Mining Pays.

Despite its load of fraudulent claims and wildcat schemes, the mining industry has paid more money in dividends, compared with other industries started in the last 50 years, than any business know, says the New York Tribune. Compare the profits in mining with the profits on the 156,000 odd miles of railroad, with the aggregate liabilities of nearly $10,000,000,000, then you will say which pays the most. Under the wing of mining there exists some of the safest and most profitable of all business. Take, for instance, the 12 great smelting companies, the mineral pawn brokers. The smelting companies that do a strictly custom business show absolutely and unquestionably the largest profits of and industry in America. We know of instances where capital invested in smelting companies has been turned five times a year, and each time the margin of profit has been over 20 per cent of the entire amount handled. They take no risk; simply buy the raw gold and silver in the ore at a reduced price, extract their cost of treatment and pay the miner the residue. It is a business where the principal is absolutely safe. All of these things should show the people the value of mining Of late it has come about that if a mining man presents an enterprise to conservative capital he is looked upon with suspicion and no assistance is rendered him. The investor fails to realize that the very sinews of commerce come from the mines and that they are the root of half the successful industries of this country. Last year, notwithstanding the fact that capital gave very little assistance to the mining industry, there was a steady, healthy increase of prosperity. Of the many millions produced from the mines the amount was divided so that all avenues of industry profited. Over 10 per cent went to railroad corporations, 37 per cent to mine owners, fully 15 per cent to smelting works, while the residue, 38 per cent, was circulated among the laboring elements.

Canada's Gold Output.

Recently published official figures show that in 1898 the Canadian gold output was $13,700,000, placing Canada in fifth place as a gold-producing country.

Of the total product, $10,000,000 was taken from the Klondike. Estimates place the output from the Klondike this year at $20,000,000 and British Columbia is also expected to do much butter than in previous years, so that Canadians hope Canada will soon be near the top.

The Unseen Cord.

There is an unseen cord that binds
The whole wide world together;
Through every human life it winds,
This one mysterious tether.
It links all races and all lands
Throughout their span allotted;
And death alone unties the strand
Which God Himself has knotted.

However humble be your lot,
However your hands are fettered,
You cannot think a noble thought
But all the world is bettered.
With every impulse, deed, or word
Wherein love blends with duty,
A message speeds along the cord
That gives the earth more beauty.

Your unkind thought, your selfish deed,
Is felt in farthest places;
There are no solitudes where greed
And wrong can hide their faces.
There are no separate lines, the chain,
Too subtle for our seeing,
Unites us all upon the plan
Of universal being.

—ELLA WHEELER WILCOX.

Eight Hours a Day.

The Nelson Miner published a day or two ago the following interview with Mr. Bruce White, who was able to interpret the feeling of the government or at least one member of the government with regard to the eight-hour-a-day question for working miners. The Miner says:

The outlook in regard to the recent eight-hour legislation now seems to be more hopeful, especially as regards the mines of the Slocan, at any rate this is the opinion of Mr. Bruce White, who should be in a position to judge. Mr. White has just returned from Victoria and like several other Slocan mine owners, he interviewed the Hon. J. Fred Hume, Minister of Mines, on the subject.

Mr. Hume did not appear personally to favor the new legislation, which was slipped through during his absence; and his assurances on the subject reassured Mr. White very much. The position of the government as outlined by Mr. Hume is as follows: The government will not institute any prosecutions under the new act, or in any way seek to disturb the existing relations between employers and employed. The law, however, is on the statute book and cannot be ignored consequently if the government is requisitioned by the majority of the miners employed in a mine, the law will be enforced. Thus the position is largely in the hands of the men themselves, though each case will be looked into on its merits, thus preventing a turbulent few causing trouble This is the substance of the Mines' assurances as received by Mr Bruce White, who does not now anticipate trouble in the future.

While passing through on his way back from the Coast, Mr. Bruce White made inquiries, and, so far as he could learn, the Slocan miners do not intend making any trouble. They appear to be quite satisfied with the existing state of affairs, and have not as yet made any demand through their Union. In fact everything points, in the Slocan at least, to the peaceful continuence of the system by which the miner receives $3.50 for 10 hours work.

Miners' Certificates.

The following scale will show the fees to be charged for free miners' certificates covering only a portion of the year:

Certificates issued between 1st June and 18th June, $5.

Certificates issued between 19th June and 6th July, $4.75.

Certificates issued between 7th July and 24th July, $4.50.

Certificates issued between 25th July and 11th August, $4.25.

Certificates issued between 12th Aug. and 30th Aug., $4.

Certificates issued between 31st Aug. and 18th Sept., $3 75.

Certificates issued between 19th Sept. and 7th Oct., $3 50.

Certificates issued between 8th Oct. and 26th Oct, $3.25.

Certificates issued between 27th Oct., and 14th Nov., $3.

Certificates issued between 15th Nov. and 2nd Dec., $2.75.

Certificates issued between 3rd Dec. and 20th Dec., $2.50.

Certificates issued between 21st Dec. and 7th Jan., $2.25.

Certificates issued between 8th Jan. and 25th Jan., $2.

Certificates issued between 26th Jan. and 12th Feb., $1.75

Certificates issued between 13th Feb. and 2nd March, $1.50.

Certificates issued between 3rd March and 20th March, $1.25.

Certificates issued between 21st March and 7th April, $1.

Certificates issued between 8th April and 25th April, 75 cents.

Certificates issued between 26th April and 13th May, 50 cents.

Certificates issued between 14th May and 31st May, 25 cents.

...ing Rates sent on application.

Though the columns of THE ADVANCE are always open for the discussion of matters of public interest and importance, we do not necessarily endorse any of the opinions expressed. Correspondence of a personal nature will not be published.

MONDAY, APRIL 17, 1899.

REGISTRARS.

By an order in council passed a few days ago, all Registrars and Deputy Registrars in counties of Victoria, Vancouver, Westminster, Yale and Cariboo had their appointments cancelled. By an order of the same date all or nearly all those who were relieved of their appointments were reinstated as County Court Registrars. This was made necessary owing to the fact that there was no such office as that of Deputy Registrar.

While the government was making these appointments we think it might have gone a step further and appointed a Registrar for the Supreme court, so that sittings could be held at some point in this portion of the County of Yale. Sittings of the Supreme Court are held at such points as Nelson and Rossland, and why not at some point in this Boundary Creek district from which springs many of the cases which find their way to the Supreme Court. With railway communication established there will be no excuse in the world why all such cases should not receive hearing near at home instead of being hawked around all over the province as at present. The authorities should give the matter an earnest consideration.

NOT VERY STRANGE.

The Vernon News referring to the appointment of a coroner, with residence at Fairview or some other point south of Penticton, says:

"The recommendation made the other day by the Coroner's jury on the McCaig case is worthy of prompt and favorable consideration from the government It is absurd that the coroner from this city should be called to such distant points as Fairview, or Keremeos, when in some cases his presence is urgently and speedily required. The matter has been brought to the attention of the government more than once, and it is hard to understand why such a reasonable request should be so persistently ignored."

If the News had stopped to consider, the fact that such an appointment as it refers to has not been made would not strike it as being at all strange. As a rule medical men are selected to fill the office of coroner in this province, and since the new regulations have come into force governing these appointments, not only does the appointments carry, with them no adequate remuneration for services rendered, the holding of such an appointment may at any time represent a pecuniary loss to the appointee.

Under these circumstances the government might desire and might have desired for some time past to make such an appointment, but those coveting the distinction of holding such an office do not perhaps reside in the district.

Midway in Line.

At a meeting recently held in McNicol's Hall the question of the Corbin charter was brought up and a committee appointed to draft a petition to be presented to members of the Federal cabinet and representatives of the province in the Dominion parliament. The following is a draft of the petition:

WHEREAS, railway competition is essential for the development of the mineral and other resources of the Boundary country, and

WHEREAS, D. C. Corbin is applying to the Dominion Parliament for a charter for the construction of a railway traversing a portion of the Boundary district, and

WHEREAS, the construction of the said railway would be beneficial in developing Southern British Columbia, creating competition for railway traffic, and

WHEREAS, it would insure the development of the smelter and mining industries under the most favorable conditions, be it therefore

RESOLVED, that we the undersigned citizens of Midway, hereby express the earnest hope that the Dominion Parliament will grant the railway charter sought by D. C Corbin,

A New Ferry.

The government has decided to build at once a new ferry for the west fork of Kettle river. This will not effect the construction of the bridge over the stream as soon as possible, but is made necessary owing to the fact that it will not be possibe to have the bridge ready for traffic before the spring freshet comes. The ferry built last year is condemned as unsafe, as owing to its size and the character of the stream it could only be used last season at certain stages of water, and even then those making use of it always prepared for expected accidents

week has been the very good showing made in the Fontenoy and Little Cariboo claims, in the former, after the water had been taken out of the 80-foot shaft, sinking was commenced and some very five ore is now to be seen on the dump. The vein is nearly seven feet wide and appears to be one mass of ore. Your correspondent does not know what the values are, but they need not be very high to make this claim one of the leading properties of the camp, as the quantity would seem to be inexhaustible. The Little Cariboo at the 50-foot level is also making a big ore showing. The actual width of the vein has not yet been ascertained, but assays from his ore run as high as $45, while free gold was to be seen in some samples shown me this morning.

On the Waterloo the tunnel between No. 1 and No. 2 shafts is steadily progressing, while the tunnel to cross cut the Dolphin-Shannon ledge may be expected to tap it in a day or so.

Major Megraw, now the contract of sinking the shaft to the 200-foot level is completed, is working only a few men until his big compressor arrives. Owing to the weight of the boiler, six tons, the roads will have to improve very much to make the hauling practicable.

The Granite is another property which is making a good showing, the foundation for the mill being about completed. The incline shaft on the Gold Standard is down about 10 feet and some very good ore is coming up. The good showing made on this property should make the Ophir claim, towards which the vein is dipping, a good investment.

The deals on the Radja and Gordon have been completed, the former to Rossland parties and the latter to a Spokane broker. Both these properties are in the vicinity of the Waterloo and Fontenoy and doubtless will be heard of in the near future.

Another very promising property in this vicinity is the Boston, on which are two veins one from the Gladstone and the other from the Big Bug, on the latter claim these veins have been opened by shafts and very fine bodies of ore exposed.

The snow still retards in a great measure the work on some of the properties, though it apparently has no effect upon the travel. Snodgrass' daily stage being well patronised, bringing commercial men, mining men and business men looking for "snaps."

Some doubt seems to exist as to which will be the principal business centre. While the Sailor is already laid out as a townsite the Rover and Cariboo are consiered more favorable positions, being more central.

It is to hoped the government will favorably consider the petition for a constable recently forwarded by the residents, as the presence of such an official is very much needed.

Camp McKinney, B. C.,
April 15th, 1899.

The Elkhorn Deal.

Mr. C L. Thomet, of Midway, has disposed of the surface rights of the Elkhorn claim, which is situated north of and adjoining the Greenwood townsite. The purchasers are Messrs. McEntire, McDonnell & Co., of Greenwood, the firm which so successfully handled the Sailor property in Camp McKinney.

The purchasers it is said paid $8,000 for the Elkhorn surface rights, and to recoup themselves they are having the property sub-divided into residence lots. Owing to the location of this property these lots will find a ready sale as they are just sufficiently far from town to make desirable residence locations. The extent of the surface rights is represented as 28 acres.

Killed at Samoa.

The friends, and they are many in this portion of the province, of Mr. James Monaghan, so well known as one of the original owners of the Cariboo mine in Camp McKinney, will sympathize with him in his sad bereavement, when the intelligence is conveyed to them that a few days ago he lost his eldest son in Samoa in the engagement which recently took place between the American and British forces and the rebels under Mataafa. Lieutenant Monaghan was an officer on the Philadelphia one of the U S. warships, and was one of the leaders of the party which landed and was making its way to Apia on April 1st, when without warning it was pounced upon by Mataafa warriors and a bloody battle was fought, resulting in the death of two American officers and two men killed, and five American sailors wounded.

AT "THE ADVANCE

The Smuggler.

The adjourned annual meeting of the Smuggler Gold Mining and Milling Company of Fairview, was held recently in Toronto. The meeting was very well attended. President Hartley Dewart advised the meeting that the 100,000 shares of stock offered for sale after March 8th, at 6c, had been all subscribed for, and that the company had sufficient funds to prosecute development work vigorously. With $5,000 on hand and 100,000 shares of the new stock issue still in the treasury, it was decided that development should be proceeded with upon two of the company's three new claims, viz., the Toronto and the British Lion. The third is the Admiral Dewey. After a general discussion, the election of directors was proceeded with, the following gentlemen being elected: Dr. Perfect, Toronto Junction; J. Harvey Hall, Parkdale; J. R. Barber, A. R. McInnes, H. H. Dewart, Dr. J. T. Gilmour, F. C. Jones, C. S. Reed and George Maurer.

Blown Up.

A sad accident happened to two Finlanders named John Nord and Mat Oste working on the railway in one of the rock cuts near Midway on Tuesday last. It would seem that they had drilled a hole in rock and were either about to fill the hole with powder or were filling it, when in some way the blast went off injuring one severely and the other very badly indeed. In fact, the one the most hurt was, figuratively speaking, torn to pieces.

Just as soon as the accident happened word was sent to the headquarters camp and the superintendent in charge, Mr. Hughes, hurried to the scene, but before he got to the men they were being cared for and a suitable conveyance happening along he had them quickly transported to the Greenwood C. P.R. hospital, who now it is said one is favorably progressing while the other lies in a precarious state. No one it would seem was responsible for the accident other than the men themselves, who, on occasion had been noticed to handle powder rather carelessly.

Monopoly a Mistake.

The following which was taken from the Toronto Globe, goes to show how dangerous it is to the welfare of any mining community to allow a powerful corporation to monopolise the smelting industry. When the C.P. R. acquired the Trail Creek smelter they trumpeted the news far and wide that they would smelt ore at cost, so as to encourage mining development, and that it was not out of the smelting of ore they expected to recoup themselves but out of the business created by the development of the mines that they would look for recompense for their money invested in smelting plant etc.

Just how they were keeping this promise, and how far they would have gone if not checked, and how soon will they endeavor to repeat their Trail Creek operations in the Boundary Creek country if they are given an opportunity would seem to offer food for thought, and present a subject fraught with much interest to the people who are just now being brought more closely in touch with this corporation through the introduction of railway facilities to this district. The Globe said:

"Recently the War Eagle mine resumed shipping ore after an interval of several months. During the early part of this stoppage new hoisting machinery was put in, and latterly a struggle has been going on between the Gooderham-Blackstock syndicate and the Canadian Pacific railroad as to smelter terms.

"The Canadian Pacific railroad owns the Trail smelter, which has a monopoly in that district. The charge for reducing gold ores has been $7 a ton, with a percentage of the metals other than gold contained in the rock. The Gooderham-Blackstock syndicate has been for a long time dissatisfied with the charges which they regard as excessive, but the 'scalping' of copper and other metals was particularly obnoxious.

"Nothing that they could do could induce the C. P. R. to give more favorable rates, so the War Eagle people decided that it was time to make a stand and either get what they wanted or start another smelter. They demanded from the C. P. R. a cheaper rate of smelting and more reasonable 'scalping,' but what the exact terms were is not known. If the railway would not accede Mr. Gooderham stated that he would erect a smelter with a capacity of 1000 tons a day to treat all the War Eagle and Centre Star ores. So that the regular monthly dividends of the War Eagle would not be disturbed, he agreed to buy the ore produced by the mine until the proposed smelter was completed.

"Thus matters stood when Mr. Gooderham and Mr. Blackstock left for England, and the fact that the mine has started shipping again is taken as an indication that the railway company has agreed to accept their offer rather than permit the construction of a rival smelter in the Trail creek district."

CERTIFICATE OF THE REGISTRATION

—OF AN—

Extra-Provincial Company.

"COMPANIES ACT, 1897."

"The Mammoth Gold Mining Company,"

Registered the 28th day of February, 1899.

HEREBY CERTIFY that I have this day registered the "The Mammoth Gold Mining Company" as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the City of Spokane, Spokane County, State of Washington.

The amount of the capital of the Company is $50,000, divided into 1,000,000 shares of five cents each.

The head office of the Company in this Province is situate at Camp McKinney, and Thomas Donald, miner whose address is Camp McKinney aforesaid, is the attorney for the Company.

The time of the existence of the Company is fifty years.

The objects for which the Company has been established are:—

To work, operate, buy, sell, lease, locate, acquire, procure, hold, and deal in generally, mines, metals, mineral claims of every kind and description within the United States of America and British Columbia; to carry on and conduct a general mining, smelting, milling and reduction business; to purchase, acquire, hold, erect, and operate electric light and power plants for the purpose of mining and treating ores, and for the purpose of furnishing lights and creating power for all purposes; to bond, buy, lease, locate and hold ditches, flumes and water rights; to construct, lease, buy, sell and operate railroads, ferries, tramways, or other means of transportation, for transporting ore, mining and other materials; to own, bond, buy, sell, lease, locate, timber and timber claims; to do and conduct a general mercantile business, and finally, to do anything consistent, proper, and requisite for the carrying out of the objects and purposes aforesaid in their fullest and broadest sense, within the territory aforesaid.

Given under my hand and seal of office at Victoria, Province of British Columbia, this twenty-eigth day of February, one thousand eight hundred and ninety-nine.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

high school at Vancouver has been appointed Superintendent of Education for the province, a position recently vacated by Dr. Pope who held the position for several years.

As to Mr. Robinson's qualifications it may be said he has had a long and uniformly successful experience as a teacher. As far back as 1881 he won the Lorne medal for teaching in the Fredericton, N.B., normal school, and later, while an undergraduate in attendance at Dalhousie college, he won several scholarships, including the $800 exhibition and the governor-general's gold medal, finishing an exceptionally brilliant course with one of the best scholastic records known in the history of his alma mater. Previous to coming to the province Mr. Robinson successively presided as principal over the Upper Sussex and the Cambelltown, N.B., high schools.

A Good Deal.

Another Summit camp property has been taken hold of by a strong syndicate as a few days ago Mr. W.L. Hogg on behalf of the Investment Company of Montreal, bonded the "J. S." claim in the above named camp. The bonding consideration runs into the thousands, therefore the owners J. Jerrold and partner may look for a substantial recompense for the labor and time spent in making their property presentable.

The J. S. is a copper-gold proposition and it is said the vein on the claim is of a big width, surface work showing it to be between 20 and 30 feet. The ore so far taken from the vein carries a good persentage of copper and runs from fairly low grade up to shipping or $45 ore. The vein has been so far exposed for about 300 feet on the surface by crosscuts, and as well a shaft has been sunk to a depth of 50 feet and from this a drift run 40 feet.

Although not definitely stated it is understood the parties holding the bond will start work at once, and as the bond is not given for a long term color is given to this assertion.

The Ruby.

A splendid strike of ore was made in the Ruby claim, situated at Boundary Falls, a few days ago when the crosscut from the 80-foot level penetrated three feet of fine grade ore.

This claim has had a varied experience owing to the fact that until quite recently it was impossible to find he vein in solid formation. Several shafts and drifts have been run all of which carried more or less mineral but as the ore was always mixed with more or less country rock those experting the property knew that the ore body proper was hidden from them. So elusive has this ore body been that parties holding a bond before the present bond was given, allowed their claim to lapse after spending considerable money, and only recently the present holders would have done likewise had not an extention of time been granted them in which to prosecute the work of development. Now that the ore body has been found the owners of the property and the parties holding the bond on it, who are represented by Mr. Alex. Dick of Greenwood, are extremely well pleased and therefore for the future all should go well with the Ruby, which if it does not belie its name should eventually be a gem.

Standing Alone.

Backed by the best wishes of the country east and west, it would seem as if Mr. D. C. Corbin will have to fight the C. P. R. single handed in the coming contest over the Kettle River Valley Railway charter. Last year Mr. Corbin had the support of the Grand Trunk, and even then got turned down, and now judging from some recent expressions in the Toronto World it would seem he is to lose this support. Upon the subject the World a few days ago said:

"The World heard, on what appears to be the best authority yesterday, that the Grand Trunk Railway Company had made a deal recently, whereby the former will remain neutral in the coming fight for the Kettle River charter, on condition that the Canadian Pacific Company offers no opposition to new legislation in regard to the Drummond Counties Railway. It will be remembered that last session the fight for the charter for the Kettle River road in British Columbia was one of the hottest ever put up between the two great Railway corporations before parliament. It now looks as if the Kettle River Railway, wanted by Mr. Corbin and his friends, would be thrown down. The great opponent last year was the C. P. R., and the fight was a close one to the finish. The Kettle River Road is a straight competitor with the C. P. R. in the mining district of British Columbia, the intention being that the road tap the American lines to the south of the border.

LOCAL AND DISTRICT.

[illegible] of Greenwood, is [illegible] his many friends [illegible] wish for his speedy [illegible]

[illegible] Burns spent a day [illegible] the week, and [illegible] to the public [illegible] west on his tour [illegible]

[illegible] O. Melville, is engaged [illegible] on to Mr. James [illegible] When this ad- [illegible] Mr. Atwood will [illegible] little house.

[illegible] government super- [illegible] is expected here [illegible] ble is expected in to [illegible] for the building of [illegible] west fork of Kettle [illegible]

[illegible] ted in the Corbin [illegible] none should miss the [illegible] signing the petition to [illegible] at Ottawa which is [illegible] in this neighbor-

[illegible] Crowell one of Vernon's [illegible] left with others for the [illegible] country. Mr. Crowell is a [illegible] contractor and builder and [illegible] the new field at Atlin has [illegible] for him.

[illegible] residents of Camp McKinney [illegible] the government for a [illegible] constable. They should also [illegible] lock-up, as it is sometimes [illegible] for an officer to keep the [illegible] keep a prisoner under [illegible] stances.

[illegible] consideration of Midway [illegible] divisional point at least [illegible] to come the Midway [illegible] said donated to the C. [illegible] ot right-of-way through [illegible] property from east to [illegible] well gave the railroad com- [illegible] welfth unsold lot.

[illegible] Lynch of Camp McKin- [illegible] rought before the local [illegible] Tuesday last on a charge [illegible] ulted one Frank Black [illegible] bout a week previously. [illegible] e the accused pleaded [illegible] was fined $10 and costs [illegible] all to $18.

[illegible] Ketchum, of Greenwood, [illegible] way for the first time on [illegible] ast, and while here Mr. [illegible] was lavish in his praise of [illegible] as viewed from a residential [illegible] nt. With the end of the C.P.R. [illegible] here and railways centering at [illegible] t Mr. Ketchum could see a [illegible] or Midway.

[illegible] Wood, of Greenwood, re- [illegible] from Penticton on Monday [illegible] r. Wood was out looking after [illegible] ng interests, he having an in- [illegible] a claim which is situated close [illegible] eton, and from which it is ex- [illegible] re will soon be shipped to the [illegible] elters. In fact arrangements [illegible] being made to carry this into [illegible]

[illegible] people of Grand Forks and [illegible] do not soon bury the hatchet, [illegible] cL Brown the executive head [illegible] P. R will have to be sent for. [illegible] tation and other railway [illegible] disappear as if by magic in the [illegible] of this official, therefore it [illegible] be surprising if his services [illegible] as effective in municipal and [illegible] other entanglements engag- [illegible] tention of the above named [illegible] ties.

[illegible] s. Banburg, of Trail, arrived [illegible] uring the past week, and so [illegible] was he with Midway's ad- [illegible] that he purchased a five [illegible] of land from the Midway [illegible] and as well some lots Upon [illegible] will at once, it is said, erect [illegible] e, and to show that he means [illegible] nd has come to stay he is [illegible] ged in the cultivation of his [illegible] ract. Mrs. Griffin another [illegible] f Trail, also visited the town [illegible] week, and before returning [illegible] sted in a five acre block.

[illegible] A. Coryell, P. L S, an old [illegible] lent of Midway, paid the [illegible] isit on Friday last. Mr. [illegible] ust as confident as ever that [illegible] under the sum can boast of [illegible] mineral wealth in a given [illegible] t contained in British Co- [illegible] hin that section of the pro- [illegible] ded on the east by the Co- [illegible] r, on the west by the Fraser [illegible] e north by the C P. R. and [illegible] th by the International [illegible] line. In this territory is [illegible] lreds of millions of dollars [illegible] ecious metals and unborn [illegible] will not see the store [illegible] sted.

[illegible] elcome visitor arrived at [illegible] CE office this week in the [illegible] opy of the American, the [illegible] ublished at Manila in the [illegible] Islands. The paper is a [illegible] e yearly subscription price [illegible] It is printed on a reddish- [illegible] la paper and the get up indicates that other than Americans are engaged on its production. Sprinkled through its news columns are despatches from some of the leading European centers and these despatches are labeled, republican prohibited. The advertising columns of the paper are very entertaining as some strange expressions are made use of by the advertisers when referring to their wares. As the doner has not disclosed his name it is impossible other than to herein return thanks, and offer the assurance that the American will occupy a commanding position in THE ADVANCE office for the future.

A noted divine was a visitor in Midway on Monday last, and his experience on that day will not be forgotten for some time to come. He came from Grand Forks by way of the mountain road and decided to return to Grand Forks by way of the Kettle river road. Naturally before starting out on a strange road questions were asked and the divine was ably and concisely directed, his instructions embodying the fact that he was not to cross the Kettle river as the road kept on the north side of the river all the way to Grand Forks. With these instructions the wayfarer ambled off on his sleek little nag, but instead of following directions he started on a wrong course and passed through Midway and on to Rock Creek. Being thoroughly imbued with a sense of his surroundings, the traveller all unconscious crossed the river at Ingrims, and being intoxicated with sun flecked morning air he also failed to call for inspiration at the bars of either the Riverside or Rock Creek hotels, and thus innocently he wended his way up the Kettle river valley. On, on he went past the habitations of man and out into the wilderness, and so diligently did he amble along or rather did his nag amble along that the noonday sun found him near the west fork of Kettle river and the evening sun at a point where the wagon road had merged itself into a mountain trail and the trail had run out to a point. Then and only then did the wayfarer realize that broad is the way and straight the road which leadeth to Grand Forks, and as soon as this dawned upon him, he became conscious of this mistake and so turned and wended his weary way back to the point of his departure in the morning, at which point he arrived in a thoroughly exhausted and pitiable condition about the hour of midnight.

Plenty of Work.

Mr. J.P. Graves the vice-president of several of the most important companies operating in the Boundary Creek district, returned to Spokane a few days ago, and made the fact known that as yet the Granby Consolidated Mining and Smelting company had not selected their smelter site in this district.

Referring to the work being done and to be done in the mines in which he is interested he said that the shaft in the Old Ironsides would without cessation of work be carried down to the 300-foot level and that much heavier machinery would be installed so that this mine could be worked to even a greater depth. Sinking on the Knob Hill would also take place as soon as the up-raise now being cut is completed. The Victoria claim too will be developed by a drift which will run from the 200-foot level in the Old Ironsides shaft, this being made possible owing to the fact that the Victoria claim adjoins the Old Ironsides on the east.

More Railroading.

The contract has been let to Mann, Foley Brothers & Larsen for the construction of the branch roads which are designed to tap the several mining camps in this district. These branch lines run in the one instance from Greenwood City to camps Deadwood and Copper, and in the other from Summit camp designated Eholt by the railway people to camps Greenwood and Central. The extension of the road from Midway to Rock Creek has also, so it is said, been let, so that even when the railway reaches Midway, grading will be carried on in the district for some time to come, in fact a C. P. R. official stated a few days ago that for the next two years road building would be carried on in this neighborhood.

This covering the district with a network of railways demonstrates that the C. P. R. Company appreciates the value of being closely in touch with the fountain heads of mineral production in this portion of the province. It means plenty of transportation and that is just what the C. P. R. is after.

CERTIFICATE OF THE REGISTRATION

—OF AN—

Extra-Provincial Company.

"COMPANIES ACT, 1897."

"The Mammoth Gold Mining Company."

Registered the 28th day of February, 1899.

I HEREBY CERTIFY that I have this day registered the "The Mammoth Gold Mining Company" as an Extra-Provincial Company under the "Companies Act, 1897," to carry out or effect all or any of the objects hereinafter set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the Company is situate in the City of Spokane, Spokane County, State of Washington.

The amount of the capital of the Company is $50,000, divided into 1,000,000 shares of five cents each.

The head office of the Company in this Province is situate at Camp McKinney, and Thomas Donald, miner whose address is Camp McKinney aforesaid, is the attorney for the Company.

The time of the existence of the Company is fifty years.

The objects for which the Company has been established are:—

To work, operate, buy, sell, lease, locate, acquire, procure, hold, and deal in generally, mines, metals, mineral claims of every kind and description within the United Sates of America and British Columbia; to carry on and conduct a general mining, smelting, milling and reduction business; to purchase, acquire, hold, erect, and operate electric light and power plants for the purpose of mining and treating ores, and for the purpose of furnishing lights and creating power for all purposes; to bond, buy, lease, locate and hold ditches, flumes and water rights; to construct, lease, buy, sell and operate railroads, ferries, tramways, or other means of transportation, for transporting ore, mining and other materials; to own, bond, buy, sell, lease, locate, timber and timber claims; to do and conduct a general mercantile business, and finally, to do anything consistent, proper, and requisite for the carrying out of the objects and purposes aforesaid in their fullest and broadest sense, within the territory aforesaid.

Given under my hand and seal of office at Victoria, Province of British Columbia, this twenty-eigth day of February, one thousand eight hundred and ninety-nine.

[L.S.] S. Y. WOOTTON,
Registrar of Joint Stock Companies.

high school at Vancouver has been appointed Superintendent of Education for the province, a position recently vacated by Dr. Pope who held the position for several years.

As to Mr. Robinson's qualifications it may be said he has had a long and uniformly successful experience as a teacher. As far back as 1881 he won the Lorne medal for teaching in the Fredericton, N.B., normal school, and later, while an undergraduate in attendance at Dalhousie college, he won several scholarships, including the $800 exhibition and the governor-general's gold medal, finishing an exceptionally brilliant course with one of the best scholastic records known in the history of his alma mater. Previous to coming to the province Mr. Robinson successively presided as principal over the Upper Sussex and the Cambelltown, N,B., high schools.

A Good Deal.

Another Summit camp property has been taken hold of by a strong syndicate as a few days ago Mr. W.L. Hogg on behalf of the Investment Company of Montreal, bonded the "J. S." claim in the above named camp. The bonding consideration runs into the thousands, therefore the owners J. Jerrold and partner may look for a substantial recompense for the labor and time spent in making their property presentable.

The J. S. is a copper-gold proposition and it is said the vein on the claim is of a big width, surface work showing it to be between 20 and 30 feet. The ore so far taken from the vein carries a good persentage of copper and runs from fairly low grade up to shipping or $45 ore. The vein has been so far exposed for about 300 feet on the surface by crosscuts, and as well a shaft has been sunk to a depth of 50 feet and from this a drift run 40 feet.

Although not definitely stated it is understood the parties holding the bond will start work at once, and as the bond is not given for a long term color is given to this assertion.

The Ruby.

A splendid strike of ore was made in the Ruby claim, situated at Boundary Falls, a few days ago when the crosscut from the 80-foot level penetrated three feet of fine grade ore.

This claim has had a varied experience owing to the fact that until quite recently it was impossible to find the vein in solid formation. Several shafts and drifts have been run all of which carried more or less mineral but as the ore was always mixed with more or less country rock those experting the property knew that the ore body proper was hidden from them. So elusive has this ore body been that parties holding a bond before the present bond was given, allowed their claim to lapse after spending considerable money, and only recently the present holders would have done likewise had not an extention of time been granted them in which to prosecute the work of development. Now that the ore body has been found the owners of the property and the parties holding the bond on it, who are represented by Mr. Alex. Dick of Greenwood, are extremely well pleased and therefore for the future all should go well with the Ruby, which if it does not belie its name should eventually be a gem.

Standing Alone.

Backed by the best wishes of the country east and west, it would seem as if Mr. D. C. Corbin will have to fight the C. P. R. single handed in the coming contest over the Kettle River Valley Railway charter. Last year Mr. Corbin had the support of the Grand Trunk, and even then got turned down, and now judging from some recent expressions in the Toronto World it would seem he is to lose this support. Upon the subject the World a few days ago said:

"The World heard, on what appears to be the best authority yesterday, that the Grand Trunk Railway Company had made a deal recently, whereby the former will remain neutral in the coming fight for the Kettle River charter, on condition that the Canadian Pacific Company offers no opposition to new legislation in regard to the Drummond Counties Railway. It will be remembered that last session the fight for the charter for the Kettle River road in British Columbia was one of the hottest ever put up between the two great Railway corporations before parliament It now looks as if the Kettle River Railway, wanted by Mr. Corbin and his friends, would be thrown down. The great opponent last year was the C. P. R., and the fight was a close one to the finish. The Kettle River Road is a straight competitor with the C. P. R. in the mining district of British Columbia, the intention being that the road tap the American lines to the south of the border.

McAULEY & KEIGHTLEY, Proprietors.

LOCAL AND DISTRICT.

Mr. W. E. Keith of Greenwood, is on the sick list, and his many friends are earnest in their wish for his speedy recovery.

School Inspector Burns spent a day or two in town during the week, and after paying a visit to the public school he proceeded west on his tour of inspection.

Contractor, O. Melville, is engaged in building an addition to Mr. James Atwood's residence. When this addition is completed Mr. Atwood will possess a very fine little house.

Mr. Gordon, the government supervisor of bridge works, is expected here shortly. Mr. Gamble is expected in to make arrangements for the building of the bridge over the west fork of Kettle river.

All are interested in the Corbin charter therefore none should miss the opportunity of signing the petition to the government at Ottawa which is now being circulated in this neighborhood.

Mr. T. E. Crowell one of Vernon's citizens has left with others for the Atlin Lake country. Mr. Crowell is a successful contractor and builder and no doubt the new field at Atlin has attractions for him.

The residents of Camp McKinney have petitioned the government for a resident constable. They should also request a lock-up, as it is sometimes much easier for an officer to keep the peace than to keep a prisoner under certain circumstances.

In consideration of Midway being made a divisional point at least [illegible] to come the Midway [illegible] is said donated to the C. [illegible] foot right-of-way through [illegible] property from east to [illegible] well gave the railroad com- [illegible] welfth unsold lot.

[illegible] Lynch of Camp McKin- [illegible] brought before the local [illegible] on Tuesday last on a charge [illegible] assaulted one Frank Black [illegible] about a week previously. [illegible] the accused pleaded [illegible] was fined $10 and costs [illegible] all to $18.

[illegible] Ketchum, of Greenwood, [illegible] way for the first time on [illegible] last, and while here Mr. [illegible] was lavish in his praise of [illegible] as viewed from a residential [illegible]nt. With the end of the C.P.R. [illegible] here and railways centering at [illegible] Mr. Ketchum could see a [illegible]or Midway.

[illegible] Wood, of Greenwood, re- [illegible] from Penticton on Monday [illegible]r. Wood was out looking after [illegible]ng interests, he having an in- [illegible] a claim which is situated close [illegible]cton, and from which it is ex- [illegible]re will soon be shipped to the [illegible]elters. In fact arrangements [illegible] being made to carry this into [illegible]

[illegible] people of Grand Forks and [illegible] do not soon bury the hatchet, [illegible]cL. Brown the executive head [illegible]P. R will have to be sent for. [illegible]tation and other railway [illegible] disappear as if by magic in the [illegible] of this official, therefore it [illegible] be surprising if his services [illegible]as effective in municipal and [illegible] other entanglements engag- [illegible]tention of the above named [illegible]ties.

[illegible]s. Banburg, of Trail, arrived [illegible]uring the past week, and so [illegible] was he with Midway's ad- [illegible] that he purchased a five [illegible] of land from the Midway [illegible] and as well some lots Upon [illegible] will at once, it is said, erect [illegible]ce, and to show that he means [illegible]nd has come to stay he is [illegible]ged in the cultivation of his [illegible]tract. Mrs. Griffin another [illegible] of Trail, also visited the town [illegible]e week, and before returning [illegible]ested in a five acre block.

[illegible] A. Coryell, P. L. S., an old [illegible]dent of Midway, paid the [illegible] visit on Friday last. Mr. [illegible] just as confident as ever that [illegible]ry under the sum can boast of [illegible] mineral wealth in a given [illegible]hat contained in British Co- [illegible] within that section of the pro- [illegible]unded on the east by the Co- [illegible]iver, on the west by the Fraser [illegible] the north by the C. P. R. and [illegible] south by the International [illegible]y line. In this territory is [illegible]undreds of millions of dollars [illegible]f precious metals and unborn [illegible]ons will not see the store [illegible]xhausted.

[illegible]y welcome visitor arrived at [illegible]VANCE office this week in the [illegible]f a copy of the American, the [illegible]er published at Manila in the [illegible]e Islands. The paper is a [illegible]d the yearly subscription price [illegible] $9. It is printed on a reddish- [illegible]anila paper and the get up indicates that other than Americans are engaged on its production. Sprinkled through its news columns are despatches from some of the leading European centers and these despatches are labeled, republican prohibited. The advertising columns of the paper are very entertaining as some strange expressions are made use of by the advertisers when referring to their wares. As the doner has not disclosed his name it is impossible other than to herein return thanks, and offer the assurance that the American will occupy a commanding position in THE ADVANCE office for the future.

A noted divine was a visitor in Midway on Monday last, and his experience on that day will not be forgotten for some time to come. He came from Grand Forks by way of the mountain road and decided to return to Grand Forks by way of the Kettle river road. Naturally before starting out on a strange road questions were asked and the divine was ably and concisely directed, his instructions embodying the fact that he was not to cross the Kettle river as the road kept on the north side of the river all the way to Grand Forks. With these instructions the wayfarer ambled off on his sleek little nag, but instead of following directions he started on a wrong course and passed through Midway and on to Rock Creek. Being thoroughly imbued with a sense of his surroundings, the traveller all unconscious crossed the river at Ingrims, and being intoxicated with sun flecked morning air he also failed to call for inspiration at the bars of either the Riverside or Rock Creek hotels, and thus innocently he wended his way up the Kettle river valley. On, on he went past the habitations of man and out into the wilderness, and so diligently did he amble along or rather did his nag amble along that the noonday sun found him near the west fork of Kettle river and the evening sun at a point where the wagon road had merged itself into a mountain trail and the trail had run out to a point. Then and only then did the wayfarer realize that broad is the way and straight the road which leadeth to Grand Forks, and as soon as this dawned upon him, he became conscious of this mistake and so turned and wended his weary way back to the point of his departure in the morning, at which point he arrived in a thoroughly exhausted and pitiable condition about the hour of midnight.

Plenty of Work.

Mr. J.P. Graves the vice-president of several of the most important companies operating in the Boundary Creek district, returned to Spokane a few days ago, and made the fact known that as yet the Granby Consolidated Mining and Smelting company had not selected their smelter site in this district.

Referring to the work being done and to be done in the mines in which he is interested he said that the shaft in the Old Ironsides would without cessation of work be carried down to the 300-foot level and that much heavier machinery would be installed so that this mine could be worked to even a greater depth. Sinking on the Knob Hill would also take place as soon as the up-raise now being cut is completed. The Victoria claim too will be developed by a drift which will run from the 200-foot level in the Old Ironsides shaft, this being made possible owing to the fact that the Victoria claim adjoins the Old Ironsides on the east.

More Railroading.

The contract has been let to Mann, Foley Brothers & Larsen for the construction of the branch roads which are designed to tap the several mining camps in this district. These branch lines run in the one instance from Greenwood City to camps Deadwood and Copper, and in the other from Summit camp designated Eholt by the railway people to camps Greenwood and Central. The extension of the road from Midway to Rock Creek has also, so it is said, been let, so that even when the railway reaches Midway, grading will be carried on in the district for some time to come, in fact a C. P. R. official stated a few days ago that for the next two years road building would be carried on in this neighborhood.

This covering the district with a network of railways demonstrates that the C. P. R. Company appreciates the value of being closely in touch with the fountain heads of mineral production in this portion of the province. It means plenty of transportation and that is just what the C. P. R. is after.
