SEVENTEEN THOUSAND

Victory Loan Committee Certain Enderby will Reach Objective in Bond Sales.

With sales of Victory Bonds to the amount of $17,000 up to Wednesday night, there does not seem to be any question as to Enderby reaching the quota set for her in the campaign now half over. The sales of the first week were quite as satisfactory this year as last. The early indifference and opposition has almost entirely disappeared, and one feels the return of that enthusiasm which characterized the 1918 drive. The canvassing committee are meeting surprises everywhere—surprises that are in most instances agreeable.

Wednesday evening Secretary Robertson reported the total subscriptions had reached $17,000. The campaign is only half over. It is certain Enderby citizens do not intend to let the campaign close with the objective of the campaign committee not reached. If next week proves anything like the second week of the 1918 campaign, then we shall see the big end of the bond sales within that time.

ENDERBY NOTES

Born—On Oct. 30th, to Mr. and Mrs. Chas. Parkinson, a daughter.

Mr. Thos. Gray was a visitor of Enderby from Mara on Wednesday.

Arvid Antilla returned from the southern end of he Valley this week, where he worked the fruit picking season.

Manager Dobie, of the Okanagan Telephone Company, returned this week from Vancouver, where he spent last week on business.

Mr. Adams was taken to the Vernon hospital Wednesday, owing to all available accommodation in the Enderby Hospital being taken up.

Last Thursday evening the Odd Fellows lodge of Enderby gave a social evening and supper to sixty or seventy guests. A very enjoyable affair it proved to all present.

The Agricultural and Domestic Science classes of the Enderby High School will entertain a number of guests on Friday evening, Nov. 6th, at 6.30, to a chicken dianer, to be served in the school.

The many friends of Reginald Crane will be pleased to learn that he has been promoted to the position of manager of the Bloor street store of the Tamblyn Drug Company, one of fifteen stores operated by that company in Toronto.

Mr. and Mrs. Geo. B. Johnston and daughter left for Vancouver Tuesday evening, where they will reside this winter, and, perhaps, permanently. Buck Johnston, who came from the coast to assist in the moving, will follow them in a few days.

The past week of snow and soft weather has made the roads practically impassible for motor travel, particularly where the late gravelling and grading has been done between Enderby and Armstrong and from Larkin south to within a mile or two of Vernon.

A quiet wedding took place in St. George's Church, Enderby, on Monday, Nov. 3rd, when Miss M. Gibbs was married to Mr. Ed. Harrop. Both are old residents of Enderby and have a host of friends who wish them all the joys on the matrimonial sea. Mr. and Mrs. Harrop went to the southern end of the Valley on their honeymoon trip.

Mr. H. B. Morley and Editor McDougall, of Penticton, president and secretary of the live Board of Trade of that city, visited Armstrong Tuesday night and Enderby Wednesday night. Mr. Morley was for many years a resident of Armstrong. He is now district deputy Grand Master of the Masonic order, and is paying his official visit to the lodges under his jurisdiction. Mr. McDougall is accompanying him on his visit.

Large numbers of men who have been working in the fruit orchards in the south end of the Valley, were let out this week, and the fruit season closed. It is estimated there are some 900 carloads of apples still on the trees which will not be picked. At 600 boxes to the carload it does not require close figuring to realize what the early cold snap and snow has meant to the apples growers.

Which are you going to have $45 or $82.50

IF you have $100 in the Savings Bank it will pay you 3 per cent. interest, or in fifteen years, $45.00.

IF you take that money out of the Savings Bank and invest it in Victory Bonds, Canada will pay you 5½ per cent. interest on it, or in the same time, $82.50

BUY

Victory Bonds

and get more interest

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

We have various weather prophets. Some tell us that this is not the real winter, and that we shall have at least another month of fair weather before it turns cold; and others are as positive that winter is here and that we shall have eight feet of snow by Christmas. Unfortunately we are not gifted with the faculty for so fine distinctions. This is near enough like winter—real winter—to satisfy us.

St. George's W.A. will hold their annual bazaar of plain sewing, home cooking, candy and rummage stall, on Saturday, Nov. 29th; place to be announced later. 1t

The practical man will not hesitate a moment over investing in Victory Bonds.

MARA NEWS

I. Rogers came down from Armstrong Monday night on business.

Mrs. Brainhard has bought I. Burce's place on Riverside Road, and is moving in this week.

Mr. Brainhard has so far improved that he is expected back from the Enderby hospital this week.

Owen Rosoman has bought back his old place and expects in the near future to be at home for 300 parties.

Although the roads were in bad condition quite a lot of Maraites took in the Hallowe'en dance at Grindrod and report a good time.

The old custom was in evidence on the morning of the 1st. A few gates mysteriously moved away and others opened, but nothing of a serious nature is reported.

The heavy fall of snow is very disappointing to some of the farmers who are endeavoring to finish fall sowing. But our weather prophet says this will disappear in a few days. Time will tell.

GRINDROD NOTES

Mr. T. & E. Skyrme were in Vernon on business this week.

Mr. and Mrs. W. L. Peacock were in Grindrod this week from Enderby.

Quick work was done in erecting the new Grindrod station, which now consists of a soap box nailed to a board.

A large crowd attended the dance in the G. F. Hall last Friday night. Many came from Enderby, Mara and Deep Creek, and all spent an enjoyable evening.

A meeting was held on Sunday afternoon to decide whether on not there should be a Xmas tree. All present were in favor and it was decided to hold it on Dec. 19th.

The usual dance will be held on Saturday, Nov. 8th.

The instalment plan for the purchase of Victory Bonds is a great boon to thrifty working people.

BUYING HEAVILY

Experienced Investors, Large and Small, Eagerly Purchasing Victory Bonds.

Toronto, Nov.5.—E.R.Wood, chairman of the Dominion Executive of the Victory Loan, made the following comment on the success of the campaign to date:

"The campaign is now practically half finished. The success to date has been due in large measure to the fact that investors who have so far purchased bonds have bought more than they did in previous loans. The fact that experienced investors, large and small, have subscribed early and have taken more than ever before indicates that they recognize the attractiveness of the Victory Loan as an investment as well as appreciating the patriotic necessity of cleaning up our war obligations and maintaining Canada's prosperity.

"The total subscriptions reported so far aggregate $208,000,000. It must be remembered, however, that this amount includes a very large proportion of the big subscriptions available, and in order to make a success of the loan it will be necessary as in previous years that the medium and smaller subscribers shall come forward.

"The rate of interest carried by the bonds, namely 5½%, is the same as on the loans issued in the dark days of the war, all of which loans are selling at substantial premiums. As a matter of fact this new loan is particularly attractive from the standpoint of the small investor, and one of the gratifying features of the campaign has been the readiness with which the employees of industries have taken the loan, where they had the experience of buying previous loans.

This is Canada's final financial war effort, and it is not only good business but good patriotism for every Canadian to become the owner of a Victory Bond. Let every man and woman in Canada buy bonds to the limit of their ability and prospective savings of the next ten months.

GLENEMMA GLEANINGS

The Kamloops-Vernon stage is now running to Vernon one day and back the next, instead of the round trip each day.

Mr. Harold Collin and Mr. Leonard Vaughn paid us a visit lately and took away Mr. Edward and Jimmy Morgan to the United States with them.

The cement culvert pipes are still being manufactured at Schroeb bridge as large quantities are required for the railway. Large motor trucks are busy hauling the pipes to the several gangs along the right of way.

The cold snap of the past week, with 12 degrees of frost, came as a surprise, even the old-timers being caught napping and having their potatoes and apples still out. But it is to be hoped we shall soon have a mild spell and be able to get them into the root house.

The sawmill here is very busy just now. Mr. Marshall, of Salmon Arm has contracted to haul 200,000 feet or more of logs to the mill. He has six teams hauling a mile distance with a down-hill pull. Mr. George Wyatt is in charge of the mill, and logs are being made into lumber at a very rapid rate. It is taken direct from the saws to the Armstrong sawmill yard where it is finished and made into boxes for the large Okanagan apple crop.

The steam shovel with its large bucket is busy loading cars on the railway, and it does sure move some dirt—and even stumps—in a day. The dirt is hauled by donkey engine to the deep fillings for the roadbed. Other gangs are busy clearing the right-of-way of brush and trees and burning the brush. The larger logs are hauled to the wood-cutting outfit where it is cut for the engine and steam shovel. Other gangs are busy surveying and putting in stakes and then the teams come along with scrapers and plow and a cut or raise is made as required. Everything is now proceeding with clock-like precision, but the weather is getting cold and the work will likely slow up a bit until spring. However, rock cuts and deep grades should keep a large gang busy all winter.

EVERYBODY HELPING

Looking over the advertising columns of the Commoner, one does not have to enquire where the hearts of our businessmen and the community centre as regards the success of the Victory Loan. With few exceptions our merchants jumped at the opportunity given them to donate advertising space in the local paper to advertising matter calculated to help the small number of men and women who have taken up the task of canvassing the district for the sale of bonds. Their readiness to help—to throw their shoulder to the wheel—when the impetus of solid local support is most needed, will surely have telling effect upon the work of the canvassers.

Perhaps no such amount will be raised in the district this year as was subscribed last year, but the amount will surely reach the quota set. It will be unfortunate if it is not so. We have no reason to believe that the district will fall down. We may be certain that it will not. The early opposition to the Victory Loan soon spent itself. Few are now talking against it. All seem to recognize the fact that, while they do not like it, they must as loyal Canadians support it. The Dominion's obligations must be met. And these obligations can be met only by borrowing money. If money is to be borrowed, it is better to borrow it from our own citizens than to borrow it from abroad, for the reason that the interest that the bonds bear will be paid to our own people, to be spent in Canada. If it is to be borrowed from our home people, that means us—we are the home people. This is the line of argument even early objectors to the loan are now using. They could not escape the logic of their own reasoning, with the result that many are now taking a bond or two who would not think of it at the opening of the campaign.

Whatever may be the outcome of the Victory Loan campaign in other parts of Canada, we feel sure this district will do its best and will not be disappointing. The spirit of co-operation in carrying forward the campaign is certain to get results. Those businessmen donating space to the Victory Loan campaign are showing their heart is in the right place, for every bond that is sold means the return of interest money to the district and the upholding of the district's good name for always attaining its objective.

AN IMPORTANT AGRICULTURAL CROP

The sunflower is an important agricultural crop, though in this country it has not been used to any extent. It is cultivated quite extensively in Russia and used for a variety of purposes. It makes excellent silage, especially when mixed with corn and some legume in about equal parts of each. The seed has an unusually high oil and protein content. On account of the latter its growth rapidly exhausts the nitrogen from the soil and, therefore, if grown successively on land, the soil will require considerable fertilizer. The oil portion does not exhaust the soil since the elements from which oil is made come from the air and water. The seed is used in the production of oil, which is extracted by compression, and is of value for table use, cooking purposes, and in general the same use as is made of olive oil. In Russia the seeds of the larger seeded varieties are sold as peanuts are in this country, and eaten raw. The plant has also been used quite extensively in paper manufacture in some of the European countries. The sunflower should be grown upon soil which is suitable for corn and planted and cultivated about the same as corn, though it will stand a little earlier planting than the latter on account of its greater resistance to frost.

PASSING THE PIVOTAL POINT

And now comes the Supreme Court of the United States and grants an injunction prohibiting the coal miners striking. Like that foolish king of old who went down to the ocean with a broom and attempted stem the rising tide. The effects of the injunction were quickly seen: The coal miners threw down their picks and quit work.

Labor unions well illustrate the Law of Diminishing Returns. Labor unions have increased wages, shortened hours, introduced Government Factory Inspection, have partially done away with child labor and done other useful, excellent and really beautiful things. But when Labor unions go beyond the Pivotal Point and attempt to dictate the amount of output—forbidding any man to earn so much; decide on the proportion of apprentices to workmen; declare what work shall be done in schools, in prisons and what not; and finally ask for a six-hour day and five days a week, then the union has passed the Pivotal Point and has ceased to give an equitable return.

A change is due. It will be revolutionary. It is apparently going to be a finshed fight. The courts will back capital. Labor unions will stand alone if moderation does not characterize their demands.

HUMAN WORK THE ONLY COIN

Unless all reports from Europe are gross exaggerations, Germany will be the first nation in the war-riven country to get upon its feet. It is already away to a good start and is leading friend and enemy neighbors in a merry race for first place. Keen observers who have been in Germany recently are one in the opinion that that country is back at work in good earnest and that she is forging rapidly ahead in spite of the depreciation of the mark and other outward signs of financial distress. The secret, according to William G. Shepherd, writing from Holland, is that the German has discovered that he has a new coin; it is not a mark, nor a dollar, nor the pound sterling. His coin is "work," and he is prepared to exchange it for your goods. In other words an enormous system of barter has been inaugurated. To particularize: a Hollander, we will say, has raw hides for sale, and his traveller goes to Germany with the idea of disposing of them. The German is willing to buy, but will not pay in either gold, silver or paper. He will pay for them in goods. In other words, he will pay for them in labor. He takes the raw hides on this understanding, tans them and ships back to Holland a sufficient number to pay for the original shipment, the balance he retains himself for his share of the work. Or, perchance he takes the raw hide from the Hollander, tans them and makes them into boots and shoes, shipping out of the country sufficient of the finished article to pay for the hides. It is reported that even England is sending raw wool into Germany to be prepared for the spinners by German combers.

In order to tighten up this system the German Government has passed a law preventing the export of the mark, except under special license, which is extremely difficult to procure. So it works out that the man who wishes to sell Germany goods must take goods in return or else he cannot do business. If the salesmen who have flocked to Germany are prepared to take German work—good, solid, human labor—says Mr. Shepherd, in return for their wares, Germany will buy without stint. Otherwise the salesman may as well return to his home country and call his trip a failure. According to Mr. Shepherd the German Government has been able to drill it into the heads of her working classes that only by their toil can the country survive, and they all seem to comprehend the scheme whereby Germany is not to spend any of her money, but only their work for what Germany needs from the outside world, and recent declines in the value of the money of other nations, not to speak of their own depreciated mark, has made them realize more fully than ever that after all, money is only a counter, and it is only work that tells.

BUSINESS INCREASING

Judging from the statement of bank clearings for the month of September, Canada is doing an unprecedented amount of business. The clearings advanced 40 per cent over September of last year which itself was a large month. All sections of the country shared in the advance of business, some cities doing double the trade of September 1918. Many quite remarkable increases, outside of the especially large advances of Winnipeg and Windsor, were noted. Toronto gained 37 per cent, Brantford 47 per cent, Kitchener 57 per cent, London 35 per cent, Ottawa 51 per cent, Edmonton 60 per cent, Prince Albert 94 per cent.

The present remarkable period of prosperity in Canada will be maintained if the Victory Loan is made an overwhelming success. Business who are alive to conditions know this and in the interests of themselves and the country are being urged to press the importance of the loan upon everyone with whom they come in contact.

THE PREVAILING CRIME

Rev. Charles W. Savidge of Omaha, who is said to have 4260 marriages to his credit, wants the New York papers to help him bring a shipload of young women from Europe for the purpose of making wives for an equal number of American young men. He has a theory about such things. "I'll furnish the men if the New York papers will help me get the women," he says. And Mr. Savidge is said to be in dead earnest. He thinks it a crime not to be married. "And," he added, "since preachers and the church are fighting crime, preachers and the church ought to help people find mates."

HARD HIT

In the recent Ontario elections many things happened to upset the calculations of everybody. Particularly upsetting to "P. O'D." of the Saturday Night of Toronto, was the result of the Referendum. He seems to have been hit on all sides and top and bottom: "Personally," he concludes, "we are not much concerned with all this. The Referendum has given us enough to think about for a while. We had thought of going over to the Prohibitionists, but the more we see of them the less we like them. They are especially offensive in these days of gloating. Just now we can't make up our mind whether is it better to cultivate a passion for strawberry sundae or arrange to do our work for this paper from Montreal or Havana."

Dependable Winter Merchandise

In every department will be found seasonable supplies to fill your Winters needs.

A Succession of Remarkably Good Values Throughout The Store.

Whether it be warm Blankets, Bedding, Coating or Dress Fabrics or whether it be Stylish Women's or up-to-date Men's made up garments, we are well prepared to give you service, quality, and satisfaction. Our prices too will please you.

There are shoes here to fit every foot at prices to suit all pocket books.

The One Thing Most Essential

Victory Loan 1919 Is Bridge Between War and Peace.

Agricultural and Industrial Prosperity of Canada Depends on Success of the Loan.

Why is it necessary to have another Victory Loan? Have you heard this query? Or have you asked it?

The Victory Loan of this year stands out as the bridge between war and peace. The war is over. Our boys won that. The reconstruction period is dawning and we at home must win that.

Much of the money that Canada is asking for will be needed to clean up the war debt. The expenses of demobilization were heavy, and there is still much of it unpaid. Now that our men are back, let it not be said that we repudiated the debt for bringing them back.

The sick and wounded soldiers still in hospitals are expecting that Canada will care for them and their dependents until they have been returned to health and strength. The hospital services must be maintained at full strength as long as there are returned men needing attention.

Many men through disability are unable to return to their pre-war occupations. The Department of Soldiers' Civil Re-establishment is doing a fine work in training returned soldiers in trades and professions that they can earn a living at, and is following up the training and seeing that they obtain remunerative employment. The maintaining of this branch of reconstructive service calls for much funds, and the Victory Loan will be used to pay for it as well as the other purposes.

Under the Soldiers' Land Settlement Act, enough money is lent to returned soldiers to enable them to buy and stock a farm. This money will be repaid at a low rate of interest. The soldier is thus given a chance to re-instate himself in civil life, and production is given a boost. Of the total amount of the forthcoming loan, $24,000,000 has been apportioned to finance these soldier farmers.

Pensions to the disabled and dependents of our glorious dead, as well as the authorized gratuities will be other items on the expense sheet. These are some of the obligations owing to the returned soldier who is now in health.

The maintaining of Canada's prosperity is an important reason why the Victory Loan should be a smashing success. The money is needed to finance the credits to overseas countries so that they may continue their trade relations with us. If Canada cannot give these credits other countries will, and then Canada will lose all that great overseas trade that has been the mainstay of our agricultural and industrial life for so long.

As an investment Victory Bonds are eminent. Paying 5½ per cent., selling above par on the open market, and guaranteed by the Dominion—what further reason can you have for hesitating? The Victory Loan 1919 ought to be oversubscribed, and all right-thinking citizens will do their utmost to see that such a result is obtained.

ALL TOGETHER ENDERBY

BUY VICTORY BONDS—
and enable your country to pay her debts of honor to her army. The eyes of Canada't living and fallen soldiers are on you today. Show you are worthy of the sacrifice they made. Over the top with the Victory Loan!

BUY VICTORY BONDS—
and enable your country to finance the sale Overseas of her surplus products from farm, forests, fisheries and factories, mill and mines. A glorious opportunity is open to Canada—the opportunity to sell all she can produce if she can grant temporary credit. She can grant the credit only if you buy Victory Bonds. Every extra Victory Bond you buy means more money to finence more orders.

BUY VICTORY BONDS—
because they are guaranteed by Canada's promise to repay at the time, and to the full amount, stated in the bonds. The income yield of 5½% is most attractive considering the absolute security. There will always be a ready market for Victory Bonds.

ALL TOGETHER, ENDERBY: BUY NOW!

ONE—to discharge Canada's obligations to her army.
TWO—to insure Canada's continued prosperity.
THREE—because Victory Bonds are the finest investment for your money.

Buy Victory Bonds

A Diamond as an Investmen

Surpasses even the old Fairy Tales! For instance, Diamonds ave advanced more than double in the past five years, and another advance of 40 per cent. is predicted before beginning of year.

A Diamond is not like other merchandise as it never wears out. It does not cost you continually for repairs. It continues to increase in value while all else depreciates. Whether you sleep or work, its value continues to increase. Meanwhile you have the prestige which attaches itself to one who owns a Diamond, to say nothing of enjoying its beautiful sparkle

At the beginning of this year we were able to take advantage of the market. While present stock lasts you have your opportunity, as we have not marked them up; but when present stock is sold, we must then procure more. We will necessarily have to buy at a dvanced prices and sell accordingly.

Suggest your early investment in Diamond Rings, Brooches or Pendants.

How to Finance Victory Bonds

F. W. ROUNSEFELL,
Treasurer Provincial Committee

FARMERS:

In the case of farmers, and others who do not receive returns until the end of season, bank managers are empowered to make loans against the 1919 Victory Bond issue for the period of one year, without requiring periodical reductions to be made in the interim.

BUSINESS MEN:

All business men may finance their Victory Loan purchases through their local bank, up to at least 90 per cent. of their purchases, without impairing their ordinary credits with the bank.

EMPLOYEES:

All bond purchases of employees may be financed by the employer through his local bank, up to 90 per cent. of the amount of the purchase. Weekly or monthly payments on account of purchase may be arranged through the employer.

INDIVIDUALS:

Anyone may purchase 1919 Victory Bonds on ten monthly instalments, by paying 10 per cent., and filling out an instalment card. These cards are handed to the bank specified by the purchaser, and the payments during the ten-month period paid in to the bank.

POWER OF LOCAL BANK EXTENDED:

By arrangement between the Finance Minister and the Canadian Bankers' Association, it is announced that where branch managers have a loaning limit for their branches, such limits are to be disregarded insofar as they may be affected by advances to finance 1919 Victory Loan subscriptions.

EVERYONE CAN AFFORD A BOND!

When you buy Victory Bonds, you simply exchange one kind of money for another.

A dollar bill is Canada's promise to pay.

So are Victory Bonds.

But Victory Bonds pay interest.

Consider the security behind Victory Bonds—Canada and all that is contained therein.

Consider the good rate of interest—Victory Bonds pay 5½%—nearly twice as much as Savings Banks.

Consider the saleability of Victory Bonds—their use as collateral for a loan; their prospective advancement in price.

Consider the purpose for which Canada requires the money—Cleaning up our obligations to the army and maintaining the prosperity of the country.

Are not these reasons the best in the world for exchanging one kind of money for another?

Should not every Canadian put all his weight behind this Loan?

Should not he exchange all the money he has for Victory Bonds?—and all the money he can save for the next ten months?

CANADA'S FUTURE DEPENDS ON LOAN

Steady Employment and Prosperity Hangs on Victory Loan.

Canada's future prosperity depends to a great extent upon the success of the Victory Loan. No country can exist upon trade within its own boundaries. Canada counts on the trade with Great Britain and other allied countries to keep the flood of good times in the country.

The surplus products of the farm and the factory find their way across the seas. The revenue of the farmer and the manufacturer is dependent on this trade relationship being sustained. The employment of many hands depends on the orders that come to the firm. The pay envelope only comes with steady employment.

Great Britain and overseas countries are still desirous of continuing trade relations, but, overwhelmed with war expenses, they must be given credits for the time being. The farmer and the manufacturer must be paid for their products and manufactured articles in cash. Therefore, Canada must finance the proposition to keep the tide of commerce coming this way. But in order to have the money on hand to do this great thing, Canada must borrow from her people.

The Victory Loan offers bonds to subscribers paying 5½ per cent. interest. The guarantee behind the bonds makes them an absolutely safe investment. Victory Bonds are accepted as collateral at any bank, and can easily be turned into money at a profit. It is then to the interests of every Canadian to subscribe for all the Victory Bonds he can, for it is profitable, it is patriotic, and it is necessary for the continued prosperity of the country.

CANADA NEEDS MONEY

War Expenditures Still to Be Met From Proceeds of Victory Loan.

The war is over and won; but Canada's main expenditures for war will not be complete until well on into 1920. The $610,000,000 raised last year has all been spent, $400,000,000 having been largely devoted to soldiers—to maintaining them, bringing them home, providing the necessary medical services, training them. Most of the balance of the loan was lent to Great Britain to enable her to buy our surplus products. And money is still necessary — for soldiers, for providing markets, for our surplus products, for the needs of reconstruction. And that is why another Victory Loan is necessary. Canada still needs money, and needs it badly.

A Good Investment.

Speculation is one thing. Investment is another. The majority of citizens want an investment, not a speculation. And they want a safe investment. Victory Bonds fill that requirement as does no other investment. Because behind every bond there is the national wealth of Canada—a wealth so great that it staggers the imagination.

Canadian Bank Clearings.

That Canada is well able to support the Victory Loan is clearly shown by the Canadian bank clearings for the current year. They indicate that the year's total will exceed $15,000,000,000 compared with $13,775,000,000 in 1918. And the year's total clearings should be three times those of 1909.

Must Subscribe More.

Dividing the people of Canada into three classes — the comparatively poor, the moderately wealthy, and the very wealthy — it would seem that if contributions to the Victory Loans constitute service to the nation, the moderately wealthy class is hardly doing its share. Of the money subscribed to the Victory Loan 1918, two hundred and seventy-one million dollars were in bonds of $5,000 and under, ninety-four millions in bonds of between $5,000 and $25,000, and three hundred and one millions in bonds of $25,000 and over.

Be true to yourself. Buy Victory Bonds.

You did it before. You can do it again. Buy Victory Bonds.

Canada pledged her last man and her last dollar. Redeem that pledge in Victory Bonds.

If the fighting were still raging, you wouldn't hesitate to buy Victory Bonds.

To make the Victory Loan a success is a national obligation. It may be that you are the deciding factor.

If you are concerned about the future welfare of Canada, buy a Victory Bond and make it a sure thing.

Don't forget the future of your children. Lay a good foundation with a Victory Bond.

Would you lend a soldier $50 if you knew it would save his life? Buy Victory Bonds and keep the military hospitals up.

If you appreciate a good investment you will buy a Victory Bond.

You deceive no one but yourself when you say you can't afford a Victory Bond.

Your money grows when it is in Victory Bonds, and it is always handy if you should need it.

MUST STAY WITH IT

Sergt. Lees, of Vancouver Gives a Soldier's Idea of "Seeing it Through."

Sergt. Harold Lees, of Vancouver, addressed a meeting of Enderby citizens last Saturday afternoon in the City Hall, and in the evening spoke in Armstrong on the merits of the Victory Loan. Sergt. Lees gave a soldier's idea of the civilians duty in connection with the war. The men who went to the front to fight the Empire's battles, fought to a finish, he said. They finished the job they set out to do. They did the fighting; they fought to victory.

The war was won, but it is not paid for; and it is the duty of civilians to stay with it as the soldiers staid with it in the trenches. The boys who went to the front did the fighting; it is up to civilians to do the paying.

Aside from this phase of it, Sergt Lees pointed out that it was always more difficult to awaken enthusiasm in the British public when no crisis was at hand, but he felt that the business feature of the loan should go a long way toward gaining the objective sought.

Grand Total Mounting Up

Late figures from all parts of the Dominion indicate that the Victory Loan 1919 is going to be oversubscribed. Figures for the first week of the campaign are eight in excess of last year's for the same period. Vancouver reached her quota in the first week of canvassing, and she has two weeks yet to go on. Her total up to noon on Monday was $7,710,000.

In all the coast cities the sale of bonds was more brisk the first week than at points in the Interior. However, the indifference which was manifest at the start of the campaign is gradually giving place to enthusiastic support of the canvassers, and we may confidently look forward to rapidly-mounting totals from now until the end of the campaign.

TO CARE FOR WOUNDED

Money From Victory Loan Will Be Used to Re-establish Soldiers.

Our soldiers in France faced perils other than those of shell and gas and machine-gun fire. There was the peril of tuberculosis. Up to August last 3,909 soldiers suffering from this disease had been returned to Canada. These were placed in sanitoriums under the direction of the Department of Soldiers' Civil Re-establishment, and they are one of the departments of that branch that must be maintained, and come under the head of capital war outlay.

All of these men and some 20,000 others, disabled or ill, will be looked after with money raised through the Victory Loan 1919. It is the sacred duty of Canadians that the money is forthcoming.

Credits Must Be Established for Sale of Surplus Products

Success of Victory Loan 1919 Will Insure Steady Markets for Farmers.

It takes some six bushels of wheat to feed the average person in Canada annually. Roughly, therefore, the eight million people here consume about 50,000,000 bushels each year. But even in a poor year the crop is some five times that amount, and the surplus must be sold if the farmers are to get a return for their time and labor. But the sale of the crop must be financed. Great Britain, which provides our greatest market, has not the ready cash; and so Canada must find means of raising the money. Hence the Victory Loan 1919. In view of the fact that the prosperity of the Dominion is dependent to a considerable extent upon the sale of her surplus grain the necessity of the money being forthcoming is patent.

Your dollar may be the last straw that sweeps the Victory Loan over the top. Would you take the chance of making it a failure?

Lend your money that your pay envelope may be always filled, as will follow the success of the Victory Loan.

Victory Bonds are the fodder that keeps the machinery of Canada's industrial world running at full speed.

A Faint Recollection.

The artist was painting—sunset, red, with blue streaks and green dots.

The old rustic, at a respectful distance, was watching.

"Ah," said the artist, looking up suddenly, "perhaps to you, too, Nature has opened her sky pictures page by page? Have you seen the lambent flame of dawn leaping across the livid east; the red-stained sulphurous islets floating in the lake of fire in the west; the ragged clouds at midnight, black as raven's wing, blotting out the shuddering moon?"

"No," replied the rustic shortly; "not since I signed the pledge."

A Victory Loan Message

NO soldier who fought in France and Flanders with the Canadian Corps was doing his full duty unless he was at all times prepared to go the limit; to pay with his life, if there was need of it, for the victory of the principles he was fighting for. No one who stayed at home does his today unless he is prepared to give up his last dollar if it is required to discharge Canada's debt to the men who, by fighting for her, were disabled for life; to the widows and orphans of her glorious dead; and to the returned men who need work provided that they may re-establish themselves and their homes. Canada's honor to her own sons is at stake with the success or failure of the Victory Loan.

Canada must not fail!

VICTOR W. ODLUM,
Brig.-General.
Vice-Chairman Provincial Committee.

Can You Forget?

As long as you live you'll remember November 11th, 1918—Armistice Day.

That was the day the enemy surrendered.

That was the way of Victory for our army.

Day after day—year after year—through rain, cold, heat and death—they had fought bravely, stubbornly, cleverly faithfully—the spearhead of fate pointing inexorably at the black heart of the enemy.

Remember the Somme? Ypres? Vimy? Passchendaele? Cambrai? MONS?

Can't you catch this brave spirit? Can't you see hom small is our task compared with theirs?

Shall we fail to lend our money to the country for which they gave their lives?

The Victory Loan 1919 must be a victory, too It is needed to pay our obligations to the army and to keep the fair name of Canada writ high among the nations.

THIS IS A WAR LOAN. CANADA NEEDS TO BORROW YOUR MONEY.

If the Victory Loan succeeds, it will be another Mons for Canada.

Automobiles, Supplies & Repairs Enderby

The Eyes of Canada are Upon Enderby

Every Allied Country has raised a loan from its people since fighting ended. They have all raised loans for the same purpose—to finish paying for Victory.

Of all that were in the war (from the beginning) Canada is the only one to some out of the struggle stronger than she went into it.

Canada has found herself—spiritually and materially.

With reason and pride Canadians can look to the future and proclaim their's in deed A Promised Land.

The Victory Loan which is needed to finish paying war obligations s the very barometer of our confidence in the future. In the measure of benefits.

Come through and come through handsomely.

It was fine enough to buy Victory Bonds when war was on the threshold, but it is the bigger thing to buy now—when the tumult is over.

Let's show the stuff Enderby is made of—Let's finish the job and let's see it through.

Let every citizen of Enderby to the limit of his ability

An Exchange of Money that Pays---

When you buy Victory Bonds, you simply exchange one kind of money for another.

A dollar bill is Canada's promise to pay.

So are Victory Bonds.

But Victory Bonds pay interest.

Consider the security behind Victory Bonds—Canada and all that is contained therein.

Consider the good rate of interest—Victory Bonds pay 5½%—nearly twice as much as Savings Banks.

Consider the saleability of Victory Bonds—their use as collateral for a loan; their prospective advancement in price.

Consider the purpose for which Canada requires the money—Cleaning up our obligations to the army and maintaining the prosperity of the country.

Are not these reasons the best in the world for exchanging one kind of money for another?

Should not every Canadian put all his weight behind this Loan?

Should not he exchange all the money he has for Victory Bonds?—and all the money he can save for the next ten months?

SAFETY FIRST

LET'S NOT GET COLD FEET

Go back a year—in memory.

Then we HOPED to win. We **believed** we would win.

We were willing to spend every cent in Enderby for Victory.

Every man, woman and child in Enderby was prepared to pay any price if only we could achieve Victory.

Now Victory is ours—complete and decisive Victory.

If you were asked to give to the Victory Loan 1919, you should do it in thankfulness for Victory

But you are not asked to give—only to **lend** your money. On the best security in the world. At a good rate of interest.

If every citizen of Enderby will make it his duty to support to the utmost of his ability the Victory Loan 1919, we can more than reach the quota set for us.

The money is here. Let's not get cold feet.

See that you have a pair of our Rubbers to keep the feet dry and warm—and get busy.

All Together Now---

Do It Again Enderby

The reaction from war to peace has been sudden and strong. Our courage may be a bit spent, our enthusiasm for service a trifle on the wane.

It needs a little effort and some determination to rekindle the old fire, but it must be kindled if the Victory Loan is to be a success.

Canada calls upon you therefore, for a renewal of your faith and a renewal of your effort.

And that can best be expressed if you do your utmost to inspire people to

THIRTY THOUSAND

Victory Loan Campaign in the Armstrong District Coming Along Satisfactorily.

That Armstrong will reach her objective in the Victory Loan campaign is now certain. The canvassing this year is probably not so well organized as it was last year, but it is in the hands of returned men, and they are not letting anything get by. They are, in fact, working from daylight till dark—and then some—with the results most favorable—more favorable in fact than was anticipated at the opening of the drive.

Up to Wednesday night the sum subscribed reached $30,000. This makes reasonably certain what is claimed by the committee—that the quota set for Armstrong will be fully subscribed.

The success of the Victory Loan is necesary to combine prosperity with peace.

When you buy Victory Bonds you have an investment you can be quite sure of.

NOTICE TO CONTRACTORS

SEALED TENDERS superscribed "Tenders for Enderby Bridge," will be received by the Honourable the Minister of Public Works up to noon of Wednesday, the 19th day of November, 1919, for the erection and completion of a Highway Bridge over the Shuswap River at Enderby, B. C.

Plans, specifications, contract and forms of tender may be seen or obtained upon payment of a deposit of $5, deposit to be refunded when plans are returned, on and after the 29th day of October, 1919, at the Department of Public Works, Parliament Buildings, Victoria, B.C. at the office of the District Engineer, Court House, Vancouver, B.C., and at the office of the Assistant District Engineer at Vernon, B.C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for the sum of ten per cent of the amount of the tender as security for the due fulfillment of the contract, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer.
Public Works Department, Victoria, B. C., 21st October, 1919. 3

You Don't Give--- You Lend

In deciding how many Victory Bonds you will buy, remember this important point—you are not giving—you are lending to your country!

You are lending at a good rate of interest.

You are lending on the highest security.

You are lending to maintain your own and your country's prosperity.

In your own personal interest you should make strenuous efforts to buy as many Victory Bonds as ou possibly can.

You couldn't put your money in a better place.

You want ot save money—everybody does.

It is the only way to get ahead.

And Canada needs to berrow your money to bridge the gap from War to Peace.

It's your duty to lend.

Take the proper view of this Victory Loan.

Say to yourself—"I am going to buy all the Victory Bonds I can pay for now and in the next ten months."

What if it is an effort to pay for them.

Look ahead a little.

Think of what you will own when your Victory Bonds are finally paid for.

Every cent you pay on your Victory Bonds you lend to your country—you save!

Remember that, and
