Auxiliary Plans Hospital Dance

Name Committees to Handle Easter Monday Function—To Raffle Lamb and Rooster—Helping Buy Awnings

Creston Hospital Women's Auxiliary had the March meeting in Trinity United Church hall on Tuesday afternoon, with the president, Mrs. R. Stevens in the chair. 26 members were present.

The buying committee reported that five chairs and three swing tables had been purchased and linoleum ordered for the operating room and two bathrooms. Mrs. Cherrington and Mrs. Hayes were named the visiting committee for March April.

Axel Anderson gave material for the new lift; Mrs. H. H. Wilks and Mrs. Archibald donated a screen. Other donations included towels from Mrs. Hare, four cushions; pillow cases from Mrs. G. Johnson, and china from Mrs. M. Young, Mrs Haskins, Mrs Hayes and Mrs. Goodwin. C. H. Hare donated lumber for a bookcase and Mr. Roebuck is donating the labor in making it; the auxiliary providing the glass for the doors.

Mrs Hare, representative on the hospital board, reported on the March meeting and brought a request to provide two of the awnings which will soon be required at the hospital. On motion it was agreed to stand the expense of the two awnings.

For the Easter Monday dance the following committees were named: Decorations, Miss Irene LaBelle, Mrs. Levirs, and Mrs. F. Staples. Supper, Mrs. Maxwell, Mrs. Goodwin, Mrs. E. Johnson, Mrs M. Ross, Mrs. G. Jacks, and Mrs. T. Dickson. Mrs. Jas Cook undertook to have the sandwiches made at her home.

The raffle of the Persian lamb, donated by F. K. Smith, and a Rhode Island Red rooster, donated by Mrs. M. Young, will be drawn for at the dance. It was agreed that a book should take place at the April meeting of the auxiliary, and it is expected each member will bring a book.

A serviette ring, given by the auxiliary for the first baby born in the new hospital, was presented to Mrs G. R. John for her daughter Carol. The tea hostesses were Mrs. D. Learmonth, Mrs. Mallandaine, Mrs Levirs and Miss Irene LaBelle. The freewill offering was $3 10

Kitchener

L. Simpson left on Tuesday for Fort Steele, where he has located a job.

Miss Jessie White, principal of Kitchener school, was a weekend visitor at Erickson.

Mrs. A. Bowness returned on Sunday from Cranbrook, where she has spent the past three weeks.

C. Senesael and A. Lepage, who are working at Fort Steele, spent the weekend at their homes here.

Sid Abar returned on Saturday from New Lake, to which point he recently took Cranbrook Sash & Door Company horses.

M. Senesael and Sam Littlejohn left on Monday for New Lake, where they will be employed by the Sash & Door Company.

C. H. Robinson, fishery inspector, Nelson, was here on Tuesday and put 30,000 eastern brook trout eyed eggs in Meadow Creek.

A large number from here were at the dance at Yahk, given by the Catholic Women's Auxiliary on Friday, March 16th. Kitchener orchestra, consisting of Mrs. Blair, piano, G. Priest, violin, and Dennis Bush, banjo, supplied music.

Jack Gleason, who has been a patient at Cranbrook hospital, for the past two weeks, returned on Monday, much improved in health.

Mr. and Mrs. D. Putnam and son, Frank of Ericksoe, and W. R. Cranna of Creston, were weekend guests of Mr. and Mrs. C. Senesael.

The Ladies' Hospital Auxiliary had the March meeting on Wednesday last, when it was decided to have a bridge on March 28th, with an admission of 25 cents. It is hoped the roads will be improved so people from other centres can attend.

AFTERNOON TEA

EVERYBODY WELCOME!

Canyon City

The road grader was over the highways in this locality at the end of the week, and travel is greatly improved.

Canyon Dramatic and Glee Club are to make their first appearance in the near future with the presentation of a play.

Mr. and Mrs. Arvid Samuelson are occupying the Martin Nelson place at the corner, which was recently vacated Mr. and Mrs. Sid. Parker.

Mrs. Willoughby, who has been on the Petosky place for some time past, has purchased land at Arrow Creeek from Mike Seagrave, and has moved onto her new property.

N. Hoglund in company with John Tompkins have taken a contract to take out pine at the Skimmerhorn for C. O. Rodgers, and will truck the logs to the mill at Creston.

Notwithstanding bad travel and bad weather conditions, so far Rev. A. Walker has not missed a Sunday afternoon service at the United Church. A shovel has been given transportation steadily for some weeks.

Sirdar

C. O. Rodgers of Creston was here on a visit to his logging camp.

A. Spence of Boswell was a visitor in town, making the trip by bicycle.

W. H. Cartwright, game warden, was here during the week on a business visit.

J. P. MacDonald, forester, Creston, was here during the week, and also at Twin Bays.

James S. Wilson left for Cranbrook and Kimberley the end of the week on a business trip.

H. Graham took one of the Rogers teams to Creston, bringing back another team in its place.

The Rodgers supply truck of Creston was at Boulder Creek with supplies for the camp there.

R. Stewart, who, with Mrs Stewart, have been spending some days at the coast, have returned.

The Greyhound stage from Nelson resumed its run to Creston on Wednesday, after a layoff of about a week.

C. Lombardo, who has been at St. Eugene hospital, Cranbrook, the past week, arrived home at the end of the week.

Quite an epidemic of sore throats and severe colds is experienced in this district, thought to be the result of the mild winter.

The water at Slough bridge stands at 2.48 a rise of .23 for the week. It should be noted that this is the beginning of the seasonal rise in water.

Miss Ruth Cooper of Trail arrived at the middle of the week to spend the next week or two the guest of her brother-in-law and sister, Mr. and Mrs. James Pascuzzo.

Canadian Smelters Limited, are erecting a residence for the use of the ground superintendent, Mr. Hamblic. It is expected to have the house finished by the middle of next month.

The steamer Moyie in tow of a barge, having the pile driver and bridge crew on board, passed under the new bridge at Kootenay Landing. Piles will be driven for anchoring the driftwood boom.

A. L. Palmer, road superintendent, made a survey of road conditions between Creston and Boswell. Two graders are at work over that area and the roads are coming into surprising good condition.

A C.P.R. rock crew is engaged blasting odd rocks alongside of the railway track around the lake, with a lineman accompanying them to fix up any wires that may be damaged during blasting operations.

Among those attending the Women's Institute dance at Wynndel Friday were: Mr. and Mrs. J. Pascuzzo, Miss Ruth Cooper, Miss Gwen Wilson, G. Everall, S. Rogers, C. Wilson, F. Hamilton, and A. Lombardo.

Institute Bulb Show, April 28

March Meeting Completes List of Awards for School Fair—See Rose Tree Budded—Get Information Mothers' Pensions

March meeting of Creston and District Women's Institute was held at the home of Mrs. R. Stevens on Friday afternoon. Reporting for the committee on legislation Mrs Mallandaine stated she had written F. Putnam, M.P.P., for information concerning Mother's Pensions for unmarried mothers, and the reply from the deputy provincial secretary stated very few of such mothers were in receipt of pensions.

The hospital committee reported taking a pair of new wool blankets for the Institute ward. Three sets of covers, donated by Mrs. Jas. Cook, had also been taken to the ward.

A list of proposed awards at the school fair was accepted by the meeting. This list has several new classes which should much improve the exhibition. Special prizes are being offered in two of these additional classes.

It was decided to await a decision regarding the usual agricultural association fall fair before setting a date for the school fair. The date for the annual bulb show and tea was set for April 28th. Full arrangements are to be made later.

L. C. McFarland, who had very thoughtfully paid for the electric plug in the Institute ward at the new hospital, was accorded a hearty vote of thanks for his very practical help.

A demonstration on budding a rose tree was given by Mrs. M. Young, and was much appreciated by all present. The April meeting will be at the home of Mrs. Maxwell.

After the meeting a plant donated by Mrs. Jas. Cook was raffled and one dollar was realized on the venture. A new member responded to roll call. The tea hostesses were Mrs. M. Young and Mrs. Hayes.

Erickson

Miss Agnes Sinclair of Lister was a weekend visitor with Mr. and Mrs. E Cartwright.

Mrs. L. Leveque of Medicine Hat, Albertr, who has been visiting with Mr. and Mrs L. T. Leveque, returned home last week.

Dong Woo arrived from Cranbrook at the end of the week, and will be associated with Dong Foo on the latter's market garden here.

H. Brown, who has been employed during the winter by Connell Motors, has left to take a position with the North Star Oil Company at Cranbrook.

Mr. and Mrs. Bale of Saskatchewn arrived at the end of the week. They are occupying the H. Clements ranch, which was recently sold to Mr. Murer of Calgary, Alberta.

A number of the neighbors of Mr. and Mrs. J. M. Craigie treated them to a real surprise party on Wednesday evening last, on the occasion of the former's birthday. Bridge and whist were the features of an evening that was thoroughly enjoyed, with a dainty lunch to close proceedings. Those present were Mr. and Mrs. H. A Dodd, Mr. and Mrs. E. A. Penson, Mr. and Mrs. J. G. Connell, Mr. and Mrs Palfreyman, Mr and Mrs. G. Hobden, Miss Cotterill, Mrs. McKelvey, Messrs. W. L. Heric, P. R. Truscott, E. Cuming and Gerald and Eric Craigie.

Mrs. Harry Clements is visiting friends in Creston and Alice Siding this week. Mr. and Mrs. Clements are leaving for England in April.

According to the last B.C. Gazette, E. E. Cartwright, T. W. Bundy and Frank Staples have been named commissionesr at Erickson for registering voters.

E. J. Werre is now in charge of the mechanical department at the Connell Motors. He comes well recommended as a mechanic, and was formerly employed at Gull Lake, Sask.

Wynndel

Birth—March 18th, to Mr. and Mrs. Popovitch, a son.

At last week's K.K. Klub meeting the monthly bridge prizes were captured by Mrs. E. Uui and W. J Cooper. Consolation, Mrs. A. F. Rudd and Ad. Hagen. Music for dance was supplied by R. Walde, voluntarily assisted by Messrs. Goplin, drums; A. B. Ness, piano; T. Lacey, saxaphone. This week's club meeting will feature military whist and a dance.

The Women's Institute dance on Friday night was quite a success. Music was by R. Walde's orchestra. The prize for elimination waltz went to Mrs W. Cooper and L. Lachat. Spot dance prize to Mrs Doug. Butterfield and F Hagen. Winners of oldtime waltz were Mrs. M. Hagen and John Wigen. The judges were Mr. and Mrs. A. F. Rudd, assisted by T. Dunseath and C. Moore.

A fine feature of last Wednesday's K. K. Klub meeting was the exhibition basketball game between Pharmacy and the Creston Review. The game was fast and very closely contested. The teams were: Pharmacy—Mary Abbott 8, Nell Payne 8, Madeline Moore 4, Elizabeth Armitage 2, Marjorie Learmonth, Opal LaBelle. Creston Review—Mrs. Martel'o 10, Mrs. Levirs 6, Marion McDonald 2, Nora Payne 2, Ada Lewis and Mrs. R. B. McKay.

Lister Items

Miss Norah Miller is a visitor for a few days with Miss Agnes Johnson, at Canyon.

Miss Florence Schmidt left on Saturday for Kimberley, where she has secured a position.

Miss Minnie Downes of Creston spent a few days here last week a guest of Mr. and Mrs. I. Willis.

I. Willis is the latest to purchase in the Lakeview district. He has just purchased 20 acres there.

Sandy Taylor left at the first of the week for Erickson, where he will again be in charge at the L. T. Leveque ranch.

The grader has been over the roads in this section and travel is again in good shape. The bus from Nelson resumed its trips at the end of the week.

Lister

Birth—On March 16th, to Mr. and Mrs. K. Demchuk, a son.

Miss Jean Donaldson was a visitor at Creston at the weekend, a guest of Miss Doris Beninger.

Miss Agnes Sinclair was a weekend visitor at Erickson, a guest of Mrs. E. E. Cartwright.

The grader has been over the roads this week and the travelling is much improved. The work was in charge of T. Kirk and R. S. Bevan.

Some of the Lister people were at the Grand on Saturday night for "Paddy the Next Best Thing" and report it one of the best films of the season.

After having Bert Dent with team and democrat on the mail haul for two weeks, John Lloyd is again on the job with his car, commencing Tuesday.

The Community Society are to have a dance at the schoolhouse tonight, with an admission of 25 cents, and the music by the Demchuk orchestra.

R. V. Willcox, of Salmon Arm, the R.O.P. poultry inspector for the federal department of agriculture, made an inspection of the Fred Powers poultry farm one day last week.

Harry Helme was a business visitor to La France Creek, near Boswell on Monday, delivering a truckload of baled alfalfa. He was accompanied by Fred Powers who came home with a milch cow, which he purchased from Mr. Walls.

Due counter attractions the attendance at the Community Society bridge on Saturday night was rather slimly attended. The high score prizes were captured by Mr. and Mrs. Chas. Hucroft. Mr. and Mrs. A. W. Sinclair were in charge and a fine lunch was served.

March Meeting Board of Trade

Four New Members Enrolled—Endorse Amended Highway Resolution—Approve Move to Aid Hospital Financing.

Although President W. L. Bell had the support of thirteen members of Creston board of trade at the March meeting on Tuesday night, proceedings throughout were conducted without misadventure confined largely to routine business.

The committee on membership had been active the previous weeks and as a result of their effort A. S. Reed, T. R. Wilson, H. H. Wilks and W. Donaldson were elected to membership. A feature to members ip was the passing of a resolution exempting the secretary from payment of the annual membership fee.

A resolution from Nelson Board of Trade—a copy of one they had sent the minister of public works—was given endorsation with certain additions. What the resolution asks for is the construction of a double track gravel roadbed from the Alberta boundary to Vancouver. It was set forth work for the unemployed would have to be provided and this was one way to keep them busy. The additions to the resolutions will be sent on to F. Putnam, M.P.P.

There was a very practical letter from Cranbrook board of trade notifying that they had endorsed Creston's resolution urging the indian department to team up with Creston Reclamation Company and at once get on with dyking, and had so notified the authorities at Ottawa.

For the committee on agriculture W. McL. Cooper reported on a recent visit to Creston of a well known coast cannery man, who advised he still had his eye on Creston but that a cannery here was entirely out of the question until some of the flats acreage was available, caiefly for canning peas, as well as other vegetables.

Jas. Cook reported for the municipal and hospital committee, and F. V. Staple for highways, the latter advising that the coverage of equipment department to roads could not be made as fast as desired.

Chas. Murrell submitted a resolution in connection with hospital financing, which was discussed and was referred to a committee as Messrs. Murrell, F. H. Jackson, G. Constable and Jas. Cock who, on completing their labors will present a report to the executive, and the completed recommendation will go on to F Putnam, M.P.P., for presentation to the proper authorities at Victoria.

Hospital Board Meets

There was a good attendance at the March meeting of the board of directors of Creston Valley Hospital Association on Wednesday evening. President F. V. Staples was in charge. Mr. Staples spoke of the need of awnings on the south and west fronts of the building, and also announced that the building fund debt clearance drive had netted $680 to date. The secretary reported sligh falling off in hospital days from 181 in January to 164 in February. Collections were also less but the A. C. MacDonald claim against the Workmen's Compensation Board, which has been hanging fire since February, 1931, has at last been settled through the time intervention of the local member, Frank Putnam, M.P.P. Amongst other improvemeuts to the hospital in February eavetroughing along north side, further drainage on the south side, a dumb waiter from basement to first floor, and the painting of the operating room. The thanks of the board were accorded the ollowing for services and gifts last month: W J. Avery, Axel Anderson, R. S Bevan, T. Brennan, M. J. Boyd, W. J. Craig, C. F. Hayes, Mr. Roebuck and Mrs. Brixa.

Wheat Control Legislation

With the introduction of legislation in the House of Commons at Ottawa, and simultaneously in the legislatures of the three prairie provinces, whereby power is to be taken by the several governments to control the marketing of wheat, a complete reversal in the policy which has hitherto been one of the outstanding features of Canada's development will become effective. Time alone will reveal whether the policy now being adopted is wise or not, but unquestionably the several governments concerned are convinced that it is a necessary step to take at this particular period in our national and economic history.

From the earliest days of the opening of Western Canada to settlement, and following the construction of our first transcontinental railway, it has been the aim of all governments at Ottawa not only to encourage settlement, but through the provision of all necessary services to promote the production of the greatest possible volume of wheat. In the development of these policies the Federal government has been assisted and its efforts supplemented by the Provincial governments in the West. Production was encouraged in all possible ways and by every practicable means. A never ceasing battle against weeds, insect pests, rust, losses from hail, has been waged; new varieties of early ripening grain have been developed in order to increase the area capable of wheat production; the use of good clean seed has been stressed; the credit of the Dominion and the provinces has been utilized to make Western Canada a great wheat producing country.

Under the legislation now before parliament and the legislatures, governments are to take control of wheat sales and marketing in order to restrict the volume of such sales, and to apportion among the farmers the amount each will be permitted to sell in the coming crop year, while the Federal authorities will control the volume of sales and deliveries outside the provinces.

"Control of Marketing of Wheat Acts" of a uniform character submitted to the legislatures of Manitoba, Saskatchewan and Alberta provide for control by license or otherwise of the quantity of wheat which each owner or occupant of land may sell during the crop year 1934-35. This legislation also provides that any wheat sold in the provinces shall be sold and delivered in accordance with the regulations made by the Provincial Boards; allows an interprovincial board to take possession and sell wheat stored anywhere in the province; provides power to enter into contracts or agreements of any kind with respect to the purchase, sale, handling, transportation, storage and insurance of wheat and to determine what constitutes delivery or possession.

In a word, the provinces take absolute control over the marketing, purchase and sale, and the handling and transportation of all wheat within their respective provinces, while the Dominion takes control of the sale and deliveries of wheat outside the provinces whether within Canada or to other countries.

This, in substance, is the manner in which it is proposed to implement Canada's undertaking in the International Wheat Agreement negotiated at London last year, rather than to attempt to enforce a definite per centage reduction in the acreage sown to wheat and which might, or might not, depending upon climatic and other conditions, result in a lowered wheat production.

Unquestionably the administration of this new legislation will be difficult. It will call for great tact and discrimination if almost universal criticism of and opposition to it is not to develop. Consideration must be given to those thousands of wheat farmers in the drought stricken areas of the West who have not enjoyed normal crops for several years and many of whom have had no crops at all. If crop conditions are favorable this season they must be allowed full opportunity to rehabilitate themselves. The needs of a farmer with a large family of young children are necessarily greater than those of a farmer having no family, or whose children are now of adult age and can care for themselves. In fact, a hundred and one varying circumstances will arise demanding consideration. Hence, the task of issuing individual licenses fixing the quantity of wheat which each farmer may sell will be a task in itself.

The new legislation is to be effective for one year only, although, of course, it may come up for review prior to its expiration. In view of present world conditions this restrictive legislation may be necessary; governments at all event appear to be convinced that it is necessary. Therefore, despite the many conflicting views which prevail, it would appear to be best that people generally should not only agree to give it a fair trial, but that they should do what lies in their power to make the proposed system operate as efficiently and with as little friction as possible. Let us see what it can accomplish for our farmer producers in the crop year 1934-35.

Canada's New Flour Markets

Four new markets were gained by Canadian flour in 1933—France, Portugal, Salvador and Alaska. In 1933 Canadian flour was shipped to 79 external markets in all compared with 75 markets in 1932. The British Empire took 4,318,859 barrels of Canadian wheat flour in 1933 compared with 1,251,565 barrels taken by non-Empire countries.

Map Built Of Concrete

Possibly the largest relief map in the world exists in Nova Scotia. On the boundary of the two provinces of Nova Scotia and New Brunswick a relief map of Nova Scotia was erected three years ago, and measures 150 feet long and 60 feet high. This relief map is built of concrete, is in generous colors and is illuminated at night by flood lights.

Smothering Sensations
Faint and Dizzy Spells
MILBURN'S HEALTH AND NERVE PILLS
Those feelings of faintness; those dizzy spells; those all-gone smothering, sinking sensations which come over people, from time to time, are warnings that should not go unheeded. They indicate an extremely weakened condition of the nerves and other vital organs, and should be given immediate attention.
Those suffering in this way will find in Milburn's H. and N. Pills a remedy with which to recuperate their health, build up their run down system, and bring back their bodily vigor.
Ask your druggist for Milburn's H. & N. Pills.

Alberta Telephones

Zoning Plan To Deal With Rural Lines Is Proposed

Adoption of a zoning plan in dealing with the rural telephone lines so that sections would be kept in operation for social service or other purposes, was recommended to the Alberta legislature by Premier Brownlee when speaking on the Duggan resolution demanding an inquiry by a house committee into the problems of this public utility, said to have an accrued loss of $10,000,000.

The premier also announced that the government has already taken steps to select a competent engineer to make a survey of the department with a view to supplying a house committee with required information.

EXCESS FAT DUE TO RHEUMATISM
One Remedy For The Two Troubles
Having rheumatism so badly that she could scarcely walk, this woman began to put on a load of superfluous flesh. In a letter just received, she writes:—
"I had a severe attack of rheumatism in both knees. It was so bad that for three weeks I could not put my feet to the ground. I was also getting terribly fat—through not getting my usual exercise. I started taking Kruschen, and persevered. The first thing I noticed was the tonic effect it had; the next that my rheumatism went, and—better than anything—I lost the wretched fat. I am a woman of 50, and when I tell you I do exactly the same work as women half my age without the least difficulty, I think you will understand why I swear by Kruschen Salts and recommend them wherever I go."—M. E.
The six salts of Kruschen assist the internal organs to throw off each day the wastage and poisons that encumber the system. Then, little by little, that ugly fat goes—slowly, yes—but surely. The rheumatism and headaches disappear. You feel wonderfully healthy, youthful and energetic—more so than ever before in your life.
FREE TRIAL OFFER
If you have never tried Kruschen—try it now at our expense. We have distributed a great many special "GIANT" packages which make it easy for you to prove our claims for yourself. Ask your druggist for the new "GIANT" 75c. package.
This consists of our regular 75c. bottle together with a separate trial bottle—sufficient for about one week. Open the trial bottle first, put it to the test, and then, if not entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take it back. Your druggist is authorised to return your 75c. immediately and without question. You have tried Kruschen free, at our expense. What could be fairer? Manufactured by E. Griffiths Hughes, Ltd., Manchester, Eng. (Estab. 1756). Importers: McGillivray Bros., Ltd., Toronto.

Russia's Grain Supply

Government Starts Campaign To Avoid Famine In Future

The Soviet government has instituted a campaign to assure Soviet Russia adequate grain supplies this year and avoid future threats of famine. Both party and government officials throughout the union have been ordered carefully to select grain seeds and test for germination before planting. In the past, poor seed has been blamed for huge crop failures, resulting in famine threats in areas where the farmers should be able to produce plenty.

Jumpy Nerves
Yield to the soothing action of this medicine. You will eat better . . . sleep better . . . feel better . . . look better. Life will seem worth living again. Don't delay any longer. Begin taking it today.
LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Put Bootleggers To Work

So many bootleggers have been arrested in Finland as the result of new legislation that special barracks for some of them have been built in the Sukeva district of central Finland. It will hold 200. The sentenced bootleggers are to be employed in reclaiming marshy and rocky land. The Finnish government recently issued statistics showing that 120,000 gallons of contraband liquor had been seized in the first 11 months of 1933.

Little Journeys In Science

CARBON DIOXIDE

(By Gordon H. Guest, M.A.)

Carbon dioxide is the gas produced whenever carbon or any of the common fuels, all of which contain carbon, burn in oxygen or air. It is also formed in certain processes such as fermentation and the decay of organic matter. Large quantities also escape from volcanoes and crevices in the earth. It is present in the open air to the extent of about three parts in 10,000. This relatively small amount is essential to the life of all plants and hence it indirectly serves to supply us with our food.

One of the essentials of the life process in animals is the slow combination of the oxygen, taken in by the lungs, with the food which has been consumed. This reaction liberates the heat which keeps the body warm. The products of this body combustion, carbon dioxide and water vapor, are exhaled with each breath.

At first thought it would seem that the constant production of this great amount of carbon dioxide must fill the atmosphere with the gas. The fact is, however, that when pure air in the country is analyzed, it is never found to contain more than three or four parts in 10,000. This is because most plants reverse the process which takes place in animals; they take carbon dioxide from the air and give off oxygen.

Carbon dioxide is without color or odor and is about 1.5 times as heavy as air. At ordinary temperatures one volume of water dissolves about one volume of gas but under pressure much more will dissolve, a property used in preparing effervescing soft drinks.

It is well known that carbon dioxide escapes through openings in the earth's crust. In a cave near Naples, enough carbon dioxide issues from the cracks in its floor to form a layer from two to three feet deep along the bottom. If a man and a small dog walk through the cave, while the dog quickly becomes unconscious, and soon dies if not rescued, the man, whose head is well above the layer of poisonous gas, feels no bad effects. This cave, because of its fatal effect on dogs, is called Grotta del Cane, which means the "cave of the dog".

New Motto For Legion

Legacy From Former Corps Commander, Sir Arthur Currie

Terming it a legacy to the organization from the former corps commander, Sir Arthur Currie, the Dominion executive council of the Canadian Legion, at its opening session at Ottawa, adopted as its motto seven words from the last message of Sir Arthur, one which he prepared for the Remembrance Day observance in Toronto last November. The Legion's new motto, which will appear on all official stationery, and will also be used on memorial occasions, is "They served till death; why not we?"

The council also adopted a new empire trade slogan for the Legion, adopting the phrase which is now in use by the Australian Returned Soldiers' League, "Wherever you trade, buy empire made." A special design, embodying this slogan, with the Union Jack and the Canadian Legion crest, will be created, to be used as a means of promoting empire trade.

Pecan Nut Loaf

2 tablespoons Crown Brand Corn Syrup
1 cup milk
1 pound dates
2 cups white sugar
1 teaspoon Mazola
2 cups pecan meats
Powdered sugar

Cook the syrup, sugar, Mazola and milk to the soft ball stage or 240 degrees on the thermometer. It is best to use a deep skillet or saucepan, as the mixture boils high.

Add the stoned dates and stir until they are well mashed.

Stir in the nuts, slightly more or less than the given quantity, remove from fire and beat until stiff. Place in wet napkin and roll into shape. When cold, slice and roll in powdered sugar.

There are 380,000,000 spinsters in the world—6,000,000 in Britain, 8,000,000 in France, 11,000,000 in the United States, and 16,000,000 in Germany.

MINARD'S "KING OF PAIN" LINIMENT

GRANTING TITLES IS APPROVED BY VOTE IN HOUSE

Ottawa. — With three members jumping party lines, the House of Commons placed its approval on titles for Canadians.

By a vote of 113 to 94, Conservatives defeated a motion to restrain the prime minister from making further recommendations to the king for titles and honors.

Lining up with the Liberals, Progressives and United Farmers in support of the non-titles motion, sponsored by Humphrey Mitchell, Labor member for East Hamilton, were two Ontario Conservatives, George Spotton, North Huron, and I. D. Cotnam, North Renfrew. On the other hand Sir Eugene Fiset, Liberal, Rimouski, former deputy minister of national defence, joined the government forces.

In the biggest vote of the session, with pairs unrecognized, the government had one of the smallest, if not the smallest majority since it came into office in 1930. Conservatives have a working majority of 30 over all parties in the house, with one vacancy.

Premier R. B. Bennett defended titles on the ground they were recognition by the state of public services rendered to the country or humanity. Rt. Hon. Mackenzie King, leader of the Liberals, said Canadians generally opposed titles because they established class distinctions that were foreign to a democratic state.

Emergency Wheat Control

Manitoba Legislature Introduces Measure To Implement London Agreement

Winnipeg.—Legislation to implement the London wheat agreement was introduced in the Manitoba legislature by Premier John Bracken. The measure is identical in essentials to similar legislation brought down in Alberta and Saskatchewan assemblies.

The bill provides for the setting up of emergency wheat control boards with power to license or regulate the sale and purchase of wheat during the crop year August 1 to July 31, 1935.

Immediately following the premier's address, his motion for the bill was approved, the measure received first reading.

Start Daring Journey

Mountaineers Plan To Cross Coast Range On Skis

Williams Lake, B.C.—Headed by two well known English Alpinists, Sir Norman J. Watson and Wing Commander E. B. Beauman, a party of daring mountaineers left here March 13 for Tatla lake, from where they will trek into the wilderness in an attempt to cross the towering coast range on skis.

The men arrived here from Vancouver by train. They planned to travel by auto truck to Tatla lake and they expected the 160-mile journey would occupy at least two days. The skiers were equipped to clear the snow-bound roads to permit passage on the trucks.

Travelling Medical Clinic

Winnipeg. — Travelling medical clinics to treat children in unorganized territory of Manitoba are to be initiated this year in co-operation with the work of the public health nurses, Hon. R. A. Hoey, minister of health, told the Manitoba legislature in discussing appropriation for the department of health and public welfare.

Asks Protection For Growers

Victoria.—G. H. Chataway, on behalf of the Ashcroft Ranchers' Association, charged that "dumping" of low grade Alberta beef in British Columbia had depressed the prices of B. C. beef below the figures profitable to the growers. Mr. Chataway proposed a tax of five cents a pound on all beef, mutton, pork, veal and lamb not raised in British Columbia.

Four-Point Arms Plan

France To Make Proposal On Disarmament Question

Paris.—France will propose a four-point arms convention in reply to the recent British disarmament plan.

A note now being drafted by the foreign affairs committee, it was learned on reliable authority, will accept an arms treaty, providing that:

First, German storm troopers are included in any count of the reich's soldiers.

Second, France will not be asked to disarm immediately if the reich is granted the right to re-arm.

Third, serious guarantees will be given that the convention be carried out faithfully.

Fourth, that the convention be concluded shortly because many countries are already speedily rearming.

Failing in these reservations, the note hints, it was said, that France will be unable to budge unless Great Britain offers to come to the aid of France in case of attack.

The stubborn Franco-German impasse meanwhile, was not changed by Chancellor Hitlers' reply to the latest French note.

French officials said the German leader had "changed nothing" in the situation.

The chamber of deputies foreign affairs committee told Premier Doumergue that the forthcoming note must leave the door open for disarmament.

Rescue U.S. Seamen

British Vessel Succeeds In Saving Lives Of Men Aboard Gunboat Fulton

Hong Kong, China.—The 187 men aboard the United States gunboat Fulton when flames enveloped her during a heavy storm were brought safely to this port.

Three of the crew were injured. One suffered smoke in the lungs, another had a broken arm, and the third a broken leg. Their names were not available. The Fulton was on patrol duty against pirates.

Their rescue by H.M.S. Wishart and the British steamer Tsinan, was an example of wonderful seamanship, the survivors related.

Commander Todd of the Wishart brought his craft alongside the ill-fated ship at great risk in a heavy sea.

The mishap occurred about 50 miles northeast of Hong Kong, while the Fulton was en route to Foochow, China.

The Fulton was abandoned at 10 p.m., still burning furiously.

No Grant Sought

Ottawa.—A grant of $4,500 to the United Maritime Fishermen voted in the House of Commons brought sharp criticism from A. W. Neill (Ind., Comox-Alberni) who wanted to know why no such grant was paid to any of the British Columbia fishermen's organizations. The reply from Hon. Alfred Duranleau, acting minister of fisheries, was that no Pacific coast organization had sought such a grant.

Work For School Graduates

Moose Jaw.—A resolution by the collegiate board of the city of Edmonton, asking the government to institute a system of public works for graduating high school students, was endorsed by the collegiate board. The board also decided to ask teachers and students for ideas as to what class of works might be undertaken for the benefit of the youth of the city.

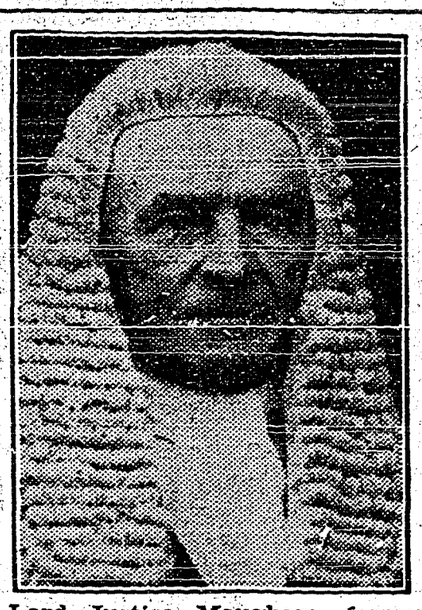
Race Meetings Legislation

Ottawa.—An amendment to the criminal code which would permit race meetings to be held for 14 days consecutively, on such days as racing is legal, instead of having, as at present, at least 20 days intervening between each seven-day period, was given first reading in the house of commons.

Will Stand By Pledges

Victoria.—"This government will not hesitate to be responsible for everything it does and for everything it has pledged itself to, including 'work and wages'," declared Premier T. D. Pattullo in the British Columbia legislature.

NEW APPOINTMENT



Lord Justice Maugham, formerly Hon. Mr. Justice Maugham of the Chancery Division, who succeeds Lord Justice Lawrence, retired, as the new Lord Justice in the British Law Courts.

St. Lawrence Route

Senator Asks For Information Regarding Navigation Conditions And Costs

Ottawa.—Detailed information of a most detailed character respecting navigation conditions, grain rates, elevator services, dredging, ice-breaking facilities and navigation aids, from the head of the lakes to the sea, will be sought from the government by means of an order for return to the senate, by Hon. Archibald Gillis, Saskatchewan.

In notice of motion, Senator Gillis asks for information with respect to the indebtedness of harbor commissions and details of their financial condition, the number and status of grain elevators from the head of the lakes to and including Quebec, dredging costs and details from Montreal to the Gulf of St. Lawrence, the number and cost of ice-breakers operating from the head of the lakes to Sydney, N.S., details of all casulties and fatalities on the St. Lawrence during the fiscal year 1933-34, the value and operating costs of St. Lawrence river navigation aids in the last 10 years, and wheat freight rates from various points in the prairie provinces in 1933.

Wheat Exports Down

Marked Decrease Shown For Week Ending March 9

Ottawa. — Export clearness of wheat from Canada for the week ending March 9 totalled 1,910,000 bushels, it was stated in a report issued by the Dominion bureau of statistics. Shipments revealed a decrease of more than 1,500,000 bushels when compared with 3,563,633 bushels exported the previous week and a drop of more than 1,000,000 bushels compared with 3,104,411 bushels during the corresponding week of last year.

British-American Trade

New Move Is Made To Increase Business Between The Two Countries

London.—Richard Washburn Child, President Roosevelt's newly appointed "European trade ambassador," will be received cordially in highest government circles, it was learned here, and commercial interests see in his scheduled visit here a new move to increase British-American business.

Pending the outcome of the conversations he will have here, British trade leaders and American interests believe an immediate increase in commerce between the two countries depends largely on stabilization of foreign exchange and easier methods for the sale of British goods in the United States.

The British government, though uncertain as to the various fields Mr. Child will explore, recognizes that a new trade horizon has been brought into view by President Roosevelt's declarations on tariffs and kindred subjects recently.

There is also an indication that the government here intends to rely more in the future on bi-lateral negotiations with other countries for an upturn in British foreign trade.

Restores Minimum Wage

Thousands Of Employees In Ford Plants Will Benefit

Detroit. — The five-dollar-a-day minimum wage with which Henry Ford startled industry in 1914 has come back. He announced that the $5 minimum had been restored, effective March 13.

Forty-seven thousand of the 70,000 men employed in the Ford company throughout the United States benefitted by the increase. They had been receiving $4 and $4.40 a day and it was estimated, unofficially, that the raise would add approximately $6,000,000 to the Ford company's annual payroll.

East Windsor, Ont.—Restoration of the $5-a-day minimum wage for factory employees in the main plant and branch assembly plants of the Ford Motor Company of Canada, Limited, was announced by Wallace R. Campbell, president.

Not Taking Over Park

Prince Albert.—The province of Saskatchewan has no intention of taking over Prince Albert national park, says a letter from Premier J. T. M. Anderson to the local board of trade. The board recently recommended administration of the park remain with the Dominion government.

Shortage Of Farm Land

Saskatoon.—A shortage of land for settlement by unemployed Saskatoon families was seen here as a steady stream of family heads registered for assistance under the Saskatchewan land settlement scheme. Already 375 families have registered.

BELGIAN RULERS AT SOLEMN TE DEUM

The first photograph of King Leopold III and Queen Astrid of Belgium since their accession to the throne shows the royal couple leaving the Cathedral of Saint Gudule in Brussels after a solemn Te Deum in their honor. Queen Astrid wears mourning in tribute to the memory of the late King Albert.

ST. LAWRENCE PACT REJECTED BY U. S. SENATE

Washington. — The St. Lawrence waterway treaty, negotiated by the governments of ex-president Herbert Hoover and Prime Minister R. B. Bennett in its present form, was a dead issue as far as the United States senate was concerned. Not so at the White House, where even as President Roosevelt admitted the rejection of his request for ratification, he intimated he would reintroduce the measure in some form.

The administration's attitude was expressed as being "as sure as death" a St. Lawrence seaway would be built. Mr. Roosevelt himself expressed apprehension that failure of the senate to ratify would place the canal entirely under Canadian control.

The certainty of a channel capable of carrying ocean going freighters from the head of the great lakes to the Atlantic was echoed by Senator Robert Lafollette, Progressive-Republican of Wisconsin, one of the leading advocates of the treaty in the senate. After defeat of the measure by a vote of 46 for, 42 against, falling 18 short of the necessary two-thirds, Lafollette told newspapermen, "This is just the beginning of the fight."

Senator Lafollette represents the attitude of senators from the lake states other than Illinois, which has a special interest in Lake Michigan and the diversion of water from the lake for use in the Chicago drainage canal.

Representing the Illinois attitude, Senator J. Hamilton Lewis, Democrat, a leader against ratification, said the treaty was defeated because it "violated American rights" and insisted "any proposal to send a new treaty to the senate will be of no avail unless it renounces the claim to Lake Michigan as an international lake and admits the amount of diversion to Chicago is to be determined by congress and the state of Illinois."

With these reservations, he said, the treaty would be approved.

Nudists' Parades

B.C. Member Would Use Drastic Methods To Curb Doukhobors

Victoria.—Release of a hive of hornets, or the use of blacksnake whips by a few hefty provincial policemen would have saved the government thousands of dollars, C. S. Leary (Lib., Kaslo-Slocan), said in the British Columbia legislature, referring to the 1932 Doukhobor nudist parades in southeastern British Columbia. He was speaking in the budget debate.

"Industry in the Kootenay," he said, "is facing a serious situation because of Doukhobor competition. Originally they came into the province to confine themselves to farming and were a self-contained community.

"Now they have gone afield and are in ruthless competition with business men of many years' standing.

"They neither vote, fight nor obey the law. Their standard of living is low and they wish to drag us down to that standard. The time has come when a showdown should be called for. The patience of people in the Kootenays has about reached its limit and the sooner something is done about this unfair competition the sooner we may be in a position to consider codes or other features of an economic recovery plan submitted to the government."

Discussion On Hog Grading

Ottawa.—The advantages of disadvantages to the farmer of hog grading were debated in the agricultural committee of the commons. In every pig market in Canada except Montreal the trading in hogs is done on the basis of the grading by official graders.

More Pay For Teachers

Winnipeg.—With the passing of the Winnipeg school board budget for 1934, teachers to-day were assured of a 10 per cent. salary increase effective next October 1.

If going away for Easter telephone first

If you're going away for Easter, make your arrangements by ong-distance telephone. Important advance information can be exchanged in this way—when you'll arrive, what to bring, who'll meet you, etc.

And if you're planning to visit friends or relatives, a pleasant chat over the wires will add to the joy of the reunion to follow.

C. F. HAYES, Editor and Owner

CRESTON, B.C., FRIDAY, MAR. 23

Local Member Makes a Favorable Impression

Frank Putnam, M.P.P. for Nelson-Creston, has made a most favorable impression on the legislature at Victoria according to press reports of his speech on March 7th in the debate on the time honored speech from the throne. Bruce Hutchinson, in his "Log of the House" in the Vancouver Province says:

"F. Putnam, Nelson-Creston, a tall, quiet-spoken son of the soil, made a first-rate little speech on the things he understands. He wanted the government to see that settlers stop taking up worthless land, and to move some of them from their present holdings to fertile areas, for a real land policy could go a long way towards absorbing the unemployed.

"If the farmers of the country don't get controlled marketing out of this session, Mr. Putnam warned, there will be chaos in the fruit industry. The farmer, he said with an earnestness born of a lifetime on the soil, should be the first man considered, because he was the first and greatest contributor to the nation. Only he left the land better than he found it, while other industries left devastation behind them.

"Mr. Putnam dismissed the theories of professors concerning the depression and didn't believe they knew any more about it than this Legislature. The whole cause of the trouble was very simple—not gold standards, trade balances and monetary fluctuations, but just human greed and selfishness. Until men would follow the Golden Rule, until human nature itself was changed, there would be depressions whether the government was Liberal, Conservative or C.C.F.

"There was something more important than sound money, said Mr. Putnam, and that was sound men, women and children. And, he added, striking out independently, if the Federal Government wouldn't help, the Provincial Government should start public works which it had definitely pledged itself to do in the election. The members of the House couldn't do much but talk and vote—the responsibility rested with the cabinet, he said bluntly."

And the staunch Conservative Victoria Colonist was also impressed. In a condensed report of Mr. Putnam's address the the Colonist says.

"Mr. Putnam stressed road islation of Nelson-Creston from Coast areas, and appealed for a road policy which linked existing settlements first, before turning to external tourist needs. His riding included producing mines, lumbering (at present quiet), and some of the richest orchard lands in the province.

"It would pay the province to move settlers from poor lands, bearing in mind the basic fact that successful farming included two characters, that of the farmer and that of his land.

"With Reno, Yankee Girl and Goodenough mines producing and other properties coming into production, Nelson-Creston desired attention to its mining trails. It was interested also in the price of silver, and would like to see governmental action to stabilize silver prices at around sixty cents per ounce.

More, instead of less, assistance would be required by the hospitals, and restoration of the former rate of seventy-five cents per patient day should be considered.

"British Columbia farmers were expecting marketing legislation at this session, and the Government should expedite action along this line as soon as the Dominion moved with covering laws. Following in the wake of lumbermen, farmers had attended to their duty and had produced food, and could not now be told t at their self-sacrifice was fruitless.

"Mr. Putnam endorsed a programme of work and wages, as and when Federal assistance made this possible. The need of the day was for work for those who work, and for sound and sane men and women ready to apply the golden rule."

CONTRACT OF MEMBERSHIP

This agreement made this.....day of .....in the year of our Lord 19..... between:

....., of ....., hereinafter called the member of the first part:

and

THE UNITED FRUIT PRODUCERS ASSOCIATION of Kelown, B.C., a Society duly incorporated under the Societies Act, revised statutes of B.C. 1924, and amending acts, hereinafter called the Association, of the second part.

WHEREAS the member is a person who grows, owns, has an interest in or controls the disposal of tree fruits, and has found conditions existing in the tree fruit industry in the past detrimental to profitable disposal of his produce; and

Whereas the member recognizes that only through mutual association with other growers can profitable disposal of his produce be secured; and

Whereas such mutual association can be made effective by giving power to the Association to regulate all matters connected with delivering, packing, handling, grading, classifying, inspecting, storing, advertising, selling, and distribution of the products of the member, and the pooling of the proceeds of the sale thereof; and

Whereas the member recognizes that the returns for his products in recent years have resulted in severe financial losses to himself, and that these losses were chiefly due to lack of co ordinated effort on the part of growers; also that the financial position into which many growers have been driven by these losses renders it imperative that immediate action be taken to regulate the disposal of his products.

Now therefore in consideration of the premises and of the mutual covenants and agreements of the parties hereto, each with the other, the parties hereto agree as follows:

(1) Upon the completion of the execution of this contract, the member becomes a member of the Association.

(2) The member agrees that he will be bound by the bylaws of the Association (copy of which he hereby acknowledges to have received and read) and by the orders, rules and regulations from time to time issued in accordance therewith, and hereby authorizes and empowers the Association to make orders, rules and regulations in respect of the preparation for market, marketing or other disposal of his produce as aforesaid.

(3) The member agrees to remain a member of the Association until such time as...e shall serve notice upon the Association of his desire to withdraw from membership. Such notice must be given before the first day of March in any year, and shall not affect the right of the Associanion to regulate, in accordance with the bylaws of the Association, the disposal of the produce of the member grown in the year previous to the date of such notice. Such notice shall be deemed to be properly given if mailed under registered cover, and addressed to the United Fruit Producers Association, Kelowna, B.C., or delivered at the office of the Association and an acknowledgment obtained therewith.

(4) The member agrees that he will not enter into any contract for the preparation for market, marketing or other disposal of his tree fruits except with a person, firm or corporation bound in contractual relationship with the Association. Neither will he dispose of to, or suffer or permit the preparation for market, sale or distribution of his tree fruits by any person not bound by contractual relationship with the Association, except in accordance with the rules and regulations of the Association as from time to time issued. Nothing in this paragraph shall prevent a member handling and or selling his own tree fruits if having entered into contractual relationship with the Association as a shipper from disposing of his products in accordance with the terms of his agreement with the Association, as a shipper.

(5) The member agrees that in the event of his preparing his own tree fruits for market, he will be bound by the bylaws of the Association, and all orders, rules and regulations from time to time issued by, or on behalf of th Association in accordance therewith.

(6) The member agrees that in the event of his selling or otherwise disposing of his tree fruits by himself, or through his servant, agents, or workmen, he will be bound by the bylaws of the Association, and all orders, rules and regulations from time to time issued by, or on behalf of the A sociation in accordance therewith.

(7) The member agrees that in the event of his selling, leasing, or otherwise alienating any parcel of land producing tree fruits he shall make it a condition of sale that the purchaser, lessee, or other transferee, shall be bound by the terms of this agreement.

(8) The member agrees that, in the event of his acquiring any right, title or interest or control over, tree fruits not now under his control, such fruits shall be prepared for market, marketed or otherwise disposed of in accordance with the terms of this agreement.

(9) Recognizing the value to himself, to all other growers, and to the industry as a whole, of the carrying out of the terms of this agreement, the member agrees that damages for any breach of this agreement shall be determined by arbitration, as provided by the bylaws of the Association.

(10) The member covenants and agrees that he will not by any process of law restrain or seek to restrain the Association or the officers thereof in the exercise of their powers, duties or rights.

(11) The member agrees that the officers, servants, or agents of the Association may enter upon his lands and premises at all reasonable times for the purpose of carrying out the orders, rules and regulations of the Association.

(12) The member agrees that, in respect to any existing contract subject to the right of cancellation, he will add thereto a clause, making such contract subject to the terms hereof, and to the orders, rules and regulations of the association as from time to time issued or cancel such contract.

(13) The Association agrees that, through the exercise of the powers, vested in it by this contract, and further contracts entered into or to be entered into, between the Association and other persons, firms or corporations it will act as a controlling agent of the industry, for the purpose of benefitting the member.

(14) The Association agrees that it will endeavour to secure maximum distribution for the tree fruits of the members, and to obtain for them their fair share of the final sale price of their tree fruits.

(15) The Association agrees that it will make every effort within its power to see that the returns to the member for his tree fruits shall represent at least the amount expended in production, and that it recognizes fully the need of the receipt by the member of a sum substantially in excess of the cost of production, if the member is to continue as a producer of fruit.

The Association agrees that it will make every effort to stablish rising markets in connection with such products as lend themselves to such poli y, and wherever such action may be ound to be in the interests of the member.

(17) It is mutually agreed between the parties hereto, that, notwithstanding the execution and delivery of this agreement, the same shall not be binding upon either party hereto, unless and until 90% of the growers having one acre or more in tree fruits from and including Kamloops to Osoyoos and Keremeos, have become members of the Association, except with the written consent of both parties hereto. For the purpose of ascertaining such percentage, the number of growers in such area resident in British Columbia on the list of growers supplied by the Horticultural Branch of the Department of agriculture of B.C. shall be deemed to be 100% of all growers. A written declaration by the Chairman of the Board of Directors shall be deemed to be final and conclusive evidence of the percentage of members obtained.

(17) Wherever the masculine or s ngular is used throughout this agreement, the same shall be construed as meaning the feminine of plural, where the context so requires; and, where the word "person" is used, the same shall be construed as meaning and including any partnership, firm or corporation.

POUND DISTRICT ACT

FORM B
SECTION 5

Whereas notice has been duly given of the intention to conustitute the following district as a pound district under the provisions of Section 3 of the "Pound Distriot Act" viz: All that certain portion or tract of land in the Nelson-Creston Electorol District, in the vicinity of Alice Siding, more particularly described in Notice appearing in the British Columbia Gazette of January 25th, 1934, at pages 101 and 102

And whereas objection to the constitution of such proposed pound district has been received from eight proprietors of land within snch proposed pound district:

Therefore notice is hereby given that the majority of the proprietors of land within the above described district must, within 30 days from the posting and publishing of this notice, forward to the Minister of Agriculture their petition in the form required by Section 5 of the "Pound District Act" or otherwise such proposed pound district will no be constituted.

Dated this 26th day of February, 1934.

K. C. MacDONALD.
Minister of Agriculture.

NOTE—The word "proprietor" in the "Pound District Act" means any holder or occupier of land under whatever tenure, or any superintendent, overseer, servant or other person acting for and on behalf of such holder or occupier.

Farmers and Gardeners say
IT PAYS TO USE

ELEPHANT BRAND

Complete Fertilizers
Ammonium Phosphates
Superphosphates
Ammonium Sulphate

LOW IN COST; INCREASE IN CROP YIELD AND QUALITY HIGH

WE RECOMMEND with confidence a well balanced plant food: Elephant Brand Complete Garden and Orchard Fertilizer, 5-10-5.

This contains nitrogen, phosphate, potash, calcium and sulphur for general use on fruits of all kinds, most garden crops, lawns, alfalfa, clover, corn, tomatoes, pasture, hay.

For potatoes and root crops on light soils use Complete 3-10-8 or 4-10-10.

For fruit trees on heavier soils use Ammonium Phosphate 16-20-0.

For extra nitrogen growth on orchards, lawns, fields and gardens use Elephant Brand Ammonium Sulphate 20%.

A. Comfort has this week leased his ranch at the foot of Fourth street to Mr. and Mrs. Worknut of Saskatchewsn, who get possession at the end of the month. Mr. Comfort has taken a lease on the Lamont place on the K.V. The lease of the Comfort ranch is with option to purchase, and the price stipulated indicates that inside property is not decreasing in price.

After holidaying here for about a month ince their return from a two months' visit at Snohomish, Wash., Mr. and Mrs. E. Wickstrom got away on Monday for Lulu Island, near Vancouver, where they boug t a small place and intend to reside. Their many friends here will wish them good health and trust they will find themselves very much at home in their new surroundings.

Friends of Frank Malone, jr., will be very sorry to hear that he has entirely lost the use of one eye. While at work some days ago at the tin machine at the Rodgers' box factory, a piece of flying steel lodged in his eye. He went immediately to Cranbrook for treatment and from there was sent at once for specialist care at Vancouver, where it was found necessary to remove the one eye in order to save the sight of the other.

Creston is on the air to-night, Friday, at 10 o'clock town time. This is Creston's appearance in the Davenport Hotel's "Northwest on Parade," and comes out from Spokane over station KHQ. In addition to the music there will be a tribute to Creston read by the KHQ announcer and the reply will be by Reeve F. H. Jackson. Good material for both talks has been prepared and listeners-in on KHQ this evening should be numerous.

There was rather a slim turnout at the meeting Wednesday night last, called by the Agricultural Association to discuss a 1934 fall fair. There was some enthusiasm manifest toward reviving the annual exhibition, and E. W. Payne and John Murrell were named a committee to scrutinize the operations of previous fairs and see if it were possible to resume operations this year. They are to repnrt at the annual meeting to bt held Monday night at the town hall.

The Creston Review champion lady basketball team were entertained Tuesday night at the home of Mr. and Mrs. C. F. Hayes, with a full turnout of the players, who had the Centipede men's team as their guests. Bridge was the featur with the high score prizes taken by Mrs. H. Langston and F. Levirs, and consolation honors by Mrs R. McKay and Syd. Rogers. During the evening the Review players presented their coach, Fred Martello, with an appreciated gift, and the Review management remembered each of the lady champions in suitable fashion. A very fine lunch was served to close proceedings.

SUNDAY SCHOOL LESSON

MARCH 25

CONFESSING AND FOLLOWING CHRIST

Golden Text: "Thou are the Christ, the Son of the living God." Matthew 16:16.

Lesson: Matthew 16:13—17:27.

Devotional Reading: Isaiah 53:7-12.

.. Explanations And Comments ..

Popular Opinions about Jesus, 16: 13, 14. Jesus and his disciples had journeyed almost to Caesarea Philippi when he suddenly turned to them and asked, "Who do men say that the Son of man is?"

"Some say John the Baptist." So Herod had said, Mt. 114:2. "Was he so much like John as to revive John's memory?—John, with his defiance of unworthy convention, with his proneness to call a spade a spade, and with his stern and fearful talk of the axe and the fan and the flame. Is there anything of John the Baptist in our portrait of the Christ?" (J. H. Jowett).

"Some say Elijah; and others, Jeremiah, or one of the prophets." In calling Jesus one of the prophets they gave him high tribute, for the prophets were the greatest men their nation had ever seen. Elijah and Jeremiah were very unlike. Elijah was a bold, fearless leader whose spirit blazed against those who halted between two opinions; Jeremiah, "not less courageous certainly in the end of the day than Elijah—nay, far more so than he—yet at the beginning certainly a most shinking, timid man, 'the reluctant prophet', as he has been called. In the young Prophet men saw something that reminded them now of the thunder tones of the great Elijah; now of the melting accents of the still greater Jeremiah."

Peter's Opinion about Jesus, 16:15, 16. "But who say ye that I am?" Jesus further questioned. And Peter, speaking not for himself alone but as spokesman for the group, assured with conviction, "Thou are the Christ, the Son of the living God."

"In fact, the call of Christ is a call to something very like the cheerfulness of the soldier of the trenches. It is a call to a life of external turmoil and internal peace. 'I came not to bring peace but a sword'; 'Take up your cross and follow me'; 'Ye shall be hated'; 'He that would save his life shall lose it.' It is a call to take risks, to risk poverty, unpopularity, humiliation, death. It is a call to follow the way of the cross. But the way of the cross is also the way of peace, the peace of God that passeth all understanding. It is a way of freedom from all cares, and anxieties, and fears; but not a way of escape from them" (Donald Hankey).

For what shall a man be profited if he shall gain the whole world, and forfeit his life? or what shall a man give in exchange for his life? Recall that cartoon during the War in England's great comic paper which represented the King of Belgium being addressed by a dark and sneering figure. The King had lost many towns and much wealth. "So you have lost everything!" the sneering figure said. "Not my soul!" came the noble reply, "Not my soul!"

Saved Many Ships

Woman Was Harbormaster In Wales For 75 Years

On the eve of her hundredth birthday, Mrs. Jane Ellen Jones, harbormaster at Prthdinllcyn, Wales, for 75 years, has died. She lived in an inn, 300 years old, whose front door was washed by high tide, and there at one time she conducted a girls' school, teaching art, needlework, domestic science and music. The inn also served as a lighthouse for she put lamps in the windows as a guide to ships. It is asserted in Wales that in this way Mrs. Jones saved many vessels from disaster.

Lectures on first aid in gas warfare are being given in Glasgow, Scotland.

Spain expects a larger orange crop than last year.

Colonization Finance Corporation

Practical Problems Of Agriculture Reviewed At Annual Conference

Farm managers of the Colonization Finance Corporation and Western managers and inspectors of member companies were present in Winnipeg recently for their annual conference on practical problems of agriculture at the present time. The supervising staff of the Canada Colonization Association was also in attendance.

At the meetings, a paper was read by D. Howard Doane of St. Louis, Mo., on the question of rural appraising, and various problems of farm management were discussed, among them the following: Moisture conservation and soil drifting in areas subject to drought, problems of control and cropping methods to meet the grasshopper situation, methods for controlling couch grass, general problems in the control of wild oats, ways of securing more necessary fall work, land utilization involving the better use of waste land, rotation plans and practices and better use of crop plans, ways of improving water supply, a consideration of the general situation regarding farm machines and horse power, methods of cutting operating costs and a review of new information regarding the handling of sweet clover. S. E. Todd, secretary of the industrial and development council of the Canadian Meat Packers, Toronto, outlined fully the marketing procedure necessary to take advantage of the opportunities at present afforded in the British market for the bacon type of hog acceptable there.

The beginning of an organized farm management program, such as the Colonization Finance Corporation has been carrying out for the past four years, dates from a meeting of the Dominion Mortgage and Investment Association held in Montreal, March 28, 1927. Two years of land settlement work on the part of the Canadian Colonization Association, a subsidiary of the Canadian Pacific Railway, had clearly demonstrated that more extensive supervision of new settlers was required. This was a greater burden than this organization or individual lending companies could bear, and it was apparent that this could best be done by point effort.

During the first year, the farm management department operated in a very limited manner, having only 25,012 acres in the province of Manitoba under the supervision of the chief farm manager, assisted by two zone managers. Zones were established that year with headquarters at Winnipeg, Brandon and Dauphin. In 1931, the staff of the Colonization Finance Corporation increased to six zone managers, supervising 430 farms comprising 169,155 acres, situated entirely in Manitoba, with additional zone headquarters being established at Portage la Prairie, Moosomin and Dauphin.

In the spring of 1932, operations were extended to Saskatchewan, additional zone headquarters being opened in Birtle, Man., and Oxbow, Weyburn, Indian Head, Canora and Yorkton, Sask., with a sub-zone in Winnipeg. At the present time, the Colonization Finance Corporation has under its management 1,441 farms totalling 486,229 acres, with a farm management department consisting of the chief farm manager, 13 zone managers and two assistant zone managers in charge.

Of these farms, about 75 per cent. are operated by the owners, either as mortgagors or purchasers under sales agreements, and only 25 per cent. by tenants. The membership of the Colonization Finance Corporation at present includes nine of the leading life insurance, trust, and loan companies, and the Canadian Pacific Railway, the following ten being member companies: Canada Life Assurance Company, Toronto, Ont.; Canadian Pacific Railway; Confederation Life Association, Toronto, Ont.; Imperial Life Assurance Company, Toronto, Ont.; Mutual Life Assurance Company of Canada, Waterloo, Ont.; National Trust Company, Limited, Toronto, Ont.; North American Life Assurance Company, Toronto, Ont.; Royal Trust Company, Montreal, Que.; Union Trust Company, Limited, Toronto, Ont.; Western Homes Limited, Winnipeg, Man.

Those familiar with the farming program of the Colonization Finance Corporation understand that it is built on the economical control of weeds and the restoration of soil fertility, often through the use of sweet clover, making possible the keeping of more and better livestock and the lowering of the costs of summerfallow. It is always kept in mind that grain farming is the major project in any system of farming in Western Canada.

Constant and effective effort has been continued by the farm managers to provide an improved feed supply on all farms and to improve the quality of all livestock. The latter has been stressed far more than an attempt to increase livestock through outside purchases, and the inventories show a marked increase in livestock on a large per centage of the equipped farms. A special effort is under way to increase very rapidly the hog production on the farms. The aim is to improve the quality and increase the production of hogs to take advantage of marketing opportunities available in the British market under the Ottawa agreement. By the plan adopted, it is expected that a continuous flow of the right type of hogs, which bring the highest price on the British market, will be stimulated and maintained throughout the year.

The zone managers, who work with the chief farm manager, Mr. Reinoehl, are located at the following points: R. W. Gowland and C. R. Bradford, assistant, Winnipeg; George H. Jones, Portage la Prairie, Man.; A. R. Judson, Dauphin, Man.; W. C. Kent, Birtle, Man.; H. J. Siemens, Brandon, Man.; A. J. Clark and M. L. Sterzer, assistant, Deloraine, Man.; W. J. McLeod and K. McLean, assistant, Moosomin, Sask.; J. B. Day, Oxbow, Sask.; W. Harkness, Weyburn, Sask.; O. S. Longman, Indian Head, Sask.; H. B. Sommerfeld, Yorkton, Sask.; O. Winkler, Canora, Sask.

Louis L. Lang, Galt, Ont., first vice-president of the Mutual Life Assurance Company of Canada, and president of the Lang Tanning Company, was elected to the presidency of the Colonization Finance Corporation upon Mr. Bowman's death in 1932 and was recently re-elected. J. F. Weston, managing director of the Imperial Life Assurance Company, is vice-president, and T. O. F. Herzer of Winnipeg, Man., has served as general manager of the organization since its inception.

Members of the executive committee include W. Hastie, Toronto, assistant general manager of the Canada Life Assurance Company; S. E. Cork, Confederation Life Association; A. E. Pequegnat, assistant general manager of the Mutual Life Assurance Company, and J. C. Breckenridge, Toronto, general superintendent of the National Trust Co.

McGill University Benefactor

Montreal Man Leaves Large Sum To Eastern Institution

McGill University will benefit considerably, probably to the extent of more than $100,000, under the will of the late Dr. John Bowring Lawford, a native of Montreal, who practiced opthalmic surgery in Harley street.

The estate has been probated at $315,000. The McGill medical faculty will get $5,000 to be expended on a library and museum. Another $50,000 goes to the London Opthalmic hospital and $25,000 to the British National Blind Library.

Ultimate residue is to be divided between McGill and St. Thomas hospital, London.

Canada Gets New Fruit

Cross Between Orange And Grapefruit Has Intriguing Flavor

"Should the name of ugli fruit be changed to a more beautiful name?" That is the question bothering certain importers in Montreal at the moment. Meantime, a shipment of 2,500 fine specimens of ugli fruit was landed at Halifax from British Honduras and Jamaica aboard the Canadian National ships Lady Somers and Cathcart and rushed to the Montreal market. It is a cross between an orange and a grapefruit, importers explain. They predict a great future for it on the Canadian market, because of its especially intriguing flavor.

Generates Own Light

Balmy Chinooks that cut down heating bills this winter entirely eliminated lighting expenses for R. H. Bowne of Windsor Park, Alberta. In Mr. Bowne's back yard a wind-driven lighting plant made from the charging unit of an automobile provides enough current to keep two storage batteries charged for home lighting.

OCCASIONAL WIFE

By
EDNA ROBB WEBSTER

Author of "Joretta," "Lipstick Girl" Etc.

SYNOPSIS

Camilla Hoyt and Peter Anson, young and in love, marry secretly, deciding to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor trying to win a competition for a scholarship abroad and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she comes of age and so is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter, Sylvia Todd, Peter's model, and Gus Matson, his former roommate with whom he has quarrelled. At a party at an exclusive club Peter entertains Camilla's guests with impersonations. When the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Camilla slip off to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are standing near them. This makes it necessary for Camilla to announce before the party that she and Peter are married. Bowman and Weeks, an advertising agency, where Camilla has submitted some of her work, send for her and tell her they have a new account which requires unusual treatment of juvenile art. To Camilla's surprise she learns that the account is that of her foster father's company, which has decided on an extensive campaign to bolster up lagging business. After a conference with Mr. Bowman, Camilla decides to attempt the work. The critics were enthusiastic about her work, and Mr. Weeks offers her a salary of $50.00 a week to start and a prospect of having it doubled. She goes to keep a dinner engagement with Peter. She tells Peter of her good fortune in securing employment. Mrs. Hoyt is also informed that Camilla has obtained work and is going to leave the Hoyt household. Avis Werth rents a studio on the same floor as Peter, and invites him to have lunch there.

(Now Go On With The Story)

CHAPTER XXXV

After all, what was the harm in accepting Avis' friendly hospitality? She had managed it so that Peter would seem absurd to refuse. His only concern was for time, and he had been about to run to the corner lunch counter for something to eat, anyway.

"On one condition," he warned her, severely.

"Oh, I know what you are going to say, old ambitious—that I don't encourage you to linger after the last biscuit is vanished. All right, but you know it really isn't polite for a guest to eat and run away. Only a generous hostess would understand the urgency of the situation."

"And you will be generous, of course."

"You know it. Because I am anxious as you are for nothing to interfere with your exhibit entry."

"You can't be one-half as anxious," he scoffed, not taking her seriously in the least.

"Oh, can't I?" she said gently. "Well, that's just why I am looking out for your welfare, so that you will lose as little of your precious time as possible, and be well fed at the same time. Ready? Don't bother to take off your sculping jacket. I like you enough just as you are—even with the smudge of clay on your left ear."

She took his hand like a delighted child who has persuaded the boy next door to play house with her on her side of the hedge. It was the first time Peter had seen her rooms, so he had to inspect and comment before he sampled Tilly's culinary delicacies. His beauty-loving eyes wandered from floors to walls and shone with admiration. They delighted in the rich blend of Chinese rugs, mellow tapestries, oil paintings, deep upholstery, draped window hangings, polished brass and fragrant flowers in profusion.

"Say, this makes my place look like a barn!" he exclaimed.

"Do you like it?" anxiously.

"Rather!" he fingered a wall tapestry with an appreciative touch. "Where'd you get this — it's a beauty!"

"In Paris. Yes, it's a genuine Gobelin."

"Aren't you afraid to keep it here?"

She shrugged and sank into a deep divan, languidly.

"Oh, those things never bother me. I think it is silly to have beautiful things stored away in vaults and safes. I wear my jewels and live with my treasures and enjoy them while I can. Now wouldn't it be stupid to decorate this place with poor imitations or live with bare walls around me, while I sit here and boast to you, I have a marvelous Gobelin stored in the vault, and a Satsuma vase, and some priceless pieces of carved ivory that I discovered in Peking'?" she indicated the objects for Peter's inspection.

"I quite agree with you about that!" he declared with enthusiasm. "If I ever should possess anything valuable, I should want to have it around where I can enjoy it all the time."

"Like your wife?" Avis wondered. She said, "But I promised not to keep you long from your work," and led him across the room to a table arranged for two in the window alcove.

"It would be easy enough to forget work in a place like this. I'd like to browse around and ask questions all day. It's perfect," he continued to admire.

"There will be lots of time for you to browse around when your piece is finished and you are waiting for the verdict of the judges. That will be better for you than walking the floor in suspense." She glanced around the room. "But don't you notice what is missing?"

He looked about, dubiously. "If there is a minus quantity it can't be more than x, y, or z."

"And you a sculptor!" she chided.

"That's right," his glance surveyed the room again. "You don't support the profession, evidently."

"That is just what I want to do. But I purposely omitted the sculpture because I want you to do me something very special when you have time."

"Does that constitute an order?" incredulously.

"Several, perhaps." She smiled and tapped a bronze table gong. Tillie appeared promptly with a steaming tray.

To Peter, whose nourishment for weeks had consisted chiefly of hasty sandwiches, coffee and heavy pastries, the iced canteloupe, creamed sweetbreads and feather-weight biscuits with gauve jelly were nectar and ambrosia. He ate hungrily and chattered amiably. Avis marked a score on her mental chart.

She would not be so asinine as to ruin a good start by indiscretion. The way to make a man believe he wanted a thing very much was to let it become a pleasant and voluntary habit with him. In other words, to make Peter believe he wanted her companionship and the comfort of her solicitous concern for his welfare, more than anything else, was to allow him to develop a casual habit of accepting them. She would force them upon him gradually while she made him believe he sought them without being aggressive—easily, naturally.

It was she, even, who suggested firmly, when he had done ample justice to the food and was smoking leisurely in a deep armchair. "Isn't it about time you went back to your work, old ambitious?

"Did the whistle blow?" he asked with amused surprise. "I didn't hear it. But you are just right about my getting back to work. You almost made me forget that times waits for no man and opportunity flies."

"Your quotations are all jumbled," Avis laughed.

"The food has gone to my head," he apologized. "But, seriously, that's the first decent meal I've had for a week. I hope I didn't act the glutton."

Avis was clever. She did not repeat the same strategem too often. Sometimes, it was just a steaming cup of coffee, handed in to him at the right moment without personal interruption, or an iced drink in the evening when he had stopped work for the day, followed by a friendly goodnight.

For contrast, there were several days at a time when her door was closed and her rooms devoid of human sounds, while she filled social engagements or remained anxiously at home. But she was never absent from the studio long enough to allow Peter's growing sense of loneliness to merge into forgetfulness. She dabbled with her painting, entertained or just amused herself, striving for patience and a friendly indifference toward Peter at the same time that she displayed an intense interest in his work and progress.

So subtle was the effect upon Peter that he soon forgot his aversion to an importunate neighbor, dropped his antagonism toward the Avis Werth of the past whom he concluded he had judged too severely, and became so accustomed to her friendly concern for him that he relaxed into its pleasant comfort as he sank wearily and gratefully into one of her cushioned chairs and sipped a refreshing drink at the end of an arduous day.

(To Be Continued)

Verdigris green is the latest color for women's wear in London.

Now! Ease Sore Throat Instantly!

1 Crush and dissolve 3 Aspirin Tablets in half a glass of water.

2 GARGLE thoroughly — throw your head way back, allowing a little to trickle down your throat.

3 Repeat gargle and do not rinse mouth, allow gargle to remain on membranes of the throat for prolonged effect.

Remember: Only Medicine Helps Sore Throat

Modern medical science now throws an entirely new light on sore throat. A way that eases the pain, rawness and irritation in as little as *two or three minutes!*

It requires medicine—like ASPIRIN—to do these things! That is why throat specialists throughout the world are prescribing this ASPIRIN gargle in place of old-time ways.

Be careful, however, that you get Aspirin Tablets for this purpose.

Aspirin is the trademark of The Bayer Company, Limited, and the name Bayer in the form of a cross is on each tablet. They dissolve completely enough to gargle without leaving irritating particles.

ASPIRIN TABLETS ARE MADE IN CANADA

An Old Landmark

Mount Royal's observatory, lookout and resting place for thousands of tourists at Montreal since it was built 27 years ago, is to be demolished. A new modern structure has already been erected nearby.

YOUR LIVER'S MAKING YOU FEEL OUT OF SORTS

Wake up your Liver Bile
—No Calomel needed

When you feel blue, depressed, sour on the world, that's your liver which isn't pouring its daily two pounds of liquid bile into your bowels.

Digestion and elimination are being slowed up, food is accumulating and decaying inside you and making you feel wretched.

Mere bowel-movers like salts, oil, mineral water, laxative candy or chewing gum, or roughage, don't go far enough.

You need a liver stimulant. Carter's Little Liver Pills is the best one. Safe. Purely vegetable. Sure. Ask for them by name. Refuse substitutes. 25c. at all druggists. 52

An optimist is one who hops out of bed on a cold morning, saying: "Well, old bed I'll be back to you in seventeen hours."

A pessimist is one who hops in bed, saying, "Shucks up again in seven hours!"

HOW TO FIND OUT IF YOU HAVE ACID STOMACH

HERE ARE THE SIGNS:

Nervousness	Frequent Headaches
Neuralgia	Feeling of Weakness
Indigestion	Sleeplessness
Loss of Appetite	Mouth Acidity
Nausea	Sour Stomach

Auto-Intoxication

WHAT TO DO FOR IT:

TAKE—2 teaspoonfuls of Phillips' Milk of Magnesia in a glass of water every morning when you get up. Take another teaspoonful 30 minutes after eating. And another before you go to bed.

OR—Take the new Phillips' Milk of Magnesia Tablets — *one tablet* for each teaspoonful as directed above.

If you have Acid Stomach, don't worry about it. Follow the simple directions given above. This small dosage of Phillips' Milk of Magnesia acts *at once* to neutralize the acids that cause headache, stomach pains and other distress. Try it. You'll feel like a new person.

But—be careful you get genuine *Phillips'* Milk of Magnesia, or *Phillips'* Milk of Magnesia Tablets when you buy—25c and 50c sizes.

ALSO IN TABLET FORM

Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

MADE IN CANADA

Phillips' Milk of Magnesia

Throw away dusters!
