# INDIAN CORPS LEFT FRANCE FOR ANOTHER FIELD

# NO IMPORTANT EVENTS IN DARDANELLS SITUATION

# Along Belgian Front There Has Been Active Fighting

# No Change In The Situation Along The Eastern Front

## British Indian Corps Has Left France For Another Field

London, Dec. 27.—A British-Indian Army Corps has left France for another field of operations. This has been officially announced.

A message from the King was delivered to the officers and men of the corps by the Prince of Wales, before their departure for the new field.

## B.C. TIMBER HAS A HIGH PLACE

IN ENGLAND IT STOOD TEST OF RAILWAY COMPANY WELL

Douglas Fir Is Given First Rank For Railway Purposes.

Victoria, Dec. 27.—Two Douglas Fir and two Red Cedar railway ties were recently forwarded by the Forest Branch of the Department of Lands, to the Great Eastern Railway Company of England, who selected two sleepers from their stock, which they obtained from the Baltic, and tested them all under similar conditions.

The result of these tests show beyond a doubt the superiority of British Columbia Douglas Fir for railroad ties.

It was found that under compression Douglas Fir will stand 5,695

(Continued on Page Four.)

## Christmas Season One Of Fighting On Western Front

Paris, Dec. 27.—An official report says, in Belgium fire was carried out against the enemy's positions between the Great Dune and the sea. This gave good results. Parapets were destroyed at several places and a blockhouse of the first German line was blown up.

In Artois last evening we exploded a mine to the northwest of Hill 140. The enemy was prevented by us occupying the crater; however.

Between the Somme and the Oise our artillery dispersed an enemy group.

To the northwest of Chilly, between the Somme and Rheims, our batteries damaged the German fortified works.

To the north of Moussy, in Champagne near Hill 191, after bombardment the enemy directed against our lines an attack which was easily repulsed.

In Vosges, to the north of Linge, our artillery succeeded in destroying the Casemate machine gun shelter. We successfully bombarded the enemy's trenches.

**Fighting In Belgium.**

A Belgian official report says a violent artillery action has occurred along the Belgian front. We actively shelled various German batteries on the outskirts of Schoor Woumen. The enemy's infantry, who had collected in the trenches, were dispersed by our fire.

**British In Fight.**

London, Dec. 27.—An official report says the enemy this morning sprung a mine opposite our line southeast of the Hohenzollern redoubt. We reconstructed the edge of the crater.

Our artillery bombarded the hostile trenches south of the Lille-Armentiers Railway with good effect. The enemy replied vigorously but caused little damage. Elsewhere the situation was normal; artillery activity only to report.

## HON. WM. MANSON IS IN THE CITY

MATTERS AFFECTING PRINCE RUPERT ARE TO COME BEFORE GOVERNMENT AT VICTORIA

Shipbuilding, Grain Elevators And Mining Will Be Affected.

Hon. William Manson, who has just joined the Government of Hon. W. J. Bowser, as President of the Council, arrived home yesterday. He will remain here for a week or two before leaving again for Victoria.

Speaking of the organization of the Government and the work in hand, Mr. Manson says that the new Premier is throwing himself very heartily into the undertaking, and with the fullest co-operations of his colleagues, is working out the details connected with the plans he has in view. The only danger, according to Mr. Manson, is that Premier Bowser will tax his own strength to too great an extent.

On the subject of shipbuilding on this coast, and the best methods of aiding in that undertaking, Mr. Manson says, members of the Cabinet have been charged with the duty of getting all the details possible so that in some practical way the industry may be assisted. In this matter Mr. Manson is prepared to keep the claims of Prince Rupert to the front, and as the proposition develops he hopes to see this city with its well equipped plant playing an important part.

Another matter that the Government has under consideration, and which will have a direct bearing upon this city and its future, is the subject of terminal facilities for grain handling. Prince Rupert is very much interested in this, and while the matter in many ways is one affecting the Dominion Government, yet British Columbia is interested in it as a maritime province. Mr. Manson will have the claims of Prince Rupert adequately represented in any move that may be made.

In mining, with a new minister in Hon. Lorne Campbell, Mr. Manson is using every influence to get all that is coming to the north. As a start he is practically assured that a mine inspector will be appointed for the north. Such a man must be carefully selected and will have to be the holder of a mine manager's certificate. The appointment he expects will shortly be made.

## SHORT SITTING OF THE CITY COUNCIL

THE ARRANGEMENTS MADE FOR THE NEXT CIVIC ELECTION

Nomination Will Be On January 10 And Voting On January 13.

The sitting of the city council last evening was a very short one, occupyiny only about 15 minutes. The by-law authorizing the new private bill dealing with the city finances was put through different stages, ready for its final adoption.

Provision was made for the coming civic election. Nomination was fixed for January 10, with election January 13. The Finance Committee had made a recommendation that E. A. Woods, city clerk, act as returning officer without extra salary, while deputies should be R. H. Shockley, A. Clapperton, W. Deny, H. Slocomb and T. J. Davidson.

Ald. Beveridge wanted to know if Mr. Smith, of the Bazaar, could not be appointed. Ald. Montgomery also suggested Geo. Sutherland.

A motion to have these names added and a vote taken on the five was lost and the report adopted, the deputies to receive $7.50 each.

## FARMERS' MEETING HELD AT TERRACE

INSTITUTE IN INTERIOR ELECTED DIRECTORS FOR THE YEAR

A. H. Tomlinson Announced Experiments In Orchard Culture.

(Special Correspondence.)

Terrace, Dec. 27.—The farmers of this district held their annual meeting here last Friday, for the election of directors for the ensuing year. There was a good attendance, showing the deep interest taken by the farmers of the vicinity in this co-operative work.

The directors elected were D. D. Munro, George Little, Robt. Corbett, Dan McKinnon and Henry Frank. These directors will later select their president from among their number.

**Delegate To Central.**

D. W. Munro, last year's president, was elected as a delegate to the Central Farmers' Institute that will be held in Victoria.

A. H. Tomlinson, Horticulturist under the Department of Agriculture, with headquarters in Prince Rupert, attended the meeting and addressed the Institute in matters affecting the industry.

**Orchard Experiments.**

It was announced by Mr. Tomlinson that arrangements were being made to have experiments made in fruit growing at the Terrace Experimental Station, which is being conducted for the district. This will in-

(Continued on Page Four)

## Situation Is Quiet With Army Of East For Last Two Days

London, Dec. 27.—With the army of the east the situation on our front has been unchanged, says the report received at headquarters.

At the Dardanelles, outside of the usual cannonading, there has been no event of importance during the last two days.

The result of a battle at Saloniki, which it is rumored will decide the German plans for the invasion of Egypt is anxiously awaited.

General Casteltau, in an interview with the Associated Press at Saloniki, says it will be impossible for the enemy to dislodge the Allies from their heavy batteries at Saloniki. The Allied position is admirable, both for offensive and defensive operations.

King Constantine has telegraphed to the Kaiser saying that it will be impossible to allow the Turks and Bulgarians to enter Greek soil.

**Good Programme.**

There is a splendid combination of drama and comedy at the Westholme. "Heart Beats," a two-act drama, and "Heart of Gold," one of the most pleasing little dramas seen for a long time are winning numbers.

There is a great two-reel Keystone comedy entitled "Tussle's Rival Jonah," while a screamingly funny "Gasoline Gus" comedy completes a bright programme.

## Report Chicago Group At Rocher de Boule Has Been Bonded

It is reported that the Chicago Group of mines, at Rocher de Boule Mountain, has been bonded to Edmonton capitalists. The property was held by B. R. Jones, of Skeena Crossing, and Chas. Jardine, formerly manager of Kelly, Douglas & Co., here. The bond is said to have been for the amount of $15,000. The Edmonton interests, that have now acquired control, are to start cutting out a trail to the location.

The Chicago Group, which is a copper proposition carrying gold values, is situated within easy reach of the G. T. P. near Sealey Gulch. The intention is to proceed at once with the work.

This bonding is entirely separate from that of the Red Rose Group a little time ago. The Skeena Copper Company, of Edmonton, took over the Red Rose and is at work on it now.

**Ladies' Basket Ball Tonight.**

**Go to the great Basket Ball Game tonight in Agricultural Hall. A real good game is promised. Admission 25 cents, the proceeds being in aid of the Red Cross Funds.**

BIG ATTRACTION TONIGHT IN AID OF RED CROSS

Ladies Will Give Basket Ball Game At Agricultural Hall.

One of the greatest attractions of the season will be the Ladies' Basket Ball Game at the Agricultural Hall this evening. The game commences at 8 o'clock and the proceeds are to go in aid of the Red Cross Funds.

The players include matrons and spinsters all members of the Athletic Club. The public is asked to patronize the event and enjoy a fast game of basketball, and at the same time assist in a worthy cause. Admission 25 cents.

TIMBER SALE X 541.

Sealed tenders will be received by the Minister of Lands not later than noon on the 15th day of January, 1916, for the purchase of Licence X 541, to cut 1,250,000 feet of Hemlock and Spruce, on an area adjoining L. 1,625, East Arm, Juskatla Arm, Graham Island, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C. t-d-28.

## THE MINING INDUSTRY.

Scarcely a day passes without most encouraging news from the mines of the district. This part of the Province is unquestionably to receive a great impetus in a mining way before the summer is far advanced. A few days ago the Journal gave an account of what James Cronin, a well known mining man was doing in the Hazelton district. Mr. Cronin, on reaching Victoria, gave an interview in which he made it clear that his faith in this part of the country was of the highest.

"I return from the North," said Mr. Cronin, in Victoria, "with more faith in the mineral wealth in British Columbia. The mountains around Hazelton and the contiguous country are full of valuable ore. The country has not yet been scratched. It is only a question of better transportation facilities for the miner and prospector and more capital. I feel safe in saying that when the former are provided the latter will be forthcoming in abundance. With the development of the mining industry, which, in my judgment, ought really to have preceded the introduction of settlers, there will be provided that local market, the absence of which just now imposes such a disability on the settler. As I have already indicated, the mines will be developed as soon as better transportation facilities are provided. What the prospectors and miners need immediately is more trails and roads. Many of the trails which were constructed some years ago have been overgrown and these should be cleared. New trails should also be constructed to those points where mining work is in progress. To indicate the disadvantages of operations in the Babine section, where our properties are located, I may tell you that this season I paid as high as 30 cents a pound to get freight in I look for a constant expansion in the mining industry of this Province from now on. Indeed, the improvement which has taken place in conditions during the last year is nothing short of marvelous. All the producing mines in the Kootenay and Boundary countries are operating, and there has been a big development in the capacity of the plants, particularly at Trail, where the extra plant will represent an expenditure of over $1,000,000. The expansion in the industry is, however, not confined to Southern British Columbia. In the North and along the Coast great progress has also been made. The Rocher de Boule mines, just west of Hazelton, have since May shipped 18,000 tons to the smelter at Anyox. These mines produce a high grade copper ore, carrying good values of gold and silver. But the record of the past will, I am sure, pale into insignificance with the achievements yet to come, if those interested in the future of the industry are alive to their opportunities. The tremendous demand for metals, as a result of the war, has served to disclose the almost illimitable possibilities ahead of the mining industry of British Columbia, and I am very confident that such measures will shortly be taken as will retain in the country a considerable share of the profits which now go outside its borders."

## SHIPBUILDING INDUSTRY.

The agitation on the British Columbia coast for the direction of shipbuilding, with the announced co-operation of the Provincial Government, should mean material advantage to Prince Rupert. This port is in a position to take advantage of such a development. It has a modern plant for building ships and could take advantage of any such move. There seems to be a need for more bottoms. What the effect of the cessation of the war would have upon the supply of tonnage is something that those interested in the move for laying down shipping here have undoubtedly taken into consideration. It is something upon which the ordinary layman would not care to venturt an opinion. This port should certainly not be overlooked in any move in the direction of shipbuilding. The presence of Hon. William Manson in the city should be taken advantage of by public bodies to ascertain what the intention of the Provincial Govtrnment is, and if possible keep the claims of Prince Rupert to the front.

Skeena Land District—District of Queen Charlotte Islands, Graham Island.

TAKE NOTICE that I, Theed Pearse, of Vancouver, B. C., solicitor, intends to apply to the Chief Commissioner of Lands for a license to prospect for coal and petroleum on and under the following described lands: Commencing at a post planted one mile west of the mouth of Naden River, at Naden Harbor, thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains to point of commencement, containing 640 acres more or less. South West Corner.

## NOTICE OF SHERIFF'S SALE

IN THE SUPREME COURT OF BRITISH COLUMBIA

Between

MICHAEL SEEBURG, Plaintiff

and

W. J. KENNAUGH, Defendant.

PURSUANT to an Order of His Honor, Judge F. McB. Young, dated the 4th day of June, 1915, I will offer for sale by public auction at my office in the Court House, Prince Rupert, B.C., on MONDAY, THE 20TH DAY OF DECEMBER, 1915, at the hour of ELEVEN O'CLOCK in the forenoon, the following described lands:—

Lot Fourteen (14), Block Twenty-one (21), Section Six (6), in the City of Prince Rupert, Province of British Columbia, subject to a Judgement for the amount of $1,519.74; interest thereon at the rate of five (5) per cent. per annum from the 22nd day of December, 1914, and costs incidental to the sale.

Dated at Prince Rupert, B.C., the 7th day of June, 1915.

j-9-6. JOHN SHIRLEY
Sheriff of the County of Atlin.

## SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Skeena Land District—District of Queen Charlotte Islands.

TAKE NOTICE that R. N. Ferguson, agent, Victoria, B. C., and A. M. Hall, manager, Vancouver, B. C., intends to apply for permission to prospect the following described lands for coal and petroleum: Commencing at a post planted 100 chains east and 60 chains north of the mouth of Joseph Creek, to the southeast corner of C. L. No. 10,148, thence 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to the point of commencement.

R. N. FERGUSON and A. M. HALL
Name of applicants
G. W. KERR, Agent.
Dated July 17, 1915. w-s-15

## SOLDIERS' GAZETTE RECOMMENDED BY SIR THOMAS SHAUGHNESSY

**He Sets Forth Claims Of This Publication On Behalf Of Those At Front.**

Sir Thomas Shaughnessy has written the following open letter in the interests of the "Soldiers' Gazette":

"At a time when so many public spirited Canadian women are working for those at the front, it is almost invidious to specify any one particular activity, but the untiring industry of Mrs. D. Forbes Angus, President of Queen Mary's Needlework Guild, and of the ladies associated with her, deserves special consideration, particularly in connection with their publication 'The Soldiers' Gazette.' This is a weekly summary of Canadian news, compiled by these ladies from the leading newspapers of each Province in Canada. Fifteen thousand copies are printed each week and distributed in the proportion of one to each seven soldiers of the Canadian contingent overseas. The news from home contained in this 'Gazette' is highly appreciated by our gallant soldiers, many of whom have little opportunity of seeing a Canadian newspaper. The publication is printed at less than cost, through the generosity of a Montreal newspaper proprietor, but even so, further funds are required to carry on the publication, especially in view of the fact that the number of Canadians overseas is steadily increasing. Large subscriptions are not required, but any small amounts sent to Miss Shaughnessy, Honorary Treasurer, at the office of the Queen Mary's Needlework Guild, Windsor Station, Montreal, will be spent in this good cause."

# Notice! The Latest!

By persistent experimenting I have now evolved a system of heating two rooms in a residence with your kitchen range, besides supplying hot water for domestic uses, regardless of the position of the range boiler. By the turning of one valve you turn your stove into a house heating system. I am now trying to improvise a thermostic automatic valve which will do away with the handling of any valves.

Now in use and on exhibition at my shop, 139 Second Avenue.

## PERSONALS

C. D. Wright, of the Government office at Hazelton, spent the holidays in Prince Rupert.

### FARMERS' MEETING.

(Continued from Page One.)

clude experiments in small fruits, such as raspberries, gooseberries and other low growers, as well as in apples. This was a very gratifying announcement for the farmers here, who expect to give more attention to fruit growing in the future than in the past.

### B. C. TIMBER.

(Continued from Page One.)

pounds per square inch, as against Baltic timber of 3,950 pounds per square inch; while Red Cedar made a very creditable showing against the Baltic timber of 3,407 pounds per square inch.

Tests in tension were even more favorable for Douglas Fir. This is shown by the fact that it would take 11,450 pounds, or over 5 1-2 tons to pull apart a stick of Douglas Fir having a cross section of one square inch; whereas just half that weight would suffice to pull apart Baltic timber, and only 3,300 pounds were required to separate Cedar.

These tests were carried out by the Great Eastern Railway, and the results which they found will be of immense value to the reputation of Douglas Fir as a railway tie material amongst English engineers. The importance of this is increased by the fact that English engineers have the supervision of most of the railway lines in China, India and South Africa, all of which are valuable markets for Douglas Fir.

### TIMBER SALE X 246.

Sealed tenders will be received by the Minister of Lands not later than noon on the 5th day of January, 1916, for the purchase of Licence X 546, to cut 300,000 feet of Hemlock and Spruce, on an area situated on the east shore of Quot-toon Inlet, Wark Channel, Range 5, Coast District.

One (1) year will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C. t-d-28

# Quality
*vs.*
# Imitation

The difference between a real thing and an imitation of it is illustrated by the difference between "Budweiser" Beer and beers that seek to resemble

# Budweiser

The nearest to the original that imitators ever came was in the counterfeiting of our label. But they have never produced a beer that in any way equals "Budweiser," nor can they ever.

Budweiser is bottled only (*with corks or crown caps*) at the
