NEW TYPE OF DREDGE PROPOSED FOR RIVER

Improved Mud Slinger Needed For Work at Mouth of the Fraser River.

Now that the mammoth improvement to the Fraser river recommended by Engineer J. Francis Le Baron has been approved by the cabinet and is therefore practically a certainty, the citizens are commencing to discuss the methods of work, and particularly the manner of dredge that is to be used. It is pointed out that the King Edward would be to all intents useless in the heavy swells that might be encountered at the river mouth, and a new dredge would be little better. As a matter of fact, this question is one of those being placed before the federal authorities by District Engineer G. A. Keefer who is now at Ottawa. Mr. Keefer's proposition is to build a dredge of the type used for the construction of the Panama canal. These vessels are built on the lines of an ocean going steamer and are intended to withstand all kinds of weather. They are driven by power-driven propellers instead of the stern wheels used in the present dredges, and store the material which they take on scows. When the scows are loaded, the dredge tows them to the place where the material is required and unloads it. The advantages are manifest. The King Edward would be useful only in calm water and so far as the pipe line would reach. The proposed dredge would be one of the most powerful machines built in Can-

POLICEMEN MAY RESIGN TO GET ADVANCE PAY

Bellingham, April 12.—Chief of Police H. M. Cade and Captain A. S. Griffin and Captain A. L. Callahan will probably tender their resignations to the mayor before next Monday, in order that they may be reappointed and get the benefit of the raise in pay authorized by the voters at the municipal election. Judge Kellogg, of the superior court this morning, handed down a decision denying the application for a writ of mandate to force the city council to pass the ordinance granting the increased pay.

Judge Kellogg stated that the terms of patrolmen are reckoned from the first of each year, and that no salaries can be raised during an incumbent's term of office.

CHURCH PARADE BRINGS STRANGERS TO THE CHURCH

About sixty members of A and B companies, Sixth regiment, D. C. O. R., paraded to St. Andrew's Presbyterian church yesterday, where a sermon peculiarly appropriate to military men was preached by Rev. J. S. Henderson, who took for his subject the words "Quit Ye Like Men."

The militiamen were under the command of Captain Johnston, Lieutenants Webber, Corbould and Cunningham. The recently organized Bugle corps, under the direction of Sergt. Gale, playing appropriate airs during the march to and from the church, in the course of his sermon, Mr. Henderson alluded to the fact that several of the men in the ranks were strangers to him, a circumstance which led him to hope that perhaps they regularly attended churches of other denominations in the city.

SLEEPING SICKNESS HAS REACHED AMERICAN SHORES

New York, April 12.—According to the attending physician, a case of the "sleeping sickness," so rare in this country though said to be common in Africa, where it has recently been exhaustively studied by Dr. Robert Koch, the famous German scientist, now in this city, has claimed a victim on Long Island.

Howard Price, the young son of Charles R. Price, a merchant at Glen Cove, L. I., was taken ill a few days ago and his symptoms puzzled the family. His condition grew alarming. The boy was restless early Thursday night, but toward morning became quiet and sank into what appeared to be a deep sleep. Efforts to arouse him later proved futile and a messenger was sent for Dr. F. A. Wright, who hurried to the Price home, but did not reach there until just after the boy had died.

Dr. Wright is convinced that this was a case of the sleeping sickness. Only one or two other cases of this have been recorded in this country, but it has been made familiar to medical men through the researches of Dr. Koch.

ROSS RIFLES ACCEPTED BY LOCAL ASSOCIATION

Because of the inability to secure Lee Enfield rifles, the members of the Westminster Rifle association, at the annual meeting held on Saturday evening, decided to order the needed number of Ross rifles from Victoria at once, but at the same time to petition the department of militia at Ottawa, through the medium of the member of this district, J. B. Kennedy, for a supply of Lee Enfields, which are considered by the riflemen as being superior to the Ross.

The election of officers resulted as follows: Captain, T. S. Annandale; vice-captain, J. R. Sharpe; secretary-treasurer, W. Nelson. These four, together with Dr. F. P. Smith and V. H. C. Abbott, will form the executive.

Citizens desiring to join the association will find enrolment forms at the office of T. S. Annandale, Columbia street.

MONTREAL WILL SUE STREET CAR COMPANY

Montreal, April 12.—City Treasurer Robb has been given instructions by the finance committee to take proceedings against the Montreal Street Railway company for $50,000, the amount due on snow removal during the past winter. The company is disposed to oppose full payment on the claim that the work has been done in an extravagant manner.

To Elevate Dramatic Art.

New York, April 12.—New York is to have a new theatre, although it has already nearly a hundred, and it is to be called the New Theatre. The enterprise is to cost $1,000,000 and is built in the interest of art and legitimate drama. The money was raised by forty wealthy New Yorkers each of whom subscribed $25,000 each. It is firmly believed by the promoters that the influence of the New Theatre will be far reaching and will be a great success. It is designed to revive the Greek and old English dramas as well as to represent the best from an artistic standpoint of the modern drama.

PRUSSIAN LOAN IS NOW ON MARKET

Although Amount Wanted Is $162,500,000, No Anxiety is Felt As to Stability.

Berlin, April 12.—The imperial and Prussian loan, amounting to $162,500,000, the announcement of which attracted attention and excited comment in all the capitals of Europe, was offered for subscription today. The issue, which has been bought by a syndicate of leading Berlin and provincial bankers, is to bear 4 per cent. interest and will not be convertible within a period of ten years.

The fact that Germany has found it necessary to issue loans amounting to $25,000,000 already this year is not regarded here as a cause for any alarm or distrust in regard to the country's financial position. The financial community is inclined to accept the official explanation that the loans are merely keeping pace with the greatly increased naval expenses of Germany. While the loans unquestionably are large for times of peace, it is realized that the naval undertakings of the empire, the Prussian plan for expropriating the land of the poles and the project of extending the state railroads require an extraordinarily large amount of money.

BROTHER AND SISTER THREATENED BY MOB

Richmond, Mo., April 12.—The streets of Richmond around the court house square were crowded today, and the trial of Tom McGonnigle and Mrs. Jane Burnett, his sister, on the charge of murdering their sister-in-law, Business men, who fear the action of a mob, declared today that nothing could save the lives of the prisoners should Justice McQueston refuse to hold them for trial before the circuit court.

Carnegie's Daughter Romps Again.

Glasgow, April 12.—Margaret Carnegie, only daughter of the steel magnate and heiress to his millions, is again able to romp and play about like other children. Two years ago the little heiress, who was then nine years old, was playing on the lawns of Skibo castle, her father's summer residence in the highlands of Scotland, when she caught her right foot in a small hole and fell to the ground spraining her ankle. Although the accident did not seem serious at the time it was found necessary to place the leg in a steel brace which has had to be worn ever since. It was feared at first that the sprain might develop into a permanent lameness, but New York's leading doctors were consulted and after the most careful treatment, during which the young heiress was obliged to give up all play for a year, she has recovered and is strong and as well as ever.

Sudden Death at Victoria.

Victoria, April 12.—Seized with an epileptic fit, while waiting for his supper which he had just ordered, Mr. William Hooper, a member of the firm of Hooper Bros., mill owners at Duncans, expired suddenly at an early hour this morning, on the sidewalk outside the Commercial restaurant, corner of Cormorant and Douglas streets. He managed to stagger as far as the street, when he collapsed, and before medical aid could be summoned he passed away.

Seattle Is Growing.

Seattle, April 12.—According to Gordon D. Everitt, the Seattle manager of the Polk Directory company, the population of Seattle is 276,462. A year ago the Polk directory estimated the population at241,550, attaining the estimate in the same way as that announced yesterday. The gain for the year has, therefore, been 33,912. This is an increase of approximately 14 per cent. for the year, which means that at this rate the population is doubling in seven years.

Nelson Spring Cleaning.

Nelson, B. C., April 12.—The mayor will proclaim the afternoon of Thursday, April 16, a public half holiday for general cleaning up of property and planting of trees. Some citizens have anticipated the move.

TWO TREATIES SIGNED BY ROOT AND BRYCE

Commission to Determine Boundary Between States and Canada—Fisheries.

Washington, April 12.—Secretary Root and Ambassador Bryce yesterday signed two treaties negotiated recently between the United States and Great Britain. One provides for a commission to determine the boundary between the United States and Canada and the other regulates fishing in the great lakes and contiguous streams.

The boundary commission will be charged with the work of resurveying certain sections of the boundary line and determining disputed questions in that connection. It is understood that fishery questions also are placed in the hands of a commission by the terms of the treaty.

"Temperance Beer" Produced.

Chicago, April 12.—"Temperance beer," for the prohibition districts, was suggested last night by Dr. J. E. Siebel, dean of the Chicago Zymotechnic institute. The suggestion was made in the course of an address before the twenty-five members of the graduating class of the institution.

According to Dr. Siebel, a beer has been produced that contains no alcohol.

AMERICAN WARSHIPS WILL NOT VISIT VANCOUVER

Bellingham, April 12.—Orders for Admiral Sebree's cruiser squadron to proceed to Vancouver and Victoria for a week's visit were cancelled by wire from Washington last night. The squadron goes to Blaine today, returning up sound on Sunday for coaling and docking at Bremerton. The itinerary of the battleship fleet for the Pudget sound visit next month received here today does not provide for calling at British Columbia cities.

ROBBERS GET $1000 AND OVERLOOK $2500

Chicago, April 12.—Two masked robbers compelled Louis Rothenberg to raise his hands over his head in his saloon last night and then stole from a drawer $1000 which belonged to a brewing company. They immediately ran from the saloon, overlooking pay checks amounting to $2500.

Victoria Port During a Twelvemonth.

Victoria, April 12.—The returns for the year ending March 31, prepared by Dr. Milne, Dominion medical inspector and immigration agent for this port, shows that during the twelve months ending on the date mentioned, 961 vessels called at Victoria from foreign ports, that being the number inspected, and on these vessels the total passengers carried were 123,290, of whom 78,473 landed here.

Help This Along

More money is needed for the children's ward fund. The total collected to date is $868.75—the total amount needed is $1200. This has to be collected before the end of the present month.

What are you doing to help along the work so ably carried on by the young girls of the city? There is room for your name on this subscription list, and there is room in the fund for your mite. If you are bashful about seeing your name in print, initials only will be inserted, contributions to accompany the initials as a guarantee that you mean business. No donations will be refused because they are too large or too small, therefore the size of your contribution rests entirely with you.

Checks should be made out to Miss Daisy Dawe, secretary children's ward fund, and may be left at this office between the hours of 8:30 a.m. and 6 p.m.

SPORT SUGGESTIONS ARE ADVANCED FOR GOOD FRIDAY

To make Good Friday a day of sports is a suggestion now being discussed in athletic circles in the city and already steps are being made towards this end. The Westminster Football club is endeavoring to do its share by putting on a match that will be worth seeing. If possible, one of the two remaining games which the Rovers have to play in the coast league will be secured, with either Westham island or the Vancouver Shamrocks. Both teams have shown good form through the season, and the game, if played, will therefore, be fast and exciting from the kick-off.

A baseball game for that day is also a probability, and will be a certainty if the cigarmakers can find a team who will pick up the gauntlet which they have thrown down, challenging any city nine to meet them on that date. If the city seniors decide to stack up against them, they will have no soft snap for there are old and tried players among the twisters of the smoke weed. The matter will most likely be discussed at the meeting of the Baseball club to be held tomorrow night.

CHILDREN'S FREE PASSES ISSUED FOR LACROSSE

The lacrosse team this season is looking forward to seeing the biggest crowd of small boys and pretty girls at the park that has ever come their way, and to get this youthful support the club is giving away passes for the season to every girl and boy under 14 years of age. The special complimentary tickets, five hundred of them, are printed with crossed lacrosse sticks in red in the middle and red and blue bars on the corners. All the children have to do to get their ticket is to go Ryall's drug store, write their name and their age in a book on the counter, and they will be given a ticket with their name on it, good for every game during the year. But bluff is not going to work and the boy who is fifteen isn't going to make himself a year younger, for trouble will be taken to find out that the age limit is not passed and any tickets given to older children will be cancelled.

SHAKESPEAREAN MEMORIAL BRINGS BITTER PROTEST

London, April 12.—Judging by the storm of controversy which has been aroused by the mere suggestion that a monument to Shakespeare should be erected in London, there seems little likelihood that the worthy gentleman who proposed that $500,000 should be raised for that purpose will ever succeed in collecting anything like that amount. Where the leading lights of the literary and dramatic world exhibit such a divergence of opinion as to what would constitute the most appropriate memorial to the immortal bard, the general public will eagerly grasp the excuse afforded for declining to shell out anything.

Thus far the scheme has evoked much more enthusiastic opposition than support.

FIRST WORK ON GRAND TRUNK PACIFIC BEGINS

Prince Rupert B. C., April 12.—Active construction in British Columbia has commenced on the Grand Trunk Pacific. Contractor Stewart was awarded the contract for the first mile from Prince Rupert eastward. The first dirt will fly Monday morning. It will take one year to complete the contract, estimates giving steady employment to 200 men during that time. A monster warehouse, 420 by 60 feet, has been commenced on the wharf and will be completed in six weeks. Stewart asserts that the first hundred miles will be finished in eighteen months.

Bishop to Go Slumming.

London, April 12.—Right Rev. A. E. Winnington-Ingram, the lord bishop of London, is planning to invade the Westminster slums with a church demonstration and midnight service such as has never been attempted before, with a monster procession with banners and choristers. He proposes to give the squalid a glimpse of church glories, and declares that he will keep up the work until some practical good is accomplished.

COLUMBIAN COLLEGE WINS TRACK MEET

Local Athletes Easily Defeat Visitors in First of Annual Inter-Collegiate Events.

Columbian college won the intermediate track meet with McGill university of Vancouver, Saturday afternoon, by 37½ to 25½ points. In the short runs McGill gained firsts. In the distance races, Columbian took most of the honors. The winning side had their advantage in the jumps and shot putting. The entries of both sides were nearly complete for all events, neither being more than a couple of men short.

The Vancouver team was supported by a full car load of rooters, while the Westminster boys turned out to a man to watch their team win. The interest in all the contests was keen, no event being won except after a hard fight. In every respect the meet was a great success and the persons promoting the starting of an annual provincial inter-collegiate track meet were very much encouraged by the effect of Saturday's meet on all concerned.

The gold medal offered by Prof. A. E. Hetherington, B.A., B.D., of Columbian college, to the college boy under 20 winning the highest total of points was gained by McCurdy, with seven points. McKenzie, of the college also had seven points to his credit, but being over the age set was disqualified. This was the only prize offered, it being thought advisable to direct all the energies for this end in favor of the coming meet of this autumn. McCurdy and McKenzie were also the individual winners in the meet, tieing for first place, while Galloway of McGill came second with six points.

A hop-step-and-jump which was scheduled to take place had to be cancelled for lack of time, the other events lasting till the hour came for the Vancouver people's car to return. For the same reason the 100 yard dash was not run over again.

The contests were unusually free from the small squabbles and bickerings so often seen at such times, and all the officials must be given much credit for the great pains they took to render satisfaction and give accurately correct decisions, which help so much to keep friendly feelings.

The Winners.

100 yard dash—1st, Galloway (McG) 2nd, McKenzie (C.M.C.); 3rd, C. Watson (C.M.C.). Time 10 2-5 sec.

220 yard dash—1st, Galloway (McG) 2nd, H. McKenzie (C.M.C.); 3rd, Prouty (C.M.C.). Time 24 3-5 sec.

440 yard dash—1st, H. McKenzie (C.M.C.); 2nd, Anderson (McG.); 3rd, McCurdy (C.M.C.) Time 57 2-5 sec.

One-half mile run—1st, McCurdy (C.M.C.); 2nd, Fleming (McG.); 3rd, Knowling (McG.). Time 2 min. 18 2-5 sec.

One mile run—1st, Ed. White (C.M.C.); 2nd, G. Eldridge (McG.); 3rd, A. White (C.M.C.). Time 5 min. 18 1-5 sec.

Shot put—1st, Williscroft (C.M.C.), distance 31 ft. 2 3-4 in.; 2nd, Brydon-Jack (McG.), distance, 30 ft, 10 1-2 in. 3rd Fallis (C.M.C.), distance, 30 ft. 4 1-2 in.

Pole vault—1st, F. Shearer (McG.), vaulted 9 ft; 2nd, Ferguson (C.M.C.); 3rd, Sinclair (C.M.C.).

Broad jump—1st, Prouty (C.M.C.), jumped 18 ft. 7 in.; 2nd, G. Fallis (C.M.C.), 18 ft. 3 in.; 3rd, Ferguson (C.M.C.) 18 ft. 2 in.

High jump—1st, Busteed (McG.), cleared 5 ft.; 2nd, Watson (C.M.C.), cleared 4 ft. 11 in.; 3rd, Fallis (C.M.C.) and Shearer (McG.), tied, both clearing 4 ft 10 in.

One-half mile relay race—Won by the McGill team, composed of Smith, Galloway, Anderson and Fleming. Columbian team, Prouty, Fallis, McKenzie and Watson. Time 1 min, 43 sec.

120 yard hurdle race—1st, McCurdy (C.M.C.); 2nd, Gibbons (McG.); 3rd, Ferguson (C.M.C.). Time 18 2-5 sec.

Three points were given for first place, two for second place, and one

(Continued on Page Four.)

Boycott Is Effective.

Hong Kong, April 12.—As a result of the Chinese boycott the Japanese steamer America Maru left here for San Francisco without a single package of Chinese cargo and only twenty-five passengers, as compared to 730 on the British steamer Empress of India, which cleared for Vancouver.

"This Is My 63rd Birthday"

Bishop Alerding.

The Right Reverend Herman Joseph Alerding, bishop of the Roman Catholic diocese of Fort Wayne, Indiana, was born in Newport, Ky., April 13, 1845, of German parentage. After attending the parochial schools of his native place he attended an academy at Vincennes, Ind., and completed his ecclesiastical studies at St. Thomas, Ky., and at St. Meinrad's Abbey, in Spencer county, Indiana. At the age of 23 he was ordained a priest at St. Meinrad's. For a time he acted as instructor in the seminary and later filled pulpits in several cities and towns of Indiana before going to Fort Wayne. He was raised to the bishopric of Fort Wayne in 1900 and on November 30 of that year he was consecrated with elaborate ceremony in the Cathedral of Fort Wayne. Bishop Alerding has a reputation throughout the church for his deep learning and is the author of several well known works dealing with the history of the Catholic church in Indiana.

FLEET WILL SPEND WEEK AT SAN DIEGO

American Vessels to Anchor in Bay—Preparations Are Made to Honor Visitors.

San Diego, Cal., April 12.—Within the next twenty-four hours the United States battleship fleet will drop anchor in the beautiful bay of San Diego, after a voyage unprecedented in naval annals. The ships will rest in United States waters for the first time in four months, during which time they travelled a distance of approximately 18,400 miles.

The ships are to remain here until Saturday, according to the plans mapped out by the navy department at Washington. The people of San Diego have completed elaborate arrangements for the entertainment of the officers and men. The main streets are gay with bunting, and the indications are that the decorations tomorrow will be among the most elaborate ever seen on the Pacific coast. Thousands of visitors are expected here to view the fleet.

Coronado, "the gem of the Pacific coast," will join with San Diego in furnishing entertainment for the naval visitors. It is intended to give the officers and men the time of their lives, and there will doubtless be such an outburst of genuine California hospitality as has never before been seen.

When the ships enter the landlocked bay of San Diego, a magnificent panorama hundreds of miles in extent will unroll before the eyes of the men. A high range of mountains forms the eastern horizon. In the foreground is the city of San Diego, with its beautiful environs, its semi-tropical vegetation. Situated on a plain but little raised above the level of the sea, nearly the whole of the city may be seen from the decks of the vessels. Tall buildings, spires of churches and, overtopping all, the Bennington monument, are the conspicuous features of the scene.

The bay or harbor of San Diego is thirteen miles long and has enough deep anchorage to float all the navies of the world at one time. The harbor is acknowledged to be one of the best in the world.

POLICE FOIL PLOT OF PARIS ANARCHISTS.

Paris, April 10—The police of this city have taken into custody three well known anarchists named Kuhn, Roux and Russell. They also captured a cart loaded with dynamite which the prisoners had in thier possession. The strictest secrecy is being maintained, but it is believed that the men are connected with a plot against the leaders of the gigantic lockout which went into effect in this city April 4, affecting 150,000 masons, bricklayers and allied workmen, in the building trades.

PROPERTY DESTROYED AS PROTEST AGANIST RATES

Rio Janeiro, April 9—Serious rioting broke out yesterday in the city of Campos, and troops were sent in today to restore order. The Leopold railroad has maintained exorbitant rates on freight in and out of Campos. This aroused the indignation of the people, and last evening they descended upon the railroad property and set fire to two stations, thirty cars and several warehouses.

He Passes It Around.

"He is all wrapped up in the cause."
"That is no reason why he should rap everybody who isn't."

Vain Regrets.

Where the rushes quiver slightly,
Where the little waves run lightly
And the sun is shining brightly
In a valley far away,
Where the grass the edge is rimming
There's a hole with water brimming,
And it beckons me to swimming:
It is calling me today.

I would gladly hasten to it,
And with joy I'd paddle through it
As I proudly used to do it
Like a little water rat,
But I cannot have the pleasure;
It for me's a vanished treasure;
I've a waist of ample measure,
And I'm stiff and slow and fat.

PERT PARAGRAPHS.

If you can't do a desirable thing, give as good an imitation of doing it as well as you know how.

Lovesick couples affect spectators similarly minus the love.

Feeling faint is the strong point of some women.

There is nothing particularly distinguishing about being crazy.

Some big insurance companies don't seem to have much use for the honesty demand of policies.

COLUMBIA STREET COLUMBIA STREET

7 PER CENT. PREFERRED STOCK

OF THE

British-Canadian Wood Pulp & Paper Co., Ltd.

Owners of the Townsite of PORT MELLON, Howe Sound, 25 miles from Vancouver

HEAD OFFICE, 313 CORDOVA STREET, VANCOUVER, B. C.

We recently offered for subscription the first 100,000 Preference shares of this corporation, in Blocks of 100, at $1.00 per share, each 100 shares entitled to a bonus of 25 shares of Preference Stock; this first issue was immediately taken up by the sale and guaranteed option.

WE NOW OFFER FOR SUBSCRIPTION

The second issue of 100,000 Preference Shares, in Blocks of 100, at $1.00 per share. Each 100 shares entitled to a bonus of 15 shares of Preference Stock.

The third and subsequent issues are to be sold at par, or at a premium to be announced from time to time by the Board of Directors.

WHEN COMPLETE, THIS MODERN PLANT WILL HAVE A CAPACITY OF 180 TONS OF NEWSPAPER, AND 270 TONS OF ALL GRADES OF WRAPPING PAPER PER WEEK.

SPECIAL NOTICE.

The Company reserves the right to reject any or all subscriptions, and further reserves the right to close the subscription list at any time without notice to the general public.

In ordering stock kindly state whether in the event the second issue of 100,000 is oversubscribed you wish your application returned, or allowed on the third issue of Preference Stock. No bonus stock allowed after the second issue.

The Preferred Stock is entitled to an annual dividend of 7 per cent, commencing November 1, 1907, but unlimited as to further dividends—i. e., after 7 per cent has been paid upon the Preferred and Common, both stocks thereafter participate equally. There is no reason why this stock should not pay from 30 to 50 per cent dividends.

We are now rushing the work at Port Mellon, 25 miles from Vancouver, on the first unit of this great plant, which is to have a weekly capacity of 80,000 lbs. of wrapping paper, and which we hope to have in operation by July 1, 1908.

Remember, there is no ground floor plan; no inflated values or huge promoters' profits in the enterprise.

Within one year the stock of this corporation will be selling at a handsome premium—then it will be too late to buy.

PAYMENTS.

10 per cent. on application, 15 per cent. on allotment; balance in eight equal calls of thirty days each.

The public are cordially invited to visit our demonstrating plant, 313 Cordova street, Vancouver and witness the manufacture of wood pulp and paper.

Open Saturday evening until 9 o'clock.

ADVERTISE IN THE DAILY NEWS.

STUDY YOUR HORSE.

If the Animal Has Mental Troubles, Try to Remedy Them.

To begin with, does your horse suffer from nostalgia or homesickness? Most horses do, and many really pine away and die from no other cause. We can at least, by making the poor creature thoroughly comfortable, do all in our power to "give his pain surcease" and to make him happy and contented, for than homesickness of the acute and chronic form men knows few more wearing ailments. Is your horse's disposition sociable or misanthropic? You don't know? Well, why not find out? Does it irritate him to have his yokemate or neighbors eating noisily and visibly while he does? Is privacy evidently his preference? Very well, then, by boards or zinc or tin or canvas shut off both sides of his stall at the head so that he may eat in peace and live the isolated life which he prefers.

If he lays back his ears or snaps at his neighbors or fidgets and kicks at the partitions, etc., he does not fancy company—at least at mealtimes—and he will be better, do better and (here the pocket comes in) keep more cheaply if you cater to his fancy. If, on the contrary, a "shy feeder," let him see others eat; even let him by a simple arrangement feed from the same manger as one of his neighbors, which is to be tied up short until Master Dainty has eaten all he will, when, upon allowing the neighbor to partake, the fastidious one will redouble his efforts to eat just to spite the late comer at the feast. The writer has used this plan with many poor feeders from race horses down and always with the best results.—F. M. Ware in Outing Magazine.

New Westminster City Assessment

COURT OF REVISION.

Notice is hereby given that the assessment roll for the year 1908 has been returned to me, and remains in my office, where it may be inspected by any person having an interest therein, until the sitting of the court of revision.

The first sitting of the court of revision on the said assessment roll will be held at the city hall, in the said city, on Monday, the 11th May next, at 10 o'clock in the forenoon. Any person intending to appeal against the assessment must do so in writing, to be filed with the city clerk at least seven days before the first sitting of the court.

W. A. DUNCAN,
City Clerk.

City Hall, April 7, 1908.

This Date in History.

APRIL 13.

1593—Thomas Wentworth, Earl of Strafford, English statesman, born. Beheaded May 12, 1647.

1598—Henry IV of France promulgated the Edict of Nantes.

1747—Philip Egalite born. Died November 6, 1793.

1759—British warship Pembroke wrecked near Porto Novo, with loss of 330 of her crew.

1759—George Frederick Handel, musical composer, died. Buried in Westminster Abbey.

1829—British parliament passed the Roman Catholic relief bill.

1868—British troops under Sir Robert Napier took Magdala, a strongly fortified place in Abyssinia.

TRAINMEN ACQUITTED OF MANSLAUGHTER.

Ottawa, April 10—The charge at the assizes before Judge MacMahon, when three men were indicted for manslaughter in a wreck when the C. P. R. train hit a street railway car at a crossing was disposed today. The death of one August Wanke ensued last January from the collision. Matthew Morin, C. P. R. engineer, was discharged before the case went to the jury and they found the street car conductor, Emery Soubliere and Motorman Henry Flagel, not guilty. The judge said the verdict was against the evidence.

SAYS WIRELESS THEFTS CANNOT BE PREVENTED.

Berlin, April 10—Professor Slaby, the inventor of the system of wireless telegraphy in use by the German navy, in Austria, etc., has told an interviewer that there was no absolute remedy against thefts of wireless messages.

"As the criminal code cannot prevent thieving on earth, so any amount of law making will fail to stop robberies in the air," he said, "and I cannot conceive of any technical way to forestall the tapping of wireless messages."

C. P. R. WILL BUILD IN COLUMBIA VALLEY.

Montreal, April 10—Mr. Brice, a large mine and land owner in British Columbia, waited upon Sir Thomas Shaugnessy today and urged the need of better railway facilities for the Columbia Valley, where both fruit-raising and mining industries are rapidly developing.

He was assured that the people now developing the Columbia Valley would get their railway, but that for the present they must be patient, seeing that many branch lines were being called for all over the system.

He Obeyed Orders.

Sir Henry Roscoe tells this of the scientist Faraday and his assistant, Sergeant Anderson: "Anderson was the sole assistant to Faraday and of course was utterly uneducated in scientific matters, but he could obey orders, which is not always a characteristic of an educated man. One day Anderson was told by Faraday to keep stirring a pot containing some chemicals over a fire until he returned, Faraday being in the habit of going upstairs to tea in his rooms and coming down directly afterward to work in the laboratory during the evening. For some reason he was prevented from coming down again and forgot that he had told Anderson to watch the pot. On coming down the next morning he found Anderson still stirring the pot, having been at it the whole night and thus carrying out the order which was given him."

Corot and the Prince de Joinville.

"I thank you, Corot," said the prince, holding out his hand, "for having allowed me to renew my youth in seeing your works. And, look, I see there an old acquaintance, your picture of Dante in hades. It was in the Salon of 1843, was it not?" "That is true, mon prince," said Corot. "How in the name of goodness can you remember the date—you who have seen so many things since that time?" "And the critic Delecluse," replied the prince, "worried you a great deal on this subject. But it touched you very little and you were right. And this lovely, delicate study—you must have made it in the neighborhood of Genoa?" "Indeed, I did," bellowed Corot in his great voice. "You are gifted with second sight. For ten years now I have searched in my old noddle for the place where I did that, and it needed you, mon prince, to come and tell me." "That, M. Corot, is because I have sketched those beautiful mountains more than ten times, and I know them by heart. There is another study over there of a mill on the dunes. It is soft and gray and very true. I think it must have been done at Dunkerque. And next to it I recognize the tower of the port of La Rochelle." "I see, monseigneur—pardon, mon prince—that there is nothing to teach you. I see only one thing—that to your title and quality of prince and admiral must be added that of 'wizard.'"—G. Chardin in Putnam's Weekly.

THE DAILY NEWS

Published by the Daily News Publishing Company, Limited, at their offices, corner of Sixth and Front streets, New Westminster, B. C.

E. A. Paige.....Managing Director

MONDAY, APRIL 13, 1908.

FOR UNITY.

In view of the increased confidence and activity immediately apparent when the news of the acceptance of the Fraser River improvement scheme spread abroad, we would suggest that a grave be made into which all our little differences be dumped, with a hope that the bottom will drop out, so that there may be no resurrection. We would suggest to the knockers that they take an excursion into the woods and lose their little hammers, wake up, and come back and enter into the progressive life of the city with a buoyant cheerful hopefulness.

At this stage we cannot afford to be divided, therefore, sinking our pet scheme and bowing to the will of the majority, let us pull together with one solid front in the interests of our fair city. We should be careful to abstain from entering into advertising schemes that have been ineffectual elsewhere and are now obsolete, whose only merit while they existed was to provide a salary and other expenditure, and only resulted in inflated values not warranted under the circumstances. New Westminster should lead with something new and original, and not be picking up the "thousand" fad skeletons. One cannot go abroad in our city in any direction without being struck with the enormous number of buildings now under construction, many of which are rented or sold while yet half complete.

We urge the City Fathers to take immediate action with respect to the cement sidewalks on Columbia street. It is the one need that evidences to visitors in search for investments that we are behind the times. If the Council takes on a progressive spirit, it will become contagious, and find its reflex in our citizens, making their premises bright and attractive, by which homeseekers will be more readily impressed.

LIKE WITH LIKE.

"Loot" Taylor has broken out again and connects the name of Canada's first gentleman with some supposed fraudulent transactions which are being dealt with as fast as it is possible to do. He is blamed for a system that was considered good and sufficient when it existed under Conservative administration. No matter how clever the Auditor-General may be in constructing a system of accounting, no matter what checks are introduced into such system by heads of departments, it is impossible for them to guarantee absolute honesty of officials or of persons who have the certifying of accounts; but with every act of alleged dishonesty unearthed to connect the name of the Right Hon. Sir Wilfrid Laurier is the product of a disordered mind or the wilful spleen of a dyspeptic.

With respect to the granting of coal lands, the statement made we are at the moment unable to contradict because we have not the facts, but in the light of other charges made and so clearly and emphatically denied by the actual facts, we can reasonably assume that the shears have been used on a whole bolt of "loot" cloth. But it does strike us, allowing the statement to be correct, that it cannot be a greater wrong to thus grant coal lands to persons who may have been procured to sign the applications, than it has been to do this very same thing with regard to applications for timber limits granted by the McBride Conservative administration at Victoria, the notices for which have appeared in the "Columbian." We here make the declaration, that never during Sir Wilfrid Laurier's career has anyone been able to point to one dishonest act or to say that his public and private life has not been absolutely clean. This much cannot be said, we are sorry to say, for some whom the "Columbian" perforce has to worship. If the details are necessary we can give them in extenso, but in the meantime content ourselves with prescribing the use of one of the twenty-six patent medicines advertised in Saturday's issue of that paper best adapted for worms—Like with like.

According to letters appearing in the "News-Advertiser" yesterday the fat is in the fire at the Conservative camp over there. It is none of our business of course, if it keeps blazing away, but if Sir Hibbert Tupper puts up a fight there somebody will get hurt and the sufferer will not be a knight.

COLUMBIAN COLLEGE WINS TRACK MEET

(Continued from Page One.)

for third place. The relay counted three points on the total of the school winning it, but nothing for members of the team.

The points made by the individual athletes are:

	Points.
McCurdy (C.M.C.)	7
McKenzie (C.M.C.)	7
Galloway (McG.)	6
Ferguson (C.M.C.)	4
Prouty (C.M.C.)	4
Fallis (C.M.C.)	3 1-2
Shearer (McG.)	3 1-2
Busteed (McG.)	3
Watson (C.M.C.)	3
E. White (C.M.C.)	3
Williscroft (C.M.C.)	3
Anderson (McG.)	2
Brydon-Jack (McG.)	2
Eldridge (McG.)	2
Fleming (McG.)	2
Gibbons (McG.)	2
Knowling (McG.)	1
Sinclair (C.M.C.)	1
A. White (C.M.C.)	1

Reflection on the Boys.

Galloway, of McGill, who won the 100 and 220, is a skilled short distance runner. In starting he possesses his greatest superiority, going simultaneously with the pistol shot, an ability which only long practice will give.

The jumping of Busteed was very interesting to watch, he never seeming to exert himself except on the moment when he started to raise, after which he would clear the bar gracefully.

McCurdy was the surest of anybody at the hurdles, clearing each one entirely, but never wasting strength going too high. Shearer, who very nearly finished even with him, lost second place by knocking down his first hurdle.

Because of shortness of time the tie for third place in the high jump between Fallis and Shearer was not jumped off.

The relay race was the most spectacular of any; at the beginning of the third lap the college was behind, they gained a lead of several yards and then lost the race by less than a foot.

The broad jump had more entries than any other event, but everything went Columbian's way, McGill not even getting third place.

In pole vaulting McGill only had one man, Shearer, and it is too bad they can not furnish more of the same class, for he was very easily the winner, going a foot higher than his closest opponent.

What can be said of Shearer as a pole vaulter can be said of the Columbian athlete Ed. White, who ran in his usual easy way on the mile, finishing with a lead of a rod.

Congratulations are due to Cameron on his latest discovered talent; he was a splendid success as announcer.

CITY NEWS

Sold by the leading distributors, the "B. C." cigar. **

Seeding operations have begun on the Delta.

Men's clothing, odd pants, etc., just arrived. Kyle & Sons. **

For the first time since its organization, the local Salvation Army brass band played on the streets yesterday evening.

New boots and shoes at Kyle & Sons. **

Miss M. S. Archibald is to address the Baptist Young People's society on the "Lessons to be learned from the life of John Gough" this evening.

Four room cottage and lot, near Sapperton car line; $600 on terms. See Abbott & Hyde, real estate agents. **

The Ladies of the Maccabees will give a birthday at-home at the residence of Mrs. George Adams, Twelfth street, tomorrow afternoon from 2 to 6 o'clock.

The "Auto" cigar is becoming a favorite smoke. **

At a special Easter service next Sunday evening, Dr. Rugg, pastor of the Baptist church, will deliver the last of his series of sermons on "Heart Culture," the subject of this address being "Heart Fire."

Chapman's billiard and pool parlor, finest in B. C. Dominion Trust block. **

Roy Hemphill, the young building contractor injured by a falling beam in Vancouver on Friday afternoon, is making satisfactory progress towards recovery, although it will be a considerable time before he is able to be about again.

All kinds of pot plants and cut flowers; shrubs for lawns. Tidy, phone 184. **

Messrs. Reid and Innes, who for some time past have been associated with C. A. McKillop in conducting a confectionary business on Columbia street, have purchased the latter's interest, the new firm taking possession today.

J. H. Brownlee, C. E., Dominion and B. C. land surveyor, has opened an office in the Guichon block. Phone 338. *

A Chinaman, employed at the Wing Hu laundry, dropped dead from heart disease yesterday morning. The remains were removed to Murchie's parlors pending instructions from a brother of the deceased, who is expected to arrive in the city today from up-country.

For cut flowers, bouquets or funeral designs telephone T. Davies & Son, B. 208. ***

The fast pleasure launch Royal City, which has been undergoing transformation from a torpedo boat at Crane's ways on Lulu Island, was launched on Saturday and towed to Schaake's wharf, where her new engines will be installed.

Tenders are asked for the clearing of certain blocks of land within the city limits. Particulars can be had at the office of White, Shiles & Co., Columbia street. **

Trout fishing is the pastime of the season and the number of people who spend the week ends whipping the streams to the undoing of the reckless members of the finny tribe is remarkable. On Saturday one train dropped a whole coachful of enthusiastic anglers at Ruskin, while dozens dropped off en route. In the evening and yesterday they might have been seen returning, some with full creels, others with a wet skin and an empty creel.

Phone B278 for cleaning, Dyeing, pressing, repairing. Opposite Premier hotel. **

WE ARE Specialists .. IN .. Infants' Outfits

We sell them cheaper than you can make them.

Get our prices first.

Stevenson's Juvenile Store

721 Robson St., Vancouver.

Everything for Children

Remember the shoe sale at R. Stevenson's shoe house, Begbie street. Opposite Windsor hotel. **

Dr. and Mrs. C. E. Doherty are rejoicing at the birth of a little son.

Waitress wanted at Kenny's restaurant. Apply at once. **

A hockey team is to be organized at the Clarkson street roller skating rink today, it being the intention of the proprietors to arrange a series of hockey matches during the next few weeks.

Eight cakes toilet soap at Kyle & Sons for 25c. **

The regular montaly meeting of the Local Council of Women will be held at 3:30 o'clock this afternoon in the board of trade room. An executive meeting will precede this at 2:45 p.m. A large attendance is requested.

Kyle & Sons have fresh ranch eggs at 25c. **

Ald. Garrett has been notified by Mayor Keary, who is at present in Ottawa, that three hundred volumes will be added to the Carnegie library next month. Works of fiction forms the bulk of the consignment.

Corner lot, with small house in Sapperton. Price $650, on easy terms. Apply, White, Shiles & Co., Columbia street. **

Tim Mahoney went over to Victoria on Saturday and refereed the soccer match for the championship of Vancouver island between the Nanaimo and Ladysmith elevens. The game resulted in a draw, two each.

A favorite of the elite smokers, the "Brilliante" cigar. **

Mile races at the roller rink on Saturday evening resulted in the following winning: Fitzgerald (preliminary); Stratton, Vancouver; Perry (main event). The time of the race was not taken, as the size of the rink does not admit of the existing record being broken.

The funeral of Neil Craig, one of the best known old-timers of the Mount Lehman district, took place yesterday afternoon. Deceased was 74 years of age, general debility being the cause of death. For many years he had acted as mail carrier between Mission and Mount Lehman.

Yielding to the requests of a large number of friends of the deceased, it has been decided that the funeral of the late Mrs. (Dr.) W. A. De Wolf Smith, which takes place at 2 o'clock this afternoon, would not be of a private nature as at first intended. The cortege will proceed from the Columbia street residence to Holy Trinity church, where Rev. A. Shildrick will officiate, thence to the Church of England cemetery.

The new government dredge for Victoria harbor is destined to be further delayed. The work of construction has again and again been held up in one way and another, but it was confidently expected that the launch would have taken place early this month. The last delay was due to the non-arrival of necessary material, but this has not yet all arrived and the contractors are now having to lay off men. The launch will not take place for at least two weeks.

On Wednesday the lacrosse men will take the field for the first time this season at Queen's park. Fourteen men will be there with the sticks ready for the fray and they propose to demonstrate that their work this year will not be behind that of last. All of the 1907 line up will be on deck and two new men. During the past few days the boys have spent a large portion of their spare time examining their new sticks at Ryall's and now all have been satisfied and found a net suited to their peculiarities of taste.

Confident that he could easily handle anything in the way of horseflesh, Arthur Howard, of the Colonial hotel, yesterday morning hired a partly broken-in broncho from Ed. Bell and started off on a pleasure jaunt. Opposite the Guichon hotel the horse took fright at an approaching street car. Howard undertook the pacify the animal, but his knowledge of the wiles of the brute failed him at the critical moment. When he recovered his senses in the parlor of the Guichon twenty minutes later, he advised Dr. Kenney, who had been hastily summoned, that he did not desire to go to the hospital as he did not think there was anything serious the matter with his shoulder, that portion of his anatomy having been the first to reach terra firma after the sudden and unexpected aerial flight. After disposing of its rider, the broncho headed for the boundary line, but the interference of George Hargreaves, who declined to allow the equine to cross the Fraser river bridge without paying toll, effectively put an end to these aspirations.

A. N. PRENTICE. Lessee and Manager

Engineer J. Francis Le Baron, of Cleveland, Ohio, arrived in the city on Saturday from the south. Mr. Le Baron was the hydraulic engineer engaged by the citizen's committee to report on the deepening of the Fraser river channel, the results of which have so far proved satisfactory. Mr. Le Baron is now on the coast to consult with the B. C. E. R. officials with reference to the draining of Sumas lake, and the consequent reclamation of twenty thousand acres of land along the route of the new Chilliwack branch of the B. C. E. R. He will make his headquarters in Westminster while investigating conditions at the lake.

M. Monk has leased one half of his new wharf and building on Front street east to Herbert Rushton, who has opened up a machine shop on the west end, making a specialty of gas engines and automobiles. Mr. Rushton has a modern equipment, of which a large lathe and drill is on the spot, while other machinery, including a steel planer or shaper is expected inside of two weeks. The plant is operated by a large gas engine. The proprietor is preparing to build a large gasoline storage tank under the wharf. The tank will hold some 400 gallons, safety being assured by a patent safety valve equipment.

LEE'S Hand-Made Furniture

Doubtless you have some time bought a piece of furniture which was not exactly what you wanted, but which you thought might serve the purpose.

And it wasn't long before you hated the sight of that chair, table, Davenport, or whatever it was.

You will never acquire a piece of Lee's furniture one day to grow weary of it the next. It becomes an intimate friend and endears itself to you more and more as the time rolls by.

Perhaps you are unaware how much we manufacture ourselves. Just ask the salesmen to show you over the factory at

THE SEAT OF THE PULSE.

It Varies Greatly In Different Persons and Conditions.

The pulse of women generally beats at a slightly faster rate than that of men. It may be said that when a person is at rest his pulse, that of any adult, may be from seventy-five to eighty times a minute. Great variation exists in different individuals in respect of the number of beats. After exercise the pulse quickens because of the stimulation of the heart, and the same result applies to the effects of taking food. A dose of alcohol will also stimulate the pulse somewhat, just as the use of tobacco, especially in excess, will tend to have an opposite effect—namely, that of lowering the rate of the pulse, because of the depression of the heart which results. In fevers and inflammatory diseases the pulse rate tends to be very much increased and also in respect of its character. Instead of beating quietly the blood vessel in such cases exhibits a very full and bounding movement. On the other hand, where depression exists and the temperature of the body falls, the pulse may be unnaturally slow and its character weak. Physicians are accustomed to distinguish other characteristics in the pulse, such as become valuable hints in the discovery and determination of disease. The practical lesson we learn here is that where the pulse continues for any length of time to have its beats quickened to an unnatural degree and where especially a rise of the temperature or heat of the body accompanies these symptoms we ought to suspect some kind of feverish condition or other to be represented. The pulse alone forms a valuable enough guide to this state of the body, but its value is very much increased if to the information given us by the pulse we add that which the use of the thermometer supplies.—Cardiff Times.

A Policeman's Strategy.

When Captain W. E. Weber was a patrolman a clothing store upon his beat was robbed one night. The thief had taken off his own old clothes and left them in the store. He had put on a new suit and worn it away. The old suit was that of a boy about fifteen years old.

Weber gathered up the clothes and took them to the old fire patrol house at Seventh avenue and Wyandotte street. He put them upon the floor and, turning the hose on them, drenched them with water. Then he went down to the junction, where at that time the newsboys congregated in great numbers. He gathered a dozen of them around him.

"Boys," he said, "the police found some clothes down on the river bank this morning. It looks like a boy had been drowned. I want all of you to come up to the fire station and look at the clothes. Maybe you can tell me who they belonged to."

No sooner had the "newsies" gathered around the pile of water soaked clothes than one little fellow spoke up:

"Them's Nifty Smith's. I seen him wearin' them red galluses, an' he sewed that patch on the knee there hisself."

Other boys corroborated this story. In less than an hour the officer had corralled Nifty and made him confess to the robbery.—Kansas City Star.

Poisoned With Food.

If one were to say that thousands of people regularly and almost systematically poison themselves with food, it would strike the average layman as extravagant. The opinion of the layman, however, cuts no figure when compared with the scientific deductions of one who has carefully observed the facts. How many people are there who select their food with care, eat it at the right time and in the proper way to secure good digestion and subsequent absorption of just the physiologically correct amount of nutriment required to repair the waste incurred by the duties of everyday life? There are very few. Some starve themselves, but the great majority go to the other extreme and constantly overeat. One eats too much at regular mealtimes, while another eats less, but feeds more frequently. In either case the digestive apparatus is overtaxed.—A Physician in New York World.

A Robust Ghost.

John Leech and a member of the Millais family once stayed a night at Cowdray hall, in England, where, many guests being present, the two friends had no alternative but to accept rooms in an isolated wing supposed to be haunted. In the middle of the night Millais awoke, believing that some giant was shaking him violently by the shoulder. This was supposed to be the favorite device of the ghost. He rushed into a corridor and found Leech sitting there trembling and declaring that he would not for the world go back to his room. They spent the remainder of the night in the corridor, but in the morning said nothing of their experiences. In the afternoon there arrived an evening paper telling of a violent earthquake in the locality. The earthquake was what the two visitors believed to be their ghost.

William as a Matchmaker.

A curious instance of the active part the kaiser takes in arranging the marriages of relatives and friends is recorded. A personal aide-de-camp of his majesty was very much depressed by the lady of his choice giving him a refusal. The same afternoon the kaiser drove to the house of the young lady, the daughter of a wealthy Berlin banker, and pleaded the cause of his aid-de-camp with such eloquence that the marriage took place a month later.

HYGIENIC DAIRY, Limited

Incorporated Under the Companies Act (B.C.) 1897 and Amending Acts.

Capital $250,000, in 25,000 Shares of $10.00 Each

Ten thousand shares are now offered for public subscription at $10.50 per share, including a premium of fifty cents per share, the whole payable as follows:

On a block of Ten shares, which is the minimum subscription.

Payable on Application—$15.00, being 10 per cent. and the premium of 50 cents per share.
Payable on Allotment—$10.00, being 10 per cent. within one month of application.
The balance, $80.00, being payable in eight equal monthly instalments of $10 each.
There are no preferred, deferred, promoters' or founders' shares.

PROVISIONAL DIRECTORS.

The following, signatories to the articles and memorandum of association and others, have consented to act as Provisional Directors:

M. P. THOMSON, Esq., (Thomson Stationery Co.).
S. J. TUNSTALL, Esq., M. D.
CHAS. E. HOPE, Esq., (Hope, Graveley & Co., Ltd.).
A. L. KENDALL, Esq., M. D.
W. S. HOLLAND, Esq., (Insurance Agent).
J. A. FLETT, Esq., (Hardware Merchant).
H. A. EASTMAN, Esq. New Westminster.

Mr. A. Cruickshank, of Matsqui, will join the Board after allotment, in the event of the exercise of the option now held by the Company upon certain land now owned by him.

Bankers.	Auditors.	Solicitors.
Eastern Townships Bank, Vancouver, B.C.	Clarkson, Cross & Helliwell, Chartered Accountants, Vancouver, B.C.	Messrs. Burns & Walkem, Vancouver, B.C.

Secretary, A. Farmer, Esq. Temporary Offices, 322 Cambie St., Vancouver, B. C.

PROSPECTUS.

This company is formed for the purpose of supplying the City of Vancouver with absolutely clean and pure milk of the highest quality, free from drugs and deleterious germs. The need of such a milk supply is so well known that there is no need to dilate on this question, the plans of the Company having the earnest support of the Medical Society, the Provincial and City Health Officers, and every doctor in the City.

An option has been secured at a very favorable price on the well known Cruickshank Farm at Matsqui, close to the C. P. R., and on the route of the Chilliwack tram line. This property comprises 640 acres, of which 400 acres are in a high state of cultivation, and the balance is rich pasture. It is proposed to erect thoroughly modern barns with cement floors throughout, well ventilated and lighted, and a modern ice and bottling plant, shipping by special refrigerator car to Vancouver every day.

The price to be given for the farm is $75,000, or about $117 per acre, a very low figure considering the quality of the land, the improvements and the situation. It would be hard to find a farm better adapted for the purpose of a large modern dairy. The terms of purchase are $25,000 cash, and the balance in fully-paid shares of the Company.

From the sum of $100,000 to be realized from the sale of 10,000 shares now offered, there will remain $75,000 after paying the cash portion of the price of the farm property. It is believed that this amount will be sufficient for the erection of the necessary buildings and equipment and the purchase of about 250 cows, especially selected after careful examination.

THE NEED OF A PURE MILK SUPPLY.

The City has no authority at the present time to inspect any dairies outside the City. The Company proposes to give it this authority, so far as its own farms and premises are concerned, and will welcome such inspection at all times. It also proposes to ask the Medical Association to appoint a committee of inspection.

The City records of 1907 show 148 deaths of babies under twelve months' old, and medical men have stated their opinion that at least 90 per cent., or say 133, of these deaths are directly traceable to milk, either drugged or contaminated at time of consumption. It is needless to say that 148 does not by any means cover the total number of deaths of children, as it is the number of those under twelve months of age only.

Out of thirty samples of milk collected in Vancouver during 1907 and analyzed by the Dominion Government authorities, only two samples reach 3½ per cent., which is the average Canadian percentage of butter fat), and fourteen of them were officially described as either watered or skimmed, and were below 3 per cent., which is the Vancouver City standard.

THE PRESENT DIFFICULTIES.

The average farmer and milk vendor is perhaps unaware of the need of the most scrupulous cleanliness in every detail in the handling and delivery of milk, and lacks the necessary capital for the erection of cement floored barns, properly lighted and ventilated, the equipment of refrigerating and bottling machinery, and the employment of men technically trained in what is now recognized as a business requiring scientific care and management.

Without a supply of natural ice, or the means of artificial refrigeration, milk cannot be kept during the period of twenty-four to forty-eight hours which elapses between milking and delivery, without the aid of powerful preservatives, such as formaldehyde, etc. This drug prevents milk turning sour, even if exposed to the sun, but this and other preservatives are very dangerous.

WHAT THE HYGIENIC MILK COMPANY WILL DO.

This Company will supply milk only of the highest standard, both as to quality and purity. It does not propose to pasteurize milk, which at best is a makeshift.

It should be clearly understood that pasteurized milk is not pure milk; it is only impure milk which has been renovated, and the impurities to a greater or less extent removed.

The very fact that milk needs pasteurizing is in itself a suspicious circumstance. This Company never intends having milk on any of its premises in need of renovation, as it will keep only healthy cows, which will be under constant veterinary supervision; the milk, when produced, will be pure and absolutely clean, and will be kept in that condition until delivered to the consumer.

Immediately after milking, the milk will be aerated and cooled to a temperature of 38 degrees, put in sealed bottles and delivered at the doors of customers exactly as it left the farm, and at the same temperature; this will prevent the need of drugs in summer to keep it sweet, and will also prevent the propagation of injurious bacteria in the milk, to which is attributable the enormous infantile mortality in the City and district.

MANAGEMENT.

Arrangements have been completed to secure the services of a well known dairy expert as general manager. This gentleman has successfully operated one of the largest creameries in Canada, and has made a special study of all matters connected with the handling and feeding of cattle.

Paper estimates of profits are some times delusive, so the directors content themselves with pointing out the well known fact that all the dairy farmers in the district have been for many years doing very well indeed, and the milk distributors have been doing even better, one firm being credited with making a profit of $100 per day all last summer.

It is well known that in no part of Canada can cow feed be produced cheaper than in the Lower Fraser Valley, and as similar companies in the United States, which sell their milk at lower prices than are current here, pay good dividends, there is no reason why this Company should not do the same, as the use of milking machines and labor saving devices in handling the feed, manure, etc., etc., should offset the higher wages of this Coast.

IMPORTANT NOTICE.

The Company aim to keep 500 cows, but it will be obviously impossible to get this number in a year, and while every effort will be made to deliver milk by June, before the hot weather begins, it is doubtful if more than 100 cows can be obtained by then and the necessary barns and buildings completed. In selling the milk, preference will naturally have to be given to the shareholders of the Company, and it is not likely there will be any surplus for sale to the general public for at least the first year of operation, and as there will be probably many people of small means in urgent need of this milk, the shares have been put at a price, and on terms, within the reach of all.

Prior to incorporation the following gentlemen signified their intention of becoming shareholders:

H. A. EASTMAN, New Westminster

Synopsis of Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at an agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

The homesteader is rejuired to perform the homestead duties under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.

(3) If the father (or mother, if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).

(4) The term "vicinity" in the two preceding paragraphs is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.

(5) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the agent for the district of such intention.

Six months' notice in writing must be given to the Commissioner of Dominion Lands at Ottawa, of intention to apply for patent.

W. W. CORY,
Deputy of the Minister of the Interior.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for alterations to the Post Office Building, Victoria, B. C.," will be received at this office until Wednesday, April 22, 1908, inclusively, for the construction of the alterations to the Post Office Building at Victoria, B. C.

Plans and specification can be seen and forms of tender obtained at this Department and on application to William Henderson, Esq., Resident Architect, Victoria, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, March 19, 1908.

NOTICE

NOTICE IS HEREBY GIVEN that one (1) month from the date hereof application will be made to the Governor-in-Council under Chapter 115 of the Revised Statutes of Canada, 1906, for approval of plans of a bridge to be constructed by the Victoria Terminal Railway and Ferry Company over the Serpentine river on the line of the said company's railway between Blaine and Olivers in the Province of British Columbia; and also for approval of plans of a bridge to be constructed by the Victoria Terminal Railway and Ferry Company over the Nicomekl river on the line of the said company's railway between Blaine and Olivers in the said Province of British Columbia. Plans of each of the said bridges and descriptions of each of the sites thereof have been deposited with the Minister of Public Works, and in the Land Registry Office at New Westminster, British Columbia.

Dated this 1st day of April A.D., 1908.

A. H. MacNEILL,
Solicitor for the Applicants.

IN THE COUNTY COURT OF WESTMINSTER, HOLDEN AT NEW WESTMINSTER.

Between Napoleon Authier (judgment creditor), plaintiff, and R. H. Soles (judgment debtor), defendant.

Pursuant to the order of his honor F. W. Howay, county court judge, made herein this 13th day of March, 1908, I will on **Wednesday, the 8th day of April, 1908,** at the hour of 11 o'clock in the forenoon, at my office, court house, New Westminster, B. C., offer for sale by public auction, all the right, title and interest of the above named defendant, R. H. Soles, in the southeast quarter of the southeast quarter of section sixteen (16), township sixteen (16), New Westminster district, containing forty acres more or less, to satisfy a judgment obtained by the above named plaintiff against the above named defendant, dated first of March, 1906, for $393.84 and the cost of these proceedings.

The above named lands are subject to a timber agreement dated the 29th day of March, 1904, made by R. H. Soles in favor of Alexander Johnston and registered the 8th day of June, 1905, and the above judgment filed the 13th of March, 1906.

This property has a one and a half storey dwelling and outhouses erected thereon and two acres planted in fruit trees.

Terms of Sale, Cash.

Dated the 24th day of March, 1908.

T. J. ARMSTRONG,
Sheriff County of Westminster.

NOTICE.

IN THE MATTER OF THE RAILWAY ACT, and in the matter of the Vancouver, Westminster and Yukon Railway Company and of the Vancouver, Victoria and Eastern Railway and Navigation Company.

NOTICE IS HEREBY GIVEN that under the provisions of Section 361 of the Railway Act, an application will be made to the Board of Railway Commissioners for Canada, at the Court Room of said Commissioners, at the City of Ottawa, at eleven o'clock in the forenoon, on TUESDAY, the 12th day of May, A. D. 1908, for a recommendation to the Governor in Council for the sanction of a certain agreement dated the 26th day of March, A. D. 1908, made between the Vancouver, Westminster and Yukon Railway Company of the one part, and the Vancouver, Victoria and Eastern Railway and Navigation Company of the other part, providing for the sale by the Vancouver, Westminster and Yukon Railway Company to and the purchase by the Vancouver, Victoria and Eastern Railway and Navigation Company from the said the Vancouver, Westminster and Yukon Railway Company, of all that portion of the undertaking and properties of the Vancouver, Westminster and Yukon Railway Company, consisting of the line of railway in the City of Vancouver described in said agreement and from the City of Vancouver to the City of New Westminster, and in the City of New Westminster, and all lines of railway connecting it with the bridge over the Fraser river at New Westminster, and all rights arising out of any order of the Board of Railway Commissioners for Canada, pertaining to the maintenance or operation of the said lines of railway or any of them, and all other property, real or personal, acquired for or held by or in trust for or on account of the said lines of railway or any of them.

DATED this 27th day of March, A. D. 1908.

JAMES JEFFREY,
Secretary of the Vancouver, Westminster and Yukon Railway Company.

— IN —
THE DAILY NEWS
If You WANT HELP

ALL OVER THE HOUSE.

To Remove Grease Spots From Carpets and Clothing.

Spots on carpets and unwashable clothing are not difficult to remove. First brush out any dust that may have gathered on the soiled place. Then rub powdered French chalk, or, if this is not at hand, common chalk or magnesia, on the wrong side of the fabric if you can get at it. If not, apply a paste of the alkali to the right side and cover to exclude the dust. Leave it thus for twenty-four hours. Now lay several thicknesses of tissue or of blotting paper over the chalk and set a moderately hot iron on it, shifting the paper as the grease appears on the surface. This is best done by working from the wrong side. If all the oil is not extracted, sponge with household ammonia and renew the alkali.

Javelle Water.

To one gallon of water add a one pound can of chloride of lime and four pounds of common washing soda—sal soda. Allow it to boil ten minutes. When cool turn into bottles, fruit jars or stone jugs. A cupful in a tub of water will loosen dirt in the most soiled clothing, bleaching perfectly. It will cut grease and dirt out of cooking utensils, sinks and drain pipes. Dilute the javelle water for all except for washing clothes. Keep tightly corked and plainly labeled.

Horseradish Sauce.

Put into a saucepan over the fire a tablespoonful of butter and a half tablespoonful of flour. Stir and cook until blended, then add one-half cupful of strained soup stock, half a cupful of milk, half a teaspoonful of salt, five whole peppers and a bit of bay leaf. Cook five minutes, remove bay leaf and peppers, add three tablespoonfuls of grated horseradish, cook a minute longer and serve.

Care of the Baby.

Don't give the baby any kind of raw food or any kind of fruit.

Don't give the infant coffee, tea, beer or any liquor or any kind of food except that which is prescribed.

The infant should sleep alone in a crib. Don't let the baby sleep in a room near the kitchen. Don't have unnecessary clothing in the room where the baby is kept.

Four Tongue Twisters.

Tongue twisting sentences are always good fun makers. Here are four for our young folks to try: 1. She sells shells. 2. The sun shines on the shop signs. 3. Shave a cedar shingle thin. 4. How much wood would a woodchuck chuck if a woodchuck could chuck wood? When you give these twisters out make it a condition that they shall be spoken quite rapidly, and you will have lots of fun.

LAND REGISTRY ACT.

Re lot 11 and the north half of lot 10, block A, Government Office Gardens, New Westminster City.

A certificate of indefeasible title to the above property will be issued to Frederick John Hart, on the 11th day of May, 1908, unless in the meantime a valid objection thereto be made to me in writing by a person or persons claiming an estate or interest therein, or in any part thereof.

C. S. KEITH,
District Registrar of Titles.

Land Registry Office, New Westminster, B.C., April 8, 1908.

The person or persons having in their custody or possession the following title deeds relating to the said property are requested to deliver the same to the undersigned.

(a) 17th January, 1887, New Westminster City to J. Wilson, conveyance in fee.

(b) 8th August, 1888, J. Wilson to T. R. McInnes, conveyance in fee.

(c) 11th November, 1890, T. R. McInnes to Florence Blanchard Bole, conveyance in fee.

YOUR OWN FACE.

Would You Recognize It If You Saw It on Another?

"How curious it is," said the philosopher, "that the person for whom you care most on earth, the one you see oftenest and who receives your most constant attention, is the one whose countenance is least familiar to you."

"Who is that?" asked the visitor.

"Yourself," said the philosopher. "It is a fact that if people could be duplicated and could meet themselves in the street very few would recognize themselves. We look at ourselves many times during the 365 days of the year. We say our eyes are blue or brown or whatever other color they may be, our hair black, our chin peaked, our forehead high. We know every lineament of our face from constant study and attention, yet when we turn away from the mirror we cannot conjure up a picture of ourselves.

"We know just how our friends and even acquaintances look. In fancy we can see them sitting so or standing so, and their varying expressions under different circumstances are clear to us even though we may not have seen them for years, but when it comes to ourselves we cannot fill in even the outlines of the picture. We may laugh, we may cry, we may frown, but we do not know how we look while we are doing it. Photographs do not help us. We have never seen ourselves in the flesh. Mirrors and pictures are poor aids when we sit down and try to see ourselves with the mind's eye.

"That is why people are so deeply interested in anybody who is said to resemble them. Just say to a man, 'I know somebody who is the dead image of you,' and he will never rest till he sees that person. Then if the likeness is really true he will own that up to that time he had had no conception of how he really looked."

The visitor smiled wanly.

"I wish you wouldn't talk like that," she said. "It makes me feel positively uncanny."—New York Press.

Turkey's Way of Raising Revenue.

The land in all Turkey and her dependencies belongs to the reigning sultan and is only occupied at his will. It is divided among those who wish to cultivate it at a nominal rental of one-fifth of the produce, which goes directly to the crown. Three-fifths more are taken from the lessee on other pretexts, all for the maintenance of the government, the pasha in each district having the authority to lease the ground and collect the taxes, which may be in kind or money. If crops are short, they take four-fifths of all the man has in animals and even in household utensils, sometimes all his possessions, to make up the deficiency which Providence has withheld. Everything that can produce, be it a tree, beast, fowl, worm or the labor of a man and his family, is subject to the four-fifths tax. Those who toil at any labor or trade other than agriculture are taxed also pro rata according to their wages and must pay or go to prison.—Pearson's Weekly.

How to Remove a Corn; Try It.

Expose the corn and pass the finger tips of your right hand over it slowly and caressingly, at the same time sending a vibration from the brain to the corn. If it is a soft corn 413 vibrations per second will suffice; if a hard corn, put on a forced draft. Repeat slowly, "I am now sending a current of thought force into my corn and so separating, deducing, disintegrating, rendering, splitting, sundering, splintering, snipping, dwellicating, whittling, dispersing, dislocating, eliding, divoroing, pulverizing, slashing, slicing and dissecting it that presently it will pass away. Repeat it three times; then with rising inflection, "Avaunt, avaunt, avaunt!" Finish by repeating the password: "The universe is mine! I am it." The corn will at first look extremely surprised, then wilt and fade beautifully from sight.—New Thought.

A Nice Distinction.

A well known Atlantan has a wife with a sharp tongue. Jones had come home about 2 in the morning rather the worse off for a few highballs. As soon as he opened the door his wife, who was waiting for him in the accustomed place at the top of the stairs, where she could watch his uncertain ascent, started upbraiding him for his conduct. Jones went to bed and when he was almost asleep could hear her still scolding him unmercifully. He dropped off to sleep and awoke after a couple of hours, only to hear his wife remark, "I hope all the women don't have to put up with such conduct as this." "Annie," said Jones, "are you talking again or yet?"—Kansas City Star.

Near Schwenksville, Pa., is a village that bears the name of Woxall. This wonderful name was the result of an error upon the part of the postoffice department in Washington. The place was known many years ago as "Croppastettel," or "Crowtown," and later as Mechanicsville, but when a postoffice was established there in 1888 neither of these names was satisfactory, and it was decided to choose a new cognomen. Many were the suggestions submitted to the postoffice department, but all were found to be too nearly like the name of some other postoffice to be acceptable. One day the village storekeeper saw the word "Noxall" upon a piece of calico and called the attention of several friends to it. At once all agreed that "Noxall" would be a fine name for their town. So the postoffice authorities were notified. Soon a letter came from Washington approving the name that had been chosen, but in the letter it was spelled "Woxall." So Woxall became the name of the village.—Philadelphia Record.

GOLD TO BE DREDGED ON LARGE SCALE IN YUKON

Ogilvie Company, Capitalized at $20,000,000, Embarks on Great Mining Venture.

Vancouver, April 12.—After five years of prospecting and preparatory work in the dredging in the valleys of the Stewart and Yukon rivers, the Yukon Basin Gold Dredging Co., Ltd., has finally been formed with a capital of $20,000,000. Dredging lease-holds have been obtained, extending over a distance of 100 miles, and the holdings approximate 10,000 acres.

William Ogilvie, who arrived in the city yesterday and who is financially interested in the venture, says that a small dredge with a capacity of 2600 cubic yards a day is being built in San Francisco for the company, and that the woodwork will be prepared here and taken into the Yukon for further developmental work. If the yield is what is anticipated, forty similar dredges will be built, and Mr. Ogilvie makes the startling statement that he expects these to take out more than $1,000,000 of gold every month. Even at this enormous rate of salvage, many years will be required to dredge out these holdings.

The board of directors of the company consists of three Canadians and four Americans. The property acquired on the Stewart river is one of the largest mining areas obtained by one syndicate in the world.

Lumber for Doukhobors.

Nelson, B.C., April 12.—Peter Verigin, the noted leader of the Doukhobor settlement in Canada, has spent several days in Nelson, being a guest at the Queen's hotel. Mr. Verigin took his meals in his room and did not mingle with any of the other guests. In business transactions he was represented by his private secretary, but he also had a timber inspector with him. It is learned that the object of his visit is to acquire timber limits in Kootenay and arrange for the erection of saw-mills to supply his compatriots with lumber for building cheaper than they can buy it from retailers in the prairie towns. So far, it is understood, he has not yet decided upon any acquisition.
