TO REPAIR MUNICIPAL HALL

BURNABY—Messrs. James & McClughan of New Westminster have been awarded the contract for repairs to the roof of the Burnaby Municipal hall. They intend to start work on the repairs immediately.

INVITE TENDERS FOR WIRING "TECH." SCHOOL

NEW WESTMINSTER — Tenders are being invited by Secretary R. H. Gray of the board of school trustees for the electrical wiring of the remodelled former provincial jail which is now being fitted up as the new technical school. Tenders will be received up to 4 p.m., on Wednesday, July 21. Plans can be seen daily between 2 and 4 p.m., at the architect's office, G. W. V. A. rooms, Columbia street.

ARCHITECT APPOINTED TO DRAW SCHOOL PLANS

SAANICH — The Saanich school board at its meeting last Wednesday evening appointed Mr. H. Savage, A. R. B. A., as architect to prepare the plans and workings drawings for an additional room to the McKenzie Avenue school. The board decided to advertise for tenders for the construction of the addition just as soon as Architect Savage has the plans ready. A special meeting of the board will be held on July 28 to consider the tenders and probably award the contract for the work.

TENDERS CLOSE JULY 30 FOR NEW HIGH SCHOOL

Elsewhere in this issue Architects Twizell, Birds & Twizell, 719 Metropolitan building, are calling for tenders for the construction of a new High School building of frame construction near the corner of Forty-fifth avenue, South Vancouver. The tenders for this building will close at noon on Friday, July 30. Separate tenders are also invited for the plumbing and heating work on the building. A deposit amounting to at least five per cent. of the amount of the tender is required with each bid. Plans and specifications of the new school building may be seen at the offices of the architects.

TO AWARD CONTRACT ON NEW DANCING PAVILION

Plans have been prepared, tenders called from selected contractors and it is expected the contract will be awarded today for the construction of a new dancing pavilion and refreshment parlor at Hastings Park. The plans for the new amusement structure were prepared by Architects Townley & Matheson, who expect to award the contract today. The building should be an ideal one for the purpose and promises to fill the proverbial long-felt want at the Vancouver Exhibition for a pavilion where dancing can be enjoyed in practically the open air and with the facilities of a good floor and properly placed music.

The new pavilion will be 62 by 150 feet in size and will be of frame construction on a concrete foundation and covered with ready roofing. Facilities will also be provided for a promenade and checking booth in this building.

PLANS EARLY START ON CONNAUGHT BRIDGE WORK

City Engineer F. L. Fellowes is getting a special construction gang together this week and assembling material preparatory to a start next week on the work of widening the temporary span of the Connaught bridge. This work, which is expected to cost about $10,000, is to be done by day labor, the council some time age having rejected tenders for the work, the lowest of which was $10,000. The present temporary span will be widened by ten feet on the east side of the bridge. This will necessitate some additional piling and heavy mill construction. Some of the work can only be done at low tide and it will probably be six weeks or two months before the additional roadway for motor traffic is available on the east side of the temporary span. It will prove a boon to motorists, however, for the congestion there during rush hours has made travel very dangerous.

DEAL IS CLOSED FOR NEW BALLANTYNE PIER SITE

The board of harbor commissioners will not have to institute expropria-

OFFICIAL ORGAN.

The British Columbia Record is the official organ of The Architectural Institute of British Columbia, federated with The Royal Architectural Institute of Canada and as such is used by them as the medium through which to make their official announcements to the general public.

By such selection the British Columbia Record is no wise pledged to editorial support of any policy advanced by these societies, but maintains an absolutely independent position on all matters subject to editorial opinion.

PRICE REDUCTION ERA HAS TEMPORARILY TIED UP CREDIT.

It has been universally conceded that prices would ultimately seek a lower level than those maintained during the war. Under these circumstances a downward price movement, if gradual and orderly, is to be welcomed both as an evidence of the return of more orderly conditions and as a factor in accomplishing that return. Such a movement in the prices of basic commodities is now clearly evident. Sharp recent declines in a few commodities however, are likely to cause the business public to lose sight of the fact that in a number of other commodities a gradual, even if slight decline, has been under way of late and bids fair to continue. Recent declines in prices of such commodities as shoes and clothing are not to be viewed as isolated instances but rather as a part of a gradual and general movement, the time at which each commodity responds and the degree to which it is affected being determined by conditions in the national and international market for that specific commodity.

Even at this time it is well to emphasize once more that the abnormal price level has been the result first, of actual physical shortage of goods in relation to demand, and second, of the expansion in the volume of credit and the various forms of money. It is thus clear that a decline in prices can only be brought about by a falling off of demand, an increase in the physical volume of production, a decrease in the volume of credit and money, or by these and various other causes working together. The armistice automatically destroyed the specialized demand which the war had created and removed the artificial support which had sustained the buying power of Europe during the conflict.

It was not to be expected that the industrial community could maintain the high tension under which it had worked during the war years, and it is very doubtful as to whether the maintenance of this tension would have been desirable. Despite numerous and widespread complaints as to the unsatisfactory condition of production in Canada and the United States, the fact remains that since the recovery from the temporary hesitation following the armistice, both countries have increased materially their production in certain directions. This year has been a struggle against great odds, economically, and while in many instances it has been disappointing so far, it is nevertheless true that production has been gradually filling up the gap between supply and demand, not only in Canada and the United States, but in practically every country in the world except those yet in a state of internal disorder.

In the face of these conditions, easily discernable to all far-seeing business men, the unwisdom of further expansion became apparent some months ago. Efforts to prevent such expansion have resulted in a considerable strain on credit and this has been much accentuated by retarded transportation and consequent typing up of a large volume of credit. At the same time, the fact must not be lost sight of that the credit position of Canada is as sound as any country in the world, and that there will be ample credit for enterprises prepared to co-operate intelligently in the work of bringing manufacturing, commercial and financial operation to a stable and conservative basis.

BIG ROAD CONTRACTS AWARDED SPOKANE MEN

SPOKANE, Wn.—Bids involving the expenditure of $344,000 for the construction of two important highway projects in Idaho were accepted at Missoula at the district headquarters of the bureau of public roads, two Spokane contractors being the successful bidders.

Siems & Carlson's bid of $157,000 for the construction of the Creer-Bungalow national forest road project in the Clearwater national forest in Idaho, was accepted. So was the tender of Otto Hansen of Spokane, for $187,000 for the construction of the south fork of the Clearwater national forest project.

NEW SHINGLE MILL ON NORTH ARM OPERATING

NEW WESTMINSTER—Illustrating the keen demand for shingles, another new mill commenced operations this week on the North Arm of the Fraser River. The new plant of the Union Shingle Company on Mitchell Island, opposite Fraser Arm, is considered a model of its kind. Although the plant has a somewhat limited capacity at present, all the buildings have been constructed with a view to future enlargement if conditions warrant it. The mill building is covered with corrugated iron and is bult on concrete foundations.

NEW SAWMILL BEGINS CUTTING IN FORTNIGHT

HAZELMERE—Within the next fortnight it is expected Flanagan's new sawmill in the Latimer road, will begin cutting and residents of this district are looking forward to the inauguration of this new local industry as providing an ample supply of lumber for building purposes at a saving that will represent previous high transportation charged anyway.

An electric power line is now being built out from the town to supply the new mill, which will be operated by electric power instead of steam, which was the original intention. The change from steam to electric power was materially influenced by the fact that drilling operations failed to locate a good supply of water at the mill.

Another new power line is being built along the Hall's Prairie road, north of the Latimer road. This will serve a considerable number of residents there for both lighting facilities and also power for small dairy plants and similar industries.

BUILDING AND INDUSTRIAL NEWS

GETS CRUSHED ROCK CHEAP

BURNABY — Municipal Engineer Smith has submitted to the Burnaby council some figures on the cost of crushed rock as supplied by the new municipal rock crusher. The cost of rock put through the crusher and delivered on the job costs on an average of $3.12 per cubic yard while that similarly delivered by outside firms costs $3.75 per cubic yard. Engineer Smith pointed out that while the rock supplied by outside firms is of slightly superior quality to that secured for the municipal crusher, he considered that the difference was more than compensated for by having the money spent in Burnaby by local workmen.

ALBERTA ENGINEERS PLAN MEETING AT BANFF

Arrangements are being made by the Calgary branch of the Engineering Institute of Canada to hold a meeting of western members of the engineering profession in Banff in August. Invitations will also be extended to the members of the Engineering Institute of Canada and the Association of Professional Engineers, Architects and Land Surveyors of Alberta, British Columbia, Saskatchewan and Manitoba to attend with their families. The camp will open on August 14 and the sessions will begin on Monday, August 16, concluding August 18, and camp will be broken up August 19.

MINISTER OF MARINE TO VISIT CITY IN AUGUST

Hon C. C. Ballantyne, Minister of Marine and Fisheries, will make his delayed visit to the Pacific Coast in August, according to advices from Ottawa. Hon. Mr. Ballantyne who is at present taking a rest at St. Andrews, N. B., plans to leave Ottawa for the Pacific Coast on August 10. The chief object of the trip west is to settle a number of harbor development matters affecting this port. He will be accompanied by officials of the Canadian National Railways and a number of other government officials, and while here the question of certain changes in the city's original agreement with the C. N. R. now taken over by the government, will be settled.

SEATTLE BANK TOTALS DROP FIVE MILLIONS

SEATTLE—Bank deposits in Seattle disclosed by the published statements of the 31 institutions in Seattle under the call of the comptroller of the treasury as of July 6 show a falling off of $5,000,000 as compared to the previous call in May. There is no especial significance to this decrease local bankers state, as this figure was reached last year, while before the close of 1919 the deposits had again mounted to beyond $180,000,000, a figure which, it is expected, will be exceeded this year.

TENDERS BEING INVITED FOR BRIDGE AT BANFF

Tenders are being invited by the Department of Public Works, Ottawa, up to 12 o'clock noon, Friday, July 30, 1920, for the construction of the superstructure, approach spans, roadways, sidewalks, fences, etc., of a bridge over the Bow River at Banff, Rocky Mountains Park, Alberta.

Further particulars may be obtained at the Record Office, Sey. 7808.

PENTICTON TO GET NEW $35,000 BANK BUILDING

PENTICTON—At a cost of over $35,000 the Bank of Hamilton is to erect a new bank building at the southeast corner of Main and Westminster streets. A permit for the erection of the structure has been taken out by Mr. R. N. Wyatt of Winnipeg who has been awarded the general contract for the building.

(Continued from page 1)

tion proceedings to obtain possession of the portion of the site at Heatley Avenue desired for the construction of the new Ballantyne Pier. The Great Northern Railway Company, which owns a portion of the site, has notified the harbor board, through their local counsel, Mr. A. H. MacNeill, K.C., that the company will accept the terms of the harbor board, comprising $1,000 per front foot for that portion of the property now held in the name of the railway company. This removes the last legal obstacle in connection with the construction of the new government wharf.

EXTEND TIME FOR TENDERS

VICTORIA—Announcement is made by the provincial public works department that the time for receiving tenders on the three bridges on the Hardy Bay-Coal Harbor road has been extended from the original closing date of July 12 to noon of July 26.

NOTICE TO CONTRACTORS

Sealed Tenders will be received by the undersigned up to 12 noon on Friday, July 30th, for the construction of a High School Building of Frame Construction on Block 642, between Forty-third and Forty-fifth Avenues, in the Municipality of South Vancouver, B.C.

Separate Tenders are invited for the Plumbing and Heating trades.

Contractors submitting Tenders will be required to enclose a certified cheque for a sum equal to five per cent. of the amount of Tender. Such cheques will be forfeited should the Contractor fail to enter into a contract when called upon.

Copies of the Plans and Specifications and Forms of Tender may be obtained at the office of the Architects on the deposit of a sum of Ten Dollars which will be refunded when the Plans and Specifications are returned in good order.

The lowest or any Tender not necessarily accepted.

TWIZELL, BIRDS & TWIZELL,
Architects.
719 Metropolitan Bldg., Vancouver, B.C.

NORTH CEDAR SCHOOL
NOTICE TO CONTRACTORS

Sealed tenders superscribed "Tender for North Cedar School," will be received by the Honourable the Minister of Public Works up to 12 o'clock noon of Thursday the 22nd day of July, 1920, for the erection and completion of a Three-Room School and outbuildings at North Cedar in the Newcastle Electoral District, B. C.

Plans and Specifications etc., can now be seen at the Office of:—
J. Mahony, Esq., Government Agent, Court House, Vancouver. S. McB. Smith, Esq., Government Agent, Court House, Nanaimo. Mrs. Feddick, Secretary to School Board, North Cedar, or the Department of Public Works, Victoria, B. C.

Lowest or any Tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer.
Public Works Department,
Victoria, B. C., July 2, 1920.

Faulds, McQueen & Pearce Limited.
GENERAL CONTRACTORS
We will get out plans and build houses for you anywhere in Greater Vancouver and give you figures on all kinds of construction work.
Sey. 165 626 Hastings St. W.

BIDS ARE ASKED ON NEW WHARF AT THETIS ISD.

The department of public works at Ottawa is inviting bids on the construction of a new government wharf at Thetis Island, near Nanaimo. The bids will be received up to noon of Tuesday, August 3. All tenders must be sent to R. C. Desrochers, secretary of the department of public works at Ottawa. Plans and specifications of the new wharf may be seen at the office of the district engineer at Victoria and also at the post offices in Vancouver and Nanaimo.

A NEW GAS SERVICE -- HEATING --
YES, you can heat your home, office building, store or factory with GAS economically, conveniently and satisfactorily—without the dirt and dust of a furnace—without the work of carrying ashes or shoveling fuel.
There are gas-heating systems that fit any type of house or building from the hot air system that uses your present registers and pipes to the automatic unit radiator system that controls your heat to a nicety.
Think of the convenience of a gas-heating system—think of the clean basement and the freedom from work that gas means—and then call up our New Business Department. Seymour 5000.
WE SHALL BE GLAD TO ADVISE YOU ON YOUR HEATING PROBLEMS

ASK BIDS ON TWO HOMES FOR BURNABY SOLDIERS

Burnaby municipal council, through its clerk, Mr. Arthur G. Moore, is inviting tenders for the construction of two new homes for returned men under the provisions of the Soldier Housing Act. The plans and specifications for these new dwellings can be seen at the office of Architects E. Evans & Sons, 108 Molsons Bank building, and the tenders will close at 5 p.m. on Monday, July 19. Each tender must be accompanied by the usual ten per cent. deposit and the successful bidder will also be required to furnish the usual surety bond.

EXTEND CLOSING TIME FOR CHURCH TENDERS

Announcement is made by Architect W. S. Griffith, Dominion building, that the time for receiving tenders for the alterations to Robertson Presbyterian church, corner Napier and Salsbury Drive, has been extended to July 16. Plans are available at the office of Mr. Griffith to intending bidders.

ELECTRICAL TENDERS ASKED

Tenders for Electrical Wiring and fittings at the Public Building, Comox, are being received up to 12 o'clock noon, Saturday, July 17, 1920, by Wm. Henderson, District Resident Architect, Public Works Department, Victoria.

Plans and specifications and forms of tender can also be obtained from Mr. J. C. Wright, Room 32, Public Building, Vancouver.

NOTICE TO CONTRACTORS.
CLINTON LOCK-UP

Sealed Tenders superscribed "Tender for Clinton Lock-Up" will be received by the Honourable the Minister of Public Works up to 12 o'clock noon of Friday the 30th day of July, 1920, for the erection and completion of a Court House and Lock-Up at Clinton, in the Lillooet Electoral District.

Plans and Specifications can now be seen at the Office of:—
J. Mahony, Esq., Government Agent, Court House, Vancouver; S. Milburn, Esq., Government Agent, Court House, Clinton, and the Department of Public Works, Victoria, B. C.

Lowest or any tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer.
Public Works Department,
Victoria, B. C., July 7, 1920.
