MEMO.—In noting the quantity of work performed for the year, it should be borne in mind that the majority of the tabular work was printed in very small type (Nonpareil), nearly all of the pages containing not less than 6,600 ems, and that, according to established rules, double composition should be allowed for this description of work, which would increase the total number of pages from 5,811 to 6,121 for fiscal year ending 30th June, 1902. Although the above return shows the net results for the year, yet a large amount of unavoidable additional work was necessitated by making alterations from the original drafts in Bills submitted to the Legislature, and in reports and other documents, which it is impossible to include in this return.
