Hunter-Kendrick
COMPANY, LTD.

SHORT TALKS
On Fall Necessities

MEN'S UNDERWEAR

YOU GENTLEMEN who have been buying underwear every fall should be good judges of it. Step in and examine the TIGER Elastic Ribbed—it sells itself. Strictly all wool of highest grade, unshrinkable and pleasant to wear.

PENMAN'S Celebrated English Underwear. Finest lambs wool, unshrinkable and of best wearing qualities, an elegant line of medium priced goods

Also, woolen and union good of all weights and prices.

SUSPENDERS

The ROUGHRIDER Suspender is fast coming to the front. It sells for 50c—equals the President (which sells for 75c) and is Union made. Equalizes the strain no matter what position the body is in.

BOY'S CLOTHING

NO MONEY in cheap, shoddy clothes for boys—nor in paying fancy prices for so-called "good goods." The idea is to find serviceable, all wool suits, made to fit and look neat, at popular prices. We will be pleased to show you our new line of BOYS TWO AND THREE PIECE SUITS, and odd nickers. They are the ones.

TRUNKS

A recent purchase of a carload of trunks for our various stores places us in a position to sell trunks, grips, suit cases, telescopes, etc., at prices to please everybody. Large assortment to pick from.

THE BIG STORE

Piccadilly Restaurant

A New Restaurant Run on to the Live and Let Live Plan.

Where Meals can be secured at all hours, well served and at moderate prices.

OPEN DAY AND NIGHT.

Wood & Mosher, Proprietors

Remember the place, next door to Arlington Hotel.

LIBERAL MANIFESTO

ELECTIONS OCTOBER 3.

Vancouver, Sept. 4.—The following manifesto has been issued to the electors by the executive of the British Columbia Liberal Association:—

Tne liberal platform, as adopted at the provincial liberal convention held at Vancouver on February 7th, 1902, is as follows:

1. The immediate redistribution of the constituencies of the province on the basis of population but allowing a smaller unit of population per seat for the outlying districts.

2. Government ownership, Dominion, provincial and municipal, of public services of utilities i ssound and shoudl be carried out in British Columbia.

3. Should it be advisable at any time to grant aid to a railway company such shall be in cash and not in land and no bonus of any kind shall be given without definite and effective means being taken to safeguard the interests of the province in the management of the road, control of the freight and passenger rates, and provision made against such railway having any liability against it except for actual cost.

4. Immediate construction of the Coast-Kootenay railway; the Cariboo railway; a railway from Alberni to a point on the east coast of the island; a road in the northern part of the province from the coast to the eastern boundary with an extension to the northern boundary; the railway from Vernon to Midway by north fork of Kettle river; with necessary branch lines, ferries and connections.

5. The enforcement of the act now in force compelling the scaling of logs by government scalers.

6. That such legislation should be enacted as will result in making the lands included in the various dyking areas available for cultivation as quickly as possible and secure prompt payments of assessments when due.

7. That the government should keep in touch with the conditions in connection with mining, protecting said industry against combines and trusts and if necessary for the purpose build and operate smelters and refineries. No reasonable change should be made in the mining laws without full notice to all parties interested, giving full opportunity for discussion and criticism.

8. As the province can only advance by the settlement within its borders of thrifty and prosperous citizens, and as Orientals never become citizens in any proper sense of the word, we declare it to be the duty of the government to discourage Oriental immigration and employment by every means within its power, and we appeal to our fellow liberals throughout the Dominion to aid us in our efforts to protect ourselves against the ruinous competition of men having a standard of decency and comfort immensely below that of civilized peoples, and who shirk every duty and obligation of citenship which the law will allow them to escape.

9. The government ought to prevent the waste and suffering caused by strikes and lock-outs, and an eanest effort ought to be made to provide some means of preventing such strikes and lockouts, and we approve the adoption of compulsory arbitration.

10. The fiscal system of the province stands in need of revision. Taxation should bear upon privilege rather than upon industry, and no addition should be made to the debt of the province except for public works properly chargeable to capital.

11. The retaining of the resources of the province as an asset for the benefit of the people and taking effective measures to prevent the alienation of the public domain except for actual bona fide business or industrial purposes, putting an end to the practice of speculating in connection with the same.

12. The construction and maintenance of roads throughout the province to aid in the development of the mining and agricultural districts.

The first plank of the above platform refers to a subject which, though not a live issue now, was so when the platform was adopted. In this matter the rights of the people have been substantially secured by the efforts of a handful of liberal members who, holding the balance of power during the session of 1902, compelled an unwilling administration to pass the present Redistribution Act.

The executive of lhe British Columbia Liberal Association desire to call your attention to the following:

The province is on the eve of a general election, and for the first time in its history the contest is to be conducted upon party lines.

Hitherto contests in the province have been carried on between aggregations bound together rather by interest than principle, by private arrangement rather than by public considerations. In the past the dominant influences in the several governments of the province have been conservative. The Prior, Dunsmuir, Turner and previous governments have been almost entirely composed of conservative, supported in the house by conservatives. The present government of which the Honorable Richard McBride is premier is the natural seccessor in tradition and policy of that mischievous series of personal governments which has made this province, although the richest of of any in natural resources, the least prosperous in the Dominion. With our vast mineral and other resources the progress of our development hos been slow and entirely unsatisfactory. Unwise legislation, principally in the interest of speculation, not of industry, is responsible to a very large extent for this condition of affairs. The public assets, valuable franchises and monopolies, have been given away to favorite persons and corporations, instead of being utilized for the benefit of the people at large, and this has been going on for so long a time that the province now finds itself compelled to exact from industry that revenue which had our affairs been wisely conducted could easily have been obtained from our squandered heritage.

The last conservative government, owing to its maladministration of the public affairs of the province, was, through the efforts principally of a small band of liberals, dismissed from office, and accident and the introduction of party lines has placed another conservative government in power, and has placed at the head of that government a man who was not only an ardent supporter of past conservative administrations, but was himself a member of one of them, and shared fully in the responsibility of an attempt on the part of that government to give away to a railway corporation, in direct defiance of the instructions of the legislature as expressed by statute, two large blocks of enormously valuable coal and oil lands in Kootenay.

It is the aim of the liberal party to place in the field at the coming election men pledged to remedy the evils from which we have so long suffered.

Among the matters requiring immediate attention are the following:—

CIVIL SERVICE REFORM.—(a) By taking care that the staff of officials shall not be maintained beyond the actual requirments of the service; (b) by making good conduct and efficiency the conditions of tenure of office; (c) fitness not favoritism, to govern appointments.

FISCAL REFORM.—(a) By keeping expenditure within revenue, borrowing money if at all only for works properly chargeable to capital; (b) wise and provident administration of the natural riches of the province, so as to bring into the treasury that revenue which should be derived from our great and varied resources; we declare our conviction that the proper taxes, rents, and royalties, can and ought to be, levied and collected in such a way as to encourage industry and at the same time provide sufficient revenue and enable the government to repeal in whole or in part certain taxes which now hamper industry, arrest development, and create dissatisfaction among the people.

(c) In this connection the taxation of mines will receive that consideration which the importance of the mining industry to the province demands. It is not claimed by those engaged in mining that their property should be exempt from taxation, but they do claim that the present system of levying taxes is unfair, and tends to discourage the investment of capital and the employment of labor in mining enterprise, thus not only retarding the development of our mineral resources, but also impeding the prosperity of the mining community and preventing the enlargement of sources of revenue to the province itself. The present system imposes a tax on wages as well as on profits, and should be readjusted so as to bear on profit only.

REFORM IN LAND ADMINISTRATION.—(a) We denounce absolutely the conservative policy of land grants by way of bonus to railways, and also the reservation of large tracts of land which has obtained in the past.

(b) We declare it to be our policy to hold the public lands in trust for the promotion of settlement and encouragement of industry. In the case agricultural lands, we favor free homesteads under conditions which shall effectually secure the land to actual settlers.

(c) Full and exact information as to all public lands fit for settlement should be obtained by the government, and made available at every government office for the information of tee people.

THE FARMING INDUSTRY—(a) Recognizing the importance of agriculture in the province, we are in favor of placing the agricultural department of the government on a thoroughly practical and efficient basis.

b) The bad management and inefficiency of the government have imposed upon the owners of the dyked lands a much heavier burden than they should have been called upon to bear. We would enact the legislation making the lands included in the various dyking areas available for cultivation as quickly as possible. This whole question call your prompt attention and settlement upon a basis which shall be at once jvst to the owners of these lands and fair to to the taxpayers of the province as a whole.

(c) In the interest of agricultue in what is commonly known as the dry belt, the question of the proper utilization of the water supply for irrigation purposes demand and receive prompt attention from the government.

ROADS.—The present lack of system of constructing and maintaining roads and trails is productive of a serious waste of public, and in this connection more can be done to open up new districts, where roads are needed, and at less cost than what has been done in the past, under the wasteful and corrupt system which has been so long in vogue.

PUBLIC HEALTH.—The Health Act should be amended so as to meet the growing requirements of unincorporated districts in respect of sanitation and isolation, as to which do adequate provision is now found in the statutes.

PROVINCIAL RIGHTS.—Regardless of all question of party affiliation, the rights of the province under the constitution should be jealovsly guarded. While, from the point of view of Dominion politics, we heartily support the government now in power at Ottawa, we shall at the same time insist most firmly upon the protection of our people by the exclusion of Oriental labor, and we shall also insist upon the right of the province to make such provisions as it shall see fit in all contracts grants and leases under provincial control. We shall also strenuously press upon the Dominion government a readjustment of our financial relations and we claim the full enjoyment of all rights given us by the letter and spirit of the constitution.

In conclusion, we appeal to all patriotic voters in British Columbia to seize the opportunity now presented to them to rid the province of that incubus which has been so disastrous to its progress, and to secure sane, progressive, and stable government by placing the liberals in power at Victoria.

Stuart Hendrson, President.
T. S. Baxter, secretary.

Dividend Celebration

A year ago yesterday the Providence Mining Company was formed. Yesterday a dividend of upwards of three thousand dollars was paid to the holders of Providence stock. In honor of the double event a social gathering of local stock holders was held in the Picadilly. Mr. Mark. Madden of Chicago one of the heaviest holders of Providence stock was also in attendance. Needless to add every body had a good time. The supper was excellent, the speeches were instructive and the songs defied description. W. M. Law sustained the reputation of his countrymen as after dinner story-tellers, and in this respect he now stands close to General Horace Porter. Mr. Madden and Mr. McArthur confined themselves strictly to speechmaking, while Duncan McIntosh Superintendent of the Providence, constituted himself vocalist of the party. His rendering of "Loch Lomond" and "Bonny Charlie" brought tears to the eyes of the audience, and demonstrated that if he so desired he could win laurels in other fields than those of developing mines and producing dividends. Incidentally the songs brought up a discussion of music that if not instructive was at least original.

Mr. Madden's speech dealt with the possibilities of Greenwood as a high grade camp, and expressed his surprise at the evident lack of appreciation of this fact by the local people generally it is a pity that more men were not present to hear the sentiments of a buisiness man who is after dividends, and who has proved that they are here for the going after.

A jolly evening was closed with "Auld Lang Syne," and the gathering dispersed to dream of bigger dividends next year from the Gold Bug as well as the Providence.

A POLITICAL TRICKSTER

A new precedent has been established. Weits for the provincial elections have been cancelled and a date four weeks in advance of that gazetted has been decided upon by Premier McBride. It is evident that even the responsible position of first minister of the Crown does not restrain a political trickster from indulging in his favorite pastime. No one ever accused Richard McBride of being a statesman. The Conservative party in British Columbia tolerate him now because they have no other alternative. By a peice of sharp practice, by a contemptible desertion of politidal friends he succeeded in securing the premiership and forced himself on the Conservative party as their leader. His latest move is in keeping with his past record. His first official act was to mislead His Honor the Lieutenant-Governor. It is impossible for him to rise above the level of the political trickster and the charlaton.

Mr. McBride may think that in doing violence to constitutional precedents he has made a clever political move but it will benefit him in no way. The liberals are ready for the battle oh October 3rd or any other date. They desired sufficient time to plainly and clearly place McBride's record before the people and enlarge upon the Liberal policy. Mr. McBride does not want public discussion. Since the campaign opened neither he nor any of his ministers have made one public pronouncement that could be construed as a political speech. It has been a campaign of promises that cannot be fulfilled.

Mr. McBride's action has simply confirmed and strengthened the general view of his character and has made more apparent the importance of relegating him to private life. If he could decieve the Lieutenant-Governor in reference to the personnel of his cabinet, if he could deceive his supporters while in opposition and if he could mislead the public in reference to the date of the elections, he cannot be trusted in the administration of public affairs. In settling the East Kootenay Coal lands question, in dealing with the public assets of the province and in all matters in which the interests of the province are at stake Mr. McBride will pursue the same tricky course. The people will not trust him and the Conservatives cannot trust him.

The safety of the province lies in returning a strong Liberal party pledged to a definite policy of reform. Mr. McBride simply accentuates the evils of the past. He has surrounded himself with those who are responsible for bad government in the past and instead of improving them, he is only a willing instrument in their hands.

EDITORIAL NOTES.

Since the publication of the Liberal manifesto the Rossland Miner, (Conservative) says the Conservative platform as adopted at Revelstoke, is "a truckling, inconsequential trimming and a wholy inadequate pronouncement that, as a political manifesto, is not worthy of a 10 year old school boy." No wonder the Conservatives are disgruntled and dissatisfied.

The Grand Forks Sun rises to remark that the name of the Conservative candidate in Greenwood is now Spankie but on October 3rd it will be—Well—Spanked.

While McBride was about it he should have passed an order-in-council declaring the election off. That is the only way he could hope to win.

McBride has established a new precedent. It is now the proper caper to trifle with election writs.

Dick McBride's political reputation could not stand a long campaign.

Challenge

TO THE EDITOR OF THE GREENWOOD TIMES,

DEAR SIR: Geo. Johns who won the drilling contest in Greenwood during the late celebration, has been making remarks regarding my drilling that I think calls for some reply. Now, if Johns is the driller he claims to be, he can prove it by accepting the following proposition: I will drill him for five, ten or fifteen minutes, which ever he chooses; steel and hammers to be regulation size and weight, contest to take place in Greenwood on the same rock as was used celebration day, for $50.00. Money to be posted in TIMES office by Sept. 24th and contest to take place not later than Sept. 30th. Money to be forfeited in case he does not make his bet good.

Trusting to hear from Johns at an early date. I am,

Yours, etc.,

SAM SHOVEL.

The Proper Treatment for a Sprained Ankle

As a rule a man will feel well satisfied if he can hobble around on crutches two or three weeks after spraining his ankle, and it is usually two or three months before he has fully recovered. This is an unnecessary loss of time, for in many cases in which Chamberlain's Pain Balm has been promptly and freely applied, a complete cure has been effected in less than one week's time, and in some cases within three days. For sale by J. L. White Greenwood, and A. F Thomas Midway.

Spokane Interstate Fair

The railroads have announced reduced rates of a fare and one-third for every day of the Spokane Interstate Fair, which is held from October 5 to 13. This applies from all parts of the Inland Empire. There is every prospect that the harvesters will be through with their work, and at this time of the year the workers in the mines and in the timber camps are glad for a few days' layoff and recreation. These prople. as merchants and business men, will flock to Spokane. The exposition promises to be better than ever before. The racing will be better, the exhibits will be better, there will be more stock on hand, the mining department will have five or six times as large a display, and these main features will be supplemented by all manner of minor attractions which go to make up a big exposition. The evening entertainment will be furnished by Geo. Jabour's Carnival & Circus Company, and will be down town, but all of it is under the general supervision of the Spokane Interstate Fair.

Be Quick.

Not a minute should be lost after a child shows symptoms of cholera infantum. The first unusual looseness of the bowels should be sufficient warning. If immediate and proper treatment is given, serious csnsequences will be averted. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the sole reliance of thousands of mothers and by its aid they have often saved their children's lives. Every household should have a bottle at hand. Get it to-day. It may save a life. For sale by J. L. White, Greenwood, and A. F. Thomas Midway.

Board of Trade.

At the Board of Trade meeting Wednesday afternoon, a committee consisting of Mayor Smailes, Mr. Allison manager of the Bank of Commerce, J. P. Myers-Gray, Julius Ehrlich, Geo. R. Naden and W. G. Gaunce was appointed to meet the visiting members of the Empire Chamber of Commerce. The committee will meet the visitors at Phoenix and will escort them to the various points of interest in the district.

When you do not relish your food and feel dull and stupid after eating, all you need is a dose of Chamberlain's Stomach an Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by J. L. White Greenwood and A. F. Thomas Midway.

*July 22 J. P. McLeod.

The Contrast Between The Two Contarcts.

WHAT THE CONSERVATIVE GOVERNMENT GAVE THE C.P.R. BY THE CONTRACT OF 1881.	WHAT THE LIBERAL GOVERNMENT GIVES THE G. T. P. BY THE CONTRACT OF 1903.
25,000,000 acres of land suitable for settlement, in alternate sections of 640 acres each, extending back twenty-four miles deep on each side of the railway from the Red river to the Rocky mountains; in case any such sections found not suitable for settlement, the company empowered to have reserves set aside in the fertile belt from which to make selections to complete the 25,000,000 acres.	NOT AN ACRE OF LAND.
$25,000,000 in cash.	$2,350,575 being the present cash payment down that would be required to meet the seven year's interest on cost of construction of Mountain Section (480 miles, at $30,000 a mile), $14,000,000.
$37,724,816, which was the cost of the existing sections of the railway which had been built by the Government (report of the Department of Railways and Canals, 1102, part II, page 39), and which the contract transferred absolutely to the company.	$8,853,502, being the present cash payment down that would be equivalent to seven year's interest paid annually on cost of construction of Eastern Section (Moncton to Quebec, 400 miles at $25,000 a mile, $10,000,000; Quebec to Winnipeg, 1,475 miles, at $28,000 a mile, $41,300,000. Total $51,300,000); and $324,246, being the present cash payment equivalent to seven year's interest on cost of bridging the St. Lawrence, at Quebec, $2,000,000. On the Prairie Section the company pay all the interest from the issue of the bonds.
For twenty years from the date of the contract no competing road south of the main line was to be authorized by Parliament, and in the establishment of new provinces provision was to be made for the continuance of this monopoly until the expiration of the twenty-year period.	NO MONOPOLY PKOVISIONS WHATEVER.
Government land required for roadbed, station sites, work shops and terminal facilities.	Government land required for road bed, station sites, workshops and terminal facilities.
Company was granted the privilege of importing all and any materials and supplies free of duty.	Company is in no different position from any other importer, and must pay duty.
All station grounds, work shops, buildings, yards and other property, and all rolling stock and appurtenances required for the construction and operation of the railroad, and the capital stock of the company to be exempt forever from taxation by the Dominion, or by any province thereafter to be established; and the lands of the company in the territories also to be exempt from taxation for twenty years after the grant from the crown.	NO EXEMPTION FROM TAXATION.
Company exempted from any Government control over rates until the earnings of the railway reach 10 per cent of cost of construction—practically a permanent exemption.	GOVERNMENT CONTROL OF RATES.
Full ownership and absolute control of road by the company.	The lease of the Eastern section to the Company by the Government reserves running rights on equal terms to the Intercolonial, and the government may also grant running rights to any other railways that ask for them Running rights over the Western Section are also secured to any railways desiring them upon terms to be fixed by the Government in case the companies cannot agree.

The result of the contract made in 1881 with the Canadian Pacific was an addition of 2,550 miles—namely, from Calindar, near North Bay, to Vancouver—to the railway mileage already in existence in Canada. The result of the contract with the Grand Trunk Pacific will be a new trans-continental line from ocean to ocean, with a mileage of 3,300 miles from Moncton to Port Simpson, all on Canadian soil.—Winnipeg Free Press.

LOCAL EXTRACT

Ore from the Le Roi No. 2 is now being received at the Greenwood smelter.

J. L. White returned Wednesday from the coast, where he has spent an enjoyable two weeks holiday.

Dr. Mathison is at Phoenix on his usual monthly trip, and will return on Monday evening, 14th inst.

Mr. and Mrs. Frank Parker mourn the death of their infant child which occurred on Sunday evening.

Mark Madden and Charles McArther leave tomorrow for the West Fork country to inspect mining property.

A. W. Strickland manager of the Bank of Montreal, New Denver, is wearing a broad smile these days. It is a boy.

The Elkhorn mine is shipping to the Boundary smelter. The ore is being shipped just as it comes from the mine the management having decided that nothing was to be gained by sorting.

Methodist church. J. D. P. Knox pastor. The usual preaching services will be conducted at 11 a. m. and 7.30 p. m. by the pastor. Class meeting at 10.20 a. m. Sunday school at 2.30 p. m.

The parties interested in the Providence are feeling good over the ore recently encountered in the lower level of the mine. The values in gold are surpassingly high and discounts any thing yet produced in the district

A meeting of the liberals will be held at Rock Creek on Thursday Sept. 17th as voters of both Greenwood and Similkameen ridings will be in attendance it is expected that candidates for their constituencies will both address the meeting.

Rev. Mr. McKee of Inglewood, Ontario will be in Greenwood on or before October 4th to take charge of St. Columba Presbyterian church. Mr. McKee is very favourably known to several Greenwood people who are pleased to hear of his approaching visit. There will be no service next Sunday and possibly none until Mr. McKee arives.

The Granby smelter will be running six furnaces by the end of this week. Shipments from the the mine will as a consequence be increased to somewhere near the two thousand ton mark necessitating a large increase in the number of men at the mines.

The recent shipments from the Ora Denoro and the satisfactory results obtained, have nad the result of creating a boom in Denoro stock. Quotations on the Rossland exchange are 15 cts. for Ora Denoro with very little changing hands even at that figure.

The third annual Labor day celebration of the Boundary, which was held this year in Phoenix was largely attended notwithstanding the unfortunate weather. Foulds Bros. of Greenwood won the drilling contest and H. A. Monroe of Phoenix won the 100 yard dash.

On Sunday the 20th services appropriate for church Anniversery and Harvest Home will be conducted in the Methodist church. On the Monday following an excellent programme will be rendered and refreshments served. The church will be handsomely decorated for the accasion.

Members of the rifle Aassociation are requested to remember that practice meetings will be held at the ranges on the 19th and 26th inst. As the annual competition will take place in October a full attendance is desired. On each of the days mentioned a bus will leave for the ranges at 1 p. m. from White's drug store.

W. J. Snodgrass, the liberal candidate for the Similkameen riding, having found it necessary for buisness reasons to withdraw his candidature, a meeting of the liberal executive was held to consider the situation. After considerable discussion, it was decided to accept Mr. Snodgrass's resignation, and W. A. McLean of Hedley city has been unanimously chosen as the liberal standard-bearer in the forthcoming contest.

The election of officers for the local union W. F. M. Saturday night, resulted in a sweeping victory for the Dougherty forces, as the figures below indicate. For president Harry Parsons led Will McIntominy by 86 votes. For vice-president Alfred Lind secured 87 votes to 73 for Thos. Lightbody.

For Warden, Wm. Wills was elected over M. Hayes by 73 votes, while for secretary Geo. Dougherty was re-electd over Earnest Mills of Boundary Falls by the substantial majority of 36. The result of the election will be receiveed with general satisfaction, ensuring as it does the continuance in office of an Executive that has proved itself both moderate and competent.

Don't miss the fall millinary openings Friday and Saturday Sept. 11th and 12th New York and eastern patterns. McKenzie Hambly Co.

Those Improvements

Whether or not there be any truth in the rumoured amalgamation of the smelting interests of the B. C. Copper Company and the Snowshoe Company there can no longer be room for question that large improvements are being planned for the local works concerned. In fact the era of extension and betterment has already been entered on.

In many directions the work is under way for big extensions at the B.C. Copper Company's mine and smelter. The foundation for the new smokestack has been laid and the the chimney will grow as rapidly as the brick can be secured. The foundation which is 21 feet square is most substantial being laid in stone and cement on solid rock. The structure will be 120 feet high and will require considerably over 200,000 brick. When completed it will be connected with the present chimney at the base.

The stack will diminish in size gradually to the top where it will be 12 feet inside measure. Charles Peterson has the contract for this work.

W. N. Fisher of Grand Forks has secured the contract for the excavation work for the refinery.

A railway spur from the main line running in front the refinery, and which was recently surveyed will be built at once, according to the promise of the C. P. Railway officials when in town last week. The building of this spur will materially lessen the amount of hauling of matte now necessary.

Another improvement in the matter of removal of the slag hot is under way. A short railway is being constructed to run from in front of the furnaces out to the dumping ground. The cars on this track which will convey the hot slag will have a capacity of about 6 tons.

The blacksmith shop is being nearly doubled in size and other minor improvements are receiving attention.

The contemplated plans involve the addition of at least two more furnaces.

Mr. Williams, superintendent of construction is a very busy man these days and is hurrying things.

McRae-Stooke

The residence of Geo. R. Naden was the scene of a pretty wedding last Tuesday when D. C. McRae one of Greenwood's popular merchants led to the altar Miss Maggie Stooke of Midway. Rev. Mr. Robertson of Grand Forks tied the knot. The bride who looked very charming, was given away by her brother. Only the immediate friends and relations were present at the ceremony. The wedding party took the C. P. R. train for the coast cities where the honeymoon will be spent. The "Times joins in the good wishes for the happy couple.
