THE CRESTON REVIEW

VOL. XIV. CRESTON, B. C., FRIDAY, APRIL 21, 1922 No. 11

Baseball Club's Amateur Night

The Grand Theatre has been reserved for Tuesday, May 16th, by the baseball club, who are putting on what will undoubtedly be the most pretentious entertainment attempted by local talent.

The show is being billed as an "Amateur Night," and the idea is to offer a substantial prize for the individual or company who can give the best turn. One citizen with the right kind of sporting blood has offered to guarantee a prize of fifty dollars, but a cash prize will not be allowed in an amateur competition and the reward for the most proficient entertainer will have to be in some form other than money. However, it is quite certain that the reward will be a substantial one. Entries can be made to the secretary, C. F. Hayes, at the Review office, and already a number have come in. The management of the show will be in the hands of R. B. Staples, and a committee of competent judges will award the prize.

With several new players in the Valley, and last year's players having profited fro a good year's experience in 1921, Creston is assured of a real base ball team this year; a team that will be deserving of the support of the entire valley.

It is not the intention to ask for large subscriptions from anyone this year However, a baseball team cannot be run without some funds, and it is expected that every sport in the valley (and every Crestonite is a good sport) will turn out and support the big show on May 16th, which it is hoped will be the only financial aid required this season.

Lister

Alfred Nelson, the Canyonbutcher, who for the past two years has retailed fresh meat at the ranches in this place, has discontinued this practice and will in future have his stand at the postoffice each Saturday at four o'clock.

The first Californian bees have arrived in the district via Nelson, and were consigned to Bert Yerbury of Maple Ranch.

Camp Lister celebrated Good Friday with a two inch fall of snow.

Miss Annie Chalmers, who has been attending high school in Cranbrook for the past year, returned home Friday for the Easter holidays.

Rev. H. Varley will be here on Sunday for Church of England service at the schoolhouse at 11 a.m.

Camp Lister spent a very interesting and educational evening Friday when Dr. Calvert of Kaslo gave a magic lantern lecture in the school at eight o'clock. John Bird occupied the through the entertainment. The scenes were "Photos of Mesoptania by a British Soldier" and "Scenes of B.C.," Dr. Calvert, being a rather talented speaker, made the evening pass away at lightning speed. A collection was taken to assist the local Sundap school, and a very hearty invitation was extended to the speaker to return in the fall.

Principal Campion of the public school issues the following report of Division I. for March: Junior Third; Rank—Margaret Little, Dorothy Westan, Merle Charleson, George Charleson, John Malthouse, Freda Lye, Alex. Mitchell, Jessie Brain, Marvin Little, Albert Mitchell, Annie Yerbury, Gus Charleson. Senior Third—Doris Millington, Frances Malthouse, Cora Frampton, Harold Framptan, Jack Joty, Eva Brain. Junior Fourth—Clara Little Ronald Brain. Entrance—Examination based on new standard 60 per cent being required: Ernest Stevens 72.28, Murielle Millington 72, Jenny Chalmers 63.

Miss Irving's report of Division II. is as follows. Rank, First Primer—Wallace Sinclair, Mae Millington, Irene Wellspring, Ivor Milne. Second Primer—Billy Yerbury, George Mitchell. First Reader—Hilda Filmer, Margaret Chalmers, Gladys Brain, George Frampton, Agnes Sinclair, Lucy Lye, Fred Yerbury. Junior Second Reader—Jack Bird, Fred Weston, Charlie Malthouse. Senior Second Reader—George Chudley, Peter McKay, Arthur Frampton.

Sirdar

Mrs. Jones of Kuskanook was a visitor here on Saturday for the sewing circle meeting, leaving the same evening foa Nelson, where she is spending Easter with friends.

Sirdar is pleased to see Conductor Greaves back on his regular run after a layoff of almost two months recovering from an attack of lumbago.

G. Cam has the carpenters at work on quite a good sized addition to his house, which will be completed this week.

The McCabe bridge crew will start work this week on a stretch of pile driving at the span, and as the government dredge is at work again at the Landing the yard crew is again working night shift.

The miners strike does not appear to make much difference in the westbound freight tonnage, the yard crew still taking care of four barges a day as usual.

Miss McMasters and her pupils had a splendid programme for Easter closing on Thursday afternoon last, and in the musical features able assistance was rendered by Mrs. Wilson, who was up for Atbara.

Col. Lister, M.P.P., paid Sirdar a visit on Thursday last, being here for the citizens school meeting at which the new taxation methods were discussed. T. Rodgers has been appointed school district auditor.

Mrs. Lousby is at Vancouver again this month, where she is again undergoing specialist treatment.

Frank Simister of Creston was a visitor here last week looking after the erection of a summer kitchen at the C.P.R. hotel.

Section foreman Tolerico although able to be up and around is still keeping to the house. P. Lombardo is taking charge of the section crew, which is now up to eight men.

The Wilson quarry made a shipment of paving blocks to Calgary at the end of the week. This is trial lot, and if the stone gives satisfaction the quarry will likely be called upon to supply several cars of it.

Deputy road foreman Ollie Harris has a crew of about four men busy here making repairs to the highways in the Sirdar district. Between here and Wyndel travelling is almost out of the question, and autoists complain of the lack of attention the roads are getting.

Misses Goodman were hostesses at the meeting of the sewing circle at the schoolhouse on Saturday afternoon, which was very largely attended, and with an intake of almost $10 the meeting was the biggest financial success of the year.

No Public Health Nurse for Valley

A representative number of members of the Creston Branch of the Red Cross Society held a public meeting on Thursday night in Speers' Hall, to decide the question of whether another nurse should be called for to take the place of Mrs. Lucas, who has been recalled to Vancouver.

The matter was thoroughly discussed and the general opinion appeared to be that, while the educational work of the Red Cross Public Health Nurses amongst the school children and in the homes is no doubt a very great advantage in those places where it is needed it hardly justifies the very great expense entailed when a nurse covers such a large district as that reaching from Kingsgate to Boswell, especially when the burden all falls on Creston, and its immediate neighborhood.

When applying for a nurse in the first place the committee had felt the need more particularly for sick nursing, but have been dissappointed to find that more stress is laid on the school work by the Red Cross nurses, than has seemed altogether necessary in a community such as this.

The meeting unanimously decided that a nurse is not needed, and the secretary was instructed to inform Red Cross headquarters of this decision.

C.V.A.A. Whist Told in Verse

By A. R. S.

We now would call to your attention
The Easter Monday celebration
By C.V.A. Association
Held in Creston Parish Hall;
When at the hour of eight fifteen
As jolly a crowd as we have seen
Foregathered till they numbered all
The building nicely could contain,
And all our Valley's fair domain
Was represented in the hall.

They started off by playing whist,
Juggled the pasteboards hand o'er fist
For a couple of hours or so, and then
Slickest jugglers they did declare
As Taylor and Botterill, 'mongst the men.
And out of all the ladies there
Miss Davidson the best did fare,
Whilst the second ladies prize befell
To Mistress A. D. Manuel.

Meanwhile the folks did now proceed
To fortify the inner man,
Against whatever might succeed
With cake galore, sandwich of ham,
And coffee fresh from out the can.
Then out they lugged a grown-up lamb
Right in front of all that jamb;
Guess it thought, "My, Uncle Sam!
Wonder what on earth this cram
Think they're going to do with me."

But forthwith Staples (friend R. B.)
Advised that sheep, which all could see,
(Of Angus-Holstein breed, quoth he),
Raffled for Fair funds shall be;
And spilled a spiel, as he is able,
(We'd hate to think it all a fable)
About our Valley's annual Fair
Being a show of merit rare,
"Best in the world", he did declare,
But said it took a raft of cash
To make the best and biggest splash,
But that every mortal there
Had a chance to help the Fair
By bidding up on raffle tickets
He auctioned off amid such rackets
As knocked that sheep for forty fits.

Of those who urged the bidding on
Chas. O. Rodgers took the mutton;
He did'nt seem to give a hang
But bid her up to try his fate.
So now with ticket ninety eight
Charles has that little lamb.

Then Alex. Lidgate rigged his traps—
A dozen instruments, perhaps,
And Mrs. Lister played the fiddle;
Till all jigged round in a hi-diddle-diddle;
Whilst Mrs. Foreman at the key-board
Rounded out a combination
For dishing out the syncopation
The like of which we've never heard.

Well, there you have the whole oration
Concerning that great celebration
Staged for that evening's recreation
By the C.V.A. Association.

Alice Siding

The Social Club held its final meeting on April 11th, in the Compton packing shed. Dancing was the feature of the evening, and during proceedings solos were contributed by Miss V. Marshall, S. Vaness and Mr. Osborne. Although the attendance was not as good as usual, owing to spring work, responded to the cause, $7 being collected and proceeds given to fund for cocoa supplied to pupils of Alice Siding school during the winter months. The club's motto is, "Look after the children."

R. Hood left on Thursday last for Cranbrook, where he is spending a few days on a business visit.

Starley Paul and S. Vaness who have the contract for putting down a well on Mrs. Stace Smith's place, are already down 30 feet, but no sign of water as yet.

Cattle are now back on their old feeding ground, the flats being fairly dry, but little grrss available as yet.

Clearing operations are in full swing on the Hilton ranch, at which work T. Anderson is lending a hand.

Mrs. Batholmew of Nelson was a week-end visitor with Mrs. Churchill.

School closed on Thursday for Easter vacation. Miss M. Wadds, principal, left on Thursday for Crawford Bay, to spend holidays with her parents.

Gophers have already made their appearance in this area.

Mrs. Stace Smith has vacated Dr. Wells house, and is now occupying the residence of her own property.

Another power spraying outfit has been added to the Alice Siding orchard equipment. It is a syndicate affair, owned jointly by Messrs. Wood, Webster and Ash.

Erickson

BIRTH—On March 14, to Mr. and Mrs. E. Cartwright, a son.

Frank Putnam is busy these days getting in the equipment for his sprinkler irrigation system, which he expects to have in operation on twenty acres of his ranch this year. He has just placed an order for some 5000 feet of pipe.

At the United Farmers meeting last week a donation of $5 was made to the beautify-the-cemetery project of Creston Board of Trade, and the secretary is now in communication with the lands department at Victoria with a view to purchasing some four acres on the Canyon road in the neighborhood of F. V. Staples' strawberry area, which will be fitted out as park and picnic ground.

Apple planting in this section will be quite heavy this spring. On the R. J Long ranch twelve acres have been previously cropped to alfalfa, is being got ready to set out to trees—mostly Delicious.

Stumping operations would also look due to be active. Almost 200 cases of powder have already been received at the C.P.R. depot.

Sam Fraser is anxiously awaiting a warm switch to the weather so as to get at the outdoor planting of about 10,000 cabbage plants which, along with peppers will be his standbys for 1922. His acreage of tomatoes will be small this year.

Erickson growers are intending to take full advantage of the water in the community system this year. Last week the Co-Operative store placed an order for 16,000 feet of galvanized and black pipe.

Mr. and Mrs. D. Macdonald of Cranbrook were Easter visitors with the latter's parents, Mr. and Mrs. G. Cartwright.

Mrs. Thurston left the fore part of the week on a visit to friends in Medicine Hat, Alta.

Word has just reached here of the death at Telkwa, B.C., the latter part of March, of Mrs. Henry Hamilton, who it will be recalled left here for her new northern B.C. home hardly a year ago. Mr. Hamilton predeceased her just three months, his death occuring at Red Deer, Alta., the latter part of December. Both were highly respected residents of Erickson for many years, and our readers will hear with profound regret of her passing, following so soon on Mr. Hamilton's demise.

Institute Having Flower Show

The Women's Institute had the April meeting on Thursday afternoon, with the president, Mrs. Garland, in the chair, and quite a good turnout of members.

A donation of $10 was voted the Board of Trade's beautify-the-cemetery committee to help carry out the work planned to put the local burying ground in a presentable shape.

Further discussion as to a plot of land for building purposes took place, and it was agreen to purchase a lot in the Barton Addition near the theatre with the idea of some day erecting a hall thereon, though this will probably not be for some years to come.

Next month a flower show and sale of home cooking will be held in place of the regular meeting, on Saturday, May 13th, in Speers' Hall, and members are asked to bring cakes, etc., for the cooking stall. Entries for the flower show are asked to be sent in to Mrs. Hamilton before May 11th. The classes are as follows:

Ferns.
Flowering house plants.
Boquet wild flowers.
Daffodils, 12, in vase.
Tulips, single, white, 12 in vase.
Tulips, double, colored, 12 in vase.
Tulips, single, colored, 12 in vace.
Tulips, double, white, in vase.
White Narcissus, 12 in vase.
Any other variety, 12 in vase.
Centre decoration, any flower.
Single flowers in vase, any variety.

Miss Whiddon gave a demonstration on making organdie flowers. Mrs. Cotterill was the winner of the pretty handkerchief sachet raffled for the benefit of the starving Russian children, $6.20 being the intake of the raffle.

DRESSMAKING—Young ladies' and children's a specialty. Charges are reasonable. Mrs. R. de Faisse, Creston.

Standing room is all that is available in the way of accommodation at Creston public school at present, the March enrollment in the five rooms showing 202 pupils in attendance with Miss Davidson's room indicating the banner attendance of 42. If there is much of a beginners' class at midsummer it begins to look as if another teacher will have to be provided this year.

Judgment was given out in the case os the Murdoch Estate v. Hugh Taylor, which was tried here about five weeks ago before Judge Forin, and in which $920 damages were asked of Taylor for damages done by rabbits and cattle to the part of the old Griffin ranch which recently was sold to Mr. Nickel. The judgment directs that Taylor pay $125 and the costs of the action.

Attention, Anglers!

For the 1922 fishing season we are offering two substantial prizes to the fishermen who have the good fortune not to let the biggest ones get away, and the only regulations attached to the contest are: 1. Fish must be caught with tackle purchased at this store, and, 2. The fish must be presented at our store to be weighed and measured so that an exact record may be kept of all catches. The rewards are:

FIRST PRIZE
$13.00 Bristol Steel Telescopic Fishing Rod, for heaviest trout.

SECOND PRIZE
$5.00 French Fishing Basket for heaviest char.

Prizes awarded Sept. 1, 1922.

The Miracle Of Spring

Spring has come again with all that it implies of hope, rebirth, optimism, growth, youth and happiness. Spring, the ever recurring miracle of the ages!

It is only necessary to open one's eyes to realize the wonders of Spring all around. Brooks and rivers, joyfully break their icy fetters and go leaping, rushing on their way; trees throw out their tiny leaves; seemingly dead and dried grasses almost overnight take on a lustre of green; birds appear miraculously and fill the air with song. In a word, all nature awakes from its long sleep and thrills with life and the joy of living.

And what Spring means and brings to nature it should mean and bring to all mankind. Just as the cold earth yields to the benign influence of the growing strength of the sun's rays, and casts off the iron bands which have held it in frozen grip, so should man respond and throw off the lethargy and pessimism of winter and renew his youth and vigor with Spring.

Of course, men do, with the coming of Spring and the renewed activity of nature, undertake those duties of the farm which the season brings, while in the cities artisans are again employed in structural works. But Spring should mean to all men and women a deeper, more significant message than merely a call to summer's work.

Spring is the season of hope and promise. It is the time of year when all may turn their backs and their minds on the past and look forward with confidence to the future.

The winter of 1921-1922 was a hard and discouraging one for many people. To some it was a time of hopelessness and even acute suffering. Inevitably it caused a lowering of one's morale, a weakening of one's courage, discouragement, and the development of a feeling of pessimism about the future. Nature seemed cruel, and the efforts of man to withstand its vagaries and onslaughts appeared weak and futile.

But with Spring, nature comes in a happier, smiling mood. It offers encouragement. Ones' first effort, therefore, should be to respond to this kindlier mood, and to shake off the pessimistic feelings of the past, to turn from the dark forebodings of winter, to forget past discouragements, and to face the future with confidence and a brave countenance.

Recognizing the fact that environment has a great deal to do with one's state of mind, it is the part of wisdom to improve that environment in every way possible. A man cannot make a success of things if all around him are evidences of failure; progress and efficiency are not born in surroundings marked by sloth and carelessness. Winter always is characterized by accumulations of useless and waste material, and the melting of the snows reveals much unsightliness which is most depressing.

A general, vigorous "clean up" should, therefore, be the first Spring duty. Clean up the house clean up the yard, remove and destroy the refuse of winter, repair that broken fence, judiciously employ a little paint. Remedy all those little things which give a rundown, shiftless, unprogressive, unprosperous appearance to your place. A little time will do it, and the effect on yourself and your family will be amazing. And don't forget to clean up your own thoughts and ideas. Bury out of sight your old forebodings and gloomy predictions. When washing your house windows don't neglect to clean the windows of your mind and soul.

Demoralizing outward conditions have a depressing effect on the inner man, but it is from within that must come the will to improve those outward conditions. To allow the sluggishness of winter to continue means, not life, but death. Just as nature throws off the shackles of winter and responds to the appeal of Spring, so must each and every individual refrain from further dwelling upon the discouragements and losses of the past and throw themselves whole-heartedly into the present with their eyes fixed on the future and their energies—spurred on by an inflexible ambition to succeed—employed in constructive work.

A Spring clean up is good business from the purely practical standpoint. The removal of waste is always wise. It is a matter of economy. It is a safeguard of health. But it also has a beneficial effect on oneself. It refresses the individual, and if a material clean up is accompanied by a readjustment and betterment of one's outlook on life and its problems, a long step forward has been taken.

France Will Test Motorless Aircraft

Trials Expected to Take Place During the Summer

Trials of motorless airplanes are to take place on an extensive scale in the Department of Auvergne, in Central France, during the summer. Hitherto efforts in the direction of developing some kind of airplanes capable of flying about without the aid of motors were generally regarded as having been left to Germany, but the French have now entered the field on a large scale.

The municipal council of Aydat, near the well-known lake of that name, has just authorized the Auvergne Aero Club to operate in the parish an aerodrome for the use of the body formally known as the Experimental Congress of Motorless Airplanes, which is to be held there from July 15 to September 15. The hangars will be erected at the foot of the peak called the Puy-de-Pommegrasse. The motorless airplanes will "take off" from the top of the peak.

Quickly Conquers Constipation
Don't let constipation poison your blood and curtail your energy. If your liver and bowels don't work properly take CARTER'S Little Liver Pills today and your trouble will cease. For dizziness, lack of appetite, headache and blotchy skin nothing can equal them. Purely vegetable.
Small Pill—Small Dose—Small Price
CARTER'S LITTLE LIVER PILLS

Beggar—"Please give a poor old blind man a dime."

Lady—"Why, you can see out of one eye."

Beggar—"Well, then, give me a nickel."

Minard's Liniment for Dandruff

WORLD HAPPENINGS BRIEFLY TOLD

Unemployment in Berlin has decreased to the lowest figure since the armistice. During the last three months only 14 workers out of every 1,000 were unemployed.

Customs duty collected on agricultural implements during 1921 amounted to $1,917,370, out of a total duty collection of $179,667,683. During the same period, duty collected on foodstuffs amounted to $29,723,408.

A fellowship of the value of $500 per annum has been donated for a limited term by the Imperial Oil Company, which will open to graduates of universities in Western Canada who wish to pursue post-graduates work at the University of Toronto.

Hon. John Hart, minister of finance, was sworn in by Lieutenant-Governor Nichol as minister of industries for British Columbia. He will retain the office of minister of finance. Premier Oliver, who has been minister of industries, resigned just before Mr. Hart was sworn in. The Premier will retain the office of minister of railways.

For Hiccups and Heartburn Here is a Good Prescription

Nothing brings such satisfactory relief as slowly sipping a few drops of "Nerviline" in sweetened water. Nerviline relieves those conditions that cause the hiccups, just as it does sour risings, gas belching and fermentation in the stomach. For acute stomach pains, bloating nausea and similar ills, rely on trusty old Nerviline—the true friend of every family. Sold by all dealers, 35c per bottle.

No soldier in Great Britain will be eligible in future for married quarters unless he is 26 years of age.

Women Can Dye Old Faded Things New In Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her worn, shabby dresses, skirts, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything, even if she has never dyed before. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is sure because Diamond Dyes are guaranteed not to spot, fade, streak, or run. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods.

Probably the queerest horse shoes in the world are those employed in the Sudan. They are not really shoes, but stockings made of camel's skin.

On the Marriage Day

Romance usually ceased, and history begins—and sore corns begin to go when "Putnam's" is applied. It takes out corns, roots, branches, stems—no trace of a single corn left after Putnam's Painless Corn Extractor has done its work, 25c at all dealers. Refuse a substitute.

The man who slowly climbs the ladder of success remains there longer than the one who reaches it by the balloon route.

YOUNG WOMEN WHO SUFFER

Letter Points Way Towards Relief—Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I suffered from the time I was a school-girl until I had taken your medicine with pain in my left side and with cramps, growing worse each year until I was all run down. I was so bad at times that I was unfit for work. I tried several doctors and patent medicines and was only relieved for a short time. Some of the doctors wanted to have an operation but my father objected. Finally I learned through my mother of Lydia E. Pinkham's Vegetable Compound and how thankful I am that I tried it. I am relieved from pain and cramps and feel as if it has saved my life. You may use my letter to help other women as I am glad to recommend the medicine."—Mrs. H. A. Goodman, 34 Rockvale Ave., Toronto, Ontario.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass. This book contains valuable information.

ROYAL YEAST CAKES

Canadian Made

As a health builder, Royal Yeast is gaining in popularity every day. It is a food - not a medicine. It supplies the vitamine which the diet may lack. Royal Yeast is highly beneficial in cases where the system seems "run down". Royal Yeast is the richest known source of vitamines, and when taken into the system acts as a corrective agent. Royal Yeast Cakes are recommended for their purity and wholesomeness. It is the purest, the most convenient and economical yeast on the market.

Two to four Royal Yeast Cakes a day will work wonders. A full day's supply can easily be prepared at one time by using one glass luke warm water and teaspoon sugar to each yeast cake. Allow to stand over night in moderately warm room. In the morning stir well and pour off liquid. Place in refrigerator or other cool place and drink at intervals as desired throughout the day.

Send name and address for free booklet "Royal Yeast Cakes for Better Health."

E.W. GILLETT COMPANY LIMITED
WINNIPEG. TORONTO, CANADA. MONTREAL.

Fatal Street Accidents in Britain

Official figures just published show that there were 2,845 fatal street accidents caused by vehicles in the United Kingdom last year, just eight more than in 1920. The number of accidents which did not prove fatal but resulted in personal injury, increased by over 4,000 to 61,000. In London there were 571 fatal street accidents last year and 22,647 that were not fatal.

UNSIGHTLY PIMPLES AND FACE ERUPTIONS

In the Spring Most People Need a Tonic Medicine

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot get rid of these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, blood-improving, nerve-restoring powers. Every dose of this medicine helps make new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood.

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Strange Names in Congress

There were once four Smiths in the United States Senate, but now the upper branch of Congress is graced by numbers of strange and unusual names. It is hard to tell whence we sprung when we read the names of such Senators as Atlee Pomerene, Tasker Oddie, Reed Smoot, Holm Bursum, Furnifold McSimmons, Irvine Lenroot, Carter Glass and Nathaniel Dial. What's in a name, anyhow?—Los Angeles Times.

The Oil for the Farmer.—A bottle of Dr. Thomas' Eclectric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

A Fair Exchange

A rich elderly bachelor named Page found the dropped glove of a charming young lady and returned it with this note:

"If from your glove you take the letter g, that glove is love, and that I have for thee."

In reply the young woman wrote:

"If from your name you take the letter p, then page is age, and that won't do for me."—Wayside Tales.

Minard's Liniment for sale everywhere

World Record for Daily Newspaper

London Daily Mirror Claims Achievement for Royal Wedding Number

The Daily Mirror claims to have broken all daily newspaper records when it published 3,035,571 copies of its Royal Wedding Number, which it believes to be a world daily newspaper record. There were two Daily Mirror souvenir numbers—the Princess Mary Number, of Tuesday, and the Royal Wedding Number, of Wednesday. Of the Princess Mary number 2,156,000 copies were printed—an output which is believed to exceed anything yet done in the history of the Daily Mirror or its contemporaries. That record was broken within twenty-four hours by the issue of over three millions of the Wedding Number. Mechanically, it was a tour de force, for the eight pages of wedding pictures went to press four hours after Princess Mary's return to Buckingham Palace. Some previous figures of Daily Mirror prints are: 1910, King Edward's Funeral, 2,013,943; 1920, Cenotaph unveiled, 1,907,685; 1914, Birthday Number, 1,892,629; 1915, Fashion Number, 1,764,480.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites, especially when it can be done without difficulty.

"Them Wuz the Days!"

It has been discovered that in Gardiner, Maine, a school teacher was paid $1 a week in 1935, the town paying an additional dollar for her board. And probably some of the voters were grumbling at the reckless extravagance of the see-lect men.—Boston Transcript.

Truce Is Declared Between Factions Along The Fermanagh Border

Belfast.—A truce was declared between the Ulster special constables and the Free State troops which have been in menacing proximity along the Fermanagh border between Ulster and South Ireland, it is announced here.

Sir Basil Brooke, commanding the Fermanagh specials, crossed into Free State territory at Blacklion near Belcoo, and conferred with the rival leader.

The interview was harmonious and an agreement was reached under which both sides will withdraw their forces a short distance from the border line to avoid the risk of a clash. Each commander agreed to punish infringers of the pact.

The son of a farmer named Kelly, living at Listerkelt, Armagh, while going to fetch medicine for his mother, was overtaken on the road by a motor car. Kelly failed to satisfactorily answer questions put to him by the occupants of the car, who took him into the machine and drove away. Afterwards the men blindfolded Kelly, placed him in a ditch and fired a volley at him. Kelly later was found gravely wounded and taken to the infirmary in Armagh.

Hawaii Hears Music from Alberta

Calgary.—A concert programme of music played on a phonograph at the Canadian Government wireless station at High River on March 31 last, was heard for half an hour at the town of Wailuku on Maru Island, 100 miles from Honolulu, or just about 2,800 miles from High River, Alberta. Word to this effect was received by W. W. Grand, wireless chief of the Canadian Government station at High River.

War Memorial for Moose Jaw

Moose Jaw.—Residents of Moose Jaw, at a special meeting called by Mayor W. F. Dunn, decided upon the erection of a temporary war memorial in this city. A committee, composed of Mayor Dunn, Col. Norman Gentiles, Mrs. W. H. Greene, J. R. Greene, chairman of parks board, and three others to be chosen later, was nominated by the meeting to proceed immediately to draft details for erection of the memorial.

FOR the prevention of pains after eating, flatulence, headaches, biliousness, constipation and other disagreeable forms of INDIGESTION no remedy is so justly famed as Mother Seigel's Syrup, the stomach and liver tonic with 50 years' reputation.

Japan Welcomes Prince

Royal Visitor Heartily Greeted by Thousands in Yokohama

Yokohama.—The Prince of Wales has arrived for his official visit to Japan. Thousands greeted him as he landed from the British battle cruiser Renown which brought him from India.

His reception was carried out according to the programme to the minutest detail, as is the Japanese custom. Yokohama's welcome was not noisy as the children who lined the streets are disciplined to silence, but the picture they made with their thousands of waving flags in the brilliant sunshine could scarcely be paralleled. The Renown was escorted in from sea by the Japanese light cruiser division and in the bay six battleships, including the famous Mutsu, joined the escort. As the vessels entered the harbor there was a roar of guns and shrieking of sirens. Every class of society was represented in the crowds on the wharves.

The Prince left Yokohama for Tokio in a special train, three coaches of which were especially built for his use.

Lord Curzon's Note Pleases United States

Britain Recognizes Re-imbursement Claim for Army in Germany

Washington.—Secretary Hughes received from Ambassador Harvey in London, a note from Lord Curzon, Foreign Secretary, which stated that the Government of Great Britain would not in any circumstances desire to question the rights of the United States in its claims for payment of costs of the American army of occupation in Germany. Secretary Hughes later transmitted a note to Ambassador Harvey for delivery to the British Foreign Office, expressing his gratification over Lord Curzon's letter and expressing hope that reimbursement for costs of the United States' army in the Rhineland would soon be made.

Law Degree for Gen. Pershing

Montreal.—General John Pershing, chief of staff of the United States army, will receive the honorary degree of doctor of laws at McGill University on May 12, it was announced here by General Sir Arthur Currie, vice-chancellor and principal of the university.

Canada's Navy Has Returned

Halifax. — The Canadian naval squadron consisting of the light cruiser Aurora, destroyers Patriot and Patricia, and submarines CH-14 and CH-15 have arrived in Halifax from West Indian waters.

COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. Is it any wonder that the heart becomes affected and she gets irritable and nervous, has hot flushes, faint and dizzy spells, smothering and sinking spells and can't sleep at night.

To all women whose heart is weak and whose nerves are unstrung we would recommend

MILBURN'S HEART AND NERVE PILLS

as the best remedy to tone up the system and strengthen the weakened organs.

Mrs. Daniel Bezanson, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me.

My heart was so bad at night I could not sleep, I would take smothering spells, and was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try your pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble there is."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

No Duty on Gifts to War Areas

London.—A law was promulgated according to Reuter's Paris correspondent, abolishing customs duties and other taxes on gifts to departments and communes in the devastated areas of France. The law is to be retroactive, and duties already levied on such gifts will be cancelled.

Anthracite Producers Believe That Miners May Modify Demands

New York.—Anthracite producers notice a tendency on the part of the union leaders to soften their 19 demands when, before the miners and operators sub-committee on wage contract negotiations they asked permission to reconsider their demand number one.

This demand stipulates that the new contract agreed upon in settlement of the pending strike shall extend for two years; prohibits the making of individual agreements and provides for the establishment of uniform wage rates for operators and mechanical loaders.

Operators reported they had balked at part three of the demand, asserting that a uniform rate was already in effect where mechanical loaders were in use. With their consent discussion of the demand was temporarily abandoned, to permit district presidents to consult their men before deciding whether it should continue an issue in the negotiations toward settlement of the strike.

Only three of the 19 provisions which the strikers have insisted their next contract must contain, have been taken up by operators. With none of these points settled and 16 more to be considered, both sides predicted that several weeks will lapse before a foundation will be laid for a new contract and wofk begun in the anthracite regions.

Asiatic Settlers Not Desirable

H. H. Stevens Appeals for Policy of Restricted Immigration

Kingston, Ont.—Speaking before the Canadian Club here, Hon. H. H. Stevens, M.P., Vancouver, made a strong appeal for a policy of restricted immigration.

"We want an increase in population," he said, "but we must shut the bars against all races and types that cannot be assimilated by us. By assimilation I mean marriage. We can take British who want to go on the land the Danes, Swedes and Norwegians, all of whom make ideal citizens, but we cannot admit people from Central and Southern Europe and Asia."

Mr. Stevens urged that Canada could not withstand a great immigration movement from China, Japan and India. The white race would eventually become swallowed up if no effective laws were enforced against Oriental immigrants.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Large Acreage in Manitoba

Plenty of Moisture and Bumper Crop Yield Anticipated

Winnipeg.—With an early spring well on the way and plenty of moisture guaranteed for early months, a bumper crop was predicted for Manitoba in 1922 by Hon. G. H. Malcolm, minister of agricultural when discussing the general situation.

"There has never been as much land plowed and ready for seed as there is this year," Mr. Malcolm said. The acreage in shape for immediate work is placed at 4,902,650 acres, as compared with 4,328,200 in 1921. These figures do not include the spring plowing, which will be under way within the next fortnight. The total acreage sown to crop last year was 7,415,037.

The districts which have been infested with grasshoppers during the past three years are free of the pests this year as nearly as can be judged at this time, and Mr. Malcolm declared that he did not believe these pests would be a menace this year.

Famous Picture to be Loaned

London.—Hon. P. C. Larkin, Canadian high commissioner, has obtained from Sir Wm. Orpen, the famous English artist, the loan of Sir William's painting "Hall of Mirrors" for the Canadian national exhibition this year.

Old Age Pension Plan

Ottawa.—The advisability of the Canadian Government instituting a system of old age pensions will be debated in the House of Commons. Dr. J. E. LaFontaine (Liberal, Hull), has fixed a resolution on the order paper.

War on Border Smugglers

U.S. Will Fight Rum Runners at Canadian Border With Machine Guns

Albany, N.Y. — Adjutant-General Kincaid has made public a telegram from Roy A. Haynes, Federal Prohibition Commissioner, in which Mr. Haynes was quoted as endorsing the Adjutant-General's plan to co-operate with Ralph A. Day, Federal Prohibition Director for the State, in an intensive campaign against rum smugglers along the Canadian border. Employment of machine guns and armored motor cars to be furnished by the Adjutant-General, was contemplated in the campaign to stop the illicit traffic, according to the announcement of the plan in New York.

Thieves Take Liquor

Winnipeg.—In the absence in Ottawa of R. T. Ferguson, general representative of the distillers of Canada, thieves with a motor car visited his residence, tied and gagged a Chinese cook, and carried away two loads of liquor.

Self Preservation—Nature's First Law—Heed It!

Preserve Your Strength

Tillsonburg, Ont.—"Ever since I can remember, Dr. Pierce's medicines were used in our family at home and they never failed to give good results. The 'Golden Medical Discovery' was used as a tonic and blood purifier also for bronchial trouble and it proved excellent. I myself have taken the 'Discovery' for bronchial trouble and Dr. Pierce's Favorite Prescription to build me up when I was rundown, and they were both very beneficial.

"I feel safe in recommending all of Dr. Pierce's medicines knowing them to be good."—Mrs. Clifford Mitchell.

Obtain these famous medicines now at your nearest drug store, in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeburg, Ont., for a trial package of any of his remedies. Write Dr. Pierce, President Invalids' Hotel in Buffalo, N. Y., if you desire free medical advice.

How's Your Liver?

Health Is Kept, If You Observe This

Sintaluta, Sask.—"I have taken Dr. Pierce's Golden Medical Discovery for liver trouble and found it excellent and would not be without it. I suffered from congestion of the liver about six years ago and I always say that this medicine cured me. I have also given it to my family for colds and it cured them in a very short time."—Mrs. Enoch Mitchell, Box 129.

THE CRESTON REVIEW

Issued every Friday at Creston, B.C. Subscription: $2.50 a year in advance. $3.00 to U.S. points.

C. F. HAYES, Editor and Owner.

CRESTON, B.C., FRIDAY, APR 21

No Paper Next Week

Agreeable with the excellent custom with all regular and well conducted weekly newspapers that hostilities should cease for a space of at least seven days each year, this will forewarn that there will be no issue of the Review on April 28th. The shutdown will be complete in all departments; the editor being in Calgary for eye specialist treatment, while the balance of the staff will enjoy a well deserved vacation, part of which will be spent in Spokane. On May 1st the old order of business will be resumed. and payment of maturing or overdue accounts will be particularly appreciated.

Board of Trade Has April Session

The April meeting of Creston Board of Trade on Tuesday night was largely taken up with routine business and reports of standing committees. President Hayes was in charge of proceedings and the turnout of members was the largest almost of the past year.

Reporting for the Reclamation committee Chairman Constable reviewed considerable correspondence he has had with the chairman of the International Drainage association at Bonners Ferry, the most important feature of which is that Mr. Swensden, the Idaho superintendent of reclamation, and A. E. Cleveland, B.C. comptroller of water rights, are to meet in joint conference with their assistants at Victoria on or about April 17th, at which meeting it is hoped to have all the necessary engineering data assembled to enable the authorities to come to some definite conclusion as to the feasibilty orother wise of the big drainage project. The president has wired Hon. T. D. Pattullo, minister of lands, who is at present in Ottawa, to take up this matter with the federal department of the interior, as advices indicate that Idaho has Washington seriously engaged witn the consideration of Kootenay Flats reclamation, and there is every liklihood of the U.S. federal authorities taking the drainage question up with Ottawa, looking to having the handling of the proposition placed with the International Drainage Commission.

Reporting for the agriculture and irrigation committee James Adlard, chairman, stated that the necessary petition for official investigation of the revised Arrow Creek irrigation scheme was now at Victoria aud was under consideration by the water commissioners. He estimated that a $200,000 majority in value had been obtained in the signatures to the petition, and he looked for prompt action on the part of the water rights branch at Victoria in getting on with the survey.

For the cemetery beautification committee Chairman Bennett reported progress. The cemetery company agreed to donate all the funds they have on hand to the work and a donation of $15 had been received from the Masonic Lodge, $10 from the Women's Institute, and $5 from the Erickson Local of the United Farmers. There are at least half a dozen other organizations to hear from, as well as the plotowners and at present it looks as if the $200 it is estimated the work will cost will be forthcoming and the good work got under way next month.

For the publicity committee Mr. Bennett also reported on the return of Robert Stark, who was at the Imperial Apple Show with the Creston exhibit late last fall. In connection with the big British fruit fair and a survey of the British apple marketing and industry Mr. Stark had accumulated a fund of very useful information that it would be well to have passed on to the growers in view of the fact the fair will be repeated this year, and that Creston Valley will again be called upon to make even a bigger display, and it was decided to have the board call a public meeting of all interested for Monday night, April 24th. in Speers' Hall, at which Mr. Stark will be the chief speaker.

LIGHT LUNCHES and AFTERNOON TEA

Canyon City

Mrs. Bateman and her three months' old son arrived from Calgary, on Thursday, and will be spending the next few months at the ranch here.

Mr. and Mrs. Bell of Nelson were Easter-week visitors with Mrs. Wetherhead.

Mr. Wetherhead, who is working at Yahk, was home for the week-end, and reports snowstorms almost every day this month in that section. He returns on Tuesday.

Miss Frances Knott, who is attending high school at Kaslo, is home for the Easter holidays.

Mr. Larson who is busy at improvements on his ranch in the New Sweden section, which will include the erection of a house, is making arrangements to have Mrs. Larson and son with him from Sweden in a couple of months to make their permanent Canadinn home at Canyon.

The school trustees are asking for tenders, to be in by Saturday, for laying floor in the school basement and fixing sidewalk, as well as stumping and ploughing half an acre of the school grounds and moving fence. Tenders will be also received up till the 30th for the position of janitor, duties to commence after the midsummer holiday.

The U.F. roads committee has just been advised that Engineer Ramsay and Superintendent Moore will be here this week to investigate the highway repairs needed in this section.

Bert Hare, who has had a couple of acres ploughed on his ten acres near the mill is setting out an acrr of it to raspberries this spring, and the other acre will be cropped to potatoes.

Mr. Robinson, the C.P.R. dining car superintendent, who bought ten acres here almost six years ago, has just let a contract for stumping and ploughing three acres of it, which he will plant to alfalfa. Mr. Latoyle of Lister of Lister is doing the work. W. Little, another Lister resident, has the contract of getting three acres of the Sheehan place ready for ploughing and crop. The place was recently bought by Alfred Nelson.

With so many Southern Albertans living in that district is seems quite natural to hear that the former Swanson sideroad has just been permanently re-named Fort Macleod.

At the April meeting on Saturday night Canyon Local of the United Farmers heard with satisfaction that the necessary forms of application for the establishment of a postoffice at Canyon have been received, and they will be filled out and returned as speedily as possible. The 1000 fruit trees which members of the local ordered jointly from the B.C. Nurseries, Ltd., will be in this month, and T. Mawson has been secured to make delivery of them. Owing to a decided shortage of funds Canyon Local was unable to make any contribution to the Creston cemetray beautification project.

Word has just been received that Creston Fruit Growers Union Has secured the house at the Siding from Canyon City Lumber Co., Ltd., and will have it fitted up as the central packing shed for Canyon apples.

Alfred Spencer of Creston is spending the Easter vacation here busy at land clearing operations on his ranch. Mr. Nougier is another busy in the same line, as well as Vance brothers, Geo. Davie, John Anderson, H. Young, J. Butler, Martin Nelson and Guy Browell.

Canyon Methodist Ladies' Aid had a highly successful sale of sewing, cooking candy, and afternoon tea at the schoolhouse on Monday, which was followed in the evening by an illustrated lecture on Mesopotamia and some of the European countries by Rev. Dr. Calvert of Kaslo. That there was a large turnout at both features is indicated in the financial intake, which was in the neighborhood of $60.

Arrangements are now under way for the unveiling ceremonies in connection with the soldier memorial tablets at the school, the date chosen being May 24th.

30th Anniversary

Mayor Little and J. W. Dow had a two hand birthday celebration all to themselves on Monday—the 17th marking the thirtieth anniversary of their staking homesites in the Creston Valley, t e latter still holding down part of his initial location. While the imprints of nobby treads now replace the rabbit tracks that were the outstanding indications of transportation in the early nineties, and all the other outward and visible signs indicate a mighty transformation industrially, horticulturally and in every other way the mayor, after three decades of local life finally admits that the weather and women are past finding out, and that in the maturity of his years he is forced to adopt the slogan of his astronomical contemporary McCreath who, in cases of doubt, confines his prognostications to observing that in case there is no change the weather will continue to be the same.

WATER NOTICE

USE AND STORAGE

Take notice that Canyon City Lumber Company, Limited, whose address is Creston, B.C., will apply for a license to take and use of Ten (10) acre feet, and to store Ten (10) acre feet of water out of North Branch of Floyd Creek, which flows south and drains into Goat River about one mile from dam. The storage dam will be located at the Company's mill on Lots 209 and 210 of Lot 812. The capacity of the reservoir is about Three (3) acre feet, and it will flood about three-quarters acres of land. The water will be dammed in the stream at the Company's mill, and will be used for mill pond steam and domestic purposes upon the millsite, described es Lots 209 and 210, D.L. 812, G.I.K.D. Map number. This notice was posted on the ground on the 13th day of April, 1922. A copy of this notice and an application pursuant thereto and to the Water Act, 1914, will be filed in the office of the Water Recorder at Nelson, B.C. Objection to the application may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

CANYON CITY LUMBER COMPANY, LTD., Applicant.
By CHAS. O. RODGERS, Agent.

The date of the first publication of this notice is April 21, 1922.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to $5 an acre; second-class to $2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of $10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 8 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of $300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of $10.00 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites; title to be obtained after fulfilling residential and improvement conditions.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessible by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half of cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from for one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retroactive.

No fees relating to pre-emptions are due or payable by soldiers on pre-emptions recorded after June 26, 1918 Taxes are remitted for five years.

Provision for return of moneys accrued, due and been paid since August 4, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from enlistment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, on fulfilment of conditions of purchase, interest and taxes. Where sub-purchasers do not claim whole of original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1920.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commissioner. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock-owners may form Associations for range management. Free, or partially free, permits for settlers, campers or travellers, up to ten head.

LETTERS TO THE EDITOR

B.C. Farmer-Progressive Political Committee.

EDITOR REVIEW:—

SIR, - There appears to be some confusion in the minds of some people anent the relationship of the above committee and the United Farmers of B.C.

With your permission I would like, through the medium of your valued columns, to state as clearly as I can the true state of affairs. From the inception of the U.F. of B.C. it was felt that if it was to be of any real use to the farmers of B.C. it would have to enter the political field. This feeling grew with the years, until in 1920 it came before the executive for decision. They, in their wisdom, decided against the organization entering politics as a body, but left the districts to decide for themselves what they should do.

Thus matters stood during 1921, but so great was the disappointment among the membership at the action taken by the executive that when the convention met in January, 1922, the statement came from many parts of house that unless some decisive action was taken along political lines the U.F. of B.C. was as good as dead.

Several hours of earnest discussion was given to this subject, the outcome being the adoption of a motion appointing a committee of fifteen to organize the farmers of B.C. for political action, to work alone, or with other bodies, as they might see fit. They were to be independent of and forbidden to use the funds of the U.F. of B.C., except by an unanimous vote.

The Farmer-Progressive political committee is the child of the U.F. of B.C., but as soon as it was born it was placed upon the political seas to face and to fight the storms as they arise, alone but with the good wishes and sympathy of its parents.

We want the U.F. of B.C. to embrace all shades of political thought among the farmers and his friends; it can accomplish infinitely more so than as a political body. On the other hand we want, we demand a political body that will give expression in our legislative halls to the aspirations and ideals of our farmer population. This the new organization aims to do.

JAS. ADLARD,
One of Committee.

NEWS OF KOOTENAYS

Trail's new Presbyterian church will seat 300 people.

At Penticton taxes are collected on an assessment of almost $5,000,000.

Common labor at Trail is this year being paid at the rate of $3.60 per day of eight hours.

76,000 was collected in custom duties at Cranbrook last year. At Fernie the figures were $96,000.

The first robins of the season were seen at Cranbrook on March 27th, according to the Courier.

Sandon school has reopened after being closed a couple of weeks due to an epidemic of chickenpox.

It will cost $43,000 to run Grand Forks schools this year, as compared with $25,000 a year ago.

The report is current that an export liquor house will be opened at Yahk. The license fee is $3000 a year.

In the Windermere country there is a shortage of hay, and the Alberta imported hay is costing $40 a ton.

The Kootenaian states there is no truth in the report that a case of sleeping sickness had been discovered amongst the public school scholars at Kaslo.

At Penticton the soldiers memorial will probably take the form of an avenue planted out to maple trees.

The Herald figures the government will be employing at least 200 men in the neighborhood of Penticton this year.

At Kaslo thirty citizens with $100 each are being sought, with which to finance a golf course and club in that town.

The Herald estimates that the stock of hard stuff in the Government liquor store at Cranbrook has a retail of $70,000.

Norway maple will be used for shade trees on the streets of Kaslo. The city council will plant quite a few of them this year.

By a vote of 161 to 31 Cranbrok citizens have decided to expend $35,000 in improving the town's water supply this year.

Kaslo Farmers' Institute have decided to have their annual fall fair again this year. The fall show was revived in 1921, after many years omission.

The by-law to raise funds for the erection of an addition to the public school at Fernie will not be voted upon until after the miners strike is settled.

Although the roads are bad the Free Press states the American bootleggers are keeping the travelling open between Fernie and U.S. boundary points.

Since November the public school scholars at Revelstoke have deposited almost $2000 in the savings bank. It took only seven weeks to pile up the first $1000.

At Penticton the attendance at the Presbyterian Sunday school is so large that a temporary room big enough to house four classes is being built alongside the church.

Kaslo was recently canvassed with petitions for and against a Government liquor store in that town, and the biggest list of signatures was secured by the "wets."

At Kaslo it takes 23 mills of the assessment to run the town schools. This is the second highest rate in the whole province. Ladysmith, with 28 mills required is the highest.

Harry Mott is the king fisherman of the Cranbrook district. The rod and gun club recently presented him with $100 rod and tackle for catching the biggest trout last season—a two and a half pounder.

T. J. Woods, a Grand Forks poultryman, last week furnished Editor Love of the Gazette with three eggs for Sunday breakfast—the trio of hen fruit samples having a total weight of three-quarters of a pound.

Entirely New Treatment For Bronchitis, Catarrh.

No Internal Medicine to Take

Years ago the profession fought Catarrh by internal dosing. This upset the stomach and didn't remove the trouble. The modern treatment consists of breathing the healing, soothing essence of Catarrhozone, which goes instantly to the source and the trouble. Catarrhozone is successful because it penetrates where liquid medicines can't go. The balsamic vapor of Catarrhozone drives out the germs, soothes the irritation, relieves the cough, makes Catarrhal troubles disappear quickly. For bad throat, coughs, bronchitis, Catarrhozone is a wonder.—Two months treatment one dollar. Small size 50c. Sold everywhere or The Catarrhozone Co., Montreal.

Vertical Flight Problem Solved

Test of Handley-Page Slot Wing Proves Successful

The latest tests with the now famous Handley-Page high lift slot wing show that the future of vertical and horizontal flights is solved by aircraft fitted with such high lift wings rather than by the helicopter system.

The new Handley-Page torpedo-carrying aeroplane, the first machine fully equipped with the variable slot type of wing, has undergone further test flights.

As soon as the engine was "opened up" the biplane jumped straight into the air with practically no preliminary run.

When the slots were closed it showed a very high speed; when they were opened again the machine slowed down to practically nil and descended vertically on an even keel for more than a thousand feet, in a space about as bit as a tennis court.

What is more important still, it could have flown away again from the same restricted space.

The action of this opening and closing wing is similar to the action of a bird's wing when it opens and closes the main feathers for slow landing on a telegraph wire, and when flying from a confined space.

It was invented by Handley-Page in March, 1920, since when Handley-Page's have been carrying out exhaustive tests.

The latest machine is nicknamed "The Heintz," owing to its being said to have 57 different varieties of control.

The machine proves that this wing is a definite revolution that is going to make aviation a wonderful commercial proposition.

Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosing with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of this ailment and the scores of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter:

Mrs. Alvin Richards, R. R. No. 1, Seeley's Bay, Ont., writes:

"For two years I was afflicted with indigestion, and in the morning when I got up my breath was bad. I had a poor appetite, and just felt like eating certain foods." I used many different medicines as a laxative without benefit, and the doctor's medicine did not help me at all. Finally I tried Dr. Chase's Kidney-Liver Pills, and found them better than anything I had ever tried. I can highly recommend them to anyone troubled with constipation or kidney troubles."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

At Tea Time In The South

The wonderful creations that are now on display for Southern wear. This stunning frock is of white silk crepe and a brocaded fabric in blue and white uncut velvet. The lines are rather long and square. The side panels are longer than the rest of the frock, giving this mode the uneven hem line which is so popular just now.

Movement Towards Canada

Nebraska Farmers Interested in Farm Land in Canadian West

(Special Correspondence by G. C. Porter, of Winnipeg)

Omaha.—During the past twenty years this section has been a most prolific recruiting ground for emigrants from the rural districts, who desired to move into the Canadian Northwest. More purchasers of land than homesteaders have been contributed by Nebraska to the Canadian prairies, but many homesteaders also have gone from here.

W. V. Bennett, Dominion Immigration Agent at this point, is daily in receipt of personal calls and letters of enquiries from all over the State from those who are going or contemplate going to the Canadian Northwest.

Homesteading is not very popular with Nebraska emigrants except with the younger sons of the farmers who were themselves homesteaders in Western Nebraska. The agents supply these people with railroad maps and valuable advertising matter prepared by the Government.

Many Canadian and American soldiers who served overseas are anxious to obtain land on the Prairie Provinces. Many of these boys are bachelors and want homesteads. They have some money and a few of them want to buy land. In cases where they have had experience as farmers they are promptly taken in hand and given every encouragement. If they are mechanics and want to go to the different cities they are acquainted at once with the conditions prevailing in their particular trades.

Dr. A. H. Hipple is chairman of the citizens committee which is arranging to have J. Bruce Walker, commissioner of Dominion Publicity, deliver addresses here before the Chamber of Commerce, the Kiwanis and Rotary Clubs. Dr. Hipple spoke enthusiastically of the movement towards the Canadian Northwest. Prominent business men are helping the movement which they say they expect to see toward Canada and the Central States this spring.

Business Brothers

President Neilson, of Smith College, was making a rather tedious journey and was glad when the man who had the seat in front of his turned around and began a conversation. The man proved to be a traveling salesman and took it for granted that Dr. Neilson was another. "What's your line?" he asked. "Mine's shirts." "Well, [illegible]," said the president of Smith. New York Evening Post.

Found Them Best She Had Ever Used

WHAT MRS. PARLEE SAYS OF DODD'S KIDNEY PILLS

Sussex, N.B., Woman who Suffered From Many Forms of Kidney Trouble Sings the Praises of Dodd's Kidney Pills.

Sussex, N.B.—(Special).—Mrs. L. Parlee, who lives on Broad Street here, is another of that great army of Canadian women who are always ready to say a good word for Dodd's Kidney Pills. Every one of them has a reaosn.

"I have found Dodd's Kidney Pills of good value to me," Mrs. Parlee states. "I had typhoid and it left me with milk leg. I suffered also from cramps in the muscles, backache, headache and heart flutterings. My sleep was broken and unrefreshing, I was always tired and nervous and I had dark circles under my eyes.

"I took two boxes of Dodd's Kidney Pills and they have done me a lot of good. I have found Dodd's Kidney Pills the best I ever used."

Mrs. Parlee's troubles came from the kidneys. Ask your neighbors if Dodd's Kidney Pills are not the most reliable of all kidney remedies.

Harsh But Necessary

Revolting as it seems for airmen to drop bombs on their own people, no government has any choice but to fight when revolution bobs up. What kings have done in defence of their thrones and Bolshevik rulers have done in defence of their power, a liberal government like that of South Africa must also do when challenged. General Smuts, who has little faith in the ultimate solution of social troubles through force, may be relied upon when possible to use intelligence in place of bullets.—New York Sun.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Eclectric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

The aborigines inhabiting the Malabar Islands speak to each other at a distance by whistling, the whistlers being selected for their ability to whistle loudly. They make this their livelihood.

Western Provinces Offer As Good Opportunities as the East for this Industry

Dr. W. G. Church, Dominion Inspector of Silver Black Foxes for Livestock Branch, Department of Agriculture, Ottawa, Ont., says:

After having personally visited the different provinces of Canada, and studying the situation from every angle, I am convinced that there are wonderful opportunities for this industry in the western provinces. When I say wonderful, I will quote what has been done by one of the eastern provinces, and in a future article will explain why the west has a chance of doing equally as good, if not better work than the east has done.

Everyone recognizes the fact that Prince Edward Island is an agricultural country. They also know that she is an island, and therefore rich in fisheries, and this island is often referred to as the garden of the gulf, and everyone who has visited this island has been willing to concede that this is the proper title, and that it certainly is a garden, and when they investigate the fishing industry, they are also ready to concede that it is also a great source of revenue. For there on the shores of this island are caught the most delicious oysters which command the highest market price, as also do lobsters, clams and many varieties of deep water fish, such as mackerel, cod, salmon and halibut that went to swell the revenue from this industry.

Then combining the revenue from both the fisheries and agricultural products, the revenue from the fox ranching industry of Prince Edward Island was as great as the others combined.

Just stop and think of this.

I am going to write a series of articles dealing with this industry, and will gladly furnish free of charge any information relating in any way to the industry.

Parties wishing such information are to write me, and enclose a self addressed, stamped envelope for reply.—Dr. W. G. Church, Summerside, P. E. I.

EDWIN W. FIELD

"I'm convinced if I had taken Tanlac two years ago, when my troubles first began, I would have been saved a world of suffering," said Ed. W. Field, 538 Jefferson St., Milwaukee, Wis.

"My case proved that when a man's stomach goes wrong, everything goes wrong with him. The first thing I noticed out of the way was loss of appetite and next, that no matter how sparingly I ate, I was sure to have an attack of indigestion. I finally got so I couldn't walk a couple of blocks without having to stop and rest and I was so nervous that often I sat up in a chair all night long.

"Tanlac has made a new man out of me, my stomach is as sound as a dollar and I feel fine all the time. I am a firm believer in Tanlac because I know it delivers the goods."

Tanlac is sold by all good druggists.

Too Much Unrest

Many Causes Advanced for Present Restlessness in World

Opinions as to the cause of "unrest" so much in evidence vary quite as much as the numerous forms in which the unrest manifests itself. Some of the causes advanced are too much jazz, too much hooch, too much lawlessness, too much law, too much restrain on the people, too little restraint, too little religion, too much preaching, too much unemployment, too much laziness, and so on. It seems to be either too much or too little of one thing or another. The only thing on which nearly everybody seems to agree is that there is too much unrest.—Springfield Union).

The Ganges, India's most important river, is 1,557 miles long, and is navigable for a distance of 350 miles from the sea.

Eager to Get Facts

American Agriculturists Want to Know More About Farming Conditions in Canada

(Special Correspondence by G. C. Porter, of Winnipeg)

Fargo, N.D.—In point of territory covered this is the most important immigration outpost maintained by the Dominion Government in the United States. Through this gateway streams emigrants from Kansas, Missouri, Arkanas, Oklahama, Texas, Mississippi and Louisiana into the Canadian Northwest. F. H. Hewitt is the agent in charge for the Government here and at present his mail brings thirty-five letters daily enquiring about the prospects for farm, fruit and dairying prospects on the prairies and in British Columbia.

During the past three weeks I have traversed the prairie States of Minnesota, North and South Dakota, Iowa, Nebraska, Kansas and Missouri. Not since 1912 have I found such keen interest in things Canadian.

I attended a Farmers' Institute at Colby, Kan., recently. This is the extreme western part of the State. These "Institutes" are informal gatherings of farmers where reports are read from Agricultural Societies. Through Agent Hewitt carrying his exhibits to many country fairs in Kansas, the farmers have a very accurate knowledge of the conditions on the Canadian prairies. These people are eager to get facts. They are familiar with scientific soil culture. To tell one of these men that a given farm produced so many bushels to the acre is to invite such a multiplicity of questions that only a soil expert could answer. Jacob Mohler, Secretary of Agriculture for Kansas, says that for the first part of April his office has a considerable number of prospects for the Canadian Northwest who will go up to "spy out the land." Most of these agents would rather have a "prospect" make a trip over the line before he tries to decide on location or details of any kind. Mr. Mohler, in talking to me, remarked, "I have known of many men who went to Canada and prospered and then I have heard of some who came back dissatisfied." It is to avoid these dissatisfied ones that agents are now working.

A Foe to Asthma. Give Asthma half a chance and it gains ground rapidly. But give it repeated treatments of Dr. J. D. Kellogg's Asthma Remedy and it will fall back even faster. There is no half way measure about this remedy. It goes right to work and drives asthma out. It reaches the inmost breathing passages and leaves no place for the trouble to lurk. Have it by you for ready use.

Whistling Tree

The "Tsofar," or whistling tree of South Nubia, is so called from the flute-like sounds made by the wind in its branches. The sound is caused by the holes bored by an insect in the spines of the branches.

The wonderful herbal balm for injuries & skin disease. 50c. all dealers.

Historic Knife

The Camavalet Museum recently received what is said to be the knife of the guillotine used in Paris during the French Revolution and the subsequent Reign of Terror and which served to decapitate Louis XVI., Marie Antoinette, Robespierre, and thousands of others. It was a gift to the museum fro ma Belgian collector. The relic is said to have been in the possession of the family of Samson the famous executioner of the French Revolution, for several generations.

BABY'S OWN TABLETS ALWAYS IN THE HOME

Once a mother has used Baby's Own Tablets for her little ones she always keeps a supply on hand, for the first trial convinces her there is nothing to equal them in keeping children well. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion, colds and simple fevers and making teething easier. Concerning them, Mrs. Saluste Pelletier, St. Dumas, Que., writes:—"I have used Baby's Own Tablets for the past ten years and am never without them in the house. They have always given the greatest satisfaction and I can gladly recommend them to all mothers of little ones." The Tablets are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The drug contained in the mescal cactus button produces in the user visions of gorgeous sunsets.

CATARRH

Catarrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic, taken internally, and acts through the blood upon the mucous surfaces of the system. HALL'S CATARRH MEDICINE assists Nature in restoring normal conditions.
All Druggists. Circulars free.

Turkey has a government agricultural bank with a capital of nearly $15,000,000.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Rosin Has Become Valuable

New Uses Found for a Practically Worthless Product

Many articles in daily use came originally from the ground but few realize that "mining" rosin has been a thriving industry in the United States for many years, despite the fact that rosin is the product of the sap of certain species of evergreen-tree.

Half a century ago rosin was so cheap that it did not pay to put it in barrels and send it to market. The barrels were worth more than the rosin. Turpetine, however, brought a good price and came from the same sap which yielded rosin as a by-product. In consequence manufacturers concentrated on the turpentine and allowed the molten rosin to run into pits, where it hardened and was covered with earth to get it out of the way.

This went on for some twenty-five years, and meanwhile the value of rosin went up because new uses were found for it, principally in the soap and paper industries. For a time people forgot about the tons of valuable rosin lying buried on the site of the old turpentine distilleries, but by and by a group of enterprising manufacturers began to work these rosin "mines." Of course these buried supplies will eventually be used up, and then people will have to turn once more to reducing rosin from pine gum.

Minard's Liniment for Burns, etc.

Speed of the Tortoise

Takes Nearly Four Years to Travel One Mile

A professor at Wisconsin University in America has been playing a jolly game with tortoises. He has discovered, by letting loose 166 tortoises all labelled, that a tortoise takes four years all but a few days to cover a distance of one mile.

The professor also noticed that in a period of five months the 166 tortoises went a distance of 115 yards, thus making their average speed about two feet in one day.

Travelling at that rate, a tortoise starting from London would take nearly a century to reach Edinburgh.

A STUDY OF OLD AGE

Is always interesting and reveals the fact that the blood is usually thin and lacking in the strengthening properties of young folks blood. If you want to fill your blood with the fire of youth, build up your strength, restore your nerves, just use Dr. Hamilton's Pills. This wonderful medicine is a grand system regulator. Keeps the bowels in good condition, keeps the body free of waste and impurities. For young and old the use of Dr. Hamilton's Pills is recommended, 25c at all dealers or The Catarrhozone Co., Montreal.

Blocked Doorway at Hampton Court Opened

Haunted Chamber Has Been Closed For 187 Years

After having been closed for 187 years, a blocked-up doorway at Hampton Court Palace has been re-opened.

It connects Henry VII's so-called Watching Chamber and the well-known Haunted Gallery. Through it have passed Shakespeare, Charles I., Queen Elizabeth, Mary Queen of Scots, Oliver Cromwell, and a host of other historical personages. Catherine Howard, one of Henry VIII's consorts, passed through it on her way to the scaffold.

Shakespeare's company performed plays in the Great Hall off Hampton Court Palace at Christmas, 1603, and the rehearsals took place in the Watching Chamber.

A feature of the "Haunted Gallery" was a picture of the "Wild Man and Woman," brought by Martin Frobisher from America which is supposed to have given Shakespeare his first conception of Calibar.

The doorway was closed by King George II. in 1735, who had the gallery turned into a habitable room.

For years Mother Graves' Worm Exterminator has ranked as a reliable worm preparation and it always maintains its reputation.

At the Board of Trade meeting on Tuesday night of last week, $15 was voted toward the cemetery beautification scheme.

During the absence of Agent Swanson, who is off on a ten day vacation, Sam Whittaker is back in charge of the C.P.R. depot here.

Up to the first of the month provincial police officer McLaren had issued licenses for fifty-five of the 100 motor cars owned in the Valley.

The kill of crows magpies, etc., goes on apace, the local indians accumulating $22 of revenue for the slaughter of these birds during March.

The Methodist sale of sewing, cooking, candy, etc., on Saturday afternoon was quite generously patronized, the gross intake being almost $80.

Mrs. Cotterill was the winner of the handkerchief raffled at the Women's Institute meeting on Friday, the proceeds of about $7 going to the Russian Save the Children Fund.

Miss Vivanne Moore, who is attending high school at Kaslo is home for the Easter holidays. Mrs. Charles Moore, who has been a visitor in that town for a couple of weeks, returned with her.

A silver tea and raffle of a piece of fancywork under the auspices of the Ladies' Guild of Christ Church, will be held at the home of Mrs. W. S. Watson, Saturday afternoon, April 29th, 3 to 5.30.

Rev. Dr. Calvert of Kaslo was the preacher at the Methodist Church on Sunday evening, and on Monday night was at Canyon City, where he gave an illustrated lecture under ladies' aid auspices.

Creston Women's Institute is reviving its flower show this year, and have decided upon Saturday, May 13th, as the date. A list of the blooms on which prizes will be given appears elsewhere in this issue.

Easter Sunday attendance at all the churches was very large. At Christ Church the number of communicants was the record for the congregation. The collection, which goes to the rector, was also a very liberal one.

C. F. Hayes left on Wednesday for Calgary, where he is undergoing some further specialist treatment on his eyes. In consequence of his midweek departure the Review is issued a couple of days earlier than usual this week. There will be no issue for April 28th.

S. Sweet, who a couple of years ago purchased the Trotter ranch on Hillside Road, next Holy Cross Church, has this week disposed of it to Mr. Lantz, who arrived here about a month ago from Laird, Sask. Mr. Sweet is returning to Alberta to again reside.

Mrs. H. Lyne, who is the Kootenay-Boundary member on the provincial Women's Institute advisiory board, left on Saturday for Victoria, where she will attend a session of the executive that will arrange the programmes for the institute district conferences this year.

C. B. Twigg, local provincial horticulturist, accompanied by Mrs. Twigg, arrived from Nelson on Thursday, and are now getting settled in their home in the Schade residence, which he purchased some months ago. Mr. Twigg will have office quarters in the Speers block, next the Staples Fruit Company, Ltd.

At a meeting of the baseball club on Monday night Joe Atkinson was the unanimous choice as captain of the Creston team this year, and arrangements were completed for laying out the diamond and equipment, and the first practice match of the season will be played on Sunday if the weather is favorable.

It is to be hoped every producing orchardist in the Valley will be out for the horticultural meeting in Speers' Hall on Monday night at which Robert Stark will deliver an address on the Imperial Fruit Show at London last fall, at which the Valley was quite successful in carrying off a full share of prizes.

Time for enrollment of names on the provincial voters list has been extended to May 3rd. People who voted at the Dominion election last December should not imagine their names will be on the provincial list. The only names that will appear thereon will be those who voted at the provincial contest in December 1920.

The west bound train on Saturday was almost six hours late in reaching Creston due to a wreck of Friday's eastbound near Coleman, Alta., blocking traffic at that point. In the mishap about nine passengers were badly shaken up, and amongst the unfortunate was Wm. Ashton, who gives his address as Creston.

The varied weather that has prevailed for almost the past month appears to have glevn the Valley an excellent supply of moisture. According to some who have been land clearing the last three season's the accumulation of wetness this spring is the heaviest since 1919, and in places is down to a depth of over four feet.

Mr. and Mrs. Tunstead are leaving this week for Portland, Ore., where they will make a short stay with friends, and will then proceed to points in California, spending the summer at Longbeach. They expect to be away until early fall, and during their absence their home will be occupied by Mr. and Mrs. Joe Atkinson.

For Friday evening, April 28th, the Ladies' Guild of Christ Church are putting on another of their always-popular whist and dances in the Parish Hall, to which the admission will be 75 cents. The very best of music has been secured for the dance, and good prizes will be given at cards, which are to start at 8.15 prompt.

The Red Cross Society meeting on Thursday night was quite well attended, and after hearing the situation discussed the gathering was quite unanimous in its vote not to have another public health nurse sent to Creston. Any funds that may be on hand the committee of ladies will allocate to deserving community purposes.

The whist drive and dance under the direction of the fall fair at the Parish Hall on Monday night was a splendid success, socially as well as financially. The winners at cards were Miss Davidson and Mrs. Manuel, while the gentlemen high scorers were Ernest Taylor and Lorne Botterill, C. O. Rodgers was the winner of the sheep which was raffled, the draw being made by Miss Whiddon, ticket 98 being the first drawn. For the dance high class music was furnished by Mesdames Foreman and Lister and Alex. Lidgate. After paying all expenses the raffle and door receipts combined will net the agricultural association something better than $100.
