"THE ADVANCE."

Where a Matter of Money Is the only Consideration

A MATTER OF MONEY.

we have cheap clothing for you.

Where Quality is the Main Point

we are with you also.

Cheap goods pay us best but you are not as likely to come back.

If you make your selection from our stock of **Shorey's Ready to Wear Goods** we know that we have permanently secured your patronage, because:

We guarantee the workmanship.
We guarantee the material to be shrunk.
We give you a guarantee Card in the pockets of all of Shorey's make which means

SATISFACTION OR YOUR MONEY BACK.

We solicit your trade on this basis.
Does it strike you as a sound one.

MIDWAY TRADING COMPANY, Limited.

HAIN & CO., POSTOFFICE STORE, ...MIDWAY, B. C.

Groceries at lowest market quotations. Miners' Supplies and Builders' Hardware always in stock.

SEPARATE REPRESENTATION.

The Right of the Boundary District to Have a Separate Representative Conclusively Shown—Some Interesting Figures Exhibiting the Relative Positions of the Respective Constituencies.

THE recent Provincial elections have furnished some interesting figures from which can be drawn conclusions that should uncontestably prove the justice of the claim of the Boundary country for separate representation. The figures given below, though probably inaccurate in the cases of several of the more scattered constituencies from which final returns had not been received when the following were given out, are sufficiently correct to serve the purpose for which they are now quoted, since the returns from the few outlying polling places not heard from will not materially affect the relative positions of constituencies or members as herein exhibited.

Taking first the number of ballots regularly cast in the respective constituencies, they appear as follows:

Vancouver City (4 seats)	15,370
Victoria City (3 seats)	13,605
Rossland Riding West Kootenay	2,610
Nelson Riding West Kootenay	1,603
New Westminster City	1,170
East Yale	1,031
North Yale	1,009
South East Kootenay	989
Cassiar (2 seats)	961
Cariboo (2 seats)	938
Revelstoke Riding of Kootenay	847
Nanaimo City	839
Slocan Riding of Kootenay	746
Esquimalt (2 seats)	737
Delta	721
Dewdney	615
Comox	602
Richmond	560
Nanaimo North	506
Chilliwack	494
Victoria South	467
Nanaimo South	368
West Yale	284
Victoria North	281
Cowichan	277
North East Kootenay	26
East Lillooet	24
West Lillooet	21
Alberni	185

It will be seen that the Rossland Riding stands third on the above list, and it may be here pointed out that the disparity between the total of this riding and those of the cities of Vancouver and Victoria is necessarily much larger under the differing conditions, voters in the two latter constituencies being entitled to cast four votes each, than would be the case were the Rossland Riding on an equal footing with them in this respect. But it is not so much with the total number of votes cast throughout the Rossland Riding that we in this district are now concerned as with the proportion cast in the Boundary country. The returns from the several polling places in the Boundary gave the following figures as the totals of the votes cast:

	Curtis.	Mackintosh.	Total
Gladstone	28	12	40
Cascade	28	16	44
Grand Forks	143	118	262
Columbia	49	85	134
Eholt	49	25	74
Greenwood	225	218	443
Phoenix	94	73	167
Midway	25	57	82
	641	605	1246

Even if Gladstone be deducted, as too far east for inclusion in the Boundary district, it will be seen that with a total of 1246 votes actually polled on 9th inst. the Boundary district, leaving out the two big city constituencies on the coast, comes third on the list of the whole Province, the respective higher totals of votes polled being Nelson Riding, 1603; Rossland Riding (including Gladstone, but excluding all west of Christina Lake), 1404, and the Boundary, 1246. The Boundary vote is much larger even than that of New Westminster City, and there is this further fact to be kept in mind, that population is increasing here, and with the mines now entering upon the production stage will increase still more rapidly.

Turning now to the number of votes each elected representative obtained at the recent election, it is found that again leaving out the two coast city constituencies previously excepted the Rossland Riding leads easily with a total of 1323 for its elected member, the next on the list being Nelson Riding, with 781. The respective totals for the whole of the members-elect are:

H. D. Helmcken, Victoria City, 2,010.
A. W. Hall, Victoria City, 1,927.
J. H. Turner, Victoria City, 1,863.
J. F. Garden, Vancouver City, 1799.
J. Martin, Vancouver City, 1737.
A. E. McPhillips, Victoria City, 1729.
R. G. Tatlow, Vancouver City, 1663
H. B. Gilmour, Vancouver City, 1462.
Smith Curtis, Rossland Riding of West Kootenay, 1323.
J. Houston, Nelson Riding of West Kootenay, 781.
Ralph Smith, Nanaimo City, 753.
J. C. Brown, New Westminster City, 629.
Price Ellison, East Yale, 620.
J. H. Fulton, North Yale, 508.
T. Taylor, Revelstoke Riding of Kootenay, 494.
E. B. Smith, North East Kootenay, 424.
F. R. Green, Slocan Riding of Kootenay, 342.
R. McBride, Dewdney, 340.
L. A. Mounce, Comox, 329.
J. Oliver, Delta, 324.
C. W. Clifford, Cassiar, 286.
S. A. Rogers, Cariboo, 278.
J. Hunter, Cariboo, 275.
W. H. Hayward, Esquimalt, 272.
C. W. Munro, Chilliwack, 262.
D. M. Eberts, Victoria South, 259.
J. Irving, Cassiar, 240.
W. W. B. McInnes, Nanaimo North, 238.
C. E. Pooley, Esquimalt, 225.
Thomas Kidd, Richmond, 218.
James Dunsmuir, Nanaimo South, 216.
D. Murphy, West Yale, 198.
J. D. Prentice, East Lillooet, 195.
C. H. Dickie, Cowichan, 177.
W. C. Wells, North East Kootenay, 127.
J. P. Booth, Victoria North, 123.
A. W. Smith, West Lillooet, 109.
A. W. Neill, Alberni, 95.

The Boundary proportion of the total vote of 1323 Mr. Curtis received was with Gladstone 641, or without that polling place 613. This shows that the Boundary alone polled a higher vote for its successful candidate than did 24 (or without Gladstone 22) out of the total of 29 constituencies. And what is still more in its favor, the totals of the votes obtained by its two candidates were much closer than were those of the opposing candidates in most other constituencies in the Province.

The foregoing facts and figures show the claim of the Boundary district for separate representation to be one that in common justice to so comparatively large a number of electors, and so important a district, commercially and industrially, should not longer be resisted by the Provincial Legislature, so strongly is its right to it now established.

PROVINCIAL NEWS.

A sad death took place on the C. P. R. express on Monday morning just after leaving Revelstoke. It appears that the deceased lady, the wife of Rev. Joseph Crummer, was on her way home to Illinois from Los Angeles, Cal., and had been suffering from nervous prostration for some years. The body was taken off the train at Illecillewaet.

A telegram has been received by the chief of the Vancouver police to arrest Mrs. John Kline, formerly engaged in an apparently good bakery business, Nanaimo, and at one time a resident of Vancouver. Mrs. Kline, with her husband and two children, left the city quite recently for parts unknown, leaving several unsatisfied creditors and taking some $20 worth of goods alleged to have been received on approval. A warrant was issued on the charge of obtaining goods under false pretences, and the police both in Vancouver and Victoria have been notified to look out for her.

William Struthers, a clerk in the gold commissioner's office at Dawson, has been arrested on a charge of accepting a bribe for the performance of work that was itself illegal. Two other young men, Wm. Brown and R. D. Sutherland, were arrested and held for offering the bribe. The transaction grew out of an attempt on the part of Brown and Sutherland to get a claim renewed without having the representation work done or paying the full amount fixed by the law to be paid in lieu of representation work. That amount is $200. The allegation is that young Struthers agreed to accept an affidavit of representation and to complete the record properly for a consideration of $75 paid to him personally, and that he did so receive and accept this sum and did complete the record, knowing the affidavit to be false. After preliminary examination Struthers was held for trial in the territorial court.

DOMINION NOTES.

Sale of Hamilton Powder Company's Shares—Manitoba and the Territories Slightly Suffer from Frost and Drought.

Kilties Organizing—C. P. R. Excursion for Manitoba School Teachers—Dissolution of the Templar Publishing Co.—Large Hotel for Port Arthur.

The Canadian Patriotic Fund to the 15th inst. was $303,882.36.

A London, Ont., lady has christened her daughter Transvalette.

The Templar Publishing Co. of Hamilton, Ont., has been dissolved and $30,000 in shares cancelled.

A movement is on foot at Hamilton, Ont., to organize a Highland Regiment. Already about 400 have signified their intention of joining.

The C. P. R. has arranged a cheap excursion to the Pacific coast for the teachers of Manitoba. The tickets will be good during the summer holidays.

The Standard Oil Company is said to be backing a syndicate which is considering the establishment of an enormous hotel with probably 1,000 rooms in the neighborhood of Port Arthur.

Mr. Pineau, the Tory who has turned Grit, and is keeping the Prince Edward Island Government in power by a majority of one, says he turned because the Tories said there was a deficit, whereas he has found a surplus of fully $1,000.

Dr. Campbell, at the meeting of the Ontario Medical Council held recently at Toronto, submitted a resolution, anent Dominion and inter-provincial registration, to the effect that the Ontario Medical Council should agree to register practitioners hereafter registered in any other province which may agree to register Ontario practitioners under similar conditions.

Evangelist Joly has been found guilty in the Court of Queen's Bench of stealing an express package containing $7,000 from the C. P. R. station at Joliette. A part of the stolen money was in Dominion one dollar notes. The clue to the robber was obtained through these and his house was searched, disclosing more of the missing notes. The jury were only out five minutes.

The C. P. R., in a recent crop report, shows that drought has affected most of the crop between Winnipeg and Broadview, also the northwestern section. Frost has done some damage between Carberry and Griswold. Ample rain has fallen in the Northwest Territories and in some sections of Manitoba, but generally rain is wanted in Manitoba. If rain falls heavily in the near future a good average crop is predicted.

The majority of the shares of the Hamilton Powder Company have been purchased by the Noble Dynamite Trust Company Limited, London, J. L. Duplat Taylor, chairman. It is said that after watching the development of the mining industry in Canada, especially in British Columbia and the Klondyke for some time, the directors of the English concern decided to take this step in order to secure shares in the ever growing trade in this country.

E. Stuart, Dominion Chief Inspector of Timber and Forestry, has left Ottawa for the west. He will visit Winnipeg, Calgary, Prince Edward, Edmonton and New Westminster, B. C., to take measures for the protection of the existing timber or to provide for reforestation where he deems such to be necessary. The protection of timber is mainly needed against fire, which works tremendous havoc sometimes in the timber limits owned by the Crown. Mr. Stewart will arrange for an efficient system of ranging, which will guard as far as possible against the danger of fire.

Among the papers read recently at a session of the American Library Association was one by James Bain, jr., chief librarian of the Toronto Public Library. Mr. Bain dealt with the composition of libraries throughout the Dominion, during his address giving the following statistics: Nova Scotia, nine libraries, 90,620 volumes; Prince Edward Island, two libraries, 7,500 volumes; New Brunswick, six libraries, 50,530 volumes; Quebec, 40 libraries, 670,025 volumes; Ontario, 459 libraries, 1,287,667 volumes; Manitoba, four libraries, 46,435 volumes; Northwest Territories, one library, 3,500 volumes; British Columbia, five libraries, 16,900 volumes; Government libraries five, containing 250,000 volumes. The total number of public libraries throughout the Dominion is thus found to be 511, containing in the aggregate 2,420,577 volumes.

MONDAY, JUNE 25, 1900.

The commencement of ore-shipping from the Old Ironsides and Knob Hill mines, to which railway spur lines were lately constructed, marks the opening of a new era for Phoenix camp, in which these well-known properties are situate. The group of three mines, the Old Ironsides, Knob Hill and Victoria, together with the Gray Eagle to which the Miner-Graves combination lately extended its operations has had more work done on it in under ground development and is at present equipped with more plant and machinery on the whole than any other mine or group of mines in the district being operated under any one management. Further, larger ore bodies have been opened up in this group and more stoping ground is ready for the miners to break down ore than anywhere else in the district. Then there is the additional advantage of having a smelter built for the main purpose of treating the ores from these mines, connected with them by rail and situate only about twenty miles distant. With such facilities available for the production and treatment of ore and with large ore deposits to obtain an abundant supply from, the outlook indeed appears favorable. Much has been published during the twelve months just past of the ore-producing capabilities of the district in general and those properties in particular. But the time for newspaper promises has, after much and tedious delay, at length passed away and now has dawned the day of performance. Should the great expectations, to which such free expression has been given, be not in large measure soon realized much disappointment will naturally follow. But there does not appear to be any reasonable doubt that they will be realized and so, as above suggested, a new era is opening for Phoenix camp.

A Novel Idea.

(Montreal Witness, May 30, 1900.)

Mrs. Egerton, an English lady, who did nursing work in Dawson City, carried out an original idea in London, which greatly gratified the C. P. R. people. Mrs. Egerton had been much struck by the scenery along the line of the C. P. R., as well as with the service which the company rendered across the continent, and she determined to let the folk in England know something about both. For this purpose she availed herself of a fancy ball at Covent Garden, to appear in a costume which took first prize for originality, and which illustrated Canadian scenery and the C. P. R. in a highly striking manner. The lady's hat was trimmed in a manner to show the C. P. R. trains in motion; her cape set forth Lake Ontario, Lake Superior and the Rocky Mountains, while the front of her dress showed a train rushing at full speed through the wonderful ravines in the far Northwest. In the lady's hand was a banner which contained the coats of arms of the several Provinces constituting the Dominion. The tout ensemble, as the London press remarked at the time, was wonderfully striking and impressive and gave at a glance an idea of a country of which Londoners, previous to the jubilee, knew very little. Mrs. Egerton, as Mr. Baker, the C. P. R. agent in London, pointed out, did all this 'off her own bat,' and solely with the patriotic view of making Canada known. The lady is coming out again, probably this summer, when she will make an extended tour of the country. Photographs of Mrs. Egerton in her unique costume are at the general offices of the C. P. R.

Canada's Exhibit at Paris.

Professor Robertson, Dominion Dairy Commissioner, who has just returned from the Paris Exposition, says when he left Paris the Canadian exhibit was the only one in the entire Exhibition provided with a refrigerator in practical working order. Other nations which had contemplated making displays of fruit and other perishable products, had to give up the attempt for lack of cold storage. The United States had partially overcome the difficulty by securing cold storage in the city of Havre some miles away, and renewing its exhibit from time to time.

Of the Canadian display generally Prof. Robertson says that about four-fifths of the main colonial building is occupied with exhibits from Canada. There is a splendid display of cereals, apples, flour, canned fruits, honey, etc. These exhibits have been so arranged as to impress the spectators with the idea that Canada can produce the best of foodstuffs. In the refrigerator are stored apples, butter, cheese and eggs, and it will tend to show that food products can be brought from Canada to Paris without the slightest deterioration.

Ottawa University will sue La Presse and La Patrie of Montreal unless they retract the statement that American students at the university fought against the raising of the British flag in honor of British success in South Africa.

CANADIAN HORSES.

Major-General Strange Writes About Army Remounts.

The following letter recently appeared in the Morning Post, London:

SIR,—I see in the Morning Post that the British Government has purchased 50,000 horses in the State of New York at an average price of about $100 each. They could have got more serviceable horses for less money from Canada, especially from the prairie country, which produces the hardiest horses in the world. The veldt and prairie are synonymous. The broncho will live on sun dried grass, where the civilized horse starves. With gaiety of heart we accept the lives of the Canadians and the gift of Lord Strathcona. But when it comes to putting money in the pockets of Canadians by a deal advantageous to ourselves, we prefer to deal with the overcute Yankee, who accentuates the boasted solidarity of Anglo-Saxon kinship by a pro-Boer Anglophobia as intense as that of Europe. The steady loyalty of Canadians is to me a perpetual amazement. Twenty years ago I started the Military colonization Ranche in Canada by the purchase of 500 brood mares and suitable stallions, mainly with a view of supplying horses to the British army for wars, even then inevitable to all eyes except those at Westminster. When the last Riel revolt broke out I raised and horsed at my own risk and responsibility a squadron of cowboy scouts and put them under Major Steele, who now commands Lord Strathcona's Horse. Incomparable leader of unmatched scouts, he led and covered the western column, with its long train of wagons, in a march of 800 miles through a wilderness country and bands of hostile halfbreeds and Indians, as wily, as mobile, and as good shots as the Boers, better armed with Winchester repeaters than the Canadian militia infantry with their clumsy old Sniders. We found our enemy entrenched as the Boers entrench. But they were out-manœuvered, and surrendered after two skirmishes, with slight loss to ourselves. That this was possible was due not only to the prairie scout but to the horse he rode. Our horses were seldom picketed, except when in contact with the enemy, or in wooded country when grazing was impossible. Otherwise they grazed at night, kept "rounded up" in cowboy parlance by the mounted patrols who circled round them. Attempts at stampeding on the part of the enemy failed, for any Indian who entered that circle never left it, and as I rode out in the morning march I passed more than one "redskin" minus his scalp. I asked no questions; "a la guerre comme a la guerre." The enemy played the game that way. The game in South Africa I don't understand. On our side it seems like the games of my youth at Aldershot, which I never learnt, thank God. At the conclusion of the Canadian campaign of 1885 the late General Ravenhill, R. H. A., visited the Canadian ranches and bought horses for the British army, as his successor, Colonel Goldie, also did. They were reported on most favorably for several years in succession. Eventually the London Horse Dealers and Horse Breeders' Association got members of Parliament to bring pressure on the War Office, and the purchase of horses in Canada for the army was ordered to be discontinued. I brought the matter personally to the notice of Lord Wolseley, who seemed powerless. I had had enough, and retired from the business, recommending that the War Office should send out an officer and a few army reserve rough riders to establish a remount depot in the Calgary district. In the event of war in the Far East, mounted infantry and cavalry could be sent dismounted through to Vancouver by the Canadian Pacific Railway and steamship line, picking up their mounts en route. It is not too late to consider the question, if there were any deciding power anywhere, for there are "wars and rumors of wars, but the end is not yet."

T. BLAND STRANGE,
Major-General, late commanding Alberta Field Force.
Caversham, April 11, 1900.

Notices advertised in this week's ADVANCE are those of:—

…soners had received assistance …outside as a brace and bit had …d to bore their way out …the cell. It is supposed the …ed the line and are now in …ates territory.

Five or six men were lately put to work on the Marguerite, a Deadwood camp claim formerly owned by Messrs. E. C. Brown and J. P. Harlan, of Greenwood, and Dr. McMartin, of New York and lately acquired under bond by Mr. A. Laidlaw and others.

Mr. L. S. Moulton-Barrett of Greenwood has gone to the Golden Eagle mine on North Fork of Kettle River. He has a large interest in this valuable property, so he has arranged to live at the mine for two or three months, to observe its development.

Mr. D. A. Holbrook, with two or three men, is again at work on the Gold Bug claims, near Greenwood. It will be remembered that last winter two carloads of ore which returned more than $150 to the ton, were sent from the Gold Bug to the Trail smelter by the Boundary Creek Mining and Milling Company.

Two men are prospecting the Great Hopes claim, in Deadwood camp. It is understood that another shaft is to be sunk, but before this work is undertaken more surface prospecting is being done in the expectation that this will result in information being obtained that will prove of utility in determining the site for the new shaft.

Mr. Gilbert Mahon, resident manager for the Jewel Mines, Ltd., recently left Long Lake camp for England, where he will discuss with the directors of the company questions connected with the further development of the Jewel mine and its equipment with a reduction plant suitable for the economical treatment of the large quantity of ore opened up in the mine.

A large building for office and store purposes is just about completed at the Mother Lode mine. Desks and drawers in the office and much convenient shelving in the store for the large quantity and variety of mine supplies required to be kept on the property, are being fitted up and during the current week Mr. Arthur Meyer, the mine clerk and storekeeper, will most likely be in possession. A small Gates rock crusher, for breaking up ore for sampling purposes, was received at the mine last Wednesday. The crusher, which is being set up in a building near the engine house, will have steam as its motive power and it will materially reduce the labor of preparing ore samples for the laboratory.

The flue or dust chamber at the B. C. Copper Company's smelter, near Greenwood, is now being arched over with brick on side frames of heavy steel rails tied together with strong iron rods. The bricks for this extensive archroof are being supplied by Coryell Brothers, who make them at Grand Prairie and ship them in by rail. The ore bins, both upper and lower, are now about completed, and the sampling mill building, too, is out of the carpenters' hands. A complete furnace of 250 tons nominal capacity has been received at the smelter and the steel for the lower part of the furnace house is expected to arrive shortly. The upper part of this last named building will be of lumber, framed. The general office for the smelter is now being erected on the South side of the railway, between the residence of the company's general manager and the Greenwood-Midway wagon road.

Water has been rather troublesome in the Sunset mine, Deadwood camp, since the lead was cut at the 200-foot level, as reported in last week's "ADVANCE." The mine being equipped with a fine plant the difficulty is, however, only a temporary one and it is anticipated that in the course of a few days there will be an end to the delay caused by this unexpected inrush of water with its accompanying debris. The miners had by the end of last week got the crosscut cleaned out nearly up to where the ore was met with, that it will be practicable to ascertain shortly the extent and nature of the new find. The ore taken out before the water drove the miners out of the working is quite unlike anything else found in the neighborhood, its copper contents being lower and its gold values higher, so far as tested, than the typical Deadwood camp ore. A shaft is being sunk on the Crown Silver, adjoining the Sunset and owned by the same company, and occasionally ore is encountered. The indications here are stated to be promising that with a little more depth this property will open up in a satisfactory manner.

RICH STRIKE ON THE J. AND R.

A Wellington Camp Property of Great Importance.

During the past week a rich strike was made on the J. & R. claim in Wellington camp a 6-foot ledge of high-grade ore, similar to that of the Golden Crown and Winnipeg, was uncovered. There are also a number of smaller leads the extent of which has not yet been ascertained. Four men are now at work on the property doing surface work. The J. & R. is owned by Messrs. H. L. Jones, John Rogers, P. W. Diller, L. Ostroski and Denny Moihan the two former owning a half interest. It is now being crown granted.

The Hartford Ore is the Richest in Wellington Camp

The Hartford group, situate in Wellington camp, consists of six claims, viz., Hartford, Hartford fraction, Golden Crown fraction, Nabob fraction, Double Eagle fraction and Ranger. They were all staked by Messrs. H. L. Jones and John Rogers of Grand Forks, the Hartford and Ranger being located in June, 1895 and it is on these two claims that most of the work is being done. On the Hartford a vertical shaft has been sunk 100 feet and at that depth 152 feet of drifting has been done all in ore of excellent quality, samples of which have given assays of 26 per cent. copper making it the richest ore in the camp. There are also three other shafts on the claim, one 35 feet and two others each 16 feet deep, all showing good bodies of high grade ore.

On the Ranger a vertical shaft has been sunk to a depth of 80 feet, disclosing a ledge of copper ore, which also carries good gold values.

This group of claims was bonded last fall by a syndicate composed of Mr. H. N. Galer, assistant secretary-treasurer of the Granby Smelter, Grand Forks, and Mr. Wm. Farwell, general manager of The Eastern Townships Bank, Sherbrooke, Que., and others, Mr. Galer being the local manager. The bond was for $35,000 cash and a large block of stock. A payment of of $12,250 was paid on 15th inst. This makes the third payment made already leaving but one more to make. At present a Davis horse whim is used for hoisting purposes, but the company are so well satisfied with the property that they have decided to install machinery at an early date and as soon as this is done the Hartford will be a regular shipper.

Dominion Day Celebration at Greenwood.

Next Friday and Saturday Greenwood will hold its annual celebration. A grand procession with floats, fancy costumes, etc., will start on Friday morning at half past eight o'clock. A log-chopping contest will follow at half past nine, and then the time up to the lunch hour will be taken up by a number of athletic events. Several horse races will be run after lunch, commencing at one o'clock, and at five o'clock the two drilling contests will take place. In the evening there will be a dance in the Masonic Hall. On Saturday there will be hose races for the firemen at 10 o'clock; bicycle races at 11 o'clock; athletic sports, for miners only, at 11.30; horse races at 1 p. m., drilling contests, double and single handed, at 5 o'clock and tug of war at 7 o'clock. The Greenwood Brass Band will play selections on both days. Excursion rates on the Columbia & Western Railway have been arranged for and a large crowd is expected to come in from Nelson, Rossland, Grand Forks and way points. Midway will, of course, send as strong a representation as possible and every vehicle, horse and wheel available will be pressed into service on that occasion.

Canadian's Plucky Act.

A letter received at Winnipeg from Springfontein says that Sergeant McLeod, of the Royal Canadian Dragoons, who went out with the second Canadian contingent, while out scouting, single handed, captured two Boers and sixteen head of cattle. This worthy achievement was brought to the notice of Lord Roberts, who personally complimented the brave sergeant.

The Canadians' Share.

Lord Roberts—Is the artillery in position?

Subordinate—It is, General.

Lord Roberts—Is everything in readiness, and has there been any change in the position of the enemy?

Subordinate—Everything is in readiness, and the enemy is still massed heavily on our front.

Lord Roberts—Then order the Canadians forward.—Chicago Tribune.

Spokane Falls and Northern Railway Company—Change of Time.

Effective Sunday, June 3rd. The Spokane Falls & Northern will change time and inaugurate new service as follows:

Day train will leave Spokane 10:35 a. m., arrive Nelson, 6:00 p. m., arrive Rossland 5:30 p. m.; will leave Nelson 9:30 am., leave Rossland 12:05 p.m., arrive Spokane, 7:10 p. m.

Night train (new service) will leave Spokane 9:45 p. m., arrive Rossland 6:30 a. m.; will leave Rossland 11:00 p. m., arrive Spokane 7:05 a.m.

Great Northern standard sleeper will be attached to the night trains.

H. A. JACKSON,
General Passenger Agent.
