VERY BUSY MORNING FOR TRAINS AND STEAMERS

BRITISH MERCHANTMEN IN BALTIC ARE RELEASED

Success Still Attending Allies Along The Various Fronts

C.P.R. STEAMER HAD MANY ON HER

PRINCESS CHARLOTTE ON THE FIRST OF HER TRIPS HERE ARRIVED YESTERDAY

Captain Troup Came North With Her, Together With Other Officials.

The C. P. R. steamer Princess Charlotte, looked upon as the most pretentious of the company's fleet on the Pacific coast, arrived here yesterday morning on the way to Skagway with about 245 passengers on board. The company was almost exclusively tourists. For the most part they were from the United States. Arriving about nine o'clock, the steamer did not get away until noon. She will make three trips to the north this summer. The Charlotte is under the command of Capt. John MacLeod, the veteran navigator of the company in these coast waters. In addition to this the Charlotte has Chief Engineer John Heritage, the veteran of the engine room in the service of the company. It is Chief Engineer Heritage that has been sent successively to English shipyards by the company to look after the installation of the engines in the vessels that have been brought out from time to time and who has been chief engineer on the trial trips and the voyages out.

Among the passengers on board on the trip were Capt. J. W. Thorp, Manager of the Canadian Pacific Coast Steamship service; R. Marpole, of Vancouver, General Executive Assistant; H. W. Brodie, of Vancouver, General Passenger Agent; and J. A. Mara, an old time resident of this coast.

Mr. Mara who formerly represented the Province in the Dominion House, and was later speaker of the Legislative Assembly of the Province, is making the round trip, as he does every summer. He is known all over the Province, having been identified with the business life of the country from the early days.

BORN.

In this city, on Monday, July 10, to Mr. and Mrs. Herbert S. Woods, 661 Fifth Avenue, East, a daughter.

SOME FACTS ABOUT THE WORLD'S RUBBER OUTPUT

Plantations Of East Produce Seventy Per Cent. Of Whole.

The estimated value of the world's rubber output in 1915, based on a price of 67 cents a pound, which is thought to be slightly under the actual figure, is approximately $215,000,000, of which $155,000,000 is attributable to the plantations of the Middle East. As these plantations have a total capitalization of about $282,000,000, the estimate suggests, according to Consul Harry Campbell, Singapore, an average profit of about 50 per cent., covering all plantations, both producing and non-producing. This would appear to be within the facts, he says, as many of the producing companies, at a price of 67 cents a pound, are reported to be reaping profits of 100 to 200 per cent.

Figures supplied by Mr. Campbell to the Department of Commerce show that the production of plantation rubber in the east has increased from practically nothing to 70 per cent. of the world's supply in the last ten years. They also show that the production of rubber in the east last year was 54 per cent. larger than the production of the entire world in 1906. Mr. Campbell further points out that the production of wild rubber in Brazil shows little change for the ten-year period in question.

AGLOMERATOR AT ANYOX IS MAKING GOOD PROFIT

New Installation At Granby Smelter Is Profit Maker For Company.

The Granby Consolidated Mining, Smelting & Power Company has brought its year to a close. Agreeable to expectations the directors, in view of the record-breaking earnings, placed the stock on an $8 basis, advancing the rate from $1.50 to $2 for the quarter. The aglomerator, which has been in operation for some time, has been giving a good account of itself by adding to the copper output at Anyox. This equipment has demonstrated its ability to extract four pounds of copper from each ton of flue dust at a minimum of cost. The company's mine employees now number 400, and its smelter hands around 200. Shipments from the mine at Valdez, Alaska, will be commenced as soon as transportation is available; steamers are scare just now.

RETURNING OFFICERS FOR ELECTIONS ARE NAMED

M. M. Stephens Will Be Officer For This Constituency.

The B. C. Gazette contains notice of the appointment of the returning officers for the different ridings for the coming elections.

For Prince Rupert the returning officer is M. M. Stephens, of this city. For Atlin, Herbert Young, of Atlin, will act. For Omineca, the officer will be A. R. Macdonald, of Hazelton.

British Shipping Sailed Out From Baltic Unmolested

London, July 10.—As a result of the great battle in the North Sea, the Baltic has been opened up and two hundred British merchantmen have been released from Baltic ports, in which they have been lying idle since the outbreak of the war.

The vessels left Petrograd, Kronstadt and other Baltic ports and proceeded down the Baltic and passed through the Cattegat into the North Sea without the slightest intereference from the German warships. One result of the release of such merchant tonnage is that freight rates, which have been abnormally high, are showing signs of falling considerably.

AUSTRIANS ARE DESERTING TO THE RUMANIANS

Rome, July 10.—Hundreds of fully-equipped Austrian soldiers are deserting from the army and arriving in Rumania, where they are being interned at Dobrudja. They state that the armies of Generals Palanzer and Baltin have been greatly reduced and many of the regiments are unequipped. Transylvanians are denying the soldiers food and are refusing to attend to the wounded. Anarchy is feared.

SOCKEYE SEASON IS WELL ON OFF SKEENA RIVER

Over One Hundred Fish Taken Last Of Week Off Entrance To River.

The sockeye season is now on in the Skeena in real earnest. About the end of the week they came in with the tide off the entrance to the river and as high as 110 fish to the boat were taken. The catches were all of fair size, running from 40 to 100 to the boat.

Slashing Prices at Tite's July Sale of Home Furnishings.

BRITISH AND FRENCH HAVE AGAIN HAD FIGHTING SUCCESS

London, July 10.—British infantry, aided by French artillery, have carried a line of German trenches at Boise de Trones, and the French have taken the village of Biaches.

On the Somme front, from July 1 to July 7, the French captured nine thousand five hundred prisoners; seventy-six cannon and several hundred machine guns.

THE NEW TAX ON BUSINESS PROFITS

HOW THE DOMINION LAW WILL WORK OUT WHEN IN FORCE

A. G. McCandles, Of Vancouver, Explains The Provisions Of The Statute.

The Dominion law imposing a tax on business profits will go into force on November 1 next, and Canadian companies and individuals subject to the tax must send returns of the details of their 1914-15 business to the Minister of Finance.

Nearly every concern in the Dominion doing business on a paid up capital of $50,000 or over, or doing over 20 per cent. of their business in selling munitions of war, will be compelled to pay the tax, according to a circular received by A. G. McCandless, Inspector of Taxation, 211 Winch Building, Vancouver.

The Act applies to all trades or businesses of any kind carried on or partly carried on in Canada, except the following: (a) Life insurance business; (b) farming and livestock raising; (c) the business of any company, commission or association not less than 90 per cent. of the stock of

STEAM PLANT BEING PUT IN AT GRANBY WORKS

Auxiliary Power To That Now In Use There Is Being Provided.

The Granby Consolidated Mining, Smelting & Power Company is at present building at Anyox, B. C., a large modern auxiliary steam power plant, having a capacity of approximately 7,000 horsepower. The work is being done by the Taylor Engineering Company, consulting and contracting engineers of Vancouver.

The new steam plant will be used to supplement the present water power plant and is expected to be in service towards the end of this year.

The total cost is estimated to be in the neighborhood of $700,000.

RUSSIA HAS BEEN REPULSING ENEMY ON STOKHOD RIVER

Petrograd, July 10.—The Russians have repulsed the enemy on the Stokhod River and have captured 12,000 prisoners and the town of Delatyn in Galicia.

GEORGE D. TITE'S BIG SUMMER SALE OF HOUSE FURNISHINGS

The Premier Furniture House In The City Is Offering Splendid Bargains For A Month's Time.

George D. Tite, the well known dealer in all lines of house furnishings, has a summer sale on now. He has cut prices to suit all classes, and is determined to dispose of a good amount of his stock, which he wishes to clear before the new orders arrive.

Mr. Tite has a reputation to live up to in the matter of sales. They are always genuine, and wise householders will profit by getting in and making a selection at this time.

APPLE TREES DOING WELL AT McBRIDE, ON G.T.P. LINE

Success Attends The Efforts To Raise Fruit In Eastern Part Of Province.

There need be no doubt as to the suitability of this part of British Columbia for fruit raising, says The Journal, published at McBride, east of Prince George on the G. T. P. The success that is attending E. Welsh's efforts in this direction and the sturdy growth of the little trees he has set out is enough to satisfy anyone. Mr. Welsh is not, however, alone in making these tests of apple raising, as others also have made a success of raising trees from seed. Nearly all have planted their seeds in boxes, but they will also grow in the open ground. Last year we put in a couple of seeds from an ordinary apple, in unbroken ground on a hilltop and immediately forgot them till the children the other day located a pair of sturdy little apple trees at that spot. Apples must grow here or these two never would have come up after the winter we had and the lack of attention they got.

BORN.

In this city, on Monday, July 10, to Mr. and Mrs. S. J. Evans, 733 Borden Street, a daughter.

BUSY MORNING ALONG WATERFRONT

THREE-FUNNEL STEAMERS CONSPICUOUS YESTERDAY ALONG THE WHARVES

Special Train Of Fish Pulled Out Before The Regular Express.

Yesterday morning was a busy one along the waterfront, and in connection with the railway line. The trim and reliable coasting steamer of the G. T. P., the Prince Rupert, which is so familiar a figure in the harbor, arrived early in the morning from Alaska and tied up at the G. T. P. wharf, after taking on oil at the Oil Company's wharf. Shortly after that the C. P. R. steamer Princess Charlotte with its three funnels, similar to the Prince Rupert, arrived from the south and tied up at the Government wharf.

But at this season of the year, when there is so much tourist traffic, the two big steamers were not allowed to remain long idle at the wharves. At ten o'clock sharp the Prince Rupert pulled off and left at fast speed for the south, to be back here again on Friday on the fast service in which she is engaged.

Meantime the overland end of the service of the G. T. P. was busy. Early in the morning a special train of eight cars of fresh fish was started off for the east over the line, to meet the demands of the far eastern part of the continent. At 10:30 the regular passenger train of the company's got away on time for the east.

Thus, within about two or three hours time there were hundreds of travellers called and either transferred to other means of travel or passed on their way, making a short stay in the city. This will be a regular thing during the summer months.

TUESDAY, JULY 11, 1916.

THE NEW TAX.

(Continued from Page One.)

capital of which is owned by a province or municipality; (d) all business in which less than $50,000 capital was or is employed in any year ending after December 31, 1914. There is a special provision, however, that any person or individual dealing to over 20 per cent. of their aggregate volume of business in war munitions is liable to pay on whatever capital they might be employing, provided that their profits exceed 7 per cent.

Incorporated companies must pay 25 per cent. of their net profits over 7 per cent. and individuals, partnerships and syndicates must pay 25 per cent. of any profits over 10 per cent. The capital of a company is defined as the amount of the capital plus the actual unimpaired reserve, rest or accumulated profits.

The capital employed in the business of any person other than an incorporated company is defined to be "the fair value of all assets, real and personal, movable or immovable, including book accounts and also including accumulated profits used in connection with such business after deducting all money borrowed or debts incurred in connection with the business."

The Minister of Finance has power to disallow any deductions from gross profits for depreciation, renewals, development of business or for any account whatever which do not appear to him reasonable. Special provision is made for an allowance of exhaustion of mines in determining profits of mining concerns.

Tax Is Retroactive.

The tax is for a period of three years. It is retroactive and covers all accounting periods of businesses ending after December 31, 1914, and up to December 31, 1917. By accounting periods is meant the regular period for which account books of any business are kept or closed, for the purpose of showing the financial results of the operations for such period. If any business has no definite accounting period, the Act prescribes one, commencing on January 1 and ending December 31 of each year.

Every company or individual subject to the tax is compelled to make a return to the Minister of Finance showing his net profits for each accounting period. The Minister will on or before September 1 of each year determine the amount of tax payable in any case, and will notify the party liable to pay, and this party will be required to pay before the 1st of November following the notice.

The circular received by Mr. McCandless illustrates the operation of the tax. If a company's business year closes on December 31 it will have to make returns of its net profits to the Minister on July 1, 1916, for the business period ending last December; on July 1, 1917, for the period ending next December, and on July 1, 1918, for the period ending December 31, 1917. Similarly, payment of the tax must be made next November 1 for last year's business period; November 1, 1917, for the business period ending December 31 next, and on November 1, 1918, for the period ending December 31, 1917. In cases where a company's business year coincides with the calendar year, therefore, the business has 10 months during which to pay the tax.

If the business company's fiscal year runs from April 1 to March 31, returns will have to be made at an early date for the two periods ending March 31, 1915, and March 31, 1916, and on July 1 of next year for the period ending March 31 of that year. But payment of the tax on November 1 of this year will be only for the year ending March 31, 1915, payments for the two ensuing years not having to be made till November 1 of next year and November 1 of 1918.

A third illustration is made of a business company whose fiscal year closes on June 30. Returns to the Minister will be made on July 1 next for the period ending June 30, 1915; and on July 1 1917, for the period ending June 30, 1916; and on July 1, 1918, for the period ending June 30, 1917. The payment of the tax will be made in every case three months after the date the returns are to be made.

A return, in duplicate, has to be made to the Minister of Finance by each person or company coming within the scope of the Act (whether such person or company considers he is or is not liable to pay the tax) on or before first day of July each year, commencing with July, 1916, on Form "J," set forth at the end of the pamphlet, for each accounting period before July 1. The law provides that such return has to be made whether or not notice or demand is given or made by the Minister of Finance.

Other Provisions Of The Law.

Any person making a false statement in any return or information required by the Minister of Finance shall be liable on summary conviction to a penalty not exceeding $10,000, or to six months imprisonment or to both fine and imprisonment.

Any person who is in default in submitting any return or information required by the Minister of Finance shall be liable on summary conviction to a penalty of $100 for each day during which the default continues.

In default of payment of the tax on or before the date specified for payment, which is declared by the Act to be the 1st of November in each year interest at the rate of 7 per cent. per annum shall be paid on such tax until the said tax and interests are paid.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

WATER ACT.

NOTICE BY THE SURF INLET POWER COMPANY, LIMITED.

NOTICE IS HEREBY GIVEN that on the 18th day of May, A. D., 1916, The Surf Inlet Power Company, Limited, filed at the office of the Comptroller of Water Rights plans and specifications of its works for the diversion of water from Cougar Lake at the head of Surf Inlet, Princess Royal Island, and that duplicates of such plans and specifications are open to inspection at the office of the Water Comptroller at the City of Victoria and at the office of the Water Recorder at the City of Prince Rupert.

The date of the filing of the application in the office of the Water Recorder for the approval of its undertakings was the 24th of February, 1916.

The source of the water supply is Cougar Lake—the point of diversion is at the outlet of the lake and the place where the water is to be used is at the head of Surf Inlet and the locality within which the business of the Company is to be transacted is within a radius of ten (10) miles of the head of Surf Inlet.

The Stores Closing On Saturday

Notice to the Public

At a meeting called by the Prince Rupert Retail Merchants' Association for the purpose of selecting a half-holiday, a petition signed by practically all the retail employees of the city was presented asking that Saturday be adopted. The meeting unanimously resolved to make Saturday the half-holiday, and notices to that effect were ordered printed and have since been displayed in most of the stores in the city.

Certain merchants who are opposed to Saturday as the half-holiday have published a notice to the effect that their stores will be open on that day. As this will create confusion as to which stores will be open on Saturday afternoons, and which will be open on Wednesday afternoon, the undersigned hereby give notice to the public that their stores will be closed on Saturday afternoons and open every Friday evening until 9:30.

For Longer Rest and Better Service

We, the undersigned clerks and employees of retail stores, urge the public to patronize the stores closing on Saturday.

By so doing you will offset any monetary disadvantage to our employers and give us the benefit of a week-end rest.

On Wednesday evening next there will be a concert given in the Westholme Theatre in aid of the Returned Soldiers' Association. This is a concert that was to have been held last evening, but which was postponed on account of other entertainments being held.

* * *

There was no meeting of the City Council last evening owing to the fact that a quorum of the council is not in the city. There met last evening only the Mayor and Ald. Barrie, McClymont and Nelson. Following the rules of proceedure laid down, the council sat until half an hour elapsed, and then the City Clerk declared the meeting off, to meet again next Monday evening.

WATER NOTICE

Use and Storage

TAKE NOTICE that Granby Consolidated Mining, Smelting & Power Co., Ltd., whose address is Anyox, B. C., will apply for a license to take and use 100,000 gals. per day, and to store 2,500,000 gals. of water out of West Branch of Hidden Creek, which flows southerly and drains into Granby Bay about one half mile west of Anyox.

The storage dam will be located about two and a half miles from the mouth of Hidden Creek. The capacity of the reservoir to be created is about 2,500,000 gals., and it will flood about two acres of land. The water will be diverted from the stream at a point about 450 feet south of north line of Maypole M.C. Lot 1676, and will be used for domestic and mining purposes upon the land and mine described as Hidden Creek Mine and Mine Townsite.

This notice was posted on the ground on the 15th day of June, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert, B.C.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, Prince Rupert, B. C., April 9, 1914.
"The Reliable Plumber,"
Prince Rupert, B. C..

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Speceial price for coil for month of March only will be Fifteen dollars, Ten dollars cash, balance 30 days.

Suggestions for Successful
ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

Advertise In The Journal.
