NEW BUILDINGS FOR BOYS' TRAINING SCHOOL

Tenders are being invited by the Hon. the Minister of Public Works up to April 6, for the erection of an Administration Block and Dining Block in connection with the Boys' Training School at Coquitlam.

MAKE IMPROVEMENTS AT NICOMEN ISLAND

Tenders are being invited by the Dominion Public Works Department up to March 30, for the construction of a dam in Slough, from Devil's Run Island to Nicomen Island, Fraser River. Official notice of tender appears elsewhere in this paper.

INVITING TENDERS FOR GRANITE MASONRY WORK

Architects Gardiner & Mercer, 827 Birks Building, who have been commissioned to prepare plans for a new Municipal Hall at Coquitlam, will have the drawings completed next week, at which time tenders will be asked for. In the meantime the architects are desirous of obtaining figures for the granite masonry work.

The proposed new hall will be a two-storey frame structure, 70x35 feet in size, built on stone foundation.

FOUR-STOREY ADDITION FOR WATER STREET BLOCK

Plans are in course of preparation in the offices of Architects Dalton & Eveleigh, Davis Chambers, and tenders will be called for about March 18th, for an extension to the Leckie Building on Water Street.

The new addition will be a four-storey and basment brick structure, 40x140 feet in size, and will be uniform with the style of the present building occupied by the Leckie Co. Further details will be published in the Record later.

COLD STORAGE PLANT AT HATZIC TO COST $50,000

Mr. Bedford Davidson, 1012 Broughton Street, has been awarded a contract from the Farmers' Cold Storage Association for the erection of a cold storage plant at Hatzic, to cost $50,000. Work on the new plant has just been started, and will be completed in time to take care of the fall fruit.

The plant, which will be a two-storey hollow tile structure, 60x150 feet in size, will be capable of taking care of 1000 tons of fruit and will have two sharp freezer rooms, 30x50 feet, and three cold storage rooms, 30x50 feet. A separate building will also be erected to house the engine room and 5-ton ice-making plant.

SUB-CONTRACTS LET FOR BOYS' TRAINING SCHOOL

Messrs. Robertson & Partners, 422 Metropolitan Building, have awarded sub-contracts in connection with the Boys' Training School at Coquitlam to the following concerns:

Plumbing, Orr Bros.

Cut Stone, Keast & Allan.

Metal Lockers, W. N. O'Neill Co.

Steel Sash, A. B. Ormsby & Co.

Fire Escapes and Window Grills, S. M. Morris & Co.

VICTORIA TO HAVE NEW $200,000 ROOFING PLANT

VICTORIA.—Mr. R. W. Mayhew, manager of the Sidney Rubber Roofing Co., who has just returned from the East, after purchasing machinery, states the new plant to be erected for his company will be located in this city. He declines to announce the exact location as yet, but states the new plant will turn out roofing felt, building paper and heavy wrapping paper, and will employ about 60 men.

The estimated cost of the plant is $200,000 and its daily output will be about 20 tons. The entire output of the company's present plant at Sidney is sold for 1920 and orders from the Orient and Australia are piling up already.

START GRADING FOR JOHNSON ST. BRIDGE

VICTORIA.—Grading of Lime Street in preparation for the installation of the Johnson Street bridge and the continuation of Johnson Street into Victoria West has commenced.

Drilling on the bridge site is proceeding rapidly, ten holes having been sunk into the bottom of the harbor. This drilling has produced very valuable information for the use of City Engineer F. M. Preston, who has charge of the installation of the bridge. Four more holes will be sunk before the work of installing the bridge piers can be commenced. Meanwhile Mr. Preston and assistants are making rapid progress with the preparation of the bridge plans.

AUTOS INFLUENCE VANCOUVER REALTY AND BUILDING PLANS

Few realize the extent to which the automobile has wielded an influence on real estate and building plans in Vancouver. The fact is often more or less forcibly brought to the attention of the motorist, but the average man-in-the-street who is not fortunate enough to own an auto as yet, seldom realizes what a great factor the modern motor car has been of late not only in solving the quick transit problem but also in creating special lines of business as well as special types of buildings. In Vancouver, motor cars have been the direct cause of the creation of a separate business section, or rather several sections located on strategic points of motor travel, that almost equal in extent the city's main retail area. More than that, the automobile industry has become within a comparatively brief space of time one of the basic factors in local investment.

In addition to the innumerable private garages which are now considered an inevitable accompanyment to every detached dwelling, there were constructed in Vancouver last year more than a dozen separate buildings of a special type of construction for operation as commercial garages. All of these structures were filled as if by magic, to capacity almost as soon as they were opened. There are also half a dozen big commercial garages now under construction, several of which will each be able to accommodate from 100 to 200 cars under its roof. And more and still larger ones are being planned.

The ten or twelve thousand cars now being operated in this city constiute the origin of all this business, and it is quite safe to say that the number will be heavily increased next year. The automobile has become such a fixed and indispensible ingredient in the life of the nation that it canont be viewed in the light of anything other than a staple. Property investment and special types of buildings based on its use need no longer be considered extra hazardous, providing the same sound judgment is applied as in the case of property of another type. The cars are here and are sure to multiply, and even in so-called hard times, their number is not likely to seriously diminish. There is no present danger of an over-supply of space; rather the contrary. The trend is clearly upward and the increase of motors bids fair to continue until they touch in some way the activities of practically everybody in the country.

BOARD OF WORKS GRANT FOR YEAR IS $775,000

In the final revision of the civic estimates by the city council at its meeting Monday, the sum of $775,000 was passed as the civic board of works appropriation for the year, together with $100,000 for the operation of the scavenging department. While this is a considerable cut on the sum originally asked by City Engineer Fellowes, it will enable a quite extensive programme of road improvements and similar construction to be carried out during the year.

The council also passed the sum of $195,000 as the grant for the civic waterworks for the year. This will also allow of considerable extensions of the service and some semi-permanent construction work for water storage on the Seymour watershed.

The total civic estimates for the year, as passed by the council, aggregate $6,159,951, and unless the provincial government allows the city to broaden its basis of taxation, this will mean a 30-mill tax rate for the current year.

NOTES FROM TRAIL.

The corporation of the city of Trail will shortly submit to the ratepayers a bylaw to authorize an issue of $80,000 seven per cent. 20-year debentures for the purpose of erecting, furnishing and equipping a municipal building.

DEFER ACTION ON CITY PLUMBING INSPECTOR

Despite the fact that Mr. H. C. Simmers, who has been assistant city plumbing inspector for the last eight years, was strongly recommended for promotion to the post lately vacated by Mr. J. G. Morgan, former city plumbing inspector, the city council decided to defer action on the appointment when this matter was under consideration at the meeting on Monday.

The recommendation for the promotion of Mr. Simmers was made by a special committee of the council, which after personally interviewing the eight applicants for the position and examining their qualifications, also suggested besides the promotion of Mr. Simmers, the appointment of Mr. D. R. McDonald as assistant plumbing inspector. The whole question was referred back to the civic building committee for further consideration and it is hinted there may be some interesting developments in connection with the appointment.

CALL TENDERS SOON FOR COLOR PRINTING WORKS

Tenders are being invited by architects Dalton & Eveleigh, Davis Chambers, for the excavation of seven lots

for the B. C. Printing & Litho. Ltd., preparatory to the erection of a large lithographing plant. Tenders for the erection of the building proper will be called for about the 18th of March.

The building is to be of brick and heavy mill construction and will have a frontage of 175 feet with a depth of 120 feet.

PREPARING PLANS FOR WATER STREET WAREHOUSE

Architects Gardiner & Mercer have been commissioned to prepare plans for extensive alterations and additions to the premises at 131-33 Water street, recently purchased by Swartz Bros., produce, wholesalers. Sketch plans have been approved by the owners and the working drawings will be ready about March 15, when tenders will be called for. The improvements consist of a one storey and basement brick addition and extensive interior structural alterations.

GARDINER & MERCER TO PLAN BIG BARN

The Vancouver Exhibition Association have appointed architects Gardiner & Mercer, 827 Birk's Building, to prepare plans for a new cattle barn to be erected at Hastings Park. The plans of Gardiner & Mercer were selected from drawings submitted by twelve local architectural firms. Notice as to when tenders will be called for will be published in the Record later.

TAKING TENDERS FOR CONCRETE FLOOD BOXES

Tenders will be received by N. A. McDiarmid, clerk of the Municipality of Delta, at Ladner, B. C., up to noon, March 12, 1920, for the construction of two concrete flood boxes, one at Ladner, B. C. and one at the Chewassen Indian Reserve. Plans and specifications may be seen at the office of the clerk, Ladner, or at the office of Burnett & McGugan, engineers, New Westminster.

PREPARING PLANS FOR KELOWNA HOME

Architects Maclure & Lort, 425 Credit Foncier Bldg. have received cable instructions from Rev. W. Graham Brown, at present in Glasgow, Scotland, to proceed with the plans for his new home to be built at Kelowna. The architect's plans call for a two-storey, eight-room residence and include every modern convenience. In all probability work will be done by Kelowna Contractors.

TENDERS FOR DREDGING

Tenders are being received by the Dominion Public Works Dept. up to March 18, for dredging required at Metlakatla Bar near Prince Rupert. Further details may be obtained at the Record office.

MINING NOTES

The new strike in the Nugget gold mine at Sheep creek has been explored for a distance of more than 50 feet, and values remain the same and show the ore body to be almost certainly continuous with that of the previous workings 625 feet above. Ore taken out in the course of extending the drifts east and west has been trammed to the Mother Lode mill, and the ore bin is now full.

Visitors from Diondel report that operations on the Kirby group will soon pierce the wall of the second of the high grade stringers known to be contained in the wide and undefined vein on the second level of that property, and that probably by this time the face of the tunnel may be in ore.

The long tunnel on the Babine Bonanza is now in over 600 feet and the first vein was crosscut, opening up two feet of good ore at a depth of several hundred feet. There are some 300 feet yet to drive before the main vein is cut. A staff of five men is employed.

TO EXCAVATORS

Tenders are wanted for excavation of seven lots for the B. C Printing & Litho. Ltd. For plans and specifications apply to Dalton & Eveleigh, Architects, Davis Chambers.
