GERMAN BANKERS SEND RESERVES OUT OF COUNTRY

Enemy Indicates It Realizes Verdun Attack Is A Failure

French Army Has Prepared And Is Meeting All Attacks Made By Enemy

British And French Forces Will Make Military Base In The Ionian Islands

British And French Will Land Forces From Cephalonia

Paris, April 11. — The Crown Prince's supreme effort to capture Verdun is spending itself against the stout and intelligent defense of the French. Observers point out that when the assailant realizes that he has failed to attain his objective he invariably deliveres an extended assault of great violence before lapsing into nominal trench warfare. Such was the case during the great German attack at Ypres. The onslaught lasted for five days before the battle ended.

In these operations the assailants hope to surprise the defenders in an unexpected effort, and to wrest, by taking them unawares, the rewards of their own sacrifices.

General Petain, the French commander, is not to be caught napping, but foresaw the posibility of this move and straightened and strengthened his line in anticipation. The battle continues, but is perceptibly dwindling in violence.

GERMANY'S LOSSES HEAVY DURING PROGRESS OF WAR

Paris, April 11.—Berlin announces that the Germans have taken 36,000 French prisoners since February 1, and that the German casualties for the same period amount to 35,198.

The total German casualties published since the beginning of the war amount to 2,667,372, exclusive of naval or colonial losses or the casualties of the Teuton Allies.

Efforts Before Verdun Are Losing Force And Seem Spent

London, April 11.—A despatch from Athens says that the British and the French ministers have informed Premier Skouloudis of the intention of their governments to land forces from a harbor of Cephalonia, one of the Ionian Island a few miles west of the mainland.

Assurances were given that the Sovereign rights of Greece would be protected in all movements made.

MR. JUSTICE IRVING HAS PASSED AWAY AT VICTORIA

Well Known Member Of Court Of Appeal Died In The South.

Victoria, April 11.—The Hon. Paulus Aemilius Irving, M. A., D. C. L., Judge of the Court of Appeal, is dead. He was formerly Deputy Attorney-General and was a judge of the Supreme Court for seventeen years and a judge of the Court of Appeal for seven years.

He was a son of the late Sir Aemilius Irving, and was born at Hamilton, Ont., on April 3, 1857. He was educated at Trinity College School, Port Hope, and at Trinity College, Toronto.

He was called to the bar of Ontario in 1880; called to the British Columbia bar in 1882 and was Deputy Attorney-General of this Province from 1883 to 1890. He acted as special commissioner in the mining dispute in Atlin in 1899, his services at that time being acknowledged in the speech from the throne.

BORN.

In this city on Saturday, April 8, to Mr. and Mrs. H. C. Breckenridge, 131 Ninth Avenue East, a son.

TRADES AND LABOR COUNCIL MEETING

QUESTION OF COMPENSATION AS TO HOTELS WAS DISCUSSED

Action Taken In Endorsing Proposed Changes In Shipping Act.

Nearly all the delegates were present at the Trades and Labor Council meeting last evening.

The Engineers' Union brought in a report recommending the endorsing of the petition of the Motor Boat Association, relative to the handling of small craft in the harbor. Among other sections is the request that one licensed officer be allowed to operate a motor boat providing the length does not exceed 65 feet. Another important change in the present law, was that proper provision be made so that an officer holding captain's papers on a smaller boat could qualify for the position on larger craft. The recommendation was endorsed by the council.

A communication was read from the Minister of Labor, in reply to a request from the local body that the fair wage clause be inserted in all munition contracts, as complaints had reached the local council that the fair wage clause was not being lived up to. The Minister stated that enquiries were being made and would be reported on.

Further information was brought before the council in reference to the attempt to organize a National Engineers' Union, this being a purely Canadian organization. It was felt by the council that this would not be in the best interests of labor.

An indirect report was given into the council that the strike at Alice Arm had been settled, but no definite information could be obtained. There were about 180 men affected by the strike. The strike was caused by a lower rate of wages being offered the men than was the governing wage in the district.

The question of compensation for the hotel owners aroused quite a lively discussion. The question was broached to find the feeling of the council. Some of the members felt that if compensation was to be granted it should extend to the bartenders and workmen as well as to the owners, as it was argued that the men had followed this trade and would find themselves without employment and without experience in a trade if prohibition were to carry at the coming elections. Others argued that no compensation should be granted. The question was laid over until further information could be got. It was reported that efforts were being made in Vancouver to secure compensation both for the owners and the employees.

The following officers were elected to fill vacancies caused by members leaving: Vice-President for British Columbia Federation of Labor for this district, W. E. Thompson; Secretary of local council, L. W. Riley; Legislative Committee, J. Dean.

(Continued on Page Four.)

TO CHANGE LAW AS TO MOTOR BOATS

MINISTER OF MARINE AND FISHERIES HAS BILL BEFORE COMMONS NOW

Hon. J. D. Hazen Explained The Working Of The Proposed New Measure.

In the House of Commons Hon. J. D. Hazen, Minister of Marine and Fisheries, has a bill to amend the Canada Shipping Act. The changes are along lines that are interesting to local motor boat owners.

When introducing the bill about two weeks ago, Mr. Hazen said: "The introduction of this bill is considered necessary in consequence of the very extensive use of gasoline and oil engines in boats in Canada. Under the present law any boat that is over five tons in size and carries passengers is required to have a certificated engineer and a certificated captain. There are a large number of motor boats over five tons that are being used for passenger service in Canada at the present time, and I am advised by the technical officers of the department that it is not necessary for the saftey of the public that these boats should be compelled to carry both a certificated engineer and a certificated master.

"There is a provision in the law at present that no person shall act in the double capacity of master and engineer of a steamboat. It is proposed to amend the section, so far as regards boats that do not exceed sixty-five feet in length, and provide under regulations to be made by the department, that it will be sufficient to have one man, who is both a certificated engineer and a certificated captain. Any man who possesses both certificates will be allowed to command the boat, and also to act as engineer.

"The present act makes provision for engineer's certificates in the case of boats driven by steam only, and it is proposed to make some changes so that a special certificate may be granted to an engineer in charge of a boat driven by a gasoline, oil or combustion engine."

German Bankers Are Getting Reserves Out Of Their Country

Rome, April 11.—German bankers are transferring their reserves to neutral countries without heeding the losses incurred under unfavorable exchange. They are satisfied as long as they succeed in getting the money out of Germany.

These steps are ascribed to the great war loan being a failure, and a coercive measure to secure subscribers to it is feared.

RESIDENT ENGINEER DENIED GRAFT CHARGE

J. S. McLaughlin Gave Evidence Before Public Accounts Yesterday.

Ottawa, April 11.—J. S. McLaughlin, resident Government engineer at Victoria, appeared before the public accounts committee yesterday in connection with the alleged grafting in the Victoria Harbor dredging contract.

McLaughlin admitted that he allowed an excess of 864 yards in the estimate of the amount of rock moved in the first month but adjusted the matter later.

He denied the story of E. G. Mallory and said that he never received a dollar of graft from the dredging contracts.

The Morning Journal delivered to your home at 50 cents a month.

Alice Arm As Seen By Well Known Resident Of Prince Rupert

There has been such a demand for The Journal containing the descriptive article on Alice Arm, contributed by J. B. Roerig of this city, that it has decided to re-print the greater part of the article, which follows:

Kitsault Valley.

The Alice Arm town itself is located on the north shore at the head of the inlet, and at the mouth of the Kitsault River, and it is in the valley of he Kitsault that the principal discoveries have been made.

Building operations are going forward at a rapid rate, no less than ten buildings are in course of construction at the present time. The hotel being built by O. Evindsen is a very substantial structure of thirty rooms, steam heated throughout, with fine marble fireplaces and stained glass decorations, and will cost $15,000. The furniture is in transit, and it is expected that it will be opened before the first of April.

Stores Being Opened.

Mr. W. W. Law and associates are building a store 48x60 feet, and will carry a complete line of general merchandise. Near Law's place is Barsalow's grocery store, almost ready for business. The Acme, of Prince Rupert, have their place almost finished and will carry a full line of general merchandise. George Bruggy, formerly of Stewart, has his store opened and ready for business. Faulkner the hardware man of Stewart is building a large building to take care of his big Stewart stock which he is moving down.

The Kitsault House, operated by the well known Northern pioneer, J. B. Robertson, is the popular lodging house, and it is crowded much beyond capacity every night. The leading cafe is conducted by Jake Hawkinson, and no patron leaves Jake's hungry. W. J. Crawford has the livery stable and teaming and packing outfits. Jimmie McAleenan, of Rupert, has just selected a site for a cigar store and pool room. C. H. Orme is opening a drug store.

A Cold Storage.

George Frizzell will build a building with cold storage facilities to supply the whole district with fresh meats and packing house products. The Carneys have a boarding house and bunks, and there are quite a large number of cabins built and building. In short, Alice Arm bids fair to become the leading camp of the new district and will be the hub.

On The Illiance.

Across the inlet is Silver City, with good Government wharf and about fifteen cabins. This camp will be headquarters of the mines along the Illiance River, which flows into the inlet nearby. One mile down the inlet from Alice Arm town is located Reil's Camp, with good wharf facilities. The population here, numbering about 40, all being employed on Riel's property.

The Dolly Varden.

From a mining point of view, interest centres in the Dolly Varden group and adjoining properties about 18 miles up the Kitsault River. The Dolly Varden group proper, was located about four years ago by O. Evindsen, Charles Swanson, E. Carlson and J. Pearson, all are divers except Swanson, and he is a prospector. Evindsen, Carlson and Pearson were engaged in their occupation

GOVERNMENT RENTALS.

The News is very critical about the rentals paid some residents for Dominion Government offices occupied by the Government. The situation is not anything to get excited over. We are inclined to think that the leases of the properties referred to by the News are not in any instance making exorbitant profits, if indeed they are making profits at all. In the case of the Merryfield lease, instead of its being a small office, the examining warehouse is almost 100 feet by fifty feet. In the case of the post office building there is the ground floor of 100 feet by 50 feet, and the greater part of the second floor leased to the Government. In addition the owners heat the place. We are very much mistaken if the building is a revenue producer. The Telegraph Company occupies the whole front offices on the second floor in the Stephens building, as well as an office in the rear part, and in addition to this has storage space for heavy material in the basement. Certainly, as compared with rentals paid by the Liberal Government, the rents now prevaling are not to be regarded as exorbitant.

DEATH OF HON. P. A. IRVING.

The death of Mr. Justice Irving, of the Court of Appeal of this Province, removes the senior judge of the High Courts of the Province. There have been judges that have laid greater stress upon the nice points of law than the late occupant of the bench. There have been none that dispensed justice with a higher endeavor to do justice than he did. When he was sent into the north to settle the mining disputes, in the territory west of Skagway, he won the respect of all concerned by the way in which he brushed away all technicalities of law, and using the good common sense which had been allotted to him, he dealt out highly satisfactory judgments. At the same time his judgments in the courts were not regarded as specially exhaustive on any point.

LAND REGISTRY ACT.

Notice Under Section 36.

TAKE NOTICE that an application has been made to register Mitchell Albert, of Prince Rupert, B. C., as the owner in Fee-simple, under two Tax Sale Deeds from the Collector of the City of Prince Rupert, to Mitchell Albert, bearing date the 10th and 15th day of September, A. D., 1915, in pursuance of a Tax Sale held by said Municipality on or about the 9th day of September, 1914, of all and singular certain parcel or tract of land and premises situate, lying, and being in the City of Prince Rupert, in the Province of British Columbia, more particularly known and described as: Lots One (1) and Two (2), Block Forty-five (45), Section Seven (7), and Lot Thirty-eight (38), Block One (1), Section Eight (8), Map 923.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be for ever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said Mitchell Albert as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:—

"And in default of a cavet or certificate of lis pendens being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1906," or section 293 of the "Municipal Act," or section 139 of the "Assessment Act, 1903," or section 253 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

Dated at the Land Registry Office, at the City of Prince Rupert, Province of British Columbia, this 3rd day of January, A. D., 1916.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

WATER NOTICE.

TAKE NOTICE that THE SURF INLET POWER COMPANY, LIMITED, will apply by Petition to the Minister for the approval of the undertaking of its works and that such Petition will be heard in the office of the Board on a date to be fixed by the Comptroller and that any person may file an objection thereto in the office of the Comptroller or of the Recorder of the Distirct.

The name and address of the applicant is THE SURF INLET POWER COMPANY, LIMITED, having its Head Office at 1,001 Rogers Building, Vancouver, B. C. The Water Recorder's office in which this notice is to be filed is at the Court House, Prince Rupert, B. C. The name of the lake from which the water is to be taken is Cougar Lake, Princess Royal Island.

The quantity of water applied for is ten thousand inches or sixteen thousand cubic feet per minute. The proposed point of diversion is at a point at the outlet of Cougar Lake, and it is to be returned at a point at sea level on Surf Inlet, and will be used for developing power and electric energy to be used within a radius of ten (10) miles of the works on Princess Royal Island.

A copy of this notice was posted on the ground on the 24th day of February, A. D., 1916.

Dated at Vancouver, B. C. this 24th day of February, A. D., 1916.

ALICE ARM.

(Continued from Page One.)

during the construction of Zanardi bridge, upon the completion of which they formed a prospecting expedition, taking Swanson for his experience and started out in the Alice Arm district. Their first locations were made as the Dolly Varden group, the second group a little further on being named the Red Point group. Both of these properties are capable of immense possibilities.

A Rich Company.

The Dolly Varden was bonded to R. B. McGinnis for the Dolly Varden Company, which took over the property, and the bond has been fully paid for. It is stated on very good authority that the company has a paid up capital of $1,000,000 cash. J. D. Hubbard, Chicago, Ill., is President, and K. Concannon of the same city is Secretary. It is said that the company is a subsidiary of the Chicago Exploration Company, which is a large operating company in Nevada, Arizona and Mexico.

About $75,000 has been expended in development work. Considerable drifting and cross-cutting has been done and a diamond drill has been actively at work since last summer proving up the ore bodies. There are two distinct ledges in sight, ranging from 30 to 40 feet wide.

Values Are Good.

The values are principally in silver, and it is stated that the ledges will average $40 per ton, although there are patches of very high grade showing brittle silver all through, which will go 1,500 ounces of silver.

During the month of February the same company took over from the same locators the Red Point group, which has a very large showing of 30 per cent. copper. The first payment on the bond has been made and development is steadily going forward. The same company has also taken over the Cameron group, about four miles to the north. A 400 ton mill is planned, midway between the properties, and tenders for a waggon road from the mine to the camp were opened this week. It is expected that by the first of April at least 400 men will be engaged in the construction of the road. C. O. Lindeberg is consulting engineer; R. B. McGinnis is field manager, while H. C. Ingle is superintendent in charge of the mines.

The Spanish Group.

The Esperanza mines, known locally as the Spanish group, belongs to Pedro Salinas, B. Salinas and A. G. Lothgren, who bought the property in at sheriff's sale under a mechanic's lien for wages due, amounting, it is said, to $450. The first shipment of ore taken out in less than a month, gave net smelter returns of $6,000. There is now sacked and in transit a second shipment of the same grade of ore, from which returns of $10,000 is expected. The first lot gave returns of 220 ounces silver, .29 ounces gold, 3 per cent. copper, and 77 per cent. silica. Owing to the high silica content of the ore a very favorable smelter treatment rate has been obtained from the Granby Company, where the product was shipped.

The mine consists of a group of three claims, and is located on a hill about one and a-half miles from the town of Alice Arm. Seven men are employed, and from now on a constant output will be maintained. Substantial camp buildings have been erected and considerable development work accomplished. This is the first property to enter the regular shipping list.

The Hopkins' Property.

About 15 miles up the Illiance River is located the group that Mr. J. B. Hopkins is operating under bond from J. E. Stark and associates. The showing is principally of copper; a large and strong ledge carrying as much as 40 per cent. copper is being developed by the syndicate backing Mr. Hopkins. This property will doubtless be a regular shipper as soon as transportation is provided.

Reil's Camp.

One and one-half miles down the inlet from Alice Arm is Reil's Camp. On the beach a residence for Mr. Reil, office buildings, blacksmith shop, wharf and boarding and lodging houses have been built, and excavation is under way for a concentrating mill, the machinery for which has already been landed. The mine is located on the hill about one mile back from the beach, at an elevation of 1,200 feet. D. H. Martin, an old-time miner of the Rossland district, is foreman in direct charge of the work at the mine.

A Record Maker.

What is probably one of the largest discoveries of Molybdenite has been opened. It is safe to say that Molybdenite occurs in a ledge at least fifty feet wide. An idea can be gained of the extent of the ore body when it is realized that the highest output from any mine in the British Empire today is 500 pounds of the finished product per day, while the calculations at the Reil property call for an output of from 6,000 to 10,000 pounds per day, as soon as the mill is in running order. The property is being operated under bond to a Seattle syndicate headed by C. P. Reil. A shipment of fifteen tons of raw ore went forward from the property this week. This shipment was made principally for experimental purposes, for it is proposed to turn out the finished product at the mine, and it is stated that the entire output has been contracted for by the British Government. The metal is used as an alloy in making high speed steel and as a lamp filament.

There are many other groups in the initial stages of development, and plenty of opportunities for the capitalist as well as the prospector. The opinion is that the district has hardly been scratched. Well informed mining men seem to be firmly convinced that the Alice Arm district will certainly be a big, well developed, permanent mining camp before the present year is out.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

Parsonage 632 Sixth Ave. W. — Church, Sixth Ave. & Musgrav Place

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C., — Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Speceial price for coil for month of March only will be Fifteen dollars, Ten dollars cash, balance 30 days.

Quality vs. Imitation

The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble

Budweiser

The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.

Budweiser is bottled only (*with corks or crown caps*) at the

Anheuser-Busch Brewery
