BAD FEELING BETWEEN HOLLAND AND GERMANY

Russians On Eastern Front Are Making Good Showing

Holland Again Shows Unfriendly Attitude Towards Germany

London, July 29.—Holland has refused Germany's demands for permission to use the Dutch canals in sending boats from Germany to Belgium. A serious crisis has arisen. Since the issuing of the orange book condemning Germany for the sinking of the Tubantia, feeling against the Germans has arisen and this latest demand that Holland repudiate her treaties and break her neutrality has brought matters to a head.

Germany is in similar trouble with Switzerland, that country having refused permission for the passing of German troops through Switzerland to aid the Austrians.

THE BIG DRIVE IS NOT YET CALLED

CORRESPONDENT SAYS THAT IT WILL NOT BE IN EVIDENCE UNTIL 1917

Germans Realizing Now They Have Been Deceived By Rulers.

Washington, July 29.—In a letter just received here from a high official of the British Government it is set forth that whatever comment the Germans make concerning the present Allied drive in the western front, it now is only a temporary push. The real drive, it is said, will not come before April or May, 1917.

"It is a mistaken idea that this is the drive that will end the war," wrote this official. "We are just building the new army, killing plenty of Germans in the effort and gaining ground. By next year we shall have a million or more seasoned men who will know what war is.

"Reports continue to reach here that the German losses in the great Jutland battle were far heavier than

WILL PLANK WAY TO SALT LAKES

PROVINCIAL GOVERNMENT HAS AUTHORIZED EXPENDITURE OF MONEY FOR PURPOSE

It Will Be Great Convenience To Bathers Of The City.

The path from the landing at the other side of the harbor to the swimming location at the Salt Lakes has been the source of a lot of trouble to those interested. The matter is to be righted at once.

The attention of the Government was called to the situation by local citizens, through Hon. William Manson, with the result that $500 was set aside to allow for constructing a plank way. It will run for about half a mile and will be planked so that the lake may be reached in any weather.

RAID ON ENGLAND MADE BY AIRSHIPS

BRITISH HAVE TAKEN LONGUEVAL ON THE SOMME FRONT

Anglo-French Advances Have Been Of Importance This Season.

London, July 29.—Three German airships raided the east coast of England early this morning and dropped bombs in Lincolnshire and Yorkshire. There were no casualties and no damage has yet been reported. This is the first Zeppelin raid on England for twelve weeks.

Won Longueval.

The British troops have captured Longueval, a most important point on the Somme front. This successful outcome of the desperate fighting of the past week will greatly facilitate the progress of the Anglo-French drive in the west. Losses on both sides were heavy, as the enemy put up a strenuous resistence. Violent hand-to-hand fighting continues in the vicinity of Pozieres, where the British are making further desperate efforts to continue the advance.

Halibut Reached Price Eight Cents A Pound On Market Yesterday

The receipts of halibut yesterday were largely from small boats and were distributed among the buyers quite generally. The price paid was a very high one, being 8 cents practically all round.

The Zibassa, of the Canadian Fish & Cold Storage Company, brought in 7,000 pounds. The Booth Company bought the Glacier catch, 13,000 pounds, and the Superior, of 18,000. The National Independent bought the catches of the Magrolia of 18,000 pounds and another with 13,000.

The Atlin Fisheries made many sales, mostly from small boats. These included the Maud with 5,000 pounds; the Unity with 3,000; the Anne S. Leon with 3,000; the Pere Gynt with 5,000; the Tide with 8,000 and the Seymour with 31,000.

Rev. W. W. Wright, who is in charge of the Boys' Camp at Tugwell, will conduct the services as usual in the Baptist Church today.

FORESTRY BATTALION IS FILLING UP FAST

In Northern Ontario Many Are Joining This Useful Regiment.

There are a good number of recruits coming into the 238th Battalion, the Forestry Regiment. Capt. Hull, who is recruiting that body here, has received word from the east that there is a marked move in the filling up of the regiment there. In the first two weeks recruiting in northern Ontario 222 men were added to the strength.

Russian Advance Is Still On As Gigantic A Scale As Hitherto

Petrograd, July 29.—The Russians last night broke through the first line of Teutonic defences and drove the enemy from their line between the Slonevka and Bolduroka Rivers. The enemy fled in disorder towards Brody.

Following up their success, the Russians advanced on Brody, which they captured along with nine thousand prisoners and a number of guns. This success brings the Russians within a comparatively short distance of Lemberg, the most important railway junction, Brody being about half way between Dubno and Lemberg.

The Big River is the next obstacle on this line and is practically the only defensive point which lies between the Russian army and Lemberg.

TOURIST DROWNED IN KETCHIKAN

LOS ANGELES MAN, WHO WAS PASSENGER ON PRINCESS SOPHIA, LOST LIFE

He Fell Into Water While The Steamer Was In Port.

The C. P. R. steamer Princess Sophia went south last evening, on her way from Skagway and other Alaskan ports. On the way south she had the misfortune to have an accident befall one of the passengers who was making the round trip.

Mr. Macdonald, of Los Angeles, was drowned at Ketchikan, while the steamer was in port there this morning. The body was recovered and will probably go south by an American steamer later.

With other passengers he was out taking in the sights about the place while the steamer remained in port taking on cargo. He was crossing on a plank a stream in rear of the cannery where the steamer was loading when he had the misfortune to slip and fall into the water below. Owing to the rains that had been heavy previous to this the stream was very much swollen, which made the chances of rescuing the man more difficult.

It is believed that in falling he struck his face against some protruding rock or other obstruction, for when he came to the surface his face

SETTLEMENT IDEA.

"The man who has fought for his country and for the highest human ideals will desire to settle down where he can best find the peaceful enjoyment of the ideals for which he has made sacrifices. The first thing that suggests itself is, that, as the British Empire has staked the very essence and life-blood of its existence, he should and will desire to live, and have his family live, and his descendants after him, in some part of the British Empire. An Empire that is worth fighting for is worth living in. Canada has given of her best for the Empire, and now, in 1916, she opens her doors to the Britisher as she did in 1816."—By late Dr. C. C. James, Federal Commissioner of Agriculture.

BRITAIN IS DETERMINED.

C. W. Morse, the New York financier, who recently returned from Europe, said to a representative of The Wall Street Journal: "France is drained and is tired of war. Germany has made efforts to win the favor of France. It was thought that the pressure at Verdun would result in France accepting peace proposals from Germany. Great Britain is the soul of the Allies, and is the objective of Germany's greatest concentration. Britain believes she is fighting the world's cause for a universal peace. The war has now developed into a struggle between Germany and Great Britain. Britain is determined to continue. The opinion of the Englishman is that the Prussian sway must cease.

"England says it is better to see the war through now and ensure a lasting peace, spending $30,000,000 a day while five million men are under arms, than to be menaced by the Prussian power under a temporary peace and obliged to maintain a large standing army and keep increasing the navy.

"The feeling in England is that this offensive is the beginning of the end, and that the third year of the war will be in favor of the Allies, although peace may not actually come for two years. Travelers from Germany meeting in Paris say the people of Germany are tired of the war, but that the authorities misrepresent the situation, saying: 'We have won the war; we have half of France; we have all Belgium, and we have Poland. Why do we continue?'

"The problem of preparing the German mind for reverses must, however, be faced. Great Britain is convinced that the Jutland fight was an unqualified victory."

were reported. As I told you before we are certain they lost the Kaiser and Kronprinz, two of the newest super-dreadnoughts of the German navy which were built since the war began.

"There is at least a feeling in Germany among the working classes that they have been deceived by their rulers. Also, I want you to remember this—the Germans are ready for a movement on Denmark. There have been many outward symptoms of it. Don't forget Herr Ballin's words: "We don't mind how much gold we pay to Denmark, as we can always go and fetch it back whenever we wish to do so."

"Concerning the German super-submarine, I should think that this type of vessel as a freighter would appeal to the State Department at Washington as a great menace to the United States. There is nothing to prevent Mexico from investing money in two or three such vessels and using them for the time being as peaceful mercantile vesesls, and when friction occurs between that country and the United States it would be a matter of a very short time before these submarines could be converted into dangerous war vessels."

No Need To Send Away For Jewelry

If Prince Rupert people will deal at home they will find our price about the same as elsewhere for equal quality, as our freight bills are not heavy, and home dealers will be encouraged to keep proper stocks.

Let us compare, for instance, Eaton's price, $5.70 on a 7 Jeweled Waltham. **Our Price is $6.00,** but it is worth the 30c to see what you are getting when you want it, and have it qualified right here.

Take also the highest priced Waltham, a 23 Jeweled Vanguard at $44.60. **Our Price is $45.00.** Not very much difference.

Many articles, of course, are not so easily compared, and are made in many quantities and often look big for money in the catalogue.

MR. HARRY HANSON, "The Reliable Plumber," Prince Rupert, B. C.

Prince Rupert, B. C., April 9, 1914.

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.
