very misleading and tinged with self interest.

The parties who have "invaded" the Grand Forks district are certainly seeking a concession in the shape of a smelter site, and certain water rights, but to consider that these are extremely valuable requires a certain stretch of the imagination. As far as the concession of ground is concerned the estimate would not be wide of the mark if it was put at $500 an acre, and no doubt 5 or 10 acres would be sufficient for all purposes. It is easy to be seen what that would amount to. The water right would be a more valuable concession, but in this again, no doubt if the people of Grand Forks desire a smelter, the matter can be adjusted so that all parties concerned can obtain all the water they may need for years to come, without anyone being placed at a disadvantage.

Much as the Miner shews its hand in its opening remarks, it may be said only to disclose it thoroughly when it refers to the C. P. R. and the treatment that that corporation will meet out to the people of Boundary Creek, should they ever build a line of railway throuh the district, for it says that the C. P. R, would certainly discourage the buiding of smelters here for the sake of hauling the ore of the mines long distances.

With regard to this aspect of the question we would like to know, (and perhaps the Miner may be able to inform us), what would be the difference in the treatment, should the promoters of the Columbia and Western enter this territory to the exclusion of the C. P. R. Would the erection of smelters be encouraged? Or would we be told that at a certain point on the Columbia river only could the ores of the district be profitably treated. Which would it be?

A New Regulation.

The British Columbia Gazette of the 4th inst., contains the following order sanctioned by the Lieutenant-Governor in Council providing for the repeal of certain sections of the Placer Mining and Mineral Acts of (1891), (1895) and (1896) touching the question of forfeiture of property by lapse of free miners certificate, and substituting therefor the following regulation:—

"Any person or joint stock company, being the holder of any mining property, who may apply for relief against the forfeiture of his or its interest in such property by reason of his or its omission to obtain a new free miner's certificate on or before the day following the expiration of the lapsed certificate, shall, upon the production of an affidavit setting forth the circumstances of such omission, and full particulars of the property affected, together with the declaration of the Gold Commissioner or Mining Recorder for the division or divisions in which such property is situated, to the effect that no records adverse to the applicant's interest therein have been made by him during the time in which the said applicant was not in possession of a free miner's certificate in good standing, and, further, upon the payment to the minister of mines of a fee of $5, be entitled to receive the relief sought for; and the minister of mines may thereupon give instructions for the alteration of the date of the applicant's free miner's certificate so as to conform with the date of the expiration of the lapsed certificate and may also give instructions for such amendment to be made to the records affected as may be considered requisite."

For Deer Killing.

About twelve months ago the fact was noted in this paper that American Indians were following the practice of annually coming across the line into some portions of this district, and wantonly slaughtering deer. This slaughter was not only carried on for the purpose of obtaining a supply of food, but for another and less worthy purpose viz., to obtain the hides of the animals. These Indians came long distances for the purpose of engaging in the hunt, and so astute were they that it was with difficulty their presence in the province was discovered.

Deer carcases stripped of their hides, and left to rot on the hill sides, away back in the mountains, however, speak volumes, and this intelligence having been given to the local police, they determined to keep a sharp look out this fall and if possible intercept the marauders. Their vigilance was a few days ago rewarded. Word having been received that a big band of Indians was camped on Meyers creek, just across the line, Officer Gardom of Midway and a trusty scout, were detailed to patrol the district around Rock Creek. As a result on the 13th instant two Indians answering the names of Tom Wum and Paul were scooped in. These on the 15th were brought before Justices of the Peace Norris and Hind charged with killing game without a licence, being non-residents of the province; with exposing deer for sale without the head being on as required by provincial statute; and in the case of Tom Wum of carrying a concealed weapon. For each of these offences 30 days' imprisonment was inflicted, the sentences to run concurrently, and the magistrates through the interpreter also warned the culprits that their re-appearance before the court would be followed by a more severe punishment.

EDITORIAL NOTES.

WE are in receipt of a letter from Fairview. The writer has omitted to observe the rules relating to correspondence, therefore the same cannot be published.

In this issue the mining records for the Osoyoos division, are published for the first time. For the future we will endeavour to publish the records of the Osoyoos office regularly.

AN estimate recently made, shows that at present, mining operations are being carried on on more than a dozen different properties situated in what may be termed the Boundary Creek basin. This of course includes properties under bond. As a result the district enjoys a payroll of about 150 men, and as these receive on an average say $3 per day it will be seen that from $10,000 to $15,000 per month is being spent on development in wages alone. These figures to some will no doubt appear small, but when it is considered that the whole of this money is being expended on development, and is being sunk in the ground, a different aspect of the case is presented. Given shipping facilities and smelters within reach, some of the properties, individually, could in time employ the whole force mentioned above, but as these adjuncts to active mining operations are not now in existence, it is pleasing to note that without them so much is being done to prove the vast mineral resources of the district. Let the good work proceed for without doubt it provides the best assurance for the early construction of both railways and smelters.

JUDGING by the tenor of a letter addressed to the Greenwood City council by Post Office Inspector Fletcher, that gentleman seems to be laboring under the idea that the members of the Greenwood council are the arbiters of the whole population of this district. The question is put to the council as to whether certain changes which have been made in the mail service are agreeable to the people of Greenwood? Naturally, seeing that the changes have not materially affected the residents of that town, the council replied in the affirmative. Receiving this reply, Mr. Fletcher will no doubt nurse the idea that he has done his duty truly and well, although allowing the abrogation of the stipulations of a contract which specified that mails should be delivered at certain points in the district at certain stated times, thereby furnishing a service, which has been perfectly satisfactory, and to which the only addition that could be desired, was one which would provide for a daily instead of a tri-weekly mails. Mr. Fletcher's recent action presages a return to the chaotic service which preceded the tri-weekly one, therefore it would be well for him to pay a visit to the district and thoroughly adjust matters, instead of sitting at home writing letters to people, who are questioned how the change affects themselves, and themselves only.

FAIRVIEW NOTES.

(From our own Correspondent.)

The stamps at the Tin Horn mill started to drop on Saturday last. The music occasioned thereby is sweet to the ears of the people of this town, who are expecting great things from the mine, in the shape of, first gold bricks and second, big dividends. Undoubtedly the mill is a fine one, although an innovation in a way as it contains eight 2 stamp batteries, which have a triple discharge. It is claimed for the mill that it will do more work than an ordinary one of 20 stamps. The installation of this the first mill of its kind in the province will have the effect of proving this theory.

At the Smuggler mine things are running in a very satisfactory manner, as good progress is being made in the up-rise which is being driven to connect the tunnel with the old shaft.

The Joe Dandy people have quite a force of men at work on the Okanagan river, at the point at which they intend erecting their stamp mill. They are preparing the ground, making it ready for the laying of the foundation.

Mr. J. K. Firth, the gentleman who built the Firth wheel at the San Francisco Midwinter Fair, was in town a few days ago. He came in on business in connection with the Joshua Hendy Machine Works, the firm that supplied the stamp mill to the Tin Horn people. He left for home on Monday last.

The Hon. D. W. Higgins after coyly wooing fortune in our camp for the past week or two, left for Victoria on Monday's stage. Mr. Higgins carried away with him some valuable mental deductions, as to the ultimate success of the Tin Horn mine.

Mr. Neil Cochrane has recently been in camp. He was looking over properties with a view to investment for a big English company.

We are having beside our building boom, a regular era of religious revivalism. The Rev. Mr. Jameson is attending to our spiritual welfare. There is a talk of a church being erected.

I am sorry to report the death of J. Tissio, who after a few days sickness died of pneumonia. He was a plasterer, and was engaged on the Hoted Dier.

Dr. White, our local physician successfully amputated the leg above the knee of Mike Moon on Saturday last. A wagon laden with lumber ran over Moon's legs about two weeks ago, and although every effort was made to save the limb, mortification set in, and as a consequence the amputation.

MINING NOTES.

The customary notice has been gazetted by the Registrar of Joint Stock Companies of the licensing of the Fairview Gold Mining Company Ltd., as an extra provincial company authorised to carry on business in this province. The amount of the capital of the company is £100,000 divided into 100,000 shares of £1 each. The head office of the company is in London, England; the chief office in this province is at Vancouver; and the attorney for the company is Mr. John R. Mitchell,

The tunnel on the Great Hesper, in Smith's camp has lately been extended ten feet, making it 40 feet in length. This claim and the Hecla, which adjoins it, are situate about a mile west of Anaconda. They are owned by Messrs J. C. Haas and Jas. McNicol. The Great Hesper tunnel has been driven on a four foot quartz vein, occurring in a schistoze formation. The mineralized portion of the vein contains galena and iron and copper pyrites, and assays have given from $1 to $8 in gold, and from 7 to 40 ounces of silver.

Last Tuesday the work of driving a tunnel at a low level was commenced on the Anaconda, in Deadwood camp. This claim is one of a group of three bonded last July by Messrs Alfred Woodhouse and E. M. E. Munns, on behalf of the Recordia Syndicate, of London, England. There are now 14 men employed in prospecting the group. The tunnel now being driven will, at about 200 ft. in be under the surface outcroppings, and as some ore of excellent quality was obtained near the surface it is anticipated that a good body of ore will be cut in the tunnel at that depth.

Five Years for Horse-stealing.

The two horse-stealers Joe Pelletier, alias Cariboo Joe, and Wm. Little, whose raid upon horses running on the ranges near Kamloops was mentioned last week, have both been sentenced to five years' imprisonment in the Penitentiary, and have been taken to New Westminster to serve their sentences.

They elected to take Speedy Trial and Pelletier pleaded guilty but his companion's plea was not guilty, he stating that he was in Pelletier's employ and not aware the horses were stolen. The judge evidently did not believe this statement, for he treated both men alike in fixing the penalty for their wrong-doing.

Hodgson—Livingstone.

The Herts Advertiser and St. Albans Times, published at St. Albans, Hertfordshire, England, contains in its issue of October 30th, a full notice of the marriage of Mr. G. T. Hodgson, of Boundary Creek. The lists of names of guests who accepted invitations and of wedding presents are lengthy. The following is condensed from the two-column account referred to:

The spacious nave of the grand old Abbey at St. Albans was filled on Thursday afternoon, 28th inst. by an eager congregation to witness a marriage of great interest, not only to residents in the locality in which the relatives of the bride and bridegroom reside, but to a far wider circle, inasmuch as the bride is a direct descendant—a grand-daughter—of the great African explorer, Dr. David Livingstone.

The bridegroom was Mr. Gerald Augustus Tylston Hodgson, third son of Mr. Henry Tylston Hodgson, of Welcome, Harpenden, and the bride was Miss Kate Agnes Livingstone, the only child of the late Dr. William Oswell Livingsotne, M. B., C. M.

As the guests arrived the organist played the "War March of the Priests," from "Athalie." Shortly before half-past two, the bridegroom arrived, accompanied by his brother, Mr. Victor Tylston Hodgson, who acted as best man, and the surpliced choir proceeded to the west door to await the appearance of the bride. Punctually at half past two, she arrived, and all eyes were turned to the west door to witness her entrance. She was charmingly attired in a gown of white satin, the bodice of which was trimmed with white chiffon and Brussels point lace and pearl embroidery. Her long tulle veil was fastened with a coronet of orange blossoms. Her ornaments were a pearl and diamond bracelet, the gift of the bridegroom, a diamond bracelet, the gift of her father's two oldest friends, a diamond crescent brooch, and a string of pearls around her neck. Her bouquet was composed of white roses, hyacinths, lilies, chrysanthemums and other choice blooms in foliage. She was attended by four bridesmaids who carried choice bouquets of white chrysanthemums, the gifts of the bride groom, who also presented each of them with a novel brooch, exceedingly apropos of the bride's christian name—Kitty. Each brooch consisted of a plain bar of gold, upon which was a minature kitten, playing with a tiny pearl ball.

The bride was escorted by her uncle, Mr. Frank Wilson, and as she proceeded slowly down the aisle the choir led the singing of the familiar nuptial hymn, "The Voice that breathed o'er Eden." She was met at the chancel by the Ven. Archdeacon Lawrance, by whom the ceremony was performed, Mrs. Livingstone herself giving away her daughter. As the altar was approached during the ceremony by the bride and bridegroom, the 128th Psalm was chanted. An impressive address was afterwards delivered by Ven. Archdeacon Lawrance. The service closed with the hymn "O perfect love", and the bridal party left the church to the strains of the Wedding March, and the joyous ringing of the bells.

During the afternoon a reception, which was numerously attended, was held at the Town Hall, where the large collection of costly wedding presents was on view. Shortly after four o'clock the bride and bridegroom took leave of their many friends, departing, amidst hearty congratulations and good wishes, by train for London, en route for Paris, Switzerland and the Riviera. The handsome sables the bride wore with her travelling dress were the gift of the bridgroom.

It may be added to the foregoing extracts that Mr. and Mrs. Hodgson are expected to reach Midway, where they purpose making their home, next spring, probably about the month of May.

IN THE MATTER OF THE "PLACER MINING ACT (1891) AMENDMENT ACT, 1895" (SECTION 13), AND OF THE "MINERAL ACT, 1896" (SECTION 161).

NOTICE is hereby given that His Honor the Lieutenant-Governor in *Council has been pleased to repeal the* regulation of the 11th day of December, 1896, with regard to relief against forfeiture owing to the lapse of a Free Miner's Certificate heretofore in force, and to make the following regulation in respect thereof, such repeal and new regulation to take effect on the **15th day of November 1897:**

Any person or joint stock company, being the holder of any mining property, desiring relief against the forfeiture of his or its interest in such property by reason of an omission to *obtain a new free miner's certificate on* or before the day following the expiration of the certificate, shall observe the following conditions:

1. Forthwith upon ascertaining the expiry of his certificate obtain a new one:

2. At the time of obtaining such new certificate file with the Recorder issuing the same, and post in the Record Office, a notice of his intention to apply for relief:

3. Within 30 days from such filing transmit to the Minister of Mines the following documents and fee:—

(a.) A statutory declaration setting forth the circumstances of such omission, with full particulars of the mining properties held by the applicant which would be affected with forfeiture:

(b.) A certificate under the hand of the Gold Commissioner or Mining Recorder of each division wherein any of *the said properties is situate, that notice* has been posted, and that no records (other than those mentioned in the said certificate, if any) adverse to the applicant's interest in the said properties have been made by him during the time in which the said applicant was not in possession of a valid existing free miner's certificate:

(c.) A declaration by the applicant, or his agent duly cognizant of the location on the ground of the applicant's properties, and the other facts affecting the case, that he has searched the records of claims recorded *during* the interval the applicant was in default, and that such claims do not (except as may be therein stated) conflict with or overlap any of the properties of the applicant:

(d.) The sum of five dollars.

The Minister of Mines may thereupon give instructions for the alteration of *the date of the applicant's free miner's* certificate so as to conform with the date of the expiration of the lapsed certificate, and may also give instructions for such amendment to be made to the records affected as may be considered requisite, and any such relief may be partial as to properties in respect whereof relief is given, or so as to *save* adverse rights acquired during default of the applicant.

JAMES BAKER,
PROVINCIAL SECRETARY AND MINISTER OF MINES.

LOCAL AND DISTRICT.

Mr. C. J. Lundy has recovered from the temporary indisposition which early last week necessitated his keeping indoors for a few days.

Mr. J. E. Crane of New Westminster, representative of the Travellers Insurance company, of Hartford, Conn., is a visitor just now in this district.

Thursday next, 25th inst, will be Thanksgiving day. This year the day will he observed on the same date in both Canada and the United States.

Mr. C. Æ. Shaw, P. L. S., went over to Fairview last week in connection with the survey of some lands over there in which Messrs. John Douglas and Robt. Wood are interested.

A letter received last week from Rev. H. Irwin, of Rossland, intimates that the rev. gentleman expects to reach Boundary creek next Wednesday or Thursday, on his periodical visit.

Mr. E. M. E Munns. resident representative of the Recordia syndicate, of London, England, has been on the sick list at his camp on the Anaconda group in Deadwood, since his recent return from Rossland.

Mr. F. McGowen, of Vernon, in his capacity of Judge of the Court of Revision and Appeal is at present sojourning in our midst, having come over from Osoyoos on Saturday last in company with Constable Deans.

Dr. S. H. Manly, brother to Mayor Manly, of Grand Forks, is reported to be about to open a drug store and hospital at Eureka. Wash., where he will also practise his medical profession, Dr. Manly practised in Stevens county several years ago, but more recently has been in California.

The Osoyoos Mining Division of Yale Electoral District has been created a Health District under the provisions of the "Health Act, 1893", and Mr. Chas. A. R. Lambly. Gold Commissioner at Osoyoos, has been appointed to be the Local Board of Health for this new health district.

The supper and ball which was to be given on the evening of the 25th under the auspices of the Midway Athletic Club has been postponed sine die. It was found that the event would conflict with events of a like nature which had previously been arranged for at other points in the district.

Mr. C. W. Tynan has retired from the firm of Nelson and Tynan, proprietors of the Pioneer hotel Greenwood, Mr. J. W. Nelson having bought out his interest. Mr. and Mrs. Tynan and children, and Mrs. Tynan's two sisters and mother will leave Greenwood tomorrow for Spokane. where they purpose residing during the winter.

The road to Summit camp was used right through to the B. C. claim last week, Messrs Rendell & Co's. team having for the first time taken in supplies without having to use pack horses. Now that it has been made the road will be kept open all through the winter, as the numerous requirements of Summit camp are supplied by Boundary creek merchants.

A very welcome Chinook wind came last Wednesday night and continued to blow throughout the greater part of Thursday. As it was accompanied by a gentle rain, the four or five inches of snow lying on the ground quickly melted so that the appearance of the landscape was quite transformed within twenty four hours, and the change in it was greatly appreciated.

Almost immediately the enterprising firm of W. T. Shatford & Co. will start the erection of another large store at Fairview. The building will be two storys, of a size 35x70 feet. Large warehouses and a big cellar will also be built, and these will be filled to overflowing with general merchandise of every description. The firm pronounce that the appartments of the new establishment shall equal those to be found in the best business houses in British Columbia.

The news published in last week's ADVANCE of the reported death of Mrs. Spinks wife of His Honor Judge Spinks, has unfortunately been confirmed. The cause of the death, which occurred at the residence of Mr. F. J. Fulton, Kamloops, on Wednesday 10th inst., was rheumatic fever. The funeral took place the following day. The late Mrs. Spinks was in her 38th year. She was a native of Lancashire, England.

The position of Police Magistrate for the City of Greenwood has been offered by the provincial government to Mr. I. H. Hallett, barrister, and that of Police Commissioner to Mr. Geo. R Naden, manager of the Bealey Investment and Trust Co. Both gentlemen have the matter under consideration. As both are highly esteemed and are in other ways well-suited to the respective positions, it is generally hoped that they will accept the proffered appointments.

Powers and Lequime's saw mill on Boundary creek, near Midway, is now running regularly, cutting lumber to supply orders. A dam has been put across the creek and logs are being cut and hauled from the neighboring hillsides. The boarding and bunk house is now being erected and things generally at the mill are being put into good shape for the winter's work.

It has been ascertained that the statements which have been published to the effect that the City of Greenwood boat is now running regularly between Penticton and Okanagan Falls, are incorrect. The boat has been making occasional trips but only at irregular intervals. There are two obstacles to her running regularly and in quick time—one is the water in the river is too shallow for her to do so, and the other is her length is too great to admit of her getting around the sharp bends in the river without much loss of time.

The charge laid against two men resident near Midway of shooting with intent, was dismissed last Wednesday, the evidence being insufficient to sustain the charge. The prosecution served a good purpose though, in that it showed that the police are on the alert to have such cases thoroughly investigated, so as to secure effective punishment should an offence against the law be proved. Further it was a warning to all parties concerned in the affair not to be too ready with their guns except where they may legitimately use them for sporting purposes.

Mr. W. R. Stockbridge, deputy customs collector for Puget Sound with headquarters at Everett, says the Reservation Record, has been appointed special customs inspector for Nelson pending the action of the department in selecting a man for that position in case the department decides to appoint an officer at Nelson. Mr. Stockbridge was sent to Nelson by Customs Collector F. D. Heustis of Port Townsend in order that the payment of duty on lumber, which it is necessary to procure in British Columbia, could be made without the purchaser making a trip to Marcus or Northport.

Captain T. D. Shorts, the old-time favorite of the Okanagan district is alive. Some said he was dead, because he could not withstand the microbes of malarial fever, others said he was dead as a result of a mixup over some mining claims up in Alaska, and others again because he had entered the blissful state of holy matrimony. For our part we always felt that if Andree should be successful in reaching the North Pole, he would be surprised to find Captain T. D. Shorts there, engaged in the patriotic occupation of running up the Union Jack. All these forecasts as to the Captain's fate have hit wide of the mark, for he is very much alive, having in hand at present a scheme, for which he desires a provincial franchise, the object of which is to provide railway communication between the coast and the Yukon. Captain, we salute you! and may your energy, which is the kernel of your existence, never be robbed of its Shorts.

MINING NOTES.

A Chinaman was prosecuted last week for placer mining on Boundary creek without a licence, and was fined $1 and costs, for this breach of the law.

The incline shaft on the Snowshoe, in Greenwood camp is now down between 60 and 70 feet. Some good grade ore occurs on the footwall and this is being followed down.

The first payment under Mr. Harrison's bond on the B. C., in Summit camp, was made on Wednesday last, the amount being $6.000. The claim was bonded three months ago by Mr Harrison, it is understood on behalf of English capitalists, the amount of the bond being $60.000, payable in several instalments spread over a year. Work has been in active progress ever since the claim was bonded. The mine buildings erected are substantial and roomy, and the prospecting work undertaken has been well directed and thorough, the most important part of it being the sinking of a shaft on the lode, which in places shows ore 25 feet in width. The shaft is now down about 70 feet and the ore in which it is sunk carries high values in gold and copper.

Several men having been engaged during the past week under Foreman W. J. Barker, in preparing for a resumption of underground work at the Jewel, in Long Lake camp, everything is now in good shape for starting afresh. Engineer Dickson returned to the camp yesterday after a visit of several weeks' duration to his family in Rossland. The shaft, already down 130 feet, is to be sunk 150 feet deeper, so that there is more than a winter's work ahead of the men employed here.

Incorporated October 21st, 1896.

HEAD OFFICE, GREENWOOD CITY, B. C.

Capitalization $1,500,000, in $1 Shares, Treasury Stock 700,000 Shares.

COMPANY'S PROPERTIES.

The Company's mining properties now consist of fourteen claims, viz., the D. A., G. A. R., Big Lgede, O. B., S. H. B., Fred D., S. F., J. A. C., P. H., C. S. & H., E. C. B., Prospective, Spokane and Granite Falls,

SIX OF THESE HAVING BEEN ACQUIRED SINCE INCORPORATION.

OFFICERS OF COMPANY:

G. ARTHUR RENDELL - - - - PRESIDENT
D. A. HOLBROOK - - - - - - MANAGER
E. JACOBS - - - - SECRETARY-TREASURER

BANKERS:

BANK OF MONTREAL - - VERNON, B. C.

DESCRIPTION.

On the "D. A." is a vein about 20 inches wide, with a pay-streak of 4 to 12 inches; from this 8,653 lbs. of ore was shipped to the smelter, giving $103.15 gold per ton, silver 74 7-10 ozs., and 2 per cent. lead. A tunnel is being driven on this vein from which ore is being taken. On the same property is a larger vein (quartz) carrying galena and pyrites.

The "G. A. R." has a 30-foot shaft sunk on a 2-foot vein, heavily mineralized with an intimate mixture of iron and copper pyrites, galena, blende and silverglance. The finest pieces of wire silver found on Boundary Creek were taken from this shaft. Average assays from different places across the vein gave $8.00 gold, 50 ozs. silver; also $8.00 gold and 150 ozs. silver and one, the latest return—$15.05 gold and 196 4-5 ozs. silver per ton.

On the "Big Ledge" is a 10-foot quartz vein, mineralized with iron pyrites. This vein has been opened up by cross-cuts on the surface for 500 feet. A narrower vein has been opened up, being one foot wide, carrying considerable copper pyrites, and runs into the main ledge as a spur, on which a tunnel of 40 feet has been driven. Average assays gave $53 gold and 1 1-10 ozs. silver, and $49.35 gold 17½ ozs. silver, 2 per cent. copper.

The "S. F." lies betweed the G. A. R. and D. A., in the direction of the strike on the G. A. R. vein. This location has been made on a vein of pyrrhotite.

The "O. B." has two distinct veins one 25 feet wide which, from its strike and general character would seem to be the same vein as that on the Big Ledge, although sufficient has not been done to make this conclusive. The second vein has at present a width of nearly three feet. Assays have shown values in gold from $4.00 to $170.53, while a conservative sampling by Mr. S. S. Fowler, M. E. gave $20.00 in gold.

On the "S. H. B." are two converging veins of copper and iron pyrites, on which work is now being done. An average assay gave, gold $1.50, silver 10¾ ozs., copper 11.96 per cent., or $40.44 for all values.

The "Fred D." was located in December, 1895, more as ground for a basis for mining operations for the other claims than for its present value, although there is little doubt that the large vein on the O. B. runs through it. There is a small vein of galena on this claim.

The "J. A. C." has a large iron-capping running through it from the Anaconda, at a depth of a few feet. The ore carries a considerable percentage of of copper and $10 in gold.

The remaining six claims are all good prospects, but as yet very little development work has been done on them.

This company is registered under the Companies Act, 1890, and amending acts, in the office of the Registrar in Victoria, B. C., for 1,500,000 shares at $1.00, non- assessable, of which a portion of the Treasury stock is now offered at 10 cents a share on application to the company.

NOW IS THE TIME

To get in on the ground floor. The company aving recently purchased the McDonnell ranch of about 560 acres, adjoining its mineral claims, now possesses unusual facilities for carrying on mining operations on a large scale. This purchase has secured to the Company excellent mill and smelter sites; abundant water power for mining, electric light, domestic and other purposes, and other desirable advantages.

Forty acres of this land, very conveniently and centrally situated at the junction of Eholt Creek and Boundary Creek, have been surveyed into town lots, and the new townsite has been named.

BOUNDARY CREEK CITY.

ITS situation is a most favorable one, being at the meeting place of two much used routes of travel—to Long Lake, Pass Creek and Summit camps, and to Kimberly camp, and the main Kettle River respectively. It is also the only known practicable railway pass from the east, so will be nigh on the line of the new railway from the Columbia River to Penticton.

Building has already commenced on the new townsite, which offers particular inducement for both business and residence purposes. There are now good openings for several kinds of businesses and the company will give exery encouragement to business men establishing themselves at this point. Prices of lots are within the reach of all, and buyers building on them will be liberally dealt with. Full particulars of both mineral claims and town lots will be given upon application to the
