GENERAL ELECTION TO BE HELD IN THE AUTUMN

ADJOURNED THE HOUSE TILL MIDDLE OF JULY

Supplementary Estimates of $34,000,000 Given Royal Assent---Members May Now Go Home—Reciprocity First Item for New House

(Canadian Press Despatch)

Ottawa, May 20.—Atfer attending the Senate in a body, where Sir Charles Fitzpatrick as deputy Governor-General gave the Royal assent to the supply bill for $34,000,000 and several other bills which had passed their third reading, the House of Commons ceased its work shortly before ten o'clock last night.

Reciprocity in June

Before the House formally adjourned till after the Coronation, Mr. R. L. Borden asked when the question of reciprocity with the United States wuold be taken up. Hon. W. S. Fielding, who in the absence of Sir Wilfrid Laurier is acting as Leader of the Government, replied that it was the intention of the Government to take up the question immediately upon the House re-assembling on July 18th.

PROVINCE WILL BUILD A JAIL-FARM AT BURNABY

Tenders Were Called For To-Day—Will Have But One Central Prison for Whole Province

(Canadian Press Despatch)

Vancouver, May 20.—The first move for the systematic re-organization of the prison system of the Province was made this morning when tenders were called for the construction of a prison farm building at Burnaby. This is the beginning of a series of improvements to relieve the overcrowding of the provincial jails.

Will Raise Food-crops

The plans provide for one large Central Prison for the Province with large lands surrounding it. Two hundred acres will be given over to farming. The farm will be worked by the prisoners, who will be set to work raising the essential food-stuffs.

Marks an Advance

The new system of farm- has worked well in other places, and it is here believed it will work more good for the prisoners, and more economically for the province than the old method of putting the prisoners to work on unpleasant and confining occupations.

HAS STARTLED HER FRIENDS

Miss Laura Barney, wealthy and talented sculptress from Washington, marries an eccentric French mystic.

(Colonial Press Despatch)

May 20.—Miss Laura Barney, the talented young sculptress, and modeler of the nude statue of her beautiful sister, Natalie, which was long a centre of interest as it reposed upon the lawn of the Barney mansion at Washington, has startled her friends and relatives by her marriage in Paris to Hypolite Dreyfus, High Priest of the American Budapest Society, and one of the most strange and eccentric men in Europe.

Dreyfus is a black-bearded, gigantic Magi with one lame leg, whose mystic teachings have gathered about him a coterie of wealthy women, whom he is said to rule with a rod of iron.

Running shoes of all descriptions can be got at Scott, Froud & Co.

AN ELECTION IN THE FALL

Vancouver Liberals Said to have Received a Warning

(Canadian Press Despatch)

Vancouver, May 20.—The Liberals of British Columbia are said to have received private information from Ottawa to prepare for a Dominion election in the fall. At two annual ward meetings in this city the matter has been discussed, but at both the press were excluded.

THEY KNOW NOT WHAT AWAITS THEM

FIVE FUTURE KINGS AND QUEENS OF EUROPE

(Colonial Press Despatch)

May 20.—Five happy and heedless future kings and queens. From left to right are the Czarewitch of Russia; Princess Margartia of Greece; Prince Ludwig of Hesse; Princess Theodora of Greece and Prince George of Hesse.

The charming photograph of the quintette of children of royal estate, of which the above cut is a reproduction, was taken at the Adriatic resort of Abazzia, where there was a wonderful collection of kingly and princely children this spring.

A little while ago the group included also all the royal children of Italy, but they were taken back home by their parents to be present at the Italian Jubilee celebrations.

The two little Hesse princes are the children of Grand Duke Ernest of Hesse, one of the greatest royal houses of the German Empire, and the Princesses Margarita and Theodora of Greece, are the children of Prince and Princess Andreas, the latter of whom was a Battenberg, and is esteemed one of the loveliest princesses of Europe.

DIVER AT WORK ON NEW GOVERNMENT WHARF

Interesting Spectacle at the Foot of McBride Street--Under-water Blasting is Killing All Sorts of Fish----Preparing Foundation for the New Concrete Piles.

A diver is now busily at work preparing foundations for the concrete piles of the new Government Wharf. Blasting operations are being carried on beneath the water, and the firing of the shots is causing consternation and havoc among the finny population down there.

All sorts and conditions of fish big and little, eatable and uneatable are killed by the concussion in the water when the explosions occur, and their bodies float up to the surface. It is only necessary then to dip them out with a sweep net. The rumor that some of the fish are also cooked by the blast is not to be taken seriously. We have wonderful fishing in Prince Rupert Harbor, but not so wonderful as all that.

Progress on the Government wharf will be greatly expedited by the employment of the diver. The work of construction has been going on with steadiness if not speed, recently, and the engineers have had several difficulties to contend with which could only be conquered by patient effort. Plenty of strong re-inforced concrete piles are ready to place in position. The machinery for placing them is there. The difficulty has been to get the foundation right.

TRAIL FROM TUCK'S INLET CLEAR TO PORT SIMPSON

Mr. W. Wright Has Surveyed the Road for the Government---The People of Prince Rupert Will Soon be Able to Walk There In From Five to Six Hours

A new trail has been surveyed, and will soon be opened up from the head of Tuck's Inlet to Port Simpson via Georgetown, a distance altogether of about twelve miles. This trail will make possible a series of easily accomplished excursions for residents of Prince Rupert, and is acceptable news. The trail runs for some distance beside the route of the new railway to Port Simpson.

Mr. W. Wright, the surveyor attached to the Government Public Works Department, has already made a survey of the route which lies on good bench land all the way. The trail can be constructed without any tremendous outlay, and the work will certainly be started very shortly. The distance from the head of Tuck's Inlet to Georgetown is 3 1-2 miles, from there to Port Simpson 7 1-2. This distance can be covered over the trail in about five or six hours. Formerly the old-timers here used to go from Metlakatla to Simpson by way of the coast, in about seven hours.

Mr. Wright is now in Kitsumkalum arranging for the trail to be constructed between that point and the Naas. It is the intention of the Government to do a great deal of work in these districts this season, and new trails will be opened up in as many directions as may be necessary for the development of the centres opening up just now.

For the 24th

Everyone will be dressed in their holiday attire and to look properly dressed you will need tan or canvas shoes. Scott, Froud & Co. have a big assortment.

VANCOUVER GIRL FATALLY BURNED

Miss Nellie Hogg is the Victim of a Pot of Boiling Wax

(Canadian Press Despatch)

Vancouver, May 20.—Miss Nellie Hogg, a domestic employed in the household of Mrs. Gie of 2716 Point Grey Road, was fatally burned yesterday afternoon, dying in the hospital at night from her injuries.

The unfortunate girl was busy in the kitchen, when a pot of wax on the stove boiled over and burst into flames. In attempting to put out the flames, some of the burning substance caught on her clothes, which became ignited. She was hastened to the hospital but without avail.

CANADA'S PREMIER GOT A ROYAL RECEPTION

Lord Mayor and Council of Liverpool Tendered a Civic Reception—Royal Train, Decorated With Flowers, Placed At His Disposal for Trip to London

(Canadian Press Despatch)

London, May 20.—The affection which the people of Great Britain hold for Sir Wilfrid Laurier was shown on his arrival at Liverpool yesterday afternoon. The Lord Mayor and the City Council, attired in their robes of office, with the stage coach in waiting, received the Canadian Premier as he stepped off the Virginian.

Royal Train Waiting

The London & North-Western Railway placed at his disposal the saloon cars of the Royal train, which was decorated with flowers for the occasion. Crowds of people gathered at the boat side and gave a popular expression of their welcome.

Politics Avoided

At the civic reception, Sir Wilfrid delivered a graceful speech, avoiding all reference to politics. Interviewers who saw him later were received by Sir Wilfrid, but he firmly refused to be interviewed on political topics.

ASK FOR LINE INTO THE PEACE RIVER COUNTRY

Vancouver Merchants Hold a Meeting—Want Province to Build or Assist in Building.

(Canadian Press Despatch)

Vancouver, May 20.—The need of providing a railway from the coast cit ies into Northern British Columbia and the Peace River country was emphasized last night at a large meeting of the business men of Vancouver called for the purpose of discussing question ofs railway service.

Passed a Resolution

The meeting finally passed a resolution urging the Provincial Government to provide or to assist in providing a railway into the Peace River country from the coast cities.

A Wealthy District

It was pointed out that the Peace River district when settled will become one of the wealthiest portions of the province, and that the building of a railway would greatly help the work of settling this rich district.

For canoes, row boats, launches call at Johnston's Boat House at the foot of Third avenue and Cow Creek.

VEIN OF ORE ON SECOND AVENUE

Copper and Iron "Paystreak" Laid Bare by Blast

This morning a vein of quite good quality copper and iron ore was laid bare by the effects of a shot fired on S. P. McMordie's Second avenue cut.

There was quite a little stir amongst the workmen at the time, and almost a miniature mining stampede. Samples of the ore will be assayed without delay, and rumor hath it that already those of the grading gang who have been bitten by the mineral bug, are busy sharpening stakes to establish their right to the "claim."

COAST-WISE WEATHER

Prince Rupert Refreshed by a Little Rain

Today's weather along the coast is for the most part cloudy. Southerly winds prevail, and at some points there is clear weather and sunshine. Triangle reports fog this morning, and Point Grey is making the best of "Cloudy" after having a pretty long spell of worse weather by far than we have been having in Prince Rupert. Today, however, Prince Rupert also has to report "Cloudy." There was a little rain last night which laid the dust nicely.

Dinner in Honor

Mrs. Donald McLeod entertained at a dinner last evening in honor of Mrs. McLean who is leaving for Hazelton. The guests were Miss Mercer, Miss Mabius, Miss Milligan, Miss Marten, Miss Johnstone and Miss McTavish.

CHILICO WRECKED ON THE FRASER

Little Vessel Goes to Pieces in An Ice Jam

News reached town this morning that the little stern-wheeler Chilco was lost on the Farser river on April 29th while running between Blackwater river to Quesnel.

The Chilco's boiler gave out while she was steaming back from Cottonwood Canyon. The boat drifted down the river for two miles into the canyon. After drifting through nearly the whole distance of the Cottonwood canyon the ice jammed and smashed the boat to pieces. The crew narrowly escaped with their lives.

LOST IN SKEENA NOT YET FOUND

Bodies of W. H. Tully and W. Grant are Still Missing

No news has come down river regarding the bodies of Port Engineer W. H. Tully, and the fireman William Grant who was drowned with him in the Skeena the other day. Search is continuing, but it is hardly expected that the bodies will be found immediately. There is a chance that they may come to the surface in a week or so, and be found along the river bank lower down.

To Advertisers

To prevent disappointment, advertisers in the Daily News are requested to send in changes of copy on the evening previous to publication. This applies especially to the Saturday edition. The great growth in the advertising department makes this necessary.

DAILY EDITION. SATURDAY, MAY 20

A TRIBUTE TO YOUR HONESTY

The classified ads in a newspaper are always good reading. More certainly, ven than the news columns are they an index of human nature. And on the whole the index make pretty good reading.

For so many generations we have been under the tryanny of a philosophy that reared itself on a metaphysical premise that human nature was inherently bad, that in the face of abundant evidence to the contrary some of us are in actual danger of looking on the world as a place

"Where every prospect pleases,
And only man is vile."

Both assertions in the couplet are very wide of the truth.

A month ago, the World's Work, published a quite delightful article on the "agony column" in the London Times, tracing out the related messages which passed to and fro in successive issues of the Thunderer; weaving their tales of pathos and comedy and constituting a set of serials in tabloid.

This week, a careful reader of the want-ad column in this paper might have found food for a little homily on the inherent honesty of the Prince Rupert folk. Two advertisements in the Lost and Found section, were appeals to the public to come and claim sums of money which had been picked up on the streets and on the wharf of the city. In one instance the sum found was quite considerable.

The man who finds a bunch of keys, or a monkey wrench or some other article, which like Polonius' good name, is something which enricheth not anyone else but leaves the owner poor indeed might in the eyes of the misanthrope be less an honest than an obliging man. But in the case of a man who picks up a purse or a roll of bills,and straightway advertises the fact, and puts himself about to find the owner, there is no doubt but that he is an honest man and a good citizen. Greater praise than this can no man covet.

But there is still another honest man in our midst whose deeds, but not his name have come to light. He is one of those who is living up to the Tennysonian ideal to

"Do good by stealth, and blush to find it fame."

His deeds have come to light in the following manner:

A reader of the Daily News, on that eventful day when the battle of Kelly's cut was raging, came into the office to inquire if an unstamped letter had been handed in. It had been lost on the way to the post-office, and contained a small sum of money in bills for the repayment of a debt. No trace of it could be found. Neither at the post-office, nor at the newspaper offices was it handed in. Its loss was looked on as certain.

Yesterday, however, an acknowledgment was received from the place to which the letter was addressed, showing that the letter and contents had reached their destination safely. Apparently some citizen on that day of excitement had picked up the letter, stamped it, and carried it to the post-office. It was an anonymous deed of kindness, of a kind that makes more demands on one's capacity for thoughtfulness and social service, than do some of the more heroic acts which find fame in the newspapers.

We have not yet had time in levelling out our rock-ribbed townsite to rival the floral fame of Metlakatla. But when it comes to raising crops of kindly deeds, Prince Rupert is capable of meeting all-comers.

Notes and Comments

Five weeks have passed since the offers of Mr. R. Brutinel to instal in Prince Rupert, gas works, electric power plant and a street railway were received. So far it looks as if the offers have been pigeon-holed among the City Hall archives. This is not a business way of treating the matter. The citizens are waiting for some information and light on the matter. Perhaps someone will resuscitate the documents, and have the matter put on the menu-card for the council some night.

LETTER FROM GEO. LEEK

Prince Rupert's Representative Finds Lots of Interest

Vancouver, May 16th.

"I arrived here late last night, after a very pleasant trip down through the inland passage. The weather was fine all the way and the company on board good. Since arriving at Vancouver the weather has turned to rain, but I find lots of people at Wood's Hotel where I am staying, interested in Prince Rupert and in my visit to the Coronation.

Capt. Stork and his family have just arrived, and we leave together on Thursday across the continent. I will send you particulars of our trip across, from point to point. We are looking forward to it with great interest."

Yours truly,
GEO. LEEK

THERE is an increasing demand for dwelling houses and apartments. Anyone having houses and apartments for rent to be vacant at any time in the near future should list them with us at once as we have many demands by mail from parties who desire to secure quarters by the time they arrive here.

I AM daily asked my opinion as to the permanent values of real estate in Prince Rupert for investment. To all such enquiries I honestly state that any Prince Rupert properties, at present valuations, are a good investment, but I advise my clients who are desirous of taking advantage of "snaps" to invest only where offerings are made at much below present market quotations.

WE are able to pick up for our clients who have ready cash for investments good properiies at from 20 to 40 per cent. below the market by careful watching of fluctuations and chances by our staff. If you have cash for investment and are looking for real bargains call in and talk it over. I can show you how to make quick profits.

Rain Coats

are always in season, are always a subject of interest and you will find some very interesting Raincoat subjects in the new "Oiled Silk" line just in. These coats are remarkably light (weighing 23 ounces) very pliable, and absolutely waterproof. They have just recently been introduced in Canada, though worn in other parts of the world with great satisfaction for years. We have them in all sizes for men and can get them in a few days for the ladies who wish to order ahead.

DEMOCRACY IN ACTION

A Brief but Valuable Article by Francis Marshall Elliot

In 1902 the city of Los Angeles secured a charter embodying the Initiative, Referendum and Right of Recall.

Among the various measures submitted to popular vote under these provisions the following are of special interest:

Protecting Citizens' Lives

In 1907, the city council ,having refused to pass an ordinance compelling the street railway companies properly to equip their cars with efficient fenders, although the mortality and accidents caused by the street cars of Los Angeles were far greater proportionally than those of any other city in the world ,the people framed a tender ordinance, and went before the council with a petition sufficiently large to compel a special election.

The council, seeing that the people were determined to protect their lives, grudgingly passed the desired ordinance and the cars were promptly equipped with fenders, and these fenders in the two years of their use have picked up **two hundred people**, practically unhurt, who would otherwise have been maimed for life or killed outright.

Franchises were Saved

In 1908, the city council, in defiance of a decision of the decision of the Supreme Court of the state and against the advice of the city attorney, and over the protest of a great number of voters, sold for $500 a street railway franchise worth several hundred thousand dollars.

The people at once secured the necessary 7 per cent referendum petition to veto the action of the council and refer the matter to a decision of the voters at the next general election, which was held in December, 1909, and resulted in the overwhelming defeat of the proposed sale, the majority against it being more than 5,000 out of a total vote of 25,000. The cost of this action on the part of the people was exactly **twenty dollars.**

In 1908, the city council, at the behest of the street railway corporations, granted a franchise to the agents of these companies which was known as the "River Bed Franchise." This franchise was exceedingly valuable, worth at granting at the least calculation a million dollars, as it controlled the only right of way for ingress and egress to the city for competing lines of railroad, thus assuring present corporations an absolute monopoly of transportation within the city for all time to come.

The franchise was granted without debate and without notice to the public, in the hope of catching the people napping. But knowledge of its secret passage soon spread abroad and aroused the most intense excitement.

Not only was a referendum petition at once inaugurated, but the irate constituencies of the recalcitrant council commenced the circulation of Recall petitions for every member of that body.

At once the council became alarmed and as swiftly as they had enacted the ordinance, they shamefacedly repealed it, and thus saved their political lives by the very narrowest of margins.

Result, a saving to the city of at least a **million dollars,** and what was of vastly more significance was the lesson to the council that they were the **servants** and not the **masters** of the people.

In 1909, the city council passed an ordinance permitting the telephone companies to raise their rates to their patrons in the city. At once the people invoked the Referendum and at the general election in December, 1909, the ordinance was defeated by a large majority of the popular vote.

S. A. CITADEL WAS PACKED TO DOORS

Ensign Johnstone and His Helpers Have Scored Another

With the brightly lighted hall in the Citadel packed to the doors the Salvation Army concert last night was another splendid success. The long and pleasantly varied programme of songs, recitations and instrumental music went through in swinging style, and the encouraging personality of Ensign Johnstone pervaded the whole of his own staff and all his willing assistants. It overflowed to the audience also and everyone enjoyed the concert up to the limit.

Very effective indeed were the four different picturesque varieties of drill performed by Lieutenant Wright's pupils. Sash Drill, Flag Drill, Dumb-bell, and Indian Club Drill exhibitions were all cleverly carried out, and very much appreciated. Lieutenant Wright, herself a graceful exponent of the pretty exercises she teaches the children, deserves great credit for her training of them.

Mayor Manson presided over the gathering, and the presence of Miss E. A. Froud as accompanist was much appreciated both by the audience and those taking part in the programme.

A Strange Death

Boy Was Frozen to Death in a Car of Oranges

Pasadena, Cal., May 20.—Fred Peck, son of William Peck of Marcellus, N. Y., was taken out of an iced car of oranges at Canadian, Texas, with his hands and feet so badly frozen that he will die, according to word received here today by relatives. Peck had been visiting an aunt in Pasadena and told a friend that he was going to sreal a ride home in a refrigerator car.

A BROKEN NECK IS NO HINDRANCE

Walter E. Duryea Lived Twelve Years and Made a Fortune

New York, May 20.—Walter E. Duryea, who lived almost a dozen years with a broken neck, is dead at his home here today in his 44th year. Duryea broke his neck in August, 1899, by jumping at the Casino at Glencove, landing in the sand on his head in three feet of water.

After spending ten months in a hospital Duryea recovered his faculties to such an extent that by shrewd investment he increased about $800,000 which he inherited from his father to $2,500,000.

DYNAMITE DAINTY WEAR

Prince Rupert Girls May Perhaps Explode

DETONATING RIBBONS

Better Call "Fire" When a Pretty Girl Passes and When She Has Passed Sing Out "All Over."

Prince Rupert girls who dread being hurt by a blast fired in the street-grading, and who go cautiously accordingly, may be the unsuspecting wearers of gun cotton ribbons and explosive waists liable to blow up at any moment, is a startling possibility just brough is a startling possibility just brought to light. Nor is the masculine sex immune from the danger since socks and ties may likewise be articles of destruction. This unsuspected condition of affairs has been discovered through a protest recently filed against the manufacture of artificial silk from cellulose, in which it appears that there is a possibility that almost any article of wearing apparel made to imitate real silk may actually be explosive. There are several processes by which it appears according to the protest by which artificial silk is produced from cellulose.

Grand Trunk Pacific Railway Townsites

Do a Little Thinking for Yourself

Wainwright

Wainwright is one of the Divisional Points on the Grand Trunk Pacific Railway, and had its first boom last year when the steel of the main line of the Transcontinental reached there. It is grown and is still growing not only because it is a town in which the railway is directly interested, but also for the reason that, like Ellison on the Skeena, it is a point where navigation meets steel rails. There are still chances of getting in on Wainwright or on one of its additions, at a very low figures, and easy terms of payment.

Buy in New Towns and Make Money

Watrous

WATROUS, which is the Terminus of the branch line of the Grand Trunk Pacific and the next place of importance to Saskatoon, in the centre of a rich prairie country and is also growing in fame as a health resort. Little Manitou Lake is at Watrous, and the healing power of this water is the wonder of modern medical science. As it is the only great medicinal mineral lake in the Dominion, the railway is bound to make it famous. There is still a chance of planting a few dollars in this townsite, and their rapid growth and crop is bound to be interesting.

Do a Little Thinking for Yourself

Melville

MELVILLE resembles Chicago in "sitting at the gates of trade." The junction point of railways so important as the Grand Trunk Pacific and Hudson Bay railways must, in the natural course of events, become an important city. Now is the time to buy. The prices for choice lots are extremely low and the possibilities for profit practically unlimited. The purpose of the Grand Trunk Pacific in offering these lots so low is to encourage the upbuilding of Melville, and thus create a market for its superb transportation facilities.

Rivers

RIVERS is a divisional point between Melville and Winnipeg, and it also has hopes of having branch connections, one to join the Great Northern at Brandon, and the other to Regina. The Grand Trunk Pacific purchased a large townsite here with the prophetic belief that from its geographical position as the centre of a great wheat growing district, a large city would naturally grow up at this point. And to encourage this growth the railway company is offering lots at low prices and very liberal terms of payment. Better call and see us about Rivers.

Do a Little Thinking for Yourself

Biggar

BIGGAR is one of the divisional points on the Grand Trunk Pacific, and in the company's yards there already seven miles of trackage has been laid and is in use. The site is between Watrous and Wainwright, and the town is named after W. H. Biggar, general solicitor of the Grand Trunk Pacific. It is not only on the main line of the great transcontinental railway, but it also is the junction of the branch lines of that railway to Battleford and to Calgary and the Winnipeg-Edmonton branch of the Canadian Pacific runs through the townsite. Within the last few days we have made several remittances on account of lots purchased in Biggar.

Ellison

ELLISON needs little to be said of it to Prince Rupert people for the reason that since navigation on the Skeena opened a number of people have gone there by boat from Prince Rupert to first look into the whole situation before investing. What they say of this river port and probabilities of its becoming a great railway city is the best kind of advertising for local readers. Those who desire to invest can do so through the Land Commissioner of the Railway direct, through A. W. Bridgman, the company's agent for Ellison in Victoria, or through J. H. Kugler of this city.

ELLISON -- ROGERS' ADDITION -- SEALEY

Every Railway Town is a Money Maker.Think of the unearned increment attaching to present dots on the route of the Great Transcontinental Railway that you know are bound to become, in the next few years and under ordinary rules of Commercial Development, populous, bustling cities. The railway does it. TRANSPORTATION FACILITIES RAPIDLY INCREASE POPULATION. POPULATION RAPIDLY INCREASES VALUES OF REALTY. Before the railway trunk highways and navigable waterways decided the sites and were the builders of the great centres of commerce and industry. The latter is still a mighty factor, and wherever navigable waters meet the steel highway THERE IS BOUND TO BE AN IMPORTANT CITY. This established fact is what makes ELLISON AND SEALEY TOWNSITES so important from the investment standpoint. It must be remembered that Ellison is the railway townsite in British Columbia in which the Grand Trunk Pacific Railway Company is directly interested and is a joint owner. Sealey is situated on the Skeena River and is a townsite within a townsite. On its three sides the lots of Ellison are divided from those of Sealey simply by the width of the streets; its fourth side is the waterfront. Sealey has already the nucleus of a business centre. The shops and supply warehouses of the great railway contractors, Messrs. Foley, Welch& Stewart are situated at this point, and it is the river port of the company's steamers. A lusty payroll is a mighty factor in the building of a city. In a direct line from Sealey through the heart of Ellison, and only seven blocks from the site of the railway station and the great freight yards, is ROGERS' ADDITION TO ELLISON. Its slight and gently sloping elevation makes it ideal for the residential section ofthe City and Port of Ellison. Investors have, therefore, a choice. Lots in Ellison are $250 for inside, and $350 for corners. Sealey lots run from $200 to $375 according to location. Rogers' Addition lots are $150 for inside, and $250 for corners, with liberal terms of payment. A lot in any Grand Trunk City cannot fail to be a safe speculation or a profitable permanent investment.

WANDERERS' CLUB SMOKER

Open Night, and Male Concert Proved a Great Success

In their club rooms last night the Wanderers' Club held an open evening and smoker. Invitations were extended to all members and their friends, and a large gathering enjoyed a well-planned evening's entertainment.

Music was contributed throughout the evening by Gray's orchestra and songs by members of the Wanderers' Club, and several of the favorite singers in Prince Rupert were given at intervals. The smoker lasted until nearly midnight and was voted altogether an undoubted success.

STATE BALL IN LONDON

Brilliant Affair in Honor of German Monarchs

FIRST ONE GIVEN

The Era of Official Mouring for King Edward is Ended—Romance is Busy With Two of the Royal Dancers.

(Canadian Press Despatch)

London, May 20. The first state ball to be held in the reign of King George took place last night at Buckingham Palace in honor of the German Emperor and Empress. It was a brilliant success, and worthy of the great occasion.

Principal among the guests was the charming only daughter of the German Emperor, for whose entertainment the Court Ball was largely commanded. Her attendance was of especial interest owing to the likelihood of a Royal betrothal of the charming princess to the young Prince of Wales, who was present and took part in the festivities.

PRESENTATION WAS MADE

Mr. G. H. Griffin Honored by His Friends on Daily News

An interesting presentation was made in the office of the Daily News last evening, when Mr. G. H. Griffin, of the mechanical department was presented with a leather travelling bag, on the eve of his departure on a three months' holiday trip to the old country. Mr. Griffin who has been three years on the Coast, is a native of Birmingham, England. During his stay here, he has made many good friends, who wish him a safe journey over the seas, and a safe journey back again. The many practical uses to which a leather bag can be put to by a traveller, were pointed out to him, by some of the experienced travellers on the staff. Mr. Griffin will leave for the South by the Princess May on Monday morning.

CANNERY OWNER KILLED BY GUN

Mr. Chas. Lord of Ladner Meets Accidental Death

Through the accidental discharge of a rifle, Mr. Charles Lord of Ladner, was almost instantly killed on Tuesday evening. It is believed that the gun caught in his clothes and was discharged. The accident occurred in a small shack near Ladner, and the only person with him at the time was William Simms, better known as "Miner Bill."

The deceased was well known throughout the district and was considered one of the best cannery men on the coast, and had been in the business for a number of years in the vicinity of Ladner. He was about 45 years of age and leaves a widow and seven children.

Classified - - Advertisements

One of the best services the modern newspaper gives the public is in the classified advertisement columns. There buyer and seller, employer and worker, landlord and tenant, and a host of others meet on common ground. To put this modern convenience in reach of everyone the News will reduce its rate to a nominal price of a cent a word per insertion. Minimum charge of 25 cents. Here is our Classified Advertising Column for today. Watch it grow.

Good Views

McRae Bros., the leading stationers and booksellers, etc., Sixth street, are showing some new local view post cards of the Skeena river that are particularly good. These cards McRae Bros. have had reproduced from sketches made expressly for the G. T. P. by Mr. G. Horne Russell, Canada's most famous landscape artist, who made Northern B. C. less than a year ago. These cards are beautifully lithographed in colors and are great for sending to friends at a distance. There are six different views and the set sells for 25 cents.—'Phone 78 Red.
