CAMP McKINNEY.

Cariboo Produced 8400 Ounces of Gold in 1902.

Work at Camp McKinney during 1902, was restricted chiefly to the Cariboo-McKinney Mining & Milling Company's Cariboo mine which has maintained the creditable record of the several previous years. The following statistics for the year ended November 30, 1902, are official:

Ore crushed, 15,616 tons; bullion produced, 8,400 ounces; concentrates produced, 550 tons; value of bullion, $112,300; value of concentrates, $17,381; drifting done, 1,005 feet; raising done, 190 feet; average number of men employed, 50; dividend paid, 4 per cent.

The tonnage of ore mined and milled the previous year, as shown in the company's last annual report, was 16,862 tons, yielding 9,439 ounces of gold and 428 tons of concentrates.

MINING ASSOCIATION.

Meetings were held last week at Hedley and Nicola Lake for the purpose of organizing branches of the Provincial Mining Association. At the latter place Messrs A. E. Howse and J. E. Bate were selected as delegates to attend the convention at Victoria on the 25th inst., and it is understood the Hedley branch will shortly appoint a delegate for the same purpose. The Princeton people took so little interest in the matter that only a corporals guard turned out to the meeting called for the evening of the 11th. inst. and no business was transacted,

The feeling among business men here seems to be that the benefits to be derived from such an association are not sufficient to repay the expense that would of necessity be incurred. The plan to Crown grant placer claims meets with little favor in this section and the two per cent. tax is not regarded as a very heavy burden on the mining industry, except perhaps in the case of the very low grade mines.

WEATHER REPORT.

RAILWAY NEWS.

Great Northern and C. P. R. Make Agreement.

According to Seattle dispatches published by a number of coast papers, the ending of the fight between the Canadian Pacific and the Great Northern, which is now announced, assures many miles of railway construction, both in this province and the State of Washington, and will remove an obstacle to the building of the line from Midway to Vancouver. This is the main object of the Great Northern, and it will now push its line westward from Midway, passing through the Similkameen and crossing the Fraser River on the new bridge which is now being constructed, and thus give Vancouver the competitive line long wished for.

By the terms of an agreement announced in Seattle, these railways waive their rights to individual territory heretofore respected, so far as it was impossible for one to invade that of the other, and in the settlement the Canadian Pacific is to enter the wheat fields of Washington, to secure a share of the increasing tonnage, and the Great Northern is to webtrack the Canadian Pacific's territory in British Columbia from whatever point it may wish and to where it can secure a franchise, without the latter's interference.

WILL SPEND A MILLION.

R. M. Marpole, general superintendent of the Pacific division of the C. P. R. announced recently on returning from a visit to Montreal that the company was preparing to spend a million dollars during 1903 in this Province in making improvements of various kinds.

Mr. Marpole could say nothing definite regarding the extension of the Columbia & Western from Midway into the Similkameen during the present year, but stated that he personally favored the Spence's Bridge route as being the cheapest and most practicable.

MAIL SERVICE.

It appears that at last the Dominion government has been aroused to the necessity of a mail service between this place and Penticton, and is making arrangements for providing one in a very short time.

The action of the authorities in this matter will be much appreciated, especially by the Hedley people who have so far been without mail facilities of any kind.

DISCOVERED AT LAST

Candidate Willing to Represent Government in West Yale.

Dr. George Sanson, of Ashcroft, is out as the government candidate for West Yale. His address to the electors will be found on another page of this issue of the STAR, and he is preparing to visit this portion of the constituency at an early date.

Owing to the difficulty the government has had in inducing anyone to represent its unpopular cause, it appeared for a time as though ex-Premier Semlin would be returned by acclamation. It will suit the electors better to have a contest, as it will give an opportunity for the discussion of public affairs that cannot fail to be beneficial, while at the same time it will make little difference in the ultimate result—the opposition candidate being certain to go in by a handsome majority.

Dr. Sanson has little to be proud of in becoming the government nominee, the honor having been cheapened by being peddled up and down the Nicola Valley for several weeks before the Ashcroft aspirant was discovered.

HEDLEY PEOPLE INDIGNANT.

A visitor from Hedley says the residents of that place are indignant over the action of Returning Officer Rowlands in refusing to make it a polling place in the approaching "buy" election.

The impression prevails there that the action of the returning officer was dictated by the government to which he owed his appointment, and which hopes to gain by disfranchising the people of that town.

Such contemptible tactics merit the disapproval of all right thinking people.

BURRARD ELECTION.

Word has been received from Nicola that the latest reports concerning the Burrard election held on the 4th inst. give Macpherson, the Liberal candidate, a majority of 88 over Chris. Foley, the Labor man. Atlin is yet to hear from, but is expected to increase Macpherson's majority. No particulars were received regarding the number of votes polled by ex-Lieut.-Gov. McInnes the independent Liberal.

Invitations have been issued for the ball at Hedley on the 20th inst., and all preparations are being made to give visitors an enjoyable time. Quite a number of Princeton people have signified their intention of attending.

LOCAL AND PERSONAL

Brief News Notes of Princeton and Vicinity.

John H. Smith, of Sterling Creek, was a visitor to town Monday.

W. S. Wilson was up from Hedley on Wednesday last. He has been engaged for some time on the contract for L. W. Shatford's store at that place and reports having lately completed it.

Mrs. Coulthard mother of Mr. J. H. Coulthard, of Keremeos, died very suddenly at her home there last week.

Dr F. Rolls, of Rossland, came in last Saturday on the stage and left early in the week for Hedley City where he intends residing in the future. He has let a contract to W. S. Wilson for the erection of a drug store and office on a couple of lots purchased some time since.

D. W. Young received on Saturday the sad news of the death of his mother in Minnesota.

W. H. Wheeler met with a painful accident last Thursday while freighting on the road between here and Cook's sawmill on One-Mile creek. He was breaking the road in front of his horses and had the misfortune to have one of them step on him above the ankle bruising him severely and making the attention of the doctor necessary. He is now recovering nicely and will be able to take the road again in a few days.

"Lowery's Claim," a New Denver publication, famous throughout the length and breadth of B. C. has been denied the use of the mails by the postal authorities at Ottawa. Such ultra Puritanism emanates from men with narrow foreheads who are so prudish that the bare legs of a table would shock them.

The Slate Creek platinum claim in the Similkameen country, owned by Mr. Blair of Vancouver, J. M. Bowhead of London, and a number of Similkameen residents, is to be actively developed in the spring.

Premier Prior and Prov. Sec'y McInnes are expected to visit Princeton very shortly.

A CONVENIENCE.

A checking account with a bank is a great convenience, not only to business men, but to others as well. More people would keep such accounts if they knew just how to go about it. We gladly assist those who need help in getting started. Deposits received by mail.—Bank of Hamilton, Kamloops.

All cheques to be made payable to A. E. HOWSE.

THE PREMIER'S ADDRESS.

Voters in this riding received last mail a seven page pamphlet, addressed to the electors of West Yale, giving the views of Premier Prior on the legislation his government considers necessary for the well being of the Province, and which it will endeavor to enact if sustained by the electors,

The Premier thinks the country does not want a general election, but a period of peace and prosperity under his benificent (?) guidance.

He tells us that the postponement of the West Yale election through the mysterious disappearance of the writ was no fault of his, but strangely enough he fails to inform us whose fault it was. As the government could be the only possible gainer by the delay, the conclusion is obvious—denials to the contrary notwithstanding.

After dodging the writ affair, the Premier gets along fairly well until he strikes the question of subsidies to railways. He seems to feel that he is on treacherous ground here, and brings out an array of aged and decrepit arguments in support of his case that are a reflection on the intelligence of the electors

There is no doubt the Premier sees plainly that the vast majority of the people are strongly opposed to the subsidy system. Why then does he continue to advocate it?

Is it not poor policy on his part to favor the giving of the public domain to bonus seekers when the voters are against it, and he is dependent for the existence of his government on the support of the electorate?

It is impossible to escape the conclusion that the Premier is subservient to the railway corporations, and that his success in this constituency will mean Southern B. C. for the C. P. R., Central B. C. for McKenzie & Mann, and Northern B. C. for the Grand Trunk.

As for British Columbians, they can get off the face of the earth. They certainly deserve no better fate if they are so blind to their own interests as to support the present makeshift government.

NOTICE.

I hereby give notice that on Thursday the 16th day of April A. D. 1903, at the hour of 11 a. m., at the Court House, Princeton, I shall offer for sale by public auction the mineral claim in the list hereinafter set out, of which the Crown grant has been issued, for all unpaid taxes accrued due and payable on the 30th day of June, 1902, or accrued due and payable at any 30th day of June subsequent to the date of the issue of the Crown grant, and remaining unpaid at the 31st day of December, 1902, and for the expenses of advertising this notice.

If the taxes and expenses of advertising, as set out in said list, are not paid to me on or before the day of sale, the claims may be sold to the highest bidder, and a conveyance executed to the purchaser of all right and interest in said claims legally alienated by the Crown by the Crown grants thereof.

In the event of there being no purchaser, or if the price offered shall not be sufficient to pay the taxes and expenses of advertising, the land shall absolutely revert to the Province and the Crown grants thereof shall be deemed void

LIST ABOVE MENTIONED.

F. W. GROVES,

A. R. COLL., SC. D.,

Civil and Mining Engineer

PROVINCIAL LAND SURVEYOR.

UNDERGROUND SURVEYS.

PRINCETON, - - B. C.

To the Electors of the West Yale Electoral District.

GENTLEMEN:—

In response to the solicitation of a large number of electors in all parts of this District, I beg to announce myself a candidate in the pending bye-election.

I shall take an early opportunity of meeting you and laying before you fully my views upon the different public questions at issue in Provincial politics. In the meantime, as an indication of my position, I may briefly state that I recognize the prime importance of having greater railway facilities in this Province, and will, accordingly, do all in my power to assist in the immediate construction of railways. The assistance, however, that is given by the Province must be in such form as not to increase taxation, while it must be accompanied by such conditions as will make the railway, when built and operated, a real benefit to the country; in other words, the Government must retain sufficient control of the railway and property of the Railway Company as to prevent any more of such railway monopolies as we now, unfortunately, suffer from.

As regards our great mining industry, I consider the Government can do much to restore confidence in the investing public, and to that end will insist upon the Government repealing the two per cent. mining tax and issuing Crown grants for hydraulic properties.

The question of immigration is also most important and should receive careful attention. While tens of thousands of people are pouring into the North-West Territories it is a reflection upon conditions in this Province that our immigration is so small. This is especially so when we consider the enormous wealth of our Province and the natural inducements of climate, soil, timber and mines. I am thoroughly in accord with the proposition which has been suggested by Premier Prior: to have a thorough exploratory survey made of the Province, so that we will be in a position to accord intending settlers the fullest information as to where they can best locate. While immigration, however, should thus be encouraged, it is also most desirable that due attention be paid to the class of immigrants. More particularly is it imperative that Asiatics should be prohibited from our country. I shall use every effort to prevent the immigration and limit the employment of this class.

The appropriations accorded this large and important District in past years, for roads, bridges and public buildings, have not been adequate to the needs of the District, and I intend to urge that the present necessities of the District in these matters be attended to at once.

In conclusion, I may say that I consider the above objects can be most promptly and surely attained at the hands of the present Government, and accordingly I intend to support it as far as is consistent with complete loyalty to the above views.

Soliciting your support and influence, and hoping to have the pleasure of seeing you individually before election day.

Believe me,
Yours faithfully,
GEORGE SANSON,

ASHCROFT, B. C.,
January 30th, 1903.

WITHOUT A SUBSIDY.

Grand Trunk Pacific Will Build in Any Event.

The announcement is made in railroad circles, that the Grand Trunk Pacific, as the new company is known which will construct another road across Canada, will ask the government for a cash and land subsidy, but intends to build the road whether it gets either or neither. This is regarded as very important, and indicates the great faith far-seeing men have in the future of Canada.

Very Particular.

A. S. L. Shields said that some of the testimony in the recent Salter trial reminded him of the case of an old negro who had been called as a witness. and whom the lawyer for the defense tried to discredit by such questions as :—

"So your name is Sam Miller, is it? Are you the Sam Miller who was sent to prison for stealing?"

"No sah,"replied the darky.

"No? Well, then you are the Sam Miller, aren't you, who smashed a lot of store windows once when drunk and disorderly?"

No, sah. Ise not that Sam Miller, neither."

"But you've been in jail haven't you?"

"Yes'ir—once."

"A-h-h-h-h! For how long?"

"'Bout an hour, sir."

"An hour? Be careful! I'm very particular—very particular—to get the truth! Now, what do you mean by saying you were in jail for only an hour!"

"Ise went there, sir, to white-wash a cell for a lawyer who, like yo'self, sir, was very particular—very particular." — Philadelphia Times.

The Healing Touch of Time.

Mrs. Dash—The idea of Mrs. Rash having society aspirations; why, her father was a huckster.

Mr. Dash—Yes; she's entirely too forward. She ought to hang back until people have forgotten it. Now, in our case, my dear, it was your grand-father who was a huckster.—Detroit Free Press.

A Phillipsburg, Kan., girl wrote home from college that she had fallen in love with ping-pong, and got this reply from her father: "Give him up. They don't no Chinaman marry into this family." —Philadelphia Ledger.

In a Restaurant.—He—Will you have a little lobster?

She—Oh, John, this is so sudden! —Philadelphia Evening Bulletin.

Friend—But if there is no hope of saving him, doctor, what are you going to perform the operation for?

Doctor—$100.—Town and Country.

There was a young lady from Siam,
Who said to her lover named Priam,
"If you kiss me, of course,
You will have to use force,
But dear knows you are stronger than I am."

NOTICE.

NOTICE is hereby given that an application will be made to the Legislative Assembly of the Province of British Columbia, at its next Session, for an Act to incorporate a Company with power to construct, equip, operate and maintain a line of standard or any other gage of railway to be operated by steam, electricity, or any other motive power, from a point at or near Princeton, in the District of Yale, Province of British Columbia, and thence by the most feasible route to a point on Nicola Lake at or near Quilchina, and thence by the most feasible route to a point on the Fraser River at or near the City of Kamloops, with power to construct, equip, operate and maintain branch lines and all necessary roads, bridges, ways, ferries and other works, and to build, own and maintain wharves and docks in connection therewith, and with power to build, equip, operate and maintain steam and other vessels and boats and operate the same on any navigable waters within the Province; and with power to build, equip, operate and maintain telegraph and telephone lines in connection with the said railway and branches, and to generate electricity for the supply of light, heat and power; and with power to acquire and expropriate lands for the purposes of the Company, and to acquire lands, bonuses, privileges, or other aids from any government, municipality, corporation, or other persons or bodies, and to levy and collect tolls from all parties using and on all freight passing over any of such railways, tramways, ferries, wharves and vessels built by the Company, and to make traffic or other arrangements with railway, steamboat, or other Companies, and for all other usual and necessary powers, rights or privileges.

Dated this 27th day of January, A. D. 1903.
