BEST BUILDING BRICK
THE process of manufacturing brick is a very important matter. Every brick turned out of our latest improved Berg press is made under a pressure of 400 TONS. They are also cured in cylinder under 120 pounds steam pressure.
ABSORPTION of moisture is only from 8 to 10 per cent. This is a very important feature in this climate. Our brick is being used in many important buildings.
WE can supply brick of all kinds and colors. Our prices are right. Be sure to get our figure before closing order. You will save money.
