German Note Is A Very Long One Evasive Of The Issue

United States Cabinet Will Not Take Any Hasty Action

French Submarine Sank An Enemy Torpedo In Adriatic

British Cruiser Destroyed Zeppelin Off Schleswig Coast

Wilson's Cabinet Will Not Decide On Note Before Next Week

Washington, May 5.—At the State Department after a cabinet meeting it was stated that no hasty action would be taken with regard to the German note, in view of the length of it, and the necessity for digesting it carefully.

It is improbable haa any decision will be reached before next week. The Cabinet was in session for two hours and a-half. The members are uncommunicative with respect to the tone of the discussion.

An Evasive Note.

The note admits that the Sussex may have been torpedoed. It admits that the warfare against the Allied freight vessels was not according to international law, but blames the British blockade for the use made of submarines.

The note rebukes the United States for not agreeing to the German suggestion of placing a limit on American travel to certain registered neutral vessels. The note takes up two columns, evading the main issue with the United States. Nearly all American papers agree the answer is unsatisfactory.

ZEPPELIN DESTROYED UNDER HEAVY FIRE AT SALONIKI

London, May 5.—A Zeppelin reached Saloniki. It was subjected to heavy fire and is reported to have been destroyed.

NUMBER OF SMALL FISH BOATS IN

ABOUT 100,000 POUNDS WERE SOLD YESTERDAY IN THIS PORT

The Vessels Were For The Most Part Of A Small Type.

Over 100,000 pounds of halibut were sold in this port yesterday. The catches were for the most part those taken by small craft engaged in the business. The following were the vessels:

Kong Sverre, 15,000 pounds; Selma, 8,000; Atlantic, 32,000; Anne St. Leon, 8,000; Director, 9,000; Daisy, 3,000; Dick, 14,000; and Lief E., 11,000.

BRITISH CRUISER DESTROYED ZEPPELIN OFF SCHLESWIG

London, May 5.—A Zeppelin dirigible was destroyed by a British light cruiser off the coast of Schleswig today.

FOUR MORE REBELS IN IRELAND SHOT

THOSE CONCERNED IN THE RECENT TROUBLES HAVE PAID PENALTY FOR CRIMES

Notable Arrest Made In Dublin—Came From States To Aid Rebellion.

Dublin, May 5.—Four more rebels, who were sentenced to death by court martial were shot this morning. They were Jos. Plunkett, Edward Daly, Michael O'Hanehan and William Pearse.

Fifteen others, who were sentenced to death, have had their sentences commuted to ten years imprisonment and another has been commuted to eight years in prison.

James L. Sullivan, of New York, and former United States Minister at San Domingo, has been arrested in Dublin on a charge of complicity in the rebellion.

Accused was counsel for Jack Rose in the famous Rosenthal murder case, and was a friend of William Jennings Bryan, late Secretary of State. He was discharged from his post as Minister of San Domingo after an enquiry into certain contracts. He was born at Killarney, in the south of Ireland.

W H. Wright, of the Windsor Hotel, and W. Woodworth have gone to Alice Arm.

PROGRESS MADE AT SURF INLET MINES

EXCAVATIONS FOR THE DAM ARE NOW BEING MADE BY THE COMPANY

Bullion May In The End Be Turned Out At The Works.

The Full Moon, from the Surf Inlet mines, reached port yesterday with F. W. Holler, E. A. Cleveland and F. Bradshaw, all of whom are associated with the works. The excavation for the big dam is now in progress, preparatory to starting on the construction of that necessary undertaking.

Mr. Bradshaw expects that before the close of the year the reduction works may be in operation. These will on the start have a capacity to handle about 250 tons of ore a day. The oil flotation method may be used in part in conection with it.

It has not yet been decided whether the system of shipping the concentrates will be adopted or whether the company will go still further with the treatment and turn out bullion at the plant.

The advance in the price of silver seemed to be exceedingly satisfactory to Mr. Bradshaw, inasmuch as the Tonopah Company, which is the parent organization of the Tonopah-Belmont, the controllers of the Surf Inlet mines is one of the largest producers of copper there is.

Torpedo Boat Of Enemy Was Sunk By French Submarine In Adriatic

Rome, May 5.—The French submarine Bernoaille has sunk an enemy torpedo boat in the lower Adriatic.

Five of the enemy's aeroplanes raided Brindisi. The bombs fell on the hospital. Four patients were killed and five injured.

CUNARD COMPANY HAS TAKEN OVER C.N.R. LINE R.S.

According To Lloyd's Fleet Now Consists Of But Two Ships.

The Cunard Steamship Company has acquired the fleet of the Canadian Northern Steamship Company and its shipping interests. According to Lloyd's list the fleet now consists of only two ships.

The services of the Canadian Northern Company included sailings from Bristol to Quebec and Rotterdam to New York. Both services have been completely suspended by the war, but the acquisition of the steamers mentioned by the Cunard line will place them in a strong position in the Canadian trade when the war is over.

JAMES CRONIN BACK FROM HIS MINING PROPERTY

Well Known Mining Man Will Go South For A Time.

James Cronin, the well known mining man, who has for the past two seasons been carrying on extensive operations on a silver lead proposition he has near the Babine Range of mountains back of Smithers, arrived in the city last night.

He is on his way south. He has suspended operations for a little time at the mine. There is a large amount already uncovered, but the transportation facilities have to be awaited.

On the last work done at the property Mr. Cronin was not as successful as was expected, but there is no reason for believing that development in other directions will not bring forth the expected bodies.

Mayor McCaffery expects to leave Vancouver on Monday for the east in connection with the bond sale. E. D. Johnson, the City Treasurer, will likely leave over the G. T. P. the same day, joining the Mayor at Winnipeg.

Liberal Member At Ottawa Rebukes Grits And Supports Borden

Speaking in the House of Commons at Ottawa a few days ago, Dr. Michael Clark, M. P., for Red Deer, a pronounced Liberal of the British School of Liberalism, scathingly rebuked the Opposition for its attitude towards the questions of the day, and accorded to Sir Robert Borden his support.

Dr. Clark said:

"I intervene in this discussion because I have a very great question in my mind as to whether this discussion should really be taking place. I think there is room for grave doubt whether we are not losing our sense of proportion in the greatest crisis that has ever been passed through by this country, by this Empire, by the whole world, and by the world's prospects for the advance of civilization. I intervene from a strict sense of duty and because **I think it would be unfortunate that a vote of this magnitude, in connection with a war of this magnitude, should pass without a note of clear support of the Government at this crisis, coming from this side of the House.**

"I come from a province where, up to the present moment, we have recruited 2,656 more men than make our quota for the 500,000 at which the Government is aiming. That is a fact of which, as an Albertan, I am reasonably proud, and that is a fact for which I find the explanation to be found in this: **that the people of Alberta are not so much concerned where the sugar is being got for the troops as they are in getting the troops, and beating the Germans.**

Proud Of Citizenship.

"I listened with very great care to the statement of the Prime Minister from the beginning to the end. I listened to it calmly, and as I listened I was **proud to be a citizen of Alberta, and proud to be a citizen of Canada, because of what the present Government of Canada has done in connection with this war.** There were certain things that loomed up in my mind as I listened to that statement. The first thing with which I was impressed was the magnitude of the burden and the responsibility which came upon the Government of a small portion of the British Empire with the swiftness and the suddenness that we know characterized the commencement of the war. It was my privilege, as it was my honor, at the beginning of the war, and it has been my privilege more than once since, to express what was my clear conviction and what is my conviction now, that the head of this Government and the majority of its supporters, were seized at once with the importance of the issues and bent their whole energies to the task of contributing a proper quota on the part of Canada to the successful prosecution of the war. That was my conviction then and it is my conviction now, and I am clear in my own mind that history will record **whatever may be the petty political fortunes of party in this country at the next or any other election that my right honorable friend who leads this Government, has from the day the war cloud burst, kept a single eye to the winning of the war, and has not been led aside or diverted from that purpose by any small motive or consideration whatever.**

Duty Of Militia Staff.

"The next thing that loomed out in front of me, as I listened to the statement, was the point that was referred to by the Prime Minister himself, the tremendous task which has fallen upon a large and momentarily increasing number of the staff of the Militia Department, and of the loyalty and devotion which often, as the Prime Minister said, must have car-

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

LIBERAL MEMBER.

(Continued from Page One.)

ried their nerves to the racking point with which every member of the staff must have done their duty. The Government and the staff of the department had splendid support from another consideration which was raised by the Prime Minister, because the spirit that animated the Government and the spirit that animated the staff of the Militia Department, was the spirit of the great majority of right thinking people in this country.

"There was another thought that came to me, and it was the thought of gratitude that, though we have had those stupendous tasks thrown suddenly upon our Government and especially upon the Militia Department, and though our people had to make sacrifices and share in the carrying on of the burden, yet we have such a magnificent heritage in this country, and our liberties are so protected by the flag under which we live, that none of us in this land has had to go with one meal less, none of us had to go with any fear of what was coming to us or coming to the Empire. I am grateful that I am in that position. I am thankful to the men at the front for achieving this for us.

The Greatest Consideration.

"And this after all is the greatest consideration. That is the greatest consideration that was raised in the Prime Minister's speech. We all echoed every sentiment he expressed as he re-called the way Canadians stood in the breach one year ago and the way they are prepared to stand and shed the last drop of their blood for the flag, for the Empire, for the world's liberties, the world's future and the world's civilization.

"In the presence of these considerations I may be allowed to express a doubt whether the points that have been raised in this discussion are calculated to help in the accomplishment of that great task, whether they are not calculated to hinder. If there had not been grounds for criticism, the Government would not have been human. Humanity is fallible. It is said that the man who never makes mistakes, never makes anything. If the Government had not gone into this war with the intention of making something, of helping to achieve the victory that we know is coming, if they had not gone into it animated with the spirit that makes for victory, they might not have made mistakes, but they would not have helped much in bringing about that victory.

"We are told you cannot make omelettes without breaking eggs, it is one of the misfortunes of war that it brings greater profit even to the farmers, to the sons who are left at home, while the other sons are sacrificing all that they have at the front. Mistakes, of course. Said Pope:

Critics Ready Made.

"A man must serve his time to every trade—but censure—critics all are ready made."

"For my part, in such a crisis, in the history of our Empire and our country, I have no time for criticisms. As a private citizen who happens for the moment to have a seat in Parliament, I have no time for criticism.

"My talk, and such effort as I am able to exert, have been from the beginning, behind the clear eyed purpose of the Prime Minister, they are so now, and so I believe are the thoughts and efforts of the people of Canada. For I do believe this, that whatever criticism is to be offered, whatever reputations are to be made or lost, this is not the time for these things. This is the time to stand under the flag that we all love and for the greatest cause that ever animated the people and that people's allies behind the Government, of whom history will record that it has done well—to stand for that cause and under that flag until victory rests upon our banner. It is because the people of this country believe that the Prime Minister and his Government and the majority of his supporters have taken that attitude, and are determined to occupy it to the end with a single eye to victory without the squables of party—it is because the people believe this, that I feel they are behind the Government until the war is won."

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

PRINCE RUPERT ASTONISHED BY SIMPLE MIXTURE

Prince Rupert people are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL removes such surprising foul matter it relieves almost ANY CASE constipation, sour stomach or gas. Because Adler-i-ka acts on BOTH lower and upper bowel, a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. Orme's Limited. g-4.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C.,

Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Production and Thrift

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle."—*HON. MARTIN BURRELL, Minister of Agriculture.*

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN "THE AGRICULTURAL WAR BOOK, 1916," PUBLISHED BY THE DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

LIVE STOCK—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

MEATS—In 1915 Great Britain imported 664,508 tons of beef, mutton and lamb, of which 364,245 tons came from **without** the Empire. Out of 430,420 tons of beef only 104,967 tons came from **within** the Empire.

The demands of the Allies for frozen beef, canned beef, bacon and hams will increase rather than diminish. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

DAIRYING—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1915 were nearly $6,500,000 over 1914. Prices at Montreal—Cheese: January 1915, 15¼ to 17 cents; January 1916, 18¼ to 18½ cents. Butter: January 1915, 24 to 28¾ cents; January 1916, 32 to 33 cents.

EGGS—Canada produced $30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.
