Introduction

Introduction

The students run their own show at UBC — this university is in a class almost by itself on the North American continent in its extent of student autonomy. The Board of Governors here at UBC has made it clear what the student must do and know to get his degree, and then has given him his freedom. In the lecture room, courtesy is the only rule. And the student does not even have to be there always. He can "skip" up to one-eighth of his lectures in each subject. Outside the lecture room, students can do anything—except tote a flask—within the Criminal Code of Canada.

Student affairs are governed by the Alma Mater Society, a 5800-strong association of all students on the campus. The AMS executive is the Student Council, elected by the Society. The AMS directs activities whenever students gather to do something in the name of the University, from passing a football to producing Rodgers and Hammerstein. The Greeks, however, aren't within the AMS framework.

SPIRIT IS ALIVE

All this boils down to the University motto, "Tuum Est," which is how the Romans said "It is yours." The phrase is often presented in a more challenging translation—"It is up to you." And so it is.

This spirit lies interred, but alive, over on the main mall, at The Cairn. That ivy-covered stone monument is a symbol of a romantic and exciting story.

In 1890 the Provincial Legislature passed an act establishing "The University of British Columbia." Remaining little more than an idea, UBC was kicked

around until 1911, when Point Grey was earmarked as its site, a move presaging UBC as one of the most beautiful universities in North America. It was to be built on 548 acres at the extremity of the Point, with 3000 acres between it and Vancouver City—the University Endowment Lands—to be leased or sold for university revenue.

GREAT TREK ORGANIZED

In 1912, plans for constructing buildings at this site were completed, but in 1915, UBC opened shop in ramshackle buildings on part of the General Hospital site in Fairview. By 1922, the Fairview shacks had begun to seem somewhat more than "temporary" to UBC students.

They held a few protest meetings, and then swarmed over the city to gather 55,000 signatures for a petition demanding action, no mean feat with Vancouver's small population in those days. Then they organized a crazy but wonderful demonstration—The Great Trek.

CLIMB CHEM BUILDING

Students paraded through downtown Vancouver in jalopies, then gathered enmasse at the site of the present university gates. They marched on foot through bush, along what was only a trail. They gathered stones as they went, and when they reached the University site, piled them into a mound. This was the Cairn, the mark they left to show they had been there.

The students demonstrated for several hours. They formed a "human UBC," in letters of hundreds of students each, and climbed the girders of the abandoned, partly-constructed Science Building, cheering and singing all the while.

GOVERNMENT IMPRESSED

Soon after the Trek, the Provincial Government invited them to attend a sitting of the Legislature to present their demands. In a scene unique in the history of the British Empire, the student delegation marched into the legislature to explain their stand, along with page boys laden with the mass of signatures collected.

The government was impressed, and voted to re-commence construction of UBC at Point Grey.

Work on the Science Building was started again the next year, and the same year the contract for the Library was let. By 1925, these and nine other buildings, including the Arts Building and the Auditorium, all nine described by the University Calendar as "of a less permanent character," were completed, and UBC moved from the Fairview Shacks to begin the 1925-26 session at Point Grey.

EXPANSION PROGRAM BEGUN

The old Gymnasium was built in 1929, the Brock Memorial Building in 1936, and the following year, the Stadium. During World War II the Armouries were built, the main section in 1941, and an extension in 1943.

After the war the veterans came. Enrollment jumped to 8000, and army huts were converted for classroom use to handle the increase. They are still being used.

In 1945, the Provincial Government gave the go-ahead for the post-war building program. By 1951 these buildings were completed: The Physics Building, Library wing, Power House enlargement, Home Economics Building, Engineering Building, Biological Sciences and Pharmacy Buildings, Women's Residences, the "million-dollar glass palace" War Memorial Gymnasium, a building for bacteriological and medical services—the Wesbrook Building, and the Law Library. UBC has come a long way since it pursued learning in the Fairview Shacks.

PETITION LIST INTERRED

Three years after The Great Trek, a permanent Cairn was erected from the mound of stones that had been piled by the Trekkers. A scroll listing the 55,000 petition signatures was placed inside, and The Cairn was sealed forever. The original petition is in the Provincial Archives.

The story of The Cairn and The Trek will never end. The spirit of The Great Trek is the spirit of UBC. Tuum Est.

BROCK MEMORIAL BUILDING

Brock Hall stands today as a fitting memorial to the life and the work of the late Dean of Applied Science, and his wife, killed in a tragic air crash in the summer of 1935. Reginald and Mildred Brock were held in such high esteem by the students of their day that it was decided to erect a permanent student union building to commemorate them. In 1940, Lieutenant-Govrnor E. W. Hamber officially opened Brock Hall.

In the centre of the building was the main lounge and on the east side the Snack Bar. Across from the lounge on the south side were the offices of the AMS and the headquarters of Student Council. On the north side of the lounge was the Mildred Brock Room for women students, the Alumni Office and LSE office.

Upstairs above the AMS offices was the Double Committee Room seating 200 available for the use of Clubs with permission from the AMS office.

In the south basement were housed the clubrooms of the Radio Society and Mamooks, the men's washroom, and Peter Dyke's barber shop. In the north basement are the offices of the Publications Board and the women's washroom and cloakroom.

CAIRN

The Cairn is on the Main Mall across from the Chemistry Building. It was erected in 1922 by the students who made the Great Trek with stone brought from the Fairview Shacks by them. Each year, a Cairn Ceremony is held in commemoration of the Great Trek.

HERBARIUM

The Herbarium consists of dried plant specimens housed in cases in the Biological Sciences Building. All groups from Algae to the Flowering Plants are represented. Several thousand B.C. specimens have recently been donated by Mr. J. W Eastham.

LIBRARY

The Library collection numbers some 275,000 volumes, including several noteworthy groups of materials as well as representative works in all fields in which the University gives instruction. The collection is strong in serial publications, including scholarly and scientific periodicals, particularly in the fields of Canadiana and forestry.

Canadian history comprises the Howay-Reid collection, from the late Judge F. W. Howay and the late Dr. Robie L. Reid. There is also the Pound Collection of Canadian Literature, and the A. J. T. Taylor Collection of material on the Arctic.

Extensive acquisitions of publications on forestry have been made possible by the fund set up by lumber magnate H. R. MacMillan. The Koerner Art Fund and the B.C. Packers Fund have enriched the collections in fine arts and fisheries respectively.

A General Reading Room, a Fine Arts Room known as the Sedgewick Memorial Room, and the Howay-Reid Collection are maintained in the older part of the building. A reserve book reading room, a periodicals

reading room, seminar rooms, and the Ridington Reference Room are provided in the new section. The last is named in honor of the late John Ridington, first librarian of the university.

MUSEUMS

The Anthropological Museum, housed on the first floor of the Library, includes the Burnett collection, made and donated by the late Frank Burnett. It contains groups of artifacts representative of the ethnology and archaeology of various parts of the Pacific Basin. Also in the Museum are the Raley collection made by Dr. G. H. Raley and donated by H. R. MacMillan, containing artifacts from Kitimat; and ceremonial material from the Southern Kwakiutl donated by H. R. MacMillan.

The Geological and Geographical Museum located in the Forestry and Geology Building, includes: the Dr. H. M. Ami collection of pre-historic artifacts from Les Eyzies, France; the Peach and Horne geological model of the Assynt Mountains, Scotland; a hooded dinosaur, Lambeosauras specie, from Steveville, Alberta, on permanent loan from the National Museum, Ottawa; suites of fossils, minerals, ores, birds and mammals.

The Zoological Museum, containing representatives of both vertebrate and invertebrate fields, is housed in the new Biological Sciences Building. The collection of marine invertebrates of the north-eastern Pacific Ocean is the largest extant. The collection of vertebrates exclusive of fish numbers 6,417 specimens.

STADIUM

The first section of the grandstand was erected in 1937 on the west side of the playing field. The covered, reinforced concrete structure provides seating for 1,600.

Flanking it are two wooden bleacher sections of 500 seats each. In 1946 a wooden grandstand of 1,000 covered seats was added on the east side of the field.

Under the present main stand are locker rooms, dressing rooms, showers, ticket booths, drying rooms and equipment rooms. Funds for the construction of the grandstand were provided through a $40,000 bond issue sponsored by the AMS.

SWIMMING POOL

After a long battle with groups who wished to place it on Vancouver's Riley Park, the British Empire Games Swimming Pool was finally awarded to U.B.C. Measur-155 by 55 feet, the pool now ranks with the finest on the continent. Facilities include a ten metre and a five metre diving platforms, and a three metre diving board, with adjustable hydraulic springs.

WAR MEMORIAL GYMNASIUM

"The million-dollar glass palace" was officially dedicated on October 26, 1951. Costing almost $800,000, the building was a result of a student campaign to honour the men and women of British Columbia who served in the World Wars. It was financed by public subscription, a Provincial Government grant, and in major degree by a special student levy.

The building seats approximately 3,600 and holds the Physical Education Department offices, Men's Athletic

STUDENT COUNCIL

Dick Underhill

Busiest man on campus this year is A.M.S. President, **Dick Underhill,** last year's vice-president. Besides being responsible for a multitude of A. M. S. activities, Dick represents the students to "the outside".

He has already attended the Pacific Student President Association Conference in San Francisco, and in October will be present at the N.F.C.U.S.—W.U.S.C. conference in Toronto. He has been President of Phi Delta Theta, is a member of Sigma Tau Chi, has played rugger, and has a commission in the U.N.T.D. He is in third year law.

Dick gained governing experience by serving on a myriad of committees on the campus, and gained special experience by travelling to school in an otherwise all-girl car pool.

Wendy Sutton

Vice-President of council this year is **Wendy Sutton.** Last year, by dint of missing many lectures and through a loyal hard working staff, she brought the Totem out on time for the first time in five years. At the same time she was social chairman of Pan Hellenic and vice president of the Varsity Outdoor Club. The College Shop,

Men: The University has provided accommodation for approximately 700 male students in single and double rooms at Acadia and Fort Camps. Charge for board and room during 51-52 was $51 single and $53 double. A co-op student would be the first to boast of his little communist community at 4082 West Eighth. Association members, limited to 16, elect a presidium to manage the general business, while the happy workers share the housework, each assuming a chore lasting not more than half an hour daily. But a capitalist feature remains—each member must buy ten shares in the association at one dollar each when he applies for residence. The ten dollars is returned when the member leaves.

BOOK STORE

The book store is in Hut A-3. Except for registration week, when supplies can be purchased at the Armories, it supplies all text books, note books, instruments, general stationery, and magazines at reduced prices. Hours are 9 a.m. to 5 p.m. Monday to Friday, and 9 a.m. to noon Saturday. At the session's end the Book Store will buy from students used books in good condition—providing the next regular session can use them. The offer lasts until June 15.

Each class of each faculty throws a class party to which only members of the class are admitted. Because of "technical difficulties," the Aggies and Redshirts prefer to hold banquets for the entire faculty.

SCHOLARSHIPS, PRIZES, BURSARIES AND LOANS

Full information on scholarships, prizes, bursaries, and loans is to be found in the earlier part of the University Calendar (Pages 59-128 in the 1954-55 issue). All inquiries regarding scholarships, prizes, bursaries, and loans should be addressed to the Dean of Administrative and Inter-Faculty Affairs, Room 10, Arts Building, University of British Columbia, Vancouver, B.C.

Scholarships are available only for students with high standing. With a few exceptions, undergraduate scholarship are awarded automatically on the basis of the results of the final examination, and winners may hold the awards only if they continue with their studies at the University in the next regular session. Scholarships for graduates, are awarded only on application. In the case of graduate scholarships awarded directly by the University, applications should be received by March 15th.

Limited financial assistance through special bursaries is available for undergraduates who have good scholastic standing (i.e., clear standing with an average of at least 65 per cent in the work of the previous session).

It is the desire of the Dominion and Provincial Governments that no student of ability shall, through lack

of funds, be denied the opportunity to continue his or her education beyond the level of the secondary school. A sum of money has been set aside, therefore, to aid University students who can offer proof of scholastic ability and financial need. This assistance is available to regular undergraduates in any year and faculty. Successful applicants will receive 60 per cent of the total assistance as a bursary and 40 per cent as a loan. The loan is repayable commencing one year after the applicant enters gainful employment and does not bear interest until that time. Assistance is normally given only to students who, in the previous session, obtained clear standing and made an average of at least 65 per cent. Application forms must be obtained from the Department of Education, Technical Education Branch, Victoria, B.C. They must be returned before August 15th.

Various loan funds are operated by the Dean of Administrative and Inter-Faculty Affairs to assist students who, during the session, find themselves without sufficient funds to complete the work of the session. An undergraduate whose progress is satisfactory may apply for a loan at any time during the session. The largest fund for this purpose is "The University General Loan Fund," which provides loans, not exceeding $200, which are interest-free until May 31st and are repayable the following summer. An adult guarantor satisfactory to the University is required.

Funds have also been established to provide loans of larger amounts and for longer periods of time, and are open to graduates and undergraduates with satisfactory guarantors. As the terms under which the funds are operted differ considerably, students desiring loans should discuss their financial problems individually with the Dean of Administrative and Inter-Faculty Affairs.

PUBLICATIONS BOARD

The most harried group on the campus is the Publications Board. Though not always with a minimum of effort, the Board manages to publish the tri-weekly newspaper, the Ubyssey, the Totem Yearbook, and this Handbook.

The Ubyssey aims at a complete and accurate coverage of campus happenings. Its editorials and signed columns are thought and laugh-provoking, and always sure to bring quick response in the "Letters to the Editor" column. Masterminding the Ubyssey this year is Editor-in-Chief Pete Sypnowich. Working with Pete are three Senior Editors, each of whom looks after one issue a week.

Main distributing points for the Ubyssey are in the bus stop, the Quad, the Campus Cupboard, the Arts Building, and underneath almost any table in the Library.

The Totem, a sparkling picture-packed review of campus activities and personalities, comes out just before final exams. Since only as many copies as are ordered can be printed, students are advised to order their Totem early. Last year there was a waiting list of almost two hundred students to get unclaimed copies of the book.

Work on the Totem began early in the summer, when initial plans were made by Editor Ann Rogers, and printing and engraving contracts were let. Totem-staffers will continue their work, pausing only for a few deep breaths, until April, when the book, the biggest printing job in Western Canada, is completed.

We are the men of the U.B.C.
All other teams acknowledge us masters.

Alma Mater, by the dwelling
There is set the western sea,
Mountains shed their benediction
On the hopes that rest in thee.
Alma Mater, to thy children
In the spring-time of their years,
Grant the faith that grows from knowledge,
Courage that makes light of fears,
Alma Mater, thou hast kinship
With the great of bygone days,
And the voices of our fathers
Join with ours to sing thy praise.

CASEY JONES

(Engineers' Song)

Come all you freshmen if you want to hear
The story of a brave engineer;
He started to college in the fall of thirty-three,
Why he took up engineering is a mystery to me.

(Chorus)

Casey Jones couldn't hold his liquor,
Casey Jones couldn't hold his beer,
Casey Jones never got through college
He never got through college 'cause he couldn't hold his beer.

Casey Jones was the engineer's pride
In football or hockey he always saved his side
He was a whiz in classwork, his reports were always clear,
But he never got his parchment 'cause he couldn't hold his beer.

Casey's career looked free from want or need
The dean would pat him on the back and say, "You're bright indeed."
He came to grief as all youth do, ne'er became an engineer,
And the reason for his failure was, he couldn't hold his beer.

The grad class held their dinner in the Red and White hall,
They all got pickled tight that night and Casey worst of all.
They wired to his folks next day, the message read, "Come here,
Your son cashed in his chips last night; he couldn't hold his beer.

HEUCH! Glen Whorple, Hielan men!
Great strong whusky suppin Hielan men, for they were

They were founded by McAdam who of a' men was fairst,

When the good King Solomon was ruler o' the Glen,
He had a hundred pipers and a thoosand fechten men,
And a might fine estab'ishment I'll hae no doot ye ken
For he kept a sight o' wives in auld Glen Whorple!

Then there cam a birkie bangster, wha was chieften o' the clan
His name it twas Wallace an' he was a fechten man,
An' he harrie a' the border, an' awa the southron ran,
Frae the dingin o' the claymores o' Glen Whorple!

When the bonnie pipes are skir'in an' the lads are on parade,
In the braw Glen Whorple tartan, wi' the Claymore an' the plaid
When the Sergeant-major's sober, an' the Colonel's no afraid,
O' seein' tartan spiders in Glen Whorple!

Eh, a bonnie sicht they mak, but gin the canteen ye gan ben,
When the morn's parade is over, she'ld be fu' o' drunkin men
An' a thoosand canty ki'ties will be settin' doon the Glen
For they drink a power o' whusky in Glen Whorple!

EAT

for Energy

It is a striking fact that many of the outstanding athletes train on chocolate because it is a food and an energy producer.

Chocolate is a creator of vigor and nerve force and supplies the body with that extra energy — that added punch—that is necessary to win.

Jersey Milk Chocolate is the finest of all milk chocolate. Experts say the habit of eating a bar of Jersey Milk Chocolate every day is a healthful one to form.

Remember, Jersey Milk Chocolate is purest and best.
